ONE TIME, ONE NIGHT

(Hidalgo/Perez)

A wise man was telling stories to me
About the places he had been to
And the things that he had seen

A quiet voice is singing something to me
An age old song about the home of the brave
In this land here of the free
One time one night in America

The guy that lived next door in # 305
Took the kids to the park and disappeared
About half past nine
Who will ever know
How much she loved them so
That dark night alone in America

Four small boys playing ball in a parking lot
A preacher, a teacher, and the other became a cop
A car skidded into the rain
Making the last little one a saint
One more light goes out in America

People having so much faith
Die too soon while all the rest come late
We write a song that no one sings
On a cold black stone
Where a lasting peace will finally bring

The sunlight plays upon my windowpane
I wake up to a world that's still the same
My father said to be strong
And that a good man could never do wrong
In a dream I had last night in America

Robert Plant, "Now And Zen", EsParanza/Atlantic....Great gains for the single continue--with a sizzling 4-1 Hard Hundred advance, replete with one of the week's strongest 24 play increases, 35 powerplay mentions and an ever higher 62 station request roll call. This is a major musical event, no doubt--with the album set to trigger an even bigger airplay and phone explosion. In terms of demographic and psychographic depth, Robert and Pink Floyd would have to rule--and one listen will assure you this is easily a number one album in about as many weeks. In terms of tracks, expect those signature screams at the tail end of "Tall Cool One" to melt phones on the first play, with "Ship Of Fools" and "The Way I Feel" also highly recommended....

Peter Himmelman, "I Feel Young Today", Island....We were out a little early on last week's New Play Priority, so this time around we're happy to hit our man Pete with the old ticket upgrade. "Waning Moon" has hung in there with the best of them, and this new tune is already on the move at the likes of WKQQ, WMAD, WXXP, KBCO, KRXQ, WBRU, WDHA, WKLC and several more. The second Hardest Working Man in show biz (next to Andy Allen), Peter has already done low-dough shows for stations like WNEW, WPYX, WPDH, CFNY, WMAD, WXRT and KSHE, with performances scheduled in the next couple of weeks at WEGR, KY102, WRIF and KBCO to name a few. New at #98--all that before the official 12" arrival date....

NEW THIS WEEK

Pat McLaughlin, "Wrong Number", Capitol....Any fan of easy rolling blues is going to love this song, and any student of players and producers will be equally intrigued. Producer Mitchell Froom (Crowded House, Del Fuegos, Los Lobos) hooked up with Pat after catching his live show, and went on to surround his whiskey and cigarettes (low tar) voice with the likes of Billy (Dave Edmunds) Bremner, Jim Keltner, David Lindley and Norton Buffalo. You've done well with Robert Cray and God knows Eric Clapton (personally) is a format fixture--and when it comes to older women you can't beat a good cheatin' song....

Nick Lowe, "Lovers Jamboree", Columbia....Screw th4# numbers. Every once in a while you've simply got to make room for music that's fun and topical. Nick's got lots of fans--most of them 25 + --and they'd get a kick out hearing you slip this ditty in there somewhere. And you know they'll go to the stores and get it. As usual, Paul Carrack's keyboards and penmanship are appreciated and at the very least the end result makes for great living room rotation....

James Taylor, "Never Die Young", Columbia....Check with your local Columbia person--or check your store reports--and you'll find that ole JT has what looks like it will be a bona fide retail monster. The record is gobbling up 40 and 50 point Billboard jumps, and we fully expect that consumer demand to translate into at least two blockbuster Midwest adds next week. Already on WOUR, WDHA, KBCO, WPYX, WLAV, WBAB, KRNA, KMOD, KVRE and half a dozen more--good for a 97* debut. What's more--the tune's the goods....

HARD ACTS TO FOLLOW

10,000 Maniacs, "Like The Weather", Elektra....Far too many interesting new bands are moving through the New/Alternative to CHR pipeline without a ripple of rock radio attention. In the case of this band's initial offering "Peace Train" I'd say benign neglect was the proper response, but this time the combination of topicality and female appeal would seem to merit a little more attention. Between raves in the LA Times, Music Week, New Musical Express--and tons of retail comments--keep an eye on this track. Catch Natalie Merchant on the road with Squeeze--you'll be all the more impressed....

Mama's Boys, "Higher Ground", Jive/RCA....Yo mama, methinks these guys might well be the ultimate semi-undiscovered cover band. Remember all the fur that flew when they had that exciting battle with Quiet Riot over "We're All Crazee Now"? Actually, they've released some credible stuff since then, but have never really hit it chart wise. Now say hello to their second great cover, that of the Stevie Wonder classic. Hey, remember when AOR used to play this song? One play thru the floor got me off my butt and down the stairs--and while this version is slightly more glitzy than it needs to be (especially that loungey keyboard break), there's no denying that it's a fun track. Besides, you can't lose with A) New songs from old groups, or B) classic songs from New groups....

Guadalcanal Diary, "Get Over It", Elektra....This Don Dixon produced album has merited consistent cranking around our shop, and every time "Get Over It" comes up we wonder why it didn't follow "Litany"'s solid plus play profile. But as they say in New York and Atlanta, life goes on, so get over it, y'all. If knowing who's going to happen next is your forte, you already know all about his act. Now that they've got a track with tons of snap and vitality, get into it. Remember, it's your civic duty to do your part in terms of our format's renewable resource of fresh, exciting talent--and these guys are right on the verge....

RECORD OF THE WEEK

Balaam & the Angel, "I Love The Things You Do To Me", Virgin....Now, I heard the Cult's "Love Removal" on first listen, and I was amazed that so many programmers had to be convinced. Considering the similarity in the sound and soon to be breaking pattern on Balaam, I wonder how I missed this one on the first few passes. Fact is, we're talking massive pop hooks surfing on a perfect crest of controlled distortion--sort of the inverse of the old iron fist in a velvet glove--this suckah truly takes over if you let it. As **KFMF's Marty Griffin** says, "I realize it's only February, but they get the 'turnaround of the year' award".... Talk about an image change--and a hit. Between many, many comments like **Marty's** and 16 adds on a week when a lot of music just maintained, this one's getting ready to explode....

Los Lobos, "One Time, One Night", Slash/WB....I've always thought this was the classic-in-waiting from the album, and have patiently waited for WB to slot it into priority status. When I checked around for early radio awareness and enthusiasm, I was amazed at how many programmers seemed dumbfounded at how long the album has been out. So what? Now, thanks to "La Bamba", 80% of the free world knows who they are, and 14 months ago they were just a band trying to have a hit. The way we see it, now that they're a household name, that rock remix is coming to you right in the nick of time....

The Smithereens, "Live", Restless/Enigma....The upcoming Smithereens' album will totally devastate you. They've always been great (as this live CD will at once attest), but the new album will truly separate your head from your body. Sneak a listen to "Only A Memory" courtesy of your Capitol rep and we guarantee you'll want to do whatever you can to heighten anticipation. That's where this fine collection comes in. "Blood And Roses" and "Behind the Wall Of Sleep" work well live, and trust us--you'd be wise to use this tool to tease your listeners for what's to come....

Treat Her Right, "I Think She Likes Me", RCA....I love it when white guys sing the blues. Especially when it's funny and smacks of potential violence. Hey, it's no wonder the dude pulled a piece, that lead singer guy was tryin' to make time with his old lady, right? You've heard the story before, this harmonica powered cast of slide guitar characters really brings the scenario to life, and you know this number will stand out on the airwaves. We really think this record will get reaction, and they have the kind of gritty appeal that's exclusively rock radio....

Zodiac Mindwarp & The Love Reaction, "Prime Mover", Vertigo/Polygram.... As the title, artwork and texture suggest, this is music not for the faint of heart. I think **WKNH's** Jon Johnson see it best, "Any guy who spent his initial advance on Jack Daniels and comic books has to be great".... **KRZQ's** Dick Sheetz told us, "If you play any metal at all, this one's for you. Put it in. They're not really more a metal band, more of a mainstream rock band with a more metal sounding vocalist".... From where I sit, this sounds like Dr. John in a really raggy mood--but any way you slice and dice it, their European success and Rod Smallwood management is not to be ignored. #3 Most Added in the Metal section, debut 31* on the Hard Hitters chart....

Colortone, "Look Inside Ourselves", Pasha/Epic.... Rounding out what has turned out to be one of this publication's most diverse slate of Front Page records, here's another mention for one that apparently shipped a little late. As we said last week, the return to Psychedelia is cropping up in every corner of the entertainment world, and it's about time you whipped the vinyl equivalent of a little Mr. Natural on your signal. Who knows what havoc this multi-textured little time capsule will have on your audience--but it's bound to cause talk. Just hope those unsuspecting listeners aren't driving a car or operating heavy machinery....

IMPACT TRACKS

Henry Lee Summer, "I Wish I Had A Girl", CBS Assoc.... Play increases are a major indicator at any stage of a track's development--but when a tune turns in 21 after only three weeks on the street that's a serious sign the record is totally for real. Henry's got 23 more adds, 142 stations to date, and a healthy request build--including Top 5 status at **WKQQ**, **WZZQ**, **WBYR**, **WIMZ**, **WKGR** and **WKRR**. **KEZE's** Curt Cartier feels "This one expresses the thoughts of most Spokane males, especially the partners in crime in our Air Force. No B.S., just straight ahead American roots rock and roll".... **KWLN's** Robert Harder reports, "He's been racking up big response with our younger males".... From **WONE's** Mike Michelli, "He's the fastest mover here, going from light to medium to heavy in a matter of three weeks".... **Joe Blood** adds, "It just jumps off the CD and has a real Bryan Adams feel to it that works for the audience".... Up 24-14* on the Hard Hundred....

Midnight Oil, "Beds Are Burning", Columbia.... Why is it working so well? **WMAD's** Paul Marszalek knows. "There's more than one hook there".... **WMAD** already reports #2 phones, and it's also a top 5 item at **WHTG**, **CHEZ**, **KJET**, **WDRE**, **WXXP**, **WBRU**, and **WEQX**. **KFMF's** Marty Griffin says, "Beds' is both quirky and catchy".... From **Karen Small** at **WGIR**, "We've never played Midnight Oil before but this has to be one of their most accessible hooks".... New on 16 (including **WMMR**, **WKRR**, **KFMQ**, **KQDS**, **WRXK**, **WKFM**, **KLOL**, and **KLAQ**). Heavy at **WEBN**, **WPLR**, **WQFM**, **KTCL**, and **KBCO**, with increases at **CFOX**, **KBCO**, **KPOI**, **KQWB**, **WPLR**, **KWIC**, **WBCN**, **WHCN**, **WIZN** and **WLLZ**. You tell me--is that a week or what? But you already know that from the 44-37* Hard Hundred hike....

The Church, "Under The Milky Way", Arista.... Read the raves! **Alison Stewart**, **WBRU**, "It has that headphone-like sound that is bound to please those upper demos as well as satiate your new music types".... **Bryce Crousore**, **KQDS**, "A very nice change of pace in terms of the band's textures. With all of the harder edged stuff that's out, the Church is a very nice relief record that gets back to the alternative sound".... **Karen Small**, **WGIR**, "A unique sound that really gets your interest within the first couple of notes. This one will lend spice to the airwaves".... **Charlie Foster**, **WNGZ**, "We're getting tremendous early response, and it moves up as a result of only one week on the air".... In fact, we've already logged in 7 increases, including **KQRS**. New on 17 this week, up 67-54* on the Hard Hundred. Look for at least 30 adds in our next Report....

Kingdom Come, "Get It On", Polydor.... The big story this week has to be the move to #1 Most Requested--thanks to a whopping 44 to 68 station increase in top 5 phones. They're unquestionably the fastest starting phone item we've seen since Richard Marx broke this time last year. The play build accordingly, with 26 increases, and a 21-13* move that makes them now the Most Played new band on the radio. **KNCN's** Tim Parker tells us area retailers, "Report more interest in the Kingdom Come than anything they have experienced. I simply can't believe the buzz this band is generating".... **WGIR's** Mike Jones is also stunned, "One of the most amazing things I've ever heard. It's Zeppelin back in action. It will be as huge as the Grand Canyon".... **Curt Cartier** adds, "The dayparts are opening up and if this continues, we'll be rolling 'em through all dayparts by...say...Tuesday".... But when all is said and done, **KCAL's** Kelli Cluque offers the bottom line, "Kingdom Come is God!!"....

The Godfathers, "Birth, School, Work, Death", Epic.... It's like **WXKS's** Sonny Joe White said at Gavin, "You know your station sounds different--and like a winner--when you hear the Godfathers on it".... He picked up on action from **WBCN** and **WAAF**, and it's our thinking that's the smart kind of play spread here--not vice versa. This would be a dumb record to get forced on, when it's obvious there's built in reaction. There's a strong cross getting ready to happen from the more liberal AOR's to active listed CHR's--so pay attention. 9 of our reporters did this week, including **WKLS**, **KLOL**, **WIYY**, **WIMZ**, and **KLAQ**. Take it from this Godfather himself, **Joe Anthony** at **KISS**, "The more you hear them the more they grow on you. This band has a lot of potential".... Check the chart--60-52*....

Bryan Ferry, "Kiss And Tell", Reprise.... Don't get caught flat-footed on a record that CHR is already in the process of taking to the bank--and it ain't cuz Bryan made the Best Dressed list, folks. The song that every playlist should be sporting this winter rolls up another 9 adds, as play on 64 reporters (heavy at **KRXQ**, **KTCL**, **WBCN**, **WLAV**, **WNEW**, **WRXK**, **WXXP**) generates a strong 55-49* move. **KRXQ's** Ron Garrett knows the score, nice and simple, "Great expectations are in order. This record is going to happen"....

So, "Are You Sure", EMI/Manhattan.... After the front-load of second and third tracks from the automatics, **So** stands tall as one of the most consistent new builders. This week finds new air on 12, including **WCCC**, **WWCT**, **WKFM**, **WHMD**, **KWHL**, **KRRX** and **KYYS**. That tops an already impressive list that includes **KEZO**, **WBCN**, **WEZX**, **WLLZ**, **WQFM**, **WRXK**, **KMOD**, **WDHA** and **WRIF**. If you're leaning--please note it's our third longest 77-61* gainer, right behind **Bruce** and **Pink Floyd**....

Tonio K., "Without Love", What/A&M.... If you haven't noticed, **Tonio's** best long term performer ever has hung tough at the top of the Most Added for about six weeks now (five weeks, right? Hey, Vi, that means you). The current column now totals 66, with plenty of major muscle, including **WKLS**, **WYNF**, **WFYV**, **WBCN**, **KJJO**, **WXRT**, **WLLZ**, **WLAV**, **WHCN**, **WCMF**, **KSHE**, **KOME**, **KBCO** and **KATT**. "Without Love" scores it's third consecutive underline, 62-53*....

The BoDeans, "Dreams", Reprise.... The vital signs tell us **Reprise** is well on the way to a top 15 record here--at least. We're looking at 17 adds in what was a very slow add week, and increases on **KRRX**, **WKQQ**, **WNOR**, **WPLR**, **WIBA**, **WKQZ**, **WONE** and **WZEW**. There's meat in the Heavy rotation reporters, too--with a list that includes **KAZY**, **KLBJ**, **WMAD**, **WNOR** and **WXRC**. 32-29* on the Hard Hundred....

Jerry Harrison: Casual Gods, "Rev It Up", Sire.... The Gods have quickly endeared themselves to programmers and airstaffs alike with "Rev it Up" and we've yet to let a week go by without hearing the multitudes proclaim.... **KWLN's Robert Harder** calls it "A bonafide killer. It makes me crazy with its rockin' blues groove".... **WWZU's Mark Williams** moved the track to power, "This cut is so contagious, you can't help singing along to it after one play".... And **WRIK's Mike Scott** is seeing "Surprising retail on the Jerry Harrison. This one is starting to kick in, as it should".... Close to 140 stations now on, with 15 increases cranking up a 22-16* advance--all in the middle of some very fast traffic....

Prophet, "Sound Of A Breaking Heart", Megaforce/Atlantic.... These guys are poised to pick up where Europe left off and "Breaking Heart" is shaping up as just the vehicle to handle the job. 9 adds this week takes the total past 50, as **WONE**, **KFMX**, **WKQQ** and **WWCK** come on, as those phones are just starting to feel the heat. **Mike Michelli** tells us "Prophet was a pleasant surprise to my ears. I expect this one to do well for us".... From **KFMX's Jon McGann**, "If you passed over the new Prophet record, put it on again and give it a spin. It'll grow on ya".... On the chart, the track takes a healthy jump 64-58*....

Flesh for Lulu, "Postcards From Paradise", Capitol.... A frontrunner in the Longterm Project of the Year Department, Flesh has turned it all around and is coming through like a champ. 8 add this week including **WEZX**, **KWLN** and **KRZQ**, where **Dick Sheetz** calls it "The Strongest add of the week. We've been listening to this one a lot and have got to believe that if a rock station will just listen to the hooks and leave the image alone, this record will work".... 59 total on, with top 5's at **WNEW-FM**; heavy play at 'BCN....

John Brannen, "Desolation Angel", Apache.... Starting to feel some pressure on the phones? Top 5's at 5 (**KBAT**, **WLZR**) and top 10's at a few more foretell what's in store for this track, as the name and the number start to jell in the audience's heads for the first time this week. New at 7 more (**KAZY**, **WEBN**, **KATP**, **KTXQ**, **WHCN**, **WHJY**), with 11 increases helping in the 27-25* move....

Lita Ford, "Kiss Me Deadly", Dreamland/RCA.... The scene is set for those phones to kick into overdrive anytime, after another week of building momentum nudged the track a notch on the Most Requested with 11 top 5's (**WPLR**, **KFMX**, **WAQX**, **WDHA**, **WYNF**, **KNCN**). It's also a bit of a switch to hear about such strong female phones--especially considering the video's heavy male orientation.... And along with the phones, retail is ready to roll--as per the 161-95* **Billboard** jump. **KFMX's Jon McGann** reports top 5 sales in Lubbock, while **KWLN's Robert Harder** tells us, "Lita's building on the phones, especially with our younger women".... **KQDS's Bryce Crousore** comments, "I can't believe this Lita Ford. The women just love this song, which is really surprising to me. Very strong calls from females, 18-24.... And **KNCN's Tim Parker** reports, "Lita has beaten Kingdom Come on our request sheets this week".... 77 now playing, with power air at 'PLR; new at 7 as the cut advances 46-43*....

Joe Satriani, "Satch Boogie", Relativity.... If you've been tracking those sales, you already know that the album's been selling like gangbusters. **KNCN's Tim Parker** tells us that it's "Satriani and David Lee Roth neck and neck in the stores".... The story's a similar one on the phones.... **WIOT's Jim Steel** compares the request action to White Lion, "Without a question, if there was ever a record that typified the response 'Instant phones', Satriani is the one".... The cut moves up a spot on the Most Requested 8-7 with 28 top 5 mentions. 12 increases in play bumps the track into heavy at 14 stations as some of those daypart restrictions begin to fall away.... The track advances 29-28* on the Hundred with a lot more room to grow....

Noiseworks, "Take Me Back", Col.... Super week in the Add column for the 'Works with 9 coming in (**WFYV**, **WGIR**, **KEZE**, **KISS**, **KOME**) and 4 moving up, to jump that track 92-79* on the Hundred.... With 35 now on, including **KLOS**, **WEZX**, **WHJY**, **WDHA**, **WIOT** and **WRIF**, expect for the phones to take off once the video hits home....

The Dynatoners, "Take the Heat", WB.... The sound these guys are dishin' out should add some spice to the ol' playlist, with their Radiators meet Buddy Miles (Santana era) presentation jambalya'n with that Tower o' Power-like horn section. 12 jump right on "Heat" including **KBCO**, **KFMF**, **KFMQ**, **KFMU**, **KPEZ**, **KMBY**, **KZAM** and **KZAP**.... **Marty Griffin** tells us, "I was turned onto what I think is one of the best records to come out in weeks. The Bay Area's own Dynatoners combine all the quality elements that make up an outstanding record"....

Sinead O'Connor, "Mandinka", Chrysalis.... Longtime supporters 'BCN, **WZEW** and **KLBJ** gave Sinead another boost this week with increased play as the phones kicked nicely with top 5's at 4. Meanwhile, more ground was broken with adds at **WWTR** and **WIZN**, where **Tom Van Sant** confessed, "Strong sales in the area and that Siouxi-esque chorus did it.... Finally, Sinead will get her shot".... 33 total on; 79-74*....

E*I*E*I*O, "Hey Cecelie", Frontier.... This band's been working the circuit forever and it looks like payday may well be at hand.... "Cecelie" nabs another 6 adds this week including **WQFM** where it starts in medium.... 'HFS ups rotation this week, and **WHTG** feels quite comfortable with heavy air for "Cecelie".... **WMAD's Paul Marszalek** let us know, "They're a local favorite here, and after dealing with their first album, we knew it would just be a matter of time. That horn arrangement is what got me".... And **KFMU's Dave Ross**, "I had the opportunity to this these guys a few years back in Minneapolis. It's great to see a viable product from them like 'Cecelie'. It's loaded with hooks and has a real hot sound"....

Rick Springfield, "Rock of Life", RCA.... Rick is back with his most viable rock record in years and the phones are coming alive with votes of approval for this track. Top 5's are already in at **KBPI**, **KICT**, **KLPX** and **KPOI**, while top 10's are even more abundant. New at 6 (45-41*), and up at 7 including **WKQZ**, where **Jeff Robinson** reacts, "Who'da thought Springfield would have come out with something like this? 'Rock' is getting instant phone response; we never expected it to be the phone killer it is".... Also up at **WIOT**, where **Jim Steel** calls it "The week's fastest mover. Outside of the industry, Rick has no image problem".... Between the active AOR support, even more active CHR action and the 108-88* **Billboard** movement, Rick's got a live one here....

James Harman, "My Baby's Gone", Rhino.... James got away with another strong week (86-80*) with solid support in from **WCMF**, **KXRX**, **WRUF** and 2 more mixing well with 3 increases and heavy air at **KQRS**.... The track is up at **WFYV**, where **the Arf** reports, "We're getting reaction calls and we think this is really a strong track to introduce to our audience".... Top 5's are ringing in Amarillo in response to heavy air at **KDXR**, and rumblin's of top 10's are being felt as well....

The Wild Seeds, "I'm Sorry I Can't Rock You...", Passport.... There's an excitement level surrounding this song that should catch your attention quicko pronto. The story is simple: Programmers are listening and loving this tune. **KEZE's Curt Cartier** compares it to "Keep Your Hands To Yourself", and we've got to agree. "Sorry" has got what it takes and those outta da box adds at 'BCN, **KZAP**, **KLBJ**, **KBCO**, **KEZE**, **KMOD**, **WMAD**, **WRIK** and **KDXR** are just the beginning....

PETER HIMMELMAN

“I FEEL YOUNG TODAY”

FROM THE ALBUM **GEMATRIA** ON ISLAND COMPACT DISCS, ALBUMS AND CASSETTES

Bruce Springsteen, "All That Heaven Will Allow", Columbia.... The spring tour has reaffirmed the Boss's world champion status among the faithful and as album sales continue to soar, few programmers are hesitating to go another step deeper on "Tunnel of Love"--and to think about Noiseworks or Midnight Oil while they're at it. "All That Heaven...." claims the #2 most added spot of the week, while making the largest chart jump with that 39 position 96-57* bolt on the Hundred. New at 26, with phones already feeling some heat....

George Harrison, "Cloud Nine", Dark Horse/WB.... So many reporters jumped on this track OTB, that re-add activity is the real story this week behind the 35-26* Hundred move, as KRQR, KZAM, WAAF, WMMR, KOMP, KTXQ, KYYS, WDIZ, WEZX, WIYY, WONE and 12 others all came on.... With heavy or better rotation at clearly half of the 100 stations currently playing, it's no wonder those top 5 reports are heating up with power play at Seattle's KXRX, and New Haven's 'PLR resulting in fast phone action....

Pink Floyd, "Sorrow", Columbia.... The week's second Biggest Mover earns that honor courtesy of 23 adds as the ongoing sales picture keeps on getting brighter. The album's Top 10 in most markets and jumping onto this signature track is the way many are heading. As WFYV's Mike Areford tells us, "The album continues to be a major hit here and 'Sorrow' fits in easily".... Kelly Cruise at WEGR predicts "This is going to make a killer night record. It's got the same ozone effect as some tracks from 'Dark Side'".... And KQDS' Bryce Crousore calls it, "Our Strongest add of the week. The album has been going strong for god knows how long and we hope this will carry us through to Spring".... 60 on, 63-45*....

David Lee Roth, "Damn Good", WB.... 18 increases pushed the cut into heavy or power play at over half of the 120 who gave a "Damn" this week, as the track breaks top 20 on the Hundred (26-19*).... WIMZ' Mike Stewart calls it his Strongest add of the week, while KEZO's Joe Blood reports "Incredible sales continue for David Lee. This album is going to prove that this man has staying power".... And 'EGR's Kelly Cruise remarks "It's a nice switch to hear Diamond Dave do a ballad. We got reaction after the first spin".... Phones are ringing to the tune of Top 5 at 16, surpassing for the first time the single in requests....

Yes, "Final Eyes", Atco.... The track that most echoes the band's classic sound now is in the limelight and finds it easy going at 74 stations already, as the cut maneuver 50-38* on the chart this week. "Eyes" takes the #3 most Added spot this week with 24 new including KATT, WHJY, WKFM, KLOL, WNEW and WRDU, and finds increased air at 2 more. Top 5's are the story at KPEZ with top 10 phones registering at many others....

Paul Carrack, "One Good Reason", Chrysalis.... At the rate this baby's on a roll, you'll need more than one good'en to stay away from this followup. An obvious standout on the album, "Reason" adds another 10 to its base (WDHA, WPLR, KLOL and CILQ plus a heavy add at WQFM), as the total falls just short of the 40 mark this week. WNGZ' Charlie Foster is a fan, "I still can't get enough of this Paul Carrack record. From 'Shed' on, this man's work stays on my turntable all the time"....

Rush, "Prime Mover", Mercury.... The track lives up to its name with a debut at 77* this week, as 16 adds double the total on to 27 including KAZY, WLLZ, KILO, KSHE, KYYS, WEGR, WEZX, WKDF and KMOD. With the second leg of the tour firmly underway, and sales maintaining nicely, look for "Prime" to carry this project well into Spring....

REM, "Finest Worksong", IRS.... Most of the majors are now in on "Worksong" as WBCN, KYYS, KTXQ and KGB join WKLS, WNOR, KGON, KLOL, KOME, KRQR, KZEW, 'AAF, WEGR, WHJY, WEZX, WNEW and 80 more this week on one of the most celebrated REM tunes ever. Album sales are also breaking records for this band as KQDS' Bryce Crousore reports "Still selling top 10 here".... And WFYV's Mike Areford adds "This band is the future of Southern rock and this no doubt is the best song on the record".... The track moves 38-32*, with phones at KYYS and WAAF....

Warren Zevon, "Reconsider Me", Virgin.... The all star cast put a high gloss shine on this re-recording, and after 3 quick weeks, 48 stations (including WLLZ, WRIF, DC 101, KLPX, KILO and CHEZ) reconsidered "Me", just in time to build a solid launching pad for the single.... The cut climbs 71-63* on the chart....

AC/DC, "Heatseeker", Atlantic.... "Seeker"'s keeping those interns busy at the phones as the song breaks top 5 at an additional 5 stations this week. Looks like those dayparts are opening up too as increases at 14 translates into heavy or power play at 32 of the 124 total on as the track gains 25-21*.... WRIK's Mike Scott put it right into heavy, "How big is big? Around here we spell it AC/DC. This is a record that just won't slow down.... WOUR's Kevin Kasky tells us, "I think this is the best AC/DC album to come out since 1980. It sound like they've finally pulled their act together and have both feet on the ground"....

Mike Oldfield, "Magic Touch", Virgin.... Mike scores big on the Increase Index this week with 22 up-ping rotation while KBER, KEZO and CFNY make room for this cross demo ear pleaser. WFYV's Mike Areford was surprised "To find Mike breaking through onto the top 5 this week after a strong showing in morning requests. We think people are finally getting the message about this artist and they're coming through with those calls. And they're not just adults either. A whole new generation is discovering Mike Oldfield".... Close out phase is in sight as the total hits that 155 mark this week....

Heart, "I Want You So Bad", Capitol.... The enhanced vocals (courtesy of the remix) and impending single status has turned more than a few ears and after this week's 13 add count, the total lies just short of the 50 mark, with at least 1/3 of all play in heavy or better rotation. Increased at 6 (KRXQ, WZZO, KXRX) with just about every one considering. On the chart, "Bad" makes the climb look easy: 70-56*....

The Alarm, "Presence Of Love", IRS.... Strategic increases translated into a strong showing for the Alarm this week with upward movement at 'HCN and KRNA taking the track to power, while KOME, WKLS and 3 more also picked up the tempo kicking the cut 40-33* on the Hundred. "Love" was no slouch in the add department either, picking up an additional 15 this week (WMMR, WEGR, KATT, WOUR) as phones just begin to respond in kind....

While the top ten shows only fractional shuffling this week the real story is developing in the middle of the chart where fast rising flavor tracks are demanding attention. Towards the top, the big mover is **David Lee Roth** whose "Damn Good" is scorching the Winners Chart 25-12* with a 7 slot differential from its Hard Hundred placement. Adds on **WNEW**, **KYYS** and **WKDF**, (where it debuts in Heavy), certainly help to juice the action and Power play on **WNOR** is indicative of things to come. Big video pressure on this project and outstanding phones guarantee another smash for that rock repelling dude from Pasadena.

Another high RPM performance is on line from **John Brannen** this week as he cracks the top twenty with a hefty 11 point jump up the Winners Chart. This debut on the Apache label has been showing strength and speed in the far turn and now the homestretch is calling. Check out that 5 point hike compared to its Hard Hundred ranking and those platinum calls like **WRXK** and **KATT** that have upped to Heavy rotation. Adds

on **KTXQ** and **WEBN** supported by continued Heavy play on **KQRS** help round out a strong week for this format pleaser.

The middle of the chart is shaking out a trio of songs that are finding real support among the winners. **Joe Satriani**, **REM** and **Def Leppard** are all charting substantial increases that hint at deep support and good things to come. The Satch-man is humping it out on the road and his shows are putting retail in the delightful quandry of keeping stock on the shelves. Phones are a big part of the story with Joe and **KEZO**, **KPOI**, **WTUE** and **WNEW** all report major request line damage when this pyrotechnic gem hits the air. Chart slamming has been a major feature of the **REM** album "Document" and "Finest Worksong" is on it's way to living up to that track record. An 11 point run up the Winners Chart and a solid 8 place differential with the Hard Hundred and this song is on its way. New found adds on **KGB**, **KTXQ** and **WBCN** certainly don't hurt and check out **KYYS** where the song has just been added and already has claimed top five phones in one week! America's longest success story has come of age and the proof is in the air. The third monster ready to break from the pack and pick up some speed is **Def Leppard's** "Pour Some Sugar On Me". Increases to Heavy on **WNOR** and **KEZO** and big phones on **WTUE** help to light the fuse on a straight to the heart, by way of your backbone, rocker with platinum written all over it.

Midnight Oil has been living up to it's reputation as a tastemaker band on the loose. And now that those Socio-politico-rockers are hitting the States with their tour expect the album to break open pushing "Beds Are Burning" into the stratosphere. A move from 40-30* on the Winners Chart shows which way the wind is blowing so you had better bend or break. Heavy play on **KBCO**, **WEBN** and **KPOI** and adds on **KLOL**, **WRXK**, **WKRR** and even **WMMR** outline what has to be the most exciting left hand turn for the format this year.

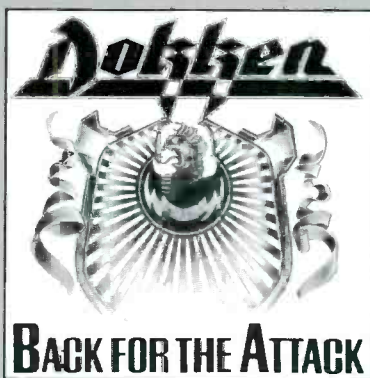

When **Foreigner** popped the cork on their latest album some critics wondered if the meat was there in between tracks. That question has been roundly answered by a string of finely crafted songs that have muscled their way into the premium players arena. "Can't Wait" is sizing up for more of the same treatment. By far the biggest move from Hard Hundred to the Winners Chart belongs to this track and Increases to Heavy on **WAAF**, **WEBN** and **WPYX** where top 5 phones have followed point the way.

Debuting on this weeks Winners Chart are a handful of bands that are finding a warm welcome with leading programmers. First is the latest in a seemingly endless line of songs from **Pink Floyd's** "Momentary Lapse Of Reason." Entering the chart at 40*, 5 places ahead of their Hard Hundred slot, "Sorrow" has 'em forming up to the right with every indication of another top flight performance. This and more from the band that insanity, lawsuits and age simply could not stop. An impressive list of players includes **WNOR**, **WLVQ**, **KATT** and **KZAP** with the bullet barometer registering solid increases for the next week.

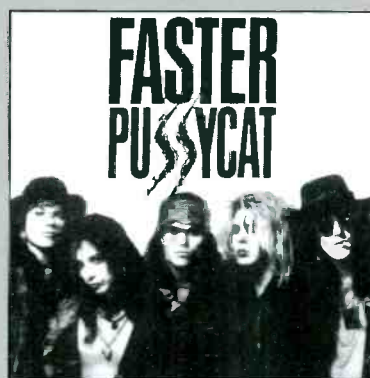

The other new face on the chart this week is **The Church**. This band presents a fresh blend that is somehow both familiar seeming and exciting. Silken production values and a precise, character filled vocal makes for a stand out track from the get go. Winners play on **KQRS**, **KBCO**, **WBCN**, **KTYD** and **KTXQ** along with a growing buzz on the phones and we feel pretty positive that this one has the stuff to carve a niche for itself against any competition. Check out that video for more proof that "Under The Milky Way" is the place to be.

Other debuts on the Winners Chart this week include the **Lita Ford** and the **Rick Springfield**. Lita is kicking in with younger females who can't wait for that first tatoo and Rick is pushing aside any complaints of image blur. Quality calls on Lita include **KTYD**, **WAAF**, **KQRS** and **WEZX** while Rick is getting support from folks like **WNOR**, **WNEW**, **KZAP** and **WKDF**.

BEAVER BOUNCES IN

KDJK/Modesto MD **Beaver Brown** is packing up that old U-Haul of life and getting ready to trek across the continent... destination, the HARD REPORT. The man checks in to fill the shoes of **Amy Dahlman** who has departed for her Syracuse estate and a life of ease. As Beaver gets ready for the big jump to tipsheet-land we can't help but notice the influx of west coast types here at Hard Acres. At last, someone who can quote San Francisco Giant batting averages fast enough to match my litany of Dodger's ERA stats. Noted for his quick wit and user friendly phone manners, The Beav comes highly recommended by the Pacific Rim record community. Look for him to hit the sheet March 3rd, we may never be the same. When contacted by NOISE Beaver brushed the hair from his eyes and said, "At least there is one good thing coming back east from the west, and his name isn't Jack Clark."

Beaver Brown, a man in love with things that blow up.

TIPSHEET WAR

Friday Morning Quarterback has filed suit in U.S. District Court in Camden, New Jersey, against the newly launched **Monday Morning Replay**. The sought after injunction would restrict use of MMR's name on the grounds of unacceptable similarity. No one was available for comment at FMQB but we did receive this statement from **Rich Meyer**, Publisher of Monday Morning Replay, "Mediabase Research Corporation has filed suit in Federal Court in Ann Arbor Michigan against Friday Morning Quarterback Inc to have all issues between itself and Friday Media Back Quarterback Inc resolved. The court has been requested to affirm Mediabase's right to use its trademark Monday Morning Replay on its music industry magazine. Mediabase is confident its rights will be vindicated." Looks like the guys in suits are going to have a field day chasing this one down. Count on us to keep you posted on developments.

URSO SECURES ATCO

The word is out and **Dave Urso** is in at ATCO. Dave is going to pair up with **Jerry Greenberg** on the west coast in another move designed to beef up the ATCO commitment to a truly major label profile. Dave is one of the industry's most experienced vets. His work with **Warner Bros.** and **Elektra** chronicled some of the best work done with those labels. In other label news, **Michael Prince** has packed up his golf clubs and is also headed out west to join the team.

Guys in Ties and a potted plant. Pictured signing Oldies king **Dick Bartley** are the guys from WW1. **Steve Jenkins**, **Andy Denmark**, **Dick** and **Gary Landis**.

KAISER SEGUES TO UNI

When **Sam Kaiser** split MTV it was a pretty open secret that he was going back to the world of label promotion. With a new deal in his hot hands, the former MTV Programming Veep is on his way to the reformed UNI. Now that **Bill Bennett** has joined Sam's new squad at the label they are looking high and low for someone to take his place back at MCA. We hear that Elektra's **Ray Gmeiner** was the leading candidate and it took a big chunk of change from Brad and the boys to keep Ray on the reservation. Which is as it should be for such a key player in the E/A gameplan.

MORE CORPORATE MOJO

Register this change in address for **Al Moss Promotions**. Get next to that Atlanta guy at PO 94189, Atlanta Ga, 30341. Al's new phone number is (404) 496-0979.

Alex Miller, rising star in the ATCO constellation has made a shift to the local New York job for **Virgin**. Alex hops over to the label as of February 29th after two years at ATCO, following some professional stand up comic experience, (look out, Naumann!). Alex was looking at an expanding role with a refurbished ATCO so we were a little surprised by the announcement. Alex told us, "ATCO has been a wonderful place to learn my trade and it's difficult to leave at this time of growth for the label." When NOISE asked him why, in fact, he was moving the Alex-man geared up noticeably, "In the end, I just couldn't resist the kind of support that I have already received from **Phil Quartararo** and **Michael Plen**, it really has been unprecedented."

Enigma announces the signing of **Lynn Oakes**, formerly with TVT records, as their Director of East Coast Promotion. **Rick Winward** describes Lynn as, "bringing a perfect combination of enthusiasm and grass roots promotion experience to the Enigma family." Lynn joins **Julie Kryslur** at Enigma's New York office which will open in mid March.

SST Records has parted company with **Ray Farrell**, their National Promotions Director since 1985. Ray described the parting as amicable and says he looks forward to getting back into promotion with an eye toward developing new bands. Farrell is a past master at breaking new ground for his acts and his love of experimental music has made him a well respected member of the Independent crowd. Ray can be contacted at (213) 433 1331.

Combat Records has made a few changes in their organization. **Scott Givens** has been promoted to Label Manager from his post as Press guy. Also, **Bridget Roy** joins up to replace Scott in his Press duties.

The Record Bar has named **Ron Phillips** to direct their advertising efforts. National Promotions Manager since joining the company in '83, Ron had also done his time in radioland with a PD stint at **WQDR/Raleigh**.

Ron Phillips, new Director of Advertising for the Record Bar.

A&M Records announces the promotion of **Chuck Bliziotis** to the position of Associate Director/National Album Promotion from his local Northeast gig. **J.B. Brenner** told **NOISE**, "Chuck's experience has prepared him to be a real asset as we set out to break new ground at album radio in '88. It's exciting to see someone grow from a promotion assistant to a national director and we're pleased to move Chuck into this key spot." Chuck has been with the label since 1982.

THE RADIO RUMBLE

WIBA/Madison is in the news again. Word from the world of cheese has local paper *The Capital Times* getting the citizens fired up about the station's handling of complaints from irate listeners. When letters hit the station arguing against the personnel and programming changes that have accompanied the station's change of ownership a strange thing happened. They disappeared. The *Times* media columnist investigated and, sure enough, discovered that a few dozen uncomplimentary letters had not found their way into the public file. Station owner, Lee Leicinger, responded by saying he was under no compulsion to keep the letters on file because no wholesale format changes had been made. That interpretation fell flat with NAB attorneys and you can count on the local print boys to stoke this fire for all it's worth.

WZTA/Miami goes classic with a vengeance. The George Harris station had long planned the move and market conditions encouraged the shift to a pure classic presentation. In other station news, **K.C. McCoy** has been named MD for a departing **Jean Cashman**. **K.C.** had worked with **Pete Bolger** back in his Portland days at **KGON**. To highlight their classic emphasis the station got generous and provided listeners with CD copies of classic vinyl recently. All you had to do was bring in some totally trashed pressing of **Jimi Hendrix** or **Heart**, the **Eagles** or **Sgt Peppers** and **ZETA-4** would replace it with a pristine copy on CD. The contest ran with on air support and generated great listener response.

WYNF/Tampa got visited by **Yes** drummer **Alan White** prior to the bands two night stint at the Sundome. Getting friendly in the studio is Atlantic rep **Steve Jones**, **WYNF** APD **Charlie Logan**, **Alan** with some nice hand tooled leather and midday **Russ Albums**.

KGRX/Phoenix has unveiled their new look with consultant PD **John Sebastian**. **John** will continue the developmental execution of his eclectic format on the former **KEYX** while continuing his work with **WBMW/Washington**. When **NOISE** contacted **John** he sounded tired but happy, "This is what I live for, it's great to be so far ahead of the industry with this concept and have reality finally catch up with me." The majority of the airstaff have been retained through the change and after 2 weeks in the trenches **John** tells us that the station is effectively "on".

WHTQ/Orlando Operations Manager **Neal Mirsky** has walked out after a brief tenure at the embattled **T-K** property. Word on the street has **Neal** and ownership at loggerheads over things as simple as hiring part-timers. The scenario plays like a chapter from my novel "Radio Roulette" and the next move is bound to have major entertainment value.

KFMU/Steamboat Springs former MD **Kelly Thomas** departs for APD duty at **KZYR/Vail**. **Kelly** can be reached at (303) 949-0103 as of now.

WIZN/Vergennes welcomes Alice Cooper with a formal necktie party. Pictured are PD Steve Cormier, jockette Late Kate Roome, Alice, Tom "The Hangman" Van Sant, and staffers Joel Bolton, B.J. Scott and Keith Lincoln.

WLUP/Chicago has signed local sports legend Chet Coppock to handle same for their AM. Chet's long running involvement in ChiTown athletics runs deep and wide, with a stadium full of awards and acclamations as the best in his field. Ranked by USA Today as one of the country's top three sports talk hosts, Chet told NOISE, "This is the big rock candy mountain. I'm thrilled to be on board a radio station that has the same goal I have, playing for Number 1."

WNEW/New York celebrated the New Year, Chinese style that is, February 16th at Chinatown's Silver Palace. Musical guests Michael Bolton, Glen Burtnick and Dave Mason teamed up with midday guy Ray White for the festivities which included lotsa lunch and mementoes.

KSHE/St Louis welcomed John Cougar Mellencamp with a flood of giveaways featuring his album "Lonesome Jubilee." Winners were then registered for a crack at winning a juke box filled with 100 of John's favorite tracks. The grand prize winner will also get to spend some time with the band at the "Club Cherry Bomb" on the night of the show.

KDKB/Mesa announces new music hours. You can reach Steve Trella Wednesday and Thursday from 1-5pm.

KMBY/Monterey has announced Patti Clarke as their MD. Patti, a lifelong Monterey resident and two year station vet, replaces Steve Hoover who had taken the PD slot at WIBA/Madison.

KZEL/Eugene morning man and market legend John Napier is out to make way for Jim Davis who travels over from WCMF/Rochester. Word has it that airshifts and playlists are undergoing continued scrutiny in the wake of their consulting agreement with Larry Moffit.

WOUR/Utica and Aerosmith get together to exhibit the age old New York practice of head-rubbing. Some fun eh?

KOZZ/Reno is in the market for a fulltime air personality with great production chops. Get that T&R to Steve Funk at KOZZ, 2900 Sutro Street, Reno, NV 89505. No calls please.

KQSP/Spokane has switched calls to KKZX "Classic 99". As they continue their search for a PD we hear some pretty interesting names floating to the top of the list. This could be another in house Northwest move.

WZXL/Atlantic City is still looking for some part time air talent to help things out. You can contact Steve McNee at (609) 522-1416. EOE and all that fun stuff.

WKFM/Syracuse hosted a travelling Peter Himmelman recently. Pictured are Arnold Riccio of Arnold Freedman Management, Peter and PD Brian Illes.

Then Peter went across town to study marine biology with WAQX MD Lorraine Rapp. A pretty busy day day for Mr. Himmelman on the promo warpath.

WIYY/Baltimore morning guy deluxe, Bob Rivers, has signed on with ABC Rock Radio Network. Bob will be cranking out a series of custom "twisted tunes" for the net along the lines of his much vaunted "Twisted Christmas" album of '87. I can't wait to hear a test pressing of David Lee Roth's "Wearing My Pants Too Tight". In other WIYY news, the search to fill that vacant PD post goes on after a near miss that involved a prominent Northeast PD.

WEBN/Cincinnati stocked up the Wildmobile, a junked '75 Grenada, and loaded the vehicle of shame with News guys Wildman Walker and Rick Bird for a trip "In Search Of The Superbowl." Two listeners were dragged along for a cross country odyssey that included a stop at Graceland, a long journey across the Texas panhandle and a stop in nasty old Las Vegas where the Grenada finally gave up the ghost. Throughout the trip the boys called in with updated reports on life in the bike lane. When their car broke down on the Strip in Las Vegas they got some local TV and print coverage before loading up on a plane and winging it the rest of the way for their date with destiny in San Diego. The promotion tied in with the Superbowl in such a way that the event and WEBN were synonymous for at least a week.

JIM TRAPP

LARRY BRUCE AND MAKING IT IN THE EIGHTIES

When all is said and done, Larry Bruce gets high marks for running one of the most efficient and successful new consulting operations on the block. Larry's all-star chops extend back to his glory days at KGB/San Diego, when he ruled the roost with an AOR presentation that was both substantive and stylish. Larry also lined up for some combat duty at KMET just before it was submerged by Frank Cody's Wave. Now the man has a multi-national firm with 9 stations in the U.S. and an Australian division as well. It was 6:30 am west coast time when I caught up with Larry in a Seattle hotel room. Coffee was served and the tape rolled while we covered the state of the format.

We seem to be at another crossroad where the format is being hammered from all sides for sloth, formatic rot and musical slippage. How do you see the current trend of hyper-critical analysis?

LARRY.... The important thing to be aware of is that there is far too much generalization. Radio is a local medium and radio issues are local issues not national issues. You have to put it in context, there is no single AOR format to discuss. Format fragmentation has created a number of unique variations and each station must be dealt with as a separate entity. That uniqueness stems from three different factors; one is the history and the localized taste of the market, the second factor is what stage of growth the station is at, whether the station is just opening up, is in its adolescence, its maturity or if it's playing the end game, the final factor is the competitive structure of the market. Because of these divergent elements we don't have a national approach, we don't have a national chart or blanket answers for the problems of each market.

There are those that would maintain that the national perspective you have avoided is a direct result of consultants. How much of this derives from their simplified techniques and the research they use to back up those generic decisions.

LARRY.... I think that consultant bashing, like ARB bashing, is an easy sport. I think the trade press has to take equal responsibility for it. When you read something in four trades it suddenly becomes important. As students and practitioners of media we should know better than that.

Tracking those issues is critical to the process of trade publications and the medium they are concerned with. We act as a forum for those arguments, we don't generate them so much as we permit them to continue.

LARRY.... And it sells newspapers, William Randolph Hearst wasn't a fool. It is also important for all the people and companies involved in this business to get national press and for the press to have controversy generating interest in their papers. The important thing is that we in the broadcast and music industry don't get so caught up in the cycle of controversy, press, more controversy, more press. We can't lose sight of what's really going on.

What really is going on then?

LARRY.... There are a number of topics that recycle; like core burnout or the issue of more currents on rock radio. Those are certainly of concern today, but I remember 10 or 15 years ago we were talking about the same thing.

How do you envision the current to core ratio issue at this time?

LARRY.... Once again, it depends on the station's history and positioning. If a station has been playing a lot of currents then they probably shouldn't cut back because it sells them short on one of their key elements. But a more classic oriented station can get by with one less current and one more recurrent if there isn't enough good new material available.

The consultancy gets great reviews for client satisfaction. Where some consultants are viewed as underachievers and/or heavy handed, you get raves for specialized service. I remember you setting up the company to deal with a limited number of stations to guarantee that high grade service, how many stations do you see as optimal for the company?

LARRY.... I envision us working with about twelve stations in our present set up. To expand beyond that would require an

increase in staff to guarantee continued service on a level expected by our clients. The key for us is to utilize the principle of being a user-driven consultancy. Just like we encourage our clients to design their product according to what their listeners like, that's how we design what we do. In working with a new station the critical time is during the first three months. When we sign on with a new client we are very intensive, we start by spending five days in the market. We aircheck the market very carefully, we deal with personnel and scrutinize the station so that we know what they are accomplishing and what they need to improve on. We spend lots of time working on how promotions can be devised and executed to match the market and the station's budget.

Your promotional expertise is considered unique in the field. Explain how your philosophy differs from the rest of your peers.

LARRY.... We accept that there is a certain level of sophistication regarding rock radio's ability to program but promotion remains one of the most misunderstood and misused areas in the format. As a tool to sell the image of the radio station and thereby generate revenue, it is vastly underrated and inappropriately used. You wouldn't want to oversell like CHR but you can always learn something from that side of the street. That's why one half of this partnership is concerned exclusively with promotion and marketing. Elizabeth Burley, who is a full partner in the company, works with stations on promotions from how to design your winners sheet for the utmost clarity and impact on the air all the way up to total management of promotional events. The difference in our approach from our competition is that promotions are secondary for them and they are a primary concern for us. In some cases it is the primary focus of our work with client stations.

How do you view the current slam on younger PD's that they are marketing and research heavy and musical lightweights?

LARRY.... Don't lose sight of the history of the format. There have always been some great programmers and some weak programmers. The Golden Age of TV put out some of the worse crap ever foisted off on the American public but no one remembers all that bad stuff. We have always had these very strong musical PDs and on the other hand we have always had programmers who were better with systems than they were with the music. It's not a new issue and it's not any worse than it has been in the past. This is a prime example of artificial topics being blown out of proportion. Sure there are a lot of PDs who are research and computer literate but that doesn't mean that they aren't music oriented, usually it means that they consider the needs of the listener before work projects or even their own tastes. In my opinion you can't fault them for that.

Realizing that there is no golden mean, no national average to touch base with, what do you see as some of the most common mistakes being made by AOR PDs these days?

LARRY.... As a format, there has been a lot of discussion about problems but very little training. There is almost no support for PD's and that is one of the things that we try to provide as a resource. As for those areas that need improvement they strike me as the following;

1) Programmers have lost sight of the fact that this whole process is for the listener and not for ourselves, our management, the trade press or the record companies. That's who the final judge is, the audience, nobody else.

2) People frequently get pulled off their own battle plan and fail to execute that plan logically. They become reactive to conditions they can't control and lose the discipline of their own unique approach. Stay focused on your goals.

3) Some professionals spend too little effort working to improve their staff members. Too often the answer to a problem is to change personnel. One of the things I like about the people I'm working with is that they view firing a person as a management failure not a personnel failure. The goal is to maximize the potential of the people you work with while getting past the attitude that staffers work for you.

4) Failure to manage up as well as you managed down. Not only do PDs need to motivate their airstaff but they need to present,

in a rational business like manner, information to their management that helps them accomplish their goals. Instead of complaining about management or hiding from them, the PD should be the most people oriented management person in the building. To accomplish that he must be able to manage not only down but up and sideways as well. He has to be able to manage his Sales Manager, his GM and even his ownership.

How do you see the current to core issue as it is being addressed by the format?

LARRY.... A classic station can certainly get by with playing two currents an hour. Some ACR's, depending on where they are in their lifecycle, can play 25% current some can play as much as 60% current. It all depends on the station's development and market conditions. The critical issue is that if you are going to play a record that you play it enough to provide the record with sufficient familiarity. If you don't give the record a real shot, it's a waste of time, for you and the audience.

What sort of exposure is necessary to accomplish that?

LARRY.... At least a couple of plays a day in visible dayparts. You also need to make use of simple formatics to highlight the song. If you decide to play the record, do it right. It's might as well not even bother if you are going to hide the song at odd hours or with minimal rotations.

Do we see classic rock fading as a result of the demographic aging of the audience? With the peak of the baby boom getting past 30, are we going to see the luster of that format falling away as nostalgia wanes?

LARRY.... That may be true in some places, especially those stations that fail to transition. Key to this question is that classic rock, like edge oriented stations or hard oriented stations, is a pure format and pure formats live and die by the appeal of their purity. The strong appeal of classic rock music is not solely oriented to the 25 and 30 plus listener. In some markets we are seeing that the younger cell are responding in an incredibly positive manner to classic rock. Those songs that have not gotten power rotation over the last ten to twenty years (the primary culprits in the core burnout controversy), that stuff is some of the best music in the life of rock and roll. When younger demos are exposed to it they respond incredibly well, just as we did the first time through.

How do you envision the mechanics of success? What do we need to do to remain winners in the upcoming years?

LARRY.... The first thing to do, from a strategic viewpoint, is to forecast the trends for the next five years and the second thing, tactically speaking, is to be at the leading edge of where your customers are. Both can work. Those trends can be forecast but that is the job of the seers of the industry while the job of the programmer is to sit on the leading edge of where his listeners are today, tomorrow and next quarter.

Time and again the issue of core management comes up and we find ourselves looking at the issue of expanding and contracting the backbone of our library. How do you see this aspect of the format right now?

LARRY.... Since 1975 we have been addressing this issue over and over again. The interesting thing is that the audience doesn't seem to have a critical problem with this issue because they continue to listen. To a certain degree, this may be more of an industry question than an audience question. A lot of those maligned computer driven programmers are very good in this regard because they rest material and emphasize alternate tracks very well. They do well primarily because their computer helps them inventory the usage of that music. Every six months they use their research and computer stats to do a very thorough job of shuffling their core.

How do you view auditorium testing and other passive research techniques? Don't they do a better job of telling us what not to play instead of what to play?

LARRY.... As a tool for setting airplay priorities they are very useful. Yes, they are core oriented instead of current oriented and therefore the current posture of a radio station must always begin at the gut level. You can't develop a good current policy with research alone.

What about the breakdown of demos along strict 12-24 and 25-49 lines? Hasn't this made it nearly impossible for AOR to achieve market dominance in more than those target demos?

LARRY.... That depends on the individual station and its situation. For an aging AOR who has consistently played harder edge material facing ratings deterioration and a classic rock competitor, that may be impossible to do. For a well maintained heritage AOR that has played a good percentage of currents, it's a piece of cake.

If you owned a station and someone came to you and said "We're going to lose 2 to 3 points 12+ to gain 4 to 5 points in men 25-49", is that a trade you could live with?

LARRY.... Yes that's a good business trade. 12+ numbers aren't really aren't much of a business factor anymore. The only place I see 12+ numbers getting any play is in the trades.

There seems to be a trend back to more music intensive morning shows with lots of solid news and fewer bits. From your standpoint is that trend substantial?

LARRY.... If there is a retrenchment from high profile morning shows it's because it's hard to find really great personalities. It's easy to put on a very busy morning show, but it's critically difficult to put on a truly great one. Some people may have discovered that a lot of movement without a lot of substance isn't the way to go. In some markets they are so personality oriented that the audience almost requires you to present a strong personality in the morning. Other markets are very music intensive and every time you talk you're selling yourself short. Again, go back to what your market wants.

I see a lot of CHR morning shows being recruited for the format and, in a lot of instances, they just don't seem to stick. Is there a problem with CHR morning show values on AOR?

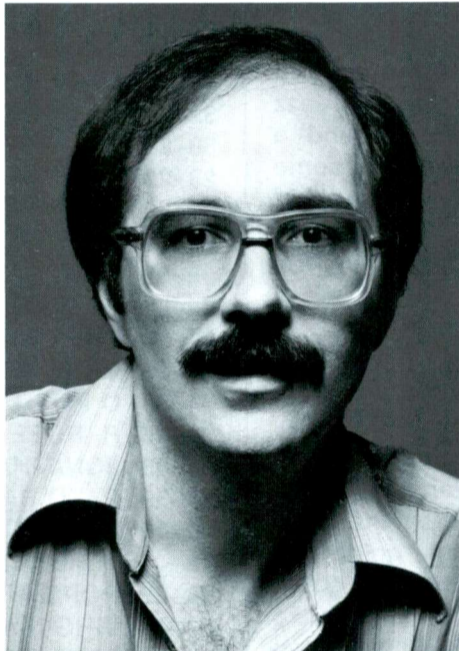

LARRY.... I think there is a stylistic difference and if the talent is not properly acclimated they can create resentment and cause some tune out on the part of your AOR core. On the other hand, I think that great entertainers are great entertainers, it just depends on whether you want a Jackie Mason on your morning show. You have to decide whether the personality you put on the mornings is consistent with your stationality.

We've talked about the curse of generalization, we've talked about trade manipulation and record company issues. In the Book of Bruce what are the key issues right now?

LARRY.... Localization, localization and localization.

With localization being the obvious key to your approach, how do you envision the future gameplan of radio?

LARRY.... What we have to look forward to in each of our individual markets is more sophisticated competitive battles. I think we will see more successful narrow format approaches as markets continue to fragment. You must focus on the battle in your sector and forget about the national issues, that's for the press to write about. When the PD, down in his fox-hole, starts to spend time thinking about what the headlines will say tomorrow, he's going to get his butt shot off.

**THE
HARD REPORT**
Pick

The Woodentops "Wooden Foot Cops On The Highway" (Columbia) The Giant is replaced by a mechanical man on the cover, and since The Woodentops have already made their mark on the music scene, it's the perfect time for the band to forge ahead with more great material to knock your socks off. When rhythms are as vivid as this, one can't help but react to the beat inspiration. You can dance, sing, clap and groove to every song on the new album and yeah, even take the bandana along for a ride. As a progressive record, this band is bound for solid rotation. Mainstream radio is still looking the Rock Track, and it's called "Wheels Turning". I'll take "Stop This Car" and "Maybe It Won't Last", thank you. Uplifting, erratic and quick to throw a musical punch, there's no way you can block this one. Grant this band a visa - quick!

The Jazz Butcher "Fishcotheque" (Relativity) Not only is it obvious that Pat Fish (the creator of JB) truly likes to make music, but you're bound to like his style after just one listen. If sincerity is a twist, then this album is in knots with tightly woven guitar melodies surrounding pure and timely songs for Now people. With a charming sense of atmosphere, the ringing strings in "Fishcotheque" continue the tradition on the 6th release for this group. What's even better, the key tracks are memorable ones you could even look back on someday. Yes, the Jazz Butcher has created a substantial following and a special niche at alternative radio and even sold some records in the process! It's easy listening and fun programming all in one with tunes like "Out Of Touch", "Next Move Sideways" to start. For the college syndicate it's "Chickentown" or bust.

The Pontiac Brothers "Johnson" (Frontier) You can call me... and I'll tell y'all about the P-Bros and what I don't know I'll make up. But as history may soon have it, don't be surprised if the Replacements fan club soon flocks toward the gutsy, natural approach to rock music shaped by these up and comers. There's no pretending going on "Johnson" - just pure bred riffs, crunching guitar melodies and lyrics that'll singe your memory, like "...king of the road, scum of the earth..." in "What You Want" which spun me around the first time. But the living color of Ward Dotson's guitar playing permeates the grooves and brings this album to life and Matt Simon's words o'wisdom hit and stick. "Ain't What I Call Home" starts off with plenty of drum rolls to go around, and Dotson breaks a nasty habit in "Creep". "Doin' It Again" glows with a sparkling piano

piece that slows things down a bit, only for more pounding energy to resurface in "Comin' True". If you missed "Fiesta" last year, here's an important link to the potential of the Pontiac Brothers, Southern California's home grown answer to real rock 'n' roll.

Drivin' N' Cryin' "Whisper Tames The Lion" (Island) Not only did this Atlanta band land a label that's been tried and true, their second album serves as the release that will guide them to the forefront of young American rock music movers and shakers. Produced by Anton Fier, their second album reveals roots, blues and garage pop with a sure fire blast of emotion which all changes at the drop of a needle. A gathering of songs that not only introduce the many styles that the band draws from, but causes immediate appreciation for the diversity of songs, each touting the distinct drivin' n' cryin' guitar signature and Kevn Kinney's dry, forceful voice. To coin a cliché, the difference here is in the mix, a perfect blend of southern blue grass with a slight twang in "Good Day Every Day", "Friend Song" and "Blue Ridge Way" to the pounding core intensity of "Powerhouse" and "Livin' By The Book". Although you might assume this band borrows some of their approach from Husker Du, the music will make you stand up and notice them in a class all their own.

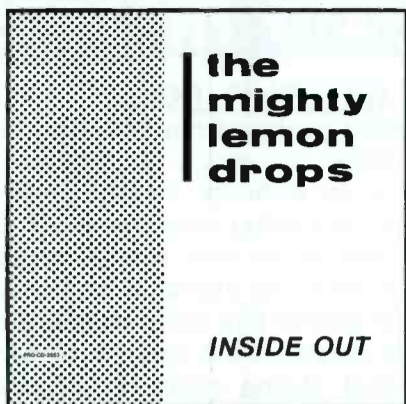

NEW RELEASES

Pato Banton "Never Give In" (PMRC)
Advancing to 39* Airplay this week, Pato Banton has turned more than a few heads with his political edge and fierce reggae beat. Ranking Roger joins in for the title track with Steel Pulse backing, and you may remember "Absolute Perfection" from the band Private Domain which had great success on KROQ, Los Angeles last fall. As a supreme motivator, Pato's message is loud and clear at KCMU, KUSF, WMDK, WRAS, WWVU, KABL, KCPR, KJET, KTCL, KUNV, WBNY, WCDB, WNCS, WRVU, WTSR, WXCI, WOXY and WHTG.... WKXL's Renee Blake says, "Pato Banton's reggae with biting political commentary puts reminds me of the late Peter Tosh and Bob Marley. Check out 'Never Give In', 'Too Much War', 'Handsworth Riot'".

If you have yet to experience the new single from Ryuichi Sakamoto, "Risky", which features Iggy Pop on vocals then maybe a shiny new CD single will grab your attention. So rich, mellow and finely produced is this gem that you'll never be able to mix this track with The Stooges unless you're into the shock value. CBS Records is your contact.... Among prominent new releases is the "**Salvation**" **soundtrack** mentioned in this column last December. It features unreleased tracks from New Order including "Touched By The Hand Of God" which is out on Factory U.K. now. Other artists found on the "Salvation" soundtrack (starring new Mom, Exene Cervenka) are tracks from The Hood and Cabaret Voltaire. Probably the biggest question is how to get the record! Call Steev Riccardo at Giant (516-764-6200).... The latest Fall single, "Victoria" ships this week. As one of the most important underground mainstays, Mark E. Smith's musical conviction is as strong as ever on the new album "The Frenz Experiment". Certainly a remake to put some Kinks into the scheme of things, "Victoria" won't let you down. "Hit The North" is also on the album, probably one of their most accessible singles that got an airplay boost on import late last year.... If you think a double album from The Damned has a nice ring to it, than you'll be especially pleased to know that the singles have been compiled, collected

and cut into a double album brought to you by MCA Records. No more taping up those beat up import sleeves of long ago. Clean copies for everyone arrive this week.... Thomas Dolby has been signed to EMI-Manhattan Records.... Chrysalis Records is still buzzing with the overwhelming success of Sinead O'Connor who will be touring next month, and the Crazy House and Raymonde album releases are now kicking in. Next in line is the new album by Stump. Strange name and fittingly so. In weeks to come, see if this puzzling yet genius band of outsiders from England doesn't leave a mixed up signal or two. A swirling mix of sporadic percussion and psy-fi visuals mix the Dukes Of Stratosphere with Captain Beefheart and beyond leaving reality in the dust and one big dose of escapism to captivate you. It's too well done to ignore. Take 'em one track at a time and don't miss "Charlton Heston" on the next Hard Alternative CD Sampler.... David Sylvian will tour in March beginning in Minneapolis on the 23rd; Chicago 3/24; Toronto 3/26; Philadelphia 3/29; D.C. 3/30; NYC 4/1 with more dates to be announced.... There's a rumour brewing to the effect that Husker Du have broken up. No confirmation either way at press time.... Nettwerk has just released the Tackhead Sound System album titled "Tackhead Tape Time". For those who bath in dubbed sound effects with a sizzling dance beat, Tackhead is one band that won't let up for a second. Featuring mix man Adrian Sherwood, Doug Wimbish, Skip McDonald, Keith LeBlanc and Gary Clail, the new Lp is sure to dent dance charts and make a sweep at college radio. And for those who forgot to funk, it's perfect! Write to Nettwerk/Canada for a copy: 1755 Robson Street, Box 330, Vancouver BC, V6G 3B7.... "Children", the new album from The Mission U.K. is produced by ex-Led Zeppelin bassist John Paul Jones for release on February 29th. "Tower Of Strength" is the first single, and a mighty one at that.... Suzanne Vega has been nominated for three Grammy's for her "Solitude Standing" Lp, which has also sold over 2.5 million copies world wide. The categories are Record Of The Year, Song Of The Year ("Luka") and Best Female Pop Vocal. The album has reached Gold status in the U.S.... WWUH/University Of Hartford holds a yearly fund raising MARATHON to benefit the station's operation. Voted Best Alternative Radio Station in Central Connecticut for three years now, this event will hopefully continue the trend. Items for donation can be sent to the station at University Of Hartford, West Hartford, CT, 06117 attention MARATHON, which takes place March 6th through 13th.... Welcome WFIT, Melbourne FL, and WBER, Rochester NY as new Hard Alternative Reporters.... The first U.S. tour for These Immortal Souls will begin in March to include L.A., Boston, New York, Minneapolis, Chicago and San Francisco. The video for "Marry Me, Lie! Lie!" will air on Night Flight's Snub TV the first week in March.... I'd like to personally thank the folks at the Gavin Report for a hosting a superior convention with class and organization, but for mostly placing Progressive music on the pedestal where it belongs. Every week we repeatedly hear the statement that this music is the future of radio. Believe it. Congratulations to the award winners and nominees.... Look for Airplay highlights next week on the Alternative Chartstars including Midnight Oil, Robyn Hitchcock, The Godfathers, Balaam And The Angel, The Mighty Lemon Drops, E*I*E*I*O, The Church, Blue Rodeo and the soundtrack to "She's Having A Baby" - all burning up the Alternative Chart fast and furious. Stay tuned.

HEAVY HITTERS

Udo, "They Want War", RCA....

The long awaited project from Accept's former lead vocalist is finally in and.... a winner. The first emphasic track is a finely crafted metal monster. There's just no mistaking that trademark Udo growl that grabs at the lyrics and makes mince meat of them. It makes your hair stand on end. It seems that Udo's gathered around him some outstanding players whose creative musicianship lends itself beautifully to his unique vocal styling (with an effective use of keyboards). If this cut is anything to judge the rest of the album by, it's gonna be a killer. We have listened to a couple other tracks off it and a particular standout is "In The Darkness", which has some incredibly versatile melody lines and features more elaborate vocal technique. "They Want War" features a strong chorus that hammers home the importance of the topic: war. The child like vocals on the outro, could be seen as a subtle and timely reference to who some of the other victims are in war. The track is full of interesting changes and thought provoking lyrics. Check it out.

Zodiac Mindwarp And The Love Reaction, "Tattooed Beat Messiah", PolyGram....

Beer lovers rejoice! The party band of 1988 is right here right now. We love this record and it's good to see that so many of you do too. This week they debut on the Hard Hitters at 31* and are number 3 Most Added Metal. Right now the emphasis is on "Prime Mover" but there are so many other tracks on this record that are sure to get your phones doing a tap dance. Jon Johnson of WKNH says, "The Zodiac Mindwarp Lp is one of my favorite albums so far this year. Any guy who spent his initial advance of Jack Daniels and comic books has to be great," WOUR's Kevin Kasky had this to say, "When you first hear the Zodiac Mindwarp, you'd think this band had been playing together for 25 years. The feeling I get when listening to it tells me that they know where each other is at." Spin these: "Backseat Education", "Born To Be Wild", "Driving On Holy Gasoline", "Spasm Gang" or any other of the 16 zany tracks.

Megadeth, "Anarchy In The U.K.", Capitol....

Here we go with the second 12" from the former #1 (yes we know it's hard to believe) Hard Hitter. This cover of the Sex Pistols classic is an obvious pick for airplay. The production and overall sound is very true to the original which should keep fans of both groups relatively happy. Now that most of our reporters have finally recieved a copy of the Lp, the Mega-ones may even be able to regain their position at number one. The album has been recieving play at many of our reporting stations including: CHEZ, KCMU, KFMX, KRSR, KTEC, KUCA, WCWP, WGIR, WHJY, WJUL, WKNC, WNGZ, WRCN, WVVS and Z-ROCK. The record has also generated top 5 requests just about everywhere to make it #1 in that departmant. See "Anarchy" done live if you get the chance. It rocks.

AC/DC, "Blow Up Your Video", Atlantic....

NUMBER ONE! Megadeth was just beginning to settle in at number one, when this sucker hit the air. Almost everyone is on it - as well should be the case. It's definitely one of the better slabs of vinyl we've seen from this band in quite some time. Requests? Ha! They're currently at number three Most Requested Metal (Megadeth is holding on to one- for the time being) and number two Most Added Metal. Depth tracks? YES! Like these for instance: "Meanstreak", "Nick Of Time", "Ruff Stuff" and "Go

Zone". This record's all over AOR as well. This week on the Hard Hundred "Heatseeker" moves to 21* and the Lp is at 22* - pulling number 4 Most Requested. What more could you want from this band, except maybe a tour. Soon.

Lizzy Borden, "Shock", Metal Blade.... This track is as accessible as they come and yet it's still a metal monster! Penned by Lizzy and former guitarists Gene Allen and J. Holmes, this the third 12" from the highly successful "Visual Lies" Lp, could be the one to breath new chart life into this band. It's got enough devastatingly effective guitar and vocal harmonies to keep the new Lizzy fans ever so happy and just enough of the cutting bite to keep older fans interested. Overall it's a much milder cut than some of the others off this Lp but a lot of you seem to be going for it. With the recent loss of his blazing guitar team, it will be interesting to see what new direction, if any, the band takes on future projects. The "Visual Lies" Lp has done very well for this mind over matter band, and their live performance is the perfect complement to the success of "Me Against The World" and "Eyes Of A Stranger". If you liked those two, then you'll really go for this one. If you really want to explore further the Lizzy Borden mentality, then drop the needle on these: "Outcast" or "Lord Of The Flies" or "Den Of Thieves".

Eric Steel, "Infectious", Passport.... This week metal reporters from across the U.S have landed this record on the Hard Hitter's Chart at 35*. This is your basic, traditional rock band who obviously appeal to a wide variety of musical tastes. Some of our harder thrash heads added this record in the last week or so, as well as the more flexible metal heads. The strength of this record seems to lie in their careful use of the standard hook and riff method of songwriting. They don't stretch it - they just give what it takes to make the song work. That can be good and bad, but in this case it seems to be working. That method of songwriting is most evident in the more accessible tracks like "Wanted Man", "Rescue Me", "Somewhere Sometime" and "Forever Yours". It's not everyone's record - that is for certain, but if you are getting a little tired of the onslaught of thrash on the metal scene, this could be just the breather you need.

Dead End, "Ghost Of Romance", Metal Blade.... Metal Blade's latest project, from the orient, has finally managed to rumble it's way onto our metal chart this week. Debuting at 40* this week, they join label-mates Candlemass on their quest for Top Ten status. Combining a flare for the dramatic with all out, full force rock and roll, this band has won airplay with many of our reporters. "Ghost Of Romance" should prove to be quite a contender in the metal wars that are now beginning with the flood of new releases hitting your desks. Tracks to track include: "Phantom Nation", "Song Of A Lunatic", "Dance Macabre" and "The Godsend". Already On: KBER, KSLC, KTEC, WCWP, WGBW, WKNC, WKNH, WNGZ, WOUR, WPYX, WRCN, WWVU, Z-ROCK and more.

WARNING: In the next few weeks we'll be seeing releases from some heavy acts sure to make dents all over the Hard Hitters Chart. Coming soon: Fifth Angel, Kings X, Fates Warning, Hallow's Eve, Judas Priest (hot!), Toxik, Znowhite, Destruction, the Kingdom Come Lp and a few others. Further down the road, we're looking for new releases from Wargasm, Leeway, Bonfire, The Scorpions, Queensryche, VH, Yngwie Malmsteen and a host of others. It's gonna be another killer year for metal.

METAL FILINGS

-The Monsters Of Rock stadium tour is coming. The line-up for the mega-tour includes: Dokken, Scorpions, Metallica and Van Halen. This summer, the superstar line-up is to hit a minimum of 25 stadiums across the U.S. The shows are to feature some of the most elaborate staging ever for a tour of this size and is said to be the most costly tour ever. Each band will perform a full headline set during each show. Possible attendance for the 25 shows could exceed 2 million. More info and dates as we get them.

-The infamous Monte Conner informs us that Roadracer has just signed an American distribution deal with MCA. The first group to be affected by the deal is Gang Green, which was released on February 8th through MCA. The next releases due for release with MCA are Toxik and Znowhite on April 4th.

-TNT and drummer Diesel Dahl have parted ways recently. Apparently Diesel left to pursue some other projects. No news yet as to who could be the replacement.

-Zodiac Mindwarp wed model Rachel Bird on February 5th. The groom wore black leather and a cowboy hat and the bride wore a somewhat more traditional gown.

-In the Lizzy Borden camp, word has it the band is currently writing new material for their next release which is described as a cross between Alice Cooper's "Nightmare" and Kiss' "Destroyer". The new material will require only one guitarist and a replacement hasn't been named yet for departed guitarists J. Holmes and Gene Allen.

MUSIC NEWS

Hi, metallers and metalettes. This is Sal "The Earl Of Earache" Treppiedi from Control Center with this week's metal news. This week, we'll hear from John McManus of Mama's Boys in the first of our four part feature. First, let's get to the news.

Recently, "The Morton Downey, Jr. Show", a New Jersey based talk show, had a debate about labels, and the printing of lyrics, on heavy metal records. Representing the PMRC was Jennifer Norwood, one of the organization's directors. Representing the metallers were Howard Bloom of the Howard Bloom Organization, one of the biggest publicity firms in the country, who have represented Vinnie Vincent Invasion and Scorpions in the past. Jay Jay French of Twisted Sister also appeared. Both sides were presented equally and fairly. Although I will not go into specifics about what was said, I do want to point out a scene that took place. One of the metal representatives (and I use the term loosely) was the Great (?) Kat. She came on and said nothing about what they were talking about. Instead, she began to call the host a sexist and told how women don't get a fair share in metal. She even told Downey to "Suck my -bleep!" Be real woman. (?) You're on television. Metal already gets a bad rap from parents and organizations like the PMRC. We don't need people like her giving metal any worse a reputation than it already has. Downey proceeded to

February 19, 1988

throw her out of the studio, but not until he responded that "She probably has one" to her remark. Grow up!! One more point, although I personally did not agree with much of what Jay Jay French said, his comment about not blaming rock and roll is a valid one. Too much blame is placed on rock and roll for acts done by maniacs. I'm sure that many of you out there will agree with me. What's your opinion? Write us and let us know.

Armored Saint came to New York to play two shows at L'Amour in Brooklyn and Sundance in Bayshore, Long Island. The band play a killer set at both venues. They unveiled a song that I have never heard them do. It was Sabbath's "N.I.B.". I have said it a thousand times and probably written it as many times: Armored Saint belongs in an arena. By the way, Saint is looking to release a live album and video. Both were recorded at separate shows on their recent "Hell On Wheels" tour with Grim Reaper and Helloween. At the Sundance show on Saturday, **Yngwie Malmsteen** was in the audience. Malmsteen, who now makes his home in New York, previewed four new cuts off his forthcoming album. The songs were "Rising Force", "Deja Vu", "Crystal Ball" and "Faster Than The Speed Of Light". Sundance's DJ, Fingers of WBAB and myself both thought that the tunes were real killer stuff. In fact, you can put any thoughts of Malmsteen wimping out because these songs are heavy. Also, Joe Lynn Turner has never sounded better.

This week we begin a four part interview with **John McManus** of **Mama's Boys**. The band has recently released a new album, "Growing Up The Hard Way", and a single called "Higher Ground", a Stevie Wonder original. The band is currently touring Europe and are expected to hit the States in April. The band features the McManus brothers, John on bass, Pat on guitar and Tommy on drums, along with former Airrace vocalist Keith Murrell. In the first part, John talks about one of the serious health problems that plagued the band following the "Power And The Passion" tour.

JOHN: Back when he was nine, Tommy was diagnosed as having leukemia, which is a rare form of cancer. Since he was nine, he has spent most of his time in hospitals. He's been getting some very heavy treatment trying to overcome this disease. It is a form of cancer and very few people have survived. Fortunately for us, Tommy has been able to pull through it. He spent about five years in the hospital for treatments. They were actually able to bring him into remission. What can happen then is that he can spend five years in remission and then have a relapse. But with Tommy in remission for five years and the band touring all around Europe, we never once thought that he would have a relapse. Unfortunately, he did. Coming toward the end of the American tour, he became very ill. His body began to ache and his bones began to get very sore. He couldn't even drum in the end. We just thought it was because of the heavy touring that we were doing. That was not the case at all. We brought him back home and down to the hospital. He had a checkup and was then told by the doctor that he had contracted the disease again. Thank goodness it was in the very early stages and they were able to treat it again. He spent a lot of time in the hospital and I spent a lot of time at his bedside in Belfast. He had really gone downhill for a while. There were days where he would not eat. He became very weak. He

was taking heavy drugs. With me being there and trying to give him incentive to carry on, he managed to pull himself together. He's now back in remission. He went back to Belfast and was given a clean bill of health. He's even been touring with band recently."

Next week, John tells us about the newest addition to the band. He is the first non-McManus brother to join Mama's Boys. His name is Keith Murrell, formerly of Airrace which featured Jason Bonham.

Okay folks, for the past few weeks we have been telling you about the upcoming **Monsters Of Rock** tour. We have more information. First, this is no longer a rumor. The tour is expected to take place from late May through August. Because this tour will play in stadiums only, the dates may change depending on the availability of venues. The bands have also been officially named. **Van Halen** will headline the tour. Following them in backward order of appearance will be the **Scorpions**, **Metallica** and **Dokken**. My source also tells me that there may be another band added. We'll get you more information as it becomes available.

Queensryche is in the Netherlands completing work on their soon to be released Lp entitled "Operation Minderime". The band is currently working with Peter Collins. The Lp is set for an April release. It will be followed by a May of June tour. As big and successful as the band's last album "Rage For Order" was. One has to wonder if this new one can top it. Bet the house that it will.

Guitarist extraordinaire, **Vinnie Moore** is currently putting the finishing touches on his forthcoming record entitled "Time Odyssey". The album, which is expected to be released on May 1st, will be an instrumental album.

TOUR SHORTS: White Lion hops on to the Aerosmith tour in March.... Dokken, who has been opening for Aerosmith, will be touring Europe with AC/DC for six weeks. Afterwards they will tour Japan in late April.... L.A. Guns and Laaz Rokit will be hitting the road together. The tour will be known as the "Heavy Guns" tour.... Motorhead and Manowar will be doing some dates on the east coast (God help your ears).... Armored Saint will be opening for Ted Nugent beginning in late February in Texas.... Nugent will be touring with Mama's Boys in England and parts of Europe.... Anthrax will be opening for Kiss beginning in March.

That's all for now folks. Until next time, this is Sal "The Earl Of Earache" Treppiedi reminding you to vote for Mr. Death in your state's primary election. Remember, he'll be watching you. Next week, we'll have part two of my conversation with John McManus of Mama's Boys plus some major developments for two top heavy metal labels. MUYA!!!

-Sal Treppiedi

February 19, 1988

Music Now! is contributed by **Mike Cooper**, P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

Starship's **Grace Slick** has decided to give up touring, but she says the decision is not because of criticism of the band's music.

Glenn Tilbrook of **Squeeze** joined **Rick Richards** of the **Georgia Satellites** in a brief late night jam session at an Atlanta club after **Squeeze** opened their North American tour in the city.

Nancy Wilson is denying reports that **Heart** is about to break up, following its current tour. "We're stronger than ever, and we've already begun writing songs for a new **Heart** album that will precede any solo projects," **Wilson** says.

The Hooters recently played a benefit concert for the homeless at the **Chestnut Cabaret** in Philadelphia.

Former **Go-Go's** member **Jane Weidlin** has finished recording a second solo album.

There are no plans for the **Talking Heads** to tour in support of their upcoming "Naked" album, according to keyboardist **Jerry Harrison**. In fact, **Harrison** says that **David Byrne** is in Berlin right now, working on a film with **Robert Wilson** about the Babylonian myth of **Gilgamesh**. **Harrison** is planning a tour to promote his "Casual Gods" LP. It will include some of the musicians who have toured with the **Talking Heads** in the past, such as keyboardist **Bernie Worrell**.

Toots & The Maytals plan to record their next album in Memphis. It will be an LP of cover tunes. Then, the band will go back to Jamaica, to record a more traditional reggae album. **Frederick "Toots" Hibbert**, says he plans to become more active, particularly in light of the death last year of **Peter Tosh**. "I think I'm responsible for reggae's message now," **Hibbert** says. "I have a different work to do now because the reggae needs good spirit and accommodations. You have to accommodate the people with the lyric and the music that has the roots."

Chip and **Tony Kinman** have now dismantled the band they put together after the demise of **Rank & File**. The **Kinmans** are now working as a duo, backed by an electronic rhythm section.

Yes ended up spending 10 days in Miami waiting for **Trevor Rabin** to fully recover from exhaustion. Doctors ordered **Rabin** to rest after he had performed five times with the flu and a 103-degree temperature. "That can easily happen sometimes during a winter tour," says **Jon Anderson**. "He got sick and then wore himself out trying to go on."

The Georgia Satellites' next album is expected to be released in May.

Sting has filmed a video with **Ziggy Marley** for the **Police** song "One World (Is Enough For All Of Us)." The video will be used to help promote the Council of Europe's North South Campaign, an organization which works to educating Europeans about Third World countries.

Jimmy Page's album, due out in May, will feature vocals from **Robert Plant** on some of the tracks. **Jason Bonham**, son of the late **Led Zeppelin** drummer **John Bonham**, is in **Page's** band, which is expected to tour in May.

Steve Winwood is recording his next solo album in Ireland.

Frank Zappa's concert scheduled March 23rd for the **Patriot Center** at **George Mason University** has been moved to another school. The promoter says the prime reason was **Zappa's** run-ins with the **Parents Music Resource Center**, which is located at the school. The university thought it would be inappropriate for **Zappa** to play at **George Mason**, so instead the show will take place at **Towson State University**.

Prince popped into the Los Angeles studio where **Pretty Poison** are recording their next album, bringing things to a halt for about an hour or so while he visited with band members and **Andre Cymone**, who is producing three songs for the LP. The **Pretty Poison** LP will be out March 28. **Prince** is about to record an album in the same studio.

Wax U.K., the band that includes **Andrew Gold** and **Graham Gouldman**, are planning to tour the U.S. this spring. The two just wrapped up a lengthy tour of Europe.

Nazareth are on the road celebrating their 20th anniversary this year. Currently the band is in Canada, where a "Very, Very Best Of" CD compilation has been issued.

Loverboy is opening for **Saga** on their current European tour which runs through April. The tour will include dates in Moscow and Leningrad.

Former **Iron Maiden** vocalist **Paul Di'Anno** is now heading a band called **Battlezone**, which has a new album called "Children Of Madness."

The Irish band **Rhythm Method** have been including free condoms with copies of their debut single, "No Joy." But, one British music paper wryly noted that the condoms are attached to the single sleeve with staples.

The Bangles plan to record a new album for release this summer.

Full Force are producing an album by **James Brown**.

Wayne Hussey of **The Mission** contributes vocals on one of the tracks from the upcoming album from **All About Eve**, a group which describes its sound as "folk metal."

Michael Hutchence says **INXS'** longevity is primarily due to "not noticing the time go by." **Hutchence** was 17 when he started the band ten years ago. "You see, we started so young that half the time was occupied by growing up, which I suppose we are still doing to a certain extent," he says. "We've had good times and we've watched each other go through hell. Ten years is a long time. Hell, people don't even stay married for ten years, let alone six people."

Miles Copeland says he formed the **No Speak** record label to bring new age and new wave music. "The **Windham Hill** scene aiming for my age group is covering the relaxing side of what I want, but I don't want to hear that while driving home from work. It could put me to sleep, and the next thing I know, my car will be wrapped around a telephone pole," **Copeland** says. He says he'll be going for "brilliant players" for the label. "If they grew up on rock, this music is something they can understand, plus it won't have the juvenile lyrics about some guy scoring on a chick."

The Melbourne Music Show got underway last weekend with 35,000 to 40,000 people attending the first few days. **Icehouse**, **Mental As Anything** and **Boom Crash Opera** were part of the first day's closing concert, which was televised in every major city in Australia. The series of shows is the largest musical event in Australia's Bicentennial.

That Petrol Emotion have played a benefit concert for the **Nicaragua Solidarity Campaign** in London. The show took place the night before **President Reagan** asked Congress for additional funding for the **Contras**.

Holly Johnson won his High Court battle to free himself from an injunction that has prevented him from recording for the past six months. **Johnson** had been claiming that his contract with **ZTT Records** was unenforceable and in restraint of trade. **Johnson** is now the fifth act to leave the label for contractual reasons. He's been working on a solo album, but plans for its release had been delayed by the court case.

Jan Hammer contributes to two tracks on **Clarence Clemons'** upcoming album.

Jack Bruce plays on **Leslie West's** upcoming album, which will feature **Bruce** singing on a re-done version of **Mountain's** "Theme From An Imaginary Western."

The Creepers have broken up, following a "stabbing incident" between band members on New Year's Eve. "Rock & Roll Liquorice Flavour" will apparently be their last album. **Marc Riley** is putting together a compilation of **Johnny Cash** covers, that will feature **Marc Ammond**, **Jeffrey Lee Pierce** of the **Gun Club**, **Steve Mack** of **That Petrol Emotion**, and **Pete Shelley**. A different guest vocalist will appear on each track. Veteran **Creepers** drummer **Eddie Fenn** will soon be releasing an album with his band **Bargepole**.

Spokesmen for **Peter Gabriel** and **Davie Bowie** deny reports they will be appearing at a series of anti-drug concerts in Moscow in March.

Delvin Tyson, a founding member of veteran British reggae band **Misty In Roots**, drowned while touring with the band in Ghana, in western Africa. **Misty In Roots** are the first reggae band to play in Moscow and have toured extensively in Eastern Europe. A compilation tribute album will soon be released in Britain.

Prefab Sprout's latest British single is an intentional jab at Bruce Springsteen. "Cars And Girls" is the name of the track. "I'm not actually picking on him, I'm just considering that certain way of looking at the world -- the road as a metaphor for life," Paddy McAloon says. "Do I like him? Am I criticizing him? It's a mixture of both. Although I like simple things, I don't find his music very interesting -- to me, I've heard Presley, heard 'Heartbreak Hotel,' so I've heard rock & roll as it can be. Lyrically, he doesn't offer anything new, yet at the same time you can rely on him. It's like Mark Knopfler -- they don't cheat anyone, and I think that's their appeal. In some ways, I think they're preferable to the willfully avant garde. It's just that sometimes you'd rather have a bit of fun."

Helloween will go into the studio next month to record the second part of "The Keeper Of The Seven Keys."

Zeno, a German rock band led by Zeno Roth, will record a new album in late spring for release in September or October.

Andy Susemihl has joined **U.D.O.**, the band fronted by former Accept vocalist Udo Dirkschneider. Susemihl was formerly in Sinner, where he's been replaced by Tom Naumann.

Motley Crue are expected to begin recording their next album in July.

David Lee Roth's new album sees the replacement of original bass player Billy Sheehan by Matt Bissonette, younger brother of drummer Gregg Bissonette. "It was my decision that Billy should leave and Matt should get his shot," Roth says. "Billy was a fine player, but nobody made a life decision when they joined this band. As the chief mechanic of this road machine it's my job to keep the engine good and tunes, and that means making tough decisions now and then. That was one of them, but that's my job."

UB40, **Boy George** and **Cabaret Voltaire** appear on **Afrika Bambaataa's** upcoming album called "The Light." Ali Campbell performs lead vocals on the track, "Reckless," and also appears in the video for the song.

U2 and **Elvis Costello** appear on the soundtrack to the film "The Courier," which stars former Pogue (and Costello's wife) Cait O'Riordan. U2 perform "Walk To The Water," and Elvis,

using his real name, Declan McManus, contributes "Funeral Poison" and other tracks to the soundtrack.

In light of the success of recent Kinks covers by the Stranglers and the Fall, **Kirsty MacColl** says she's planning to cover something from the Kinks catalogue, but she won't say what.

Andy McCluskey says OMD is releasing a greatest hits album "to evaluate our career and examine what we've done." "The Best Of Orchestral Manoeuvres In The Dark" does include a new track, called "Dreaming." "I think the album sums up chapter one in our career, before we move on to chapter two," McCluskey says. "We've served out apprenticeship in the Class of '77, and it's good for people to be able to listen to our old songs again."

Don Dixon is producing an album for Irish band In Tua Nua, former backing band for Sinead O'Connor.

Former Bongos drummer **Frank Giannini** is now in a band called Winter Hours, who are recording an album with Elliott Murphy producing.

Former New York Doll **Sylvain Sylvain** has asked David Johansen to reform the New York Dolls. "It could happen tomorrow, if Johansen would like it to happen, because everybody else in the band is still alive and can still sing," Sylvain says. He says a major record label is ready to sign the reformed Dolls, but he's been unable to convince Johansen to drop his Buster Poindexter guise and participate. Sylvain, by the way, is looking for a solo recording deal. A recent solo show in New York featured a surprise appearance by former Doll colleague Johnny Thunders.

George Harrison says the three surviving Beatles are getting along better these days, but Paul McCartney is "too moody" for any reunion of band members to take place. "Our relationship is quite good but there's no reunion of any Beatles," Harrison says, in London. "We have been having dinner together. We are friends now, the first time we have been this close for a long time. But it doesn't mean to say that we are going to make another group or anything." Harrison says he's "more friendly with other musicians" than with McCartney. "Anyway there will never be a Beatles concert because there's only three of them left."

BOO-BOO DEPT. Two weeks ago I called the new Mission album "Tower Of Strength" This is the name of the first single from the album, but its title is "Children". Last week I called the Voice Of The Beehive single "I Walk For Miles". If this has produced blank faces down at your local import store, it could be because it's actually called "I Walk The Earth". Sorry for these errors.

BRIT-PICKS Albums:

Sgt. Pepper Knew My Father" by Various Artists (NME)

It's such an obvious idea that it's amazing a major record company has never attempted it - a cover, from track to track of the most famous album of all time. It's the brainchild of Roy Carr, the most senior and respected writer at "The New Musical Express" as a way of selling a lot of copies of the record (the proceeds to go "Childline", a 24 helpline in the U.K. for children who have been abused or think they may be in danger) while managing to maintain some sort of artistic integrity. Where other worthy charity albums have failed on a budget of ten times as much "Sgt. Pepper Knew My Father" is an eighties masterpiece and currently the most talked about record in Britain. The scratching, sampling Three Wise Men kick things off with "Sgt. Peppers Lonely Hearts Club Band" (originally they sampled vocals off the Beatles version but got cold feet about the legal implications and had them deleted). Winner of Best Newcomer at the BPI Awards Wet Wet Wet do a very happy version of "With A Little Help...". The Christians perform a rather dull rendition of "Lucy In The Sky With Diamonds". The Wedding Present with Amelia Fletcher takes the stylus practically off the turntable with the electric energy of their reading of "Getting Better", although Hue And Cry give us a less than satisfactory version of "Fixing A Hole". Perhaps the finest performance on the album comes from Billy Bragg and Cara Tivey with "She's Leaving Home". The mournful baroque melancholy of "She's..." could have been written for Bragg. His new partner (a taste of things to come on Bragg's next album) Tivey plays piano, recorders and adds a lovely bittersweet backing vocal. Tremendous! The most avant-garde version of a Beatles song you will ever hear is Frank Sidebottom's "Mr. Kite" although Sonic Youth's "Within You Without You" has taken one of the more overlooked tracks and taken it to new heights. British jazzman Courtney Pine does a scatty, jumpy instrumental of "When I'm Sixty-four", while Texan Michelle Shocked draws her way acoustically through "Lovely Rita". I'm not sure really whether a girl and an American singing this song really works. The Triffids present a most bizarre version of "Good Morning Good Morning" while The Fall bring everything to a climax with their jarred, angst-ridden version of "Day In The Life". At present, this album is only available by mail-order to readers of the NME or anyone else who cares to send away for it. It will be eventually available in British shops, at the moment it is hotly rumored that Island are going to distribute it. Whether it will be released in North America is a question that remains a long way off. This is however highly recommended to alternative radio. If you wish to have the album or cassette by mail-order send 6 -99 lbs (money order, bankers draft, or the equivalent in dollars) to ABLEX AUDIO VIDEO, Sergeant Pepper, Harcourt, Halesfield 14, Telford TF 7, England.

"World Without End" by The Mighty Lemon Drops (Chrysalis)

Already "Inside Out" has deservedly been getting lots of airplay on both sides of the pond, but I wonder if there is enough strong material here to match the first single's promise. Unlike "Happy Head" much of the music, hampered from the exclusive use of guitars and drums sounds one dimensional and strangely dated. Perhaps it is because some of the influences from the sixties to Echo and the Bunnymen are also a bit ob-

vious. But to the Mighty's credit, they are sticking to their guns and putting out their uncompromising, some would say willfully unfashionable music without care of what critics like me think. "Breaking Down" sounds Hendrix-like in places and "Fall Down"(Like The Rain) is also recommended as a slower cut.

UK MUSIC NEWS

Ex-singer for Frankie Goes To Hollywood, **Holly Johnson**, walked a much anticipated road to freedom, after shaking off all recording and publishing ties with ZTT, it was decided in a London High Court after a three week hearing. Mr. Justice Whitford, a man who confounded all assumptions that he had become aware of the term "rock and roll" only a week earlier, described ZTT's contracts with Holly and the rest of the Frankies as containing numerous unfair terms and ordered an investigation into possible damages resulting from overexpenditure on the recording of the band's second album, "Liverpool". ZTT husband and wife directors Trevor Horn and Jill Sinclair bit nails and glumly twiddled pencils as the judgement was read, resigned to losing another of their acts through legal action (gone by this means are Propaganda and Art of Noise. Next to leave in a settlement expected this week will be Das Psyche-Oh-Rangers and bailing out from Stiff just before the label name was taken over by ZTT were the Pogues). ZTT carry on with two artists; Act have a single out soon and an album out next month and hard rock hip hop group Nasty Rocks Inc. have their debut album out soon, produced by Trevor Horn. Even Holly Johnson hasn't ruled out working with Trevor again: "I've never had any personal arguments with Trevor and I think he is a very talented man." He said. He claimed his victory would "change the future of record contracts in this country. It's a victory for all young, struggling artists. It means that all contracts will reach a better standard and make the industry a happier place. The remaining members of Frankie were recently let go from ZTT. Their hunt for a new lead singer proved fruitless. They may however continue as Frankie Goes To Hollywood or under the name of The Lads. The judge described as particularly nonsensical the contract clause which stated that if any member left the group, they were bound to stay with ZTT and start their solo career with them. This clause was the main plank of ZTT's case. Holly Johnson who fought the case with over \$200,000 advanced to him by MCA, begins recording for the label soon.

Madness are reforming - at least some of the members - Suggs, Lee, Carl and Chrissie Boy. But they are calling themselves The Madness to avoid legal problems that might arise over the use of the name - two former members Woody and Bedders are currently part of Voice of the Beehive. The first new material from The Madness will surface on Virgin Records next month. They have already secretly recorded an albums worth of material. A fuller lineup will also be announced nearer the releases.

Former lead singer for The Clash, **Joe Strummer**, who has recently been guesting with The Pogues, releases his soundtrack album for the movie "Walker" on February 22nd. Directed by Alex Cox, "Walker" is the story of 19th century adventurer William Walker, who tried to set up an empire in South America before he was executed by the Nicaraguans. Strummer has previously collaborated with Cox on the soundtracks to "Straight To Hell" and "Sid And Nancy" and he's also featured as an extra in "Walker" which was largely shot on location in Nicaragua.

UK INDUSTRY NEWS

Album sales have soared in Britain, following the televising of The British Record Industry Awards. According to "Music Week", 60,000 extra albums have been sold over the past week particularly by artists **U2** and **Rick Astley** - but **The Pet Shop Boys** report a 70% increase in their album sales, **Chris Rea** 120% and **Bananarama** 400%!! As predicted at the recent **MIDEM** music business conference in Cannes, prices for CDs

are starting to tumble. Two budget labels are offering their CDs for an all time low of 2-99 lbs (\$5-25 approx.) Asked how he can produce CDs at such a low price, Spectrum label manager Ted Fisk replied: "With great difficulty. The margin is very low, but if you sell enough it makes it all work." He describes the reaction from chains like Woolworths to his primarily light classical and MOR compilations as "Incredible!"...The RAK label is to return along with its founder Mickie Most. In the late sixties and early seventies it was one of Britain's most successful labels domestically churning out the glam-rock that the nation wanted to hear like Mud, Suzy Quatro and Skowaddywaddy. Most himself has been responsible for dozens of acts from The Animals, Jeff Beck, Uriah Heep and Kim Wilde to name just a few. RAK returns with Perfect Stranger, a band fronted by former lead singer for Uriah Heep, Peter Goalby.

IN BRIEF:

Robert Palmer has signed to EMI after 13 years with Island, including his days with band Vinegar Joe. He's recording an album in Milan which will be released in May... Ted Nugent plays a short, co-headlining tour of Britain next month with Swiss metal band Krokus...Doctor And The Medics return with new IRS single "Drive He Said" February 22nd...Erazure release their single "Ship Of Fools" February 22nd. They should be releasing their third album in April...Prefab Sprout release a four track picture disc CD single this week. The tracks are "Cars And Girls", "Faren Young" (remix) "Real Life" and "Vendetta"... Next single off the album by The Pogues will be the title cut "If I Should Fall From The Grace Of God". The B-side is a live version of Sally MacLennane" while the 12" also features a live version of "A Pair Of Brown Eyes" and an extended mix of "If I Should Fall..." ...Stephen Duffy (founder

member of Duran Duran and formerly known as "Tin Tin") bounces back with new band The Lilac Time. According to those who have heard it, expect something not a million miles away from Simon and Garfunkel!...All Beatles CD releases will be complete by March 7th 1988. EMI have managed to fit everything that was not on the straightforward albums onto two CD Volumes "Past Masters". Included are the tracks on the Long Tall Sally LP, "Love Me Do" with Ringo rather than Andy White on drums and German versions of their early hits. There are the film versions of "Let It Be", "Get Back" etc, plus stacks of B sides. A very intelligent way to complete the series...The Wedding Present's new single is "Twisting Your Arm"... That Petrol Emotion and Voice of the Beehive raised \$25,000 last Tuesday for a pro-Nicaragua benefit...Apparently there are at least four different acts touring Europe and North America at the moment claiming to be M/A/R/R/S...After only a year, the ITV network's chart show "The Roxy" that would, claimed the producers, take on BBC-TV's "Top of the Pops", is sinking fast in the ratings despite various facelifts to the show's image. ITV are bumping it from 6.30pm to after midnight...Bob Geldof is co-directing the script for a new movie which is based in Dublin. The story line is said to be similar to The Boomtown Rats 1979 song "Rat Trap" which was in itself quite autobiographical. The film features a 19 year old meat factory worker, Joey, who dreams of becoming a star...The Mute label have started an offshoot business called Mutefilms and the first offering is "Strange" a very superior 30 minute rockumentary about Depeche Mode, available in the U.K. on home video...

BRIT-PICKS Singles:

"Dominion" by The Sisters Of Mercy (WEA)

Remixed from the new album, but actually pretty similar. First class goth-rock a la Mission and perhaps even a dash of The Cult.

Jim Pemberton, WLLZ, Detroit

Adds this week include Warren Zevon. WE reconsidered.... Also re-added Icehouse's "Electric Blue". We like that one a lot. Seemed to perform well in long term testing.... Don't know where they came up with the name Big Pig, but it's pretty good.... Faster Pussycat did well on "Rate At 8" the other night so we decided to put that in.... Biggest Mover of the week: Danny Wilde moves up to heavy. Sounds real good on the air, too.... Henry Lee is doing really well.... Prophet should get an increase next week.... Kingdom Come still getting a lot of calls.... Starting to see some night calls for Lita Ford, ditto Guns N' Roses' "Paradise City".... Personal favorites include So "Are You Sure".

Ron Garrett, KRXQ, Sacramento

On behalf of one man in the radio industry, may I say thank you to the record industry. You gave so much in San Francisco, I'm glad to call you friends.... Now a singing alternative to the bland: Balaam and the Angel. "I Love The Things You Do To Me" is an intelligent approach to the mainstream from the edge. The best of both musical worlds. It settled in my rhythm box on first listen, and backed by a state of the art record label like Virgin, I feel confident that you can take this one to the bank, baby.... Great expectations are in order for Bryan Ferry's "Kiss And Tell". This record is going to happen. Reprise has positioned the project to break steady and consistent with multi format action already in progress and multi media exposure now on the way in the form of a movie soundtrack and a new video on MTV. There are too many great record people working this one and they all believe. Bryan Ferry moves us all and I move "Kiss And Tell" to heavy rotation.... If you're not blown away by Henry Lee Summer's "I Wish I Had A Girl", I wish you had some taste.... AND records of interest for me, Ryuichi Sakamoto's "Risky". Nice and tasty.... I'm also a big fan of the new Joe Louis Walker "One Time Around".... I like House Of Freaks "40 Years". I think that record is waiting to happen, and the Dynaton's "Heartbreak Radio" is on target for my taste. Thanks for reading, this take care.

Jim Steel, WIOT, Toledo

This past week Danny Buch of Atlantic made a point of thanking WIOT for the help with the White Lion. While I felt this was a very kind gesture, basically I think praise should go to the ones who had faith in the record: Pam Edwards at KGB, and the entire Atlantic staff. In fact, a phone line blew out right after White Lion requests. So should I forward the bill to Pam or will Atlantic cover costs?... This week's fastest mover: Rick Springfield without question. It's unfortunate that these knuckleheaded programmers are second guessing his image. Outside of the industry, that's not a problem. Put it aside.... Almost added: John Brannen. That's one on the verge.... Another one, besides White Lion, that's doing phone line damage is Satriani. Without a question, if there was ever a record that typified the response "Instant Phones" this is the one.... Sales movers: David Lee debuts at #1, Def Leppard continues to be a top 5 record, White Lion is doing well, as are INXS and Mellencamp.

Lorraine Caruso, WNEW FM, New York

WNEW FM continues to support new music live on the radio. The Bodeans did a killer soldout show at the Ritz last Saturday night. Watch out, this band is on its way to being another one of America's best. Our thanks to Hillary Scribner at Reprise.... WNEW FM also celebrated Chinese New Year, the year of the dragon, with another live broadcast from a restaurant in Chinatown. Ray White's guests included: Glen Burtnick, Dave Mason, Michael Bolton and Phoebe Snow. Special thanks to Randy Hock, Bobby Shaw, Jimmy DelBalzo, and Jerry Lembo.... Ray Davies of the Kinks did an exclusive live hour and a half interview with Dan Neer to talk about the rumor of a heart attack not being true, and "his life on the road".

Carter Alan, WBCN, Boston

I'm looking forward to broadcasting with the Underworld this Sunday. This band's Lp is an exciting dance sensation and "Under The Radar" rocks as well. The band plans to play their entire Lp live at a local studio and over the airwaves of

WBCN.... BoDeans Sam and Kurt came in to talk about their completely, utterly, sold out show in Providence last night. The band literally left the interview and boarded a plane for London and the start of their European tour.... Also, in great moments in 'BCN history, Flo and Eddie guest hosted on "Back To The Future" on 'BCN before their show at the Channel in Boston. A great time was had by all.

Wendy Steele, WLWQ, Columbus

Big thanks to Mark Fritzges of Atlantic, a guy who does his job well. Yes played here last week we bought all the tickets for the show, gave away many of those tickets along with "Big Generator" product. Joe Robinson, our Assistant MD, broadcasted live backstage before and during the show with special guest Jon Anderson and Trevor Rabin. (Nice leather pants, Trev.) We had a banner contest with 11 winners getting \$250 each in honor of our 11th birthday. What a ball and what an amazing show!

Paul Brown, Virgin, 212-463-0980

Holy seismograph, Batman, I can hear the rumblings all the way to my office here on 21st Street. Balaam And The Angel's "I Love The Things You Do To Me" is primed and ready to detonate. The fallout is gonna make my dandruff seem insignificant in comparison.... Warren Zevon's "Reconsider Me" is drawing rave phones. Call Curt Gary at DC-101 or Mike On-dayko at WHTF for their stories. Instinct drove them to add this record and it's coming up roses. This is an upper demo masterpiece, especially on a lyrical level. All day long, programmers talk to me about their 25-34 and 25-54 numbers. Well, here you have a record which is a heatseeker for this target demo. Maybe you should go back and take another listen. Reconsider, if you will, this record.... Mike Oldfield's "Magic Touch" rampages into or very close to the Top 10 this week, bruising up with damaged phones and mangled request sheets strewn haphazardly in its wake.... A quick note on the film, "The Last Emperor". Oscar nominations came down today and 9, count 'em 9 nominations, went to this film, including Best Original Score. This score boasts the work of Ryuichi Sakamoto (whose current Lp, "Neo Geo", features a track entitled "Risky", which showcases Iggy Pop's vocals, David Byrne and a Chinese musician named Cong Su.) All of this score is gorgeous and is a must for your "New Age" shows. Yeepuhhs!!! Talk about upper demo. Contact me, Paul Brown at 212-463-0980, for a copy*. It's a musicians like Sakamoto, David Sylvian (soon to be on tour) that represent the future of our format that forever is spiraling upward, demo-wise. Look to the future because someday, it'll be your present.

* And also in regard to the various "New Age" shows around the country. We mailed specific edits of "The Wind Chimes" and the entire Mike Oldfield "Islands" Lp to you for these shows. Please check them out and give us some feedback.

Richard Crowley, Ryco Productions, 213-654 2792

Your listeners enjoy great female vocals - who doesn't?! So do yourselves a favor and seriously consider the Bel-fires. "What You Wanted" is exactly what progressive thinking stations like KJET, KTCL, KZYR and WRAS wanted. When you add it, you certainly won't lose your hipness rating.... Good to see new action for House Of Freaks and E*I*E*I*O. You cannot deny that these bands absolutely belong on album radio.

Adam Langley, WBNY, Buffalo

Just got back from Gavin and without filling this entire page, all I can say is that it was a superb convention. I enjoyed seeing everyone out there, you know who you are!... I'm impressed with the new music out now. One record in particular I discovered that almost no one new about was The Hood on Giant Records. The track "Tough Guys Don't Dance" can work on any alternative station or even an adventurous Top 40 station! Do not miss out on this one, it's a hot song.... Phone lines won't stop ringing for Negativland.... Pop Will Eat Itself's "Box Frenzy" Lp is climbing quickly. They're becoming a popular band for us.... Midnight Oil took the big jump to #2 this week and

has sparked a lot of interest here.... The Godfathers is growing like a weed and they won't stop till #1. We're playing the whole thing with "Tell Me Why" as the key track.... G'day mate, and congrats to Larry Dunn for winning Alternative Music Director Of The Year.

Doug Clifton, KBCO, Boulder

A record we've been considering for some time now is the Roseann Cash Lp, "Kings Record Shop". "Rosie Strikes Back" should be played on any format.... The Dynatoners caught the staff by surprise with their latest effort. "Take The Heat" was everyone's fave. I'm sure there will be more favorites down the road.... Depeche Mode "Route 66" is working elsewhere and we felt it was time to give it a shot.... Hot phones on Robbie Robertson; Joe Satriani; 10,000 Maniacs; Jerry Harrison; Depeche Mode; Lyle Lovett.... Hot retail on INXS; Sting; George Harrison; 10,000 Maniacs; George Thorogood; Lyle Lovett; John Cougar Mellencamp; Terence Trent D'Arby; Robbie Robertson; Joe Satriani.... Thanks to Jay Ziskrout, Len Rokosx and Joe Bradley for The Church listening party. This band has come a long way and "Starfish" is their best yet. Besides "Under The Milky Way", faves include "Antenna", "Reptile" and "A New Season".... "Under The Milky Way" moves to heavy this week as does the BoDeans "Dreams", Bryan Ferry "Crazy Love" (from "She's Having A Baby") and Midnight Oil "Beds Are Burning".

Don Berns, CFNY, Toronto

If there was anything that could be more of a let down than coming back from California to 50 feet of snow. Great to see so many of you again, and meet some others, and totally miss some of you, too! I don't know.... So it came as a great surprise Monday night to get back into the swing of things here so easily with a concert that will be hard to beat as the best of the year! To a sold out Maple Leaf Gardens' audience, STING and his band provided an astounding display of extraordinary musicianship and showmanship that stirred the audience into a frenzy the likes of which I had never seen before, but totally deserved. With the curious exception of the bass player, this band is as perfect as one can get, giving new life to old songs and new interpretation to new songs. And the camera work was better than any I've seen in any live concert; in fact, at times it was difficult to tear my eyes away from the screen with all the live effects that were happening. Concert highlights (for me): a powerful and stirring rendition of "They Dance Alone" and the medley of "Fragile/Little Wing/From Me To You" that was so amazing it absolutely defies description. Let there be no doubt in anybody's mind; STING sets the standard for everybody else!

Neale Mann, CFNY, Toronto

Well, Don's back but Ivar isn't. He decided to take an extra week and hob-nob in sunny Los Angeles. If you are down there, be aware, Ivar's coming!... Depeche Mode's "Route 66" is still #1 phones. If you have any doubts about this record, try it and I guarantee it's a winner!... Sinead O'Connor's show was announced for Toronto this past week and we're flooded with calls. She's hot! By the way, Sinead is doing extremely well on the retail front as well-almost Gold in Canada (50,000 copies).... As far as new releases, Salt-N-Pepa is a hit with their single "Push It".... The Fall have a great Kinks cover with "Victoria".... Robert Palmer will be doing a soundtrack and the title track "Sweet Lies" is perfect for that older demo.... I agree completely with Mr. Berns on his comments about the Sting show. It was incredible, don't miss him!... Thanks to Andrew Eldritch and Patricia Morrison from THE SISTERS OF MERCY for dropping by on Chris Sheppard's CLUB 102 Saturday night show.... And (believe it or not) thanks to ALICE COOPER for a few words with CFNY's John Masacar. Cooper's fave bands (by the way) are The Godfathers and The Screaming Blue Messiahs! And he's a nice guy (don't tell anyone).

Paul Kriegler, KRCK, Omaha

The Mighty Lemon Drops is my favorite add of the week. It's the guitars, the hook, the lyrics - everything. They've always had solid support from our listeners and this album should break them wide open stateside.... Sisters Of Mercy pulls up

to #1 this week.... Godlike phones coming in for "Beds Are Burning" and "Dream World" from Midnight Oil. The strong album from a band who never cease to amaze.... Watch out world, For Against is coming! Call Independent Project Records in L.A. for a copy of their Grammy Nominated Lp "Echelons". Nominated for the cover art, yes, but the music HAS to be heard to be believed!... I've never been a great believer in remixes but both from the Cure and Echo and the Bunnymen breath new life and give a whole new personality to both songs. And if the B side to the Echo Ep isn't enough to make you see them live then.

Renee Blake, WKXL, New Hampshire

Tonio K. "Notes From The Lost Civilization" Lp has some very listenable tracks and one of the notable things is that he doesn't repeat the same song over and over again. The album reminds me of John Cougar's "Scarecrow", not for its sound so much as for the promise it makes. This is the kind of conscious song-crafting we can look forward to from Tonio K. Lots of word play in the poetic lyrics and good hooks to the songs. Check out "Without Love", "Children Crusade", "You're There", and "What Women Want".... Pato Banton is reggae with biting political commentary that puts me in mind of the late Peter Tosh and Bob Marley.... Check out "Never Give In", "Absolute Perfection", "Too Much War", and "Handsworth Riot".... The Godfathers has a driving beat! It has taken me some time to warm up to it, but the more I listen the more I like it and the album is selling well. Rhythm is very important to this band. In addition to the title cut, check out "Just Like You" and "Love Is Dead".... There are some very different styles all over the Wild Seeds record, but it's gritty grass roots rock. Nevertheless, my personal favorite is an entirely different type of song, "All This Time" on side 2.

Rich Flamingo, KCRK, Cedar Creek

Had a great time out at the Gavin, but then again who didn't. Thanks to all involved, especially Linda Kirishjian and Robert Nesbitt.... Also listened to Jane Siberry record. The track we added was "Red High Heels". Plug in, tune in and turn on!!!

Monte Conner, Roadracer, 212-219-0077

The beer guzzlin' GREEN guys continue to do some hearty raging! I'm really pleased with the way you've taken the GREEN GANG to heart. Your killer support and enthusiasm is certainly appreciated. The prime cuts continue to be "Born To Rock" and "We'll Give It To You," although many are starting to jump on the crushing "Party With The Devil" and the anthemic "Let's Drink Some Beer". Yes, boys and girls, skate metal is here to stay and GANG GREEN are the pioneers. The "You Got It" U.S. tour is due to kick off next month!... The boys in WHIPLASH want to thank the 39 stations that called in for phone interviews on Feb. 10th and 11th. If you still want a WHIPLASH phoner or ID, I can arrange it - Just call. WHIPLASH give THE best ID's - KQQK's Metal Mike can attest to that. Keep spinning "Ticket To Mayhem" and, in the words of WHIPLASH, "Swallow the Slaughter!".... Metal's fastest female guitarist and self proclaimed GOD, THE GREAT KAT, recently made her national TV debut on the Morton Downey Jr. show. The subject of the show was rock censorship. KAT was in a particularly hostile mood that night and she was determined not to be the object of Morton's ridicule. Yes, KAT was in fine form, much to the dismay of the obviously shocked and mighty pissed off Downey. Lasting less than 2 minutes, the GREAT ONE was thrown out of the studio after telling Downey to suck her dick. I always knew she had balls but!

Lynn Oakes, Enigma, 213-640-9342

Just when you thought it was safe to pick up the phones again, I'm back in action only this time with Enigma.... Loads-O-Stuff coming your way, so listen up. The band who've made rock-n-roll proud, THE BROADCASTERS, are forging ahead with their second track "WALLS OF THE CITY" from their debut album "13 Ghosts". You'll find nothing less than pure grain, true grit rock music on this vinyl. Familiar with the phrase "It ain't over till the fat lady sings"? Well, the only singing you will hear is coming from the Enigma team. We are completely behind this band and their music - shouldn't you be?... If you

haven't yet listened to THE DEL-LORDS first track titled "JUDAS KISS", don't wait another minute. The LP ships this week and first week of adds is 2-29-88. Look closely, you'll find we're having a hard time keeping early believers from indulging.... Don't overlook DON DIXON'S latest, "HEART IN A BOX". A lot of you experienced good results with the first track. Let history repeat itself. See you in Gotham City!

Rick Winward, Enigma, 213-640-6869

It's great to feel the enthusiasm and support for the Del-Lords building, and we're still two weeks away from our first week with the project! Early video exposure, touring and the fantastic press that the band has always encouraged will be backing up your play.... THE BROADCASTERS! THE BROADCASTERS! THE BROADCASTERS! We're ready with the follow-up to "Down In The Trenches" to coincide with the outset of the band's first national tour on March 7th. It's "WALLS OF THE CITY", a foot-stomping, bar-room rave-up that rocks and swings at the same time. This undeniable rocker will earn instant positive raves on-air! And "Down In The Trenches" is still looking strong with an MTV add and committed post-bullet airplay with majors like WBCN, KLOS, KOME, KGB, KSJO and more.

Michael Linehan, Reprise, 818-953-3750

The BoDeans' "Dreams" is a Track Breaker this week in R&R moving 37*-32* on that chart. Moves in the tips are 1 to 3 points higher and it is the #10 most progress LP in Album Network. Adds this week are highlighted by KSHE, KZAP, KTXQ KOME, KISS, KPOI, WHCN and WIOT among many others. Thanks to the many supporters and if you have been waiting to see more action develop, here it is. How 'bout a shot this week?... Bryan Ferry continues to roll on the heels of a very successful nine stop promotional tour. If he didn't hit your city we apologize, he had a very limited amount of time. If he did then you know what a gentleman he is. The cut moves through the 40's on all tracks charts and he has just had the two best CHR weeks of his career back to back. This cut offers image, sophistication and upper demo appeal. After fifteen years of album radio support, don't let the CHR in your market take credit for putting Bryan over the top. One way or another we're going to get this track, you should be a part of it.... Simon F. continues to build week to week and MTV has the video in medium rotation out of the box. If you haven't seen it, ask your Reprise person to show it to you. It is one of those videos that could make a big difference in breaking the cut.... Number one most added alternative track this week is the Mighty Lemon Drops "Inside Out", but this band is headed for the mainstream. Add the Drops!

Paul Marszalek, WMAD, Madison

The Midnight Oil may take a little time for some people, but it will sink in. There's more than one hook there, and it's #2 phones here.... E*!*E*I*O is more of a local favorite. We dealt with their first album quite a bit it and it was just a matter of time for this one. Like the horn arrangement quite a bit.... Would have loved to have been in on Jesus and Mary Chain the first time around, but now that they're reworking it, we're more than happy to give it a spin.... Supporting the Thorogood show with another track.... Look for Treat Her Right (a really unique sound) to go in next week. Could be the J. Geils of the 90's.... We're also looking very, very closely at the Mighty Lemon Drops, with those cool 60's overtones.

Mike Michelli, WONE, Akron

Two records that I'd like to take note of. First of all, Prophet "Sound Of A Breaking Heart" was a pleasant surprise to my ears. Something we think will do really well for us.... The Rainmakers "Small Circles" is something we can count on 'cause it worked for us in the past.... Bryan Ferry is definitive Bryan Ferry. Hasn't lost a beat and he's always been very well received in this market.... Almost added: the Godfathers, Rush "Prime Mover".... Kingdom Come, as you might expect, is getting a lot of calls.... Still a lot of good response for Satriani, and the AC/DC people want to hear AC/DC.... Fastest Mover: that would have to be Henry Lee Summer, that went from light to medium to heavy in a matter of three weeks. Definitely our

record of the week.... And I've got a gut feeling about this Prophet record.

Mike Stewart, WIMZ-FM, Knoxville

Strongest add of the week I would say is David Lee's "Damn Good", but "Cloud Nine" is awfully strong, too. Both great songs.... Also went with the Godfathers. We've got one college here with 25,000 students and two or three other smaller colleges and we're gonna find out if they like it. The college stations are playing it.... Also new: Bryan Ferry's "Kiss And Tell".

Dick Sheetz, KRZQ, Reno

Strongest add of the week is probably gonna be Flesh For Lulu. We listened to it a lot; Capitol has been working us heavily. If a rock station will just go with the hooks and leave the image alone for a little while, the record will work.... Also new this week: Zodiac Mindwarp. If you play any metal at all, this one's for you. Put it in. They're not really even a metal band, more of a mainstream rock band with a more metal sounding vocalist.... Henry Lee Summer has a real acceptable tune if you're into pop rock crossovers.... Almost Added: A real slim week, but I can only tell you about my favorite record this week. Far and away, T-Bone Burnett's "Killer Moon" is the most eerie, Lennon-esque sounding thing out there.... Fastest mover of the week: I would have to say Kingdom Come; #2 requests, and already in the middle of our heavies going to the top.... Lots of great response on Robert Plant, and a huge amount of confusion between Plant and Kingdom Come. They think it's Plant's B Side. Getting heavy phone calls for both artists.

Bryce Crousore, KQDS, Duluth

Strongest add of the week would have to be Pink Floyd's "Sorrow". The album has been going strong for God knows how long and we hope this will carry us through to spring.... Other adds: REM "Finest Worksong". Still selling top 10 here, and of course, in these two towns with about six colleges it's huge.... The Church is a very nice change of pace in terms of the band's texture. With all of the harder edged stuff that's out, the Church is a very nice relief record and gets back to the alternative sound.... Almost added: Ted Nugent's title track, Balaam and the Angel,... Fastest mover: Kingdom Come. Now #1 requested, with George Thorogood #2, Guns N' Roses #3, Aerosmith #4, and AC/DC #5.... Can't believe this Lita Ford. The women just love this song, which is really surprising. Strong calls from women 18-24.... Other new requests include: The Radiators' "Doctor Doctor" pulling great upper end calls for "That great new Allman Brothers tune", and Henry Lee is also doing well.

Tom Van Sant, WIZN, Burlington

Don't deprive yourself of the pure joy of seeing Sting in concert. Caught the Montreal show with two busloads of listeners. Highlights: "Set Them Free", "King Of Pain" and "Little Wing"!! Two and a half hours of incredible music. Thanks to A&M for the great promotion. Steve confirms sex is better in a foreign country.... Hot show last week with Echo and the Bunnymen in Burlington. They played a strong, if backward looking, set including "Soul Kitchen" which was a nice surprise... Finally, Sinead gets her shot on WIZN. Strong sales in the area and the Siouxsie-esque chorus did it.... We tried to keep AC/DC under our hats but when an album debuts on the sales chart at #1 it's an add! Thanks to Danny McCloskey and Dave Johnson for the visit.... We're still waiting for Lee Abrams to call.

Mike Areford, WFYV, Jacksonville

Help! Help! Help!. My ears are burning. "I'll Kick It Fine", JoAnna Dean. She's got a song that has major potential as an anthem song and it'll work for us. Play JoAnna Dean.... A big surprise on the phones as Mike Oldfield breaks into the top 5 after a strong showing in morning requests. We think people are finally getting the message about this guy and they're coming through with those calls. And they're not just adults either. A whole new generation is discovering this artist.... 3 has a nice sound to it and we're seeing good results after just a few days of play. You can't miss that ELP sound.... The Pink Floyd album continues to be a major hit and "Sorrow" fits in easy here....

REM's "Finest Worksong" is a readd for us. This band is the future of Southern rock and this is no doubt the the best song on the record.... James Harman moves up this week. We're getting reaction calls and we think this is really a strong track to introduce them to our audience with.

Dave Ross, KFMU, Steamboat/Vail

I had a chance last week to go to the Church's listening party. Wow! What a cool album. Thanks to Jay Ziskrout at Arista and much success on an album I truly believe in.... While in Denver and pounding around the dial, KBCO made me a believer in a track I've been hesitant about. Joe Satriani's "Always With Me Always With You" is a tune I guess I just had to hear on the radio, and boy, did it sound great. Now I'm very confident it will do well here.... I had the opportunity to see E!*E!*O a few years back in Minneapolis warming up for the Violent Femmes. It's great to see viable product from them. "Hey Cecelie" is loaded with hooks and has a real hot sound.... That's it for now from the world's only wind powered radio station.

Phil Manicki, WWCT, Peoria

My fave is the So record. My gut is sure. It's a great sounding record that you just can feel.... FROM PAUL: I think he's referring to the Mexican food he had for lunch. Just kidding.... Any record company rep who auditions a band on a portable CD with headphones in Big John's Rib Joint in Peoria deserves a break. Kudos to EMI's Mike Scheid.

Michael Cross, KJJO, Minneapolis

Happy Birthday to us, Happy Birthday to us. Yes, it's been a whole year already. One year that took KJJO from a rotten 2.7 to 6.7, the highest in our history.... It's time to look back at this past year and stroke not only ourselves for an incredible job well done but to stroke all the true believers who stuck by us. It's been a tough battle to gain recognition and respect in not only the Twin Cities but across America. We feel in this past twelve months we've achieved that. Most everyone is aware of the ongoing battle between us and the 20 year old KQRS. Let's face it, it's not an easy task to go up against KQRS and ABC/Cap Cities. Not only do they have a much larger financial base to pull from, but 10 times the promotional budget. Nevertheless, we are very proud of this past year. We have achieved numbers we never thought possible. We have traveled from almost obscurity in the market to #1 12-24 year olds, #2 18-34's and from 7-mid we're #1 12+, teens, and tied for #1 men 18-49. Not bad for the first year.... So it's that time where we want to say thanks. So let's say thanks first off to our Program Director, Scott Klohn. This was his baby, his vision. He has realized his visions and touched us all with the music. And thanks to all our air force: Ray Erick, Mindy Collins, Dave Dworkin, J. J. Jeffries and Don Thompson. They've all worked hard and have been here through the bad times, too. Thanks to them for their dedication. Also to Jane Dyson in promotions for coming through with some excellent ideas and making them work. Also to our sales force, thanks, especially to GSM Jim Nash who had to play GM, GSM, Dad, Mom, Priest, and just about everything else this past year. Thanks for holding the ship together Jim. And there are so many friends and associates to thank and here's hoping I didn't forget anyone. Thanks a ton to: Tom Kay, A&M; Gary Wisner, Atlantic; Danny Buch, Atlantic; John Tupper, Columbia; Greg Thompson, Chrysalis; Tom Gennetti, Epic; Bernedette Powers, Capitol; Ron Geslin, EMI; Beau Siegel, Elektra; Starvin' Marvin Promotions; Geffen; Marko Babineau, Geffen; Heavy Lynny Promotions; Andy Allen, Island; Kevin Carroll, MCA; Bill Rusch, Polygram; Penny Barnes, Rhino; Ken Ornberg, Reprise; Barry Elert, RCA; Joel Siegel, RCA; Sam "Bubba" Calley, We're Talkin' Music; Steve Fingerette, WB; Paul Yeskel Promotions; Concrete Mgt.; Crash Mgt; Jam/Company 7 Productions; Megaforce Records; Rose Productions; Ghostwriters; Westwood One; Global Satellite Network; Bill Hard and Company and the Hard Report, Tommy Nast, Mark DiDia, Harvey Kojan at R&R.... Also MTV's Headbangers' ball, Ozzy Osbourne, Armoured Saint, Dio, Lita Ford, Great White, Def Leopard, Whitesnake, Steven Tyler for wrapping a Hot Rockin' 104 banner around himself during the show at the Civic Center -- we loved it. Musicland, Title Wave, Great American Music,

Linda and Sharon at Metal Blade Records, Lee Arnold, and special thanks to KNAC in Long Beach and the Z Rock networks for having the guts to be out there alone and believing in pure rock.... It's nice to join in the raid. Here's to the future of hard rock and heavy metal.

Curt Cartier, KEZE, Spokane

Greetings, campers! That other tall lanky kid from Indiana, Henry Lee Summer continues to pull in great phones. "Wish I Had A Girl" expresses the thoughts of most Spokane males, especially the partners in crime on our Airforce. No B.S., just straight ahead American roots rock and roll.... Kingdom Come and Joe Satriani are kicking some serious booty from both genders and all demos. The dayparts get opened up and if this continues, we'll be rolling 'em through all day by, say, Tuesday.... Wild Seeds could be the "Keep Your Hands To Yourself" of '88. I hope so.

Joe Anthony, KISS, San Antonio

Danny Wilde is moving up! This is great rock and roll with good reaction so far.... Kingdom Come is getting tremendous phones. They love the Zeppelin connection. They're not interested in who's in the band!... White Lion is showing great promise, hangin' in steady and still building here in San Antonio.... The Godfathers "Birth" is building steady. The more you hear them, the more they grow on you. This band has a lot of potential.... We started our debut show for new age and new music. The phone response was 99% positive! There's big interest for T-Bone, Midnight Oil, Love & Rockets, Treat Her Right, The Church, Opal, Clannad, Echo, Jerry Harrison, The Cure, Flesh For LuLu. The whole thing blew me away. I knew the groups were good, but wasn't sure how the flow would work -- but it did work for us.

Anthony Alfonsi, WDVE, Pittsburgh

The Pittsburgh music scene is so hot right now we don't care how cold it gets. Billy Price's "Who You Working For" is from Billy's forthcoming album. The record labels shouldn't drag their feet in making it one of their priorities. As a matter of fact, the song made Top 5 phones and it'll probably be one of the songs Billy does this Saturday night when WDVE becomes the first station in Pittsburgh and one of the first in the country to record his show using Sony professional digital audio tape. We'll replay the show on our air next week.... Cellarful Of Noise with Pittsburgh's Donnie Iris doing the vocals on "Samantha" is a hot little song that we're already getting phone calls for it after just a couple days of airplay. We think this record's going to be big and the label is behind it.... We couldn't wait any longer for the G Force album. so we decided to start playing "Shine The Light". This is another song that is generating phone calls.... Midnight Oil's "Beds Are Burning" was a song I wasn't sure about when I first heard it but the more I listen to it the more I like it. The beginning's a little rough but once we get into the meat of the song it gets better.

Dave Fortney, WKLT, Kalkaska

Just want to give my music call hours again: Monday and Tuesday 10a-2p and Friday 11a-1p. If you could keep your calls within these hours, I would appreciate it. Although I do enjoy talking to everyone, I have to have time to dust the cart racks and put the records back in alphabetical order once in a while.... I'm sure you all got your Valentine's candy from RCA and Treat Her Right, but did you listen? If you're playing Canned Heat, you can play Treat Her Right. Some great stuff.... Another tip. We just put in two Denon DN950F CD cart players and we're very happy. You'll never have fingerprint problems on your CDs again with this system and it sounds great.... Kingdom Come and Joe Satriani continue to be great on the phones. This past Double Shot Monday I played Kingdom Come and a guy called to tell me I played only one Led Zeppelin.... Just heard word Joe Satriani may be on the Mick Jagger tour. Time for this guy to cash in.

Megadon, Combat, 718-740-5700

I'm disappointed with America right now, so excuse my somber mood. Y'see, last Sunday night, couch potatoes nationwide had the opportunity to declare Al Bundy "The Most Manly

Man Alive" by dialing the correct 900 number. If enough folks voted for Al, he would have refused to tell his no-good wife he loves her. Unfortunately, 68% of the voting viewers are wusses and Al ended up embarrassing Real Men across the country by telling Peg "I love you". My Valentine's Day was bummed out in supreme fashion. I voted twice. And still lost. Such is life, I guess.... On a funnier note, did anyone see the Morton Downey, Jr. free-for-all on heavy metal and censorship? Is this guy for real? Lotsa embarrassing moments highlighted by Kat being escorted from the studio (it was a lot like watching pro wrestling). Ol' Mort and his redneck studio audience could have saved us a lot of grief by stating his closing comment of "Labels, they stink" at the beginning of the show and left it at that. Still a "VCR keeper" though.... The new CRUMBSUCKERS and TIGERTAILZ should be on your desk in the next three days. Listen up good, okay? Someone's got to cheer me up.

Marty Griffin, KFMF, Chico

While spending a nice weekend in San Francisco enjoying the various functions of the Gavin Convention, I was turned on to what I think is one of the best records to come out in weeks. The Bay Area's own Dynatoners' "Take The Heat" combine all the quality elements that make up an outstanding record. A wailing sax, great guitars, smooth vocals and superb production.... Finally made room for Midnight Oil. "Beds Are Burning" is both quirky and catchy.... I realize it's only February but the "turn around of the year" award goes to Balaam & The Angel. Talk about an image change. "I Love The Things You Do to Me" sounds like a hit to me.... On the air only a week and the Church record is already working quite nicely. Top 10 phones.

Karen A. Small, WGIR, Manchester

Congratulations to Jon Erdahl and wife Heidi who had a 7 lb. 13 oz. baby girl, Rebecca Marie on Saturday, February 13th. Rebecca is their first.... And the barrage of vinyl keeps on coming. This week we're doing new trax on Heart, Pink Floyd, Springsteen, Yes and Paul Carrack.... The Church's "Under The Milky Way" has a unique sound that really gets your interest within the first couple of notes. This one will lend spice to the airwaves.... We've never played Midnight Oil before but "Beds Are Burning" has one of their most accessible hooks so we'll give this one a try.

Mark Williams, WWZU, Williamsport

New music shows really do work. We've been able to bring a few bands into full time rotation. The Godfathers is one of them. It took a few weeks but "Birth, School, Work, Death" is now fielding some significant action and reaction.... Jerry Harrison goes to power. "Rev It Up" is so contagious, you can't help singing along to it after one play. Artist awareness is probably the most important factor with this track. How hip can you get? Play it in power, for God's sake!... ZOO92's morning crew conducted its own Grammy nominations. Guess what? White Lion came in as Best New Hard Rock Band followed by the likes of Tesla and so forth. "Wait" is top 5 again with retail blowing out the doors.... On the subject of Kingdom Come, I hear industry people saying "God, that is such a ripoff." I think they're just jealous. You couldn't hold this record back even if it was outlawed.... Tracks not to miss include Flesh for Lulu's "Postcards From Paradise". It's been out there for a while but it sounds better every day.

David Fleischman, Atlantic, 212-484-6017

Sitting around wondering just what Bebe Rebozo is up to these days.... My favorite tracks from Robert (Don't call me Bob) Plant's Lp are "Heaven Knows" (of course), "Tall Cool One", "Ship Of Fools" and "Billy's Revenge".... For those of you still not playing White Lion, add it now and I promise I will get Danny to remove the curse he has put on you and your heirs.... AC/DC is blowing out the phones at radio and the doors at retail. You're missing a monster if you're not on this one.... Foreigner is as strong as ever as "Heart Turns To Stone" maintains its momentum. "Can't Wait" is the next up and coming track.... There's a solid buzz out there on Prophet's "Sound Of A Breaking Heart" thanks to the early believers. Make sure you seriously check this record out.... The INXS Lp is u-n-b-e-l-i-e-

v-a-b-l-e. It's rapidly approaching the two million mark in sales. The tour starts the beginning of March and I'll bet we'll still be dealing with this record all through the Spring and Summer.... No George Bush wimp analogies when discussing Nugent and Frehley. Both have strong rockers out there for your listening pleasure.... If you're of an alternative state of mind, dig on Blue Rodeo and be sure to listen to Greenway's "Danger Zone" and Silent Running's "Heartland".... We've got an abundance of good quality music. We're excited about our music. Hope you are too.

Jane Fredericksen, KTCZ, Minneapolis

Hope you understand I just had to get back to the Islands. Next week only please direct ALL music calls to Alan Lawson, since I'm winging my way to gentler climes, trade winds, mai tais, and whale watching. Aloha!

Jeff Robinson, WKQZ, Saginaw

Who'da thought Springfield would have come out with something like this? We knew he could do it. Looking forward to some other strong cuts on the album. "Rock Of Life" is getting instant phone response; didn't expect it to be the phone killer it is. Top 5 this week.... Kingdom Come's "Get It On"; the more you listen to it, the less it sounds like Zeppelin. I'm glad it's as strong as it is. Good phones for this, too.... Could this be a comeback album for AC/DC rather than a one track wonder?.... We just did a Dio show here. We had a good in-store and we're seeing some phones for the Dio cuts.

Bonnie Simmons, Hightone, 415-763-8500

Hard to believe but you've all gone home now and the weather is still just as great. Usually it's only perfect during the Gavin Convention and then the fog rolls back in and it starts to rain.... Hope you saw Joe Louis Walker at the DV8 show Thursday. If you were not able to attend, Joe played with Boz Scaggs, Nick Lowe, Paul Carrack and Huey Lewis & The News, and everyone was great.... Bonnie and the Wild Combo played first and were also fine.... Anyway you should now have Joe's Lp, "The Gift". Please check out "747" and "Mama Didn't Raise No Fool" which features Steve Berlin on tenor sax.... That's all for today. Gotta go listen to my Sisters of Mercy CD -- again -- although my absolute fave this week is "Don't Let's Start" by They Might Be Giants. Can't get it out of my head.

Kelli Cluque, KCAL, San Bernadino

Kingdom Come is God!

Tim Parker, KNCN, Corpus Christi

I'm really surprised but Lita Ford has beaten Kingdom Come on our request sheets this week. This is especially interesting given the near fear of the local retailers regarding Kingdom Come. They report more interest in Kingdom come than anything they have experienced. I simply can't believe the buzz this band is generating.... Among the albums out there right now, David Lee Roth and Joe Satriani are neck and neck in the stores. Aerosmith maintains high marks as my personal favorite right now while the airstaff maintains as much fervor about Kingdom Come as everybody else.

Brian Illes, WKFM, Syracuse

White Lion and Kingdom Come have exploded on the phones here. They didn't crack the top five this week but I can easily predict that they'll be there by next week.

Alison Stewart, WRU, Providence

Treat Her Right is the record to beat this week. They are from my neck of the woods and, damn, they are cool. It's rough, it's ready, it's bluesy, it's fun, and it is our Master Blaster this week.... Magic music from the Church. "Under The Milky Way" has that headphone like sound that is bound to please those upper demos as well as satiate your new music types.

Robert Harder, KWLN, Memphis

Lita Ford is building on the phones around here, especially with our younger women calling for it bigtime.... Another momentum builder this week is Henry Lee Summer who has

been racking up big response with our younger males.... I'm also a big fan of the AC/DC lead track with "Rough Stuff" and "Go Zone" sounding great as second track candidates.... Kingdom Come makes everyone real happy around the studio as does Robert Plant.... Another bonafide killer is Jerry Harrison. It makes me crazy with its rockin' blues groove.

John Amberg, WKRR, Greensboro

Song for song, "Notes From A Lost Civilization" by Tonio K. is one of the best albums I've heard in this young year. "Without Love" seems to be getting most of the attention but we like "Children's Crusade" with its haunting melody and riveting lyrics. This is quality stuff, kids.... Thank you Katie Seidel at Reprise for the BoDeans trip to New York. We were able to send a couple of listeners to the Big Apple for a show at the Ritz which I've been told was amazing. Thanks again Shpeen.... Also, a tip of the cap to Erik MacDonald at Atlantic for the Yes concert.

Stephen Page, KOME, San Jose

This week I want to thank everybody responsible for last week. You know who you are but I'll mention names anyway as it always looks good to see it in print. Mondo thanks to Katie for my ticket, Bubba and Michelle for dinner, Ray for reality, Greg, David, Hugh, Jeff, Jeff, Andy, Norm, Calvin, Kevin, Bert, Kim, Beverly and Jay. Next year I'll bring the dip.

Alex Miller, All Round Groovy Guy, 212-484-6400

I feel like JFK in Germany addressing a thundering crowd with the immortal words, "ICH BIN EIN VIRGIN-er!"

Joe Blood, KEZO, Omaha

Can't wait to hear the Robert Plant and Kingdom Come on CD.... Henry Lee Summer sounds great on the radio, it just jumps off the CD and has a real Bryan Adams feel to it that works for the audience.... The morning show here is pretty damn critical but they absolutely love the new Danny Wilde.... Sales and play on the new David Lee Roth are just incredible, this album is going to prove David Lee's staying power.... Right on his tail is the new AC/DC which is knocking 'em back everywhere.... Saw the John Cougar Mellencamp show and that older material was killer. "Crumbling Down" just about tore the house down.

Charlie Foster, WNGZ, Elmira

Robert Plant is one of the most impressive records I've heard in a long time, this is definitely the record to watch for AOR.... We have gotten tremendous early response on the The Church "Under The Milky Way" and it moves up as a result after only one week on the air.... I still can't get enough of this Paul Carrack record. From "Don't Shed A Tear" on, this man's work stays on my turntable all the time.

Mike Scott, WRIK, Paducah

How big is big? Around here we spell it AC/DC, a record with an instant heavy add that just won't slow down.... We are also seeing surprising retail on the Jerry Harrison. This one is starting to kick in, as it should, it's a very well done album.... The local buzz has our staff raving about the new Tonio K. It's great to hear something this good from Tonio.

Catfish, WHMD, Hammond

This year the women are wearing Mardi Gras and the guys are smoking Mardi Gras. It's too much fun.... Added the Balaam and The Angel and boy, does it sound good.... Get ready for that Elton John track, "Take Me To The Pilot". It's a monster and we project it for next week.

Carl Scheider, KJOT, Boise

Kingdom Come has exploded on our phones. Hold on to your hat when it hits retail.... Speaking of retail, Def Leppard continues to track very well. "Damn Good" is our current staff fave because it's so much fun to say "damn good" on the air without having to worry about your GM.... The Big Pig has a different

flavor than your average album fodder. We like the way it stands out from the crowd.

Howard Glassman, WEQX, Manchester

Frontier is kicking asbestos with E*I*E*I*O and the Pontiac Brothers. They're both a couple of powerhouse rock bands and sound like they're having more fun than human beings should be allowed to have.... The Pontiac Brothers "Ain't What I Call Home" should have them singing in the streets.... New Lp from Drivin' and Cryin' just came in, I'm going to indulge in some blitzkrieg rock.

Inessa York, KGON, Portland

I finally had a chance to listen to her Treat Her Right and it's fast become a personal favorite. "I Think She Likes Me" is great; drop everything and put this thing on. Don't be like me and wait ten days to sample this record. This is damn good stuff.... The other thing that I like is the Wild Seeds. I kept hearing about it and when I finally took time to listen to it, I discovered yet another track that could crossover from adventure to the real stuff.... I'm elated to see Robyn Hitchcock getting such good press. Keep it up.... That Robert Plant record is (sigh) the kind of record that makes this biz all worth while. This is an album where you can't find the best track because they are all so good. His voice is growing up in so many ways and when he says "Lighten up, baby, I'm in love with you", I can't believe it but it makes you want to swoon. Somebody get me a doctor.

Dr. Metal, WHJY, Providence

It's obvious from reaction that "Get It On" is receiving that Kingdom Come will be the new supergroup for 1988.... Frehley Comet is a nice winter treat for Ace Frehley fans. It should hold everyone over til the next Lp.

Lorraine Rapp, WAQX, Syracuse

Having worked with Amy Dahlman both at WAQX and The Hard Report, I can say from experience that she's one of the brightest, most talented and committed people in the industry. Simon and I wish you the best in all your future plans and have no doubt you'll be successful at anything you choose. Keep in touch!

Christina, WPLR, New Haven

If '86/'87 belonged to Bon Jovi and '87/'88 went to Whitesnake, I will not hesitate to predict that '88/'89 will be the time for Kingdom Come. They may steal riffs and vocal arrangements but who doesn't? And they do it so well. I can only call this a rock and roll album containing tracks destined to be staples at WPLR for a long time.... The Church and Underworld Lps are top notch, too.

Kelly Cruise, WEGR, Memphis

The David Lee Roth IS "Damn Good". It's a nice switch to hear Diamond Dave do a ballad. We got reaction after the first spin.... Pink Floyd's "Sorrow" is going to make a killer night record. It's got the same ozone effect as some tracks from "Dark Side Of The Moon".... Joe Satriani continues to gain requests and is strong in local sales.... I'm thrilled that Peter Himmelman is coming to Memphis next Tuesday to play in Overton Square sponsored by our station. His album is one of the best I've heard all year, and I'm sure his show will be equally incredible.... I want to wish both congratulations and a fond farewell to one of the best in the biz. David Allen Ross, who moves out of the Memphis territory and goes on to bigger and better things. Good luck! Also congratulations to Barry Griffin for taking Dave's place at Chrysalis.... Special thanks to Randy Hock and Charlie Londono for the VIP treatment in New York City. I had the time of my life.

Jeffrey Naumann, Virgin, 213-278-1181

Balaam and The Angel is on the verge of exploding if what programmers are saying is true. People love this record. This is the week "I Love The Things You Do To Me" will be added everywhere and my blue balls will go away.... Why is it DC101, WHTF, WRIF (with WLLZ adding this week) KBCO, WXRT and

WPDH among others tell me they get positive immediate phones they play Warren Zevon's "Reconsider Me"? Just maybe it's a hit. Why don't you take a shot and see what happens in your town.

Jon Johnson, WKNH, Keene

The Zodiac Mindwarp Lp is one of my favorite albums so far this year. Any guy who spent his initial advance on Jack Daniels and comic books has to be great.... I would have liked to have seen "Remember Me" and "Shock Me" on Ace's new EP, but I guess you have to save something for the future.... The five coolest comics on the market are, in order: Love and Rockets, Cerebus, Lone Wolf And Cub, The Shadow and Area 88. Any arguments?

Rich Scroggs, WWVU, Morgantown

I suppose some of you wonder why I'm "extremely manly".

Here's five good reasons:

1. I knew Scott Givens was synonymous with drunken carnage before any of you did.
2. Phil Hardy thinks I'm "too big to be cute", what ever that means.
3. On my show last week I played Overkill, Napalm Death, Venom, Kreator and Bloodfeast in a row and then followed it up with twenty minutes of Christian metal.
4. Cheryl Valentine sent me a million of those Lizzy Borden TV's and actually thought it was funny.
5. I refused to form a defensive alliance with Monte Conner against Megadon....

By the way, some of you might wonder who Catalepsy are. Catalepsy consists of former Detante members Ross Robinson and Steve Hocheiser. They along with vocalist extraordinaire Veronica Ross perform powerful, original thrash similar to Sanctuary, new Megadeth and Exodus. You can obtain the demo by writing to: Catalepsy, 7090 Hollywood Blvd., Suite 104-332, Hollywood, CA 90028.

Bob Berzins, The Krusher (KRSR), Las Vegas

To Dyana and company at Metal Blade Records, thank you for the promotional support. You're like Avis -- you try harder. To me, you're number one.

Jeff Ivan, KFMX, Lubbock

Thanks a bunch to Clarissa for the CD shipment. Barren Cross on CD is fantastic. If you haven't happened on to these guys yet, do so. I went with "Imaginary Music" but they're all solid songs.... Thanks also to Donna for the CD's. If you haven't given a good listen and I mean a GOOD listen to the new Eric Steel album, stop what you're doing right now and play "Wanted Man", "Forever Yours" and "Somewhere Sometime". Now ram your head in to the wall for not playing them sooner.... The new Frehley's Comet is the god of live albums so far. I went with "Words Are Not Enough", but I've already gone deaf on "Rocket Ride".... Other must plays for the week are: Kreator, Black Rose and if you've got the new Gargoyle Ep give it a listen and see what you think. Sounds like a promising band to me.

Mike Jones, WGIR, Manchester

As all of the Presidential hopefuls are up here in New Hampshire scamming all the voters, the new releases continue to cover my desk.... Of note, the new Venom 12" is interesting. They seem to be continuing the same, dare I say "melodic" direction they had taken up way back on the "Seventh Day Of Hell" and "Satanicus" singles.... The Ace Live Ep is way cool. I just wish I could have seen Ace live myself.... Kingdom Come is one of the most amazing things I've ever heard. It's Zeppelin back in action. It will be as huge as the Grand Canyon.... That's it, I'm out of here to see my boys from the west coast Armored Saint raise some fear in New England. We be jammin'.

Dewey McCafferty, WKNC, Raleigh

Primo music coming from Whitecross and Prophet is heating up the phones in Raleigh.... We also have unusual response for Balaam And The Angel and E*!*E*!*O.... I'm waiting for Lita

Ford to come in and talk dirty to me.... Also hot here at Rock 88 are Eric Steel, Venom and "Blow Up Your Video" from AC/DC. Brian Johnson is in rare form.... Also thanks to Clarissa for the speedy service on Great White.

Jon McGann, KFMX, Lubbock

Thanks to the Rainmakers who came into town on Sunday. It was an absolutely great show and everybody needs to see them live.... Also Lita Ford is pulling Top 5 in retail.... As if it's any surprise to any one, every time we put on Kingdom Come the phones light up.... If you passed over the new Prophet record "Sound Of A Breaking Heart", put it on again and give it a spin. It'll grow on you.

John Loscalzo, WRCN, Long Island

As part of our 11th anniversary, WRCN presents Joan Jett in concert at Bay Street on Feb 20th because we are Long Island's concert leader. That's the way the Bee bumbles.

Mad Max Hammer, Z-Rock Satellite

Metal Onslaught has held their position on our chart the longest and continue to pull requests. Metal record reps should take notice because thrash is bigger now than it's ever been. Metal Onslaught will have their day soon.

Phil Thompson, KICT, Wichita

After overwhelming phone requests, we finally came to the conclusion that Atlantic was right. White Lion goes on this week. It kind of gives a whole new meaning to the song title.... Looking forward to Aerosmith coming to town on the 24th. Highlights from that show next week. Watch this space.

Kevin Kasky, WOUR, Utica

When you first hear the Zodiac Mindwarp, you'd think this band had been playing together for 25 years. The feeling I get when listening to it tells me that they know where they're at.... Ardent is a group that probably has the best potential of any new group I've seen in ten years. It's the first group I've put my stamp of approval on since my band broke up. Contact me for a copy.... I think this is the best AC/DC album to come out since the unfortunate happenings of 1980. It sounds like they've finally pulled their act together and have both feet on the ground.

Harry Reynolds, KOZZ, Reno

Steve and I really (and I mean REALLY) like the Rainmakers. We feel their latest album "Tornado" is exceptional and though "Small Circles" is on that album and a good song, we don't feel it captures what that band is about. Not for us or our listeners. Therefore we've decided to go with "Wages Of Sin" as the logical continuation of the progress of the Rainmakers at KOZZ.

Brad Martin, WRCN, Long Island

Guns N' Roses remain at #1 on phones this week at the Metal Motel, followed by Megadeth's "Anarchy In The Uk".... Barren Cross comes across with their message without going overboard as others have done. "Imaginary Music" is the strongest track.... Ted Nugent. The Motor City Madman is back at full strength with a CD that one has to just love. From the more serious side of "Spread Your Wings" to the title track "Lick 'Em..." (which makes all girls blush), you have to love it all. And can't you just picture those "Skin Tight" jeans walking down the street.... As of right now we're not allowing any pets in the Metal Motel - fish or fowl.... Thanks to every one sending the CD's, as you know we're still "All CD, All The Time".

Bill Evans, KTAO, Taos

If you play Robert Cray then you must give Joe Louis Walker a shot! The man with the heavy weight name delivers a knockout Lp for Hightone.... Instrumentally speaking, have you listened to the IRS No Speak Series? What a treat to be able to play Wishbone Ash as a current. The standout in this four record set is Pete Haycock. "New York States" couldn't be better even with lyrics. Thank you Miles!

If you were puzzling over whose career to watch in 1988, relax.

PAT MCLAUGHLIN

The pieces are all in place for
Pat McLaughlin.
All you have to do is listen.

Includes
Wrong Number

The first 12" track
from his self-titled
debut album.

Produced by Mitchell Froom.
