### ELECTION DAY

In Odessa, Texas, KRIG stationed its van in front of various polling places throughout the day, inviting voters to come in and vote for their favorite records. At one location the crowd got so big that it caused a traffic jam and attracted local TV coverage.

## P.D. Notebook

(by Eric Norberg, KEX-Portland)

Some interesting quotes came out of the Oregon Association of Broadcasters meeting November 2 in Portland.

Panelist John Sebastian, KHJ Program Director and a Portland native, commented that he has often been criticised for the importance he places on listener research, but he still ranks air personalities at least even with the music as the most important single element on a station. "Personality can make you or break you in the success of your radio station." He added that he favors a "warm and relatable conversational approach," but that it has to be presented in a very brief fashion because of the demands of his target demographic - 12 to 24. He said he hopes he eventually will be in the position of expanding his target upward somewhat. John, incidentally, believes in pre-programming his music, and spends two hours a day pre-programming every record heard on the station.

Another panelist at the O.A.B. meeting was Ron Norwood, Program Director of KMPS, Seattle, a prominent AM/FM country music operation. Ron spoke with some animation on the conflict in country music radio between the traditionalist and modernist points of view - and he aligns himself firmly with the latter. He said "the top 40 stations don't play Bill Haley anymore, and there's no reason for me to play Hank Williams anymore, and I don't." He does emphatically agree with calling his station a "country music" station on the air, although he views KMPS as being an adult music station that happens to play country music. In line with this, he states "I will play anything with a slight country flavor to get audience." The key there, of course, is that you don't get audience if the audience does not accept the music - so he isn't inferring that he would bastardize his music beyond the range of acceptability to his audience. Nonetheless he clearly has no qualms about the current trend in country music to build in pop acceptance as country records are arranged and produced.

Former FCC Commissioner Robert Wells is highly critical of currently proposed rewrites of the Communications Act. He's cynical about the teasing approach in which broadcasters are offered longer license terms and an end to many regulations, in exchange for concessions increasing license fees and so forth. He seems to feel the inducements would disappear leaving only the concessions, by the time a bill is enacted, and he warns that even if unlimited license terms were granted, there would be regular "performance updates" requested of licensees. He's also critical of broadcasters who weaken the industry's position by supporting government intervention when it is in their own interest to do so (the AM/FM all-channel bill, for example), while challenging unfavorable legislation on constitutional grounds. Of such broadcasters, and of the legislators hoping to revamp the Communications Act, Wells concluded with the provocative question: "Is freedom negotiable?"

### HELPING HANDS

A northern Wisconsin family suffered double tragedy when the father was injured by his chain saw and then their home burned down while the family was visiting the hospital. In Duluth, when WEBC's Scott Carpenter heard about the family's plight, he began a spontaneous radiothon to obtain help for the stricken family. Contributions of all kinds came in from as far as 100 miles away. A thirteen year old girl broke into her piggy bank and gave the money it contained. Duluth's morning newspaper next day headlines the story, with full credit to WEBC. That's togetherness!

### PRIZE TRIPS

WSMM/FM-Sault Ste. Marie is planning its FM99 Christmas giveaway, in which there'll be two grand prizes - a trip to Las Vegas and a trip to Orlando, Fla.

## On The Record

We have been sent a copy of a memo from the California Broadcasters Association, directing its members' attention to the possibility that the FCC would require stations to maintain public lists, ranking their employees according to salary. Such a recommendation was made by the Broadcast Bureau, and the commissioners voted to adopt it "in principle". Such a rule still requires formal action by the Commission, but the "adopt in principle" vote strongly indicates its prevailing attitude.

Many broadcasters consider such a rule as an invasion of privacy and a threat to personnel harmony and morale. One broadcaster points out that competitors might use such lists to "raid" employees from other stations.

The CBA urges its members to contact their congressmen and/or FCC chairman Charles Ferris, expressing opposition to such an action.

While this publication is hardly in a position to take sides on such an issue, we would welcome comments on the subject from our readers.

## Albums of the Week

### Reviewed by Ron Fell

"You Don't Bring Me Flowers"-Neil Diamond (Columbia) In an otherwise pretty vacant week, like this week, a new Neil Diamond album sounds especially good. Most of the airplay is tilted towards side one which is topped off with the now famous Barbra & Neil duet. Since Diamond couldn't find space in the liner notes to thank Gary Guthrie of WAKY in Louisville for the idea of combining the Barbra & Neil versions of YOU DON'T BRING ME FLOWERS, we'd like to say "Thanx Gary". THE AMERICAN POPULAR SONG, FOREVER IN BLUE JEANS, YOU'VE GOT YOUR TROUBLES, MEMPHIS FLYER, DIAMOND GIRLS, YOU DON'T BRING ME FLOWERS.

### Recommended from the following LP's:

"Love Tracks"-Gloria Gaynor (Polydor) STOPLIGHT/ANYBODY WANNA PARTY?/PLEASE, BE THERE/SUBSTITUTE  
 "Step In To Our Life"-Roy Ayers & Wayne Henderson (Polydor) HEAT OF THE BEAT/FOR REAL/GIVE IT TO ME  
 "Love Vibrations"-Joe Simon (Spring) LOVE VIBRATION/GOING THROUGH THESE CHANGES  
 "Take A Look At Those Cakes"-James Brown (Polydor) SOMEONE/SPRING  
 "Systems of Romance"-Ultravox (Antilles) I CAN'T STAY LONG/QUIET MAN/DISLOCATION  
 "Duck Fever"-James Montgomery (Waterhouse) WORKING ON A LOVE AFFAIR/WHO'LL BE THE NEXT IN LINE?/NEW ENGLAND SUNSHINE

## Gary Taylor's Personal Picks

DANCIN' SHOES-Nigel Olsson (Bang)/Faith Band (Village)

The original was written and sung by Faith Band member Carl Storie; The Nigel Olsson version was produced by Paul Davis. Both are very good; however, I prefer Nigel's. His version is compressed, tighter and vocally stronger, possibly because of experience in producing records.

## Regional Meeting

Our final regional meeting of 1978 was like frosting on the cake. We got together Saturday (18th) in Honolulu at the beautiful Kahala Hilton. It was good to greet several old friends from the mainland who are now doing great things in Hawaiian radio - Pat O'Day, (Owner of KORL), Earl McDaniel (Manager of K59) and Bernie Armstrong (PD of KGU) - and to meet many other Hawaii broadcasters. Several radio people from the mainland also took advantage of this opportunity to visit the "Paradise of the Pacific", including Dave Sholin (RKO Radio), Michael O'Brien (KPAM-Portland), Gary Cummings (KRPL-Moscow), Rob Walker (FM/KVI-Seattle), Bob Hamilton (KRTH/FM-Los Angeles) and Rick Carroll (ex-PD-KEZY-Anaheim.) Among the music people attending were Bob Greenberg, Barry Freeman, Margo Knesz, John Barbis, Steve Feldman, David Foreman, Sondra Hill, and Shelly Siegal.

For the first time in a regional meeting we got heavily into the disco trend and its impact on programming. Also explored were the PD's relationships with other departments - engineering, sales and management. During the afternoon session, Jack McCoy led a fascinating discussion of audience measurement and music research.

We enjoyed a delicious buffet lunch and wound things up with cocktails and "pu pu's" under the palm trees and the Hawaiian moon.
