"COINTOONS"

Many letters, wires and phone calls have already reached *The Cash Box* since the appearance of last week's (March 31) editorial wherein it was suggested that, for the good of the industry, arrangements be made to "bust up ten year old equipment blocking off thousands of locations thruout the nation".

These letters, wires and phone calls ALL AGREED with *The Cash Box* that arrangements be made as soon as possible to get such a program into action.

Never before in its history has *The Cash Box* enjoyed such a flood of acclaim for any of its editorials. And the trade will agree that *The Cash Box* editorials have stirred up much progressive and constructive action.

Most of these letters, wires and phone calls came from operators. These were the very men to whom this editorial was addressed. These men agreed that this was the time to "bust up and clean up" and that, thereby, a better industry would result.

What these ops asked for was an arrangement whereby they could trade in ten year old machines "at a price that would get rid of them once and for all time".

As one noted op stated, "I'm more than willing to have my old machines bust up. I also suggest that rather than export them and get a bad name for this industry in the foreign markets, we bust 'em up, just as you recommend. But, for crying out loud, get them off our hands at a decent trade-in price, so that it will pay to pull them off locations."

Almost every letter was of a similar nature. This brings the crux of the situation down to the fact that there must be some method devised whereby these ten year old machines, regardless of what they are, can be profitably taken in trade and bust up.

Everyone wants to see this happen. Therefore, the problem resolves itself down to the way it can be successfully accomplished. This can happen thru the complete cooperation of the various sales organizations with their manufacturers to wipe out the blight of ten year old machines from the industry.

Bust up—clean up! The time has arrived when all in the field must recognize the many disadvantages accruing from ten year old machines. In the music field, news-

papers and magazines have begun to call these ten year old phonos, "screech boxes". In the pin game field, they get little or no play especially wherever a new game appears.

BUST UP — CLEAN UP! Ten year old phonos, regardless of how hard the operator tries to keep them working will never equal the new phonos in tone quality, attraction, earning power and general interest.

As far as ten year old games are concerned — they simply ruin one more location for they lose the players' interest in games.

From a financial standpoint — the operator loses all around when he continues to run completely depreciated equipment. With new equipment he obtains greater route valuation and more profits on the depreciation he is allowed to deduct.

Bust up . . . clean up . . . the entire industry should join hands in this move for its own greater, grander future.

SUCCESS OF NEW GAMES WIPING OLD MACHINES OFF MARKET

Ops Ridding Themselves of Old Games as Reports Spread How New Machines are Clicking on Locations All Over the Nation. Continued Production of New Game Winners Sure to Wipe All Old Machines Off Market is Belief. Collections from New Games Reported to be More Than Double That of Old Machines.

NEW YORK — Since the survey reported here wherein coinmen from all over the nation advised that collections from new games were anywhere from 100% to 300% above those from old games on the same locations, more and more operators are replacing their old machines with new games. This is gradually wiping the old games off the market.

It seems, therefore, that what the amusement machines field has to thank for its own "bust-up" campaign, is the very success of its equipment. The operators in this field aren't waiting for a better trade-in price situation to arise to get rid of their old machines. They are, instead, converting as rapidly as they can to the new games to offset the low collections which they were enduring in the past.

Leaders in the amusement games field now report, "With the great run of winning games which we have had, coming one right after the other, there is no longer any doubt that the old games will gradually come off locations and the picture will soon be completely changed with new machines operating everywhere."

The fact is that game after game which has been produced these past few months in the amusement field have all been "winners." This has had a great deal to do with the sudden change of heart by the majority of operators. After investigating reports, these ops have decided to replace old machines with new games.

They have also learned that the trade-in valuation set on the new equipment shows them a good profit and that collections increase tremendously. Therefore, retaining old games on locations today can only be done so at a loss to the operator. There is no real trade-in value left to the old machine. Furthermore, ops report, collections from the old games do not compare favorably with those from new equipment.

With these facts before them, the intelligent operators are changing over just as rapidly as they possibly can to the new machines. Once they have these on their locations they find that the trade-in valuation against the new machine they intend to purchase is such that the price they actually pay for the next new game is within a very reasonable figure and they are more easily able to carry on with profit assured them from then on.

This is wiping the older machines off locations more rapidly than anyone figured it would. It has also created a boom of very assuming proportion in the field. At the present time pinball manufacturers report that their production is practically sold out on the announcement of a new machine.

Most impressive to the operator was the fact that from almost everywhere in the nation, reports have been filtering thru that collections on the new machines show better than 100% to 300% over what old games

did on the very same locations. This is reported to have started much buying of new machines by many of those ops who believed that they could still get along with games ten years, and more, old.

Ops also learned, as they started to trade in these very old games, that there was practically no trade-in valuation left whatsoever and that the price being offered them was actually a "bust-up" price. In short, the jobber or distributor who took such an old machine in trade only did so with the intention of "busting it up and getting it off the market."

From then on the operator found that the new game he had purchased was holding to a very good trade-in valuation which, on purchase of his second new game, brought the actual price down to an extremely reasonable figure.

The average op has been gradually clearing his route of very old machines. It now looks like the amusement games field will be among the very first to have cleared itself of very old equipment and probably will, within a reasonable period of time, be replaced with all the very latest machines introduced since the end of the war.

This means, to all engaged in the amusement games business, a better and more solidified industry, as well as a surety that their division of the field has every opportunity of springing back into first place position.

VITAL MATERIAL SHORTAGES HURT ALL PRODUCTION

**Shortage of Steel Holds Up Production Of All
Types Of Equipment With New Venders Hit Hardest.
Lumber Shortage Affects Cabinet Deliveries.
Suppliers' Prices Zooming. M'f'rs Working
Against Odds to Hold Present Price Line.**

NEW YORK—Once again the industry is being held back from speedy growth by shortages of vital materials.

Manufacturers are again complaining that obtaining steel and lumber is becoming more and more a problem each day.

One noted manufacturer reported the closing of one large plant due to the fact that suppliers just wouldn't (or weren't able to) obtain the steel he needed for his production and that, furthermore, the prices they quoted forced him to close due to the fact that the finished price would then be so high as to make sales an impossibility.

The majority of the vending machine manufacturers, many of whom believed they would be in full blast production by this time, are also suffering.

Some of these have decided to withhold any further production efforts until the market has reached a more normal stage.

These men report that if they were forced to pay the prices now being asked by suppliers their machines would cost them more to produce than what they had quoted as their list prices to the trade.

"Under such conditions," one noted vending machine manufacturer stat-

ed, "we simply must halt any attempt at production and wait until we are able to obtain materials at a more normal price and in better quantity so as to assure the operators being able to buy our equipment at a fair and equitable price and in the quantity desired."

Also aggravating to the average manufacturer is the fact that the suppliers of all raw materials, as well as some of the finished components, are once again zooming prices as the shortages become more and more apparent.

Yet, the average manufacturer continues with all zeal and ingenuity in an attempt to hold the present price line which he believes is as high as it should ever reach.

This has aggravated a great many situations among the members of the industry right down the line. In the first place, operators who have been waiting for certain types of machines to be produced are becoming very irritated and somewhat disgusted with the situation and are swinging over, in some cases already reported, to other fields.

Salesmen, too, have suffered. Some of these men have been waiting for commissions to come due to them on delivery of merchandise sold many months ago. As the machines are delayed (and continue to be delayed)

due to lack of raw materials, these salesmen have been forced to leave and seek other means for earning a living.

One noted manufacturer of amusement machines reported the other day that he had spent two weeks scouring the markets for lumber to assure himself sufficient cabinets for one of his new games.

He also stated that the price he was finally forced to pay cut his profit down to the very bone and that he believes he will be forced to raise the price of his product (even tho he considers it sufficiently high at this time) due to the fact that the slowed up production and the lack of profit were making it impossible for him to go ahead on this basis of his former price quotation.

What is aggravating all those manufacturers who are faced with this growing shortage of basic materials is that the suppliers are taking advantage of the situation and are raising prices on a skyrocketing market.

This is sure to affect present prices of machines unless a sudden break comes along in the materials shortages situation. Only the manufacturer's own efficiency of production allows him to hold the present price line. This he is working hard to do with all the ingenuity and resources at his command.

NEW TYPE USED MARKET FORESEEN

Pre-War Used Equip't Fast Fading From Picture With Only Very Latest Pre-War Types at a Price in Demand. Used Machines of Past Year's Vintage Opening New "Used Market".

NEW YORK—An entirely new type of used machines market is gradually coming into being. This is now noticeable to all in the field. The very old machines are losing ground in this market every day. Demand for them has been fading for sometime. Of late even this demand is reported to have practically disappeared.

As far as pre-war machines are concerned, and this takes into consideration all the various categories of coin operated equipment, only a very few of the later types are in demand. And these only at a very low price. This price may be said to be anywhere from one-third to one-half what was asked for the same equipment toward the end of the war, when prices were already falling steeply to meet new machines production.

The new type used machines market concerns itself only with the equipment first produced when the war was over. Some of these command extremely good prices as well as a very ready market. Others are slower moving, but they also have a market which is considered very spacious, in comparison to the market for the older pre-war equipment.

The average jobber and distributor planned on being able to export great numbers of these old prewar machines. As yet, tho, there hasn't been too great an export market created.

As is well known, Great Britain always was the largest of the export markets for used American merchandise. But with the restrictions now in effect, no shipments are even allowed into England, not even from Canada. This blocks off the largest and most profitable user of American coin operated equipment.

Therefore, whatever exports are being made to Canada, to South and Central America, aren't as yet of sufficient volume to take care of the huge numbers of these old used machines which are available.

The result is that prices have been going down steadily on the very old machines to the point where some have asked that they be erased entirely from the "C.M.I. Blue Book" and only later type used machines be allowed to remain. These also should be dated, according to dealers, so that the newer merchandise produced during 1946 and 1947 would be shown in a more preferential light.

The market is changing very rapidly, and tho demand continues on some items, there is no doubt that when the end of 1947 rolls around the used equipment market will not be recognizable, at least not in its old form.

There is also no doubt that the names of the machines which will appear in the "C.M.I. Blue Book" at that time will be entirely foreign to

those which appeared prior to this year.

Jobbers and distributors believe that this is a turn for the better. As long as they can have an active market, they state, they feel that the equipment should be the answer to whatever the situation demands.

They also feel that the market will only be active if the new machines start coming in on trades so that the lesser type locations thruout the nation can obtain them after they have passed thru the better spots.

"It's a return," one noted distributor reported, "to the old time coin machine business we always knew prior to the war. Games that were some years old always faded from the trade-in field and were sold off as 'parts' or traded in for 'parts' only. The newer equipment was all that the field was concerned with. It looks like this is just what is happening now and this is good for the whole business for that's the one sure way the field has of realizing its progress."

As the new equipment enters and is listed on the market it has brought more buyers per unit than all the older equipment has been capable of mustering these past months.

This, in itself, is an indication of the trend of the used equipment market. It shows that the field points toward the newer machines as the answer to its future progress.

FREIGHT PROBLEM GROWS

Shipping Becomes More Difficult. Carriers Claim Cartons Too Bulky and Lack Weight. Shortage of Freight Cars Plus Higher Rates Also Being Felt. Truck Firms May Charge for Full Poundage Rate.

CHICAGO — Freight has again become one of the leading problems of the industry. For some time now manufacturers have been urging nearby distributors to send their own trucks to pick up machines. This has helped all concerned.

The problem is being aggravated by the fact that freight rates are so inequitable. Not only are rates going up, but in some cases they have risen to such a point that complaints are very vociferous. West Coast coinmen are especially upset over the high rate they have been forced to pay.

Trucking firms also enter into this situation. Formerly, to overcome some of the inequity of the carriers' rates, the average coin machine firm would ask that equipment be sent by truck. Now the truckers claim that the cartons (especially pin games) are too large and too bulky and yet their weight does not cover the area they occupy in the truck.

For example, one trucking firm finds that it can only handle a certain number of cartons on one of the type trucks it uses. This truck is used to freight 10,000 lbs. of merchandise. But, with the truck loaded to capacity with pinballs, the entire weight is only about 2,000 lbs. This means, the trucking firm complains, that they must send out a 10,000 lbs. revenue

load and only collect for 20 per cent of its actual value, or the 2,000 lbs. with which it is loaded.

To offset the loss, the truckers state, they will have to charge for the entire 10,000 lbs. This means a tremendous increase in freighting cost to the receiver of the merchandise, whether this be operator, jobber or distributor. And when this is added to the mileage charge it is being estimated that there will be a very heavy additional cost per unit.

Up to the present time some of the manufacturers have been able to prevail on the trucking firms, who have handled their merchandise for some years, to withhold any such increases. But with the railroads and express companies obtaining increases from ICC, and with the further fact that overhead costs have continued to go up for the carriers, it now looks like they won't be able to hold off the increase much longer.

Whatever results there is no longer any doubt that what can save the large user of new machines will be contracts with the carrier to hold to a specified rate and to carry specified poundage for certain mileage.

The average distributor points out this can't be done in view of the fact that (1) production is as yet too uncertain with the average factory and few know when the manufacturer is

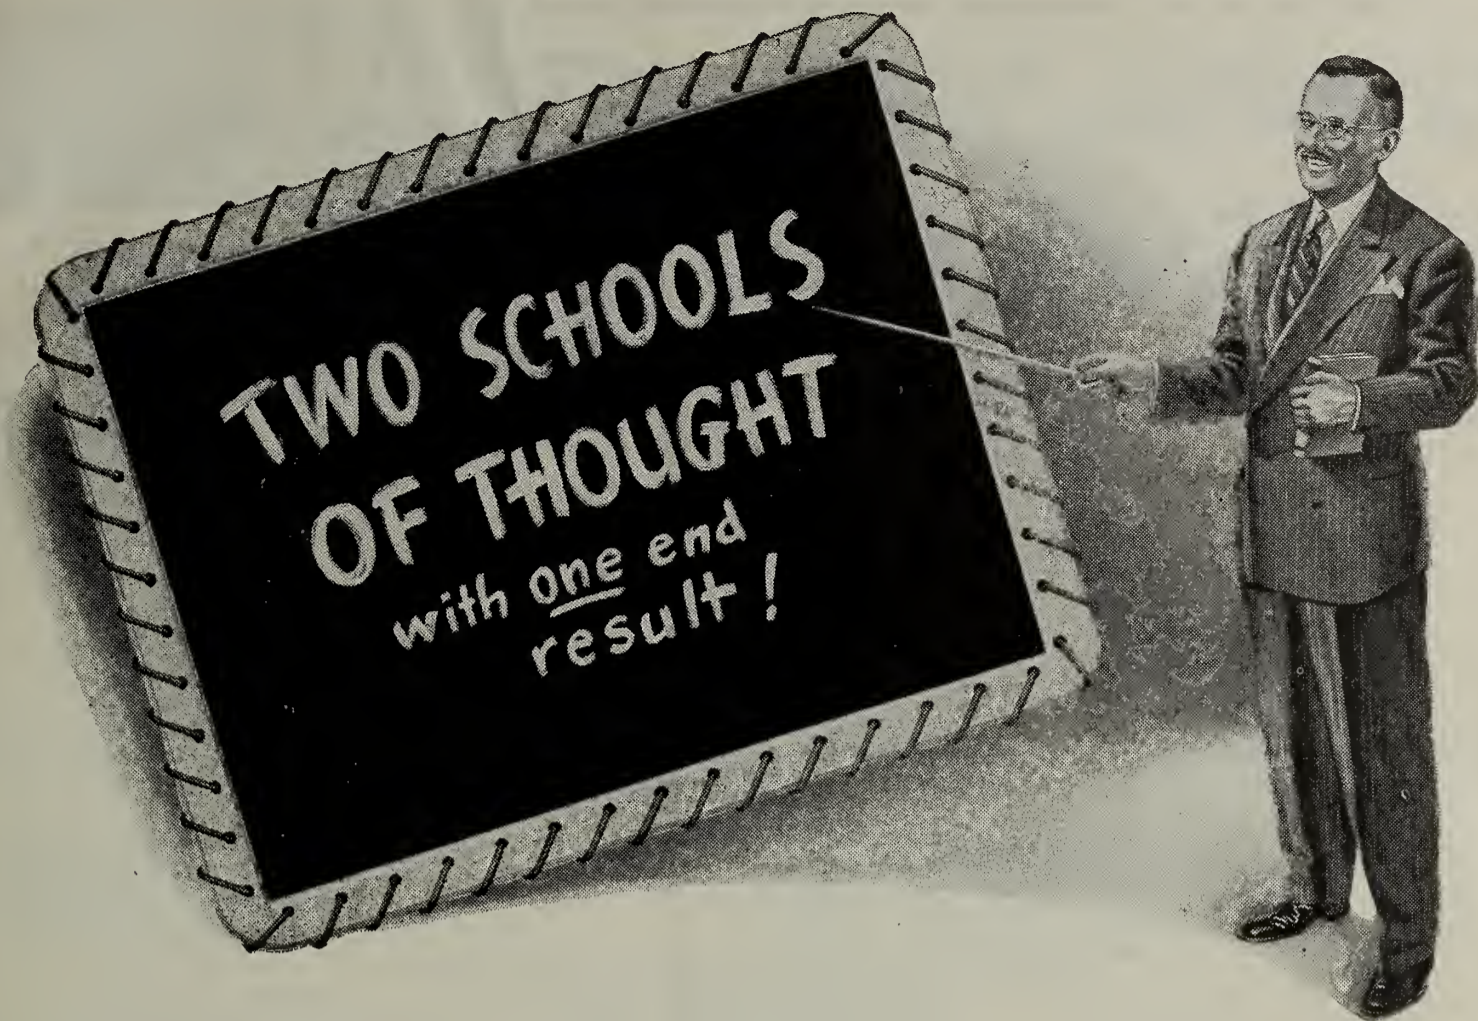

ready with a complete shipment and (2) the new machine may not be to the liking of the distributor so that he doesn't want to immediately invest in large quantity as well as (3) that contractual carrier obligations may create unnecessary expense over a period of time.

Some nearby distributors to the manufacturing center here plan to use their own or hired trucks to bring the merchandise to them. The distributor who is many miles away from the factory center will still be forced to undergo either increased freight rates or inequitable express rates and charges or, if shipping by truck, perhaps tremendously increased trucking costs.

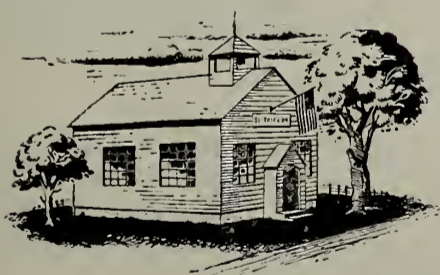

Most irritating to the distributors and jobbers is the fact that they will, in all probabilities, have to assimilate these added costs. This, they explain, again cuts into their profit margin.

As some distributors have stated, they are already cutting list prices so as to help the ops change from old machines to new. Now with greater overhead being added on from shipping charges, they will be forced to curtail some sales.

In short, as one distributor puts it, it will be a question of less sales at profit rather than volume sales at a questionable margin.

● One school of thought among operators holds that the best way to increased income is to encourage more plays per phonograph. It's a *good* way. No doubt about it. Nobody in this business has done more to encourage it than Wurlitzer. More play per phonograph is the BIG IDEA behind Wurlitzer's national consumer advertising campaign in 8 big-time magazines, on thousands of billboards all year long all over this country, and in point-of-purchase merchandising for locations. And the end result is MORE PROFITS.

● The other school of thought believes that the way to greater returns is more pay per play—in short, QUARTER-DIME play. Wurlitzer has advocated it, promoted it, made available to operators the literature necessary to put it across—and—produced the conversion kits necessary to install it for every major make of phonograph and wall box in existence. Whether you favor more play per phonograph or more pay per play, Wurlitzer, *and Wurlitzer alone*, is working *with* you to produce *for* you GREATER PROFITS. The Rudolph Wurlitzer Company, North Tonawanda, New York.

THE CASH BOX

Record Reviews

"Mama, Do I Gotta"

"When Am I Gonna Kiss You Good Morning"

DINAH SHORE

(Columbia 37291)

● Dinah Shore has the kind of reputation where just about anything she puts to wax comes up in the money. As a result, it can be said that the best thing about this wax package is the fact that she comes with it. Both "Mama, Do I Gotta" and "When Am I Gonna Kiss You Good Morning" are rhythm ballads with a pleasant, danceable beat injected by the Sonny Burke Orchestra. Paced for the younger listeners, the platter should do best in ice cream emporiums, or wherever mild little novelties are best accepted.

"As Long As I Live"

"The Possum Song"

KAY KYSER ORCHESTRA

(Columbia 37292)

● If your route is in a territory where Jane (The Outlaw) Russell is a big drawing card in the local flickeries, or otherwise, you can probably use this disk to good advantage. With Jane as the featured vocalist, the Kay Kyser crew turn in "As Long As I Live," but, from her performance, we'd say Jane has assets more outstanding than talent as a singer. The flip, "The Possum Song," showcases the Kyser crew to better advantage. A grand little novelty with plenty of well controlled beat, the side has Gloria Wood and the Kampus Kids on the lyric. If you do well with Kyser, you'll do okay with this item.

"The Brooklyn Bridge"

"It's The Same Old Dream"

FRANK SINATRA

(Columbia 37288)

● Frank Sinatra can usually be depended upon to come up with one for the money. And he has. The songs, "The Brooklyn Bridge" and "It's The Same Old Dream," are both featured in his latest flicker that's tabbed "The Brooklyn Bridge," and, as a result, just about everybody who sees the movie can be termed a potential phono customer for the platter. Both tunes are ballads, and Frank warbles 'em in a pleasant, relaxed style that makes for easy listening and smooth dancing. Peg this as a hunk of wax that belongs on your route.

"Adobe Hacienda"

"If I Had My Life To Live Over"

THE DINNING SISTERS

(Capitol)

● Here's a pair of mighty powerful juke box melodies put together on a single platter by the Dinning Sisters, popular vocal combo. Topside, because of manner of performance, is "Adobe Hacienda," a tune that can be expected to emerge among the top ten very soon. With it, the Dinnings blend their voices well and offer up a sprightly arrangement that's well suited for phono action. The flip, "If I Had My Life To Live Over," an excellent item for any tavern spot, is handled a bit too gaily for the bistros, but should serve as an effective piece of merchandise for the chocolate sundae crowd.

DISK O' THE WEEK

"Mam'selle"

Art Lund

(MGM 10011)

ART LUND

● Now hear this! Here's one for the trade that's destined for the top money in short order, and it'll probably be the sorry op who doesn't take advantage of the tip. The tune is "Mam'selle," and its done by Art Lund, former Benny Goodman vocalist, who's making his first performance on wax as a featured recording star with this platter. Melody is from the flicker "The Razor's Edge," and the way it's treated here, complete with lyric, draws a rave from this reviewer. It's one of the best jobs Lund has turned in and poses him as a big bidder for top popularity. A haunting romantic ballad, ops need not fret about where to place this disk. Wherever guys and gals get together, that's it! You can take it from there. The flip, "Sleepy Time Gal," is a neat rhythm ballad that's so well known it's a natural for action from the phono customers who are partial to solid standards that are well done. It's that kind of a side.

"A Sunday Kind of Love"

"Who Cares What People Say"

Frankie Laine

(Mercury 5018)

● Following up the smash success he created with "That's My Desire," Frankie Laine scores again with this, his latest, tabbed "A Sunday Kind Of Love." Featuring a brand of song styling that clicked big on Harlem phonos, Frankie bids fair to increase his audience and market with this platter. "Sunday" is right for him, and he does right with it. The flip, "Who Cares What People Say," is another top drawer ballad and should go well on its own once the top side has been worn white. Give it a hearing.

"I Believe"

"It's The Same Old Dream"

ARTIE SHAW & MEL TORME

(Musicraft 492)

● Mel Torme, the new songsation, and the Artie Shaw Orchestra get together on this batch of wax to do a pair of click melodies from the flicker "It Happened In Brooklyn." With Mel coming along well as a gift to the swoon trade, and Artie with a well established following, the coupling of these two should draw more than the usual amount of play. If the platter has a drawback, it is because the combination of a celebrated ork and a celebrated songster results in the listeners not getting enough of either one.

"Cu Tu Gu Ru"

(Jack, Jack, Jack)

"Made For Each Other"

ENRIC MADRIGUERA ORCHESTRA

(National 9028)

● Big city ops always have calls for first class rhumba, and this offering by the stellar Enric Madriguera crew more than fills that bill. It's one of the best things that Madriguera has turned out, and that's saying a lot. Done with a well-defined Latin beat, and the entire ensemble partaking of a crackerjack lyric, the side emerges as a "must" for spots where the Latin brand of music making is in demand. The flip, "Made For Each Other," is in bolero tempo with Patricia Gilmore delivering the lyric in English. Not as effective as the top deck, it'll do as a "filler" after the top-side has culled its share of heavy action.

"Illusion"

"The Story Of Sorrento"

BOBBY DOYLE

(Signature 15079)

● Vocalist Bobby Doyle comes up with a Latin-styled coupling on this disk that's made better thanks to the Jose Morand ork's handling of the instrumental support. Top deck is "Illusion," a romantic ballad you'll probably be getting a big call for very soon. With it, Bobby weaves a pleasant session of song-spinning, injecting enough feeling of moonlight and roses to score well with the lady phono customers. Meanwhile, Jose's boys add enough on the instrumental to make it a solid dance floor item. The flip, "The Story Of Sorrento," highlights Bobby doing an English lyric to the beloved Neapolitan love song. Peg it as a strong supporting side.

"I Can't Make Believe It Was All Make Believe"

"Maybe You'll Be There"

EDDY HOWARD ORCHESTRA

(Majestic 1120)

● Eddy Howard, who has earned himself a topnotch reputation as a moneymaker for the trade, scores again—and big—with this pairing of romantic ballads that are suited for just about any location. Headlining the disk is "I Can't Make Believe It Was All Make Believe," and Eddy gives it the usual very sweet and low treatment. Flipped, with "Maybe You'll Be There," he's joined by a trio on the vocal, and they score big. Peg this as a disk that's high in the Howard tradition, and take it up from there.

Record Reviews

"Dreams Are A Dime A Dozen

"Unless It Can Happen With You"

ANDY RUSSELL

(Capitol 386)

● Here's the kid with the mellow voice on a pair of smoothies that will hit the starry-eyed kids, and spell coinplay for you. It's Andy Russell doing "Dreams Are A Dime A Dozen," and "Unless It Can Happen With You." Topside tune drifts along in sweet, melodic refrain as Andy pipes his wares. Holding appeal for the moon-in-June'rs, this danceable ditty will hold Russell's Sprouts. Teaming with the missus, Della, Andy spins more romance in top fashion, on the backside. The Paul Weston ork provide splendid backing on the pair in their usual manner. Ops can look for this pair to catch coin all the way.

"Why Don't We Say We're Sorry"

"Goodnight Sweetheart"

TEDDY WALTERS

(Musicraft 15101)

● They oughta eat this kid up alive! Here's Teddy Walters, with a voice like a golden angel, piping oh so pretty on a beautiful romantic ballad. Titled "Why Don't We Say We're Sorry," Teddy's voice will melt right into your heart. It's a natural for the hand-holding crowd, as he sings lightly all the way through. He's got that sit-you-down quality, and made of the stuff the bobby-sox kids love to wail about. It's sure action for the phonos. "Goodnight Sweetheart," spins in top fashion also, and shows Teddy with his guitar to good advantage. You'll like the pair, so latch on.

"Gone With The Blues"

"Have You Ever Loved A Woman"

JAY McSHANN SEXTETTE

(Mercury 8032)

● Jay McShann and the boys get together here to knock out some music that you folks can really enjoy. "Gone With The Blues" coupled with "Have You Ever Loved A Woman," shapes up right for the race fans that love the moaning blue theme that McShann offers. Using Jimmy Witherspoon on the vocal, the balladeer renders some good stuff on the pair. Ops that need filler material would do well with these sides.

"Why Did It Have To End So Soon"

"If I Had My Life To Live Over"

BOB JOHNSTON

(Majestic 7218)

● More ballad material headed ops way, is this cutie titled, "Why Did It Have To End So Soon." Choir boy Bob Johnston takes vocal honors here and the lad's voice is nice and smooth. Singing in casual tones, Bob spoons through the side in great shape. On the backing with an established hit, "If I Had My Life To Live Over," Bob renders effective music which should mean more coin play for music ops. Both sides are there for the asking and deserve your listening time.

SLEEPER OF THE WEEK

"Ivy"

Jo Stafford

(Capitol 388)

JO STAFFORD

● Pegged as the big comer this week is a brand new Jo Stafford disk featuring a brand new Hoagy Carmichael melody, and they're all wrapped up in a package called "Ivy." As a package it sounds loaded for heavy action and a smash hit. The tune is haunting, the lyric is excellent, and the performance turned in by Jo Stafford is another clinching reason to put this platter on immediate order. As for rhythm, its pace can be compared to that of the well remembered "To Each His Own," and the way the Paul Weston ork blends in for the instrumental backing rates orchids for Paul and all the crew. As if that were not enough, the flip is "A Sunday Kind Of Love," chosen by The Cash Box as a "Sleeper Of The Week" a few fortnights ago, and still expected to zoom in popularity on its own. You take it from there.

"Across The Alley From The Alamo"

"There Is No Greater Love"

WOODY HERMAN

(Columbia 37289)

● Initial cutting as a single turns up fine for Woody Herman on "Across The Alley From The Alamo." Spooning lightly in melodic style, Woody adds just a bit of a western twang that flavors the ditty highly. The Herman herd (and they're heavy), will notice a smoother pitch to the piper's tonsils, as he runs through the 'Alamo.' Flipped we find, "There Is No Greater Love," deep meaningful ballad, which Herman renders effectively. Ops can use both sides to good advantage—so give it a whirl.

"You're Priceless"

"When I'm With You"

NICK DE LANO

(Black & White 825)

● As cute a song as you want to hear headed your way—it's called "You're Priceless." Penned by versatile Morrie Amsterdam, the ditty shapes up fine and mellow. with Nick De Lano piping smooth all thru the waxing. It's light stuff, of the kind the customers are crying for more each day. On the backing with "When I'm With You," Nick handles the thing very effectively to make sweet music. The pair is there, so bend an ear.

"Big Town Blues"

"You Can't Take It With You"

JESSE PRICE

(Capitol 391)

● Riding the wave with his recent success on "I Ain't Mad At You," Jesse Price steps out and offers ops more of the same on "You Can't Take It With You." Jesse spins his tale in jump tempo, on a side that the hep race fans should go for. It's nice stuff and all you have to do is dig that title. On the backing with "Big Town Blues," the balladeer goes off the deep blue end, with dreamy stuff that gets you to shakin'. Looking for feeling in race music—this ditty has it. Bend an ear in this direction, the pair warrants it.

"Baia"

"Bambalina"

RAY BLOCH ORCH.

(Signature 15094)

● If you're looking for some terrific Latin stuff, of the kind that will keep the phonos hopping all day and night long—then grab on to "Baia," a masterpiece of music out of the Ray Bloch hit parade. Ray's interpretation of this widely known piece is really something—giving the ditty effect that will be hard to beat. Melodic strings and a rasping horn hog the lime, with the balance blending all thru. Backed by another cutie, "Bambalina," Ray gives the ditty more of the fine treatment for which he is known. Peg "Baia" as a big one—you'll like it.

"Nat Meets June"

"Sweet Lorraine"

METRONOME ALL-STAR

(Columbia 37293)

● Aimed at the spots where they really appreciate good music, this pair should mean fast coin action for the ops. Nat (King) Cole couples with chirp June Christy on the topper to provide some mean blues done up brown as only the pair can do. It's stuff that's hard to beat, and strictly for the jazzophiles. Backing shows "Sweet Lorraine," ditty that rated high not too long ago, with Frank Sinatra taking the pitch. Frankie boy does it up in light manner and of course, the kid's crooning is tops. Combo shows Buddy Rich, Coleman Hawkins, Charlie Shavers, Johnny Hodges, Eddie Safransky and more. Music they put out is in there all the way—so latch on to this pair.

What's Hot ON THE RECORDS

BYRDE'S EYEVUEW
ROUND THE WAX CIRCLE
 by
Byrde Gore

The Easter season has arrived and a tour around the platteries reveals that everybody has caught the spirit of the holidays and it's like Christmas with sunshine the way good cheer and optimism is being demonstrated . . . Ops caught at the local disk distribs have caught the spirit, too, and see better collections on the way. And that's something! Even the record reviewers here at THE CASH BOX have stopped complaining. They comment that the platters reviewed this week compose one of the best shipments they have ever heard, with the greatest majority of platters falling into the "you ought to hear this" category.—And what a welcome change that is from the comments you usually hear around here about the big load of records that arrive every week.

* * *

Along Tin Pan Alley, habitat of the music publisher fraternity in Gotham, conversation is to the effect that great big clicks are emerging. Ordinarily, the noise they make is just so much clanking in a clanking tin pan. But these days one gets the impression that the boys are not talking thru their stetsons. Yup, the big tom toms are beating up and down the sidewalks of Broadway spelling out melodies fast growing to big click proportions. And the talk is about "Mam'selle," "A Sunday Kind Of Love," "Midnight Masquerade," and a little step-child just rushed in from the West Coast called "Mah-Zel (Means Good Luck)", which has been adopted by one of the top powerhouse pubberies. From these tunes at least one ditty is expected to grow into the "To Each His Own" category — and that's some category for everybody concerned.

* * *

Briefly said: Stan Kenton will break up his band while he takes a well earned rest beginning May 1st. He will resume on August 15th. Meanwhile, his platters will be released on schedule by Capitol . . . And speaking of Capitol, insiders declare that Jack (the voice with the smile) turned in one of his best performances on his forthcoming platter tabbed "Jack, Jack, Jack". . . . Inked to a pact over at Apollo this past week was Tony Bari; the first releases he has skedded are in the Italian language . . . National has named distribs for Detroit, Cleveland, Toledo, San Francisco, Los Angeles, and El Paso . . . In addition, they've signed The Ravens, a Negro quartet, to their talent roster . . . Lots more talk (good) being circulated about Ray McKinley's "Red Silk Stockings And Green Perfume" under Majestic's brand.

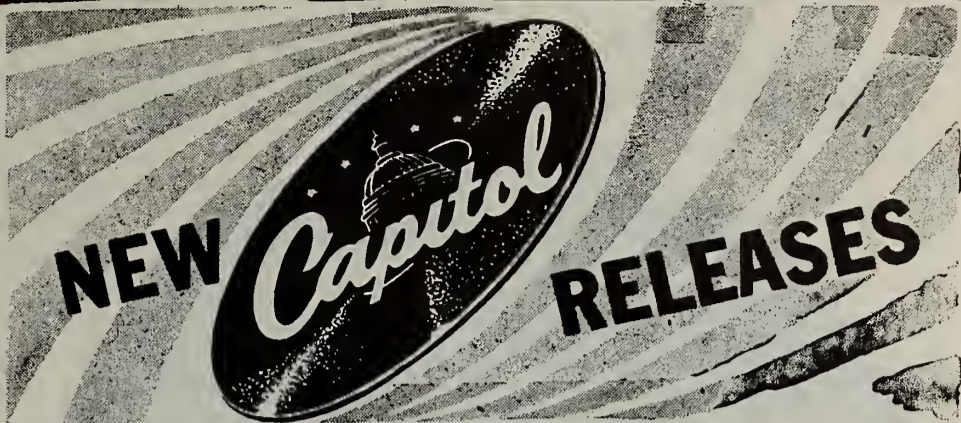

* * *

Reports indicate that Mercury has a great big winner in Frankie Laine. New York ops, who first pushed his "That's My Desire" up Harlem way, are now circulating his platters all thru the territory and reporting big returns. Meanwhile, it might be noted that his "A Sunday Kind Of Love" bounced into the No. 3 spot on the "Burning The Jukes In Harlem" chart. Ops report that customers began playing the side seconds after they fitted it into place on the phonos. They expect it to be bigger than his "Desire." — A good sign for the tune, by the way, since it was on the Harlem chart that ditties like "The Gypsy" and "For Sentimental Reasons" indicated the tune was a click long before they were showing in any other territory.

* * *

Tony Pastor, who recently signed with Columbia Records, will do "Red Silk Stockings" for his first release . . . We have been informed by Audience Records, who are producing a series of albums featuring top radio comedians, that their platters will not be permitted to be played on juke boxes . . . The question is: Whose loss is that?

SUNSET AT VINE HOLLYWOOD

Mercury Signs Ted Weems Ork

CHICAGO — Word was released late this past week by Mercury Records that the label has signed Ted Weems to a recording contract.

Weems, who rose to become a current top name on the nation's phonos, thanks to a disk jock's revival of his ancient "Heartaches," will have his first release for his new company on its way to the trade on May 1st.

A Mercury spokesman announced that the label plans to have Weems record tunes on the order of "Heartaches," for which music leaders see a big public demand.

Apollo Plans Wider Sales In Canada

NEW YORK — Joe Miller, distributor in Kitchener, Ontario, for the Apollo label, spent this week in New York conferring with Apollo executives over extended coverage by the label throughout Canada.

Miller, formerly an operator in Kitchener, will direct Apollo expansion in his territory through new procedures set forth by the Apollo promotional and sales departments.

Apollo Inks Charley Barnet To Wax Pact

NEW YORK — Charley Barnet has been reported signed to an exclusive recording contract by Apollo Records.

According to word received, terms of the deal call for the masters of "Cherokee" and "New Redskin Rhumba" to be turned over to Apollo, which will press them under their label. These are the sides which last appeared under Harry Bank's Cardinal imprint.

Plans Wide Expansion

DONALD S. GABOR

NEW YORK — Donald S. Gabor, president of Continental Records, revealed this past week that he is planning several moves which are expected to be most significant to the entire recording industry.

Well known as one of the leading manufacturers of international, race and folk recordings, Gabor is now in the process of expanding his distribution with an eye toward entering the "pop" market.

Rainbow Will Split Albums For Ops

NEW YORK—Spokesmen for Rainbow Records, headquartered here, announced this past week that the label's sales policy calls for the release of all records from albums adequate for use on automatic phonographs.

Illustration of the decision was a notice sent out to distributors to sell the Larry Clinton "Dance Contest" package as single to ops without

QUESTION AND ANSWER COLUMN

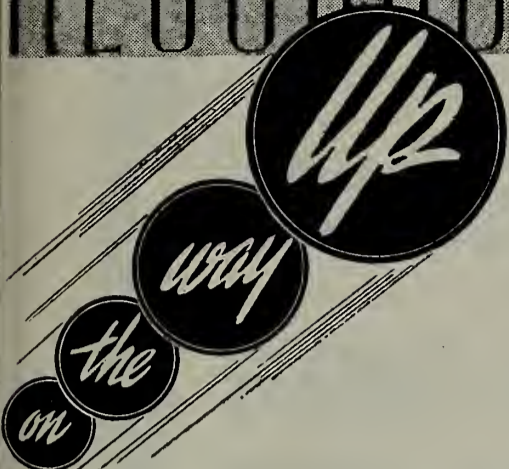

RILEY SHEPARD, Majestic Recording Artist, met Joe Brilliant, of Brilliant Music, and was asked about "that new record" they're all talking about.

Riley answers . . .

"WHO? ME?"

penalizing them the cost of the album cover. Being pushed is Clinton's "Dipsy Doodle," which the ork leader wrote but never recorded, it being brought to national acclaim via the Tommy Dorsey (Victor) dinking.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week; Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

- | | | | |
|----------|---|-----------|--|
| 1 | MEANS PRICE WENT UP. | 5 | MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS. |
| 2 | MEANS PRICE WENT DOWN. | 6 | MEANS NO PRICES QUOTED FOR PAST TWO WEEKS. |
| 3 | MEANS MACHINE JUST ADDED TO LIST. | 7 | MEANS NO PRICES QUOTED FOR PAST THREE WEEKS. |
| 4 | MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK. | XX | MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION. |

IMPORTANT NOTICE

Many times wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange — posting the prices as they are quoted for the past week regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration.

THE C. M. I. BLUE BOOK REPORTS EACH QUOTATION EXACTLY AS IT IS MADE AND DEPENDS ON THE SUBSCRIBER TO MAKE AVERAGE PRICE ADJUSTMENT TO FIT THE CONDITIONS IN HIS OWN TERRITORY.

be first in your territory with TEL-O-MATIC

the only centralized wired music sound system
that supplies superb musical entertainment
automatically 24 hours a day

BARNET "SHUGY" SUGARMAN
RUNYON SALES CO.

"SHUGY" SUGARMAN SAYS:

Operators all over the country have known me for years. I've been in business since the days when you dropped a nickel in the side of a player piano. And I say there's never been anything like Tel-O-Matic. It's terrific!

Wired music that plays right from your studio unattended! You don't have to be an engineer. Just a good businessman who can size up these 3 important Tel-O-Matic features.

1. The investment is low.
2. Locations sign up in droves.
3. Maintenance costs are practically nothing.

The returns are high and it's almost all profit!

Tonal Fidelity

Golden notes of melody—enchantingly real, delightfully mellow—pour from the Constellation's 15-inch cabinet speaker. Through the entire range, from highest treble to deepest bass, the Constellation reproduces the true tonal value of every record. Creating the illusion of the presence of the living artists beyond anything ever before offered coin phonograph operators, the Constellation is a distinguished addition to a long line of phonographs by Mills, famous above all else for beautiful tone. Mills Industries, Incorporated, 4100 Fullerton Avenue, Chicago 39, Illinois.

**Bally Distrib Names
Becker As Sales Mgr.**

BEN BECKER

NEW YORK — Ben Becker, well known coinman, has been appointed Sales Manager of Tri-State Sales Company and Pioneer Distributing Co., exclusive distributors of Bally products. Tri-State covers New York and New Jersey, and Pioneer covers the New England territory.

Becker has been traveling thru the territory for many years and knows all the coinmen personally. In addition to covering the territory himself, a crew of men are being added to the staff. These men will do everything in their power to cooperate with the distributors, helping to give operators top service.

Returning from a road trip, Becker reports: "Bally products are getting a big play from operators in the territory, and distributors are shipping games as rapidly as they are received from the factory. I shall split my time between the office and the road, and probably spend a great deal more time on the road visiting with the many distributors."

PLA-MOR'S**

NEW

Phonograph

MODEL 7

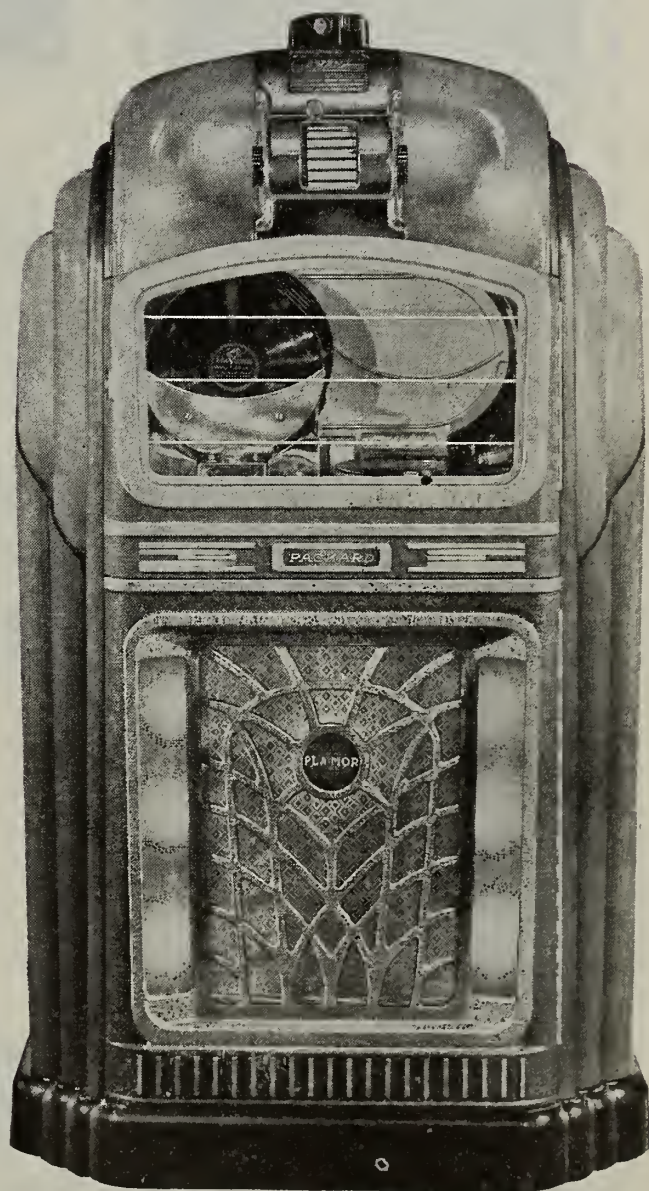

● Coast-to-coast, this new Packard Pla-Mor Phonograph is exciting the music world with its "play appeal!" *It's a money-maker!*

John Barath, Flint, Michigan, voiced operators' preference for Packard when he reported a 10-40% increase in music play after installing Model 7's.

From restaurant owner Dave Nelson in Phoenix, Arizona, comes this applause for the first Model 7 off the production lines: "I wish to express my satisfaction with my Packard Pla-Mor Phonograph . . . runs continuously day and night . . . grosses around \$130.00 per week. Thanks . . ."

So it goes in locations everywhere—in New York, Atlanta . . . Chicago and St. Paul—Packard's packing 'em in and making 'em play! Operators are rejoicing over profit gains and enthusiastic about Packard's beauty and fine, mechanical design! *See it at your Packard distributor!*

Pro Basketeers Try Chicoin's Game

PHILADELPHIA, PA. — As if they didn't get enough action on the hardwood floor, professional basketball players while away free time on a Chicago Coin "Basketball Champs" game. Howard Dallmar, George Senesky and Joe Fulks (left to right) of the Philadelphia Warriors, think it even better than the real thing. Joe Fulks made 14 goals in 15 shots.

Photomaton Introduced Twenty Years Ago

NEW YORK — In its column, "20 Years Ago Today," The New York Herald Tribune of April 1st reported: "Anatol Josepho, buoyed up with the immigrant's dream of riches awaiting him in America, arrived in New York via Ellis Island three years ago, a penniless dreamer. Two days ago he sold his invention, the photomaton, a vending machine which takes eight pictures for a quarter, for \$1,000,000."

Braun Opens Own Firm

SAVANNAH, GA. — Milton Braun, formerly with the Mullinix Amusement Co., this city, announced plans that he will return to business for himself effective May 1st. A World War II veteran, Braun will specialize in the buying, selling and servicing of bell machines, in which line he has had 15 years of past experience.

AMI Names Force As Mgr. Of General Sales Department

L. C. (LINDY) FORCE

CHICAGO — Following a joint announcement by AMI Incorporated and De Witt (Doc) Eaton relative to Eaton's resignation, effective March 31st, as the firm's Vice President in charge of sales, J. N. Rolston, AMI vice president and general manager released the news that Lyndon C. (Lindy) Force has been appointed manager of the General Sales Department.

The General Sales Department, it was said, will direct, coordinate and support the work of AMI distributors and AMI service and field engineers. As in the past, the overall sales policies of AMI will be established and supervised by J. N. Rolston and J. W. Haddock, President.

Connected with AMI for some time as Assistant Sales Manager, Lindy Force is also well known to the coin-trade for the many years he was connected with the Phonograph Division of Mills Industries, Inc.

Mangan & Gilmore to Address Wisconsin Ops.

MILWAUKEE, WIS. — On Monday, April 14, James T. Mangan, director of CMI Public Relations Bureau, and James A. Gilmore, Secretary-Manager of Coin Machine Industries, Inc., will be guest speakers at the one-day State rally of the Wisconsin Phonograph Operators' Association at the Hotel Pfister, this city.

Mangan will speak on "Personal Public Relations" and the topic of Gilmore's talk will be "The Future of the Coin Machine Business."

A 16 mm. film, "The Coin Machine Industry," which has been specially produced by CMI, will be shown.

Baum Distrib Co. Opens New Quarters

ST. LOUIS, MO.—Dan Baum, well known coinman, announced this past week that he has moved his firm, the Baum Distributing Company into this city's coin machine row at 2332 Locust Street, and has opened one of the finest showrooms and offices at that address.

Distributors for the Chicago Coin Machine Company, the Allite Manufacturing Company, the Chicago Metal Manufacturing Company, and exclusive national distributors for the new 1947 "Streamliner" phonograph stand, Baum is looking forward to a very successful year.

Les Griffin App't'd AMI Distributor

CHICAGO — AMI Incorporated announced this past week that Lester Griffin, well-known operator in Mississippi has been appointed AMI distributor for the states of Louisiana and Mississippi, taking over the operations of Louisiana Coin Machine Distributors, Inc. of New Orleans.

Griffin, an officer in both the Louisiana and Mississippi operator associations, will operate as Griffin Distributing Company with main office at 3604 Tulane Avenue, New Orleans, and will also have a branch at 607 West Capitol Street, Jackson, Mississippi.

"AMI feels certain that this connection will be of mutual benefit to both themselves and Griffin Distributing," it was declared.

Kans. Bill Seeks 2% Sales Tax On Games

TOPEKA, KANS. — A bill recently passed by the state Senate, which would levy a 2% sales tax on the gross receipts of "all coin-operated amusement devices" is now in the hands of the lower house, where passage of the measure has been stymied due to the opposition of a delegation seeking clarification on the type of equipment included.

These house members declared that the tax bill would include bells and pin games that pay out and would make this currently banned equipment legal by inference.

New Cointrade Corporation

YONKERS, N. Y. — The R.C.M. Amusement Corp., headquartered here, has been chartered by the Secretary of State, it was announced here recently.

Directors and subscribers of the new corporation are Councilman Fiorillo, Roland C. Merlino and Louis Bernacchia. Fiorillo is also the attorney for the incorporators.

Claims Klumpke Invented Bells In 1903

PITTSBURG, PA. — According to E. V. Durling, in an article in this city's "Sun-Telegraph," the bell machine was invented by a San Franciscan named Klumpke, who never patented it.

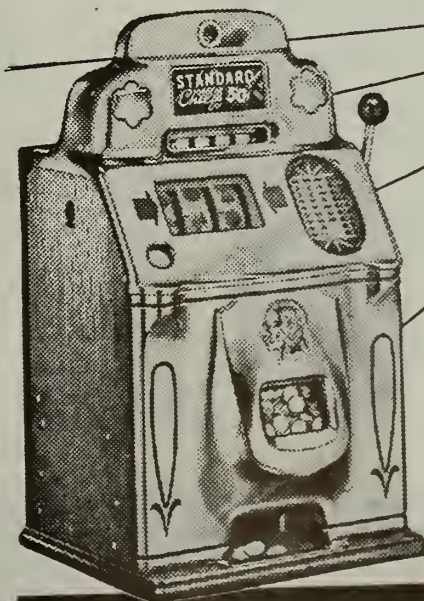

But more informed quarters hold it to be the product of a man named Charlie Fey.

THE NEW Music Box

Buckley gave Music Operators the FIRST practical and profitable music box at the LOWEST PRICE. Today, Buckley leads the field by offering a NEW music box of advanced design and perfection at a NEW LOW PRICE.

Quality of material and workmanship have not been sacrificed. This sensational low price is the result of economies realized in large quantity production.

The new Buckley Music Box is genuinely chrome plated, with beautiful red dial plates and attractively illuminated. Equipped with positive nationally known slug rejector and double capacity cash box. Complete program of selections always in full view. Buckley's exclusive features of construction, combined with outstanding beauty and eye appeal makes this the outstanding remote control music box . . . equally popular for wall or bar installation.

\$25⁰⁰

TRACK ODDS

BUCKLEY TRACK ODDS has long been recognized as the only seven-coin race horse console that would stand up month after month—year after year—and out-earn all other coin machines.

Buckley operators know this to be a fact. Experience has proved that no other machine can even come in a close second from the standpoint of earnings. Every day new operators are finding out that the new BUCKLEY TRACK ODDS are even more profitable to operate than they hoped for.

Seacoast Backs "Bust 'Em Up" Campaign

HARRY PEARL

NEW YORK — Harry Pearl of Seacoast Distributors, this city and Elizabeth, N. J., reported this past week that his firm, as Rock-Ola phonograph distributors for this area, are backing up the campaign of busting up old phonos and replacing them with the new Rock-Ola "Phonograph of Tomorrow."

According to Harry, "Weeks ago we spoke before a meeting of the leading operators here and proposed that such a campaign be instituted. We believe that this campaign is now under way. We are back of it even stronger than we were when we first proposed it. In fact, we want to take this opportunity of giving thanks to The Cash Box for its great double spread article—'Bust 'Em Up', which appeared in its past week's issue, and which completely voices our sentiments regarding this old type phonograph which is blocking off some of the best locations in this area."

Pearl reported that the firm are making an unusually grand trade-in plan for the ops with old phonos which will allow them to trade in these old machines and also be assured that they will be smashed up and never again sold to anyone in the industry.

"The trade-in plan is based on the purchase of the new Rock-Ola Phonograph of Tomorrow," Pearl stated, "and is one of the most startling ever yet conceived for the complete benefit of the phono ops," he continued.

He also brought forth what he terms one of the most important facts when an operator begins to think of busting up old equipment. "We'll meet any music operators better than half way," he stated, and also added, "It took guts to pioneer this business and it's going to take guts to break up these old machines."

He added, "We feel sure that any music operator in our territory who will call on us will agree that we have a plan which makes it more than worthwhile for him to bust up his old equipment."

CMI Announces 1948 Convention

BY JAMES A. GILMORE
Secretary Manager, CMI, Inc.

CHICAGO—Contracts have just been signed with Hotel Sherman, Chicago, for the 1948 Convention and Coin Machine Show to be held January 19-20-21 & 22, 1948. Hotel Sherman will make available all exhibit space occupied by the 1947 Show with the exception of the No. 1 floor which they found by experience with the 1947 Show they MUST retain for business meetings of one kind and another they are regularly obligated to take care of.

The Annual Banquet will be held again at The Stevens Hotel on the evening of January 22, 1948. This should be good news to everyone who attended the 1947 banquet which was handled by The Stevens and was, beyond any doubt, the best ever held from every standpoint, the quality of the food served, the faultless service and the scintillating floor show.

There is no present intention of offering exhibit space for sale to anyone until the usual time, about Labor Day, 1947. We will gladly answer any inquiries about it of any prospective exhibitors who have not shown before or who are not members of Coin Machine Industries, Inc. Such inquiries should be addressed to

Mr. Jas. A. Gilmore, Secretary-Manager
Coin Machine Industries, Inc.
Room 508, 134 No. LaSalle St.
Chicago 2, Ill.

This Show will, as usual, include displays of ALL types of coin operated machines, Vending, Music and Amusement. The old established manufacturers of all types of machines will exhibit and the manufacturers of every new type of coin operated machines, Vending, Music and Amusement will scramble to get in this Show so that the 10,000 to 12,000 operators and distributors that will attend may have an opportunity to see them, operate them and buy them first hand.

This Show will sell out fast. It will pay well to be diligent when the floor plans and exhibit contracts are mailed.

Eaton Resigns As AMI Sales Chief

DE WITT (DOC) EATON

CHICAGO—This past week brought an announcement from De Witt (Doc) Eaton that he has resigned as Vice President and General Sales Manager of AMI, Incorporated.

Simultaneously, it was disclosed by Eaton that he has been appointed Treasurer and General Sales Manager of the Mannington Pottery Works at Mannington, West Va., and has also been named Executive Vice President and General Sales Manager of American Ceramics Sales Company, Washington, D. C. He will also serve as a director in both concerns.

In addition, Eaton has taken a substantial interest in a new firm that will distribute AMI products in Maryland and the District of Columbia.

A very well known figure among cointrade leaders, and especially in the automatic music business, Eaton has spent over fifteen years in the industry. He started as a phonograph operator in Chicago, and for several years was president of the Sloane-Berts Company, a large music operating concern headquartered here. Before joining AMI, Eaton spent two years as Eastern Sales Manager for Buckley Music System.

Also announced last week, following a meeting of the officers and directors of Coin Machine Industries, Inc., was the news that Eaton has resigned as a director of the association. Eaton had served as a director of CMI for one year, representing the Music Division of the Coin Machine Industry.

Though his new business interests will be varied, Eaton declared he still intends to be as active as possible in the coin machine industry.

TWENTY YEARS OF LEADERSHIP

Reports Coin Counter Demand Going Up

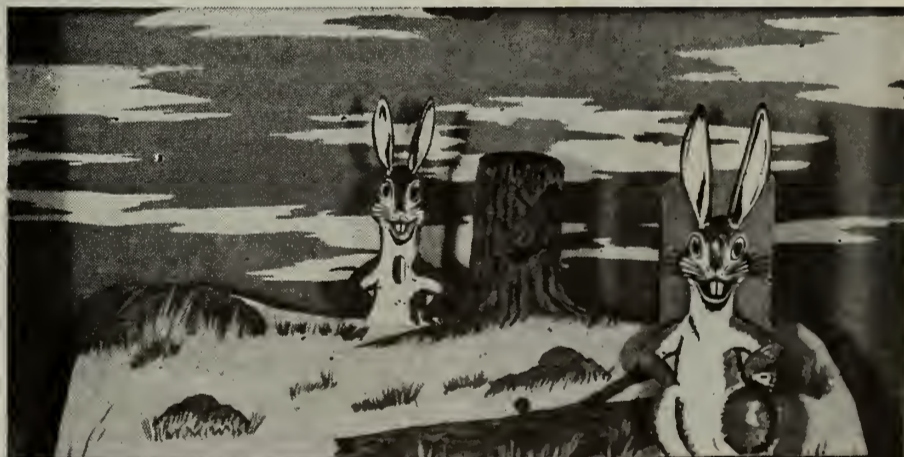

CHARLES (JIMMY) JOHNSON

CHICAGO—Charles (Jimmy) Johnson of Globe Distributing Co., this city, national distrib for the Downey-Johnson Coin Counter and the Globe Coin Sorter, reported this past week that since announcement of the fact that immediate delivery is now available demand has been increasing each and every week for these two machines.

According to Jimmy, "Vince Murphy, our general manager, tells me that in the past weeks, since our announcement of immediate delivery on the Downey-Johnson Coin Counter and the Globe Coin Sorter, that demand has been increasing at a very rapid rate. It looks like we will have to work harder than ever to meet the orders which are now piling into our offices for these machines."

Coven to Exhibit at Milwaukee Meeting

BEN COVEN

CHICAGO — Ben I. Coven of Coven Distributing Co., this city, reports that his firm are going all out to feature one of the most outstanding displays they have ever yet arranged for at the forthcoming meeting of the operators and distributors at the Hotel Pfister in Milwaukee, Wis.

Coven reported, "Everyone of the newest Bally games will be on display in our booth at the operators' and distributors' convention in Milwaukee on April 14 at the Hotel Pfister. We will show the games which have won the entire nation the biggest and steadiest profits.

"Our booth," he continued, "will take second place to no one for we are already at work planning to make this one of the most outstanding in all of our history."

Steps Up Production

I. EDELMAN

DETROIT, MICH. — I. Edelman of Edelman Amusement Devices, this city, reported this past week that due to the great demand which the firm are enjoying at this time for their new bowling game, "Bang-A-Fitty," they have stepped up production and will continue to step it up as they go along.

"We hope," Edelman reports, "to soon have stepped up our production to the point where we shall be able to cope with the terrific demand which we are enjoying at this time for our 'Bang-A-Fitty' game."

He also stated, "Reports we have received from every user of the machine is to the effect that 'Bang-A-Fitty' is the finest and biggest mon-

New Solotone Box Clicks With Trade

WM. (BUD) PARR

LOS ANGELES, CAL.—Wm. (Bud) Parr of the Solotone Corp., this city, reported this past week that since announcement of the firm's new Solotone non-selective wall box they have received a very large demand for this new item.

Parr attributes the great response to the new features with which the new 1947 Solotone box is equipped. The new box is available in two new finishes including a special hammer-tone finish.

Also interesting to the music operators is the fact, Parr reports, that the new, 1947 Solotone box is equipped to handle various coin combinations. "We were first with 5c and 10c chutes in our Solotone boxes and now," Parr stated, "we have furthered this with various coin combinations which mean more money for the operators."

He also reports, "We have developed a special circuit by means of which it is possible to open certain designated boxes in a location at any time interval. This is fully automatic.

Naturally, it greatly encourages customer play. This has been only made possible by Solotone's new combined amplifier and interval timer."

In addition to the above, Parr also reports that the firm have arranged for an entirely new distributor policy. "Solotone's new plan," he says, "means better, quicker distribution and faster service for the operators."

He also stated, "There are franchises still available for certain cities. We recommend that jobbers and distributors get in touch with us immediately."

Reports Biz Pickup

LOS ANGELES, CAL.—Paul A. Laymon reported this past week that, "All down the line there has been a terrific pickup of business."

He also said, "We find that we are getting busier than ever trying to satisfy the demand which has accrued since the change of operations here. We believe that, as the coinmen settle themselves in this new mode of operating, that business will bounce back even bigger than ever before. We look to one of the best years in the history of our business."

Paul reports that his firm are working harder than ever attempting to fill orders for all coinmen in this area.

Courthouse As A Location

PENDLETON, ORE.—The local courthouse has a coin machine, a drink vendor. And the "East Oregonian" thought that fact unusual enough to devote a little, but prominently placed, article to that news.

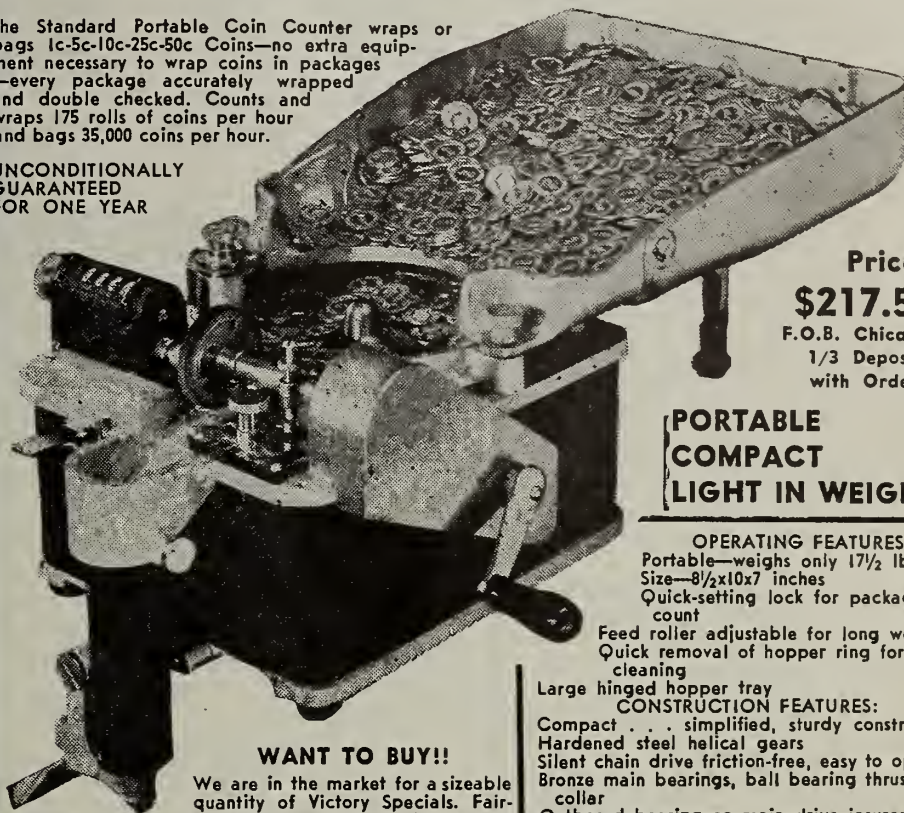

Reported, too, was that indications are to the effect that the unit is doing a "pretty fair business."

As Winchell would say: "Hmph!"

See Your WIDE-A-WAKE Distributor for **IMMEDIATE DELIVERY!** DOWNEY-JOHNSON COIN COUNTER Equipped with 4 Wheel Reset Meter

1623 NO. CALIFORNIA AVE., CHICAGO 47, ILL. • ARM. 0780

ONCE UPON A TIME

There was a man with a half dozen grown up sons and these sons had separated from each other and each one worked alone. One day the old man called them all together and said, "Get together my sons," but they couldn't see why they should. So he collected six sticks, tied them together and asked all his sons to break the sticks. They tried and they tried but the bundle was too strong. Then he untied them, took each stick separately and easily broke them, one at a time.

Alvin Gottlieb Takes a Bride

CHICAGO — In a very impressive affair at the Blackstone Hotel, this city, on April 2, Alvin Gottlieb, son of Dave Gottlieb of D. Gottlieb & Company and who is also president of Coin Machine Industries, Inc., the association of the coin machine trade, married Evelyn Lieberman of this city.

Alvin Gottlieb entered into the D. Gottlieb & Company offices here sometime after his discharge from the armed services. His engagement party at the Stevens Hotel attracted a large group of noted coinmen. After a honeymoon, Alvin is expected to return to the D. Gottlieb & Co. offices in this city.

THRU THE COIN CHUTE

CHICAGO CHATTER

The boys here are all in a much better frame of mind now that Spring is officially here. As coinmen point out—it means that the legislatures thruout the country will be closing shop (some for the two-year period)—it also means that with the milder weather people will at last be able to get out of their houses and will be more in the frame of mind to once again enjoy themselves—it also means, as some of the coin leaders here have pointed out, that the balmy weather always makes people perk up (and people are coin machine men, too) so that, from every standpoint, it looks like the industry is well under way again and heading for better times from every viewpoint.

The news is out, that DeWitt (Doc) Eaton resigned from his post as vice-president and general salesmanager of AMI and also from being on the board of directors of the CMI. Doc will spend more time down in Mannington, W. Va., where he is interested in one of the largest ceramics factories. But, he will also keep his hand in the coinbiz, which he reports he will always carry around in his heart, by interesting himself in distribution of AMI phonos in Washington, D. C. . . . Bumped into Ed Ponder of New Orleans and Les Griffin of Jackson, Miss., who were in town to see whether they couldn't get another six or seven thousand more of those AMI phonos, they claim. Both Ed and Les believe that conditions have bettered themselves in their part of the world.

Willie (Little Napoleon) Blatt of Miami and Brooklyn was in town this past week and called around to meet with the various factories he represents. Willie reported that conditions were as good as could be expected and getting better right along. . . . Barnet (Shugy) Sugarman of Runyon Sales Co., Newark, N. J. and New York, also came to town this past week for a hurried visit and took up some important business matters with various manufacturers here. . . . M. S. (Bill) Wolf of Los Angeles and other west coast points was also in town and met around with the boys saying "hello" here and there and everywhere. Bill reported that his offices are going grand and that he expects to also have the outstanding surprise building on the West Coast in Los Angeles when he's thru building it.

Bumped right into H. V. Phillips of Jamestown, N. Y., who advised that there's plenty of activity up in his part of the world these days. . . . Gil Kitt of Empire Coin advises that he enjoyed the variations attached to playing Gin down in Florida but that a guy has to be a CPA to be able to total the scores. . . . Ben Lutske of Daval reports that the firm is getting well under way with their "Skill Thrill" counter game. . . . Al Meierowitz, Leon Berman and our favorite cigar smoker Charley Katz, all of Esquire Games, report that their new "Spotlight" machine is now well in production and that they are working harder than ever to satisfy the demand which has grown with leaps and bounds. . . . We hear that Harry Pearl of Seacoast Distribs expects to be in town sometime this coming week.

Larry Frankel, genial head of Frankel Distrib. Co., is now back in Rock Island after a series of meetings with all his various offices and office personnel. Larry reports that conditions are marvelous and expects them to get even better as the warmer weather rolls in. . . . Jack Nelson is all excited over the marvelous reception to "Strikes 'N Spares" the automatic bowling machine, and reports to us that everyone of the people who have seen it are tremendously enthused over the dime play feature. "Looks to me," Jack says, "like this is the one bowling machine which will capture the grandest play the industry has ever known." . . . Lew Terry is back from a long Florida visit, nice and brown and rarin' to go. Lew reports that one of the nicest things about living here in Chi is to be able to get down to Florida for the winter season.

Little "Bally" Sally (Goldstein) over at Coven Distribs is trying to douse a very stubborn cold. "Bally" Sally has attracted much attention of the coinmen visitors here and because everyone feels sooo sorry for her and her cold—the boys are sending in boxes and boxes of candies. We wonder whether it's the cold or whether maybe it could be just "Bally" Sally. Even her boss, Ben Coven, has taken up the cry and is passing out those pretty feminine kerchiefs to the gals who call around. . . . They tell me that Tom Callaghan, that dapper man over at Bally's music division, is scheming schemes with "Bal-

ly" Sally for the latest we heard was Sally talking of Tom as, "Gee, isn't that Tommy Callaghan a honey?" . . . All old timers in the coinbiz happy to hear that Frank Lorden is back with Bell-O-Matic. Not seeing Frank on the road with those Mills bells is like missing breakfast, dinner and supper. Now that he's back the boys look forward to giving Frank some really nice "hellos" when he calls around. Glad you're back, Frankie.

Tony Galgano of the Used Record Exchange, who seems to be getting the lion's share of the used records from music ops is one guy we just can't understand. Not only did Tony pass up a terrific party given in his honor but even let a bottle of the old stuff lay around for three weeks before he thought of calling around for it. This guy's either very bashful or has terrific control. . . . Yes, sir, Don Kintzel is just like a man walking on air over the tremendously swell reception the boys have given the Zodi horoscope machine. Don reports that the test spot in the Sherman lobby arcade has proved terrific. People are bouncing their quarters into the machine and getting a great thrill watching those invisible hands working that typewriter.

Gene Bates of Pace Mfg. Co. laid up, like lots of our Chicagoans, with a touch of the "flu" which reminds me to remind Gene the advice he gave me about drowning those "flu" bugs. . . . Joe Beck of Telequiz who wasn't around when Life mag pulled those pictures and has just returned this past week after much traveling about, was grinning from ear to ear when he read the story of the Telequiz and saw the pic of the machine in that issue. . . . This Eddie and Morrie Ginsburg combination is really something. Now that Eddie's back—Morrie leaves for Florida. Between them they keep those planes doing a rumba of no uncertain movement—up and back and down again. By the way, Eddie sure does look marvelous—he's brown as the proverbial berry—and healthily happy. . . .

Art Weinand of Rock-Ola back at his desk and reports that business is picking up very, very well all up and down the West Coast. Art again looks forward to the time when the Coast boys will be leading the parade. "But," says Art, "picking up isn't exclusive with the West Coast. Things are getting better everywhere in the nation and our Distribs are looking forward to some of the best business in their history" . . . Harry Brown of American Amusement is thrilled with the sudden bloom of business he is enjoying on his machines. Harry believes that it was just a case of the boys holding back because of the fierce winter weather and now that things are warming up everything is loosening up in proportion. . . .

George Lewis of ABT Mfg. Corp. is smiling very mysteriously these days. George tells us to "just watch ABT" as some very important announcements will be forthcoming very soon from this great factory. In the meantime, Walter Tratsch is still bounding around the Caribbean following the paths of the pirates of old. . . . Leo Weinberger of Southern Automatic in town and talking things over with the factories here and there in town. . . . Ed Levin of Chicago Coin working harder than ever to try and satisfy the terrific demand for "Kilroy" games. Ed reports that they have stepped and stepped up production and to tell the boys that they are trying their very best to satisfy the growing demand. Instead of slackening, the demand is growing greater right along. And this in addition to the great demand Chicoin is enjoying for their marvelous "Basketball Champ" machine which has won a very big following.

Over at Genco, Myer Gensburg is working hard trying to get as many of those Advance Rolls out as he possibly can. But, it seems that each time Myer makes a shipment, another flood of orders arrives which puts him right back where he started. . . . George Jenkins, who has been suffering from a touch of the "flu," simply won't give those bugs a chance to die. He works right ahead. "Can't be helped," George reports, "too, too much to do these days." . . . Bill Ryan's article in the "Spring Special" issue of The Cash Box clicked big with the ops who report that this is really the truest story told—for the future definitely is in the hands of the operators. . . . Dick Hood of H. C. Evans & Co. is still down yonder in Ft. Lauderdale, Fla., enjoying the health giving sunshine.

THRU THE COIN CHUTE

EASTERN FLASHES

There was a great deal more enthusiasm on Coinrow this week than for quite some time. Jobbers and distributors were busy talking with buyers, mechanics were working on machines, and the shipping departments were working beyond the regular hours to get the equipment out. Operators were more in evidence along the street, and were talking about how their averages have been gradually climbing, and how they expect better averages from now on, what with the Lenten season over and the weather getting better.

* * * *

Barney (Shugy) Sugerma, Runyon Sales Co., on his way to Chicago for a "quicky". Shugy will only spend a few days in the "windy" city, and then return. We understand he expects to meet up with Willie (Little Napoleon) Blatt of Supreme Distributors, Inc., Miami, Fla., at the Morrison Hotel . . . Ben Becker, who has just been appointed Sales Manager for Tri-State Sales Co. and Pioneer Distributing Co. (exclusive Bally distributors), has thought up a new slogan "Rally with Bally" . . . Art Fink, service manager for Joe Fishman's Atlantic New Jersey Corp. (Seeburg distribs), conducts a lecture class every Monday evening at the firm's showrooms. Fink, formerly with RCA, is an expert on electronics.

* * * *

Harry Pearl and Dave Stern of Seacoast Distributors (Rock-Ola distributors) join the "Bust 'Em Up" campaign. Harry is leaving for Chicago to visit with the factory, and Dave is spending his time between the three offices of the firm. Jules Mayers, New York manager for Seacoast, returns this week after being away due to illness. Irv Orenstein, the Newark manager for the firm, has dug up a big sledge hammer to wield on those old machines . . . Sol Kesselman (Attorney for the Music Guild of America, Newark phono operators' assn) and his wife seen dancing at the Chanticleer . . . Mr. and Mrs. Sam Waldor, Newark music op, also seen at this dining and dancing spot.

* * * *

Mike Munves seems to be more happy than ever—we're wondering if it even goes beyond the sale of equipment, which is exceptionally good. Is there some added reason for all that jubilation, Mike?

Jack Semel will have an important announcement to make within a very short while . . . Julius Malich, Delsex Music Co., in bed with the flu . . . Joe Kochansky, Premier games, returns from Florida with a real tan . . . Jack Greenfield, Greenfield and Cantor, recuperating at the Jewish Hospital from a heart attack . . . Harry Berger, West Side Distributing, getting congratulations from the many visitors, on the wonderful appearance of his new quarters . . . Frank Dandio, former owner of Wilfrank Music Co., returns from a long vacation at West Palm Beach, Fla.

* * * *

One of the most active places along coinrow is Jafco and Musical Minutes. Jack Fitzgibbons and Leo Knebel complaining there aren't enough hours in the day. The boys have a few "hit" games on their hands. Jack keeps his pencil busy writing orders for Williams' "Tornado" and Square Amusement's "Sportsman Roll". Leo just "ain't talking" about Musical Minutes, but he's wearing a great big smile . . . Harry Siskind, Master Music Co., leaves for Miami . . . The firm of Mac-Hub Melody Co., composed of two ex-army fliers, start off a Taxi service, flying from LaGuardia Field to the Catskill Mountains. Mac Grantz, a former Lieutenant and Hubert Beers, a former Captain are the enterprising yong coinmen.

* * * *

Nat Cohen and Earl Winters, Modern Music Sales Corp., happy about their new label "Rainbow", which they are distributing thruout many states. Nat is kept on the floor now, greeting many of his music op friends . . . Ben Gottlieb, Majestic Music, happy over the successful wedding party given his daughter at the Hotel Pierre this past Saturday nite (March 29). Ben claims he did quite a trick in obtaining the Billy Shuback Orchestra for the event . . . Jack Beekman, Huckster records, Hollywood, Cal. visits with Johnny Halonka and Gloria Friedman of Runyon's record dept. They're all excited over their record "Mahzol" . . . Ben Chicofsky, Benray Music, pulls a tendon in his leg and has to take his missus along with him on the route . . . Hymie Rosenberg, H. Rosenberg Co., finally arrives home after quite a lengthy trip thruout the country. "Business is on the road" claims Hymie, "all one has to do is go out for it".

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Bill Happel Jr., of Badger Sales, off to Las Vegas on business. He's staying at the new and very elaborate Flamingo Hotel while there, and plans on talking over a few business deals with Clem Connor, formerly of Milwaukee. The new and very attractive Keeney one ball "Big Parlay" is on Bill's showroom floor and is attracting lots of attention. Joseph Duarte, head of the export department of Badger Sales, tells me that the export business is booming with the prospects for the future getting brighter every day.

The Laymons, Paul and Lucille, were looking back upon the many pleasant years spent in the coin game; the folks have been in the biz a little over 25 years and deserve a hearty pat on the back for their worthwhile contributions to the coin machine industry. Incidentally, Paul celebrates his birthday this week. The best of wishes to you, Paul, and may you celebrate many more happy birthdays.

It is with deep regret that we announce the death of Annabelle Boran, the wife of Dave Boran, assistant managing director of the A.O.L.A.C. Mrs. Boran was ill a short time and passed away very suddenly; two small children were left by the deceased. The sympathy of all coin men are with Dave in his bereavement.

The revived Music Operators Association of Southern California held an election of officers this past week. The following were named: R. F. Gallagher, Santa Ana, as President; Sam Ricklin, Vice President; Robert Clark, Secretary-Treasurer; Board of Directors elected were: R. F. Gallagher, Sam Ricklin, S. L. Griffin, I. B. Gayer, C. F. Morrissey and Robert Clark. Mollie G. Simon was named Business Coordinator.

Len Micon of Pacific Coast Distributors is confined to his home after having suffered a slight heart attack. Len is under the care of a physician and will remain at home for the next five or six weeks.

Among the out of town coin men visiting along coin row this past week were: M. V. Connor, Downey; L. Smith, Downey; R. W. Winchell, Alhambra; Jim Marshall, Glendale; W. H. Sherey, San Bernardino; Roy Smith, Lancaster; James Burris, Montebello; Fred Allen, Bakersfield; D. D. Brymer, Palos Verdes; Niles Smith, Oildale.

Bud Parr of Solotone is once again back on his feet and has licked that flu germ that had been raising hob with him all winter. He is back at his office and starting things humming again. Production is underway on the firm's new Solotone boxes with increasing shipments leaving the factory daily. . . . Jay Bullock, managing director of the S.C.A.M.O., held a very important organization meeting past week; a new affiliation is about to take place which will be announced shortly, according to Bullock. . . . Saul Bihari of Modern Records leaves for the east coast this week to call on the firm's distributors along the eastern seaboard. Jules Bihari informs us that the firm's sales of records has been increasing by leaps and bounds. . . . Leon Rene of Exclusive Records, adding to the glamour of his very terrific offices by some re-

furnishing and new carpeting. Sales of the firm's records are increasing daily all over the country, according to Charles Craig, the newly appointed Publicity, Promotion and Advertising exec of the firm.

Just spoke to "Hum" Brokamp of the Pantages Maestro Music Co., who advised that the firm has just moved its offices and factory to 1035 North McCadden Pl., in Hollywood. The firm is currently manufacturing a mirror cabinet, a conversion unit that is adaptable to any make of counter box and hideaway mechanism.

"We are on the way," Bill Schrader, of Allite Manufacturing Company, tells me: "We have converted our factory and are now in full production of the new "Strikes N' Spares" and are starting to make deliveries which will increase by leaps and bounds very shortly. We have completed the appointments of distributors of our product on a nationwide scale and will announce them very soon.

Jack Gutshall is off again on one of his many trips out into the territory, Jack is whipping up some pretty good sales by calling on the ops and is moving lots of Packard equipment. . . . Bill Wolf, of M. S. Wolf Distributors, is off on a trip to Chicago to see the A. M. I. execs to speed up deliveries. Bill plans on calling on a number of coin factories while in the windy city. . . . Lou Chudd of Holiday Distributors made a fast trip up to San Francisco before starting on his eastern jaunt which will keep him on the road for three or four weeks.

Eddie Mesner of Aladdin Records is staying over in New York a few weeks longer than planned. He is making several recording sessions and plans on participating in several radio programs while in New York. . . . Ben Ellison, of Hollywood International Records, is readying the release of a group of new recordings which may prove terrific hits. . . . Merle Connel, of Quality Pics, has just completed shooting a new series of coin film for Panorams, and which he will have ready for release to the trade within the next few weeks. Merle tells me that things are picking up in the Arcade business; he can judge by the increasing number of orders pouring in from Arcade locations which is a good sign for the coming summer business.

Ray Powers of E. T. Mape Distributing Co., has his shop men working very hard getting the large supply of good games and phonos in tip-top shape ready for location. Ray tells me that the firm has been doing a terrific business in used equipment and parts and that they have a most complete parts department for every kind and type of coin operated equipment.

Charles Fulcher, new manager of the Mills Offices in Los Angeles, tells me that many ops are showing great interest in the firm's new Mills Dollar Bell. Charlie is rapidly getting acquainted with the local ops and is well liked by the boys who come in contact with him. . . . Nels Nelson and Frank Navarro, Aireon Distributors, plan on an important announcement on the new Aireon soon.

THRU THE COIN CHUTE

ST. LOUIS TEXAS

Things are a bit tough in the 49th State, as Old Man Winter forgot it was spring and loaded the city up with a three day snow during the past week. Collections were reported down everywhere, as St. Louisans clung to the home-fires while blizzards filled the street. Spring is supposed to be here, y'know.

Barney Neal took top honors among ops this week from a new equipment standpoint—he walked off with a number of new machines last month, and even more this week. Missouri Tavern Equipment got a bunch of new Rockolas during the last few days.

It's Spring cleaning time at most distributors. W. B. Novelty is getting a new face, Olive Novelty is sprucing the interior, and J. S. Morris has finally gotten in brand new display fixtures many moons overdue. Incidentally, Joe Morris is improving rapidly in the dry air of Nevada, according to son Walter. We'll see him back in St. Louis shortly.

Much doing at Ideal Novelty Company—rotund head of the firm Carl Trippe took off on (of all things) a selling trip last week, calling on Illinois and Missouri operators far into the hinterlands. Carl sold a great many Rockolas on the trip. "Sure I know there isn't any need for promoting right now," he beamed. "But since we're going to have to start selling hard shortly, I merely jumped the gun a few months." He got a chance to renew acquaintances with many ops who haven't been into St. Louis for years, he reports . . . Reba Sulhoff, queenly secretary at Ideal, resigned last week, much to the trade's dismay. Reba was the proverbial walking dictionary on coin machine events, and helped to snag many new customers.

Visitors at VP Novelty Company during the past fortnight included Freddie Voucher, up from Festus, Hackman & Hertel, who grabbed another new "Tornado," Bill Shelby, from New Madrid, Missouri, stocking up on Tradios for his coin operated radio route, and Earl Eaton, new St. Louis vending machine op, who ordered a whole lot of cash trays. Cliff Peterson from Granite City was another "Tornado" purchaser.

Ben Axelrod and Al Haneklau, very much irritated by a three-weeks backlog of unfilled orders, trekked up to Chicago on the 31st to find out just why promised phonographs aren't materializing. The boys planned to spend an entire week of campaigning for Olive Novelty Company, in the interests of customers very weary with non-delivery of needed equipment.

More visitors around the city the past week included C. J. Houser of Hudson-Houser, Centralia, Illinois, Elmer Berding of Union Novelty Company, Union, Missouri, and ubiquitous Freddie Voucher, who seems to hit every coin machine high spot at least twice a week!

A Cash Box secretary travels thru Texas and meets up with the people she has been corresponding with for years . . . The Harris County Coin Machine Operators Association in the process of being formed, and hold its first meeting at the offices of Southern Distributing Co., Houston. Temporary offices appointed. The membership runs almost 100%, and they vote a 60%-40% commission basis on pin games.

Southern Distributing Co. holds a showing of the Jennings machines, and play host to many visitors . . . Bob Cowan of Lone Star Sales Co., Fort Worth in town for the showing. Other out of town visitors were George Prock of General Distributing Co., Dallas; Joe Jumbo, of Dickenson; Ken Wilkinson of United Amusement Co., San Antonio. The McDaniel brothers were well represented, three of the four coin machine brothers, were present. There was W. N. McDaniel of Long Beach, Calif., L. McDaniel of San Antonio; and of course Jack McDaniel, manager of the Southern Distributing Co. The only McDaniel missing was C.M.

Sam Ayo, Standard Music Distributors, Houston Aireon distrib, out of town at the moment of the visit . . . Harold Horton and Bill Williams, Horton & Williams, busy distributing the Packard phono line . . . Morris Liedecker of C. C. Novelty Co., Corpus Christi, recovering from the flu he caught at the coin machine show. Liedecker's record shop is really an outstanding show house.

Most of the coinmen still talking about their experiences and adventures at the Coin Machine Show . . . Bill Siros of Amusement Enterprises tells us about his new shoe shining machine in the process of manufacture.

Beauty Secret

... that pays off in
INCREASED PROFITS

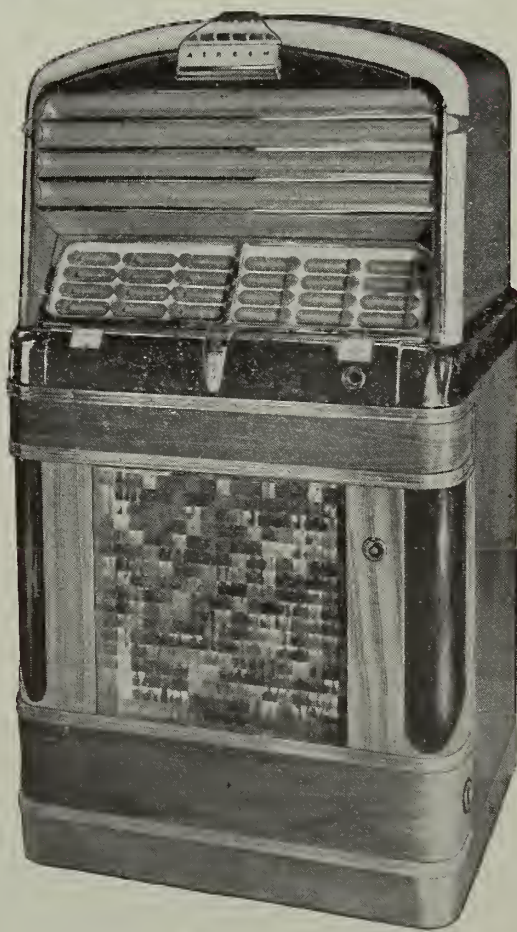

Super Deluxe Model

... FEATHER-LIGHT TONE ARM
that **DOUBLES** record life!

The Aireon Magnesium Tone Arm floats with cloud-like ease, yet brings out the full tonal quality in every record. Has Crystal pick-up with instantly replaceable pick-up cartridge. No soldering or re-wiring.

Eye-arresting beauty of design—the irresistible play appeal of soft, fluorescent lighting—sparkling prisms of color, revolving in an ever-changing pattern of beauty—that's Aireon! And inside there's a deeper beauty, a mechanical beauty that pays off in more play, more trouble-free hours of operation, 18% to 36% greater profit!

OPERATING
Bally's **Double Barrel**
 IS LIKE OPERATING A GAME WITH

Yes . . . DOUBLE BARREL is a 5-cent 5-ball game. But the startling new Super-Field and clever Semi-Captive Ball speeds up play . . . and compels repeat play . . . to the extent that net profits are increased at least 50 per cent above normal novelty profits. And DOUBLE BARREL not only earns extra money but also saves money . . . thanks to the simple trouble-free mechanism. Try DOUBLE BARREL in your slowest spot . . . and you'll want DOUBLE BARREL in every location. Order DOUBLE BARREL today.
