

**I N S I D E:**

**LISTEN LIKE A LISTENER**

It's tempting for PDs to program stations to impress their peers — but the ratings come when the programming impresses the local audience. By listening to your station the way your listeners do, you can serve your market more effectively. **WEZB/New Orleans OM/PD Bob Mitchell** defines this concept of "receiver-oriented radio."

**SENATE RAISES SPECTRUM FEE SPECTER AGAIN**

Seeking \$450 million in revenues, the Senate is reconsidering spectrum fees and transfer taxes — regarded by **NAB** about as favorably as ringworm and head lice. The group is up in arms attempting to exterminate the proposal.

**DON'T LET THE NUMBERS FOOL YOU**

**Tom Birch** makes his living selling ratings numbers, but he's well aware of the abuses sloppy interpretations of the numbers can breed. Citing sample size, seasonality, and several other factors beyond a station's control, he makes the case for a reasoned look at the raw data.

**Washington communications attorney Thomas Root**, the "miracle pilot" who survived a plane crash at sea and a gunshot wound, has dropped from sight after leaving his **Florida hospital** ahead of schedule on **Monday (7/23)** amid a rising tide of legal woes.

# Hayes Appointed WLS PD

WKRC/Cincinnati PD Drew Hayes has been named PD at WLS/Chicago. The longtime Talk programmer joins the Cap Cities/

ABC AC station amidst widespread speculation that WLS will soon convert to a fulltime Talk format.

Noted WLS President/GM Tom Tradup, "I am very, very pleased that Drew will be joining the new WLS team. His enthusiasm, his knowledge of Talk programming, and his sharp competitive spirit will serve Chicago well in the exciting days ahead."

Prior to joining WKRC Hayes was a talk host and programmer at WMAQ/Chicago, a personality at WTVN/Columbus, News & Public Affairs Director at KKDA-FM/Dallas, and OM at WPLP/Tampa. He has also been a talk host on Miami stations WNWS and WKAT.

# Heatherly Joins Atlantic Nashville

Heads Promotion & Marketing

Bob Heatherly

R&R/Nashville Director/Sales Bob Heatherly has been named Director/Marketing & Promotion for Atlantic's new Nashville division.

Heatherly said, "The time I've spent with R&R has been incredibly rewarding. Working with this truly professional group of people has been a highlight of my career. But when (VP/Operations) Rick Blackburn laid out the vision of what he and (VP/Creative Services) Nelson Larkin want to build at Atlantic/Nashville, I knew it was something I wanted to be a part of."

Blackburn commented, "Bob was a competitor of mine for years, so I know he's a great promotion man. When the Atlantic position came up there was no decision to make. Atlantic is proud to have someone of Bob's talent and experience join us."

Heatherly joined RCA in 1972 as a sales rep and was promoted to Branch Manager for RCA/A&M, based in Washington, DC. As a New York-based Regional Sales Director in 1981 he was responsible for branch operations in New York, Boston, Philadelphia, and Washington.

## R&R Stock Exchange New Paper For Newspaper

Last week, the R&R you read was brighter. This week it's neater. It's not because we suddenly got smarter and cooler... it's the new "Electra-Bright" paper stock we've started using, which makes everything look sharper and clearer, and a process called "face trimming" which makes it easier to turn the pages in this week's issue.

The new paper also keeps our ink on the paper longer, reducing the inkstain factor. That will have a drastic effect on radio and record biz fashions, which have always considered a light coating of R&R ink on the hands and clothes to be the finishing touch on any truly hip outfit. But that's progress. We hope you like our new look.

Harvey Stone

# Stone Pres./GM At KBFN & KBLX

KBFN & KBLX/San Francisco GM Harvey Stone has been promoted to President/GM at the Inner City combo.

Inner City Chairman Percy Sutton said, "For the past nine years, Harvey Stone has overseen the growth and success of the 'Quiet Storm,' KBLX, and helped bring an innovative alternative to AM radio. KBFN features stock reports, live talk shows, and financial programs."

Stone told R&R, "This appointment gives me the opportunity to pursue and develop future projects for the Inner City Broadcasting Company."

NAC KBLX tied for 15th 12+ (2.3) in the spring Arbitron, and tied for 13th (2.7) in the corresponding Birch. KBFN, formerly KBLX (AM), did not show in either sweep.

## FLIPS TO CHR

# KLTH Taps Johnson As PD

Derek Johnson

KLTH/St. Louis will flip from NAC to CHR Wednesday (8/2), the same day sister AM KXOK changes from News/Talk to News. Derek Johnson, formerly MD/mid-day personality at CHR KZOU/Little Rock, has been named KLTH PD, and the station's new calls and on-air lineup will be announced when the changeover takes place. Both stations will be consulted by Lee Bailey.

KXOK & KLTH VP/GM Michael Frischling commented, "KLTH will be a mainstream CHR that plays the hits for St. Louis and is programmed against the weaknesses of format competitor WKBQ. We definitely feel there is a major hole in this market for another CHR, and we aim to fill it. The station will not be personality-driven; we will be a music-intensive CHR playing as much music as we can per hour."

This is the first programming job for Johnson, who has previously worked at WEGX (Eagle 106)/Philadelphia and WKZW (KZ93)/

# Williams Pres./GM At WECK & WJYE

Williams Broadcasting owner Bob Williams has assumed President/GM duties at WECK & WJYE/Buffalo. He succeeds GM Chris Ackerman, who remains at the Music Of Your Life/Lite AC combo in a sales capacity.

Williams was not available at presstime. Station Manager Zim Barstein commented, "The radio market here is getting ready to explode because of the 'free trade act,' making Buffalo the main point of entry between the US and Canada. We are the number one-selling combo in the area, so this is a very exciting time us."

Williams previously owned WEZN/Bridgeport, CT; WHLI & WKJY/Long Island; and other stations along the East Coast. He started his broadcasting career in the rep business with Ralph Guild.

In the spring ARB, WJYE is ranked #1 12+ (11.2) and WECK is ranked seventh (5.8).

# Ward PD AT WAXY

WAXY/Miami MD/Research Director Michael Ward has been promoted to PD of the Gold-based AC station, retaining his previous duties. He succeeds Kenny Lee, who exited in January to program WFYR/Chicago.

Ward told R&R, "I'll be working on marketing, positioning, and making sure our music is right through perceptual and auditorium testing. Right now we're third in the market 25-54; obviously, our goal is to be number one. The market is in an upheaval right now, and I see a lot of changes coming that will allow us to strengthen our position."

Ward is a 14-year WAXY veteran. His prior duties at the station have included sales and promotions posts, and he also has served as Director/Special Projects.

WAXY tied for fourth 12+ (4.7) in the spring Birch, and tied for 12th (3.2) in the corresponding Arbitron.

## KWJJ Picks Kern As GM

Former KBZY/Salem, OR principal and VP/GM Michael Kern returned to the station where he first worked 25 years ago when he was named GM for Park Communications' KWJJ-AM & FM/Portland last week. He replaces Dave Pedersen, who exited the Country combo.

Park VP/Radio Operations Bill Fowler told R&R, "Though the previous management was doing okay, we felt we needed someone more in touch with the local scene and the local advertising community to give us more of a presence. Michael's ties to the community and the fact he ran his own operation were the overriding factors in his selection. Plus, he has a great personal affinity for the stations."

Kern, who did odd jobs including changing tower lights for the station while a youngster, told R&R, "This is the realization of a goal I set in grade school. I have great respect for what this station is all about and the commitment it has to

Michael Kern

the city. Park knows I'm committed to this city and state as well. With all the great people who work here, I look forward to great things for these stations."

Kern continued to work at KWJJ through high school and college. Around the time he graduated Park purchased the stations, and Kern stayed on in sales for a couple of years. He left in 1974 and was involved in a number of ventures prior to co-purchasing KBZY in 1981.

Epic and CBS execs welcomed Jefferson Airplane to the family during a studio visit. Looking forward to an August release are (standing, l-r) CBS Exec. VP Mel Ilberman, band member Paul Kantner, producer Ron Nevison, CBS Sr. VP/West Coast GM Myron Roth, the group's Marty Balin, Epic VP Larry Stessel, Epic/Associated President Dave Glew, the group's Jack Casady, engineer Greg Edward, manager Trudy Green, and Epic Sr. VP Don Grierson; seated are band members Jorma Kaukonen and Grace Slick.

## Achenbach Becomes GM At KYTE & KKCX

KIIQ/Reno VP/GM Lon Achenbach has returned to Portland as GM of Classical/NAC combo KYTE & KKCX. He replaces Bob Scherner, who has left the stations.

Achenbach told R&R, "I got a tremendous opportunity from (station owner) Charles Buckley to take charge and run with these two

stations. I learned most of what I know about this business on the streets of Portland, and I think both stations have a lot of potential.

"We just switched Classical from the FM to the AM," he continued. "We need to let the people in Portland know that the AM is playing the kind of music they want to hear. On KKCX, we are going to evaluate the format, make sure it's viable for the market, and then begin a comprehensive marketing plan. By default, (crosstown NAC/AOR) KINK has had a virtual lock on the audience we want. We've had hundreds of letters telling us people support what we're doing. The only thing we haven't done yet is a mass media campaign."

Prior to his two-and-a-half years at KIIQ, Achenbach spent ten years in Portland as Sales Manager for CHR KKRZ (Z100), and was in sales and sales management at Full-Service AC KEX.

KKCX ranked 13th 12+ (2.5) in the spring Birch and 17th (1.7) in the corresponding Arbitron; KYTE tied for 20th (1.1) in Birch and tied for 18th (1.0) in Arbitron.

## KKFX Segues To Urban

Bingham Communications' KKFX/Seattle has segued from Heart & Soul back to Urban.

KKFX GM Bob Wikstrom told R&R, "Last fall the station did some fairly extensive research in Seattle that showed 'Heart & Soul'-type music tested very well against Urban, so we went with it - although we kept mornings live and played current material in that daypart. The ratings didn't really move one way or the other; the biggest change in the audience was that we started attracting an older demo and lost some teens."

"When I came back in January we decided we wanted to do more local programming and promotions, so a couple of months ago we took back afternoon drive. Then we took nighttime back, and then mid-days. We're still running 'Heart & Soul' from midnight to 6am, and may keep on doing so, but otherwise we're back to pretty much where we were as an Urban."

KKFX PD/morning man Deacon Baker said, "Heart & Soul served a small percentage of Seattle, but most of the people here want the more current music. We're not going to shy away from the Bobby Browns or the Guys - we're going to mix them in. We'll be the rhythm of Seattle."

## For The Record

Roy Lott

Jim Cawley

Roy Lott and Jim Cawley were misidentified in photos accompanying last issue's "Lott, Cawley Elevated To New Arista Posts" story (R&R, 7/21). They are correctly identified above.

In the same issue, Chuck Colley's name was misspelled in a story about his appointment as Managing Editor at KXOK/St. Louis.

In the story "New Edition/Guy Scuffles End In Fatal Shooting" (R&R, 7/14) the victim of the shooting should have been identified as Guy security manager Anthony Bee.

A WESTWOOD ONE COMPANY

Subscription Information (213) 553-4330

“We are thrilled with the success we’ve had working with The Research Group here in Philadelphia. In the spring book, EAZY 101 had a 7.6 share with adults 25-54 — ranked #2 — which is the highest in the 26 year history of the station.\*

Thanks to the crystal clear direction from The Research Group, we’ve successfully made a transition few easy listening stations have been able to make. EAZY 101 was a very successful beautiful music station. However, research showed us that the future for the format was bleak, especially with the key 25-54 demo. So we worked with The Research Group to custom design a new format that would bridge the gap between beautiful music and adult contemporary. The result is ‘Special Blend,’<sup>SM</sup> which is now available through Transtar. Not only is the format compatible with our older audience, but as the results show, it’s doing great with the desirable 25-54 demo. The numbers are going through the roof, and I don’t think we’ve seen the end.

The Research Group gave us the confidence and knowledge that we were on the right track. They are the finest radio research organization in the country.”

# NAB Says No To Spectrum Fees And Transfer Taxes

The Senate Commerce Committee is looking for \$450 million in additional revenue to beef up its budget reconciliation bill, and has indicated that spectrum fees and transfer taxes will be discussed as part of the hunt for added revenue. NAB President Eddie Fritts, however, stands opposed.

The Committee considered legislation last Thursday (7/20) which included an across-the-board "cost-of regulation" fee increase of approximately 12%, and found it would only raise an additional \$41 million in revenue.

The NAB has wasted no time mobilizing its lobbying forces and flooding the Senate with letters. In a letter to Committee Chairman Ernest Hollings (D-SC), Fritts reiterated NAB's "continued opposition" to spectrum or transfer fees.

"We accept the increases in cost-of-regulation fees which are included in the initial staff draft, although the fines and forfeiture provisions seem excessive," he said. Fritts warned the NAB Board of Directors of an "all-out effort" to fight the potential transfer tax or spectrum fee.

"We are putting the full-court press on members of the Senate Commerce Committee," said Fritts. "We are individually and personally meeting with each senator and senate office on this issue."

"strenuous objection" to including any spectrum fee or transfer tax proposal in this legislation. "We are in a game of political hardball and will be pitted against other industries who are also on the laundry list," he said. "Whoever generates the biggest and most effective

## FCC Nominees Go To Hill Monday

**A**t long last, **Al Sikes** will head to Capitol Hill next Monday (7/31) for a grilling by the **Senate Commerce Committee** over his nomination as **FCC Chairman**.

Joining Sikes in the limelight will be **President Bush's** other two Commission nominees, Washington communications lawyer **Sherrie Marshall** and **Illinois Commerce Commission** member **Andrew Barrett**. The action begins at two in the afternoon, and committee staffers are not giving any bets on how long the hearings will last.

Sikes filed a financial disclosure statement last week with the committee, detailing the ownership of a promissory note resulting from the sale of **KRMS-AM & FM/Osage Beach, MO**.

According to the Office of Government Ethics, Sikes will either divest himself of the note — reportedly worth more than \$250,000 — or transfer interest in it to his wife. He's also agreed to bow out of any regulatory matters involving **KOMC & KRZK/Branson, MO** — because that combo is owned by his father and brother.

### Jesseradio: New DC Format?

**Jesse Jackson** lurking behind the scenes of a pending DC radio buy? In a meeting here last week with black journalists, Jackson said he's interested in buying a station. Now the *Washington Times* hints that **WYCB/Washington** may be the focus of his interest.

# No Surprises In Dingell's Fairness Doctrine Report

In a report prepared by Rep. John Dingell (D-MI) and the House Energy & Commerce Committee last week (7/19), the FCC was hit with severe criticism of its handling of the Fairness Doctrine issue — to no one's surprise. The report called the logic used in the Commission's 1987 repeal of the doctrine "factually flawed," "based on erroneous legal analysis," and "entitled to no deference."

"The Commission based its criticism of the Fairness Doctrine more on a general desire to remove the government from the communications market, and on a philosophical antipathy to the system of broadcast regulation laid down by the 1934 Communications Act, rather than on an empirical analysis of the broadcasting marketplace," the report said.

## FCC Failed To Inform Public, Industry

The Committee reprimanded the FCC for not considering the responsibilities of broadcasters as trustees of a valuable public resource and pointed out the doctrine's importance as a "means of vindicating the public's right to diverse and antagonistic sources of information."

The failure of the FCC to distribute a primer explaining the doctrine is blamed by the Committee for "a great deal of broadcasters'

fear of the Fairness Doctrine and their belief that it chills their First Amendment rights."

"If broadcasters had access to the primer, many of their misconceptions and fears would be resolved," the Committee said. "The Commission, rather than demonstrate the ease with which broadcasters may comply with the Doc-

trine, has left them unenlightened, causing unnecessary confusion and distress."

## Justice: Doctrine Unconstitutional

Thomas Boyd, Asst. Attorney General, argued that the Fairness Doctrine bill "unconstitutionally offends the requirements of the First Amendment."

"The purpose of the First Amendment is to help assure that the people are adequately informed about public issues, not to assure that they are adequately informed by one particular medium or group of media," said Boyd.

In May, Alexis Herman asked the FCC for permission to buy the bankrupt AM gospel station for \$3.45 million. Herman doesn't have any broadcast experience, but she's long on political savvy. She is currently the chief of staff to Democratic National Committee Chairman Ron Brown (himself the co-owner of Urban powerhouse WKYS/Washington), and she's a veteran Jackson aide. Her consulting firm, Herman & Associates, monitors minority participation agreements set up by Jackson's Operation PUSH with companies such as Coca-Cola and Burger King.

Listed on the FCC forms as Herman's partners are Gloria Gutierrez, a lawyer with Jackson's Rainbow Coalition, and Patricia Kinch, a public relations consultant who has worked for Jackson. The Reverend himself doesn't show up on the ownership application. Herman says she hopes to close the deal next month.

Jackson's been seen in DC in recent weeks, with aides spreading the word that he's considering a mayoral campaign here next year.

## FCC's EEO Rap Sheet Keeps Growing

**W**DAR & WMWG/Darlington, SC is the latest target in the FCC's continuing proactive investigation of EEO violators.

The combo has been fined \$12,000 and given a short-term renewal with reporting conditions. FCC investigators discovered that minority recruitment sources were not contacted for any of ten fulltime job openings over a year's period.

In addition, the stations were unable to supply the Commission with paperwork backing up their minority employment practices. The moral of the story: make an active effort to hire and promote minorities — and document your actions to the hilt.

In another FCC enforcement action, KIQI/San Francisco has been whacked with an \$8000 fine for failure to light its towers, and another grand for marking station logs to indicate the lights had been inspected and were functioning.

"Local FCC offices will continue their close scrutiny of towers," warns Field Operations Bureau chief Richard Smith. "This is a safety-of-life issue which FCC licensees must recognize and become more sensitive to."

## NAB Says No To Spectrum Fees

Continued from Page 6

grass roots lobbying effort will be the one who escapes any new taxes or fees."

## No Fairness Provisions

The Senate Commerce Committee has indicated that it will not add provisions for Fairness Doctrine legislation as recommended by the House Energy & Commerce Com-

mittee, but will adopt FCC fine increases proposed by the House, including the raising of the basic minimum FCC filing fee to \$35.

Other fees that may increase are: 1) Commercial radio, new and major change CP for AMs, \$2255; FMs, \$2030; AM license, \$370; FM license, \$115; and 2) FM translators, new and major change CP, \$425; assignments and transfers, \$80; licenses, \$85.

## OVERVIEW

# MANAGEMENT

## Pocket PC Tracks Travel, Business Expenses

The business of keeping track of traveling business expenses has moved into the computer age with the debut of the "Travel Personal Expense Tracker," otherwise known as the "Travel PET."

Designed by Canton, MI-based **Focused Marketing Systems Inc.**, Travel PET is a hand-held (4" X 5") computer with enough memory (32k) to store more than 500 expense items or 16 pages of information into 25 different categories.

The battery-driven device displays its entries on a four-line, 20-character screen, and comes with built-in features that make it difficult to lose stored "notes."

### Can Be Linked To Desktop PCs

Once back from the confab or convention, you can transfer Travel PET's memory into expense-report form either by using a desktop PC equipped with a Lotus 1-2-3 spreadsheet or dBase data-based software, or the company will write a translator program to fit other software.

The computerized pocket accountant retails for \$475 (software included), or you can work out a "lease program" to evaluate the device. For more info, call the company at (313) 454-1010.

## Professionals Spending More Time On Job

Despite the boom in office technology, 85% of US professionals work at least 45 hours per week. According to Pittsburgh-based management researchers Michael Fortino & Associates, 82% of these same folks also have at least 36 hours worth of work on their desks at any given time, and — dazed from the deluge — 63% of professional workers will pick up the same paper from their desks as many as 21 times a day.

The hectic work pace of today's workplace cuts into the time these professionals have to spend on personal activities. For example, 42% of the professionals surveyed said they haven't attended the theater, an art gallery, or any other cultural event this year, and more than half (59%) said they don't participate in any type of volunteer work.

What's more, 42% say they don't read to their children, and 52% claim to spend less than two hours per week supervising their kids.

Not surprisingly, 48% of professionals say that they suffer from negative stress every day.

## Voiceover Hotline To Expand

The Olney, MD-based Producers' Audition Hotline recently announced plans to expand into the New York market this summer and the Los Angeles market in early 1990.

By calling the hotline, interested parties currently can audition more than 80 AFTRA/SAG voiceover talents at no charge by listening to demo tapes via a touch-tone phone.

The company has also recently finished its fourth annual directory, which is free upon request. For further info, phone the firm at (301) 924-5700.

## AMAZING, BUT TRUE

### Job Candidates Or Comedians?

When San Francisco-based Robert Half International recently asked VPs and personnel directors for 100 major US corporations to list the most unusual things they'd heard of happening during a job interview, the company was scarcely prepared for some of the answers.

Here are R&R's top ten personal favorites from the survey's personnel file:

10) "He dozed off and started snoring during the interview."

9) "Not only did he ignore the 'No Smoking' sign in my office, he lit up the wrong ends of several filter-tip cigarettes."

8) "Stretched out on the floor to fill out the job application."

7) "She wore a Walkman and said she could listen to me and the music at the same time."

6) "Balding candidate abruptly excused himself. Returned to office a few minutes later, wearing a hairpiece."

5) "Job applicant challenged the interviewer to arm-wrestle."

4) "Refused to sit down and insisted on being interviewed standing up."

3) "Man wore jogging suit to interview for position as financial vice president."

2) "Said if he were hired, he would demonstrate his loyalty by having the corporate logo tattooed on his forearm."

1) "Interrupted to phone his therapist for advice on answering specific interview questions."

## \$30 MILLION PROJECT

## Time To Launch Weekly Entertainment Magazine

Time Inc. recently announced plans to launch *Entertainment Weekly* — a magazine featuring reviews and other cover-

age of music, movies, videos, television, and books — next February. The publication will be the company's first major new maga-

zine since its TV-Cable *Weekly* folded six years ago.

According to a company spokesman, the glossy magazine is a spin-off of Time Inc.-owned *People* magazine's popular "Picks & Pans" column. Not surprisingly, the company has tapped Jeff Jarvis, who headed the Picks & Pans section, to be managing editor of the new publication.

*Entertainment Weekly* will have an initial circulation of 500,000 subscribers, and will sell on newsstands for \$1.95 per copy. Estimated cost of the launch: \$30 million.

## 'ZINE SCENE

Cher Swears By  
Psychic Facelifts!

Multi-media megastar Cher may enjoy being the older woman, but she doesn't enjoy looking her 43 years young. This week's *National Examiner* reports that the navel-baring singer/actress has been undergoing psychic facial treatments since 1985!

Psychic facials start with a cleansing and a 20-minute mask, during which subjects are urged to "get in touch with their higher selves."

It's in this semi-trance state that the psychic healer scans the subject's aura for imbalances and channels the spirit guide, Omra, who in turn "does a blessing and a healing by speaking through" the psychic.

## Toy Boy Tour '89

Speaking of La Cher, the *Globe* reports that the boys in **Bon Jovi** were so bemused by the former Mrs. **Gregg Allman's** following new flame/guitarist **Richie Sambora** around on the road these days that they planned to issue T-shirts emblazoned with the logo "Toy Boy

SPIRIT IN DISGUISE — Cher, or is it Omra?

Tour 1989." However, upon seeing how s-e-r-i-o-u-s the lovebirds really are, the Jersey guys decided to leave the jokes to us professionals.

## The Best-Laid Plans

So how do the **Rolling Stones'** wives/gal pals plan to keep Mick-Keef-Ronnie-Charlie and — especially — Bill away from the fleshy temptations o' the road this year? According to the *Star*, they're all going out on tour with the aging but still energetic Lotharios.

## Mid-Summer Travel Forecast: Short Trips Will Be Hot

Planning a hot summer promotion? Call your travel agent. Summer travel is expected to break records this year, as more Americans will be hitting the road.

According to the latest forecast from the Washington, DC-based US Travel Data Center, Americans will take 330 million "person-trips" (defined as one person traveling 100 miles or more away from home) in 1989, up 3% from last year's levels.

Trips of up to three nights in

length will make up more than half of all summer travel, but the average number of nights spent away on each journey will remain 5.5. Travelers also will be sticking closer to home — 52% of all trips will be under 500 miles round trip.

Car travel is by far the hottest mode of transportation, accounting for 83% of all this summer's proposed vacation travel. Fifteen percent of the population will travel by air, while only 1% will take either a bus or train.

## Research Refusal Rates: Most Up, Some Down

If it seems like it's getting harder and harder to find consumers who are willing to take part in your station's research, you might be right.

Although the country's refusal rate — total who refused divided by total who were asked — has held steady at 38% from 1985 to 1988, there have been some major changes during this period, according to a recent survey conducted on behalf of the Chicago Public Education Program. For example:

- Personal interview refusal in door-to-door studies increased from 29% in 1985 to 36% in 1988.

- Refusal rate for five-minute interviews climbed from 21% to 27%.

- Refusal rate for the Northwest, which has the highest rate of all regions, increased from 41% to 49%.

- When the subject wasn't mentioned to the interviewee, refusal rate rose from 42% to 45%.

- Subject matters that showed the highest increases in refusal rates were household cleaners (37% in '85 vs. 57% in '88), health foods (34% vs. 54%), and foods in general (41% vs. 47%).

- Categories with the greatest decrease in refusal rates were leisure time (38% in '85 vs. 19% in '88), services (40% vs. 27%), and retail (50% vs. 43%).

## Planned Destinations

Americans seem to be looking for fun and excitement on their vacations rather than rest and relaxation. Regionally, the sunny spots always win — the Southeast will attract the greatest number of visitors this year (27%), followed by the West (23%) and the Midwest (17%).

Here are the destinations travelers plan to visit this year:

Place	Percentage
City	30%
Ocean/Beach	28%
Small town/Rural area	15%
Mountains	6%
Lake area	6%
State/National park	6%
Theme/Amusement park	6%

## Wristband May Prevent Motion Sickness

Recent tests show that the "Sea-Band," a woven, elasticized band that's worn on each wrist, may be helpful in controlling motion sickness. Here's how:

Small plastic buttons embedded in the one-inch-wide bands apply slight pressure to an acupuncture point between the two tendons of the inside wrist — the spot that controls nausea, according to Chinese medicine.

The Sea-Band is reported to help prevent morning sickness, postoperative sickness, and nausea from chemotherapy. It's even said to be effective after nausea has set in.

A spokesman for the band's manufacturer, West Palm Beach, FL-based Souwest Bands Corp., says the device is undergoing medical trials to satisfy the Food and Drug Administration.

Meanwhile, the Sea-Band can still be sold in the US, provided the

company makes no medical claims for its product; i.e., speaking only of "the effects of rough seas" rather than "seasickness."

## Americans On Peanut Butter Binge!

Start spreadin' the news. Between August 1988 and March 1989, Americans ate a record 575 million pounds of peanut butter — an 18% increase over the same eight-month period a year earlier.

Putting these statistics where its mouth is, the Washington, DC-based *Trend Letter* calculates that's more than enough of the gooey goober to make eight billion peanut butter sandwiches. Concurrent figures for jelly were unavailable. . .

## Why We Buy Bottled Water

One out of every ten adult Americans purchased some brand of bottled water last week — a figure that's double the number of five years ago, according to a recent survey conducted by the NYC-based Roper Organization.

When asked why they chose to buy bottled water, 42% of those polled said it's because they were concerned about the purity and safety of their tap water. Another 33% claimed to prefer the taste of bottled water, and 19% cited both of the abovementioned reasons. Gulp.

## How Men Spend Their Clothing Dollars

Sales of menswear soared to an all-time high of \$30.2 billion last year, up 6% from 1987. To better serve today's fashion-conscious male, retailers are now putting men's clothes together in coordinated collections rather than dividing clothing into areas by item.

Although men's sportswear at every price range is selling better, it's the "moderate and up" category that's really blossoming. Check out the chart below for some sales statistics from last year:

Clothing type	Unit sales (in millions)
Outer jackets	41.2
Blazers/Sport coats	17.4
Knit sport shirts	286.7
Woven sport shirts	173.5
Dress shirts	164.8
Sweaters	110.8
Jeans	153.7
Slacks	168.8
Suits	14.9
Underwear	688.0

## UPI Sets Two New Execs

Capps Sr. VP/Corporate Affairs; Oziel Radio ND

Milton Capps has been named Sr. VP/Corporate Affairs at UPI. Additionally, David Oziel has been promoted to ND of the UPI Radio Network, and will report to VP/News Mike Freedman.

Regarding Capps, UPI President Paul Steinle noted, "With the initial turbulence of the UPI financial turnaround behind us, corporate affairs will shift its focus to allow UPI to respond more effectively to business trends and to signals from clients, potential clients, employees, and others who hold stakes in UPI's future."

Said Freedman, "David Oziel is well-respected and well-liked by

the staff and has proven his abilities as a take-charge progressive news manager."

Capps previously counseled UPI and other companies while Exec. VP of the Washington, DC public affairs firm John Adams Associates.

Prior to joining UPI, Oziel had been producer at WGST/Atlanta and Assignment Editor for crosstown WSB-TV.

In other UPI news, Editor/correspondent Kate Murphy has been upped to Business Editor, Exec. Assistant Jo'Ann Scott-Woods becomes network OM, and Ken Robinson has been upped from Sr. Editor to "UPI Roundtable" producer.

## Hendry Becomes PD At KGLD

KGLD/St. Louis midday air personality Dave Hendry has been upped to PD/morning man. This is his first programming job. Hendry replaces Gary Brown, who assumes the midday slot.

Hendry told R&R, "I'll restructure the music and recategorize what we have. Currently we play music from the '50s, '60s, and '70s. I think we're going to go with a real strong '50s sound that people immediately recognize, and we'll dump the clunkers. I'd like to lean toward a Classic Hits angle, because 'Oldies' has some stodgy connotations. Also, we'll play as few early '70s songs as we can so nothing sticks out like a sore thumb. That's the biggest problem I've had with the format the last couple of months."

Prior to joining KGLD last September Hendry held on-air posts at stations including KRNQ/Des Moines and KHTR/St. Louis.

KGLD registered 0.7 in both the spring Arbitron and Birch sweeps.

## WJQI Appoints Whitlow GSM

WNVZ (Z104)/Norfolk GSM Bill Whitlow has been named GSM at crosstown Gold-based AC WJQI, where he will direct a six-member staff. WJQI did not previously have a GSM.

Whitlow told R&R, "There are probably four or five really good stations here, and we're one of them. Right now we may not be getting our share of the billing, either locally or nationally, but I anticipate some strong gains in both areas. We will be looking at changing our rate structure for the better."

Before his two-and-a-half-year stint at WNVZ, Whitlow spent seven years as an AE at the city's WWDE.

WJQI placed seventh 12+ (5.4) in the winter Arbitron, and 12th (3.0) in the spring Birch.

## Root

Continued from Page 1

exact nature of the charges was not disclosed.

Root's home telephone in Alexandria, VA has been changed to a nonpublished number, and he could not be reached for comment.

Further light was shed on Root's relationship with Sunrise Wednesday (7/19) when the investment firm filed a \$584,600 malpractice suit against Root in Washington's US District Court. The 16-page breach-of-contract and conversion suit alleges that Root and his law firm "failed to perform in accordance with the professional standards applicable to a licensed attorney."

Despite paying Root more than \$1.9 million in fees since 1986, Sunrise accuses the lawyer of misusing client funds and double-billing Sunrise for nearly \$100,000. Among the suit's allegations:

- Root "failed to appear" for depositions and "failed to file an opposition to a motion to dismiss" the application of Glory FM LP for an FM CP in Calhoun, TN. The partnership's application "was dismissed for lack of prosecution" on April 13, 1989. The suit also cites four similar cases involving Omega FM LP's application in Omega, GA; Biltmore Broadcasting Inc.'s application in Biltmore Forest, NC; Murrell's Inlet Radio LP's application in Murrell's Inlet, SC; and Radio Franklin LP's application in Windsor, VA.

- In November 1988 Sunrise paid Root \$40,000 to purchase the construction permit of an FM station in Galva, IL. "The funds were to be paid into and held in the (law firm's) escrow account pending the execution of the purchase agreement. The purchase agreement was never executed and the funds were never paid by defendants to the seller of the Galva construction permit," the suit says.

- Sunrise claims to have overpaid Root \$54,200 from April 1987 through August 1988 as a result of a double-billing scheme. In addition, Sunrise twice paid a \$45,000 escrow account deposit to fund the purchase of a Texas CP. "Sunrise has demanded the return of these overpayments from defendants, but the overpayments have not been returned," the suit says.

- On August 25, 1988, Sunrise gave Root \$75,000 on behalf of Omega FM LP. The money was supposed to go into the escrow account of Root's law firm to fund a settlement agreement payment. "The settlement agreement was never executed and the funds were never paid by defendants to the other applicants for the Omega construction permit," the suit says.

- In a separate transaction in April 1989, Root twice bounced a \$75,000 check (payable to Sunrise Chairman Ralph Savage) from his escrow account. According to the suit, in a subsequent phone call to Savage, "Root admitted that neither he nor the (law firm) had funds available to cover the check written on the escrow account."

Georgia Dentist Sues,  
Bar Association Snoops

Dr. Kenneth Bazemore, a dentist from Byron, GA, is also making a

federal case over that bounced check. He's suing Root in the US District Court in Macon, GA, alleging breach of contract, professional malpractice, and fraud. He's demanding \$75,000 plus an unspecified amount in legal fees and punitive damages.

Another allegation against Root came last Friday (7/21), when *Newsday* reported that District of Columbia Bar officials are investigating charges that Root may have misappropriated client funds placed in an escrow account as part of a settlement of a Twenty-nine Palms, CA television licensing case. *Newsday* said the complaint was brought by Lauren Colby, a Frederick, MD-based communications attorney, who declined to discuss the grievance.

Misappropriation of client funds from escrow accounts is considered to be a serious offense and often results in disbarment, according to DC Bar counsel Thomas Flynn.

## Gehron

Continued from Page 1

There has been tremendous speculation that WNUA will be changing formats soon. Gehron told R&R, "You can hear it from my lips — we're not changing formats. It's going to be fun working with (WNUA PD) Bob O'Connor and (Asst. PD/MD) Mike Fisher to see what we can do. The people there have worked very hard so far, and we're going to try to take it to the next level."

"Frankly, I'm very intrigued by the format and personally enjoy it," Gehron added. "I'm anxious to see how far we can take it."

Gehron is returning to the city where he spent many successful years, 13 at WLS in numerous programming and management positions, including OM, PD, Station Manager, and VP/GM. He joined WODS two years ago (when it was soft AOR WMRQ), having previously programmed WCBS-FM/New York and WCAU/Philadelphia.

WNUA ranked 18th 12+ (2.3) in the spring Arbitron, and placed 16th (2.0) in the corresponding Birch.

## Heatherly

In 1982 he was named Director/Country Promotion for RCA/Nashville. In 1984 he returned to New York as Director/Special Sales for RCA and supervised 30 field merchandisers, was responsible for new artist development, and was in charge of the compact disc line.

From 1985-88, Heatherly had his own artist management company. He joined R&R in 1988.

## Rich

Continued from Page 1

Noble Exec. VP/COO Norman Feuer noted, "We believe Bobby Rich will breathe new life and great excitement into our Seattle stations. His demonstrated leadership qualities will help us attain our goals."

According to Noble Chairman John Lynch, "We will do whatever it takes to help Bobby ensure the maximum success of both stations. There is no one more qualified to lead our Seattle stations to a position of market dominance."

Rich hinted that a call letter change for KMGJ may be coming, and said, "I'm terribly excited about this opportunity. This is a dream in the process of coming true. The way things are clicking makes it even more exhilarating. I'll be looking at staff considerations; my most immediate need is to interview for a Promotions Director, preferably from the Seattle area. We also are looking for an operations-type person."

"My intentions for KMGJ are to adjust the formatics to take advantage of the base audience and bring it to a more contemporary version of the format (AC). The AM is running Transtar's AM Only format. We recently went live in the morning, and are looking to bolster the morning show."

KMGJ is currently without a PD. Regarding B100 and its VP/GM Paul Palmer, Rich told R&R, "I'll always care deeply about the success of B100 because that's my baby. I hope that after observing Paul Palmer as a GM for nine years I have learned enough to be able to help get my career as a GM started. He's a genuine inspiration to me, and has done more for me in my career than any other person."

Rich becomes at least the fourth former PD-turned-GM in the Seattle market. Others include Michael O'Shea, Steve West, and Beau Philips.

This was Rich's second tenure at KFMB. His prior stint in the '70s lasted four years. He previously programmed WWSW (now WEGX)/Philadelphia, KHTZ (now KLSX)/Los Angeles, and WXLO (now WRKS)/New York, was Asst. PD at KFI/Los Angeles, and was a Special Market Consultant for Drake-Chenault.

KIXI tied for 13th 12+ (2.8) in the spring Arbitron and placed 14th (2.7) in the corresponding Birch. KMGJ ranked 14th (2.7) in Arbitron and 17th (2.0) in Birch.

Peoria. He commented, "If someone had told me two weeks ago that I was going to get an offer to program a station in a Top 15 market, I would have laughed in his face. The competition is tough in this market, but there's room here for the type of CHR we're going to do. I can't wait to get this baby on the air — it's going to be very exciting."

Johnson's MD at KLTH will be his wife, Colette Gilbert, who also worked with him at KZOU.

**DAT Goes Street-Legal**

The RIAA is expected to announce a DAT agreement with Japanese manufacturers this week, opening the door for the machines to be sold in the US. According to the latest *New York Times* reports, consumers would be able to make a DAT copy direct from a CD, but a device contained within the DAT machines themselves would prevent the tape copy from being copied again.

Why did the FBI show up at a major Midwest radio chain's VP/Programming's parents' house, asking about their son's activities? Though it reportedly had nothing to do with the ongoing payola investigation, could it have something to do with a wiretapping incident from last year?

Island Records head honcho Chris Blackwell says that he is talking only to Polygram about the sale of the label. Look for a final decision to come as early as next week.

**Bleu Out, Snake In**

X-100/SF morning show host True Don Bleu has left the station. Bleu is taking a well-deserved vacation before announcing his next move, and PD Bill Richards is looking for a great morning show. T&R's only to 530 Bush St., SF, CA 94108.

Meanwhile, X-100 introduced listeners to new night jock The Snake last week by taking the line, "He's a cold hearted snake" from Paula Abdul's song "Cold Hearted," looping it, and playing it for three hours straight.

The station also mailed out rubber snakes with a piece of letterhead that read "'Super Snake' is slithering home." Thanks, guys.

Is KLOS/L.A. finally about to fill its six-month PD opening?

Barbara Seltzer, Director/National Top 40 Promotion at Atco, will segue to Sr. Director/Singles Promotion at Epic in New York August 1.

Get your cassette decks ready to roll, as legendary WLS/Chicago air talent John "Records" Landecker will do an on-air audition this weekend on Z100/NY.

Seems that VP/Programming Steve Kingston is searching for the "ultimate" midday air personality in the wake of Susan Leigh Taylor's exit for nights at K101/SF. T&R's to Kingston ASAP.

WPIQ/Jacksonville, FL finally stopped playing "Shock The Monkey" (ST 7/21) and hit the air under an Urban format and the identifier "Hot 101.5." Keith Clark is the PD and Don Kelly and J.C. Floyd will consult.

**Unorthodox Orthodoxy**

When WLVQ/Columbus staffers auctioned off a trip to Cleveland on a private jet to see the Who, they were stunned when one listener faxed in a bid of \$25,000 for the concert package. The listener, who requested anonymity, asked that the money be donated to the Greek Orthodox Church.

**HAL OF FAME** — WBLS air personality — and Inner City Broadcasting Sr. VP — Hal Jackson recently celebrated his 50th anniversary on New York radio with a cake-cutting ceremony attended by no less than NYC Mayor Ed Koch. Seen on the scene are (l-r) the 73-years-young Jackson and Hizzonner himself.

RCA/Nashville SW promo man Allen Butler and Arista/Nashville have come to terms, and Butler will head up the latter company's promo efforts beginning September 1.

That same date another Nashville Nipper will be leaving the pack, as Director/Product Development Phran Schwartz exits to head Arista's marketing and product development department.

Major shakeups hit two Windy City Gold outlets Monday (7/24) as WFYR/Chicago axed several staffers. Gone are seven-month PD Kenny Lee, AM driver Corey Deitz, midday personality Bob Barnes Watts, and Promotions Director Chris Marsh. PM driver Kurt Johnson is serving as interim PD.

Meanwhile at crosstown WMJK, veteran AM driver Tommie Edwards departs in favor of former WLS personality Fred Winston, who comes on board August 7. PD Gary Price is doing wake-up duty until Winston's arrival.

Look for Profile National Promo Director Kim Freeman to join Atlantic's national Pop Promo team in an as-yet-unnamed position.

**Hi, This Is Jay From Phoenix . . .**

KFI/L.A. talk show host Bill Moran had Pirate Radio's Scott Shannon, KOST Station Manager/PD Jhani Kaye, and KIIS-FM VP/PD Steve Rivers on his show from 11 pm-1 am Saturday night (7/22).

The trio discussed the recent L.A. Arbitron ratings as well as the future of AC, rock CHR, and mainstream CHR, and even fielded questions from the listening audience. By the way . . . who are the real identities of callers "Jay from Phoenix" and "Jerry Clinton?"

Former WLZR/Milwaukee air personality Catherine Catalane has received an undisclosed cash payment to drop her invasion of privacy lawsuit against the station.

Catalane filed the action after the station

broadcast an interview with then-TV talk show host **Morton Downey Jr.** and WLZR's **Marilynn Mee** discussing Catalane's sex habits.

**MCA Music Entertainment Group Chairman Irving Azoff** recently sold 7% of his stock in the company for approximately \$1.6 million, according to a report in the *Wall Street Journal*.

However, he still holds some 346,053 shares of MCA stock worth more than \$21 million. ST's ear-to-the-tickertape hears that Azoff sold the stock to finance some personal real estate deals.

Is **Ed "Superfan" Bieler** jumping from **KCMO/KC** to do afternoons at **KABC/L.A.**, replacing **Wink Martindale**? Will **Gannett Broadcasting** let him out of his contract?

KABC says Wink's as good as a nod, but the station has pulled **Tom Snyder's** show off the air and replaced him with former rock jock **Bill Pearl**.

**WVMX/Richmond** has changed formats for the fifth time in less than a year (!) Two weeks ago, the station became a rockin' CHR, using the identifier MX106.5 "Today's Rock & Roll."

Now (7/19) it's "Oldies 106" under the direction of consultant **Dan O'Toole** and the entire staff is out.

**A Major League Effort**

**Enigma National AC Promo Director Claire West** caught **WKYE/Johnstown, PA PD Jack Michaels's** attention in a major league way by sending him a message on "Diamond Vision" during the recent **Pirates/Dodgers** doubleheader at Three Rivers Stadium.

Seems a friendly challenge was made about the label's commitment to breaking "In The Name Of Love" by **Richard Elliot/Bobby Caldwell**, and the Bucs were only too happy to oblige.

Gold-based AC **KMGI (Magic 108)/Seattle PD Steve "Smokin' " Weed** is out, as **B100/San Diego PD/morning talent Bobby Rich** comes in as VP/GM (see story Page 1) to take the station either CHR or Hot AC, and the current morning show has been told that Bobby will be involved with them in an on-air capacity.

Meanwhile, Weed wants to get back into CHR, Urban, or Hot AC programming. Call him at (206) 868-5838.

**Sue DeBenedette** has been upped to International Marketing Manager at **A&M**. A six-year label vet, Sue was most recently L.A. promo manager, having previously handled local promo in NYC.

**WKRL/Tampa** has reportedly turfed air personality **Rick Knight** for apparently promising a female listener that she'd win a pair of **Who** tickets, then insisting that he accompany her to the concert.

After the listener declined the invitation, she reported that her car had been scratched and a tire flattened. Knight told police he lost his temper over the rejection and vandalized the winner's car. WKRL confirmed that Knight "was no longer employed with us."

**IT'S A TOSS-UP!** — When *WOR/NY* recently conducted a contest wherein listeners were asked to guess the exact number of miles that morning man **John R. Gambling** logged at the end of his recent ten-day, ten-city "around the world" live remote broadcasts, the station received more than 30,000 correct postcard entries! As a result Gambling had no recourse but to pick the winner in the time-honored tradition pictured above.

**Send In The Clowns**

**HBO's new Comedy Channel** is conducting a nationwide talent hunt for on-air personalities and is particularly interested in radio talent from *all* formats.

**Denny Somach** has been hired as a consultant to assist in the search. Interested? Send photo, bio, aircheck, and video to Somach at 812 W. Darby Rd., Havertown, PA 19083.

**Dave Gleekman** has transferred from the Carolinas to Cincinnati to promote for **Epic**. Call him at (513) 791-0066.

**WPLJ/NY PD/morning man Gary Bryan** was trying to lure **KKRZ/Portland zoo dude Dan Clark**, but look for him to stay put, as a hefty contract has just been inked. Who will Bryan go after next?

**Rod At The Wang**

To make up for his recent canceled appearance at the **WXKS/Boston 10th** anniversary party, **Rod Stewart** has scheduled a date at Beantown's Wang Center on August 5. 'XKS will cosponsor the soiree, with proceeds benefiting the **American Cancer Society**.

**KKBQ/Houston** night jock **Boomer** is out. The former **B97/New Orleans** and **KX104/Nashville** air talent can be reached at (713) 864-1239.

**Z100/NY** will celebrate its 6th Birthday Bash on Wednesday (8/2) with a star-studded show at the Palladium, featuring **New Kids On The Block, Debbie Gibson, Hall & Oates, Cyndi Lauper, Michael Damian, Paula Abdul, and Buster Poindexter**. **Paul Shaffer** of "Late Night With **David Letterman**" fame will emcee the affair.

**Krushed**

**KRSR (AM) (The Krusher)/Las Vegas** is pulling the plug on its locally produced, automated hard rock format August 1 to simulcast with FM CHR **KLUC**.

Former **KMGX** (now **KRZR**)/Fresno PD **Kevin Carter** has been named MD/pm drive personality at crosstown CHR **KYNO-FM**. He replaces "**Fast Eddie**" **Martinez**, who recently exited the station.

More changes at **KJJO/Minneapolis**. Former PD **Brian Turner** and former MD **Hal Hoover**, who recently relinquished their positions to "concentrate on their shows," are out. They've been replaced on-air by **Woody Flue** (from **WWKX/Providence**) and **Mindy Collins** (from crosstown AOR **KTCZ**).

**KKCS/Colorado Springs** MD/midday man **Kerry Wolfe** is moving to Milwaukee to be APD/MD/middays for **WMIL**. Out after five years with the station is **Tom Carr**.

**Cinderella, Cinder-Fella**

**KYYA/Billings, MT** PD **Charlie Fox** didn't think his promotion for the **Cinderella** and **Winger** show (7/18) would burn up local officials. The station asked listeners to "Show Us Your Y93" to be a Cinderella roadie for a day. The winner lined up 17 cars and an airplane to form "Y93" on the flight line at the airport and then had a plane overhead snap a picture.

Ah, but one enterprising entrant donned a burn suit and showed up at the station's parking lot, carrying a wooden sign emblazoned "Y93" and packing a preparation of homemade napalm plus a burn permit from the city.

Fox pulled up to the station lot and found news crews, police cars, and fire trucks waiting — along with an angry fire captain who voided the burn permit. Good sports Y93 awarded the dude a backstage pass anyway.

**Jay McDaniel** — formerly **MCA's** National AOR Director, working out of Atlanta, and **Mercury's** National Singles Director, based in Chicago — is looking to get back into promotion in the Southeast. Reach out and touch him at (919) 581-3663.

**KDON/Salinas** morning man **Walt Jackson** appears in the new **Tom Hanks** movie "Turner and Hooch" as a rich antique car buff.

Jackson's 15 minutes of fame come at a car show, where Hanks and his pooch Hooch show up to do some investigating and Hooch lifts his leg on a vintage Mercedes.

**Rough Fore Play**

Get-well-quick wishes to **WITL/Lansing** PD/morning man **Allan Gibbs**, who took a golf ball in the Adam's apple on the fairways last week.

Quantum Market Leap O' The Week Award goes to **Dave Perkins**, who leaves **KODM/Midland-Odessa** for mornings at **WGAR-AM & FM/Cleveland**.

PD **Denny Nugent** is still looking for a cohost/sidekick for Perkins. Meanwhile, present 'GAR morning man **Jim Shafer** has moved to evenings.

**WCZY/Detroit** has changed call letters to **WKQI** and its on-air slogan from "Z95.5" to "The New Q95." VP/Programming **Gary Berkowitz** says the station will continue in an Adult CHR direction.

Adult Urban **WVAZ/Chicago** has named **Tim Ryan Feagan**, most recently VP/Manager of **Katz's** local radio office, as its new GSM.

**KZPS & KAAM/Dallas** VP/Programming **John Shomby** will be leaving the stations at the end of August to form a new, as-yet-unnamed radio/TV consultancy. Shomby's first clients will be the two Dallas stations. Contact him at (214) 394-0029.

The August issue of **GQ** lists the Most Important People In Comedy For 1989. Joining **Bill Cosby**, **David Letterman**, "Far Side" cartoonist **Gary Larson**, **Bill Murray**, **Roseanne Barr**, **Eddie Murphy**, "Rain Man" director **Barry Levinson**, "Saturday Night Live" resuscitator **Lorne Michaels**, **NBC-TV** honcho **Brandon Tartikoff**, and **Spy** magazine is NYC/Philly/DC radio personality-plus **Howard Stern!**

Former **WSNI/Philadelphia** MD **Stef Barsamian** is now doing independent AC promotion and may be reached at (215) 789-STEF.

**Chain Of Fools**

ST's ear-to-the-earpits hears there's a T-shirt chain letter going 'round the radio and record industries under the name of "The Logo T-Shirt Advertising Club."

Supposedly, if you send six copies of the letter to business associates and friends, within three weeks you should receive 216 logo T-shirts from all over the country.

**BAD MOON RISING** — To celebrate the 20th anniversary of man's first moonwalk, X-100/SF recently asked listeners if they'd moon The City for cash and prizes. Several hundred people took them up on their challenge and created the above-pictured moon over Bagdad By The Bay.

## BACK TO BASICS

## Understanding The Numbers

Ratings reaction season is here again, with responses ranging from Dom Perignon celebrations to mass firings. So it's an appropriate time to revisit the basics on understanding the numbers.

Over the years, we've found some wild "interpretations" in the mailbag — like the GM who was ready to fire his PD after the third consecutive "down book." The station's 12+ five-book trend was 9.8-11.1-10.9-10.5-9.9. Fortunately, we talked him out of it — and the station snapped out of its "losing streak" with a solid 10.8 in the next book.

Then there was the owner who was preparing a major format change after his station's rank dropped from third to sixth in adults 25-54. He hadn't noticed that his AQH rating of 2.5 was the same in both books, while two other stations in non-competitive formats had enjoyed unusual upward spikes.

## What's A Trend?

To help everyone avoid similar unnecessary heartburn (and headache) owing to ratings misunderstanding, we've put together a review of the essentials. Experienced ratings users may leave the room. (But to avoid potential embarrassment if I happen to see you at the NAB and ask about one of these areas, you're welcome to read on.)

At Birch/Scarborough we define a trend as "directionally similar recurring and statistically significant changes in estimates." Big words, simple concept: if the numbers are consistently increasing (or decreasing) over at least three reports and not by pure chance, you've got a trend.

There are three inherent forces (having nothing to do with competitive on-air or promotional activity) that profoundly affect movement of estimates in radio ratings reports:

- sample size
- size of station audience
- seasonality.

## Basic Terms

And now, a few definitions:

Tom Birch

• **Standard Deviation** — a means for judging the significance of a change in the numbers. Without getting technical, standard deviation provides a range within which a user can be confident that the "true" estimate would fall if a full census were conducted.

• **Sample Size and Size of Audience** — Key determinants of the theoretical error range around an estimate: the larger the sample, the lower the error. The same is true of individual station estimates; the larger the audience, the smaller the relative statistical bounce.

A simple formula is provided in the back of each Birch report that lets you quickly compute this error range at the 95% confidence level; i.e., the range within which estimates would fall in a census in 95 out of 100 cases. For example, a station with a cume rating of 21.5% in a sample of 1032 interviews would have an error range of 18.9% to 24.1%. Therefore, a subsequent drop to 18.9% in a similar-

sized sample would *not* be considered statistically significant — nor would a rise to 24.1%.

Consider the earlier example of the GM who was ready to fire his PD after three consecutive "down" books. Even with a sample size of 8856 (the spring '89 Birch Quarterly Summer Report sample for New York), the error boundaries around a 10.1% AQH share (assuming a Persons Using Radio AQH rating of 18.0%) would be 8.5%-11.6%. Our GM's market report contained 3000 interviews, so *none* of his station's changes over the five-book trend period were statistically significant.

• **Seasonality** — Another important factor that wasn't considered by this worried GM. The 9.9% AQH share scored by his station was directly in line with the results achieved in the same previous-year quarterly report.

Seasons of the year affect lifestyles and, in turn, radio

**"Before leaping from the 22nd floor after a down book, look at ratings in your market from previous years to see if a seasonal pattern exists."**

listening patterns. For example:

• CHR is strongest in summer and spring. Summer teen availability provides a huge boost to overall ratings.

• News/Talk is strongest in winter in Northern markets. Weather, traffic, and news boost listenership.

• Easy listening is biggest around the Christmas season, when soft, traditional holiday music attracts tertiary listenership.

• Sports stations score best with baseball. Ratings (even outside of nights) are boosted through the roof at the start of the season.

The moral: before leap-

## Factors Beyond Your Control

Believe it or not, there are some things over which a programmer can't exert control:

• **Format competitors.** New direct format competition, an effective 500-GRP TV campaign by an in-format competitor, the tightening of a rival's playlist, or the introduction of a strong new competing morning show are all factors that can hurt your ratings — even when you're sounding your best and promoting effectively.

• **Other radio competition.** During the past three years, many Country stations were shocked by the large amount of audience they were sharing with Oldies stations. In many markets, gains in Oldies audiences came directly at the expense of established Country outlets.

• **Changes in employment levels.** A high level of unemployment boosts midday listening levels. Also, not everyone works in an office, and most people can't or don't listen regularly while at work.

• **Unusual news or weather events.** I once knew a South Florida News/Talk station exec who prayed for hurricanes. The peak season (mid-September through mid-October) coincides with the start of the fall sweeps.

• **Cultural influences.** Contemporary music stations are at the mercy of the culture, the artists, and the record company strategists. A big movie with a popular soundtrack can produce a wealth of material that can power contemporary music stations for months. This works in reverse as well. When the hits aren't hot, listeners look for alternatives (like TV or CDs).

• **Population shifts.** There are more 35-44s today, by far, than in 1979. And there'll be more 45-54s in 1999 than today. While population shifts are glacial influences on radio overall, keep tabs on the population bases in each demo cell in your report. The ratings services update their populations annually. And changes in the population distribution drive the weighting, which can have an immediate impact on your estimates.

• **Radio industry influences.** The radio industry is famous for providing too much of a good thing. The format graveyard is full of tombstones to copycat programming: Disco, Urban Country, Modal Rock, etc. Overexposure of certain types of music inevitably leads to listener burnout, and the fallout can hurt everyone. When an avid radio listener (who tunes in both AC and CHR, for example) decides he's heard enough Classic Hits to last a lifetime and acquires an in-office CD player and a collection of folk music CDs, everyone loses.

ing from the 22nd floor after a down book, look at ratings in your market from previous years to see if a seasonal pattern exists.

• **Persons Using Radio Listening Levels** — At the bottom of each page is an estimate of the aggregate number of listeners to radio in general, including attributed listening and listening to public radio. This is your market's overall radio report card and it's generally stable from quarter to quarter. The AQH PUR defines the size of the radio pie; when the AQH PUR changes, each individual share point is similarly revalued upward or downward.

An upcoming column will provide a few tips on read-

ing and understanding specific information in the books and examine the ratings impact of programming elements directly under your control.

## Take It In Stride

In the meantime, two closing thoughts. If you had a great book, make certain it really is great (statistically significant upward movement unrelated to seasonal patterns). Even if it truly is great, take it in stride. Remember the law of gravity.

If you had a bad book, ditto the above on significance — and if it's truly bad, don't take it too hard. Some of the best consultants in the business would never have gotten their start without the help of a truly bad book!

# Some Things Are Worth Waiting For.

The Presidential election of 1948 changed the face of American politics.

Truman's strategy was flawless. Dewey let a sure thing get away. And *The Chicago Daily Tribune*, by jumping the gun, is now little more than a footnote to history.

*The Trib* couldn't wait to tell us about the G.O.P. landslide. To report that New York Governor Thomas Dewey and his running mate, Earl Warren, had been swept into the White House.

Yet, when the counting was done, it was President Truman who had the last laugh. He staged one of the greatest come-from-behind upsets in America. He did it with gut level persistence and a willingness to wait things out no matter what.

Now waiting isn't always easy. But it has its rewards. It's true in politics. It's just as true in launching

innovative satellite programming. Everything must be perfect. If you don't plan to win, why enter the race?

On September 1st, Braiker will launch the best satellite radio programming in America. How do we know? Easy. Because Braiker Radio Services has the best people, the best programs, the best promotions and the best support in the business. No brag, just fact.

Braiker is flexibility with the firepower of five affordable, proven formats that eliminate burdensome, expensive network commercials while delivering topflight programming. You receive the legendary expertise of Ivan Braiker...the programming savvy of Rick Sklar...the affiliate support of Larry Shipp...the sales support of Rob Hasson...and the promotional genius of Pat O'Day. That's the best you can get.

So before you get caught up in the ballyhoo and hoopla of the moment, take a good look *behind* the headlines. Make everyone accountable for all the promises. When you do, you'll quickly realize, just as Harry Truman did, that some things are worth waiting for.

Vote Braiker on September 1st.

## TRENDS BEHIND THE MONIKERS

# The Second Annual Group Name Catalog

Last spring I explored new frontiers of absurdity by categorizing trends in the names current hit groups were choosing. In-depth research uncovered band names inspired by tantrums, old Aerosmith songs, and the highly popular Animals with Adjectives ~~fad~~.

Seasons change. People change. Group name trends change, too. (The only thing that doesn't change is my trait of running this Expose bit into the ground. But it's a very deep philosophical concept and it's become central to my overall worldview, so I keep coming back to it.)

So I thought it would be interesting to look at the latest developments in group nomenclature. Following is an alphabetical list of categories for group names gleaned from a recent Back Page and assorted New & Active sections. For purposes of comparison (and to ascertain how blatantly I'm ripping myself off), see the On The Records column for April 15, 1988.

Bad English have been known to drop their "g" 's in concert just for sheer outrage value. Grammar SWAT teams have had to intervene and restore order.

Prince substitutes numbers for words, but even he didn't think of using Roman numerals.

Bodeans — pseudonyms suit them fine

## THIS YEAR'S NAME TREND

# To Surname With Love

Last year the leading-edge concept for band names was animals with adjectives (Glass Tiger, Def Leppard, etc.). This year bands named after the surnames of a member or members are all over the place.

They fall into four basic subcategories, as follows:

### Member's Surname (Unmodified)

Jacksons

## Van Goes With The Material

**W**hile backstage at the Prince's Trust shows in Birmingham last week, ROL snagged an ultra-rare interview with VAN MORRISON, who was typically phlegmatic about the good reviews and sales of his current "Avalon Sunset" LP.

"Some albums that I do are more popular than others," said Van, "and some are more esoteric. I just go with the material. That dictates it."

Van also talked about the current obsession with nostalgia, saying, "It doesn't bother me. There were good things and bad things about the old days just like the present time. I think the reason people talk about the old days is that the '60s and '70s were much more creative, and now people are looking back to gain some of that innocence."

### Bankstatements

ROL also spoke this week with TONY BANKS, the GENESIS keyboard king who takes lead vocals on only one song ("Big Man") from his forthcoming "Bankstatement" album.

"Having sung the whole of 'The Fugitive' (his previous solo LP), I really wanted to keep my hand in," Banks explained. "And I was also a bit disappointed that MIKE (RUTHERFORD) didn't sing anything on the first MIKE + THE MECHANICS album. I thought that was chicken."

"Obviously, you've got better singers around and you think 'let them do it,' but it's good to keep your hand in because it teaches you what you're putting other singers through," Banks continued. "When I did 'The Fugitive,' I suddenly realized what I'd been making PHIL (COLLINS) and PETER (GABRIEL) do."

Incidentally, Banks says that Genesis aren't due to reconvene to start work on their next LP until Christmas of 1990.

### Carrack & T-Bone

Also backstage in Birmingham, PAUL CARRACK told ROL that prior to leaving for Mike + The Mechanics' US shows this week, he completed work on his next solo album, which will be out in September — about the same time that M + The Ms begin working on their third LP.

Paul's latest was produced not by CHRIS NEIL but by Carrack himself with T-BONE WOLK of HALL & OATES fame.

### Skin Games Single (Subtitle O' The Week)

On Monday (7/31), SIGUE SIGUE SPUTNIK tries again with "Rio Rocks," Epic band SKIN GAMES release "Tirade (Everything Must Change)," and the THRASHING DOVES offer "Another Deadly Sunset."

Other Monday single releases include MALCOLM McLAREN'S

Van The Mannish Boy

### Art Of Noise Do It Zulu Style

The ART OF NOISE go Zulu on their new single ("Yebo"). Released this Monday (7/24), the song features African singers MAHLATHINI & THE MAHOTELLA QUEENS and will appear on the next AON LP, "Below The Waste."

Also on the album front, Ireland's CRY BEFORE DAWN issue their second LP, "Witness For The World."

"Something's Jumpin' In Your Shirt" — which features master-bassist BOOTSY COLLINS and vocals from Calvin Klein model LISA MARIE — THEN JERICO'S "Sugarbox," and LIZA MINNELLI'S "Losing My Way." The latter is yet another PET SHOP BOYS production from Liza's forthcoming "Results" album.

Ohio Players get skin tight with R.E.M.

### R.E.M. Tightens Up

When R.E.M. rereleases "Stand" in the UK on Monday (7/31), the single's flip side will sport not only an acoustic rendering of "Pop Song '89" but also a version of the old OHIO PLAYERS' hit "Skin Tight," recorded live in Orlando, F-L-A.

In the meantime, the PRIMITIVES have finished recording their second album, which they hope to call "Pure." The group's next single ("Secrets") is already scheduled to be released at the end of August, with the new LP to follow in September.

Coincidentally, that's when DEACON BLUE will issue their next single ("Love And Regret"), taken from the Glasgow rockers' second LP, "When The World Knows Your Name."

### Computer Ballet

Meanwhile, SPANDAU BALLET'S STEVE NORMAN confirmed that at long last the group's new single ("Be Free With Your Love") will be out next month, to be followed by a new LP in September.

ROL recalls that the Spandaus had supposedly completed the new album last September, but that they went back into the studio to add a new song and — in Norman's

George Clinton pulls another record out of his trunk.

Meanwhile, American dance singer ADEVA follows up her version of "Respect" with the new Cooltempo/Chrysalis release "Warning." Also on Monday (7/31), P-FUNK master GEORGE CLINTON releases the first single ("Why Should I Dog U Out") from his Paisley Park/WEA album, "Cinderella Theory."

Spandau Ballet faces the computer.

words — "to try and keep up with the new technology. The computer screen's been staring us in the face."

### Ox To Marry

JOHN ENTWISTLE has announced that as soon as the WHO

tour is over, he'll marry American ex-waitress MAXINE BAER and move over to Ireland, where he'll concentrate on writing a Who biography. Entwistle says he intends to appoint ROGER and PETE as his best men.

## COMPACT DATA®

# Dusty, Debbie, Rickie & Joan

England's swingin' sixties top pop/soulstress Dusty Springfield will release a new LP — most likely on EMI Records — this fall. The diva's disc will feature a little help from pals 'n' admirers Phil Collins, Marc Almond, Simon Climie & Rob Fisher, and the Pet Shop Boys, who recently teamed with Dusty on "What Have I Done To Deserve This."

Meanwhile, Reprise is scheduled to release former Blondie front-woman Deborah Harry's comeback album ("Def, Dumb And Blonde") in August, and Geffen will put out Rickie Lee Jones's long-awaited (and Walter Becker-produced) "Flying Cowboys" disc in September.

Finally, Joan Baez returns with a Gold Castle platter of new tunes in September. The album — titled "Speaking Of Dreams" — features guest appearances by Jackson Browne and Paul Simon.

### Young Gun

Pint-sized, BIG-voiced Ronnie James Dio has enlisted the services of 17-year-old British guitarist Rowan Robertson, who beat out 5000 other hopefuls for the honor. The duo are reportedly working on a new LP that's due out next February.

### Namedroppers Anonymous

Heavy metal rockers L.A. Guns have changed the name of their upcoming Vertigo album (due out August 22) from "Sex, Booze And Tattoos" to "Cocked And Loaded" in efforts to cut down on controversy. Heading up the disc is a song about the late actress Jayne Mansfield titled "Whatever Happened To Jayne."

Meanwhile, the Red Hot Chili Peppers will include an anti-drug song on their upcoming EMI al-

NOT the winner of the Scott Shannon look-a-like contest, but Tommy James of "and the Shondells" fame.

bum ("Mother's Milk") in memory of former guitarist Hillel Slovak, who died last year of a heroin overdose. Due in August, the 13-track LP also contains the punk-funkers' rendition of Stevie Wonder's "Higher Ground."

### Have A Cigar

Meat Loaf has inked a recording deal with MCA, while former Shondells frontman Tommy James — who's younger than Huey Lewis, incidentally — has signed with Aegis Records and plans to release an album this fall.

### C.C. Writer

The video version of Cyndi Lauper's new single "My First

Night Without You" will reportedly be the first vid-clip ever to bear the official "closed caption" symbol.

### Quick Licks

• Guitar S\*T\*A\*R Jeff Beck will have his upcoming Epic LP ("Guitar Shop") in stores on September 5. The turbocharged riffslinger is joined on the project — title track will be the first single — by ex-Frank Zappa and former Missing Persons drummer Terry Bozzio and keyboardist Tony Hymas.

• Opal/WB will release former Velvet Underground/record producer/solo artist John Cale's new album on September 19. Produced by Brian Eno, the disc features the ambitious-sounding "Falklands Suite" — an orchestra-cum-choir-cum-vocal treatment of five Dylan Thomas poems.

• Dave Edmunds has titled his new Capitol album "Closer To The Flame." The roots-rockin' Welshman's LP is scheduled to hit the streets on September 26.

### R.I.P.

Condolences to the family 'n' friends of veteran record producer/engineer Vic Maile, who passed away from cancer (7/11). Maile, 47, worked on records by the Who, Led Zeppelin, the Kinks, and Jimi Hendrix in the '60s, and produced such fine English artistes as Eddie & the Hot Rods, the 101ers, 999, the Vibrators, the Jam, Motorhead, the Screaming Blue Messiahs, and — most recently — the Godfathers during the '70s and '80s.

## Promos With A View To A Thrill

The peerless people at Atlantic Records garnered Promo Of The Week honors by providing selected programmers with an eye-popping glimpse of Kim Mitchell's new album "Rockland" via a fully functional 3-D "Viewmaster" (shown above) that came complete with a "stereo reel" of color slides graphically depicting the Canadian rocker and his homeland.

Meanwhile, Honorable Mention goes to the folks down the hall at Modern/Atlantic for the psychedelictable kaleidoscopes used to tout Stevie Nicks's "The Other Side Of The Mirror" LP. The mind 'n' vision-twisting toy might have been this week's top choice, but there's no way we could've accurately captured the fractured view of the world that you see through its lens!

## 'RECEIVER-ORIENTED RADIO'

## Learning Local Lingo

- Use words the market relates to
- Find audience's prize hot buttons
- Play what's right for your market first

## How To Listen Like A Listener

After spending time away from day-to-day radio, you begin to listen a bit differently. New songs become unfamiliar; you actually hope titles and artists are announced. When you listen the way someone not in the biz does, you can come to some eye-opening realizations — which is a good reason for doing so more often.

Bob Mitchell, who recently became WEZB (B97)/New Orleans OM/PD after a 20-month stint as WPGC/Washington PD, is highly critical of most stations he hears across the country. He points to a lack of listener relatability as their main problem.

To address that problem, Mitchell devised the concept of "receiver-oriented radio," which blends all the localized elements of a station — from the way air talents talk and what they say to the music and how it's presented. As a result, he claims B97 is geared for the average radio listener, not the traveling programmer who keeps a radio plugged in his ear while he jets across the country.

## Ego-Driven Programming

Mitchell believes most programmers add features, shift direction, and install splashy new liners and handles without the slightest idea of how these changes will affect the local market. "Many PDs hear some new buzzword or phrase on an out-of-town station, decide it sounds innovative, and believe their own bullshit so much that they convince themselves this bit of cloned genius gives them the magic formula to win. It's false thinking, because the key factor they often leave out of the formula is the user.

**"Partisanship is weaker for radio stations than for other consumer products. Coke will have 40-50% brand loyalty; radio's is about ten percent."**

"This ego-driven programming's lack of regard for the market also affects the music. These programmers simply look at the trades, declare they like something, and add it without really taking the audience into account. They're programming for the industry instead of the audience. These are the PDs who are most likely to believe they can make or break a record regardless of its sound or the market conditions."

Mitchell's receiver-oriented approach is based partly on the fact that most people don't take an active interest in radio. "It's a free

service. If people paid five dollars a day to listen, you can bet they'd be paying more attention and giving more input; the phones would go bonkers over a bad record. That's why we spend so much time and money to find out listeners' attitudes on music overall and on specific titles."

## False Impressions

Admitting that a wholesale format change is likely to evoke the greatest response from the widest cross-section of people, Mitchell added, "Sure, they'll call and complain. But in the end they'll just find another station. That's why we can go into markets and find so many groups of dissatisfied cume or disenfranchised listeners settling for second or third best. And that's how we create a new winning niche.

Bob Mitchell

"Most listeners don't care all that much. Radio is a subliminal thing for them. Partisanship is weaker for radio stations than for

**"PDs operate under the false impression that whatever's going on at their stations is a major event in the listeners' lives."**

most consumer products. Coke will have 40%-50% brand loyalty, but radio's brand loyalty is about ten percent.

"The bottom line is you have to get into the listeners' minds. Talk

to them in person and find out how they say things versus how we talk. They offer little feedback, but remember that listeners have more impact on the station than the station has on them. PDs operate under the false impression that whatever's going on at their stations is a major event in listeners' lives."

On the subjects of changing music or updating positioning statements, Mitchell thinks it's a good idea to know the outer limits of your target's music tastes and identify what certain words mean to them.

"If I began using the phrase 'B97 with a fresher variety of hits,' that might be the message I want to get across — but I may not be conveying it properly. When I first came here I asked listeners what makes B97 stand out. They told me over and over, 'A better variety of music.' I found out the word 'fresh' has no meaning in this city, and the word 'hits' has a negative connotation; it's burned out and overused. Back in DC, fresh was relevant and so was the word 'mix,' which meant variety. They call it 'music' in New Orleans.

"Each market has its own terminology; you have to discover the local lingo. You can adopt what you hear from another market and make your station sound slick. That works as long as you fit the terminology of your market and people feel comfortable with your style."

**"The bottom line is you have to get into the listeners' minds . . . Look at your station more from a user standpoint."**

## Hit The Hot Buttons

Mitchell believes the best contest prizes also vary by market, so he tries to assess the audience's promotional mindset. "I want to find out how to hit the hot buttons. We're currently giving away a Porsche 944, which would seem to be a good prize for most markets. I did a little poking around and discovered it's the most desirable car to win in New Orleans. The same investigation told me that while listeners would like a BMW, it doesn't have the impact it would in Washington or other places. A Porsche is sexy; New Orleans is a

sexy market. For instance, down here you can give away beer on the air. It's a no-holds-barred market; people live to party."

To help him program music with the listener in mind, Mitchell uses local sales, phone requests, and up to 300 callouts weekly by a 15-person research staff. MD Joey G. hits major clubs to find out what's happening there.

"It's a constant process of reaching out and getting next to the audience. Everyone told me you can't play rock in this city; I've discovered New Orleans will accept Bon Jovi, but not Metallica. Meanwhile, Stevie B is a major act here and sells out concerts even though he's not as big elsewhere. All too often, PDs miss the songs they should be adding first for their markets."

**"Each market has its own terminology; you have to discover the local lingo."**

### Live Like A Listener

Mitchell maintains PDs spend too much time at their stations — listening in their offices, taking meetings, and trying to fix day-to-day problems. "What makes (WXKS/Boston PD) Sunny Joe White so great is that he's out in the streets talking to folks every day. He's not a programmer, he's a listener who runs a station. Too many PDs live outside their markets.

"Try listening only when it's convenient. That's what listeners do. They also leave work, go home at night, get dressed, and go out to concerts, clubs, and movies. Try to adopt a more typical life pattern from time to time. Tune out the business and look at your station more from the standpoint of the user you're trying to attract."

**DEEP DOO DOO AT I95** — WAPI (I95)/Birmingham promised to award \$10,000 to the listener who could think up and perform the most outrageous stunt. The winner, pictured here with the I95 airstaff, ate raw eggs, live worms, green oatmeal and honey, then dove into a pool of rotten vegetables and cow manure to a soundtrack of "Eat It" and "Jump." Anybody got a gas mask?

**RICH MARX THE SPOT** — Richard Marx (r) rubbed elbows and other body parts at a listening party for his album "Repeat Offender." Shown (l-r) are EMI West Coast Promotion Director Mark Kargol, WRBQ (Q105)/Tampa PD and KQLZ (Pirate Radio):L.A. OM Randy Kabrich, and EMI Local Promotion Manager Amy Simon.

# Announcer's Sixth Sense: Timing Is Everything

Time flies when you're having fun. Time also has an insidious way of getting away from announcers during live spots, promos, and news briefs. When it comes to people who slave over hot mikes for a living, there are two basic kinds: those who have run over, and those who admit it.

A pro is so clock-conscious he is able to pace any live break to the second. His sixth sense knows when ten, 30, or 60 seconds are up. He relies on that sense; he confirms it by glancing at the clock much the same way a driver darts micro-looks at a speedometer.

However, no matter how professional we are, we all get blindsided now and then. It may be when we're going along reading live copy, ad libbing a little to "clean it up," and a routine clock check reveals the impossible: only one second remains to finish five seconds of copy. Gotcha!

As one part of the brain takes care of business wrapping up the spot, a blob of grey matter goes out

and cuts a switch for a mental whipping.

Whether the little crime of talking too long is punished in public (screaming memos) or not, it is always punished in private — inside the head. The guilt cells go turgid, pulsate a nanosecond, then fire negative-charged arrows into the neural receptors of the I'll-Never-Do-That-Again node of the brain.

It doesn't feel very good. In extreme cases, I have been known to hallucinate an image of my saintly, departed mother, looking at me with disgust and saying, "Anyone who needs 64 to finish a 60 is in danger of hitting himself in the forehead with an ice cream cone, fool."

I suppose most people find

there's enough guilt to go around, even when handicapped by the absence of a supervisor to help the process along.

The mind reacts in a predictable manner. An incident of running over is followed immediately by a mental stage called Tightening Up, which is a firm resolve to retake command of one's skills by doing everything right, from now on, forever.

From that minute onward, everything starts on time and everything ends on time. Sixties run exactly-by-God 60. News briefs actually are. The offender is back in Precision City and life is again under control. The same time that flies (harp flourish SFX) also heals.

Things hum along, with that sixth sense functioning at peak efficiency, three or four weeks. Then one day you're going along reading live copy, ad libbing a little to "clean it up," and about five seconds from the end of the spot

**MONDAY, AUGUST 7** — 25 years ago, as American planes were just beginning air strikes against North Vietnam, Congress passed a resolution giving President **Johnson** broad new war powers. Actually, the way the 1964 Tonkin Gulf Resolution put it was that LBJ could take whatever military steps he felt were necessary "to maintain peace."

Explorer-VI took the first picture of Earth from space 30 years ago. **George Harvo** and **Frank Samuelson**, after 56 days at sea, completed the first rowboat trip across the Atlantic in 1896. During the Civil War in 1861, hot-air balloon pilot **Thaddeus Lowe** was given the title of Military Aeronaut for the Union Army, in charge of enemy observation.

**Birthdays:** **Alberto Salazar** 31. **Anjanette Comer**, **Garrison Keillor**, and **B.J. Thomas**, all 47. **Stan Freberg** 63.

**TUESDAY, AUGUST 8** — As long as the Cubs were installing those new-fangled lights at Wrigley Field, they should have gone ahead and thrown a dome on, too. One year ago tonight, during all the hoopla over the Cubs' inaugural home game under lights, they had to call the game after four innings because of rain.

The world record for swinging in a hammock was set at 240 hours in 1986. President **Nixon** announced his resignation 15 years ago, then turned the White House over to **Ford** the following day. The Graf Zeppelin took off 60 years ago on a 21-day trip around the world — the *only* circumnavigation by an airship.

**Birthdays:** **Keith Carradine** 39. **Connie Stevens** 51. **Dustin Hoffman** 52. **Mel Tillis** 57. **Esther Williams** 66.

**WEDNESDAY, AUGUST 9** — The richest trade in sports history took place a year ago, as hockey god **Wayne Gretzky** forsook Edmonton for the L.A. Kings, in a \$15-million deal that also involved five other players.

Four years ago Sen. **Barry Goldwater** made headlines by revealing the Stealth bomber was a "flying wing" configuration. Fifteen years ago, **Gerald Ford** was sworn in to replace President **Nixon**. 20th anniversary of the **Sharon Tate** murders by the **Charles Manson** hippie family. About half the city of Nagasaki was wiped out by an atomic bomb in 1945.

**Birthdays:** **Whitney Houston** 26. **David Steinberg** 47. **Jill Saint John** 49. **Rod Laver** 51.

**THURSDAY, AUGUST 10** — One year ago, the American government agreed to pay compensation to Japanese-Americans who had been forced into World War II "relocation camps." However, Uncle Sam spoke with forked tongue: the promised payoffs have not been made because Congress refuses to appropriate the money.

35 years ago, Studebaker workers took pay cuts during what was thought of as a "sales slump," but the carmaker soon went broke anyway (1954). The Smithsonian Institution was chartered in 1846. Missouri became the 24th state in 1821.

**Birthdays:** **Rosanna Arquette** 30. **Ian Anderson** 42. **Bobby Hatfield** 49. **Kate O'Mara** 50. **Jimmy Dean** and **Eddie Fisher** 61.

**FRIDAY, AUGUST 11** — German storm troopers staged mass demonstrations against Jews in 1935. A newspaper controlled by **Adolf Hitler** reported, "A Jew who permits himself to be seen with a German woman publicly (or) a Jew who in a public dancing place arrogantly shakes his limbs . . . creates a public nuisance and endangers the public order."

President **Reagan's** famous mike check about bombing Russia was five years ago. "Double Eagle II" completed the first transoceanic balloon flight in 1978. 25th anniversary of the NYC premiere of the **Beatles** movie "A Hard Day's Night" (1964). 35th anniversary of the French defeat in Vietnam after seven years of fighting. Dog Days end. Meteor shower tonight.

**Birthdays:** **Hulk Hogan** 36. Rev. **Jerry Falwell** 56. **Mike Douglas** 64.

**Saturday (8/12):** **George Hamilton** 50. **John Poindexter** 53. **Buck Owens** 60.

WHATEVER HAPPENED TO THE '80s?

## Survey: The Hits That Stick

"For a lot of stations it's as if the '80s never existed," ubiquitous independent promoter Heavy Lenny is fond of telling me. I understand his point; many AORs combine a low percentage of currents with libraries dominated by '60s and '70s music. These stations give the impression that the last decade is merely a footnote in the history of rock 'n' roll.

With that in mind, I wondered just how many of the decade's most popular songs are still being played today. Which tunes are the survivors, the ones that have endured the constant scrutiny of programmers, researchers, and consultants to secure a coveted place in station libraries?

To find out, I dug into the R&R charts and extracted all the songs that hit number one since the Tracks chart debuted in 1983 (117 songs made the cut, including 17 from 1989). Then I faxed the list to 50 AOR programmers, and each indicated which songs were not in his station's library. (I tried to balance the sample with regard to each station's market size and musical policy.)

Before you continue reading, look closely at the number one songs and consider:

How many of them are you still playing?

Which nine songs were the only unanimous selections?

Which ten artists achieved the most number ones?

### Survey Says . . .

Based on the totals from 1983-88, the average number of songs each station is still playing is 59 out of 100, or 59%. (Since this year's 17 songs have been out such a short time, I didn't think it made sense to include them in this statistic.)

### '83

- ASIA/Don't Cry
- PAT BENATAR/Love Is A Battlefield

- MEN AT WORK/Overkill
- POLICE/Every Breath You Take
- POLICE/King Of Pain
- ROLLING STONES/Undercover Of The Night
- TUBES/She's A Beauty
- YES/Owner Of A Lonely Heart

There were huge discrepancies among the surveyed stations. For example, one station is playing 93% of the songs, while another has only 33% in its library!

To give you a better idea of how things shape up, here's a little chart that breaks down the responses:

% Of Songs Played	# Of Stations

- JOURNEY/Separate Ways
- YES/Owner Of A Lonely Heart
- BRYAN ADAMS/Run To You
- U2/Pride (In The Name Of Love)
- DIRE STRAITS/Money For Nothing
- VAN HALEN/Why Can't This Be Love
- PINK FLOYD/Learning To Fly
- U2/I Still Haven't Found What I'm Looking For
- ROBERT PLANT/Tall Cool One

Interestingly, only Tom Petty's "I Won't Back Down" was a unanimous choice from 1989. At least one station had either rested or dumped all the other songs that made it to the top this year.

## Back In The USSR

WYSP/Philadelphia PM drive personality Ed Sciaky experienced *deja vu* while reading the July 7 column about KXRX/Seattle's memorable remotes from the Soviet Union — he did some live USSR-to-US broadcasting of his own in conjunction with Billy Joel's historic 1987 Leningrad tour.

After hosting the actual concert broadcast back to the US, Sciaky and PD Andy Bloom remained in the Soviet Union for a week, giving the folks back home a rare glimpse into Russian life.

"We originally intended to get a studio and do my shows from there, but we were unable to arrange it in time," Sciaky remembers. "So what I basically did were daily live phoners summarizing what we had done that day. We also fed various drop-ins and features we taped with Billy and the band, journalists, and Soviet citizens."

Sciaky said he could relate to Crow & West's frustration at being mysteriously cut off in the middle of a broadcast. "One night I started to

get into the fact that you have to bribe cab drivers with Marlboros, explaining that there's a capitalistic economy underneath the Communist economy. And I got cut off right in the middle.

"It's not that they don't have money — it's that their money doesn't buy the goods they want. They have stores that sell the goods they want, but they're not allowed to go in them. These government-run stores are only for foreigners with foreign currency. It's very weird."

Sciaky sums up his Soviet trip: "It was the most emotional experience I ever had. It was absolutely incredible."

tough time coming up with recurrences. Close to 50% of the number ones from '88 and '89 — songs you'd expect to be prime recurrences — have been dropped by at least half the surveyed stations. Sure, some are considered toasty and may return after a rest. But my guess is most of those former heavies will never see the light of day again.

On the other hand, if you're like many of the survey respondents, you've probably spotted at least a couple of forgotten songs you may want to revive.

Every song on the list is receiving airplay by at least one station surveyed. Yes, even "Hungry Like The Wolf" and "Overkill." (The same station is playing both of

those chestnuts; the 49 others respectfully decline.) In all, 25 songs had the dubious distinction of being banished by at least 80% of the respondents.

The following have scored at least three chart-toppers since '83:

J.C. MELLENCAMP	6
BRUCE SPRINGSTEEN	5
U2	5
TOM PETTY	4
VAN HALEN	4
CARS	3
FIXX	3
ROBERT PLANT	3
STING	3
STEVE WINWOOD	3

If you're like me — and God help you if you are — your first reaction to the above list is: the Fixx? But there you have it. And remember, that list doesn't even include what has to be considered the band's biggest hit, "One Thing Leads To Another." That would have easily made it to the top in '83 if "Every

Breath You Take" hadn't logged a record eight consecutive weeks at number one. ("Synchronicity" topped the album chart that year for an amazing 17 weeks in a row.)

### Numbers Game

It should be noted (so I will) that all the pieces have to fall into place for a song to make it to number one. "One Thing Leads To Another" is just one example of a hit that would have gone all the way if it

had come out at another time. Look at all the songs that are ultimately stymied by a superstar glut. (Of course, that's little consolation for record reps, who share a universal distaste for a "number two.")

The fact remains that there's often little difference between songs at the top of the chart. Or anywhere on the chart, for that matter. It's just a numbers game. Chart performance is meaningless if a particular song doesn't work for you.

## URBAN CONTEMPORARY

## Life After Radio

Many Urban Contemporary programmers and air personalities can bring years of valuable radio experience to the bargaining table. Despite this, the career path from UC to general market is still a bumpy one. Some have been able to make the transition; others have opted to pursue other avenues.

Lately, it looks as if a UC radio-to-records migration is shaping up — in the last year, at least ten have shifted ranks. While the specific reasons behind their career shifts differ, the four radio vets I spoke with said their label experiences have given them a new perspective on radio.

Brute Bailey

### Brute Bailey

Brute Bailey is Island Records' Northeast Regional Director/Promotion & Marketing. A former PD who worked at WYLD-FM/New Orleans, KMJQ (Magic 102)/Houston, and WDJY/Washington (with a stint in between doing concert promotion), Bailey is also a former YBPC president.

Although he enjoyed radio, Bailey left after 13 years because of the stress involved in day-to-day programming. When his two-year contract at WDJY ended, he decided to return to concert promotion. But (Island label exec) Greg Peck persuaded him to move in another direction. "Greg asked me to come to the label and help him build it. When Peck moved to PolyGram Records to serve as VP/A&R, I was a little discouraged. However, (Island President) Lou Maglia convinced me to stay, and I really like it.

"It may sound ludicrous, but I think if more radio people worked

**"If more radio people worked in the record industry prior to being PDs or MDs, they'd be better prepared to do their jobs."**

— Brute Bailey

in the record industry prior to being PDs or MDs, they'd be better prepared to do their jobs. There's less stress involved than there is with major market programming. But the quest to perform and win still exists. I've only worked in the record industry for the last five months, but with the knowledge I've gained I could be an even better programmer."

**SPELLBOUND** — WBLB/New York PD Ray Boyd (r) was among the "Spellbound" contingent at a Warner Bros.' reception for Joe Sample at the New York Hilton. Joining him in front of the camera were (l-r) WB's Ted Astin, Trupie-do Crump and Jodie Williams, and Sample.

### Wanda Ramos

Wanda Ramos currently handles promotion for Columbia Records in several Southern states. Previously, she served as MCA Records' Northeast Regional Director/Promotion. Her nine-year radio career included MD stints at WBLB/New York (under Frankie Crocker, plus a weekend shift) and crosstown WWRL during its secular music days.

Wanda Ramos

**"My interaction with PDs and MDs keeps me abreast of current approaches to programming."**

— Wanda Ramos

Ramos sees her radio and records careers as two sides of the same coin. "I've stayed in the same industry. My love for radio will never leave me. The fact that I get to travel to different cities and interact with PDs and MDs keeps me abreast of current programming approaches. And some of the PDs ask my opinion since they know I've worked in major markets. The networking is fun.

### Picture This

Do you ever picture yourself in R&R? Gather your best black & white photos (clear color shots are fine, too) of station promotional events, contests, concert tie-ins, in-studio visits by artists, or local benefits and mail to: Editor **Walt Love**, 1930 Century Park West, Los Angeles, CA 90067.

"In the future I'd like to move into the creative end of the business, maybe working in A&R. If you're a creative person, you like doing something new and different. It's wonderful to have a hand in creating something the public responds to."

### Ron White

Ron White, National Director/Field Promotion for MCA Records, arrived at his current post via a circuitous route. He actually began working as a record distributor in Detroit, then segued crosstown to an on-air gig at WCHB. His 13-year air personality career ended at WOL/Washington — he decided it was time for a change after the station acquired a new owner. He jumped back into the record in-

dustry as an independent promoter, working with Bobby Bennett (now WHUR/Washington OM).

Since then, White said he's seen some positive developments in minority hiring at the label level, especially in the A&R departments. Why did he choose record promotion? "I'd always been interested in promotion because it was an extension of the radio business. I like meeting people and interacting."

### Hank Spann

Hank Spann, Reprise Records' National Director/Promotion & Marketing, is a 21-year radio veteran. He spent ten years on the air at WWRL/New York and served as PD (in addition to juggling on-air duties) at WAOK/Atlanta and WBOK/New Orleans.

His entry into the record business was a natural extension of his interests. "I realized long ago that I was musically inclined and wanted to help develop careers," Spann said. "While working in New York, I coproduced a couple of records with some acts. I liked it."

Spann worked with Skip Miller (now an RCA VP) at Motown Records (covering Louisiana), then was lured back into radio to serve as WXOK/Baton Rouge GM. But music continued to be a strong interest. When Warner Bros. offered him an opportunity, he took it. Spann was promoted to his current position upon Reprise's reactivation.

Spann enjoys working with UC radio PDs but would prefer increased radio-to-records interaction. "Some of today's PDs are isolating themselves from record industry professionals. That's a problem for our industry as a whole. I've always felt getting information firsthand was more of an asset to a programmer than hearing it from someone else. Successful business means working together."

Hank Spann

**"Some of today's PDs are isolating themselves from record industry professionals."**

**PITCH FOR RAP** — The National Academy of Songwriters and AFG Music Publishing presented a "Rap Music Song Pitch" at L.A. nightclub Joshua's. Rap writers were given the opportunity to perform songs for publishers in search of material. Supporting the cause were (top, l-r) BMI's Dexter Moore, KDAY/Los Angeles's Bridgette Trent, AFG's Duncan Payne, Joshua's Dee Dee Gibson; (kneeling, l-r) NAS's Bruce U.R. Walker and AFG's Cary Eatmon.

- **MIKE STRATFORD** - KMJQ/Houston, TX.  
"I listened, I took a chance, I added it, Three Times Dope, it's kickin'!"
- **STEVE CRUMBLY** - WOWI/Norfolk, VA.  
"Hot 103 is an adult station, Three Times Dope reached our 24-54 demo and now we're collecting the 'Funky Dividends.' "
- **ERIC FAISON** - WAMO/Pittsburgh, PA.  
"The lyrical content is what got me. Three Times Dope is working in Pittsburgh and generating big phones."

ADULT CONTEMPORARY

## KKCW Goes It Alone On FM

Until recently, Portland AC competitors KEX and KKCW (K103) each faced spirited format opposition on their respective bands. But times have changed. FSA KGW will soon bail out in favor of Talk, and KCLI (now KKSX-FM) has opted for Gold.

"KCLI didn't sound bad," said KKCW PD Bill Minckler. "I'm not sure why they didn't make it; maybe time just ran out. They had some good people and used an excellent company — the Research Group — but things didn't click. It's nice being Portland's only 'typical' AC on FM."

### KINK-y Competition

Portland's competitive battles are made more intriguing by the presence of ratings-solid KINK, a hybrid facility that's difficult to label.

"Based on its demographic spread, KINK is adult and contemporary, but it's not exactly your traditional Adult Contemporary. It makes the market unique because we don't have typical competition. KUPL-FM is Country but plays a lot of pop and is very efficient. I have a lot of respect for them. I also take the 'Big Kahuna,' Z100

Bill Minckler

and a half years and don't have a history and tradition," noted Minckler. "We want to let people know who we are and why we're here."

### Not The Same Tired Promotions

Minckler believes contesting is an important ingredient in the programming pie, but it isn't the station's most important element.

"Listeners tell us they like contests, especially if they can play along. We try to do contesting with passive listeners in mind. Some research says more people than ever are participating in station contests, but the vast majority still don't play. I program to the majority, not to the supposedly increasing minority."

According to Minckler, smaller prizes (dinners and tickets) are just as important as big cash payoffs. "If we give away money, we try to have fun with it. We want non-participants to play along. Most successful stations do that and don't program to contest players."

K103 staged a "big-bucks" give-

away last fall with its "Winning Is As Easy As 103" promotion. The basic motive was to underscore the station's dial position (103.3).

"The contest was new and fresh. It wasn't the typical 'be the ninth caller and win' routine. We asked people to look for '103' on a variety of different items. When people brought the required item to the station, we gave them \$1003." The promotion ran each weekday for three months, and approximately \$60,000 was shelled out.

The most unusual thing people needed to locate was a car tire with the numbers one, zero, and three in consecutive order. "Some guy found one on his neighbor's car," Minckler said. "While dressed in only a bathrobe, he confronted his female neighbor and told her that he would buy her a new tire in exchange for the tire in question." Apparently the woman, who had never talked to the male neighbor before, was unaware of the station contest and took him up on the offer.

KKCW also does smaller giveaways — with classy twists. When the station gives out dinners for two, it also springs for a babysitter when one is needed. Each Friday throughout the summer the station holds a cookout for 103 listeners. When K103 throws a listener party at a hotel, it arranges discounts for people who want to stay overnight

(CHR KKRZ), seriously because of the respectable size of its adult audience.

For about eight weeks between January and May, KKCW utilized a limited TV schedule. Rather than carrying a specific message, the campaign's primary purpose was to reinforce KKCW in people's minds.

## KEX Continues Healthy On AM

Portland has been one of the few markets to support two strong Full-Service outlets. However, with KGW's impending format change to Contemporary Talk, KEX will emerge as the city's lone FSA.

"It will be interesting to see how KGW will differentiate itself from the other Portland Talk stations and be unique," observed one-year KEX PD Mike Dirkx, who previously programmed KGW. "I don't know if KGW's format change will have a dramatic effect on the book, but I would certainly like to see it help us."

### 'Destination Station'

Like other FSA giants, KEX considers consistency to be its greatest strength. "For years, KEX has held the line," noted Dirkx. "We're information-oriented, with personalities who like to have fun. (Morning man) Bob Miller writes and sings his own parodies and does fake commercials. Our announcers, sports people, and news reporters have been here a long time; we haven't had a lot of turnover."

"There are two types of stations: the kind you're passing through on your way to the next gig and the

so they don't drink and drive. Additionally, a current direct mail campaign offers listeners values like two-for-one deals at fast food spots such as Burger King.

"The most important thing to think about is your target listeners," advised Minckler. "Do anything to save them a couple of bucks."

### Presidential Promotion

According to Dirkx, KEX is heavily involved in community service promotions — to the point of doing something "virtually every weekend." KEX recently utilized a patriotic theme by simulcasting the Fort Vancouver Fourth of July fireworks presentation, billed as the largest west of the Mississippi.

KEX's most noteworthy event is the "Bob Miller Needy Kids Fund," which has raised approximately \$100,000 in only three years. And last year Miller won a presidential award for his efforts.

Said Dirkx, "Bob wanted to do something that would really help children, so KEX asked area schools what youngsters needed that wasn't being provided. The answer we got was that kids' lives would be changed if they could just see. We raise money so kids can have eyeglasses, eye exams, hearing aids — anything that can help them do better in school. Their grades and feelings about themselves have obviously improved. It's a remarkable program, and we'll gear up for it again around Thanksgiving."

## Consistency Counts

According to KEX/Portland PD Mike Dirkx, a key reason for the success of the Full-Service mainstay is its lack of on-air turnover. Here's the KEX lineup, with each personality's years at the station in parentheses:

Mornings: **Bob Miller** (10)  
Middays: **Bob Swanson** (22)  
Afternoons: **Jim Donovan** (3)  
Evening Sports Talk Show:  
**Scott Lind** (just hired)  
Nights: **ABC's Tom Snyder** and  
**Sally Jessy Raphael**  
Overnights: **Brad Ford** (1)  
Sports: Oregon State (30+)

While Donovan's KEX tenure has been relatively brief, he's spent about 15 years in the market.

After having their games carried on crosstown KGW since 1985, the NBA Portland Trailblazers will return to KEX for the 1989-90 season.

## Money From Heaven ... And WGTC

The Flag, The Fourth, And Assorted Other Promotions

Here are a few things your radio brethren have been up to of late. Feel free to adapt or adopt any or all of these ideas, designed to make radio more fun for the listeners — not to mention the people at the stations involved.

WGTC/South Bend, IN, a brand-new station which signed on just before the Fourth of July, didn't have time to plan its own holiday celebration — so it crashed WNDU's.

One of the first things the crowds attending U-93's community fireworks display saw was an airplane flying overhead with a banner reading "U-Who? Tune in the New Great Country 102 FM WGTC."

An hour before the show WGTC popped yet another surprise. A helicopter hovered over the crowd

with loudspeakers blaring, "U-93 brings you the show, but WGTC brings you the dough." With that, the unsuspecting crowd was showered with \$5000 in small bills dropped from the chopper. Just to make sure there was no doubt as to the benefactor's identity, each bill was stamped with the WGTC call letters and slogan in red ink.

WGTC received tons of local TV and newspaper coverage, though the papers were less than impressed with the money drop, which resulted in what the mayor called "a little bit of a stampede."

### Concert Capsules

Literally millions of people attended country concerts over the Fourth of July weekend, most as part of events sponsored by Country stations.

More than 100,000 braved record

118-degree heat in Phoenix for KMLE's show, which featured Highway 101 and Larry Gatlin & The Gatlin Brothers.

In Cincinnati, 185,000 turned out for WUBE's "All American Birthday Party." In addition to offering games, food, and fireworks, the event included performances by Les Taylor, Billy Joe Royal, and the Charlie Daniels Band. In an effort to reinforce the family atmosphere, the party was designated "alcohol-free" for the first time. Look for this trend to spread.

### Notes From All Over

- KUPL/Portland's listener appreciation picnic featured a competition to break the world record for watermelon seed spitting. The record "heave" of 65'4" was set in 1980 in Luling, TX. No word on whether the record was broken. Luckily, no pictures, either.

- KFDI/Wichita celebrated its 25th anniversary with a free concert that reflected country music's various sounds over that span of time. Dave Dudley, Tammy Wynette, and Clint Black shared the stage with local acts, which included KFDI personality and former recording artist Johnny Western.

- KMPS/Seattle's Ichabod Caine did a morning show remote from the station's parking lot during the KMPS Tenth Annual International Weenie Fest. Among the contests

held were those for the Best Dressed Weenie, Stupid Weenie Tricks, and the Weenie Toss — and there were *thousands* of charbroiled weenies handed out to morning commuters. Yum.

- WGKX/Memphis turned its sportscaster's vacation into an event when it invited local celebs to sit in as replacements for him during the morning show. The mayor, local TV and newspaper personalities, and local college coaches were some of those getting in on the fun.

- Did you know you can order flags that have been flown over the Capitol through your congressman's office? WWBE/Mifflinburg, PA had done just that immediately prior to the Supreme Court's flag-burning decision, and had them on hand to give away when the controversy broke. Great timing, huh?

- KZSN/Wichita gave away an \$85,000 house during the spring book. Listeners picked up entry blanks at a participating sponsor and dropped off completed forms at the home site. Names were announced on-air between 6am-midnight Monday-Friday, and each person picked had 15 minutes to call and qualify. Contestants later gathered at the house, which was awarded to the person who keyed in the correct code to open the garage door.

- WRMJ/Aledo, IL PD/morning personality Mike Robinson reports great response from the "WRMJ Happy Hour" feature, during which the only songs played are those with positive lyrics (no lyin', drinkin', cheatin', or dyin' tunes). As you might expect, it takes some diggin' to come up with an hour's worth of music that fits.

WGTC/South Bend, IN middayer Tami Wells and OM Scott Mahalick are pictured prior to taking off and showering thousands of dollars on people attending another station's promotion.

KAJA/San Antonio draped itself in a huge flag following the Supreme Court's flag-burning decision. It also handed out more than 4000 personal-sized flags in the station's parking lot. Pictured in front of the building and Old Glory are Promotion Director Bob Norman (l) and midday personality Bruce Hathaway.

## ARTISTS WILL GUEST-HOST

### VH-1 To Air Country Videos

VH-1 will debut a twice-weekly one-hour country video show called "New Country Cats" September 30. The program will air at 11am (EDT) Saturday and 8:30pm (EDT) Monday, and will feature videos by new country artists in addition to short features on established acts. Each week different guest artists will chat about themselves and their music.

VH-1 VP/Programming Jeff Rowe explained that country music's increased impact on viewers prompted the show's creation. "We'd like to expose country music to a different group of people," he said. "Perhaps we can help change the general perception about what country is."

**NEW & ACTIVE** — Tracks building in airplay and coming closest to charting. Numbers indicate total reports/adds, e.g., 40/20 means 40 total reports and 20 adds. (Figures in parentheses are last week's data.)

**CHARTS** — Albums and tracks showing continued growth are bulleted. Symbols represent more (+), less (-), or equal (=) reports compared to last week. On the album chart, current singles are **bolded**, and the number of stations playing each of an album's most-reported tracks is listed in parentheses.

**BREAKERS** — Albums and tracks reach Breaker status the first week they are reported by at least 60% of our AOR reporters.

**MOST ADDED** — This week's most added albums and tracks.

**MOST REQUESTED** — This week's most requested tracks.

**HOTTEST** — This week's albums and tracks receiving the most heavy reports.

**PLAYLISTS** — Artists are listed once per playlist in the highest rotation that any of their album's tracks is reported. For example, if tracks from the same album are reported in both heavy and medium, the artist will appear in heavy.

For all stations, light rotation is condensed to include only adds to the rotation this week. For P-2 and P-3 stations, medium rotation is condensed in the same manner.

**Symbols:**  
'a' — Album or track is newly reported.  
(M); (L) — Other tracks from that album are in those rotations (medium or light).

A "frozen" list indicates that a current report was not received, and last week's rotations are included in the data base. Stations which fail to report for two consecutive weeks do not contribute any data to this week's charts.

**PARALLELS** — Stations arranged by market size, according to Arbitron's MSA population figures.

Parallel One: 1,000,000 +  
Parallel Two: 200,000 - 1,000,000

Parallel Three: under 200,000. Stations at a significant ratings disadvantage to an in-format competitor are assigned a lower parallel.
