Comment

As some of the advances came out this week, early analysis would confirm an exceptionally healthy picture for Top 40 outlets. Certainly there's a lot more to a winning station than just music, but the current availability of excellent pop product is an added plus. It's also interesting to track the playlists of some successful stations and note how well they program for their market. Being able to spot those certain records that aren't, quote "national" hits, and playing them in the place of less locally important items is common among many of the winners. If you love statistics, check this one out. The Police "Every Breath..." became the most added record in Gavin Report history on May 27th, with 167 adds and 171 total reports. Those exact figures were repeated this week by the McCartney/Jackson single. In addition, that same week, May 27th, was the first time two records picked up more than 100 adds. That also happened again, as John Cougar Mellencamp pulls in 110 new stations. Even with those two blockbusters, ten new entries join Correspondents' Consensus Picks. Huey Lewis & The News showing the same kind of initial reaction as their first big hit "Do You Believe In Love". Good growth in airplay for Jackson Browne, Benatar, Eurythmics and Sembello.

Analysis

The two duets are gonna put the move on Spandau Ballet next week. Lots of movement into and out of the teens, as the leaves fall from the trees. Manhattan Transfer should be top five soon and should be followed by the brilliant 4 Seasons parody by Billy Joel, UPTOWN GIRL. For the first time in a long, long time, I think every record in Action Sides can chart. (Not all will, of course!) The McCartney/Jackson single will chart next as one of four probable charting records.

Dropped: J. Warnes, R. Milsap, Kinks, Crosby Stills & Nash.

Analysis

Our first chart from our new offices. As Jackson Browne sings, we're "Downtown" (or was it Petula Clark). Anyway, a good 50% of the 33 1/3 chart is underlined with lots of "bubbling unders." No underlines outside of X on the AA chart. Too volatile to predict.

Recommended Listening

"Just A Job To Do"/"Home By The Sea"/"Illegal Alien"/"That's"-GENESIS (Atlantic) Like true working men, Genesis' productivity increases. As long as the consistency persists, Genesis will continue to reap the rewards that huge airplay brings. All four recommended trax blow smoke rings around their current single "Mama." Top Ten in two weeks is my bet.

"U.S. Forces"/"Power And The Passion"/"Read About It"-MIDNIGHT OIL (Columbia) Fair warning...Midnight Oil is not another "hot-at-home" Australian band playing raunch and roll or blue collar dance rock. Significantly produced in London by Nick Launay (PIL, Kate Bush, Birthday Party) 10-9-8-7-6-5-4-3-2-1 is an alchemical mix of brash politics, hard rock, ballad, and ingenious engineering. The more you know about MO, the more you're prepared for the unique liberties they've taken by bucking the established powers-that-be inside the music business. So far it's been on their terms or not at all. The three trax above are only a starting point. Read up on these guys, please. Ask for the press sheet.

"68 Guns"/"Thoughts of A Young Man"-THE ALARM (I.R.S.-import) Lookout! Here's a brand new import single from a future force in rock 'n' roll. The Alarm, since opening for U2 and headlining on the club circuit, have built up an enviable audience base amongst the hard-to-please. Rather than colliding the hard to please. Rather than colliding with their current U.S. release, this import single exemplifies their strong potential. A little dramatic but still worth sounding the Alarm about.

"Keep On Moving"/"Please Don't Make Me Cry"/"Red Red Wine"-UB40 (A&M) The only U.K. act strong enough to knock Paul Young out of the number one slot first week out is UB40. Not since The Police has reggae been so attractively incorporated into a believable rock mold. Though strictly a reggae band (make no mistake), fundamentals of expert recording keeps UB40 from the constraints of traditional reggae dryness. Void of political and religious meandering, UB40 takes elements of dub and bluebeat and makes a clean sounding LP utilizing instruments and arrangements not usually indigenous to reggae.

"Break These Chains"/"Over The Line"/"Hey Little Girl"-ICEHOUSE (Chrysalis) A five song update, including "Hey Little Girl" off the last LP. This combination new single and re-release EP only reminds us how incredibly overlooked Icehouse has been in this country. Part of the fault has been Iva Davies' leanings toward solitary eclecticism. Thus, this EP emphasizes Icehouse's harder side. No dancing allowed. "Break These Chains" and "Over The Line" are previously unreleased.

"You"-THE RADS (EMI) A little catch-up ball on this one. The Rads come from Australia and their first U.S. release is a four song EP of heady hard rock. I never knew Fess Parker could play guitar so well underneath that coon-skin cap. Wild cover.

P. D. Notebook

(Reprinted by permission of Eric Norberg, Consolidated Communications Consultants, 5125 Briggs Avenue, La Crescenta, CA 91214)

I've been asked how I feel about the use of the client's voice on a commercial. As with any production technique, it can make the station boring and reduce the effectiveness of the spots, if it's overused. Otherwise, it has several things going for it.

One of the most important things it has going for it is that most clients like to hear themselves on the radio...particularly when they sound "professional." (Not necessarily like a professional announcer, but like they are properly part of a professionally-produced commercial.) Thoughtful editing and equalization is necessary. Of course, the spot must be written and produced to get a selling message across, or the strategy can backfire...if the spot doesn't work, the client is not going to consider himself to blame, so the fault must be that of the station! Well done, though, it can get and keep your business.

The process should not be encouraged unless you feel that the client would make a good spokesperson, and then suggest the spot be built up from an interview. Spots in which the advertiser actually acts as his or her own announcer usually don't work too well because of the ego and unprofessionalism of the client; it doesn't sound sincere.

The best spots incorporating the client's voice are generally those in which the client has a genuine enthusiasm for what they do...and this communicates in their voice. It can work for any kind of business, though services in which the "intangibles" make the difference (such as restaurants) benefit the most. Sift through the tape for the key points, edit to highlight them (and delete the "uh"s and parathetical comments), and try to highlight just one point per spot. In addition to equalization, you may have to add compression to the tape because of the tendency of nonprofessionals to swallow their words and have considerable volume differences in their speech. (This is especially necessary if you are adding music, since the music is already compressed, and the clarity of the speech will suffer considerably as parts of syllables will vanish into the music.)

When doing the original interview, do it in a comfortable setting for them, make sure all background music is turned off, and try to tape in a relatively quiet location. Mike the client closely, and if necessary keep taking them over the same ground until they forget there's a tape rolling and start getting enthusiastic about the subject. You may have to lead them by getting visibly excited yourself. They must sound spontaneous and enthusiastic or the spot will be deadly. It's always advisable to have spoken with them about their business before making any suggestion that they talk about their business on a spot, so you can gauge if they will make a good subject or not.

Master and save any spots the client likes. They may like them enough to want to reuse them at a later date, and you can never do the same spot twice!

Dave Sholin's Personal Picks

SCATTERLINGS OF AFRICA-Juluka (Warner Bros.) Back on May 27 I wrote about this record which went on to get lost in the shuffle. It's been re-released and shouldn't be overlooked.

Here's what was said the first time around... "For those searching out an unusual record... this is it! Juluka (pronounced JUH-LOO-KAH), is actually a racially mixed group from South Africa, whose music might be described as tribal/pop. Lyrics are a bit hard to decipher (nothing unusual about that) with a chant-like chorus that's a super hook. I understand the video is exceptional. Kinda like Men At Work from the land down over."

WHY ME-Irene Cara (Network/Geffen) Outstanding from start to finish with an extra measure of intensity that's sure to please programmers and the public. Giorgio Moroder's track is perfectly in tune with the vocal skills of one of the true "stars" of contemporary music.

SOULS-Rick Springfield (RCA) A remarkable track record the last few years testifies to his talent as singer/songwriter. Here's another hook that, like earlier hits, is sure to catch the widest spectrum of top forties audience.

Other Recommended New Releases

THE WAY HE MAKES ME FEEL-Barbra Streisand (Columbia)

NO ONE CAN LOVE YOU MORE THAN ME-Melissa Manchester (Arista)

THE PASSION OF LOVE-Boys Brigade (Capitol)

THE STAND-The Alarm (I.R.S.)

THE SMILE HAS LEFT YOUR EYES-Asia (Geffen)

Ron Fell's Albums of the Week

"In A Special Way"-DE BARGE (Gordy) In a family kind of way, the DeBarges are in the process of filling the bronzed baby shoes of the Jackson family at Motown. Great expectations are held for this obviously talented set of siblings. Brother Eldra in his roll as producer and quite often as lead singer, leads a tight ship - one which demands precision in all vocals. As a unit, the kids are prepped as a visually as well as aurally pleasing band. If they can maintain the kind of quality shown so far on vinyl, DeBarge will be around for a long time. TIME WILL REVEAL, BABY WON'TCHA COME QUICK, QUEEN OF MY HEART, BE MY LADY, LOVE ME IN A SPECIAL WAY.

"It's About Time"-JOHN DENVER (RCA) It would be so easy for a singer with his technical excellence to choose songs with marshmallow lyric and Muzak melodies. But J.D. uses the medium to extoll the virtues of the Human Potential movement and the inspiration of natural feelings and relationships. Void of humor and an edge to the music, "It's About Time" comes across as a little preachy and a little limp on the surface, but still waters run deep and you won't find the big fish in a trout farm. HOLD ON TIGHTLY, THOUGHT OF YOU, WORLD GAME (with Rita Marley and The Wailers!), ON THE WINGS OF A DREAM, WILD MONTANA SKIES.
