# INTERNATIONAL *Talent & Touring* DIRECTORY

This fourth edition of the International Talent & Touring Directory reflects a continuing effort to serve the musician on the road, thus the slight modification of the title. However, the emphasis on fixed facilities is another concern and the directory now contains the most compre-

hensive listings anywhere of club and disco equipment, both by company address and separately by category for fast cross referencing. Finally, the directory is being steadily internationalized with the addition this year of Australia and Italy.

# This is not the only reason to buy JBL's new 2441 compression driver.

Unequalized frequency response of a typical 2441 on a JBL 2350 horn.

As you can see from this frequency response curve, the new JBL 2441 delivers impressive levels of performance. From extended bandwidth to high sensitivity and smooth, peak-free response.

But as important as these performance parameters are, they're only part of the story. Using the latest laser holography and computer analysis techniques, JBL engineers have developed a unique diaphragm design that allows the 2441 to match its outstanding response with unprecedented reliability and power capacity. That means you get exceptionally high performance without the trade-offs found in previous driver designs.

The secret behind this increased performance lies in the diaphragm's three-dimensional, diamond-pattern surround.<sup>1</sup> As outlined in a paper

published in the Journal of the Audio Engineering Society,<sup>2</sup> this surround is both stronger and more flexible than conventional designs. This permits the diaphragm to combine all the traditional reliability and power capacity benefits of its aluminum construction with the extended frequency response of more exotic metals. It also maintains consistent diaphragm control throughout the driver's usable frequency range to eliminate uncontrolled response peaks.

Additionally, each 2441 is built to JBL's exacting standards. The magnetic assembly is machined from rugged cast iron and steel. Extremely tight machining tolerances and hand tolerance matching maintain unit to unit consistency. And finally, each 2441 is individually tested to ensure that it meets published specifications.

So before you buy any compression

driver, ask your JBL professional products dealer about the 2441. It'll deliver a lot more than just an impressive frequency response.

## micro *phonies...*

### **fact:**

There are some new (and some not-so-new) microphones on the market that have a very familiar shape. In fact, a person who is not careful might confuse one of these for a Shure microphone!

However, in this case, beauty is only skin deep. Whatever the outward resemblances may be, it isn't hard to tell the difference between a Shure microphone and an imitation.

**Sound Quality.** The famous Shure Sound has *never* been duplicated — whether you prefer Shure's distinctive, crisp response with a presence peak that is perfect for vocals, or a flat frequency response for instrumental pickup.

**Reliability.** Shure has the most demanding and rigorous Quality Assurance programs in the sound industry ensuring dependable performance, time after time. Each Shure microphone shrugs off the kind of abuse that's associated with tough usage, adverse humidity and temperature conditions, and accidental mishandling. What's more, Shure microphones carry a one-year guarantee on parts and labor!

**Shure Nationwide Dealer Network.** When you are thousands of miles away from the place where you bought your Shure microphone, and you find you need service, or technical advice, or a matching component, you know you can put your hands on what you need — quickly. Worldwide!

**Model SM58**

## the real thing

Insist on the Shure name on your microphone. It's performance insurance that can't be imitated.

SEXUAL ABUSE OF CHILDREN. NOT TALKING ABOUT IT WON'T MAKE IT GO AWAY.

It's real. Tens of thousands of children are sexually molested each year. Generally by a close friend, neighbor, parent or other member of the family. And we can't ignore the problem away. The abuse of children, whether it be sexual, physical, emotional or a form of neglect, damages young personalities and oftentimes results in death. An estimated one million children suffered from child abuse in America last year. A true tragedy because child abuse can be prevented. But not talking about it won't help.

Abused children are helpless. Unless you help.

The mind, when properly educated, can do anything—from restructuring old financial systems to drafting plans for new cities.

And when you invest in the United Negro College Fund, you help students realize their potential—especially for helping you.

UNCF gives young people the opportunity to attend 41 private,

predominately black colleges and universities. Your contribution allows us to keep tuitions low and to grant financial aid to needy students. Otherwise, many of them wouldn't be able to attend college at all.

Our graduates have demonstrated their value to the world of business. They have become

engineers, technicians, accountants, managers, economists. Professionals who are helping to run businesses like yours from the ground up.

Invest where it counts. Send your check to the United Negro College Fund, Box K, 500 East 62nd St., New York, N.Y. 10021. And watch your investment grow.

## GIVE TO THE UNITED NEGRO COLLEGE FUND. A MIND IS A TERRIBLE THING TO WASTE.

# “If you never heard of VISTA, it’s because you never needed VISTA.”

—Edward Asner

VISTA isn't a charge card and it's not a travel group. It's Volunteers In Service To America and it's been working in the cities, on the farms and in small towns across America for 15 years. Improved housing, nutrition and health services. Tenant/landlord relations. Skill training. Legal rights. Energy conservation. Disaster recovery. Cooperative farming. Working with people to find innovative solutions to many of the problems that face America's urban and rural poor. Now, 15 years and 50,000 volunteers later, VISTA is still a reality. The first real opportunity for a lot of people to have a voice in making the decisions that affect their lives. Happy Birthday, VISTA. You've grown up to become a working part of America.

# The book that turns businessmen into best sellers.

Many who've read it are now reaping the rewards. Because they've found that U.S. exports are a more than \$100 billion a year business, that exporting creates both company profits and company growth, that U.S. goods have never been more competitive in international markets. Above all, they've found that, with the help available from the U.S. Commerce Department, selling overseas is no more difficult than selling at home. And this fact-filled book can prove the same to you. Write The Secretary of Commerce, U.S. Dept. of Commerce, BED 8B, Washington, D.C. 20230.

## NOW THE BEST MARKET IN ARKANSAS

Some folks like the numbers game. How about playing one with us? Get the right act or show together and we can furnish the facility to accommodate—10,000 capacity and 80,000+ square feet of exhibit space on the Fairgrounds.

We are located within 10 miles of the geographic center of Arkansas—1980 population, 2,284,037—with 1,230,860 or 54% of Arkansas' population residing within 100 miles. Nine of this state's largest cities are within 51 miles. Between 1970 and 1980, the Little Rock-North Little Rock metro population increased 21.5%.

# When words aren't enough...

... give a gift of life. This year one million Americans will die from heart attack, stroke and other heart and blood vessel diseases. It isn't easy to talk about—but it happens. Someone you care about, young and apparently healthy, dies too soon, often without warning. What can you say? Can't something be done? The Heart Association

—through research, education and community programs—is making headway in its effort to reduce premature death from heart attack and stroke. A memorial gift to the Heart Association will express your deep concern... and it will help us stem the tide of early, preventable death. Give a memorial gift. It's really a gift of life.

# Live and help live

Catastrophic disease knows no boundaries. It can strike old and young alike. But it is particularly tragic when a life that has just begun is affected.

St. Jude Children's Research Hospital also has no boundaries. As the largest center for the study of childhood cancer and other catastrophic diseases of children, St. Jude's results have worldwide impact. Upon diagnosis and a doctor's referral, a child from anywhere in the world may be accepted and treated free of charge. But, our research touches many more than those brought to Memphis, because doctors everywhere treat patients using methods perfected here.

Each year doctors, nurses and scientists visit St. Jude to exchange and share this vital knowledge. Our doctors and scientists also travel the world over giving lectures and presentations. Our research reaches not only from New York to California, but to such prestigious places as London, Paris, Florence, Tokyo, Frankfurt and the Hague. It hugs the earth!

St. Jude Children's Research Hospital's purpose is to help children everywhere live. Please help St. Jude. Send your tax-deductible check or request for information to 539 Lane Avenue, Memphis, Tennessee 38105.

# Try leaving on a flight of fancy.

It's one thing to sit around  
and dream of faraway places.

But when you decide to go, you've got to  
come up with a ticket. Wishing won't make  
it so. Saving will get you there.

One of the easiest, safest ways to save is  
to buy U.S. Savings Bonds through the  
Payroll Savings Plan. Part is taken out  
of each paycheck automatically. And the  
Bonds will eventually grow into a first-class  
ticket to anywhere.

Nothing is too far. Tahiti, London, Paris,  
Rome. Even a trip around the world. Or  
just a long vacation on a Caribbean island.  
Anywhere.

So go ahead, take a flight of fancy.  
Then start buying Bonds so  
you can take a  
fancy flight.

Take  
stock  
in America.

When you put part of your savings  
into U.S. Savings Bonds you're  
helping to build a brighter future  
for your country and for yourself.

# FOR THE BRIGHTEST STARS.

The talents of recording stars and their studios provide the magic that turns a reel of recording tape into an outstanding creative achievement.

The Ampex Golden Reel Award honors those achievements which were mastered on Ampex professional recording tape. They have earned a place in the ranks of the world's most successful recorded albums and singles.\*

Included in the award is a gift of \$1,000 to the recording artist's favorite charity.

Over the past three years, there have been more than 200 Golden Reel recipients. And more than \$200,000 donated on their behalf.

Congratulations to all of them on a masterful performance.
