## R & B RHYTHMS

by Suzanne Baptiste

**BACK TO REALITY:** Now that the holidays are fully behind us you will notice that there is a huge increase in spins. Look next door to see who some of the biggest winners are.

**CHANGES:** WMXD Detroit PD Kris McClendon has resigned. No replacement has been named. All tapes and resumes should be sent to OM Steve Hegwood... In the next couple of weeks WJPC Chicago will officially change to WEJM AM/FM. So far they still intend to keep the nickname 106 Jamz... WPGC Washington, D.C. will launch an all rap format on their AM band starting this Friday, January 13th. I can see they aren't superstitious... WRKS New York will eventually be adding currents back to their playlist, but no official date has been set. We'll keep an eye on them in the meantime.

**I'M STILL WAITING** for your feedback from last week's column (Jan. 6). For those of you who missed it I asked the question "Are we using the wrong criteria when it comes to classifying which panel radio stations belong to (Rhythm-Crossover vs. R&B)? Shouldn't it be based on the music?" Please send me your feedback; I'm especially interested in opposing feedback. I want to thank the few people who have already sent in their feedback. So far everyone seems to agree with me. If I get enough feedback with different points of view then I will publish them. So let's get this out in the open. My fax number is 212-536-5286.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 500 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on either chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 750 detections (mainstream) or 250 detections (adult) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the charts after 26 weeks.
