

## "The Coin Machines Merry-Go-Round"

By Bill Gersh

### A PLEDGE

In view of the fact that so many complaints have been received in regard to poor equipment being shipped about the country, a pledge becomes necessary on the part of each and every man engaged in this industry at this time. This pledge is for those men who are truthful in their desire to ship equipment only as honestly specified, in advance of shipment.

This pledge, as recommended by The Cash Box, is very simple. It suggests that the seller of any machines or merchandise state beforehand the true and exact condition of the machines and merchandise being offered for sale, and just how this merchandise will be shipped, so that no disputes will arise after the buyer receives the shipment. Whatever damage is done in transit is naturally beyond the control of the seller.

Certainly this isn't asking too much. All the seller need do is to state in his advertising or his circulars or letter the exact and true condition of the machines he is offering for sale. If the cabinet is scratched or marred, if something is out of order, if a part is missing or very worn, to state all this in advance, as well as any other information which would help the purchaser know just exactly what he is buying. If the machine will be wrapped in corrugated and shipped in a carton or in a wood crate, to so state. If the machine isn't as yet reconditioned and will first have to be checked and conditioned prior to shipment, to state the length of time necessary for the conditioning work, adding a few extra days for safety, so that the buyer will not feel that his deposit is being held up by some "deposit grabber".

Only by so doing is it possible for all in this industry to continue along in harmony during this tragic war period and enjoy business dealings between each other in the most economical and efficient fashion. It certainly does not pay, in these days of difficult transportation, for the average buyer to ride hundreds of miles to look over some machine he would like to buy, if instead, by cooperating with each other, the men will agree to honestly tell each other the true facts regarding whatever machines or merchandise they offer for sale, then such trips, as well as all doubts and suspicions, can be completely eliminated so that buyers and sellers can rest easy on this score.

It is the hope of The Cash Box that all buyers and sellers will sign such a pledge and, what is more, live up to it. Only by this self imposed pledge is it possible to correct this evil, to eliminate further financial loss and to bring about better understanding, greater faith and more lasting friendship among all engaged in this industry.

There is no use in asking anyone to post a bond on merchandise if in his heart and soul he does not intend to ship as represented. There is no use in attempting to obtain advance information from any man if he intends to do the wrong thing. But, if every man engaged in this industry will, of his own accord and his own volition, and in complete honesty specify the exact condition of the equipment he offers for sale, then there is no doubt that much aggravation can be eliminated and the industry run in much smoother fashion for all concerned, for the duration and for the post-war years to come.

When The Cash Box presented its first advertisements it asked each and every subscriber at that time to specify the exact nature and condition of the equipment being offered for sale. (The buyer, too, should make better known just what he expects an "A-1 condition" machine to look like.) But in the stress and speed of this war period many simply forgot. It seemed that all, especially a few years ago, were able to ship merchandise in such reconditioned shape which met with complete approval.

Today, with machines more scarce and with the help situation what it is, an unusually strange and somewhat desperate condition has come about. The average man in this industry desires to please the buyer for he wants to hold each buyer as a customer for the future. Yet because he is so pressed for time and for help and for one and a hundred other things he simply neglects to give his customers the same type of consideration as in the past.

**"The Coin Machines Merry-Go-Round"**

As stated a few issues ago, some men become angry because of machines shipped to them in poor condition and ship these on to someone else, without even touching them. Rather than have this happen, time after time, thereby creating a vicious circle that will soon be impossible to cure at all, The Cash Box believes that if the men now engaged in this industry will pledge themselves to honestly ship only the type of machines and merchandise they specify in advance this will surely help to cure one of the most prevalent of present evils.

SIGN THIS PLEDGE TODAY

SIGN IT AND MAIL IT TO "THE CASH BOX." YOU WILL, IN RETURN, RECEIVE A LARGE, HANDSOMELY PRINTED RECEIPT CONTAINING THIS PLEDGE, SUITABLE FOR FRAMING AND FOR DISPLAY IN YOUR OFFICE OR SHOWROOM. COOPERATE TO HELP CLEAR OUT POOR BUSINESS PRACTISE FROM THIS INDUSTRY.

## I PLEDGE

TO GIVE COMPLETE, TRUE AND FULLY SPECIFIC INFORMATION REGARDING THE CONDITION OF ALL MACHINES AND SUPPLIES I OFFER FOR SALE, EITHER ON MY PREMISES OR PRIOR TO SHIPMENT, AND SO CRATE MY SHIPMENTS THAT DAMAGE WILL BE MINIMIZED OR ELIMINATED.

## "The Coin Machines Merry-Go-Round"

### MERCHANDISE THE ARCADE

Many of the newer arcade owners have suddenly found their collections falling down. In some cases the drop has been as much as 35%. These men have been attempting to learn just what caused this drop. Most of them attribute it to the inclement weather of these past few months which has kept people at home. They are also of the belief that since large numbers of soldiers and sailors are disappearing off the streets that this especially has been effective in causing this drop.

The average "downtown" arcade, in almost any city, is today owned by men who have been engaged in the arcade business for only a few years. This does not mean that these men are entirely new to this business. They may also be operating or jobbing in the same city. Most of these arcades are also somewhat similar in decorations and appearance. Some of these spots are unusually attractive. Yet only a few have any definite understanding of showmanship. There is no doubt that these arcades, once showmanship is put to good use in them, will completely revive.

The average war era big city arcade features from 17 to 20 ray guns. Usually 5 or 6 of these are set up as a battery with a counter built in front in the fashion of the regular shooting gallery. Scattered here and there thruout the premises are another 10 to 12 and sometimes as many as 15 more ray guns of various types.

There is usually a Ten Strike, a Western Baseball, Batting Practice, a couple of Photomatics back to back, a cigarette machine, a phono playing continuously, a few Drive Mobiles, a Horoscope machine, the Panoram conversion, a couple of Ace Bombers and a battery of 10 or more pin games. In some spots Diggers are also featured and in a few pay tables and consoles, too.

It seems that most of these newer arcade owners simply slapped a batch of machines into a store, paid high rent to get into the busy downtown central district, and then let nature take its course. While the city was overrun with soldiers and sailors, war workers and visitors seeking entertainment, these spots boomed.

But it now seems that these hurriedly arranged arcades have begun to wear on the playing public. Regardless of constant machine switching from one spot to another on the floor, and introduction of new games every now and then, the play has fallen, and it doesn't seem as if the recovery will be very speedy. As yet the average new arcade owner is simply taking his time and waiting for the better weather to come around in the belief that this will bring back the big boom play he formerly enjoyed. There is no doubt that better weather will help somewhat. But better weather will not bring back the soldiers and sailors and neither will it eliminate the boredom which has arisen in many civilian players due to the fact that they constantly see the same games time after time, when they enter into these arcades.

The Cash Box believes that the answer lies in correctly merchandising the arcade itself. The days of just gathering together a bunch of equipment and placing it about the floor in some centrally located store are over. The public want something new and different to bring them in and hold their interest. It is therefore up to these arcade owners, especially those men who have been engaged in the arcade business for just a year or two, to correctly merchandise their locations so that the public will be interested in coming in and playing the equipment.

Older arcade men, who have been in the business for many years, used every conceivable showmanship idea to constantly interest and re-interest players. Some even brought freak acts into their places. Others sold food and drinks. Some also opened concessions to sell pop corn, candy, costume jewelry and other such merchandise. Some even went to greater effort to capture the public's interest for their spots, bring them in and hold them there until they started down the line playing the games.

The Cash Box does not believe that arcade take will stay down especially where definite showmanship and merchandising ability is demonstrated. The Cash Box believes that the majority of the new arcade owners must begin to think of new ideas for their spots and thereby stimulate interest in their places all over again. There are still a tremendous number of people passing the doors of the average new arcade in the average city each day who will come in to play the machines.

It also seems that the average new big city arcade owner believes that the soldier and sailor is out of the picture as far as former large numbers are concerned, and he must now cater to the very young and the older people. This being the case, these arcades should arrange their plans and ideas to correspond with this situation. The Cash Box believes that the only trouble regarding the lowered take in most of these complaining new arcades is lack of proper showmanship in merchandising the arcade itself. In short, with the day of the big boom service man rush more or less over, then the arcade owner must now plan to attract the crowds of people that are left in his city to his spot. And to do that he must merchandise his business - not take it for granted anymore.

# "Talking Out Loud"

## LUMBER CONTROL

Moving to effect more complete control of increasingly scarce lumber, the War Production Board announced that all major consumers must file applications on or before April 25th for their second and third quarter requirements.

After these applications are received WPB expects to draw a new order establishing procedures under which delivery of lumber will be authorized. The application order affects consumers who used more than 50,000 board feet during the final quarter of 1943 or who expect to use more than that amount during either the second or third quarter of 1944.

Lumber consumption during the past two years has exceeded production by 1,100,000,000 board feet and estimates for 1944 indicate that even under existing controls consumption will exceed production by an additional 4,500,000,000 board feet. So far this lack has been filled by withdrawals from stocks which WPB said now stand at only 7,284,000,000 board feet, so low to permit further withdrawals.

Chief rise in lumber consumption is the demand for packing material, which mounted to over 17,000,000,000 board feet last year, almost half the total consumption and four times the normal amount.

(Coinmen shipping machines in crates must have a large stock of lumber. It is well for such shippers to be prepared for these tighter controls.)

## "DEPOSIT GRABBERS"

The following letter from Earl E. Reynolds of Walbox Sales Company, Dallas, Texas, speaks for itself. Earl writes: "It has been quite sometime since I have worried you with any of my chatter. But I have been trying to get a few lines off to you for several days now as I feel you are to be complimented on the nice work you are doing regarding the assembling of vital information regarding this industry.

"I also want to tell you how very much I appreciate and enjoy the 'Talking Out Loud' page. It is indeed very helpful. I have already gained much valuable information from it.

"Bill, it is really getting terrible the way some firms are accepting deposits, promising immediate shipments, then holding your deposit for thirty and sixty days, and if you insist upon immediate shipment, they very politely refund your deposit after having used your money for weeks.

"Right at this moment we have something over \$3,000 outstanding in deposits on equipment that firms have stated they could ship immediately upon receipt of deposit. In some instances they insist on 50% deposit. Some of our deposits have been outstanding for over 60 days. I prefer, tho, not to call names.

"I said I prefer not to call names, you see if we did this, then we would be up against it insofar as getting additional equipment is concerned, and we sorely need the equipment otherwise we would not be willing to wire the deposits to get service. SOMETHING SURELY SHOULD BE DONE ABOUT THIS, and again I want to thank The Cash Box for what you are already doing.

"When, if ever, will we have the National Board of Trade? We need it NOW. Fifty men could meet and form such a Board and put up sufficient money to back up an expense that might be involved in carrying it to a successful conclusion."

## STRAIGHTENED OUT

Carl F. Trippe of Ideal Novelty Company, St. Louis, Mo., who just went thru a bit of trial by fire to get some money due him and wrote The Cash Box to help him get his money back, writes us as follows: "I surely want to thank you for what you have done in helping me get this matter straightened out. You have given more of your own time to all the boys in the industry for the good of the business, and also in making adjustments, than anyone in this industry. We assure you we appreciate this very much. We hope some day to be able to reciprocate."

## LOUIS BOASBERG

Aruns Callery of New Orleans Novelty Company, New Orleans, writes: "Mr. Boasberg has written us from the South Pacific that he would like for us to subscribe to The Cash Box and have us mail him the news section of The Cash Box by airmail every week. Therefore, please, upon receiving this letter, enter our subscription for one year to The Cash Box and bill us for same.

"Mr. Boasberg, who is on duty abroad an Aircraft Carrier, sends his best regards."

(We sure hope that Louis Boasberg will feel so good every time he reads The Cash Box aboard his Aircraft Carrier in the South Pacific that he'll knock out 50 Japs for every word he reads. Good luck, Louis, we're all waiting for your return.)

## RECORD & NEEDLES

H. B. (Cadillac) Jones of Jones Coin Machines, Stephenville, Tex., jumped on his bronc to mail us the following letter, "We would like to lodge a complaint about the quality of records and the supposedly 2000 play needles commonly used by operators.

"Our operation is scattered over 27 small towns and we check most of the machines every two weeks. We find that with the sorry quality of the needles and records we now have to go to some of them every few days to change the needles and records.

"Needles that formerly played 2000 to 3000 plays now last from 300 to 1000 plays and records only last from 20 to 50 plays. The record companies give us about 40% of our needs but ship large quantities to retail stores. We then have to spend lots of time and extra money ordering records at retail prices from concerns all over the country.

"I would rather pay more and get better quality, as these service calls are about to drive us crazy. Lots of our machines are located from 35 to 60 miles from headquarters and with the tire and gas shortage what it is, this is quite a headache.

"The tube situation is just as bad. We are now getting all we need but can't get them thru regular wholesale channels. We have to pay retail prices and order from far away places."

## CALIFORNIA LEGALIZES

"Curley" Robinson of A.O.L.A.C., Los Angeles, sends us in the report of the meeting of the Mayor and the City Council of Redondo Beach, Calif., wherein Councilman Wortham requested City Attorney Wm. E. McFaden to submit a written opinion as to the legality of marble or pinball games.

The City Attorney in the forepart of his written opinion discusses the one California case on the legality of pinball; the favorable decision of Judge Charles C. Haynes of the Superior Court of San Diego County. He also enters into a most complete discussion and review of this case.

In winding up his written opinion City Attorney McFaden writes: "If the machine is played by the use of a coin and if the operation of the same is purely by hazard and chance and the machine returns money or some article of value, then the machine would come within the prohibition of the statute. However, all three elements must be present before said machine violates the Penal Code of the State of California.

"It is interesting to note that the general opinion in the State of California, and in other states thruout the United States, has been that such machines were and are legal and that their operation must be discontinued only by legislation enacted by the State, or ordinances enacted by the cities or counties. All such municipal or county ordinances are based on the theory that the city or county, thru its police power, has the right to regulate or prohibit the operation of such amusements."

A motion was made and seconded and carried unanimously by all the members of the City Council that this opinion become a part of the records of the council meeting.

(Complete copies of this written opinion can be had from Samuel "Curley" Robinson of the A.O.L.A.C., 1351 Washington Blvd., Los Angeles, Calif.)

## COMMUNITY CENTER

Fred Iverson of Eastern Sales Co., Rochester, N. Y., writes: "The enclosed letter is an example of what Johnny Bilotta has done toward the war effort."

Johnny is Fred's partner, but at the present time is serving with the Navy.

Mrs. Karl Morrison, Secretary of the Marion County Council, Marion, N. Y., writes John, "The Community Council accepts your gracious offer in allowing us to use your property here for the duration as a Community Center.

"Confirming conversation with one of our members recently, we understand that we may have the use of your property and fixtures in Marion for the duration without cost. Also, according to this conversation, we will be very glad to welcome any local service man at all times when the Center is open and he may be home on leave or furlough.

"Again expressing ours and the Community's appreciation of your action in this matter."

## CHICAGO OFFICE

As a reminder, our Chicago office is located at 203 North Wabash Avenue, Suite 406, Chicago, Ill., phone number is: RANdolph 6181, and Miss Helen Palmer, who has over 20 years' experience in the coin machines industry, is in full charge.

**NOW FLYING OVER HOME  
OF FAMOUS *Bally*  
GAMES AND VENDERS**

Production at the "Bally" plant is one hundred per cent for Uncle Sam. Night and day, seven days a week, the "Bally" organization is building battle equipment for the Army and the Navy, proving that the skill developed in peace-time design and construction of coin-operated games and venders is a valuable asset to America in time of war.

Plans of the "Bally" organization call for quick production of new games and venders immediately after victory . . . and for exploitation of the marvelous new electronic principles developed by war-time technology. In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making equipment.

Lion Manufacturing Corporation, manufacturers of "Bally" games and venders, distributed by Bally Manufacturing Company, 2640 Belmont Avenue, Chicago, 18, Illinois.

# THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY

ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N.Y.

## FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

## CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN  
SAME WEEK.
5. MEANS PRICES REMAINED SAME AS IN  
PAST WEEK'S ISSUE.
6. MEANS NO PRICES QUOTED FOR  
PAST TWO WEEKS.
7. MEANS NO PRICES QUOTED FOR  
PAST THREE WEEKS.
8. MEANS NO PRICES QUOTED FOR  
PAST FOUR WEEKS OR LONGER.

---

## IMPORTANT

Machines underlined mean these were most active in trading this past week.

---

**NOTICE!** March, 1942, Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
