WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: I FEEL LOVE-Donna Summer (Casablanca) Top Ten in Columbus, Philadelphia, Boston, Pittsburgh, Los Angeles, New York, San Francisco, Houston, Dallas, San Diego and many others.

Sleeper of the Week: GONE TOO FAR-England Dan & John Ford Coley (Big Tree) Looking good in Cincinnati (WSAI) and starting at WAMS, WBGN, WILS, WMFJ, KSLY, KFYE and so on. (See Page 7)

Hot: BABY, WHAT A BIG SURPRISE-Chicago (Columbia) Our third biggest airplay record for the week, behind Debby Boone and Carly Simon.

Top Tip: HOW DEEP IS YOUR LOVE-Bee Gees (RSO) They seem to have achieved the enviable position of being called, "automatic".

Record to Watch: BLUE BAYOU-Linda Ronstadt (Asylum) Top Five at KILT, KIIS/FM, KNDE and KDON. Moving up at 43 other stations. The only thing that may possibly impede its growth is the premature release of IT'S SO EASY.

Note From Bill

Last weekend's radio meeting in Louisville marked the close of our 1977 series of regional gatherings. Starting last March in Jackson, we've visited San Diego, San Antonio, Philadelphia, Milwaukee, Denver, Portland and Louisville. Registrations totaled just over 450 radio people, representing approximately 300 stations. We've been fortunate to have had in attendance some of the best known and most successful program directors and managers in the nation, as well as many younger broadcasters who probably someday will be among that distinguished group.

Looking back, it isn't possible to summarize our discussions in any comprehensive way. Each meeting developed its own directions and emphases. One topic, however, attracted considerable interest in each meeting--audience research, and, in particular, call-out research. It was enlightening to learn of the many and various techniques now being employed to sample listeners' musical preferences and attitudes. Call-out research--sometimes known as "passive" research--was conceded to be particularly effective in checking on the impact of old hits and in determining the degree of "burnout" for current hits.

One conclusion was inescapable: radio's programmers are diligently searching for alternative sources of information on what particular musical selections their listeners most prefer. The old, original top 40 concept of "best selling singles" is no longer the sole criterion for the playlist. As programmers become more deeply involved in applying new research methods, they grow more and more aware of their need for professional research skills and training. Where historically radio skills have been largely self-taught, there exists today an implication that broadcasters soon will be turning to college graduates with special training in sociology and research methods.

It has been interesting to observe the growing number of women attending our meetings. The old prejudice against female voices on the air seems to be rapidly shrinking. Broadcasters who started putting a woman on the microphone simply as a form of tokenism have generally found that she does an excellent job and attracts few if any listener objections. Radio seems to be joining the rest of the economy in realizing that a woman's place is not necessarily in the home.

One fact was clearly apparent in all our meetings: radio people--particularly those on the program side--have a great affection for the business they're in. While they may not love their particular job of the moment, they love the excitement that comes from radio's ever-changing challenges, the satisfaction that comes from reaching and moving a lot of people. Even the P.D. who is no longer on the air has this same joy of human contact.

Most of the arrangements for this year's meetings were made by Gary Taylor. He handled all the many details of hotel accommodations, meals, registrations and so on. (If he keeps on developing his skills in this area he'll build a reputation as another Ron Alexenburg.) We're already talking about the locations for next year's meetings. They haven't been selected yet, but we'll let you know.

It has been a real privilege for me to have had these opportunities to stay in personal touch with the world of radio and the people who make it work.

Gavin's Gab

Martin Broadcasting Corporation, owner and operator of KATA-Arcata, has purchased KVCV-Redding. The call letters will change to KXSX (K60 on the air) and the format becomes rock, emphasizing the progressive side. John Stall, afternoon man at KATA, will take on the P.D. job and he needs service on oldies--yesterday!

Here's a portion of a heart-warming letter we received last week--"I just wanted to thank you for running that short article on me. To date, I have received 59 letters from some very wonderful human beings in our industry..." That comes from Steve Hunter in Georgia State Prison, who has a chance for parole if he is hired by someone on the outside. We thank the 59 people who responded with interest in his radio qualifications.

The marathon contest between Chuck Cooper of KRPL-Moscow, Iowa and Steve MacKelvie of KRLC-Lewiston ended last Sunday, October 2nd with the stop watch favoring Steve--still awake at the mike--at 72 hours, 5 minutes.

A little turning of tables at KRNT-Des Moines--at their Women's Golf Classic September 9th, not only did they raise \$7,500 for the Cystic Fibrosis Foundation, but KRNT General Manager, Al Lobeck, caddied for some of the women, in support of that campaign.

Congratulations to Jack and Paula O'Brian (he's P.D. at WIGY-Bath) on the birth of their son, Daniel Paul, weighing 7 lbs., 9-1/2 ozs.

KING-Seattle provided 1,600 listeners with a boat ride to Victoria, B.C. for a day. The station reports success on their "Third Annual Royal Bike Tour." They rented the cruise ship, Princess Marguerite and sold tickets at \$14 each. Passengers and their 10-speeds were given maps of Victoria for a bike tour and treated to a disco and movie on the return trip.

For those of you having trouble obtaining a copy of Larry Lujack's "Superjock", Dan O'Day of O'Liners has "just about every last available copy in bulk" so send a check for \$6.96 (\$7.50 in Canada) to him at 366 West Bullard Avenue, Fresno, California 93704, for one of those copies. We've read it and think it's a must for any broadcaster's library.

New Yorkers can see The Babys and Piper in concert at the Palladium, October 23rd for 66¢! Special show compliments of WNBC 66 Radio.

KMKF-Manhattan, Kansas has an edit of the Steve Martin LP for use on the air. Those interested can contact KMKF's David Thiessen at 913-776-4851 from 12:30 to 5 PM weekdays.

Earth News has been sold and is changing its name. Earth News becomes Newsprint Dispatch Service while Earth Starship becomes simply Starship. Each service consists of six pages daily, each containing from 15 to 18 stories written specifically for broadcast use. For subscription details contact Bob Rogers at 415-362-3045.

Rick Belcher called from WSGW-Saginaw to tell us their FM, WIOG-Saginaw, which is beautiful music, goes AOR effective November 1st. They're looking for a P.D. so those interested should contact Rick Belcher at 517-752-3456. They also need service, all sources.

We're experiencing--or are about to--a renaissance in the film industry and its splashing-over into the music one. It's highly unusual that for the second week in a row the top three songs on our chart are from movies: "Star Wars", "You Light Up My Life", and "The Spy Who Loved Me."

Inside Progressive Radio

(by George Meier, Editor of Walrus)

Established Progressive Airplay

(In Order)

Grateful Dead

Doobie Brothers

Crosby, Stills & Nash

Alan Parsons

Firefall

Yes

Linda Ronstadt

James Taylor

Steve Winwood

New Progressive Airplay

(In Order)

Bob Welch

Chicago

Robin Trower

Karla Bonoff

Pete Townshend/Ronnie Lane

Notes: Moving up strongly, regardless of position in this list, are The Doobie Brothers and Linda Ronstadt. Meanwhile, Crosby, Stills & Nash, Yes and James Taylor show signs of slippage. Regional strength is notable for Hall & Oates. Their home base is the northeast, and Crawler's radio acceptance bulges in the south. Interestingly, the early pattern on The Dead has almost completely reversed. They started with strength in the west, diminishing as they moved east. Now their most potent airplay seems to be coming from the northeast.

Notes: Bob Welch used to be part of Fleetwood Mac, so it is not surprising to see a new name with that association doing well. Stalwarts, Chicago and Robin Trower start from positions of strength and promise to continue the trend. The totally new name in the list is Karla Bonoff. She was aided by the top west coast studio players and appears to be a comer. The Townshend/Lane LP will have to be watched, as it might be getting curiosity play which may or may not firm up.

Singles & Imports

Singles - The three hottest singles in the progressive context are Carly Simon followed by Eddie & The Hot Rods, followed by Art Garfunkel.

Imports - Leading the imported records are Elvis Costello, Sex Pistols and the new Gong LP.

Album of the Week
(reviewed by Ron Fell)

"Alan Price"-Alan Price (Jet/United Artists) A third milestone in his artistic career. First came his founding of The Animals and their mid-sixties success. Second came his famous score of the movie "'O Lucky Man" in 1973. Now, in 1977, he has an album which strikes an appropriate compromise between the "rocky" and the romantic Price. RAINBOW'S END, I'M A GAMBLER, and I'VE BEEN HURT are particularly kinetic, but nothing is lost except the tempo on THE SAME LOVE and the feathery JUST FOR YOU. The Price is right.

 YOU MAKE LOVIN' FUN-Fleetwood Mac (Warner Bros.) The "Rumours" album may be the first to have four hit singles.
 MR. LOVE-Vehicle (Roadshow/U.A.) This left field choice is pulling Top Ten phones in Toronto (CHUM).

Special note to A-C Stations

After page 3 went to press we noticed that we had failed to include a record under Sales and/or Requests. We should have listed THE HAPPY GIRLS-Helen Reddy.

Note From Bill

Last week I reported the fast-growing interest in call-out (or "passive") research, as demonstrated by extended discussions at our regional meetings. I prefer "call-out" because to me the term passive research, is a misnomer. While one of the objectives in phone calls from the station to listeners is to reach those who don't demonstrate their preferences either by phoning the station or by buying records, there is no guarantee that all persons reached are in this "passive" category. It seems to me that to a large extent, passivity is a matter of degree. An individual who, in a full year, phones a radio station once or twice, or buys just one or two records, can hardly be equated with one who may be ten or twenty times that "active". So, we'll refer to it as "call-out" research.

A number of our correspondents provide us with detailed results of their call-outs. For several months we have seriously considered adding a section to The Gavin Report summarizing such data. Further study, however, showed that reports from two different cities could be completely contradictory. A record might test highly positive in one place and completely negative in another. Such conflicting reports would be of little or no value to our readers.

Our correspondents report many different approaches to call-out research. Some select phone numbers at random, some call people who have participated in station contests. Some use a completely different set of names each week, some retain a certain percentage to hold over for a week or so. A common practice is to put short excerpts of records on a cassette, with a request that the listener evaluate each one during an interval between selections. Some are asked for their reaction on a scale from one to five. Others may be asked to comment on things like familiarity, dislike, and so on.

Most program directors who put the excerpts on tape tell us that they select a "hook" for the excerpt. This brings up the interesting question about whether such an isolated hook would have the same impact by itself that it has when built into by what has preceded it. It also suggests the likelihood that not all program directors and music directors have equal ability to detect the proper hook.

I offer as a hypothesis that widely conflicting call-out results stem, not from differences between the radio listeners in various cities, but from faulty and inconsistent research methods. The manner in which the calls are handled, the presentation of the music, the type of response requested--all these variables are bound to influence the resulting data.

Such market variations should not be cause for doubt as to the value of proper call-out research. They simply underline radio's need for perfecting and standardizing research techniques. When this is accomplished--and it should not take long--it will be possible to obtain a broad cross-section of compatible results from these sources.

Inside Progressive Radio

Album Views

As the fall release schedule pace quickens, many of the strongest artists are beginning to brighten a fairly ho-hum musical year.

Some of the industry stalwarts present albums which reflect their stature. The Rolling Stones live album is recorded well but features old material. Of course, it is first quality material done with a few new twists. Steely Dan proves again that they may not be the best writers going but they are among the best recording artists going. They are masters of the recorded medium. Chicago makes a standard Chicago album--adequate material, played articulately, overall.

Then there is Gil Scott-Heron who may not be the artist with the dollar or audience power of the above-mentioned but he is more potent artistically than any of them. Billy Joel seems to be finding his way after some floundering, though putting his concert dynamism in a studio record is probably impossible.

A relatively new group called Racing Cars flashes by with some strikingly good elements, as does the Robin Trower album.

Two new names represent the new street rock sound. Fine basic rock and roll is generated by both the Dwight Twilley Band and The Boomtown Rats.

Finally, Steve Martin's Let's Get Small album is probably going to get much bigger before it gets smaller. He might emerge this fall as the uncontested leading edge of the next wave of American comedy eclipsing people like Richard Pryor and Chevy Chase. The good news is, we can have them all.

Album of the Week
(reviewed by Ron Fell)

"Moonflower"-Santana (Columbia) Comeback Artist of the year award. "Moonflower" is a tasteful mixture of new and old songs; some live and some studio-recorded. Live tracks like CARNIVAL, LET THE CHILDREN PLAY and JUGANDO (presented in a segued set) capture a rhythmic energy which has ignited audiences in concerts for most of the past decade. EUROPA, a European hit, and FLOR D'LUNA are some of Devadip Carlos Santana's best guitar solos ever recorded. SHE'S NOT THERE--which is off to a good start in some major and secondary markets as the album's first single--should rekindle the Santana fire.

Gary Taylor's Personal Picks

- YOU AND I-Dennis Wilson (Caribou) This first release from his first solo album has harmonies that certainly strike a familiar chord.
- RADIO LOVES YOU-Gadzooks (GRT) The group, albeit unknown, is singing about a topic that is not. As such, it is difficult to ignore a lyric that says, "radio really loves you."
- ONE OF THESE MORNINGS-Starbuck (Private Stock) Perhaps the most obviously commercial release of the week.

Also Possible

- THINGS WE SAID TODAY-Mary McCaslin (Philo) WHAT A NIGHT-Tom Jones (Epic)
- RUNNIN' FOR YOUR LOVE-Brothers Johnson (A&M) BRING BACK THE SMILE-Herb Pedersen (Epic)
- CAN'T IT ALL BE LOVE-Randy Edelman (Arista) WHERE ARE YOU HIDING-Terrence Boylan (Asylum)
- LOVE ME OR LEAVE ME-Michael Kenny (Private Stock) LARRY, MOVE YOUR HAND-Penguin Feet & Kid (HDM)

Gavin's Gab

In support of the "Child and Family Services Charity" in Hawaii, KGU-Honolulu is running "The World's First T-Shirt Auction" through November 12th. They're collecting T-shirts from all over the world for the auction to help fund work with abused children and abusive adults. A worthy cause...so all you record and radio folk send your T-shirts to 605 Kapiolani Blvd., Honolulu, 96813.

Congratulations to Patricia McConahay, former news editor at KPNW-Eugene/Springfield, on her new job as Press Assistant to Senator Bob Packwood (R-Ore.) Patricia, recent recipient of the 1977 CAPTRA Awards (California Associated Press Television and Radio Awards) starts in Washington, D.C. on October 17th.

The folks at WYSL/WPHD tell us they have a "first". They've hired the first woman news director for any Buffalo-area radio or TV station, Barbara Boylan, formerly of WHAM/WHFM-Rochester.

WOR-Radio-New York raised \$82,865 out of the total \$578,128 collected in 35 leukemia radiothons around the country last year and was honored last week by the Leukemia Society of America.

KGVO-Missoula tells us their promotion entitled, "The Wide World of Wacky Wonders," was such a success they've made it an annual event. Fourteen service organizations formed teams and competed against each other in events such as volleyball with a three-foot ball, rubberband basketball and cow-chip throwing. All proceeds went to The United Way.

Jeffrey Jay Weber of WAZY-Lafayette, Indiana, is trying to locate records by Gatemouth Brown. He thinks the label is Duke. So if you have information, call Jeff at 317-474-1410.

Several Chuck White-consulted small and medium market stations in Texas have present and future openings for air talents and newsmen. Tapes and resumes to Chuck White, c/o WJBO, Box 496, Baton Rouge, LA. 70821. No calls please.

Adult Contemporary Programming
(Associate Editor, Ron Fell)

Most Active: BLUE BAYOU-Linda Ronstadt (Asylum) No doubt about it; this is the current favorite of her two singles. The airplay ratio is 15 to 1 and nearly 70% of the A-C stations playing BLUE BAYOU already have it in heavy rotation.

Record to Watch: SENTIMENTAL LADY-Bob Welch (Capitol) Welch, a Californian who spent the early 70's in Fleetwood Mac, has now launched a solo career and his first single is off and running at stations like: KNX/FM, WMJQ, KNBR and many others.

Note: The lines in the top thirty below indicate sharp separations in our research totals. Entries below the lines show considerably less strength than those above - much more of a division than can be represented by two consecutive numbers.

Gavin's Gab

To celebrate King Tut's visit to the New Orleans Museum of Art, WNOE-AM treated listeners to a "King Toot Weekend." WNOE jocks gave away one gram of 14k gold and a "King Toot" shirt, every hour.

WEBC-Duluth conducted a Secret Sound Contest that required listeners to identify some elusive sounds heard around the city, such as, "the fountains by the courthouse square," "cars riding on the Aerial Lift Bridge," and "wind blowing through a tower." The winner who guessed "fountains," the first-featured sound, won \$560.

Last weekend, KRIC-Lewiston held its second annual "Big Wheel Race" for a group of 217 kids aged two through seven. The tots raced around an oval track set up in a parking lot and the three fastest won trophies. Everybody won ribbons.

Bill Early, P.D. of WWKE-Ocala, requests any promotional information on artists, music, LPs and the like. He's publishing an article in the Marion County Ocala Star Banner (circ. 40,000) every week.

A slightly different sound, compared to other contemporary stations in North San Diego County, will be coming from KAVO-Fallbrook, shortly. Consulted by Bill Craig, KAVO will feature album-oriented adult contemporary music with a blend of jazz. They're taking applications for a 7 to midnight personality and request "no calls."

KLIF-Dallas will present a 64-hour music documentary entitled, "The Evolution of Rock: The Music That Made the World Turn Around," beginning October 22 and continuing for three consecutive weekends. Narrated by Chuck Riley, the show will detail Rock history in step by step chronological order, "as seen through the eyes of the youth generation." Sounds like a piece of work!

For the Arkansas Razorbacks vs. Texas Longhorns Big Game, KOTN-Pine Bluff collected over 1,700 names at 25¢ each to send a giant, "Beat Texas," Telegram to the Arkansas football club. But Texas won anyhow.

Earlier this year, KFRC and San Francisco rock impresario Bill Graham asked listeners to help stop several counterfeit ticket rings. Within the past three months, four convictions in two different cases resulted from calls from listeners with leads. Those responsible for the arrests and convictions received \$5,000 in reward money.

In conjunction with the World Series, WLOF-Orlando did a "Running World Series of Rock" in which listeners voted for their favorite groups and artists. It was Chicago vs. Beatles (Chicago won) and Cassidy vs. Eagles (Eagles). Game three (Elvis vs. Peter Frampton) and Game four (Bay City Rollers vs. Fleetwood Mac) haven't been played yet.

It follows that the Star Wars theme is prominent this Halloween--KRY5 and the Corpus Christi Jaycee's have a haunted house in which the new villain is none other than, "Darth Vader." The costume was specially ordered from Hollywood.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

Established Progressive Airplay
(In Order)

Doobie Brothers
Linda Ronstadt

Bob Welch
Hall & Oates
Crosby, Stills & Nash
Chicago

Townshend/Lane
Grateful Dead
Robin Trower
Karla Bonoff
Firefall

Notes: Predictably Linda Ronstadt's LP has taken up a strong leadership position. Less predictable, however, was the immediate acceptance of Bob Welch, again proving the power of the Fleetwood Mac connection. Actually, all of the records we listed in New Progressive Airplay last time have made it into the power rotation that this list implies. Lot's of major LP's have slipped in the last few weeks. Alan Parsons, Yes, Steve Winwood, James Taylor have dropped substantially while Crosby, Stills & Nash, The Dead and Firefall have loosened their grasp on the air. A time of transition.

New Progressive Airplay
(In Order)

Steely Dan
Rolling Stones
Billy Joel

Barclay James Harvest
Randy Newman
Nektar

Notes: Steely Dan is the undisputed leader in the most added category. But the Stones and Billy Joel have harvested powerful acceptance too. The double line implies the size of the gap between Billy and Barclay. Regional notables include Phoebe Snow's strength in the south and west, and Kansas' strong initial showing in the midwest and west.

Singles & Imports:

Singles - Action is led by Santana, Art Garfunkel, Kate Taylor, Carly Simon and Eddie & The Hot Rods, in that order.

Imports - Elvis Costello is the runaway leader. He is followed by the new Gong Live LP and by the Sex Pistols.

The following tracks are filtering into radio air in this order:

Steely Dan-AJA
Steely Dan-DEACON BLUES
Steely Dan-BLACK COW
P.Townshend/R.Lane-MISUNDERSTOOD

Steely Dan-PEG
Robin Trower-SWEET WINE OF LOVE

Nashville Notes From Bill

During the week of October 10-15, Nashville became an extra special bright star in the musical sky, as it does every year at that time. The CMA awards show - 90 minutes on CBS-TV - kicked things off with the smoothest ever production on this annual special. There followed the prestigious BMI and ASCAP awards banquets on Tuesday and Wednesday nights, with Thursday bringing along Billy Sherrill and Jim Fogelsong's annual cocktail receptions and the SESAC awards dinner. The CMA annual banquet at the Municipal Auditorium presented the Johnny Cash show Friday night. The annual Columbia/CBS talent show on Saturday came as an exciting climax to the week.

The Opryland Hotel is well on its way to completion - a \$28 million project that will bring new glamor and comfort to the area. Hats off to Irving Waugh, soon to retire as WSM's president, for his brilliant imagination and courage in conceiving and directing the construction of this exciting entertainment complex.

I "especially liked" my visit with Wesley Rose at the Acuff-Rose headquarters on Franklin Road, and my guided tour with Jack Stapp through the studios and offices of Tree Publishing - world's largest publisher of country music. The CMA Board of Directors, meeting Tuesday morning, presented me with a citation honoring Janet for her services to country music.

Another great week to remember. We're looking forward to the spring seminar and to another exciting Nashville week next fall.

Gary Taylor's Personal Picks

SORRY DOESN'T ALWAYS MAKE IT RIGHT-Gladys Knight and the Pips (Buddah) This quality side has a little of that Memphis feel and a lot of that great voice. I'm not especially fond of the "over the rainbow" touch but I love the rest of it. Hopefully there's room on the radio for her to be heard.

YOU'RE IN MY HEART-Rod Stewart (Warner Bros.) A four and a half minute lyric record may be difficult for programming but it is getting airplay.

Also Possible

UM, UM, UM, UM, UM, UM-Katy Moffatt (Columbia) STILL THE LOVIN' IS FUN-B.J. Thomas (MCA)
IT'S OVER/IT'S OVER (medley)-Gene Pitney(Epic) SOMETIMES WHEN WE TOUCH-Dan Hill (20th)
WHAT'S YOUR NAME, WHAT'S YOUR NUMBER-Andrea DROWNING IN THE SEA OF LOVE-Ringo Starr (Atlantic)
True (Buddah) DON'T LET ME BE MISUNDERSTOOD-Santa Esmeralda
WE'RE GONNA MAKE IT-Electric City (20th) (Casablanca)

Note From Bill

At our Philadelphia regional meeting last May, "Butterball" Tamburo was speaking of his station, WDAS, and of its best known air personality, Georgie Woods. One morning on the air, Georgie said, "What this show needs is more class. Let's hear something by Beethoven." And he played it. For any who don't know, WDAS is a soul station, not classical. Butterball told the story to illustrate his point that Georgie is unpredictable--often does the unexpected--and that this is part of his appeal. Each Arbitron confirms his large following.

I often recall that story and wonder why more program directors and disc jockeys don't make more frequent use of the surprise element. That doesn't necessarily mean interpolating Beethoven into a rock or soul format; there are countless other ways of changing pace. It could be in something said, something played, even a crazy sound effect gimmick. I believe that many radio listeners would welcome occasional touches of the unexpected.

One of the most boring aspects of today's radio--or much of it--is its utter predictability. Program directors refer to the, "consistency of our sound." What they're really saying is that they're locked into a rigid pattern from which they're scared to deviate. Their formula for success has the magic ingredients that have brought top ratings through the years; to dilute the formula would risk disastrous tuneout. Rubbish! If a station's hold on its audience is so tenuous that it can't be different once in a while, then it has failed to build the kind of public image that assures good listening. As Emerson said, "A foolish consistency is the hobgoblin of little minds."

Let's face it: this is the day of the format--computerized research, controlled frequency of record rotation, hot clocks and mathematics. Some call this a scientific approach. Not so. Science is based on experiments, with the expectation that many will fail. Science explores the unknown which is quite opposite from radio as we know it. In many cities top 40 radio on AM is fighting a losing battle against audience encroachments by FM competitors, yet the AM's continue to follow the same old formats and rules that used to work so well. One wonders why the constant erosion of audience shares has failed to motivate new directions in programming. The history of radio amply demonstrates that good ideas are not eternal. Programming concepts that once were winners later lost their effectiveness. Great individual disc jockeys like Bill Randall, Martin Block and Ed McKenzie were pushed out by the collective impact of the top 40 format. Traditional top 40 gave way to new concepts by Bill Drake and Ron Jacobs. Along came a brilliant radio engineer by the name of Schulke, who contrived a beautiful music format that captured incredible, older audience shares for FM stations. There was a time when rock stations would send their Program directors to Los Angeles to tape KHJ so that they could copy the format. Today, stations with problems are apt to retain consultants--formerly successful program directors or managers like Kent Burkhart, George Burns, Lee Abrams, Jack McCoy or Mike Joseph.

And so, times change. Radio changes. What about the future? Looking in my crystal ball, here's what I foresee developing during the next decade: (1) An explosive expansion in radio's use of computer technology as a means of interpreting a vastly increased volume of research data; (2) With the almost total disappearance of 45 R.P.M. singles sales data, a steadily increasing reliance on call-out research, where improved techniques will pin-point critical demographic preferences and attitudes; (3) Greater depth analysis of diary-derived research data, providing new insights into listening patterns in various demographic groups; (4) The growth of FM radio-listening in factories and office buildings, plus the greatly increased number of women in the labor force, will end the traditional concept of mid-days as "housewife time" and will discourage current practices of "day parting"; (5) Continued erosion of the AM audience will compel AM broadcasters to reduce their commercial spot load and to be content with a smaller profit margin; (6) The perfection of AM stereo will reverse the present listener migration to FM signals; (7) A more human involvement of the newscasters with their stories may replace the impersonal styles now in vogue.

THE GAVIN REPORT #1175
WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: WE'RE ALL ALONE-Rita Coolidge (A&M) She has her second hit in less than four months.

Aerosmith

Sleeper of the Week: I GO CRAZY-Paul Davis (Bang) Active since July, it's been top ten in the South and in parts of the mountain states. Charts at Z93 (3), KRBE (12) and KILT (18 from 23) further indicate strong hit potential.

Hot: DAYBREAK-Barry Manilow (Arista) Artist familiarity has stimulated a broad and positive acceptance. Top 15 in airplay with 92 out of 120 correspondents charting it.

Top Tip: SENTIMENTAL LADY-Bob Welch (Capitol) Positive call-outs (mostly males), good sales, good requests. The makings of a hit record.

Records to Watch: HERE YOU COME AGAIN-Dolly Parton (RCA)
HEAVEN'S JUST A SIN AWAY-Kendalls (Ovation)

Of the two, Dolly appears to be crossing over (see Page 8); the Kendalls shows strength in the Midwest and is getting airplay in the South.

Inside Progressive Radio
(by George Meier, Editor of Walrus)

Album Views

The singer-songwriters rise to the top of this week's pile of new releases. Tom Waits, Alan Price, Randy Newman and Phoebe Snow all gather attention by being overly talented and by presenting that talent in a most unique way. This emphasizes the point that to sound like another artist places you at the low end even if you are good.

Anyhow, Waits approaches true art in the popular music idiom because his poetry is significant with or without his beat generation stance.

Randy Newman's perspective on the world, not his non-singing voice, makes him special, while it is Phoebe Snow's distinctive vocalizing, and not her writing, which makes her so special. Then there is Alan Price, whose career is afloat while his talent is enormous. A fine singer, a superfine writer and funky keyboard player, he does it all. Maybe after his proposed fall tour of the U.S., he'll burst into prominence.

Just to break the string there is a Kansas LP which promises big things due to its flashy presentation of good material.

Two ideas present themselves as a result of recent listening. One has to do with Richard Perry's formula production. A Leo Sayer LP and a Diana Ross LP both got his treatment. The point is that, as successful as he is and as good as his work sounds, it all pretty much sounds the same. He represents a school of production thought which requires artists to adjust to the producer. That school is an anti-art force.

The second notion which comes to mind is that punk rock is going to live or die on its songs just as is the case for every musical genre. The outrage of adults or established music authority will have little effect on the new wave. For example, listen to "Blank Generation" by Richard Hell & The Voidoids; it says something important. And listen to "Emergency" by The Motors, it is a great song by any standard.

Gavin's Gab

Michael Spears continues to fine tune KHJ. Last Sunday he pulled all their spots from 6 AM to 12 midnight for the first time ever on KHJ. He's doing it again this Sunday. According to Michael, "If you miss a day at KHJ, you're going to miss something."

The World Series spawned yet another great promotion--this one between WNBC-New York and 10Q-Los Angeles. The unusual part is, WNBC's Ellie Dylan won a wheel barrow ride down Los Angeles' Sunset Blvd. from 10Q's Johnny Driscoll. Ellie's a tiny lady at five feet, 80 lbs., so Johnny only suffered from embarrassment...

KSJO-San Jose continues its super-activity in the San Francisco Bay Area concert scene with announcer Sheila Rene's "Livewire" Show coming from backstage at recent sell-out performances by the Doobie Bros./Pablo Cruise and Crosby, Stills and Nash. "Livewire" will cover a Santana concert on October 29th also.

King Broadcasting (KING, KREM, KGW) officially took over KYA-AM/FM in San Francisco on October 26. As yet, they're uncertain about a call-letter change. General Manager Jim Kime, and Program Director Alan Mason, were together at KGW and KING. Joining Jim and Alan will be Citizen Bill, ex-KING-morning man, and Joe Michaels, ex-KYTE-Portland. Gary Taylor hired Joe at KJRB-Spokane when Joe was still in high school, incidentally. Pat Evans from WDRQ-Detroit will do music research. Alan is looking for a news director. Those interested can contact him at One Nob Hill Circle, San Francisco, 94108.

Rick Cavalla of KFXM-San Bernardino tells us they are ecstatic about their ratings, "the highest in 15 years." The station celebrated October 22 with an open, on-air party, entertaining from 500-700 listeners at the station. No trouble experienced, just a good time.

A long-time friend, Red Robinson, who does mornings at CKWX-Vancouver, B.C., has an album out that covers his 1957 interview with Elvis Presley, prior to a concert. For those stations doing an Elvis special or for fans and collectors, the album offers a fascinating, non-musical insight into Elvis. It's called, "The Elvis Tapes," and is on Great American Music distributed by GRT. Congratulations to Papa Rick St. Clair (P.D. at KYJC-Medford) and wife, Cindy, on their new son, Douglas John, who weighs 8 pounds, 1 oz.

KRLC-Lewiston is running a series of old radio mysteries Halloween night including "Inner Sanctum" and "Lights Out," from 8pm to 4am.

Correction: Last week on Page 8 we listed a gain at KHJ under Steve Miller's SWINGTOWN, when it should have been 16 to 11 for JUNGLE LOVE. Wrong cut.

Albums of the Week
(reviewed by Ron Fell)

"Out Of The Blue"-Electric Light Orchestra (Jet/United Artists) A two record set of 17 Jeff Lynne songs, conceived in Switzerland and recorded at Musicians in Germany with more of the distinctive ELO vocals sliding smoothly over Stradivarian-based arrangements. TURN TO STONE, ACROSS THE BORDER, JUNGLE, STANDIN' IN THE RAIN and MR. BLUE SKY are most impressive.

"Heroes"-David Bowie (RCA) Bowie's a leader, not a follower, and can be counted upon to find new ways of doing things with music. On "Heroes" his vocals are husky companion to the cerebral synthesizer arrangements of Eno. BEAUTY AND THE BEAST, HEROES, BLACKOUT and the instrumental V-2 SCHNEIDER are heroic in proportion, yet accessible to programming in the ever broadening rock spectrum.

"Melodies"-Jan Hammer Group (Nemperor) One of those "must listen" albums that could, but should not be, overlooked. While so many writers are still trying to rhyme "rain" and "pain", people like Hammer, Kindler, Reich, Smith and Saunders are finding ways of capsulizing contemporary jazz in tasteful, bite-size, musical snacks. TOO MUCH TO LOSE (2:47), HONEY 5379 (2:37), DON'T YOU KNOW (2:58), and HYPERSPACE (3:43) have got to be heard.

"Aimin' To Please"-Mary Kay Place (Columbia) Her role as Loretta Haggars on "Mary Hartman, Mary Hartman" was a convenient vehicle from which to launch her singing career, but she proves on this, her second album, that she is no media "Flash-in-the-pan". With inspiring production once again from Brian Ahern, Miss Loretta hits the target on cuts like; YOU CAN'T GO TO HEAVEN, EVEN COWGIRLS GET THE BLUES, SAVE THE LAST DANCE FOR ME and SOMETHING TO BRAG ABOUT (with Willie Nelson).

Gary Taylor's Personal Picks

- THE RUNAWAY-Danny O'Keefe (Warner Bros.) This type of poetry requires more than one listen to be fully appreciated, and the intro requires an edit to be aired.
- ALL I THINK ABOUT IS YOU-Nilsson (RCA) The melody of the week. Harry sounds as good as he did singing WITHOUT YOU, and he still has a knack for creating that "dark, alone, corner of the room" mood.
- SHORT PEOPLE-Randy Newman (Warner Bros.) Randy Newman's "tribute" to those of us who are always the last to know it's raining.
- RUN AROUND SUE-Leif Garrett (Atlantic) Bill Tanner tells us that one day's play at Y100 resulted in instant number one requests.

Comment

For the first time ever on our "Recommended Playlist," the top five positions are held by female artists. Several of our correspondents feel that it is a reflection of actual listener tastes as opposed to the singles buying habits of a select few.

As radio continues to fine tune its research, programmers are finding that certain types of records seem to receive an almost total acceptance by the demographic group the station is trying to reach.

In the case of these five artists, four are strong in call outs, the exception being Donna Summer who is passively negative yet strong in sales. This type of information illustrates the complexities today's program directors face in deciding just what their listeners will like best. Those complexities will increase as time goes on.

On The Record

From time to time we hear stories about stations that have charted - and reported - records that they are not playing. These tales imply that such actions occur as a favor to some promotion person. Taken singly, these phony listings may seem relatively harmless, but grouped together on any certain record they can create a misleading picture of that record's potential.

Station reports have become the prime source of the information from which the national trade charts are derived. The rock explosion of the 50's made retail record sales a reliable top 40 barometer, both on the local and national level. The continued shrinkage of singles sales during the past five or six years has made the sales yardstick progressively less reliable, and the national trades have turned more and more to key radio stations for their local evaluations of comparative record popularity. Obviously, any misrepresentation of this information would prejudice the accuracy of the total result, while the cumulative effect of a large number of false reports would be to inflate a record's popularity rating far higher than it deserved.

Since its beginning The Gavin Report has relied exclusively on information from its radio station correspondents. We are proud to have pioneered this concept of radio sources for chart information. Through the years, the diligence and loyalty of our reporters have made possible the reliability of the information that we have presented each week. Our correspondents have respected our standards of accuracy and integrity and have co-operated in maintaining them. Needless to say, any correspondent positively identified as deliberately submitting a false report to us would be disqualified from further reporting. We don't think that this is likely to happen. We have always asked, however, that our correspondents keep us fully informed of any undue promotional pressures aimed at persuading them to "report it to Gavin".

There are, of course, occasions when a programmer might chart a record in response to actual sales or requests in his market and yet refuse to program it because it didn't fit the station's policy. In such cases our correspondents are expected to identify any charted record that they consider unacceptable for airplay.

We are proud of this publication's reputation for integrity and accuracy. This has been made possible by the co-operation of our radio correspondents. Jointly we share a responsibility to all our readers for unbiased reporting. We intend to keep it that way.
