

## "The Coin Machines Merry-Go-Round"

By Bill Gersh

### THREE WEEKS

There are only three weeks more to go before coinmen from all over these United States will once again be greeting each other at the Hotel Morrison in Chicago on November 15, 16 and 17, 1943. It is extremely interesting to note how more and more men, as the time for the Second Wartime Conference approaches, are planning to be present and are continuing to urge their many friends to also attend. This is the spirit that always pervaded and made successful the meetings of the men engaged in this coin operated machines industry. It is the spirit that has been responsible for making the coin machines industry a definite and integral leading part of the general entertainment scene of this nation.

With this spirit comes the good fellowship, the sportsmanship and the keen understanding of the other man's problems, that have always been characteristic of the members of this coin operated machines business. The men realize that this Second Wartime Conference in Chicago is much more than just an old fashioned get together, tho frankly, it is the first time in many years that the men have again been able to meet and talk with each other. It may mean the solution to a great many problems now confronting this industry. A great many men, from all the states of this union, are planning to present their problems to the general body and listen for the cures that will be offered by those who have probably experienced these same difficulties.

Once again the members of this industry will gather in one central city and for the first time in one large room and be able to talk across the floor to each other. For the first time in the history of this business all the members of this industry are invited to meet in one room and discuss their business - openly. Never before was this made possible. Never before, even during former conventions, were the men able to get together and to talk with each other with their complete thoughts exclusively on the subjects uppermost in the minds of so many at this time.

This is both an unusual and historical meet from more than one standpoint. The manufacturers are happy to once again greet their many friends. All other branches of the merchandising division of this industry, from operators to distributors, feel a kinship brought about by the fact that this industry has been drawn so closely together, has become so highly concentrated by this war, has found that even as a smaller, tighter business unit, it still prevails among the leaders in the nation's entertainment fields. The kinship that has therefore developed among the men remaining in this business for the duration is like a closer family relationship, than anything that ever existed before.

In three more weeks these men will be able to meet with each other - personally. Will be able to shake hands and have a drink with the men whom they talked with only over long distance phones. With the other fellow - the man they only know by his letters and his ads and possibly his printed picture. To become better acquainted with each other. To realize that the other man, too, has the same interests, wears the same sort of clothes, and parts his hair the same way. And yet that he, too, is a definite personality who also wants to better understand his fellow coinman and to greet him on an even basis. These men, in three weeks, a great many of them, are in for some real surprises. They will be surprised to learn that some of the people with whom they have corresponded and talked over long distance phones - are really "regular guys". The kind of men they like.

Yes, within three more weeks, a great many grand new friendships are going to be created. And that alone will more than repay many for their trip. It will mean that these men who have come together to talk and to see each other, and to know each other more intimately, are all of one accord, and one mind, and one purpose. They all want to succeed in the business which they have chosen for their own. They all look forward eagerly to the post war era. They are, many of them, making elaborate and interesting plans, and exciting plans too, for the post-war period. They will therefore profit tremendously by better understanding each other now - before the post-war world arrives.

Tho we, here at The Cash Box, are proud of the part that we have played in helping to bring these men together, we are much more proud of the fact that these men heeded our call for this Second Wartime Conference and decided to meet with each other. We feel that we are an integral part of the larger scene. We feel, that as an activating

## "The Coin Machines Merry-Go-Round"

force, we only proposed something which met with the approval of our great many subscribers and that they, themselves, are completely and thoroly responsible for any success which will be enjoyed by this Second Wartime Conference.

The fact that so many people of a single industry will gather together under one roof to discuss and seek solution for many problems confronting them brought about by the war, is something of which this industry can be proud, for it most definitely proves the progressiveness of its members. It demonstrates to all industries that the men engaged in this trade are earnestly and eagerly looking forward - ahead - to the years to come and like all other good business men want their industry to enter into this new post-war world completely prepared.

Here is something for all the men in this industry to think about - now. Here will come hundreds of men who want to see and talk and listen to each other. Here will be the men whom you want to meet. Here will be the men who may be depending upon you to help them carry on for the duration. Here may be the men whom you will call "friend" for years afterwards. Here will be many strangers from the south, north, east and west - whom you may have only read about. These men, all of them, look to you to bring forth the ideas that will brighten the coin machines world of tomorrow.

Remember, three weeks are a very, very short span of time. Get ready NOW. Phone your friends today - bring them along. It's sure to be the grandest time you and they have ever enjoyed.

### "SUCKER?"

Many time in the past we have written regarding the misnomer, "sucker". This expression developed in this industry when it was very young. It happened to be a popular expression of the stage and traveled its application to many misnamed purposes and persons. It was taken up by a very few individuals who believed that because they tremendously overcharged newcomers to this industry, or who, meeting with men hidden in the small villages of the nation, were able to sell them at exorbitant prices called these men, "suckers". And bragged about the fact. To the dismay of these first, sharpshooting salesmen, these so-called, misnamed "suckers", in most cases, have risen to leadership in this industry whereas the salesmen who started them on the road have long ago disappeared. And to their sorrow.

For the record, then, there is no such person existant in this industry now or at anytime to come who can be termed a "sucker". And many that pays a high price for a machine today is most certainly not a "sucker". If he needs that machine, has the location that will amortize the cost, and still earn him a decent profit percentage on his original investment, then how in all the world of business economics can such a man be termed a "sucker"?

We believe that the time has arrived when those engaged in this industry should clean it of all misnomers of this type. We feel that most coinmen are earnest and sincere in their endeavor to raise the level of the business ethics of this industry. We also fully believe that they are all of one purpose - a better, cleaner business - one that they can own up to and be proud to be members of - for the sake of their families and their friends. Certainly, using such a word as "sucker" will not help to raise the level of this industry. In fact, it can only create suspicion and disdain on the part of any intelligent outsiders who may be planning to enter into this business. It surely will frighten them away from this industry if it does anything at all.

Every single member of this business has, by his own record, proven that there is no such thing as a "sucker" remaining in this industry - or anything that can even be so termed. Because a man may make a foolish purchase now and then, this isn't the word that will describe him. All other business men in all other industries make mistakes. But, thruout any industry no one challenges a man's intelligence and future desire to remain in business by terming him a "sucker".

If you believe that the man whom you have just started in this business is a "sucker" you still have much to learn. Not only will he find himself earning more than he ever did before with less work, but he's going to fall in with the spirit and the excitement and sportsmanship and action of this industry. And before long, as you already know, he becomes everyone's customer and not just your own. If you did use him for what you term a "sucker" then what have you accomplished for your own business betterment? You have only created another customer for one of your competitors and a man whose vitriolic disdain of you will travel far and wide for many years. You can only fool a man once. From then on, if you still believe you are fooling him, you're only kidding yourself. And can, instead, apply the same ugly misnomer to yourself that you apply to him.

### SPEAKERS

Once again we suggest to all of our subscribers that they advise us as to the speakers they would like to hear at the Second Wartime Conference. Some have already indicated their preference. If all the subscribers of The Cash Box will take just a

## "The Coin Machines Merry-Go-Round"

moment or two to drop us a card with the name of some speaker and the subject on which they would like to hear him speak we shall make it our business to try and get this man upon the platform at the Second Wartime Conference.

There are some unusually fine speakers among coinmen. These men must be given time to prepare for any subject upon which they may decide to talk. Therefore, your letter or card to us immediately will help all to hear this man, provided of course, that he is willing to speak before the gathering.

There are many manufacturers who can be asked to give their views regarding the future of this industry. These speakers may produce some surprising prophecies. Others are in a position to give facts regarding the work already accomplished for the war effort by the coin machines factories which is certain to please all within hearing distance. There are subscribers, too, who may want to hear Federal officials. We suggest, once again, that immediately after reading this item you advise us as to whatever speakers you would like to hear at the Second Wartime Conference.

### CONCENTRATED

As this industry becomes a more highly concentrated unit, there is certain to be much better control over all factors for the future welfare of all concerned. There is no doubt anymore that drafting fathers will have as serious an effect upon this industry as it will on all others. With these men removed from active participation, the industry is bound to become smaller again. With the many that are already gone, those that are left should now most certainly become better acquainted with each other. Make it their business to learn more about each other. Better cooperate with each other for the future benefit of all concerned.

There is no need today for any organization to close in on the men engaged in this industry and attempt to concentrate them any further. There is an opportunity now facing the men engaged in this industry that is at its greatest peak. Because the membership of this industry has become so much smaller and thereby caused it to be easier for coinmen to get together with each other for proper understanding of all problems confronting this industry, they can now, by working together, bring about the benefits, hold the line, and present a finer industry to those others when they return once again.

The nucleus that now remains is the basic backbone of this industry for tomorrow. These men who are continuing active will be the first to spring back into the national limelight the moment the war is won. By keeping close contact with each other at this time there is certain to be created a better understanding for tomorrow's coin machines world. Thereby we hope for progress. There is no doubt that the progress which has been made in this industry during this war period has been greater than was made for many, many years prior to the war - and only because of the fact that this industry is a smaller, tighter, more highly concentrated unit.

### BRANCHING OUT

It is interesting to note that many well known coinmen have branched out into allied lines. Many are today handling beer and soft drink distribution in their territories. This was but the natural resultant of the demand created by locations. The coinman, to help his location obtain the necessary beer, soft drinks or liquors so that the place would remain open and play continue, naturally drifted into these allied lines.

In other lines, too, such as candy, leather merchandise and novelties of all sorts, coinmen have proven themselves good outlets. But, whenever we discuss these new merchandise lines with these coinmen we find that their first and true love remains the coin operated machines business. And that they are eagerly waiting to get back into it bigger and better than ever before.

As one of these men wrote this past week, "We are doing a very nice job with our beer but we aren't letting go of our operation nor of our coin machine salesmen. We believe that when the war is over coin machines will once again be our exclusive business. Not that we don't like the other lines we have taken on, but somehow we just can't get as interested in them as we can in a coin machine. There isn't the excitement and especially not the profits in our outside lines. Give me a coin machine anytime."

### WARTIME SPECIAL

There are only three more weeks to go to get your ad into the "Wartime Special" issue of The Cash Box. Already many have sent us surprisingly different ads than have ever before appeared for their firms. For example, one man presents the picture of his firm's growth for the past 25 years but discounts all this with the promise he holds forth for the trade for tomorrow's post-war world. This issue is therefore certain to prove of tremendous historical and prophetic value.

The final closing day is November 10, 1943. The full page size is 7½ inches by 13 inches. The cost is \$75. These full pages will be completely printed on unusually fine coated stock using any cuts up to 120 screen halftones that you can furnish. Get your page into the "Wartime Special" issue today - paper and printing problems make it imperative that you rush your ad to insure its appearance.

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

## "E" FLAG TO FLY OVER "BALLY" PLANT

The Army-Navy Award Flag, awarded for outstanding production of war materials will soon be hoisted over the home of "Bally" games and venders, according to announcement by George Moloney, Vice-President and General Manager of Lion Manufacturing Corporation, Chicago.

"Many of our friends", Moloney stated, "are unfamiliar with our corporation name, as distribution of "Bally" products was handled by our sales organization, Bally Manufacturing Company. However, the Lion plant in which "Bally" products were manufactured for years, and the old "Bally" organization is active in the production of war material. George Jenkins, for example, General Sales Manager of Bally Manufacturing Company, is now supervisor of a very important part of our total production. Herb Jones, "Bally" Advertising Manager, is acting as my assistant in the management of all Lion production. Our engineering and production staff, which produced "Bally" games in the past - - are now breaking records in production of war material".

Mr. Moloney stated that the letter informing Lion Manufacturing Corporation of the "E" Award had been received, and that the date of the Ceremony of Award would be announced later.

ED GEORGE, Ed George Music Company, Akron, Ohio ran a full page ad in rotogravure in the Akron Beacon Journal October 10th, titled "Music Goes to War". The copy explained the morale building effect of music, and asked that the public put their income into War Bonds. A coupon in the left hand corner asked that the proprietor of all locations operating an Ed George phonograph pledge to invest part of the receipts in War Bonds. A group photo of all George's employees was reproduced at the bottom of the ad with the comment "Every one of our employes put 10% in War Bonds"

The Automatic Music Operators Association of New York ran their Sixth Annual Banquet at the Waldorf-Astoria Hotel, Saturday, October 23rd, and was the usual success - with a large attendance and leading orchestra and vocal personalities serving up the entertainment!

## THE RUDOLPH WURLITZER COMPANY PRESENTED WITH "E" FLAG

On Tuesday, October 19th, The Rudolph Wurlitzer Company, North Tonawanda, N. Y. was presented with the Army-Navy "E" Flag as a reward for its achievement in the production of war equipment. Ceremonies were held on the Wurlitzer Grounds, with the entire factory and executive staffs present. Employees were presented with "E" pins.

Once again we remind all those coinmen who are making plans to attend the War-time Conference in Chicago on November 15, 16 and 17 to make their reservations now. Write the Morrison Hotel or write us and we will be glad to forward your reservation. Buy your railroad tickets (both ways) now. The scarcity of rooms and the difficulty of securing railroad accommodations was brought vividly to our notice this past week when we tried to make arrangements for a hotel and train reservation 4 days in advance. We just did get them, and we were lucky.

Advertising copy is coming in steadily for the Wartime Conference Special Issue. We have every reason to believe that we shall be exceptionally rushed near the closing days - and earnestly ask that you get your copy in early so that we can give it the usual Cash Box attention.

The Arcade Owners Association (A.O.A.) held their first meeting of the 1943-1944 season at the Abbey Hotel, New York City, Thursday, October 21. Al Blendow, president, and Herman Brothers, attorney informed the body about their recent visit to Washington where they presented their problems on taxes to the Committee on Ways and Means.

A host of visitors came into New York City this week, and as usual made The Cash Box their headquarters. Phone calls and wires came requesting all sorts of favors. We take great pride in serving our subscribers and friends, and invite your letters, wires, and visits. When in New York City see us.

DETROIT 1, MICH.

## Fun Not Rationed

As long as big sister's outgrown skates keep rolling, her days are golden. Safe in America, far from the fury of war, she is free from the terror which children in war-torn lands must now endure.

Will the days of her youth and womanhood be as golden as her childhood? Only if American fighters win crushing victory over the dark forces which threaten the future of every free child in the world.

And American fighters can win victory—decisive, durable victory—only if we who remain at home—*safe in America, far from the fury of war*—are willing to sacrifice.

Buy War Bonds. Buy the Bonds you can easily afford as a sound investment. Then dig down again and buy Bonds as a sacrifice—in memory of an unknown lad who died to safeguard the future of a little girl close to you.

*Bally*

## NOTICE

MARCH, 1942, MARKET PRICES APPEARED  
 IN THE SEPTEMBER 7, 1943 ISSUE.

PRICES LISTED ARE CURRENT WEEK'S  
 MARKET PRICES.

## IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.

7—Means no prices quoted for this machine for past three weeks.

8—Means no prices quoted for this machine for past four weeks or longer.
