“Are You Sure”

51* Hard Hundred

Produced and engineered by Walter Turbitt
Esta Management Ltd. Steve Weltman

The Smithereens, "Only A Memory", Enigma/Capitol.... Scan the Hard Hundred for Most Improved Honors and you'll find some very deserving candidates--including Balaam, Lita Lita and the Cult Jam, Del Lords, Danny Wilde and the mighty Midnight Oil--but none has the oomph to outdistance this amazing follow up from the Reens. **Don Dixon** adds his magic touch to a band with whom his sound and style are perfectly matched, and the end result hits the street in the form of a song **Carter Alan** calls "An Automatic--with the growling guitar intro convincing in just three seconds flat". Original fan and supporter **Mike Boyle** from **WDHA** predicts, "The new song will begin the journey to the next plateau", but from where we sit, these guys are prime to skip a couple of developmental levels. As well as "Blood and Roses" and "Wall of Sleep" performed, that's the point from which this totally complete track is ready to accelerate. An easy top 5 tune from an album classic set to follow in two weeks....

RECORD OF THE WEEK

The Adventures, "Broken Land", Elektra.... For any relatively unknown act to hit the bricks with double digits means a lot lately--and you've got to believe that when a ballad starts with 20 adds that spells power plus. Those raves be happening, too--with guys like **KFMF's Marty Griffin** calling it "Hypnotic, passionate and sincere".... **WLAV's Aris Hampers** adds, "God, I love it. As wonderful a song as you're going to hear on the air".... **KLAQ's Mike Ramsey** says, "My favorite of the week. It's bright, clean and fresh. A real killer track with a Crowded House feel I love".... **KRZQ's Dick Sheetz** adds, "This may be a ballad, but it's one with hooks all over the damn thing".... Regarding the tempo, **KOME's Stephen Page** says, "I was a little leary at first, thinking it might be too soft, but everybody at the station, myself included, fell in love with the really nice melodies and good lyrics".... Early believer **Ron Garrett**, **KRXQ** adds, "The entire album is filled with intelligent, elegant lyrics, delivered over breathtaking melodies".... New at 91* and set for an equally strong showing in our next report....

NEW PLAY PRIORITIES...

White Lion, "Tell Me", Atlantic.... At a time when rock radio seems to be taking shots from all sides, White Lion has to rule as one of this format's biggest success stories of the past year. You guys found and developed this band, and thanks to you and MTV, Atlantic has taken the project gold. Now that CHR is off to the races with the song that did it for White Lion, "Wait, now's the time to go past breaking a song--and break an act. The band will be out with Aerosmith for the next two months, followed by roadwork with AC/DC for the rest of the year--and that just about makes this the easiest second track on the street. Already on **KBPI**, **WLLZ**, **KGON**, **KJJO**, **WDHA**, **WKLC** and more....

Great White, "Mistreater", Capitol.... How easy does it get? They're coming off of a top ten track, the group is still on the road with Whitesnake, the sales have been rock steady--and closing in on platinum--and this particular CD offers packaging plus. And we ain't talking "Rock Me" live or the remix of "Save Your Love". Stations like **KNAC** will tell you this is the album track closest to the sound that made "Rock Me" such a smash--and a careful listen shows "Mistreater" is basically a truncated approach to that track--complete with bluesy guitar, big build and those terrific dynamics. After looking at the CD for a few minutes, **KWLN's Robert Harder** commented, "This good, straight ahead follow up gets folks back to what Great White is all about"....

Donald Fagen, "Century's End", Warner Bros.... The long rumored and highly anticipated Steely Dan reunion project is the obvious tease to get this particular track on your turntable pronto--but, gosh, how much better or more authentic could the real dynamic duo turn out to be? Don's the voice and personality of the group, and this slick and sophisticated soundtrack offering sure sounds like the real thing to us. Signature sounds are all the rage these days, and with **Gary Katz** teaming up in the studio, all that's really missing is simply another name on the credit line. And all that's added is that funky harp part--and that's borrowed from his "I.G.Y." sessions. More fun than Chinese food in a roller coaster....

Talking Heads, "Naked", Sire/WB.... First, let's talk 12" reaction: You know it's perfectly timed for spring--and you can bet that salsa rhythm is on the upswing. **'PDH's Pam Brooks** says, "Talk about eclectic, talk about out of the ordinary, talk about refreshing".... From **Marty Griffin**, **KFMF**, "It sounds so different and refreshing on the air, and besides, how can you go wrong with those Latin rhythms and lyrics that are both funny and yet so clever".... **Joe Blood**, **KEZO**, "This seems to be a return to the 'Little Creatures' type of sound. I love the lyrics and it seems to be getting the best staff reaction of all the new stuff this week".... **Mike Michelli**, **WONE**, "A lyrical delight. David Byrne has once again made a very entertaining social comment on society in America".... **Tom Van Sant**, **WIZN**, "Who but David could be so optimistic about the post apocalypse? Immediate phone response".... Then again, **WMMR's Erin Riley** may be closer to the bottom line with "Something about it makes me want to order a daiquiri and wear a grass skirt".... As per 107 first week adds and 34 heavies, it's practically the unanimous Record Of The Week--and our highest debut at 28*. Early album favorites here feature more of Byrne's cool post-apocalypse rhythms, with "Mr. Jones" the clear in-house favorite, followed by "Big Daddy" and the somewhat funkier "Blind"....

Deacon Blue, "Dignity", Columbia.... And now for something completely different--here's our candidate for the first real left field dramarock smash since "Mary's Prayer". You'll rarely hear us extol honesty as one of a song's primary virtues--but in a time of way too much manufactured music, Deacon Blue's lyric and tempo interplay really do stand tall in the pause that refreshes department. **Dave London**, **WEZX**, hears "Bruce Hornsby meets classic Supertramp", while reporting "Positive phone response immediately".... **WDHA's Mike Boyle** adds, "Here's a record that definitely surpasses the hype. Deacon Blue should be on every radio station, every format, every hour, every day".... and how many adds does **WMMR** give out of the box?....

Joe Satriani, "Surfing With the Alien", Relativity.... Here's a success story equally near and dear to us, based largely on The Hard Report's league leading front page pick back in December. As we predicted, Joe has claimed his rightful place as rock radio's premiere new guitarist--clearly the hottest new player since Eddie Van Halen rose to prominence. The audience was obviously starved for a hot new axeman--with "Satch" still holding strong at #8 Most Requested and no let up in sight. Now, with airplay starting that slow natural decline, it's time to jump start "Surfing With The Alien", a tune a number of our reporters rolled in the first place. It's currently on **KLOS**, **WHCN**, **WBCN**, **KRXQ**, **KOME**, **KLOL**, **KGB**, **KJJO** and several more--and with his sound, sales and overall profile, it's a follow-up you'd be nuts not to use....

Joe Cocker, "Rivers Rising", Capitol.... Actually, this may be slotting in as the third track, but in fact it was in high contention for first and second cut status. But don't take it from us --here's **KRXQ's Ron Garrett** and "This is the song that got me excited about the album in the first place. It's funky and dancey enough to get people moving, but rockin' enough to satisfy the hard core listener. It covers all the bases".... There aren't many artists who could pull this number off--and with two top ten tracks and 200K album sales, now's no time to cut back on the help you've been giving our man Joe so far....

Treat Her Right, "I Think She Likes Me", RCA.... Apparently all this bluesrock delight needed was a little running room--and this week the lists opened up to the tune of 18 adds, including WAAF, KRZQ, KDJK, KLAQ, KQDS, WRUF and KOZZ. We log in six increases, including WMAD, WHEB, WHFS, WHJY and WXRT, with a total of 60 now playing. **KZOQ's Vern Argo** says, "We're expecting this to do well with the 25+ types thanks to the Canned Heat overtones".... **WRFX's Mary London** agrees, "This is gonna capture the older and the younger audience. Any station that leans toward that classic rock sound will like this LP".... From **KLAQ's Mike Ramsey**, "If you don't spend time sitting around bars on a Saturday night trying to get lucky you might not get the punchline. As a satirical look at singles life, it is superb!".... **KQDS' Bryce Crousore** hears "Kind of late 60's blues meets the 90's fresh sound". Already a top 5 phone item at WMAD, WMDK, WBRU and WEQX....

The Connells, "Scotty's Lament", TVT.... Out of the box interest in this album found "Over There" pretty much even with "Scotty", with the former's easy rolling tempo and hypnotic horns putting it out front on the radio. A number of well oiled American rock projects a la REM have come and gone in the interim, and yet the Connells still come across as one of the freshest sounds on the horizon. The tour continues through June, with the album garnering raves in the likes of Rolling Stone and the LA Times. They're exciting and innovative--and this could well be the track to shine a brighter light on one of the few truly original acts to emerge in recent months. As the **Catfish** at **WHMD** says, "It's genuine, unique rock and roll with a loyal local following. 'Over There' worked well for us and this will do even better"....

10,000 Maniacs, "Like The Weather", Elektra.... If you're on the fence, take your cue from **KBCO's Doug Clifton** and "This has been a big song for us. We've played it since late last year and the requests kept it on the air for weeks".... Another long time supporter, **WIZN's Tom Van Sant**, testifies, "We had a tremendous ten week success with 'Don't Talk' and the album is still moving at retail. Now the audience wants more".... From **WRUF's Brian Jordan**, "They go on this week due to solid female vocals that really stand out on the air. Listeners call repeatedly and want to know if it's Stevie Nicks".... New on WLLZ, WRUF, KTYD, WIZN and WZYC, with ups from KITS, WBRU and WNGZ and current play reports from WCCC, WTPA, WPLR, WNEW, WLAV and WDHA....

IMPACT TRACKS

Joni Mitchell, "Snakes And Ladders", Geffen.... You can always count on a soft spot for a good song from a heritage artist--and Joni's comeback with Don Henley continues to roll up appropriate rotation. She's back with 35 more adds this week, bolstered by early increases from WXRT, WPLR, KZOQ, KWIC, KVRE and WKQQ. Heavy support includes KBCO, WMAD, WPLR and WTPA, with WNEW and KACV the first with Top Five Phones. **WRFX's Mary London** urges, "Anybody that can play Ann and Nancy Wilson can play Joni".... **WBRU's Alison Stewart** says, "Joni makes her move with a great record. It's got a really mature sound".... **KJOT's Carl Scheider** feels "It's just great for the upper demos. It should do well if people can get past their preconceptions of her as a folkie".... **WPYX's John Cooper** gets in a plug for the boss, saying, "To paraphrase **Ed Levine**, this song is Joni's best radio record in years".... It's also this week's longest Hard Hundred mover, 64-43*....

Balaam & The Angel, "I Love The Things You Do To Me", Virgin... The fastest moving new act on the board notches up another 23 adds and another killer chart move, 45-33*. 121 total reports after 6 weeks looks great--as do 11 fresh increases, including KBCO, KFMQ, KATT, KOZZ, WAPL, WONE and WAOR. There's a solid 11 station heavy play count, too--including KAZY, KFMQ, KILO, KRCK and WXXP. **KRZQ's Dick Sheetz** comments, "After three weeks of play and one week in the stores we're starting to see request and retail movement".... **KSJO's Patty Martin** tells us, "It's getting some curiosity calls and they're all positive".... From **KTYD's Jim St. John**, "Balaam is working well, with top 15 requests".... **WONE's Mike Michelli** feels, "This record has the potential to go a long way. I'm not sure AOR is going to hang on to this one exclusively".... From **WFYV's Michael Areford**, "It's kind of an unusual sound--but it's nice and I like the song"....

Pat McLaughlin, "Wrong Number", Capitol.... Any hard working record guy will tell you it's tougher than ever in the trenches--yet this wonderful change of pace continues to pull down major league add activity. This week has it new on WBCN, WRXK, WKRR, WPLR, WPDH and five more, with WRIF, WKLC, WKDF, WHCN, KMOD, KLOL, KATT, WDHA, KZEW and KBCO among those already in. Anyone who's ever lost at love can appreciate Pat's genuine blues brand of heartfelt blues--and that target has to include all of your women and at least 2/3 of the guys out there. And on top of the sentiment therein, the music sounds great--as noted by **KATP's Jim Kelly**, "I fell in love with this immediately. It has a great hook and this is an album that I will definitely keep for myself".... 84-74* on the Hard Hundred....

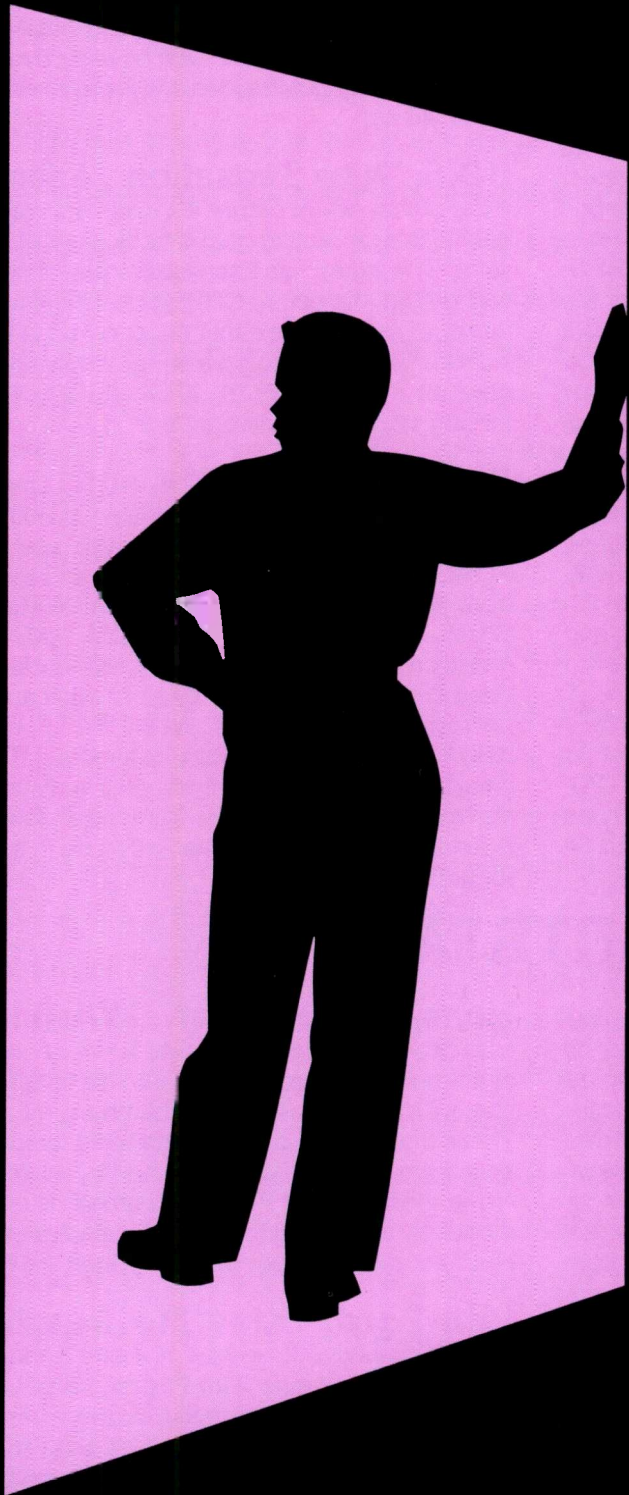

The Del-Lords, "Judas Kiss", Enigma.... At the rate the converts are coming across, we're expecting that blockbuster week any time. **WPLR's Christina** raves, "Phenomenal!! The best rock and roll record we're playing right now".... Up the road, **WHCN's Kim Alexander** says, "The Del-Lords is a killer (in more ways than one) and hey, that's my hero Syd Straw on background vocal". And let's not overlook Ms. Benatar's work on that track, either, OK? **WKWQ's Ron Marsh** advises, "Don't be afraid to play 'Judas Kiss'. This will be one of the most instantly infectious tracks to hit your airwaves".... **WOUR's Tom Starr** predicts, "The Del-Lords rip-roaring opener is going to make any label that had them--or passed on them--feel like the Red Sox watching John Tudor pitch the Cardinals into the pennant".... New on 6, including KBCO, WBCN, WOUR, WRCN, WFYV and CHEZ, with 41 total adds to date and ups from KZOQ, WDHA and WKWQ moving it 91-78*, this week's fourth longest gain....

Judas Priest, "Johnny B. Goode", Atlantic.... Phones here are as automatic as death and taxes--unless, of course, you're Chuck Berry or Jerry Lee. **KWLN's Robert Harder** reports, "I haven't ever seen hotter early phones than on this. It's incredible--#2 phones".... **KMJX's David Allen Ross** adds, "With a great Chuck Berry remake and a happening film to back it up, this is a monster that's highly recognizable".... **Greg Morrison, WRQK**, agrees, "They surprised me with their remake and the calls are already ripping up the phones".... Ditto **KWHL's Cyndee Maxwell**, "This should have Chuck taking a second listen. Immediate phone response here".... From **KATP's Jim Kelly**, "This was given a single shot test play and that limited exposure has carried over into top 5 phones for us".... From **WOUR's Tom Starr**, "The new Priest is as exciting, innovative and powerful as everyone said it was. Great phones!".... New on 13, now on 32--and underlined 88-71* for this week's third longest Hard Hundred advance....

Midnight Oil, "Beds Are Burning", Columbia.... By now it's obvious this gourmet delight is going the distance--witness 138 adds to date, 35 heavies, and another muscular 31-23* Hard Hundred hike. Ten increases include WMMR, KZAP, WRXK, WAPL, WKQQ and WIOT, with enough Top 5 phone power to bring in a #10 Most Requested debut. **WIOT's Jim Steel** comments, "When you get requests after one week in light you know you've got something brewing. It's really on a roll".... **WLAV's Aris Hampers** adds, "It's a creeper. We've got good phones and people keep mentioning they want to buy it and can't find it in the stores".... **KILO's Alan White** confirms, "I never would have guessed that we would have gotten the sales and phone reaction that we did, sitting at #18 sales for the second week running and #10 phones. Getting good reaction from both sides"....

The Alarm, "Presence Of Love", IRS.... This back-up track has been around long enough that the numbers do the talking at this point. It's still one of the most active on the Most Added--with new air on KRZQ, KSJO, WMAD, WKLC, WTKX, WWCT, WHTQ and three more. Extra solid on the Increase Index as well--with KROQ, WONE, WPLR, WRXK, WXRC, KZAP and WAQX topping that list. Now heavy on 23, with current action on 134. 25-18* on the Hundred....

Sting, "Englishman In New York", A&M.... This is the kind of record you play now and talk about later--and once those frantic female calls start rolling in, we expect to hear about 'em, OK? In the meantime, **WZEW's Kerry Gray** gets token quote honors, "This coming weekend he'll be here in concert and to get geared up for the show we've added 'Englishman'. That makes 'Nothing Like The Sun' eight tracks deep".... #8 Most Added with 18--with KTYD, WBRU, WRXK, KBCO and WXXP starting it heavy. D73* on the Hundred....

The Church, "Under the Milky Way", Arista.... Do they love it? You tell us: **Kelly Cruise, WEGR**, "Getting good response even with light rotation".... **Dave Ross, KFMU**, "Bringing in very good steady requests, the perfect song for all demos".... **Christina, WPLR**, "Surprising audience response right off the bat. People are picking up the phone to find out what it is every time we play it".... **Bob Walton, WRDU**, "It's a little Al Stewart, a little Pink Floyd and a little bit of the Byrds. This song works".... **Jim St. John, KTYD**, "The best produced song of that genre".... **Andy Preston, KPOI**, "Wonderful record, great response, soon to cross over to other dayparts".... **Ty Banks, KQWB**, "Incredible phones on one of the most beautiful soft songs we're playing".... **Tim Parker, KNCN**, "Surprisingly good phones male 20-30. They remind me of Al Stewart and Donovan".... **Mark Bradley, WNOR**, "If Arista doesn't take this to Top 40 and AC they're insane. I don't see anybody left out on this song".... **Bryce Crousore, KQDS**, "Excellent phones and it's selling.".... #5 Most Added with 22--backed up by this week's fourth strongest 19 increases and a big time 35-29* gain....

Paul Carrack, "One Good Reason", Chrysalis.... Top 40 momentum carries Paul into another beautiful building week--with new action on KBCO, KTYD, KYYS, KLOS, WWRX, KICT and 5 more. 14 heavies and ups from KISS, KLPX and KRXQ bring in a 44-36* gain, with 84 reporters currently on board....

AC/DC, "Heatseeker", Atlantic.... Please allow us to soapbox about one song most of you appear to be dramatically underplaying. One look at this album's top 15 Billboard status should tell you that the consumer demand for AC/DC has never been hotter--as will comments from programmers coast to coast. When folks like **Carter Alan, Greg Mull, Jim Pemberton, Alan White, Stephen Page, Patty Martin** and **Mark Bradley** talk about four and five week stands in heavy rotation--with flamethrower phone action from day one, we think that should be sufficient motivation to move this people pleaser out of light--or night--rotation. Here's more from **Redbeard at KTXQ**, "It's been #1 phones since I first put it in, and closing in on a month of heavy rotation. And check these sales: #4 at the Sound Warehouse chain--and that's 75 stores. Other reporters like the Hastings Chain, Melody Shop and Musicland show composite #8 sales. 'Heatseeker' is a lot of fun, and 'You Shook Me' still stands as one of the highest testing songs in rock and roll radio".... Just remember--the first rule of thumb is to give the people what they want--and those sales reports and requests don't lie. They want this!....

Jerry Harrison, "Rev It Up", Sire/WB.... What a week! Jerry powers up a 12-7* sprint behind all kinds of killer stats: New on 4 (including KQRS), Up on 17, Power on 13 and heavy at 63. Those phones also show a solid increase, with WIZN, KEZE, KFMH, KFMU, KOZZ, KTCL, KTYD, WAQX and WLWQ into Top 5 response. The biggest solo success so far this year? Has to be....

George Thorogood, "Born To Be Bad", EMI/Manhattan.... More Bad numbers: How ya like 29 heavies? We're talking heavy hitters like KDKB, KGON, KISS, KOME, KSJO, WCMF, WDVE, WHJY, WLWQ, WMMR, WNEW and WPYX here, too, folks. The play-ups include WCMF, WLWQ, WPYX, KDKB, WBRU and WMAD--with a grand total of 14. Phones include KQDS, WHEB, KOZZ, WRKI and WRUF. #3 Most Added with 29, making it 108 stations to date--good for a 38-27* move....

Will And The Kill, "Heart Of Steel", MCA.... Will walks in with another healthy week--with new air on WBCN, KLPX, WEGR, WMMR, KSJO, WPLR, WDVE, KDJK, KDKB and six more. Of 117 now playing, 7 have it heavy, including KBPI, KQRS and KLBj, with ups from KBPI, KLBj, KMBY, WWTR, KFMU and three more. **WRFX's Mary London** comments, "It slays me that a 16 year old boy can sound so good with very little effort. Will And The Kill amazes me--and this guy doesn't even have a driver's license".... Hey, as long as he's got the local MCA rep to drive him around, no prob. 48-41*....

INXS, "New Sensation", Atlantic.... You'll play most of this album before it's over--but we'll definitely line up behind this current emphasis track. As **KJOT's Carl Scheider** says, "The album has been really interesting and you might as well get on this before CHR does. The whole album is so infectious".... And here's that seasonal tie in from **WXRC's Jon Austin**, "This is a song screaming out for spring".... New on 12, now on 44--with KRQR, KBPI, KBCO, WRXK and WKQQ among 12 early heavies. 67-61*....

Foreigner, "I Don't Want To Live Without You", Atlantic.... "Can't Wait" is still very much on the upside with a 32-26* advance, with new action on KSHE, KOME, WEGR, KXRX, WGIR, KMJX and three more--and ups from WDVE, KATT, KQRS, WDHA, WAQX, WCCC, WDIZ, WTPA, WHTQ and 6 more. That's obviously the profile of music on move. In the meantime, the new key cut to be "I Don't Want To Live Without You" bags 10 adds and a 81* debut. It's now on 17, including WRIF, WLWQ, WKLS, WHMD, WKQQ and KRNA, where **Steve Kosbau** comments, "This new single is a smash. We played it briefly when the album first arrived, and the message our listeners sent was clear. They loved it! Pound it to death before the CHR's do. It's a re-add to heavy for us!"....

CHARTSTARS

Henry Lee Summer, "I Wish I Had A Girl", CBS Associated.... As if Henry Lee's awesome 4-3* chart move ain't enough, he's into his third week of Dominator status on the Increase index--this time turning in 26 play jumps. That's the strongest grip on the most indicative stat I've ever seen from a new artist in going on 12 years of radio journalism. Nolie. And the Most Requested growth is right there, too--with a cool 9-7 move. All that's left is to mention the kid's already Heavy at over 110 reporters. Through the roof....

Lita Ford, "Kiss Me Deadly", Dreamland/RCA.... It works if you play it enough. Just listen to the people who have: **Tim Parker, KNCN**, "Can't believe the phones on this record. Much more than her earlier 16-24 Male stuff".... **Christina, WPLR**., "We've seen top 5 phones since we've been on it and that comes from everybody, not just kids. It sounds great and we've been banging it in power rotation for a couple of weeks with no burn whatsoever".... **Jon McGann, KFMX**, "Lita is getting a steady stream of phones and is breaking into top 5 sales here in town".... **Vern Argo, KZOQ**, "The requests have been steady since we first put it on, and sales have been good, too. Getting close to heavy play here".... and from **Bryce Crousore, KQDS**, "Lita is #4 sales and Top 5 phones. She's the ladies' answer to George Thorogood. She's bad!".... New on KTXQ, WSHE and WIBA, with Ups from KRQU, WCKW and KFMX. Currently a phoneburner at KISS, WDHA, WWZU, WXXP, KQDS, WWV, KRQU, WRIK, WSTZ, KNCN, WAQX and more....

AC/DC

“Heatseeker”

Carter Alan, WBCN: “‘Heatseeker’ is a meat and potatoes kind of thing for WBCN, and unlike most of the heavy stuff that is currently being released, the edges on this song have been skillfully honed so it works in all dayparts. Heavy rotation for six weeks now and I don’t see it budging in the near future. With top 10 Boston sales this isn’t going anywhere for a long time . . .”

Stephen Page, KOME: “It’s doing well for us in all dayparts except for mornings, and I could even hear it there. The phones are very strong male and female, with heavy play here since early February—and solid top 20 local retail . . .”

Patty Martin, KSJO: “It’s been one of our hottest requests for weeks and weeks, and we just keep getting more calls. And the retail has been great too—#3 last week at one of the Tower stores, #5 at Tower Campbell and #13 Tower Mountain. Stations that haven’t moved it into heavy are hurting themselves by not servicing their entire audience . . .”

Alan White, KILO: “Selling like a house on fire here, going 8-1 last week . . .”

Greg Mull, WRXK: “They’re definitely a core band for the format, and I think we need to embrace this just like we would a new Van Halen or Robert Plant. This band has a heritage and it’s rock and roll. The record has been selling top 5 and that’s no bullshit. We’ve also been getting consistent phones on the record, and even my morning man likes it.”

Mark Bradley, WNOR: “The song is basically rhythm and blues, but just turned up real loud, and that’s what they do best. It’s satisfying our 25+ listener who was 20 when ‘Back in Black’ or ‘Girl’s Got Rhythm’ came out. Our phones have been active and consistent here and it’s been in heavy for five weeks—and that’s unusual since I’ve been moving most things out of heavy after about about a month . . .”

Jim Pemberton, WLLZ: “The louder you hear it the better it sounds. We’ve had it in heavy for I don’t know how many weeks, and it is a huge phone item here. And surprisingly, positive testing stretches all the way to 30.”

ON ATLANTIC RECORDS, CASSETTES AND COMPACT DISCS

Tonio K., "Without Love", What/A&M....

More adds and ups to report: New on KLAQ, WKQQ, KSQY, WAPL and WHTQ, upped at KQRS, WLAV, KLOS and WKWQ. Now heavy at WRIF, KQRS, KTYD, WLAV, WMJY and WPLR where **Christina** comments, "We've always played him in this market, so the audience is always prepared for his new material. They're responding in a very positive manner".... **KATP's Jim Kelly** calls it "Perfect crossover mix material", and **KLAQ's Mike Ramsey** comments, "The song definitely holds up beyond any artist image problems"..... 41-40*, with 91 reporters currently on board....

Robert Palmer, "Sweet Lies", Island....

Regarding Robert's undeniable class quotient, 'PHD's **Pam Brooks** books, "He embodies cool and debonair. Add some class and savoir faire to the radio and give them 'Sweet Lies'. I almost tie up traffic groovin' in my car with Robert's voice caressing me". Is it getting warm in here, or is it me? **KRNA's Steve Kosbau** comments, "Palmer is doing well with largely female calls. It's a winner".... New on KGON, WDHA, CILQ, KZEL, WKQZ, WKXL, WPDH and several more, with WNEW, CFNY, KZOQ, WMAD and WXRT upping. 79-70*....

TAKE TWO

Icehouse, "Electric Blue", Chrysalis.... One of the strongest candidates for an even bigger piece of your airplay action turns in this week's second strongest 20 rotation increases, with 23 now posting Power play and 66 into heavy status. Guess that leaves those mediums to pick on, eh? And that list is 42 deep, with 5 stations audacious enough to report it light. Get on the stick, y'all! 11-8* and still building....

Peter Himmelman, "I Feel Young Today", Island.... We couldn't agree more with **WEGR's Kelly Cruise**; "Someone please tell me why 'I Feel Young...' isn't getting more adds. It's one of the best songs out there and it's perfect for the current spring fever state of mind".... Why, **KFMU's Dave Ross** tells us "I Feel Young..." is working better than 'Waning Moon' did".... It's new this week on KQRS, KQWB, KJOT and KMOD, with WEGR, WPYX, KRXQ, WBRU, WDHA, WMAD and KJJO already in. Underlined again, 74-67*....

Kingdom Come, "Living Out Of Touch", Polydor.... At this rate, it'll take a Jesus, Jimi and Janis powertrio reunion to knock "Get It On" out of #1 requested--and the airplay build on that sucker also continues to climb 8-6*. Album depth is obviously what the doctor ordered, and in that regard, we've got underlines for "Living Out Of Touch" 99-80*, and a 92* debut for "Loving You". "Living" locks up play on WAPL, KFMQ, KJJO, WHCN, WLZR, KLOL, KWHL and WKWQ, with WRIF, WCMF, WRDU, WNEW, KLBK, KSJO and KAZY already in. "Loving You" is new on KEZO, WDVE, WXL, WLZR and WLWQ, with ongoing action on KSJO, KILQ, KATT, KLBK, WEZX, WIOT, WRDU and WIXV....

MORE HARD ACTS

Prophet, "Sound Of A Breaking Heart", Megaforce/Atlantic....

A big add week for Atlantic's next Pop Metal crossover hit--with adds at WQMF, KLAQ, KNCN, WBYR, WRUF, KFMF, KMBY, KWIC, KZOQ and WAOR. **KILO's Alan White** comments, "It's something that's coming on and we feel it's a mainstream mofo. It takes some time for people to catch on, and we're starting to see some phones".... **KMJX's David Allen Ross** adds, "It's starting to build even though the band is relatively unknown to our audience. It's not too heavy, with the kind of pop-metal sounds that works very well here".... From **WRIK's Mike Scott**, "Prophet is doing very well, especially with the younger demos. Young males and females in love really go for this song".... And **KNCN's Tim Parker** comments, "Prophet is a safe bet for this market. A power ballad with an edge".... Underlined 50-45*, with heavy play at WEBN, WDHA, WLZR, WQFM, WQMF, WWZU and WRIK....

E*I*E*I*O, "Hey Cecelie", Frontier....

New this week on WLUP. The last time they took a shot on a total leftfielder the record was Crowded House. Does that tell you something?....

The Godfathers, "Birth, School, Work, Death", Epic....

One of the strongest rocking New/Alt to Mainstream crossovers in months locks a spot at 6 reporters this week, including KAZY, KNCN, WNOR, WRDU and KAZY, with WKLS and WBRU showing play increases. **WRDU's Bob Walton** comments, "The Godfathers could be the hottest rocking song of the week and it took listening to it outside of the confines of the radio station. You've got to hear it in your car or your living room. Bring some friends over. They'll tell you".... **WONE's Mike Michelli** says, "We're hoping that this will be an anthem for the demos we're trying to capture", with similar thoughts from **KNCN's Tim Parker**, "This is the first time around for us. We finally found some space to squeeze this anthem in".... Currently on 71 reporters....

Sinead O'Connor, "Mandinka", Chrysalis....

Another week another 20 thou down the pipeline. Pay attention!! **HCN's Kim Alexander** did--telling us, "Talk to anyone in Boston (or anywhere else it's getting played) and they'll tell you the same thing. The record works! I'm looking forward to the show".... In addition to WHCN, new adds include WRCN, KBAT, WOUR and KLPX. Currently on WRIF, WOUR, WBRU, KTYD, KBCO, WNEW, WLLZ, WDHA, WZEW and WBCN--41 stations total. 68*....

Toto, "Stay Away", Columbia....

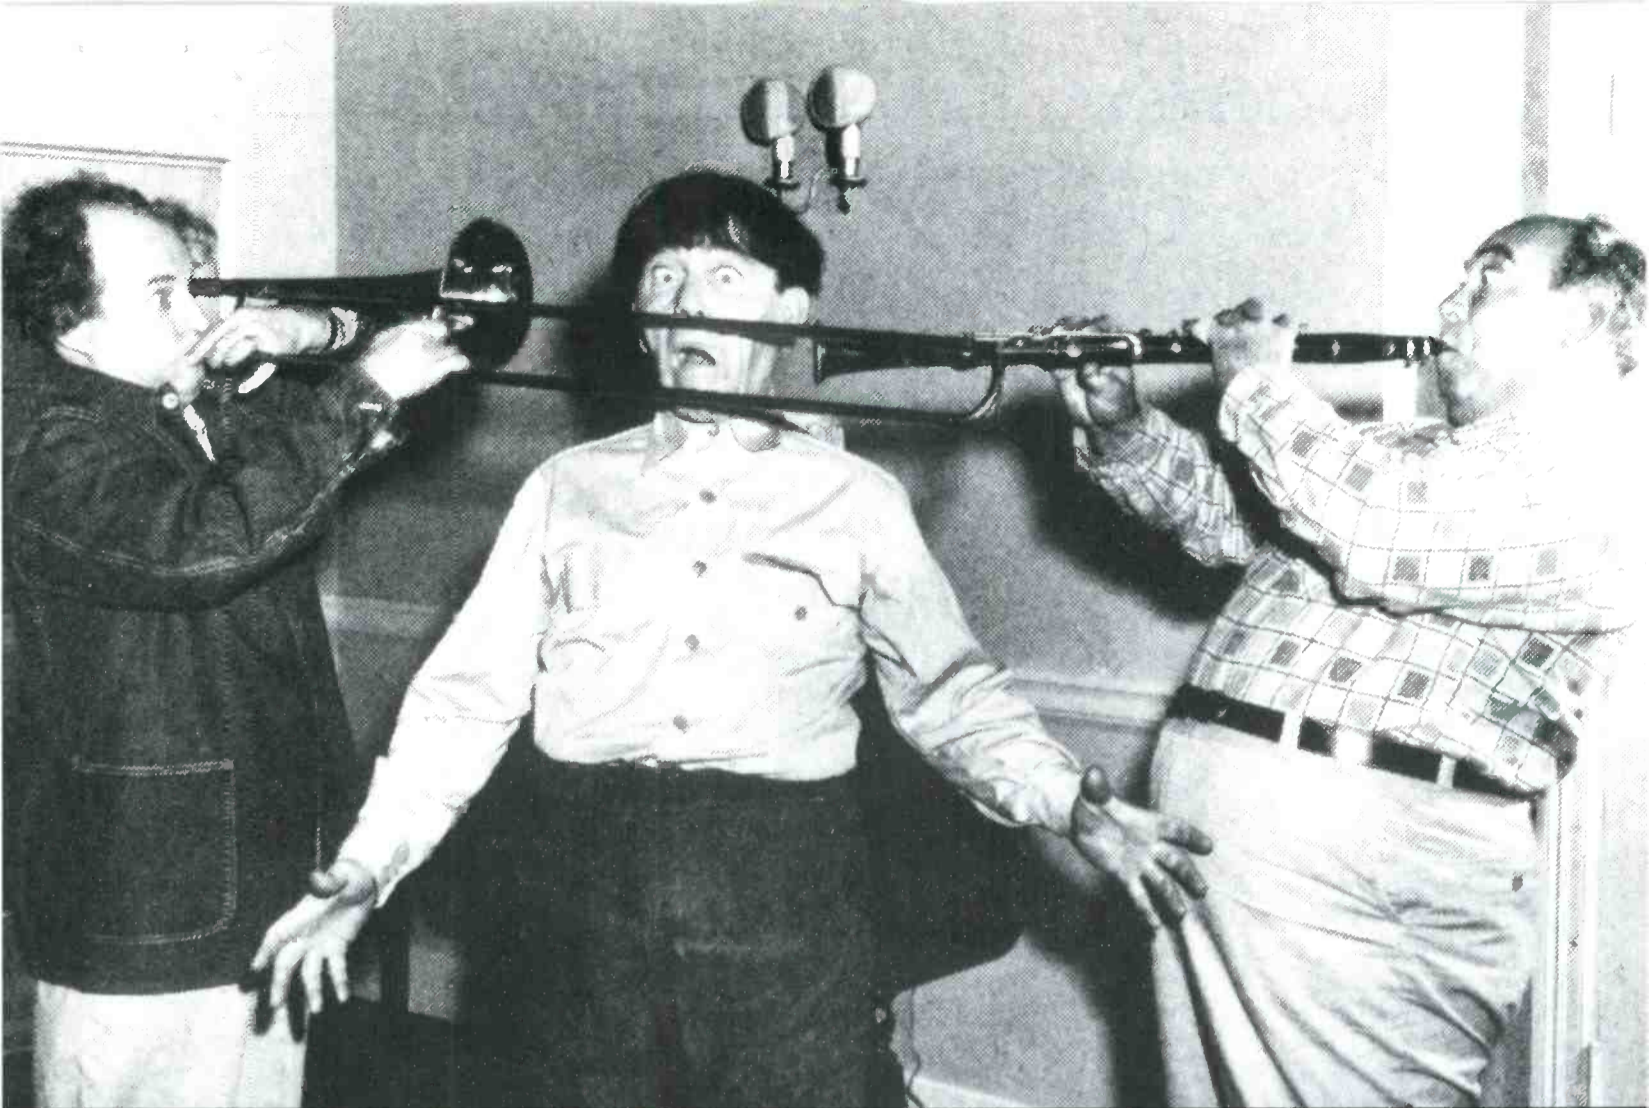

There may have been initial interest in "Pamela", but Toto's killer Rainbow implosion shaping up as the wax to watch at this point. **Dick Sheetz** calls it **KRZQ's** strongest add of the week, saying "In my hunt for good, mainstream rock and roll that grabs you by the ear, this is right up my alley. Don't be afraid because of their pop image, because this is different from that".... **KFMF's Marty Griffin** concurs, "I think you'll be surprised. It features Linda Ronstadt on background vocals. And yes, I know it's hard to believe, but it rocks!!".... New on 6; KFMF, KRXQ, WEZX, WLLZ, KMOD, WAOR....

Guns N Roses, "Welcome To The Jungle", Geffen....

If you're in the market for hard rock with built in reaction, look no further. **KEZO's Joe Blood** says, "They own the phones and next week I expect retail to follow. It's our fastest mover".... **Joe Skare, KFMQ**, "Last week I said it was too big to ignore, and this week it blows past AC/DC and Kingdom Come to #1 phones. The song really kicks ass".... **Mark Dagwell, WTKX**, "After only one week on the air Guns N Roses are knocking down Top 5 phones".... **Brian Jordan, WRUF**, "Four months ago we went crazy on this track, and now we're on the reissue. It remains one of our hottest songs".... New on KBPI, KDJK, WBLM, WOUR, WZZQ and WXL. Increases include KLOS, KILQ, KOME, WNGZ, WHEB and WWZU. 57-50* on the Hard Hundred. Bottom line--when a record moves 12-6 Most Requested with 28 Top 5 mentions, it deserves more action than 67 total reporters....

James Taylor, "Never Die Young", Columbia....

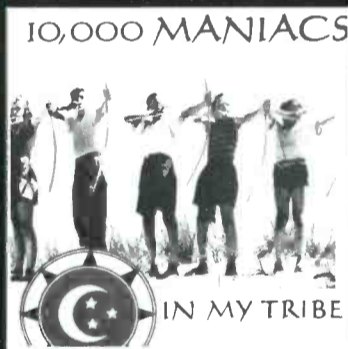

Although **WDIZ** was the only add this week, those raves keep 'a comin: **Rad Messick** explained, "James is selling very well, and still probably means a lot to people who listen to this radio station".... **KRNA's Steve Kosbau** adds, "He has to be a contender for the most overlooked AOR tune of the first quarter. You have to be careful when you play it, but if you package it right the 25 + phones will come out of the woodwork. They're crazy for it here and it's selling well".... **KATP's Jim Kelly** adds, "James is real big with women and we can always use some help on that".... And from **Jack Emerson** at **KGGO**, "It's real nice upper demo. People want to know what he's been doing since he left Carly".... 73-66*....

Robyn Hitchcock, "Balloon Man", A&M.... It's beginning to look as if Rock radio is content to let CHR take over where New/Alternative will be leaving off--but considering this tune's wonderfully catchy appeal and Robyn's huge sales base that seems a little lame to me. **WZEW's Kerry Gray** hears it, saying "Having already established himself with the college audience, we feel this tune has that sixties sound that is sure to capture the upper demos. "Balloon Man" is a perfect springtime tune and we love those quirky lyrics. Give him a chance".... From **WHCN's Kim Alexander**, "It's a favorite of the HCN staff, kinda reminding me of the old Kinks cabaret style of 'Well Respected Man' or 'Sunny Afternoon'. It's just plain infectious".... New on WNEW, WHCN, WEZX, KMOD and WZEW....

Big Pig, "Breakaway", A&M.... I liked this song a bunch before Dallas--but after hearing it in the A&M suite I'm totally convinced it's at least a pop hit--and apparently **Redbeard** came away with the same impression, with **KTXQ** adding this week. It's also new on **WDHA** and **WCCC**. **WXXP** and **KJOT** report top 5 calls, with **Carl Scheider** commenting, "Big Pig is getting incredible reaction from women in their mid twenties, which shouldn't surprise me because it's danceable and hooky. One of those songs that sticks in your head".... Why, here's a woman in her mid 20's ready to testify--**Christina** at **WPLR**, "It sounds so distinctive that you can't help but listen to it. It may be out of the ordinary, but in a way that definitely works".... 97-93* on the Hundred....

So, "Are You Sure", EMI/Manhattan.... The best progressive/orchestral item on the street continues to spark interest in all those important stats: It's new on **KFMF**, **KVRE** and **WKQZ**, with **KITS**, **WHMD** and **CFNY** upping rotation. Currently on 72 Hard reporters, most notably **WRIF**, **WQFM**, **WCCC**, **KMOD**, **WRXK**, **WNOR**, **WNEW**, **WMAD**, **WLLZ**, **WBCN**, **KYYS**, **KROQ**, **KLOL**, **KLOS** and **WBAB**. 53-51*.... Simple Minds meet Annie Lennox in a seductive mood?....

ALBUM PLAY PRIORITIES

Yes, "Final Eyes", Atco.... Longevity has been the byword for this band ever since they smoked their first banana. Now, from an album that has been working since late last year, we see continued growth and even some new action on "Final Eyes". The reports this week show Yes traveling on a straight line from 26-21* with a consistent buzz on the wire. **WCCC**, **KDKB**, **WAPL** and **WKLS** have just added this one while we track Heavy play at **WMMR**, **WNEW**, **WFYV**, **KRZQ** and **WLLZ** and top five phones **WWRX** and **WKGR**. When an album has the hang time of this project you know the format is in good health and that those heritage/current questions can be resolved by bands with the kind of creative juice like Yes....

Bruce Springsteen, "All That Heaven Will Allow", Columbia.... The faithful have gathered and the tribes are bringing down the sky with their chants and applause. The hyperbole flows and the airplay stacks up like cordwood whenever this guy hits the road. With a 16-11* jump up the chart and 55 Heavy reporters including **KBCO**, **WAAF**, **KRQR**, **WCCC**, **WLLZ**, **WMMR** and **WNEW** it becomes crystal clear that this one has the stuff. Listener response has also generated interest in a previously unavailable track "Roulette". This concert fave picked up 7 stations and debuts at 89* with Heavy play reported at **KZEW**, **KBER** and **WWRX**. The concert tour that has 'em running for cover is also generating the expected and, very welcome, retail splurge that always picks up when the cheers of "Broooce" have died away....

REM, "Finest Worksong", IRS.... While this track is holding steady at 30 on the Hard Hundred, the Winners Chart indicates a 22* rising on the strength of this band's reputation for quality new music. Format leaders are blazing leading the way for a song that they find very useful in their efforts to up the new music ante without losing anything in terms of rock values and Stipe's by now familiar vocal intonations. New play at **WZZO**, **KLAQ** and **WPDH** shows cross regional support for the band Rolling Stone has called "America's Best". Power play continues at **WHCN** and **WMJY** with ups in rotation at **WXRC**, **KMJX** and **WRXL** keeps the focus nice and crisp at 115 reporting stations....

George Harrison, "Cloud Nine", Dark Horse/WB.... This is the week that George drives a wedge in the Top Ten 13-9* with increases in play at **KFMX**, **KGON**, **KILO** and **WVVV**. The format has been getting top flight performance out of this offering with Power play at **WNOR**, **KXRX**, **KYYS** and **WFYV** and Heavy support at **KBCO**, **KZAP**, **WAAF**, **WLUP**, **WMMR**, **WNEW** and 63 other reporting stations. It was obvious on the first listen that this was an album rich in material for the format and it is amazing to see all the cuts still left for our future use. So relax and sit back, don't be nervous, you've got a long way to go with this project....

Robert Plant, "Tall Cool One", Atlantic.... It is a matter of some interest to oddsmakers whether or not Robert can power two tracks in the Top Five at the same time. Those who bet that he couldn't get two in the Top Ten have already lost their money as "Tall Cool One" pops 17-10* on the Hundred. **WZEW's Kerry Gray** tells us, "We're currently five cuts deep on the Robert Plant with 'Tall Cool One' snagging #1 requests for the second consecutive week." Big phones are also reported at 44 other reporters including **KTXQ**, **KSJO**, **CHOM** and **WAAF**. Don't look now but "Ship Of Fools" is on our trail as well with a substantial 47-42* hike on the Hundred fueled by adds on **WEBN**, **WDVE** and **KBPI**. "Robert Plant has delivered nothing less than a masterpiece. It comes as no surprise." according to **Tom Starr** at **WOUR** and we think that probably sums things up pretty damn well....

David Lee Roth, "Knucklebones", Warner Bros.... Here he comes again! This project has all the timing of a Lakers fast break and just as soon as one track starts peaking those WB All-Stars execute a whiplash to the next song on their work list. This time it's "Knucklebones" getting the red carpet treatment at **KISS**, **WRDU**, **WRXQ**, **KNAC** and **WHCN** where Heavy or better rotations are called for. New airplay at **KZAP**, **KOME**, **WKWQ** and **WSTZ** help hold this little piece of rock and roll fun at 49 on the HH. Nothing stands in the way of David Lee's full frontal contact with the format and this album has all the earmarks of a long term staple for that Spring Book diet....

DEACON BLUE

RAINTOWN

DEACON BLUE, who hail from Glasgow, Scotland and whose name comes from the Becker/Fagen song "DEACON BLUES," were an immediate sensation with the British press after their debut appearance at London's Marquee Club.

"DEACON BLUE have more integrity, more honesty, more passion and compassion about them than any band I've known. The band is simply too good to fail."

MÉLODY MAKER

"...the band is simply excellent." **NME**

"A world of songs like 'DIGNITY,' the forthcoming single, condenses the wry tale of determined life into three mindnumbing minutes... a passionate song that draws you into its ephemeral spell."

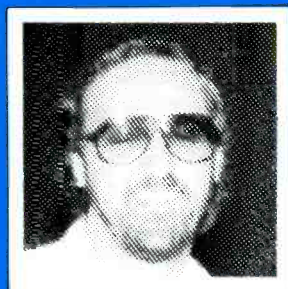

RECORD MIRROR

~ "DIGNITY" ~

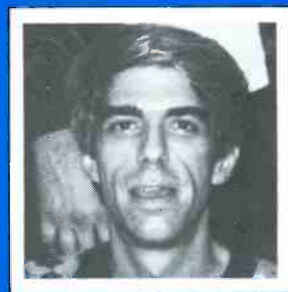

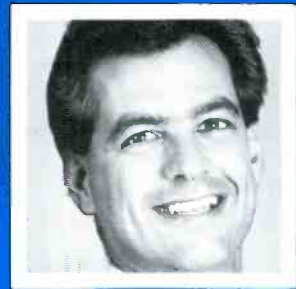

"I keep listening to this one over and over again!"
GENE ROMANO, WDVE

"Here's a record that definitely surpasses the hype. DEACON BLUE should be on every radio station, every format, every hour, every day."
MIKE BOYLE, WDHA

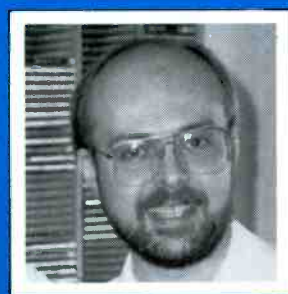

"Bruce Hornsby meets classic Supertramp. We went on it early, positive phone response immediately."
DAVE LONDON, WEZX

"DEACON BLUE's 'DIGNITY' reminds me of Harry Chapin's storytelling, combined with Bruce Hornsby's musicianship. Added early."
PAT STILL, WRIF

"We've been featuring DEACON BLUE from the import since September. By definition, 'DIGNITY' means the quality or state of being worthy. This song and band exemplify quality and are certainly worthy of our airplay and your recognition."
ARIS HAMPERS, WLAV

"Fanfare for the common man."
CARTER ALAN, WBCN

"DEACON BLUE's 'DIGNITY' was an instant hit in our music meeting. We added it before the box was even opened."

New to the top five and looking good across the board, **Henry Lee Summer** puts some luster on his smash debut with an impressive four place hike from 8-4* this week. The story has developed along the lines of increased rotations with ups to Power at KYYS, WHJY, The Loop and WRXK. For a neat plot twist check out those top phone reports at WFYV, WDIZ, KTYD and KGGO. Unlike other projects suffering quick turnover, the format seem to be more than willing to hang tight with Henry Lee until the next track comes along.

A cluster of upwardly mobile tracks are lining up for some serious chart rattling in the top ten. **Jerry Harrison** is priming for that last big push on the chart with an 11-7* run equalling his Hard Hundred placement. WNOR, WKQQ, KPOI and KFMX have the tach-master in Power and moves are looking good at KEZE, KBCO, KISS and WEZX. The man who makes the Heads sound so sharp has sent a message, he is ready to get the job done on his own as well. For album fans check out "Cherokee Chief" and "Angels". **Robert Plant** may have a lock on the top of the chart but he won't rest until he has a pair of tracks in the top five. "Tall Cool One" has been leaping up the chart with its Led Zep sampling and "I've still got it" message from Robert. The Loop and KQRS sign on this week as do

Denver combatants KBCO and KBPI where the track goes straight into Heavy. The phones are boiling over as well with maxo requests at KISS, KILO, WKDF and WONE. **Icehouse** has been steadily improving their position on the chart and this time out we see a serious 14-9* leap thanks to KLAQ, KYYS, WNOR and KSHE. In scanning the format leaders it becomes evident that only WKRR and WMMR have it in a Light rotation, everyone else is still getting good penetration with this upper demo slice of life down under. Every week we see **Bruce Springsteen** cut the distance between himself and the top of the chart in half. First he debuts at 36*, then he scores a 18*, now he's up to 10* and there is no reason to believe that he will stop now. WKDF and KTXQ may be new to the parade but everyone else on the Honor Roll of AOR heavies has been banging this one with tremendous results. The phones are curiously quiet but the concert halls are cracking at the foundations to some of the best live rock on the road right now. You just gotta believe that awareness is swamping the speakers everytime you get into this one. WAPL, WKQQ and WPLR already have it in Power and the increases on KQRS, WAAF, WLWQ and WNEW bode well for another huge jump next week for the man who defies the physics of rock and roll.

In the body of the chart we see **REM** sliding up to 22*. Admittedly not a huge move but look at that placement compared to the Hard Hundred where the boys from Athens, by way of Pluto, are a substantial eight slots ahead on the Winners Chart. Format leaders are not shy in proclaiming this song crucial to their new music profile. New adds on WZZO and KLAQ keep things interesting while support play at KLBK, WKDF, WONE and WPLR keep the project alive and well. **George Thorogood** posts a 38-23* streak up the Winners Chart leaving many of faint heart in the dust as he grinds out another format pleaser with "Born To Be Bad". Four places ahead of his Hard Hundred pace George, the Delaware pick crusher, gets a clutch of "I Believe" votes from KFMX, KEZO, KLOL and KGON where this track goes right into Heavy. Lock up all those underage girls and get your safe sex kit out from under the bed, George is back in town.

In one of the biggest debuts on the Winners Chart, our radar tracks David Byrne and the Heads that Talk on a parabola that makes a joke out of gravity. Adds into Heavy on KAZY, KBCO, KPOI, WFYV, WHJY, WMMR, WPLR, WPYX, WZZO and WRXK keep these monkey boys in a zero gee mood where almost anything is possible. **The Talking Heads** are about to gift us with their most cohesive album in years, get ready for a party.

One of the biggest movers on the Winners Chart this week shows a huge 48-34* jump for **Balaam And The Angel**. "I Love The Things You Do To Me" is finding a home on WFYV, WKQQ, WEZX and WKDF with support play on KBCO, KEZO, KISS and KTYD. This melody meets metal introduction is just the first layer to be peeled from an album that should position Balaam for bigger things to come. They certainly have the support of a label with guts and they only need you to close your eyes and open your ears. If the soaring chord structures in this song don't rock you it's time to refill that Geritol prescription.

Lita Ford has re-joined the ranks of our Winners Chart with a 41* position that has her claiming Heavy play at KISS and KFMX while WPLR has the lovely Lita in at Power. Phones are the key with listeners lapping up that fem-rock sound at WFYV. Lita is making those Nipper types very happy with her return and the chart shows only positive trends this time around. In the debut file we have Mr Pasadena, **David Lee Roth**, repelling the Winners Chart with "Knucklebones" at 43*. KZAP and WEZX are among the format leaders who have decided that now is the time to prep the audience for the return of that wild and crazy guy we have come to know and love. Heavy airplay comes in from WAPL, WPYX and WFYV. **Joni Mitchell** is making things look easy with her latest Southern California opus, "Snakes And Ladders". A slew of adds on winning stations like WRKI, WMMR, KILO, KLPX and KBCO, where it goes right into a Heavy rotation and you know that Joni has found a welcome that speaks well of the format. This signature piece of harmony and high flying execution leaves nothing to chance, the woman we came to love when it was time to Court and Spark is back with a 45* on the Winners Chart. **Prophet** is powering up for a run at respectability also with a 46* debut. The band is helped along by stations like KLAQ and WRKI who have added it this week while hard rocking KISS, WEBN and WKQQ are getting "Heavy is better" reactions to "Sound Of A Breaking Heart".

THE ADVENTURES HAVE BEGUN.

AN OPEN LETTER TO JEFF COOK AND BRAD HUNT
REGARDING THE ADVENTURES "BROKEN LAND":

Dear Fellas,

I had to write right away. I'm totally addicted to the magic in this new song by the Adventures. I received the advance cassette last week; I haven't given the tape a rest all week. Did you guys hide little leprechauns in the groove or something? I see a pot of gold buried in the sounds of this haunting number. I'm so blown away with this masterpiece that I'd put my money where my mouth is and give you gentlemen an out of the box add. What an inspirational song. I only wish I had had this song to listen to in the past when love dealt me a painful hand. Please do everything in your power to make this thing happen....

RADIO AND RECORDS REVIEW

Well the Dallas two step is over and it's time that we all bid the Lone Star goodbye and head back for the Spring Book in our respective markets. Some of the images I took home with me include:

A Stevie Wonder surprise on Opening night
Rob Steinberg and his scorching Scorps tape
The heart stopping Charlies Angels wanna-be's
Fajitas on the Karl Baehr budget plan
Ken Benson at the blackjack table
Ted Chin and his Marketing panel
John Cougar and Buster rocking the house
Sunshine slowing me down on the Patio
Music being treated like Records

Then there were the AOR panels and the usual amount of format flogging. To his credit, **Harvey Kojan** did a fine job of retaining his humor and control during some major pissing and moaning. If I remember correctly it went something like:

The format doesn't play enough currents....
heard that one anywhere before?
AOR won't support unknown bands over the
long haul and loses credibility as a result....
The record industry sabotages the format with
their track intensive promotional values....
Consultants are uncooperative and responsible
for the fate of the format's failure to embrace
music....
Successful AOR's don't really give a damn what
you think about their playlist....
Sound familiar?

No doubt about it, fingerpointing reached new heights of strident overkill while, unfortunately, some hard facts slipped by. Yes, AOR is a trifle stale and could use some new juice. Yes, the record industry has a valid complaint that we aren't responsive or musically connected like we used to be. And, yep, the industry is guilty of band signings that make no sense and jumbled promotional priorities that have led us, over the years, into a track consciousness that isn't altogether positive for the format.

What is getting shuffled under the deck are a few harsh realities that aren't likely to go away anytime soon. And just to make everybody even more crazy, there is nothing that the record or radio community, especially the consultants, can do about it for the next little while.

The broadcast biz is far too uneven and brutal at the local level and the results have been a winnowing of the talented people that made radio so exhilarating back in '68 thru '76. There aren't enough big markets to go around so you end up with a lot of very talented and experienced guys making do in a small market. This effectively means living on less money than the average used car salesman and that's pretty hard to take after spending a decade or more learning your craft. In fact, it doesn't take too many years of that to push people out of the industry and into other fields of endeavor. The result being a new generation of replacement PD's who have come up in an overconsulted environment that stifles musical adventurism for the sake of organizational stability. This new group of developing PD's will put up with less money and are more willing to take their musical direction from a Monday phone call rather than from the heart. Unfortunately for us, this market condition precludes any revolution from within the format that might change the current balance.

The real point is that the only place where things can change is at the local level. The cultural shift to a new, more open dynamic that has been foreseen by numerous trend studies, (see our **George Burns** interview), indicates a new way of dealing with the issue of formatted rock radio. Most likely the individual responsible doesn't even know that they will spark that revolution, (see our **Greg Mull** interview), but they will necessarily possess certain attributes essential to the challenge. They will be "an old hand" that is someone who has been through enough to know the way things work, a solid mechanic and not a pure visionary. Secondly, he will be inspired to view the format in a new light. Then, oh boy it gets thick now, he will have to be lucky enough to work for ownership that realizes, at long last, that newness is more competitive than sameness in the shifting American marketplace.

Think about it, **Tom Donahue** was an old fart Top 40 jock fed up with the pabulum he was forced to play. He smoked that one extra joint and, in a coffee house in North Beach, came up with a revolution in radio. The man knew the ins and out of the industry and fueled his technical skills with a drive to share the music of the times in a way that paralleled the experience on a cultural level. Most importantly, he cared, and that feeling shined through all the messy stop and start errors that go along with a new development. The next great rock innovator doesn't even know he is going to do it, yet. And when he hits the scene he will face the usual wall of indifference and nay-saying. But if he sticks with it and wins, count on everyone to jump on his coat tails in a big way. The format's tendency to play follow the leader will guarantee a new chapter in the endless cycle of inspiration, elevation, emulation, ossification and degradation. And by the time we get through that next cycle it will be the turn of the century and we will all be in the aluminum siding business anyhow.

WYNF and David Coverdale got together to talk about Tawney's inseam. Left to right is WYNF's Steve McCreery and Doug Vittorino, Coverdale, AMD Marcia Longo, Geffen rep Dave Garbarino and WYNF's Jon Volmar.

HOCK BE HAPPENIN'

Randy Hock has gotten that promotion in the mind of God. The Director of Album Promotion for MCA has been upped to VP/Rock Promotion at the label. Word is out that Randy celebrated by erecting a statue to Bill Bennett in Times Square made entirely of Will & The Kill CD's in the shape of an Armadillo. Gothamites have been reported trying to use it as a bus for the past week.

FUN FACTS TO KNOW AND TELL

Congratulations to Hightone's **Larry Sloven** and his wife on the birth of their baby boy Daniel, weighing in at 7lbs and 7ozs. For added spice KBCO chimed in with an add for "747" by the label's Joe Louis Walker.

MCA Radio Network announced the addition of **Bill Bartlett** to their fold last week. Now the boys announce a change of address as well. Their new locale is 100 Universal City Plaza, Building 106, Universal City, CA 91608.

Larry Bruce Communications informs us about the addition of **Keith Royer** to their growing company. Keith will be joining in the capacity of Programming and Promotional Coordinator. With experience at KGB/San Diego and KTYD/Santa Barbara, Keith will also be assisting in the area of music. When NOISE contacted Keith he told us, "From the heart I want to say thanks to Larry and Elizabeth. The opportunity to join this organization is spellbinding. Having worked with both of them at KGB I'm in personal and professional rapture."

Westwood One is getting on the public market with 2.5 million shares of common stock. The sale is intended to raise capital for the purchase of radio stations and other complimentary businesses in the media field. This should prove a very interesting addition to a few portfolios.

CEMA is getting ready for their first convention in the last 11 years. The gathering of Sales, Promotion and Executives from Capitol, EMI-Manhattan and Angel records will be entitled "Breaking Sound Barriers." Look for an April 27 through May 1 run at LA's Registry Hotel.

While we were getting all fired up for the **Midnight Oil** tour we got the unhappy news that **Peter Garrett** had injured his leg in New Zealand while performing. Looks like the US dates will be put off for a while as the man has been consigned to thrashing mightily in concert and ended up with a busted leg and some downtime in a local infirmary.

WXRT's Norm Winer, Paul Carrack, Lin Brehmer and Chrysalis local Greg Thompson pictured indulging in a rather obscure frat house secret handshake.

THE RADIO RUMBLE

WHEB/Portsmouth called to tell us that Jim Rising is returning to the station to do mornings. Joining Jim will be Fran Lane for morning duty and assorted nonsense.

KHIT/San Francisco may be CHR for now but not for long if Jim Gabbert has his way. The grassroots Coalition To Save The City seems to have had some impact on the proceedings in a way that should send shivers down the timbers of various "My way or the highway" owners. The group, having successfully stalled the transfer of the signal from Olympic to Gabbert, has prompted the station's owner-wanna-be Jim Gabbert to announce his intention to revitalize the eclectic KKCY format should he take possession. In another move to cement public opinion, Gabbert has signed with Bay Area progressive pro Thom O'Hair who has been doing time at the Columbia School of Broadcasting. Thom's rep as one of the premiere minds in the field of open ended AOR should help calm the local outcry that has troubled this transaction from the start.

IRS new National Director of Sales and Marketing **Keith Altomare** prior to his campaign to up retail for the Alarm that included locking himself up in his office until 100 calls of support came in.

Keith in the office of shame. You've gotta admit, he's looked better.

WYMG/Springfield has named a replacement for Bryan Jeffries who has gone to sister station WNOR/Norfolk. The new guy in town is Craig Stevens, formerly with KFMZ/Columbia.

KBER/Salt Lake City got seriously wild for their 2nd Birthday soiree recently. After lining up their loyal listeners the station mowed them down with a maximum dose of guitar energy courtesy of Ted Nugent. The station is getting ready for more bigtime promotions to come.

WTPA/Harrisburg has signed up some new morning masters in Ed Coffey and Shelli Sexton. Ed was with WGRX most recently while Shelli checks in from WRCN.

WEGR/Memphis and Art Merhing have parted company. Art has been holding down the co-pilot's chair for mornings at the station and their is no word on what he or the station is going to do next.

KGB/San Diego is shopping for a night time rocker. Pat Martin is reported out and the station needs that T&R in their search for a replacement.

Caught by the unblinking eye of the camera at a recent **Underworld** show in New York is Jim Trapp, WB's George Stone, guitarist Alfie Thomas, Bill Hard, keyboardist Rick Smith, vocalist Karl Hynde, drummer Bryn B Burrows, WB's Kenny Puvogel, bassist Baz Allen and album Producer Rupert Hine.

KRIX/Brownsville reports a change in music hours. Give Sonny a call on that new O.D. Blackout project on Thursday from 11am-1pm Central.

WWRX/Providence is getting ready to launch a big talent hunt. Unsigned bands are encouraged to get a sample of their work to the station. Then the material will be used as a feature on their "Brave New World" program. Send your stuff to WWRX, PO Box 325 Westerly, Rhode Island 02891. All tapes become the property of the station so don't send your masters in.

KCAL/San Bernadino has promoted from within to handle their promotional duties. Look for night time fem Lacey Kendall to absorb those chores. Hey Lacey let's get those photos rolling in, whatta ya say!

KTCZ/Minneapolis got a shot at interviewing John Hiatt recently. No surprise to note that the man was in top form and great copy. Color me green, I would plotz for a shot at some interview time with 1987's number 1 rock and roll resurrection story.

WONE/Akron celebrated their third birthday with musical help from Stevie Ray Vaughn and the Fabulous T-Birds. To cap off things, the Mayor of Akron proclaimed March 6th to be WONE Day in Akron. All in all, a nicely turned out promotion.

WAAF/Worcester has named Harve Alan as their new PD. Harve signs in from WCCC/Hartford where, after a year as David Grossman's research assistant and two years as PD, he is more than a little ready for this new challenge, "I'm truly excited to be the new PD at one of America's great rock stations and to be part of such a winning team with a strong heritage. I'm very impressed with the entire staff and ready to kick some proverbial butt." When we contacted Harve's former competitor, Bob Bittens at WHCN, he extended some hearty congratulations to his departing market mate, "I have a lot of respect for Harve and I want to wish him well at his new station. I'm sure he will do a great job when he's in a situation where there is some support. Congrats on going to a good station at last Harve." As for the developing Hartford race, which has the two stations practically neck and neck Bob tells the NOISE boys, "Who knows what is going to happen next in the market. I can tell you this much, I'm not going to be satisfied with a horse race forever."

POSTSCRIPT

Sad to report the passing of broadcast pioneer **Chuck Browning**. Chuck had significantly altered the course of contemporary radio with work done at West coast legends KHJ, KFRC and K-101. His influence will continue at every station where quality abides over hype and true excitement pushes aside artificial enthusiasm. He will be missed.

GEORGE BURNS PREDICTS PART TWO

Last week we began our look at 1988 as seen through the research of George Burns, a man who has been called the philosopher king of modern research technique. In this installment we discuss the gathering compartmentalization of radio into highly specific formats, new ways of conducting business and the threat of a youth market that may leave AOR behind in a search for "their music". As we resume our conversation with George we touch base on the fifth of his controversial ten predictions for 1988.

5) *More and more, the country will redefine companies as "management centers" and cut away excess overhead and personnel. In 1988, the drift will continue to a "1099 way of working." Jobs will be farmed out to an increasing number of independent contractors who offer well-defined specialization at a reasonable rate.*

WHAT IS THE IMPETUS FOR THIS SHIFT IN OUR WAY OF DOING BUSINESS AND WHERE WILL IT LEAD?

George.... I think we will see an increase in quality at the superficial level. As America begins to lean more and more away from its manufacturing base into the realm of service industries, we see this 1099 way of doing things permeating the society. In the areas of bookkeeping, data processing and the like I find myself, in my own company, looking to time shared "knowledge people" on a case by case basis. At one level in radio we see this with the proliferation of Satellite delivery formats where owners and managers farm out their programming and much of the execution to an outside firm. There are even professionals looking at extending that logic into the field of local sales as well.

THIS STRIKES ME AS MORE "WHERE IS THE PAPER CLIP" MANAGEMENT. WHY DOES RADIO SEEM TO LAG BEHIND IN THE RELATIONSHIP BETWEEN CREATIVE AND FINANCIAL RESOURCES?

George.... The government has decreed that we shall proliferate our entertainment channels to such a tremendous degree that the only jobs left may become those in the realm of pure management, and that's boring. We all got into radio because it's part of the media and the place to be. But what is a medium but a channel, a means to an end not an end in itself. Perhaps, just perhaps, the function of that channel is to direct your energy to something else much like a pipe. Who wants to sit there and look at a pipe. The place to be might be in servicing the medium or producing what goes into it at one end or the other because the limitations of being "in the pipe" are evident to anyone who has been there. From a strictly management point of view, radio is probably attracting better people today than ever before. The industry attracts more corporate minds with better technique than the mom and pop shop owners we all know from past experience. As station values increase from year to year in this industry we see a more professional environment at the upper levels of management.

6) *In 1988, the portable CD player for automobiles will become a major threat to the future of radio. These units are programmable and let the driver become their own disc-jockey.*

HOW IS THIS DIFFERENT THAN THE PUSH BUTTON RADIO OR THE CASSETTE PLAYER? THEY CERTAINLY HAVEN'T HAMMERED THE NAIL IN RADIO'S COFFIN.

George.... The act of pushing a button or dropping in a tape isn't as active a role as programming your own CD. Button pushing or tape playing is inherently negative, that is, you do it to escape something. CD programmability, however, puts the listener in complete charge of their environment, it is a much more positive act and as such more potent in the mind of the user than merely bailing out of a bad song or commercial break.

HOW HAS THE PERCEIVED USE OF RADIO CHANGED?

George.... It's important to remember that Arbitron is a measuring service. Now, according to Arbitron, the average listener still only logs between 2.5 and 3 stations as their universe of stations used even though the number of stations to choose from has increased dramatically over the years. When I talk to people it is obvious that they, in fact, can remember listening to more stations than what they will accurately enter in an Arbitron diary. So the ratings are really a measurement of what people remember using not their actual use, that's one of the reasons why positioning and marketing is so important.

7) *There will no longer be a radio audience for music in five years if radio in 1988 does not begin to program music to the specific needs of the young teen audience. The radio station that wants to be successful in 1989 must start developing a format that appeals to young men, 18-24 years of age.*

HOW ARE WE TO INTERPRET THIS STATEMENT? ARE WE TALKING ABOUT A FORMAT THAT DOESN'T EXIST YET OR IS THIS MERELY AN ADJUSTMENT?

George.... I don't think it is written forever that radio must be the primary source for music in this culture. Once we were the information source and that clearly has changed and there is no reason why music won't follow given certain conditions. If we don't give young listeners something to listen to in five years when they are 25 to 30 years of age they won't be listening to the radio for music at all.

WHAT ABOUT CHR'S MUSIC MIX? IS THAT FORMAT MORE ON TARGET THAN AOR IN DEALING WITH THIS PROBLEM?

George.... A lot of the harder stuff won't make it to Top 40 because it will turn off the females. Also, by the nature of the format they can't go deep on a lot of stuff the way good AOR will.

IS DEPTH CRITICAL TO THE MODERN LISTENER?

George.... Absolutely. The incidence of complaint about lack of depth has increased ten fold over the last year. AOR is being likened to Top 40 and Top 40 is getting slammed for repetition factors that fatigue the audience. When AOR is hot it is perceived as going very deep musically in comparison to Top 40 so when the format gets compared unfavorably to Top 40 in that regard it is a very serious problem for those programming AOR.

WHAT MUSICAL DIRECTIONS ARE MOST IMPORTANT IN FASHIONING A RELATIONSHIP WITH THOSE DISFRANCHISED YOUNGER LISTENERS?

George.... I am convinced that the younger listener is looking to the older music for their notions of what quality means. It is conceivable that the radicalism and experimentation that is ahead may be more conditioned by the past than was the case for us. As we transition from this period of female dominated media and culture we may find that what has passed for new and progressive music may be lacking certain elements essential to their success with the audience of the future.

ARE YOU REFERRING TO THE EURO-POP AND DANCE ORIENTED BANDS THAT COMPRISE MUCH OF THE ALTERNATIVE SCENE? PERHAPS BANDS THAT HAVE MORE IN COMMON WITH THE GUITAR DRIVEN GROUPS OF THE SIXTIES AND EARLY SEVENTIES WILL BE THE ONES TO MAKE THE BREAK INTO THIS NEXT CYCLE OF CREATIVE DEVELOPMENT.

George.... We aren't really talking about a strict definition so much as a notion, a perception that these artists knew how to

play and, just as importantly, cared about what they were doing when they played. This concept of caring, of coming from the heart and not just the head is very important to that notion of quality in the mind of the younger listener. Style over substance, flash over heart and soul, that is the sort of music that has typified this last female driven cycle and those values are being called into question at this juncture. I don't think that people are asking for artists to sound like Jimi Hendrix and The Doors, they just want them to care as much as Jimi Hendrix and The Doors did. That sense of commitment is a major factor in the notion of quality that these people have about music. This superficial "lifestyle" or "designer" rock of the eighties won't carry the load.

HOW DO YOU RESPOND TO THE DEMOGRAPHIC ARGUMENT THAT THE AUDIENCE IN QUESTION CAN NEVER BE AS IMPORTANT AS THE BABY BOOM BULGE, THAT THESE TEENS DON'T REALLY COUNT FOR MUCH?

George.... People have been saying that for some time. Top 40 stations win big in their market and then refuse to alienate their 35 yearolds, confident in the belief that the teens have nowhere else to go. That arrogance holds true for a while until something else blows and when it does blow the teens go away and they go down the chute. That's exactly how old giants disappear and new forces take their place. The whole question revolves around the issue of whether there is enough good new music around these days for those young male listeners. I just don't believe that in five years time those young men listening to The Doors today will be satisfied just listening to The Doors.

8) *Country radio music formats will continue moving back to the "Traditional" in 1988. The so called "Crossover Artist" is officially dead and buried in Country music.*

IS THIS MOVE TO A PURE FORMAT CONNECTED TO THE CHANGES AFFECTING AOR?

George.... Without doubt. A significant portion of the Country audience comes directly from rock radio. A lot of guys grow out of Rock and into Country and AOR is a major contributor to the fortunes of Country. This shift is just another part of the shift in the country as a whole that we have been talking about earlier. A lot of those Country progenitors like Johnny Cash and Hank Williams have such an earthy roots and blues feel that the cross pollination between Country and Rock and Blues is undeniable. Now we have a lot of Country oldie programs surfacing dealing with this fifties era music and the response is tremendous. People are interested in this music all over again especially with traditional artists like Dwight Yoakum to continue the heritage.

9) *In Black radio also, "Crossover" music is a goner in 1988. Stations will reduce their playlists to make it "Black radio for Black listeners." Black artists who have successfully crossed over will compete for airtime on A/C.*

HERE AGAIN WE HAVE A PURIFICATION OF FORMAT WITH CERTAIN "WHITE" APPEAL ARTISTS BEING PURGED IN THE EFFORT FOR BLACK RADIO TO FIND A MORE SPECIFIC AND FUNCTIONAL FORMAT. WHY DO YOU EXCLUDE CHR FROM THIS PROGNOSIS?

George.... A lot of these artists will find very long and successful careers in what used to be called MOR. Comparisons like Lionel Ritchie and Nat King Cole or Whitney Houston and Dionne Warwick come to mind, and these artists will find a very warm welcome on the A/C format. As for Top 40, a lot of those stations are very shrewdly scaling back their urban content for a more white rock sound and will continue to do so. They will do this to protect themselves from the shift to male values in the next couple of years. As for Black radio itself, it will return to its roots as a format and cease trying to build a mass base of listenership. This focus will give them an audience that is both unique and very loyal.

WHAT IS THE REASON FOR ALL THIS POLARIZATION?

George.... We are going back to our roots in Black, Country and Rock in an effort to rediscover the rhythms and dynamic that made that music important to begin with. Over the last decade we have seen popular music reinventing itself with very little heart and an excess of technique over feeling. Now let's go back to the basics again and we'll all organize and come out fighting.

10) *The "New Age" music format, which was introduced in 1987, will go absolutely nowhere in 1988.*

THIS FORMAT HAS BEEN THE SOURCE OF MUCH CONTROVERSY. THERE ARE A NUMBER OF PROGRAMMERS WHO FIND IT EXCITING IN CONCEPT BUT FRUSTRATING IN RESULT. HOW DO YOU SEE THE ISSUE RESOLVING ITSELF?

George.... There are a number of factors involved here. What the format has accomplished is indicative of a certain hunger for music right now but there have been no signs of mass appeal acceptance, and I want to underline mass appeal. The Wave in Los Angeles generated, at great expense in promotion, something like a 2.6 or 2.7 in the market. That has been documented. By tracing the cumes of those stations it is obvious that they have bumped their head on the ceiling already. They have already achieved their potential and it is by no means sufficient to financial success. In my research correlations the people who respond highest to this kind of music tend also to respond highly to things like jazz and folk. This makes for a listener profile that is far more abstract and eclectic than the average, not that this is bad, but these listener types are notoriously located on the bottom quintiles of cume. They are not by nature the sort of person that will listen to any station for 80 or 90 quarter hours per week.

YOU DESCRIBE A FATAL FLAW THAT CANNOT OVERCOME THE DEFINITION OF MASS APPEAL ACCEPTANCE AND RATINGS SUCCESS.

George.... Exactly, it is a basic truth of radio that 20% of the listeners account for 80% of the listening being done. That means that we are a heavy user medium. Intense, almost addictive psychology works the best when dealing with the dynamic of radio and its audience. These sedate, gentlemanly and eclectic approaches will always come in out of the money. The individual who makes the most use of the radio is more important than those who may be dissatisfied but aren't of the listener archetype. A lot of these listeners don't use these New Age stations with the obsession needed to manufacture media success and the Arbitron world eliminates the less than obsessive listener from being much of a factor in the equation. By nature these formats simply can't compete for more than an also ran status in their markets. In Los Angeles a 2.6 may do well enough from a financial standpoint but there aren't a lot of markets where you can survive with those kind of numbers.

There you have it, an open window to the near future as seen through the research and insight of George Burns. It's a colorful landscape with a return to roots music in almost all formats, programmability and the portable CD player, business as a cottage industry and the cold water awakening that New Age is just another micro market. But looming like a stormfront is the changing cycle from female to male values in the culture. What this projected shift in societal emphasis could mean in politics, the economy and the country at large will be fascinating to experience. What it can mean for us in the music and media community is a new round of winners and losers as those who can shake out their preconceptions and change with the times will press ahead to set the scene.

GREG MULL GETS THE GRILL

**Wherein one of AOR's brightest young PD's chats up with
Radio Editor Jim Trapp about the way the winners
do things down South.**

Greg is one of those textbook radio junkies whose career began at the tender age of 15 at Boss radio WJRI/Lenoir where he got let out of school a little early each day to perform his afternoon shift. Programming came first at college station WASU/Boone and then Greg did Production and airwork at Country-Top 40 combo WMMC-WQXX/Morgantown. At WXRC/Hickory he worked as Chief Engineer until the call came to Program the station and Greg responded by taking the station AOR. In October of '86 Greg picked up and moved down to Ft Myers Florida where he put WRXK on the map with a .2 to 10.2 debut book. Pegged as on of the format's hottest properties, Greg is getting ready for the next Book like the rest of us. Let's see how he views some of those nasty old AOR type questions.

WHAT ABOUT THE "RENAMING OF AOR" PANEL AT THE R&R CONVENTION? HOW DO YOU RESPOND TO THE ARGUMENT THAT THE FORMAT IS FUNDAMENTALLY AT ODDS WITH ITS OWN HERITAGE.

Greg.... I think that their trying to rename the format is absurd. It doesn't matter what you call it, it's what it delivers that matters. The whole argument about whether we are album or song oriented is just plain stupid. We are rock oriented, period. The record industry and the trades have led this format to be perceived as a song oriented format. Back in the days of our heritage there weren't track charts or an emphasis from the labels to play one track over another. They have made us a singles oriented format by doing things like feeding us a track one month before the lp comes out. I mean what choice do we have? The solution is to drop track charts and go back to lp only charting with individual songs shown by their emphasis play. If the industry wants to do something to help the situation, stop feeding us singles. Give us the album and let us play it.

YOU ARE VIEWED AS A HOT ITEM BY THE CONSULTANTS, THE OWNERS, THE MUSIC INDUSTRY.... ARE YOU JUST EASY OR WHAT?

Greg.... I am sure there are a lot of great guys coming up right now so I take all this praise very lightly. My job is to bring in the highest ratings I can and to bring in the demos that we have

determined are the most available and valuable to the station. I program the station to achieve those goals and if that is so revolutionary and radical that these people are enamored of me that's their problem. I'm too busy to take it all that seriously. I just happen to believe that it is damn difficult to have an exciting sounding radio station by playing the same oldies again and again. Don't misunderstand me, you've got to play those oldies again and again but you have to mix them in with lots of new stuff.

DEFINE THE STATION'S MUSICAL PHILOSOPHY FOR THOSE UNFAMILIAR WITH YOUR WORK.

Greg.... It's truly a mainstream radio station that believes that rock and roll is alive and well. We play everything from rock's heritage back to 64 and the Beatles. We use the sixties stuff only as spice and even then only in certain dayparts. We derive our core from the seventies bands like Led Zeppelin. As for new music, we added Johnny Hates Jazz because it's going to be a huge Top 40 hit. In that instance I want to beat the Top 40 on it and when they catch up to us on it we will drop it completely off the chart. A song like that has virtually no lasting value for the format but I like to get the value of exposing songs like that before the local CHR hammers it.

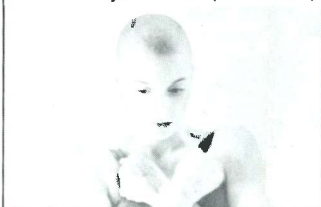

WHAT WOULDN'T YOU ADD RECENTLY AND WHY?

Greg.... I wouldn't add the Dan Reed Network under any circumstances, it's just way too dance oriented for the format. The same thing with the Big Pig. I love the record personally but I don't think that it has anything to offer my core. It reminds me of Frankie Goes To Hollywood.

HOW DO YOU INTRODUCE PRODUCT AND MAKE IT WORK? DO YOU BANG IT OUT OF THE BOX, BRING IT ALONG SLOWLY, DAYPART IT?

Greg.... A little of all three. Take Midnight Oil, a band I really believe in strongly, we bang the hell out of it and we sell it as well. The most important thing to do is to sell new music when you play it. We use Bio packs, Trade information and the guys here are very musically aware. Our afternoon guy brought in an earlier Midnight Oil LP, not so we could play it on the air but so we could have a feel for what the band had done before.

The first woman to successfully challenge rock radio!

NAME SOME BANDS THAT YOU OWN IN YOUR MARKET?

Greg.... We definitely own bands like the Alarm, Kingdom Come and the Talking Heads. Some of the bands we play are so new that nobody owns them. I would like to still own INXS but I don't anymore, they have made that transition to multi format airplay. On the other hand the CHR may have played a couple of Whitesnake tracks but we still own the band in our market. White Lion is top five sales here and we can claim the success there.

HOW HAVE THINGS CHANGED AT THE STATION IN THE LAST SIX MONTHS? ARE YOU MAKING ANY SHIFTS IN PROGRAM DIRECTION?

Greg.... Everyone in the market has adjusted. The CHR has definitely embraced a more rock image with their gold product. It's odd to hear stuff like Boston, The Cars, Foreigner and even Asia being hit hard by the CHR in your market. The other AOR in the market has gone Classic since we hit town. To hurt the Classic rocker I have stepped up my power golds to burn them out a little faster. I will still have plenty of music to play while their core is crisped out. I also took out some of the depth in my gold library. If I'm going to play 50/50 current to core I want my oldies to be very familiar because a lot of my new music won't be.

YOU SHOULD BE IN A MAJOR MARKET AND WILL BE SOON, WHAT ARE YOU LOOKING FOR, WHAT DO YOU NEED TO MAKE THAT MOVE? QUALITY OF LIFE, MONEY, CREATIVE FREEDOM?

Greg.... I have a great situation here with a fast growing and progressive company. I have a free hand in programming the station. I live in one of the most beautiful parts of the country and I drive a 911. Obviously it would take a combination of all these things for me to consider a move. There's a tremendous appeal to get in a bigger market so I might have to temper some of those concerns, but what I would never accept is a situation where I was responsible for the station's success or failure but couldn't exercise control over the programming. If it was a situation where I had to play what the GM wanted but if the numbers weren't there I'd get blown out, you can forget it. I wouldn't touch that for any amount of money.

YOU DON'T USE TOP 40 CROSSOVER MATERIAL, WHY IS THAT?

Greg.... I do not take records that they have played and put them on my station, no. If I don't beat them on a track I don't want to play it at all. People should know that they can hear the best music here first. This concept of "let them break it

over there and bring it back here" is not really the way to go. We may share some bands with CHR but only those acts that they borrowed from us.

YOU DON'T REPORT LIGHTS, WHY IS THAT?

Greg.... Light rotation is used for testing only. That gives us a chance to put it out there in one high profile exposure a day. I have three tracks in there right now and I will keep it in there for 3 or 4 weeks to see how it does.

HOW FAST DO MEDIUMS AND HEAVYS ROTATE ON YOUR STATION?

Greg.... Mediums come up 2-3 times a day, Heavy play hits 3-4 times a day and Powers come in 4-5 times in a day.

HOW IMPORTANT IS NEW/ALT MUSIC IN THE MIX AND WHY? HOW DO YOU VIEW THE LARGER ISSUE OF ALT MUSIC AND THE FORMAT?

Greg.... We have to be very careful with the number of bands that we play at any given time. Play the right ones and over time we should develop a handful of new bands that are good for the format. I think that bands like the Alarm, Love and Rockets and the Smithereens represent some of the best in that genre.

IN MAKING DECISIONS REGARDING MUSIC HOW DO YOU BREAK DOWN THE FOLLOWING INFLUENCES ON A PERCENTILE BASIS?

GUT AND EARS	40%
PHONES AND RETAIL	20%
TRADES	15%
CONSULTANT INPUT	15%
LOCAL RESEARCH	10%

How refreshing to deal with a programmer whose instincts are uncluttered by the common wisdom of research based strategy. Greg's stellar performance and his continued musical aggression speaks loud and clear about his ability to keep up the momentum and remain firmly on top in his market. His tried and true rock approach, combined with a 50/50 new music profile is only part of the story. Equally important is his lifelong commitment to the business and a centered attitude regarding success that comes with the turf. What the hell, he was a chief engineer once in his career and he wears a great pignose. You'll go a long way to find a better star for the future of the format.

THE HARD REPORT Picks...

The Mighty Lemon Drops "World Without End" (Reprise) The Lemon Drops arrived on the scene with a bang, as the English press applauded their 60's pop mentality laden with a sharp edge and non-stop energy. Their steamy songs have become a bit more sentimental, and the distortion toned down with rich production on *World Without End*. In the process, a perfect rock hit resulted with "Inside Out" being an out of the box progressive airplay item - now beginning to cross with adds at WBCN, WLAV, KLBJ, WKWQ, WRIF and WKXL. The quiet texture and romantic lean of songs like "Crystal Clear" and "No Bounds" lend to the depth and longevity that's becoming a consistent factor in their mass appeal potential, with signature tunes like "Fall Down (Like The Rain)" never in short supply.

The Fall "The Frenz Experiment" (Beggars Banquet/RCA) As the catalogue builds, Fall fans will revel in the fact that Mark E. Smith is still as musically independent as ever, with concepts being as important as the songs themselves. He brings ideas to life, a poet fronting his band who create puzzling abstract originals that tickle your mind and ears. Like others before it, *The Frenz Experiment* has the 'hit' remake of 'Victoria' leading the airplay assault and its predecessor dance track "Hit The North" now available for those who never picked up the import. But die hard fans will rise up to the first track, "Frenz" ("Lemme tell y'about my frenz.... don't add up to one hand, one hand") and spirals from there with "In These Times" and "The Steak Place" as stand outs to be remembered.

Wire "Kidney Bingos" 12" (Mute/ Restless) After disbanding to pursue solo and collaborative musical projects in the early 80's, Wire returned last year with the ideal album, *The Ideal Copy*, of course that raised a whole new consciousness for the band - while reviving long time fans who were wide awake for the definitive return of an important, influential group. They never run out of ideas because theirs are always new, and "Kidney Bingos" is no exception, bathed in luminous guitar lines and a familiar pop orientation, Colin Newman's whispery vocals tie it all together and make the first taste of the new album... sweet! Now at WHTG, WXCI, KUSF, WFIT, WRFL, WTSR, WUOG, WWVU and six more, the power of this release will certainly carry over for an album due early this summer.... KCPR's Bruce Flohr says, "If all I had to do was play this one during my whole airshift, I'd be happy!".... Butch Lazorchak at WWV says, "Wire writes complex, beautiful pop songs with a real

in two versions, but the radio edit is definitely the one for airwaves, with "Good Day Everyday", "The Friend Song" and "Livin' By The Book" jumping the grooves. Over 25 reporters are now playing with 20 in medium and heavy rotation for a 10 point move to 28* this week.... KABL's Mark Miller says, "It's a nice contrast. One minute they're banging their heads, and singing heartfelt ballads the next".... WBER's Andrew Chinnici adds, "I'm very impressed with this strong followup album. The vocals are appealing and the tunes are catchy. This is one band I didn't have to get used to!"

Blue Rodeo "Outskirts" (Atlantic)

"The Taos valley has not been noted for reactionary listeners," says KTAO's Bill Evans, "but this trend appears to be changing due to the Blue Rodeo Lp. Every time we play these guys, the phone rings!".... If you haven't created a buzz with the new album yet, you're just not playing it enough. This band may be from Canada, but they have the blue grass, country and blues genres down to a science based on pure rock and roll. Now at WFIT, CFNY, KABL, KACV, KCPR, WBNY, WCDB, WDET, WHFS, WMDK, WOXY, WXXP and over 10 more, keep an eye on "Rose Coloured Glasses", "Heart Like Mine" and "Try"

NEW RELEASES

Love And Rockets refuel with a 43* this week as new action on the 12" single begins another airplay story on "Mirror People" with re-adds from KROQ, KTCL, WOXY, KACV, WFNX, WHFS, WHTG, WMDK, WXCI, WXXP, KRCK and more. The new mix is sure to turn in some reconsiderations and the "Waiting For The Flood" is one to watch at Album Radio.... The new Sisters Of Mercy single is "Dominion", and although the album version with "Mother Russia" is the ultimate in dance floor tunes, the remix is even better. The Import Ep features this and three other tracks including "Emma", a tempting airplay inspiration. Speaking of which, the Hard Attack Alternative CD Volume II also champions the "Dominion" remix and will be out on March 17th.... Have you played the PIL album through the roof? Hope so. Now that the band is on national tour with INXS they'll be ringing once more, and the new remix of "Body" will keep listeners in wait appeased until the tour graces your region. Watch these pages!.... DB Records in Atlanta (432 Moreland Ave N.E., Atlanta, GA 30307) has just released the new album and CD from The Coolies titled Doug. The sequel to their last Lp, Dig, does not contain Simon And Garfunkel cover tunes, but does feature 13 new

originals that bump and grind a mean guitar and great lyrical anecdotes. Doug is the story of a skinhead who becomes a millionaire, by killing "Pussy Cook", stealing his book and selling it. He becomes paranoid that someone knows about his crime and locks himself up becoming an alcoholic, free-basing his money away until he winds up on the streets of despair. Told in a rock opera and a comic book for visual effect, it's far from punk rock music, so don't side-step this one.... The Accelerators new single is "Black Slacks", from the debut album distributed by Profile Records. This Raleigh, North Carolina band was formed in 1983 by lead singer Gerald Duncan and have toured with Huey Lewis, John Mellencamp and Nick Lowe. Don Dixon co-produced the single with Dick Hodgins.... "Live For Ireland" is a compilation album recorded in Ireland 1986 at the "Self Aid" concert, to help the high unemployment problem in that country. It features 13 tracks including U2's "Maggie's Farm", Elvis Costello, The Pogues, Cactus World News, Clannad, Van Morrison and the man we'll be hearing a lot about this Spring, Christy Moore (his new album is just out on Atlantic). edge. It's great that they have reformed, bringing together their new musical influences!"

The Mission U.K. "Tower Of Strength" 12" (PolyGram) As they continue to stun audiences with their dark theatric presence on vinyl and dramatic live shows, Wayne Hussey's Mission has never been more clear. The guitar strings thread each chord with backing orchestration that lends to their most seductive offering yet, produced by John Paul Jones, ex-Zeppelin bassman. A 4+ minute epic that opens the first chapter of the new album Children, yet to come.

Luxuria "Unanswerable Lust" (Beggars Banquet/RCA) Howard DeVoto's bio announces, "his hibernation is over" and with new partner/guitarist, Noko, they've brought Luxuria (lust) to life. As the creator of two bands who stood in the limelight of the punk/new wave era, the Buzzcocks and Magazine, DeVoto is a master of expression and song themes as evidenced in his latest effort, with "Redneck" leading off with pop pretense that gets shattered with creative texture and a subliminal dance beat. Pile on the wandering melodies of "Celebrity", "Rubbish" and "Mlle" and you're in for a dose of DeVoto at his finest. Not only is his return a welcome surprise, but it's a refreshing twist in contrast to modern rock expectations that leave alternative listeners in the dust.

CHARTSTARS

Morrissey "Suedehead" (Sire)

Not only is the lead track from his anticipated solo album to a flying start with #2 Most Added reaction OTB, but I say, Hooray For Maxi-singles! The B side features "Hairdresser On Fire", a keen Smiths flashback that shoots down suspicions he may change his song style. Two hits on one single is never too much to handle! We can already highlight the 26 station sample with heavy airplay at CFNY, KJET, KRCK, KROQ, WDRE, WFNX, WOXY, WXCI, WXXP and WHTG with top 5 phones at three already!.... KABL's Mark Miller says, "I miss Johnny Marr, but this is a great tune that will do well. I hear it's selling better than the Smiths did in England".... "'Suedehead' is a pop masterpiece so says me! Requests for Morrissey are coming in by the bucket full," says KRCK's Paul Kriegler.... CFNY's Ivar Hamilton says, "Count us in for heavy rotation. It looks like this will be a very big year for Sire!"

Midnight Oil "Diesel And Dust" (Columbia)

"Beds Are Burning" was the song that helped send this album straight to #1 for six weeks and KEEP it there. But the real power in its presence is the fact that the whole album is a breakthrough for this Australian band who exude power and passion in their music, and in these days of repetition and mediocrity we're starving for it. Sure it's deep, their message has been heard throughout their homeland and now in America with songs like "Put Down That Weapon", "The Dead Heart", "Dreamland" and "Warakurna" sounding loud and clear. 33 progressive reporters are playing in heavy rotation and the single boasts a total of 138 AOR stations following suit.... KGB's Pam Edwards says, "I'm hooked".... WIOT's Jim Steel admits, "'Beds Are Burning' is a unique powerfully driven tune that could break down a lot of barriers for this band.... Ty Banks at KQWB says, "It's my favorite song".... Dial #1 for Most Requested!....

The Woodentops "Wooden Foot Cops On The Highway" (Columbia)

Landing in the Top 10 this week thanks to adds and rotation increases, it's obvious that their untainted pure pop will return to finish what Giant began. The Woodentops have matured their approach, and the music has settled into a distinct style that has broken sound barriers for the English group. The Spring tour will flood the press with no doubt and airplay from stations like WDET, WHTG, WRAS, KJET, WHFS, WXRT, CFNY, WFNX, WBCN and KRCK has rekindled the buzz.... Butch Lazorchak at WVVV says, "The new Woodentops album is brilliant. They integrate acoustic guitars with a rock feel and a percolating dance groove that's light years ahead of their time! Their attitude and emotions really come forth on the new album".... CFNY's Ivar Hamilton, "Went with two cuts immediately!".... "Response is great on the whole thing. This album has a lot more accessible pop songs," says KCPR's Bruce Flohr.... Jody Petersen at WNCS adds, "Our P.D. Steve Zind was so excited about this and said 'Maybe It Won't Last Will' will blow your mind!".... and Paul Kriegler/KRCK says "I have this album memorized, especially 'They Can Say What They Want'."

Drivin'n'Cryin', "Whisper Tames The Lion" (Island)

This Atlanta based band has stirred the progressive community with an album that clearly demonstrates the variety of styles that have come to influence their rough, soulful sound. You may have heard the phrase, a little bit country, and a whole lotta rock and roll before, but have never seen it in action Drivin'n'Cryin' style! "Powerhouse" is now available

HEAVY HITTERS

Bonfire, "Sweet Obsession", RCA....We mentioned in last year's issues the "Don't Touch The Light" album. This year, we've finally gotten a new release from Germany's new metal band Bonfire, and it's hot. (No pun intended). Anyways, the 12" will be hitting your desk any time now, so grab it and put it on. We mentioned once before that these guys do sound quite similar to the Scorpys, but the new release shows some development and maturity in their songwriting technique and overall presentation. Yes, some of you thrashers will shy away from this crossover possibility in a big way, but we here in the metal corner think it has real potential. WPYX's Lisa Walker tells me she agrees with me wholeheartedly. She's really into it and hopefully you will be too when you give it a listen. They are a strong, very melodic musical unit with a flare for showy guitar riffs and a fairly dexterous vocalist. These guys could do very well on both sides of the Mainstream/Metal fence given the chance. Try it.

Great White, "Mistreater", Capitol....In the tradition of "Rock Me", "Lady Red Light" and "Save Your Love" Capitol's metal monster unleashes yet another hook filled, kick ya in the butt, sure fire, multi-format hit. The Ep/CD that Capitol has serviced also contains the very hot live rendition of "Rock Me" and the rock radio remix of "Save Your Love". If you haven't caught these guys live you're missing a great rock and roll show. From start to finish Jack Russel and his boys prove that opening for a band like Whitesnake is all in a day's work. This track is explosive and ever so catchy with lyrics that any guy in lust can relate too. The strength of this cut has already boosted Great White's platinum album back into the thick of things on our Hard Hitters chart with a move from 40-35*. Ain't no doubt, these boys are the real thang.

White Lion, "Tell Me", Atlantic....We just caught these guys live at the Troc in Philadelphia, and yes, the place was rockin'. I have to say, these guys are really nice and dedicated to their audiences who have put them at near gold status. "Tell Me" was a stand-out in their set. The track is an obvious pick as a follow-up to the success of "Wait". It opens with some vocal exercising for everyone to sing along with, and then launches into a really hot tune with Vito's ever-present guitar wizardry supported by James Lomenzo and Greg D'Angelo's rock steady rhythm playing. If the AOR popularity of this band makes you hesitate, then put this on and maybe you'll be convinced that they are, if not "metal", then definitely a hard rock band. We like 'em a lot and are really glad to see them doing so well. For those of you looking for something a bit heavier from these guys then go back and check out their first release "Fight To Survive". What a band.

Joe Satriani, "Surfing With The Alien", Relativity....No, we're not gonna sit here and tell y'all about the redeeming qualities of playing "Satch Boogie" anymore. We don't have to because now the second 12" is soon to be hitting your desks (if you don't already have it). It's the title track from this hot album and it features some of the hottest guitarwork this side of Steve Vai. The "Satchman" comes in at #11 on the Hard Hitters Chart this week on the strength of "Boogie" and we all know what happened to AOR when it hit there. We can only expect this one to do at least as well.

continued

Venom, "Calm Before The Storm", K-Tel....The album has just hit the desks of most of our reporters this week, and the immediate response on it has been pretty impressive. They climb to 27* on Hard Hitters this week while picking up more adds at: KCMU, KTEC, KZEL, WBNY, WJUL, WNGZ and WVVS, while KJOT, KQQK, WOXY, WUCF, WWUH and Z-ROCK are already on it. We're looking at a good chart advance for this frightfully, heavy band of "Death Metal" masters, within the next week. The album packs a punch that only true, heads to the floor, thrash addicts can appreciate. If that's you, then you should really go for this latest release from one of the true innovators of this brand of deadly metal.

UDO, "Animal House", RCA...

With a debut this week (#30* Hard Hitters), the #3 Most Added Metal slot and the release of his first solo Lp, former Accept vocalist Udo Dirkschneider, the "King Of Camo", just may be able to give his former bandmates a run for their money now that this long awaited album is out. The album features 10 tracks, including the 12" "They Want War", and they're all really rockin', especially check out "Black Widow", "Warrior", "Coming Home" and of course the title track. Udo's voice, that throaty growl that we all know and love, hasn't changed a bit and his new band is seriously hot. There are two guitarists, Mathias Dieth and Peter Szigeti, Frank Rittel on bass and Thomas Franke bashing the skins. From the looks of it, we're sure to be hearing quite a bit more from this record in the future.

Dirty Looks, "Can't Take My Eyes Off Of You", Atlantic....

Formed two years ago this band had a previous release on an independent label, but now they have Atlantic behind them. With their second release "Cool From The Wire", we get this 12" which is a full throttle rocker in the tradition of AC/DC. Band members Henrik Ostergaard, Jack Pyers, Paul Lidel and Gene Barnett have developed an "in your face" type of style that is sure to take them places. With Atlantic's winning track record lately, it seems that they're on a roll and have another potential winner with Dirty Looks. Also check out their track "It's Not The Way You Rock" from the "Johnny Be Good" soundtrack which also features music from Kix, Ted Nugent and Judas Priest.

Damien, "Possession", Select....In the forever growing field of hungry young thrashers, we kind of get used to seeing the same type of songs over and over again without enough originality to go around. This 12" arrived a short while back and we, admittedly, were leery at first. That wore off

considerably after cranking this sucker up. It, needless to say, was a real surprise. This song features a rich blend of powerhouse vocals, crunching guitarwork and a really tight rhythm section. This is for all of you devoted thrashers out there who just can't bear to listen to any more of this AOR crossover-type stuff. It's not for everyone but it would make a great addition to any soft-core thrash oriented playlist.

In the last five weeks **Venom** and **Black Rose** have proven to be hits, with heavy phones. At this stage of our promotion we would like to welcome K-tel's addition of Concrete Marketing, to help culminate this promotion.

THE HARD REPORT MUSIC NEWS

Hello dudes and dudettes. This is Sal "Earl Of Earache" Treppiedi reporting from control center in the heart of Queens. This week, we'll have the final part of our conversation with John McManus of Ireland's Mama's Boys. We'll also hear from Jon Sutherland of Metal Blade Records about the recent "Pleasures Of The Flesh Festival" that took place in Phoenix. Right now, let's get to this week's metal news.

First, congratulations go out to Geoff and Jan Barton on the birth of their second son, Adam. Who is Geoff Barton, you ask? Geoff is none other than the editor of one of the top metal magazines in the world: England's *Kerrang!* Their eldest son is named Ben. Once again, congratulations to Geoff and Jan on the birth of their mini-headbanger.

Two of the tri-state areas top bands are about to release albums on *Torrid/Restless Records*. *Gothic Slam* and *Mucky Pup*, who are working with Dan Lorenzo of Hades, are both about to release albums. Word from Dan Lorenzo of Hades is that *Mucky Pup* is going to be a band to reckon with. I've always heard that most people from New Jersey are from another world but I guess we can take Dan's word. Speaking of Hades, it should not be too long before we see some new product from them. The band has been busy putting together their new release at *Chung Kings House of Metal* in New York.

Here's the latest from the *Armored Saint* camp. First, The band will have a song on the forthcoming soundtrack to "The Decline Of Western Civilization, Part II: The Metal Years. They have penned a song entitled "You Can Run, But You Can't Hide" which was influenced by the famous *Road Warrior*. Also, the band recorded a live performance which was telecast on MTV on Halloween. The show was part of the "Hell On Wheels" tour which featured *Grim Reaper* and *Helloween*. That performance is going to be available on home video soon. Also available will be a live five song *Rp*. Finally, look for "March Of The Saint" and "Delirious Nomad" to be available on *Cd* this month.

Now let's get to the final part of our interview with *John McManus* of *Mama's Boys*. As we wrap up our conversation, we'll talk more about the band's new release entitled "Growing Up The Hard Way".

HR: Although your sound has changed, you have managed to maintain a rich and full sound.

JM: Yeah, I know every band says that their new album is their best album. You have to. But we managed to maintain the fullness of the sound. One of the advantages that we had was that because we had written the songs before, we were able to perform these songs live. What happened was that we knew what material was going to work and what wasn't. We actually kept rewriting the songs on the road for the road because we knew what we had written might not work on the road. We played the songs at some festivals in Germany, and had to rewrite the songs because some of them were coming across as very weak. When you do that you create the kind of vibe where you just go for it and play as if it were live. We've also added keyboards on this album. It's strange because the band have always written songs for keyboards and yet have a keyboard player on the road with us although he is not a full

HARD ROCK/METAL

time member. He's basically just a session player. It is true though because I've listened to this album and although it is more commercial than the last two albums, it still rocks. It had been said by different people who have listened to the album as well.

HR: Tell us what made you choose doing *Stevie Wonder's "Higher Ground"*.

JM: Somewhere in everyone's record collection, there is a *Stevie Wonder* album. We have several. The song has an incredible riff. Even when the band were doing sound checks years ago, we used to do it and forget it. So we decided to do the song on the record being that we always got a kick out of doing it live. It probably would not have gone on the album had *Keith* no come in. When he heard it, he said that we should go for it.

Thanks to *John McManus* of *Mama's Boys* for an interesting conversation. Also, thanks to *Marilyn* and *Ellen* at *RCA* for putting together this trans-Atlantic interview. *John* informs me that the band should be coming stateside by April.

Here is something that could be a first. They are known as the world's most popular metal band. After this news, you can't help but believe it. *The Scorpions* will be doing 10 dates behind the *Iron Curtain*. That's right, *Glasnost* has spread into the metal industry. The band is scheduled to play *Russia* just before the start of the *Monsters Of Rock Tour* in *America*.

The new *Iron Maiden* album is entitled "Seventh Sun Of The Seventh Son". The band held a listening party in *Los Angeles* last Wednesday. Hey, we may have word with one of the members. The album is due out in April. After the release, the band will once again embark on a tour schedule that is rivaled by no one.

Finally, *Phoenix* was recently invaded by the thrash festival of the year. *Metal Blade's Jon Sutherland* was there and filed this report.

"It was a promoter's nightmare to think that eight bands play on time. But to tell you the truth, it went off smooth as silk. The only problem was that the lead singer from *Obsession*, *Mike Vescera* was sick so they didn't play. But *Zoetrope*, *Heathen*, *Battlezone*, *Sacred Reich*, *Soothsayer*, *M.O.D.* and *Exodus* all performed. The highlights were *Exodus'* whole set and *Billy Milano* holding up a kid by his feet and singing to him. It was a 2000 seat club that was about half full. The idea was great but it was too bad they couldn't get a better day. It was a lot of fun. I nicknamed it the "Cactus Moshing Party". The place they played in was a disco. It was rather subdued but with some serious metal. *Flotsam* and *Jetsam* played their new album. "No Place For Disgrace", between sets. It was a good time. It set a nice precedent. It proved that with good security and a decent venue that something like this could be done. I just hope they have enough guts to pull it off. There was no backstage. What they did was park all the buses in this alley and used it as a backstage area."

According to *Jon*, he hopes to see something like this again soon. I hope it comes to *New York*, *Jon*.

That's all for now folks. Until next time, this is *Sal "Earl Of Earache" Treppiedi* reminding you that this year's honorary poster child is *Mr. Death*. Next week, we'll have more news from the world of heavy metal.

March 11, 1988

Music Now! is contributed by **Mike Cooper**. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

The **Georgia Satellites** have been in Austin, Texas, finishing work on their next album. Ian MacLagan, formerly of the Small Faces, plays piano on three tracks on the LP. Ronnie Lane also spent some time visiting with the band, but doesn't appear on the LP. The Satellites say the Faces have been a major influence.

Steve Howe is forming a new band with former Yes colleague Bill Bruford. An album, which also features keyboardman Billy Currie of Ultravox, should be out in September.

At first, the **Butthole Surfers** announced their next album would be called "Hairway To Stephen." Now, **Gaye Bykers On Acid** say their next single will be called "Fairway To Heaven."

Players is the name of a new group featuring T. Lavitz that will have an album out soon (on Passport/Jazz) called "A Dream Come True." The LP features Dave Samuels of Spyro Gyra on vibes.

Chuck Berry was given a lifetime achievement award at the Berlin Film Festival, where his biographical concert film, "Chuck Berry: Hail! Hail! Rock & Roll" was screened.

Eddie "The Eagle" Edwards, the British Olympic ski jumper, cut a record called "Fly, Eddie, Fly," the first night he was back in the U.K. "Maybe I'll be the next Rick Astley," he says.

Thomas Dolby will have a new album out in the next month (on EMI-Manhattan Records) called "Aliens Ate My Buick." It includes nine tracks written by Dolby, including one called "Hot Sauce," that was written with George Clinton. The LP features Dolby's band, "The Lost Toy People."

Marshall Crenshaw says he's hoping to finish writing songs for his next album in the next month or so, in hopes of releasing the LP in August or September. He'll also be appearing on the two-hour "Austin City Limits" tribute to Buddy Holly on PBS-TV.

Richard Barone says he's written about 20 songs for the next Bongos album, which he says is about half-finished. The Bongos have been working in the Bahamas with producer E.T. Thorngren, and they hope to have the album completed sometime in the spring.

The **Busboys** are just releasing their first album in six years, called "Money Don't Make No Man" (on Voss/Allegiance Records).

Canadian band **Pursuit of Happiness**, still looking for a U.S. label, have two new backup singers, Chris Abbott and Leslie Stanwyck, who replace the two sisters who were in the group.

Toronto blues guitarist **Jeff Healey**, having signed a worldwide nine-album deal with Arista Records, will be heading in the studio with an unidentified "well-known producer" this month. Healey and band members Joe Rockman and Tom Stephen are currently writing songs for the album expected to be released in early summer.

Mitchell Froom is scheduled to produce the next album from Richard Thompson (recently signed to Capitol Records). Froom has been in Australia working with Crowded House on their second album.

Wall Of Voodoo's next album will be called "The Ugly Americans In Australia (And Bullhead City, AZ)." It has that name because it includes three songs recorded at a club in Bullhead City. "We've always liked the name," Prieboy says. In fact, he's been fond of the city's name for some time. After Wall Of Voodoo released "Seven Days In Sammystown" in 1985, Prieboy says, "People would ask us, 'Where's Sammystown?' and we'd say it was just outside Bullhead City."

The **Divinyls** are about to release a new album called "Temperamental." "Back To The Wall," a track produced by Mike Chapman, has just been released as a single in Australia in advance of the LP.

Bass player **Clyde Bramley** is leaving the Hoodoo Gurus at the end of this month. Bramley has been touring with the band for about five years, and he says he's tired of being on the road. The band just completed a year-long world tour that began and ended on February 14th.

Mark Wenner, leader of the Nighthawks, says "we're getting the chemistry bubbling" with the addition of former Wet Willie member Jimmy Hall and former Sea Level guitarist Jimmy Nalls. "I think the potential is here to go all the way," Wenner says. Hall and Nalls joined the Washington-based Nighthawks about a month ago. "Jimmy Nalls just seemed to fit in like the missing piece of the puzzle," Hall adds. "Everybody's just raving. It was like just like the old days." As part of the Nighthawks current shows, Hall and the band will perform some songs by Wet Willie and some from Hall's two solo albums.

Rachel Sweet is back, with the title song for the film "Hair Spray." Where has she been since her last LP in 1983? "I dropped out and went to college," Sweet says. "Some day I would like to be the first rock/movie star with a degree from Columbia University in French literature." Sweet's return to music came after she failed to get a part because she only weighs 95 pounds. "I had tried out for a role in 'Hair Spray' after an agent friend suggested it, but the director -- John Waters -- wanted a heavier person." Waters liked Sweet's records, though, and asked her to write a title song that would blend in with the other '60s music in the film. Sweet, who is currently a senior at Columbia, will also appear in the film "Sing." "I play a spoiled Italian teenaged chick from Brooklyn," she says. "I'm kind of a lower middle-class Joan Jett character who thinks she's the next Pia Zadora. I wear hot pink miniskirts and fling boas around and act kind of obvious and obnoxious." The film script was written by Dean Prichford, who co-wrote the song "Almost Paradise" with Eric Carmen for the "Footloose" film. Patti LaBelle plays a teacher in the movie, and Louise Lasser of "Mary Hartman" fame is in it. "There are six of us teenagers, all new to film," Sweet says. "I guess they wanted a change, wanted to start a new brat-pack."

Fifth Angel, a Seattle-based heavy metal band, makes its major-label debut this week (on Epic Records). The band includes drummer Ken Mary, who was a member of Alice Cooper's band for the past two years. The album is a remixed version of an LP released on San Francisco's Shrapnel Records some time ago.

Former Led Zeppelin singer **Robert Plant** doesn't seem to be too pleased with some of the bands that are carrying on the style of rock he pioneered. In an interview in Musician magazine, Plant says he listens to R.E.M. and Mitch Easter's band Let's Active. "No disrespect to Journey, but I'd rather cut Mitch Easter's lawn than sing something like that," Plant says in the interview.

Frank Zappa has been made an honorary secretary of state in Ohio because of efforts to register voters at his concerts. Secretary of State Sherroff Brown gave Zappa the title when he was in Columbus. "I don't know a lot of his songs, but I guess he's got a new song about fundamentalist preachers called 'Jesus Thinks You're A Jerk,'" Brown says. Brown says he saw Zappa open for Chuck Berry back in 1971.

Even though the **Smiths** never had a single in the British top 10, Morrissey's debut 45, "Suedehead," has already sold over 100,000 copies within three weeks of its release, and has reached the top five in Great Britain. Morrissey co-wrote all of the Smith's 17 British hits with guitarist Johnny Marr. Morrissey's 12-track album, "Viva Hate," to be released later this month, includes cuts called "Margaret On The Chopping Block" and "Dial-A-Cliche." There are still plans for a live Smiths album, but no more singles from the now-defunct group.

W. Axl Rose, lead singer of Guns 'N Roses, joins Alice Cooper on a new version of "Under My Wheels" on the soundtrack to

"Decline Of Western Civilization II: The Metal Years." Motorhead, Megadeth, Lizzie Borden, Metal Church, Armored Saint and Faster Pussycat are also featured on the LP.

Former **Smiths** guitarist Johnny Marr makes a guest appearance on the new Talking Heads album "Naked." CD and cassette versions of the LP will include an extra track called "Bill."

Bananarama have confirmed that Siobhan Fahey has left the band, and been replaced by Jacquie O'Sullivan, who used to be the lead singer with the Shillelagh Sisters. Fahey will begin a solo career, as well as spending time at home with husband Dave Stewart of the Eurythmics and their son, Sam. "After six years we're obviously sad to see Siobhan leave," say remaining Bananarama members Sarah Dallin and Keren Woodward. "But it's great to be working with Jacquie as we've known her a long time, and we're looking forward to starting work with her on our new LP."

Merry Clayton is back on the U.S. charts for the first time in 13 years. Her single, "Keep Your Eye On The Sparrow," reached number 45 in 1975. "Yes" is Clayton's new chart single. Her first solo hit was a version of "Gimme Shelter." Clayton was one of the backing singers on the original Stones version on "Let It Bleed."

Peter Murphy, who has always been associated with the dark mood of his former group Bauhaus, says his new album is much more lighter. "I wanted to reflect a sense of happiness, strength and optimism which I am currently feeling," Murphy says. "Love Hysteria" coins that -- the title came before the songs. It dawned on me that I wanted to convey basic solid optimism." The LP includes a less than serious cover version of the Stooges' "Funtime." "I've always loved it -- the lyrics are so spoofish. I also saw that if I sung it, it would change."

Kevin Godley & Lol Creme are establishing a video company called Videola. "Video at the moment is crap and as boring as

hell," Godley says. "Two years ago, it wasn't. We were in at the start and it was very exciting. It was like the beginning of rock & roll all over again." Creme says Videola hopes to connect musicians, artists and filmmakers. "All we want to do with the Videola is to give people the chance to express themselves without having to sell something in the process," Creme adds.

Veteran British band **Stiff Little Fingers** will break up again later this month after the completion of their second British tour since they reunited. Guitarist and vocalist Jake Burns is leaving the group and "hanging up his guitar." There had been talk that the reunited group was here to stay for a while. Bass player Ali McMordie contributed the song "Jerusalem" to Sinead O'Connor's debut album.

The Sisters of Mercy have completed a video for "Dominion" in Petra, Jordan. "We had to do it there," says Patricia Morrison. "It's one of those timeless, magical places that is almost alive."

Zodiac Mindwarp says his group's new album was not made specifically for America. "We just like that sort of music," he says. "I don't think the album's very English, but it's still got a brutal feel to it. There's not too much sugar in the icing. It's not like Foreigner." The LP was recorded with Def Leppard engineer Nigel Green.

Magnum's soon-to-be-released album is called "Different Worlds," and was recorded at Wisseloord Studios in Holland with Dutch producer Albert Boekholt.

"All Systems Go" is the name of the new album from **Vinnie Vincent's Invasion**. It was recorded in Los Angeles and co-produced by Vincent and bass player Dana Strum. Vincent says the band is "de-glammed" for this album "and gone for a more street look. Not like Guns 'N Roses or that kind of thing, just honest rock & roll. It feels a lot more comfortable, believe me."

BRIT-PICKS Albums

"Now And Zen" by Robert Plant (Esparanza)

Led Zeppelin were one of the greatest blues groups of the 70s and were never, as has often been asserted, a heavy metal group. One understands this more with every solo effort of Plant's. "Tall Cool One" backs a Led Zep type R & B riff over something rap-like which ends up quite exciting (if you again ignore the words) - while "The Way I Feel's" minor chord echoes youth's dark days. He's a nice guy too.

Also:

"Goodbye Blue Sky" by Godley And Creme. More art for art's sake, this time a concept album. **"A Fierce Pancake" by Stump.** Art school "chaos" on Chrysalis! Amusing, mad and clever but not too radio friendly. **"Idlewild" by Everything But The Girl.** Excellent comeback by Ben and Tracey Watt after wandering off to pastures of lush orchestras foar their last album, the lyric is firmly back. Go for it alternatives!

UK MUSIC NEWS

U2 were this week denying rumours in the British tabloid press that they are splitting up. "The Star" newspaper claimed that an inside source had told them that "the band have gone as far as they could". A spokeswoman for the band's management immediately described the allegations as "absolute nonsense". "The Star" is not a newspaper known for amazing accuracy, being a racy tabloid, rather like "The New York Post". The stories have been dismissed as mere speculation by the national music press. U2 were one of two acts who earned themselves awards this year by both the Americans and The British, picking up two awards at the Grammy ceremony, including the prestigious "Best Album". The other act to score a transatlantic double was Sting.

Orchestral Manoeuvres In The Dark, who have scored more hits than any Liverpool band since The Beatles, release "The Best Of OMD" on Virgin. The 14 tracks run chronologically, from their first single "Electricity", through to "Dreaming". Other tracks include "Enola Gay", "Souvenir", "Joan Of Arc", and "Maid Of Orlean". The CD contains four extra tracks - "Telegraph", "Genetic Engineering", "We Love You" and "La Femme Accident."

Two years after their classic "Steve McQueen" album, **Prefab Sprout** released their third album "From Langley Park To Memphis" on March 14th. The album features their current single "Cars And Girls" while other tracks include "I Remember That", "Enchanted", "The Golden Calf" and "Nancy (Let Your Hair Down For Me)". Stevie Wonder and Pete Townshend are but two of the artists who make guest appearances.

Former singer for The Smiths, **Morrissey**, releases his long awaited album "Viva Hate" 14th March. The album contains 12 tracks including the British top 5 hit "Suedehead". Other tracks include "Alsation Cousin", "Little Man What Now", "Late Night Maudlin Street" and "Margaret On The Guillotine". All 12 tracks were written by Morrissey and Stephen Street, who also produces the album and plays guitar. The "Viva Hate" sleeve features a photograph of Morrissey taken by "New Musical Express" photographer Anton Corbijn.

Kid Chaos has left The Cult following a bitter dispute within the group and according to some sources, all is not happy in the band either. Chaos originally left Zodiac Mindwarp to join The Cult, but he claims that now Ian Astbury and Billy Duffy are taking a year off in Los Angeles and are refusing to keep other members of the band on the payroll. Chaos says: "I left a month ago and didn't tell anybody at the time because the management told me not to; I really don't like the attitude of Ian

T.J. Martell Foundation for Leukemia and Cancer Research is the charity founded and funded by the music industry. Each year the music industry hosts various functions to raise money for the foundation's research facilities. These functions range from golf tournaments to bowling parties, horse races to black tie dinners. Our goal is to eradicate leukemia, cancer, and AIDS in our lifetime.

This year our branch of the T.J. Martell Foundation would like to gain much needed friends in the radio industry. We have already welcomed several stations to our family, but we would like to see the radio industry become solid backers of this wonderful foundation.

Your help is needed to raise funds. We know your imagination is limitless when it comes to promotions and with that in mind we know you will be able to arrange a fun and exciting charity event! Hosting an event not only promotes your station, but gives you a warm feeling of knowing that you have in some way helped your fellow man by making the world a better place to live.

If you would like to join our family and host your own charity event please call us at the number below for further information. We will be glad to help you and your station create or coordinate your event, if you so desire.

Let's try to make 1988 a banner year for contributions to the T.J. Martell Foundation and have the radio industry take its rightful place within the foundation.

Sincerely,

Jon and Lorraine Scott

Carter Alan, WBCN, Boston

At WBCN, we are proud to have been out of the box on the last Smithereens record -- and what an album it was. "Blood And Roses", "Wall Of Sleep", "Strangers When We Meet" and "Time And Time Again". It was in my top 5 for '86 and got played in rotation for most of '87 as well. 'BCN celebrated with the band back stage when they warmed up for Los Lobos on Boston last summer, and it was announced that Capitol planned to release the next album. And what an album it is!! Pat and the boys have done it again, with aggressive guitar lines, sweet pop melodies, and the spirit of Buddy Holly and the Beatles kicking them in the ass. "Only A Memory" is an automatic, with the growling guitar intro convincing in three seconds flat. "Something New" and "Especially For You" are pretty contrasts with the latter finally appearing on vinyl. Hardrocking and a reeling with "Drown In My Own Tears", a brilliant "House We Used To Live In" and "Green Thoughts", the new Smithereens album blows me away. It's on at WBCN, and also in power rotation in my car.

Lorraine Caruso, WNEW, New York

Last Friday was a busy night in the live broadcast department with three live shows in a row. George Thorogood at the Meadowlands, The Cougar feed from Texas and The Radiators from The Ritz. Special thanks to George Silva from EMI.... Midnight Oil's "Beds Are Burning" is a song that really grows on you, including the listeners, entering top three phones while Judas Priest's "Johnny B. Goode" enters at #1.

Erin Riley, WMMR, Philadelphia

Springsteen mania has struck Philadelphia. I have at least a 1,000 new best friends. I can hardly wait until tonight. "Tunnel Of Love" has been one of my favorite albums of the last year and one of my top two favorite Bruce albums. It'll be all I can do to keep my Columbia rep, Herb Gordon, all in one piece. Reports next week.... For those of you who attended the AOR panels at the R&R convention, I feel bad. I hate to say it, folks, but something's up. I felt like I was in the middle of "Who's Afraid Of Virginia Wolfe?" Nowhere was a solution, just "you did this" and "no, it's your fault". I wish I had an answer myself but I believe we are equally to blame.... Musically, I must say I love the new Talking Heads, something about it makes me want to order a Daiquiri and wear a grass skirt.... Joni Mitchell's duet with Don Henley goes in this week. With the demise of WIOQ, Joni fans are tuning around the dial searching for her music and they can stop right here.

Phil Maicke, KFMH, Davenport

Three things are stuck in my brain this week: #1 Talking Heads, "(Nothing But) Flowers"; #2 Why a certain station that already plays new music only once every 8 hours, has a goofy Two For Tuesday that successfully eliminates new releases for an entire 24 hour period; #3 Why a certain station, when they actually do play a new release, don't report it to the trades? Is it so their consultants don't find out that they are not playing The Doors or BTO every 10 minutes?

Jim Steel, WIOT, Toledo

Lip sync at the Grammy's? Give me a break.... By the time you all check out these comments, I will have been in 7th heaven seeing Bruce in Cleveland and a friend playing professional basketball in D.C. Sanity is only a few days away.

Mark Miller, KABL, Minneapolis

LET THE COVER MADNESS STOP.

David Sadoff, KLOL, Houston

It sure is a pleasure to come back from the R&R convention and find the new Talking Heads single on my desk. "Nothing But Flowers" is a satirical look at what we've done to our environment, and if you have any sense of humor you'll find it quite amusing.... Our fifth annual rock and roll auction will be on April 23rd and will benefit the National Fund for Runaways. Our hottest item thus far is a guitar autographed by all the musicians in attendance at the broadcast we did for the Grammy's...

Vern Argo, KZOQ, Missoula

Strongest add of the week: the Adventures. I think Elektra has finally found a band with a real name and it's a fine song and a hit to boot.... I this is gonna be another hit for the Heads. It's right down the groove where they are. It usually takes me a couple of listens, but this one sunk in a little faster; possibly due to the time spent with the Jerry Harrison record.... Johnny Hates Jazz should be a total smash AOR and CHR, and I think rock stations should get on it before Top 40 makes it a hit.... "Flood" is a good follow-up to the first Love And Rockets hit, and it should take off faster than the first with all the exposure they've been getting.... I'm expecting Treat Her Right to do well with the 25+ types thanks to the Canned Heat overtones.... Almost added: On that upper demo note, the Pat McLaughlin fills that Robert Cray void, and sounds good middays.... The requests have been steady for Lita since we first put it on, and the sales have been good, too. Getting close to heavy play here.... Already increased play on the Del Lords. This sounds like a great party record for us, with phones after three days.... Also increased play on Joni, basically just because it's a good record, with some early phones developing.

Doug Clifton, KBCO, Boulder

Talking Heads "(Nothing But) Flowers" went on the air immediately. I love their sense of humor! Bring on the Lp!... 10,000 Maniacs "Like The Weather" has been a big song for us. We've played it since late last year and the requests for the song kept it on the air for weeks. I hope you'll give this song a chance. I know it can work for you. We're moving on to another track from the group called "What's The Matter Here". It's the fourth cut we've used from "In My Tribe". I hope the band can come to Denver soon.... Icehouse is coming to Denver next month, so we continue our airplay of the "Man Of Colours" Lp with the song "Nothing Too Serious".... We couldn't resist going back to Los Lobos one more time for "One Time, One Night". We never played this cut that much before so it's got plenty of life for us.... It took two listens in the music meeting but the Del Lords made it this week with "Judas Kiss".... Another fine blues album goes on the air this week as we add Joe Louis Walker's "747".... On the KBCO New Music Express, Ira Gordon ran a portion of the T- Bone Burnett "Interchords" from CBS (nice job, Norm). Part two is coming up this week.... Good response to the Mighty Lemon Drops "Inside Out". We'll look at it again next week for full time play.... Also on the New Music Express, the Woodentops "Tuesday, Wednesday", Sinead O'Connor "Jackie" and Jerry Harrison's "Rev It Up" remix.... Thanks to Rich Abravaya for an evening with the Dynatones. What a great band in concert. Thanks to Walter Salwitz for stopping by.... Another KBCO favorite was by the station, John Hiatt. We're looking forward to his new album later this summer.... Thanks to Joe Estrada for the REM/db's giveaway for our "KBCO at Work" show.

Joe Skare, KFMQ, Lincoln

We're getting ready this Friday to throw the switch on our new 100,000 watt transmitter, plus we'll be broadcasting from our new 1,200 foot tower. Which means we'll be bringing Nebraska's best rock and roll direct from the Capital city out to the masses.... Thanks to WB's Al Carolonza for bringing the Dynatones in for a visit and for a chance to see them at Lincoln's legendary Zoo bar. You wanna talk about high energy rock and roll? These guys know how to do it and have fun at the same time. If you haven't jumped on "Take The Heat", what are you waiting for? And check out the rest of the album, too. Remember Jack Mack and the Heart Attack?... Last week I said Guns N' Roses was too f*ckin' big to ignore, and this week it blows past AC/DC and Kingdom Come to #1 phones. The song really kicks ass. Get on it now.... And speaking of kicking ass, check out Judas Priest's "Johnny B. Goode".

Mike Boyle, WDHA, Dover

Here's the Dallas stroke list: David Ross: You snore.... Chuck from A&M: Keep those sunglasses on.... Bloom & Tusken: Thanks for "Green Thoughts".... Ray from Elektra: Can you believe full price?... Mark & Scott: Did we really buy gifts in Mexico?... Jerry Lembo: Thanks for the ride.... Drew Murray: That Italian dinner and tour was great. Cougar was killer....

Beth, Paul & Bill: As always, nice to "chew the fat" with you.... Atlantic, Geffen, Capitol, Polygram, Columbia, A&M, RCA: Your suites were hot.... Stevie Wonder: For "bumping into me" on the elevator. It changed my life forever!... The 5,000 nurses who checked in the night before we left. Did you have to leave all the good looking ones at home?... R&R: Congrats! You pulled it all off. Let's do it again in '90!... John Boulos: How many rooms did you have?... Ted Mellencamp: Thanks for the southern hospitality.... To anybody I forgot: You're big babe! Don't ever change!

Robin Mathieu, WBLM, Portland

Devon Square's Lp "Walking On Ice", newly released on Atlantic Records, was recorded and mixed right here in Portland by Peter Galway, a local musician. We're pretty proud of them and have been 100% behind the record since its original release. Though you may find much of it too soft for your station, I think you'll agree the track "Black Africa" is a smash and might work in your midday mix.... The Talking Heads new one is an instant favorite with the air staff, and we're really hoping for a tour.... Meanwhile, Jerry Harrison is booked here at the Tree Cafe on March 25th. Hope some of you Northeasterners can make it.... And thanks to all who helped out with our Battle Of The Bands, including Warner Brothers' George Skaubitis, Elektra's Dave Johnson, Atlantic's Danny McCloskey, and Columbia artist Scott Folsom. The Inspectors were our winners. Check out their album "Hey" if it crosses your desk.... PS: Our new studios are great, come visit.

Dick Sheetz, KRZQ, Reno

Strongest add of the week: I suppose for me, believe it or not, it's the Toto record "Stay Away". In my constant hunt for good mainstream rock and roll that grabs you by the ear, this is right up my alley. Don't be afraid of their pop image, because this is very different for them.... Also new: The Love And Rockets "Waiting For The Flood", reminiscent of their last near hit "All In My Mind".... On the rock and roll fringe, we put in "Can't Take My Eyes Off Of You" from Dirty Looks. It's not thrash metal, it's more the edge of mainstream, with vocals a little like Accept, but a little cleaner. I'm giving it some good night time play.... Also went with the hookmonster "Broken Land" from the Adventures. I'm talking immediate hooks here. This may be a ballad, but it's a damn good one, with hooks all over the place.... If you want to hear Canned Heat play with Cream, play Treat Her Right. I'm a sucker for that harp.... Prophet is doing well so far.... Balaam And The Angel is moving up well in terms of my chart and early requests at the record store level. After three weeks of play and one week in the stores, I'm starting to see some movement. It was also the buzz song of the Dallas convention a la "Yes, you can play a CHR song on your station if you do it first".... And we're getting good requests for "Johnny B. Goode". People are always anxious to hear new Judas Priest at any time.

Jon Austin, WXRC, Charlotte

If you haven't played it yet, why not test Robbie Robertson's "Somewhere Down the Crazy River"? I've had people tell me that they think it's just a turntable record that wouldn't work on the radio. I can tell you that practically every time we've played it we've had positive response on the phones right after each and every play. Give it a listen and a try; you'll be surprised.... Strongest add of the week: INXS and "New Sensation". This is a song screaming out for spring. This one may not have the redneck factor but it definitely has the kickass factor that's perfect for the upcoming warm weather.

Aris Hampers, WLAV-FM, Grand Rapids

Our alternative guy has been playing the Deacon Blue import and he's the kind of guy who knows the kind of music I like. He's had it since May or June, wait til this comes out -- perfect for us. It's got kind of a Prefab Sprout feel to it. I think this will do well, but it sure does fill those gaps for us.

Karen Small, WGIR-FM, Manchester

The Talking Heads "(Nothing But) Flowers" is one of the few records that is instantly infectious. With spring coming, the sounds and rhythms of this song are perfect to get you out of

the Winter Doldrums. As always, it's a pleasure to add quality music from Sting, so "Englishman From New York" goes in this week.... The Rock 101 Ski Team hit the slopes this past week, and helped raise \$38,000 for muscular sclerosis, with a skiathon at Loon Mountain, Lincoln, New Hampshire. We had an afternoon of fun and skiing, all for a good cause.... Rock 101, in the form of John Urdahl and Gretchen Von Kruschka, were present in New York City all last week. They broadcast live via satellite from the Palladium for Grammy week.

Inessa York, KGON, Portland

I appreciate those flowers that Warner Brothers graced us with, but I must confess Talking Heads' new one takes a wee bit of adjustment.... Oh boy, that Love And Rockets "Waiting For The Flood". We'd love to get some room soon to follow up on that track.... We added a couple of other Dan Reed tracks, "Resurrect" and "Rock You All Night Long" to profile the more rock aspects of the Network.... Also, surprise, surprise, we went with White Lion. But we went with "Tell Me", which considering the strength of the band, the buzz, etc. made more sense for us.... We tested Treat Her Right and it sounds great on the air and got good response, so that bodes well for airplay.

Mike Ramsey, KLAQ, El Paso

The Church is moving slowly but surely into the mix here.... After listening to the Tonio K. for weeks in the music meetings, we have finally added it. The song definitely holds up beyond any artist image problems.... If you don't spend time sitting around bars on a Saturday night trying to get lucky, you might not get the punchline of the Treat Her Right song. As a satirical look at singles life, it is superb.... My favorite of the week is the Adventures "Broken Land". It's bright, clean and fresh, a real killer track with a Crowded House feel that I love.... What can you say about the new Talking Heads "(Nothing But) Flowers" except it's nothing but great.

Brian Jordan, WRUF, Gainesville

10,000 Maniacs goes on this week due to a solid female vocal that really stands out in the mix. Listeners call repeatedly and want to know if it's Stevie Nicks.... The new Talking Heads reminds of some of their best old material while having the crossover potential of the last few albums.... Four months ago we went crazy on the Guns N' Roses track and now, with its reissue, we are on it again and it remains one of our hottest songs out there.... We get a lot of curiosity calls on the Rick Springfield, people wanting to know who it is and not really believing it when we tell them. The song is very powerful on the air due to great production and a solid performance by Rick.

Mark Dagwell, WTKX, Pensacola

Mike Oldfield moves to heavy this week on the strength of its sound.... Don Henley's influence has really helped the Joni Mitchell track out. For a daypart flavor song, this is just the ticket for us.... Top phones continue to come in for Joe Satriani.... After only one week on the air, Guns N' Roses are knocking down top five phones as well.

Kim Alexander, WHCN, Hartford

This was the week to close my eyes, hold my nose, and make that jump off the high dive. What I mean is, we added Sinead this week. Talk to anyone in Boston (or anywhere else it's getting played) and they'll tell you the same thing, the record works. I'm looking forward to the show at Toad's later this month.... The new Talking Heads has such a wonderful lyrical twist. David Byrne and company still have that warped sense of the world.... The Del Lords is a killer (in more ways than one). Hey, that's my hero Syd Straw on background vocal... Robyn Hitchcock's "Balloon Man" is a favorite of the WHCN staff, kinda reminds me of the old Kinks cabaret style of "Well Respected Man" or "Sunny Afternoon". It's just plain infectious.... Hey Christina, I loved your telegram comment. Don't you love it when you get one begging for something that's already on your playlist?... I know the Los Lobos Lp is over a year old but "One Time One Night" was too good to pass up this week.

Ron Marsh, WKWQ, Columbia

The Mighty Lemon Drops have come out with the best thing in their career, "Inside Out" has a great melodic hook.... Bryan Ferry really does Van Morrison justice with his version of "Crazy Love".... If you haven't listened to the Del Lords yet, do yourself a favor. It's a sad story about how someone in love is left devastated after their lover is gone, in this case by self-destruction. His girlfriend killed herself by abusing crack, she called it "Judas Kiss". In the context of this song the two "naughty" words in the last verse are poignant if not downright necessary, so don't be afraid to play "Judas Kiss", it will be one of the most instantly infectious tracks to hit your airwaves.... Check out "St. John" by Aerosmith now that "Angel" is peaking, it has worked very well for us here.... Much to my wife's displeasure this weekend, I listened to the Mother's "Weasel's Ripped My Flesh" and "We're Only In It For The Money" while out for a drive in the country. Frankie's "Kill Your Mama" version is the best but check out the Dweez anyway and, don't forget, Jimmy Carl Black is the Indian of the group.

Anthony Alfonsi, WDVE, Pittsburgh

The week in New York is one I'll always remember. Being in the same room with some of the other great AOR stations from across the country was like being at a sports all star game. I'd like to thank all the recording artists and record companies for coming by our table, spending time with our own Scott Paulsen. I would also like to acknowledge the TV, movie and print celebrities for stopping by and the city of New York for a great time. Being that I was away I didn't have any comments last week so this is the catch up part.... The Kingdom Come album arrived and let me tell you "Get It On" isn't the only good song on the album. I also like "Living Out Of Touch", "What Love Can Be" and "Loving You". I can't wait to see Kingdom Come on the Monsters of Rock tour.... "Dreams" by the BoDeans is a song that hopefully will be the stepping stone for the band to become regular players on the WDVE airwaves.... It was only a matter of time before Prophet got on the air.... Till next time, just think baseball season is only a month away. Let's go Bucs!

David Alan Ross, KMJX, Little Rock

The first week for Kingdom Come at retail and it's #1 already.... Judas Priest has always done well in this market and with a great Chuck Berry remake and a happening film to back it up and this is a monster that is instantly recognizable.... Lita Ford is a daypart monster with good calls already and great MTV exposure. It's one of those songs to help out on the lower end.... Prophet is starting to build even though the band is relatively unknown to the audience. It's not too heavy for the audience, kind of a pop metal sound that works very well.... LA Guns is getting some great calls out of the box. These guys are a hard rocking group that we are sure will grow to be a buzz band.... On the softer side, James Taylor has seen some amazing local sales from out of nowhere. We are confident that the passive audience is there for it in a big way so we use it lots in the daytime.

Jim Kelly, KATP, Amarillo

Judas Priest was given a single shot test play and that limited exposure has carried over already into top five phones for us.... Tonio K. has a song that blends well with our sound. It's not a great reaction record but perfect crossover mix material.... The staff fave right now is Pat McLaughlin. I fell in love with "Wrong Number" instantly, it has a great hook and this is an album that I will definitely keep for myself.... Noiseworks is a top notch power ballad and the audience loves that stuff.... James Taylor is real big with the women and we can always use some help on that.... Tim Butler has been upped to OM for our AM & FM stations and I have been promoted to APD/MD. I am also moving to morning drive from nights and we have added staffer Chris Albracht to overnights.

Greg Morrison, WRQK, Canton

I really like the Mike Oldfield and hope it catches fire at CHR. My kids listen to this one over and over, it obviously appeals to a lot of different people.... Judas Priest surprised me with their Chuck Berry remake and the calls are already ripping up the phones.... Henry Lee Summer is working all the way

around, across all demos and with men and women. We tested it at a 30's singles club and the response was overwhelming, now the younger demos are calling for it as well.

Andy Preston, KPOI, Honolulu

The Strangler's Kinks cover "All Day And All Of The Night" got an instant thumbs up in Honolulu. The reaction has been so strong that we are close to adding the Fall's Kinks cover "Victoria".... No problem with Morrissey's "Suedehead" at all. Your new music audience is dying to hear this one from the Ex-Smiths player.... The new Talking Heads just can't be denied. It's an all daypart kind of number right from the start.... Big phones are coming in for John Cougar Mellencamp's "Check It Out" finally.... Likewise, big phones for Midnight Oil, Icehouse and the ever effervescent Robert Plant. Aloha.

Patty Martin, KSJO, San Jose

First of all, this year marks KSJO's 20th anniversary as a rock and roll station. We would like to start collecting those 20th Anniversary artist ID's ASAP. If you need details, just give us a call and thanks in advance.... Second, I saw an impressive show over the weekend with Gary Myrick and Paul Simonon (Ex-Clash) in a band called Havana 3 AM. These guys have been writing songs together for the past year and they got a band together to do a few showcase performances this past week up the California coast. I was lucky enough to catch one Saturday night, they played about an hour's worth of the stuff they've been working on and a good three or four songs stood out in particular. I hear they're heading back into the studio to complete a demo tape. Very accessible stuff.... Sure love the new Heads, can't wait to hear the rest. This reminds me more of the late 70's and early 80's Heads that I fell in love with. Maybe the new Heads Lp will be the one to replace Midnight Oil, currently in permanent residence in my CD Player.... Balaam And The Angel is getting some curiosity calls and they are all positive.

Pam Newman, Enigma, 213-640-6869

"Judas Kiss" by the Del-Lords is 4 minutes and 33 seconds of sheer radio ecstasy. It rocks, it moves, it grabs you from the very first beat of the Tom Toms and it even has serious social significance. And if all that isn't enough IT WORKS LIKE MAGIC ON THE RADIO!!! Pulling top 10 phones at WZEW, commanding an immediate move to heavy at WPLR and getting more requests at KTYD than even _____. (Call Russ or Jim if you want to know what record!) There is no time like the present to play an ACTIVE HIT RECORD. Play the Del-Lords, NOW.... P.S. I told you guys the Smithereens was a perfect record, see?!

Curt Cartier, KEZE, Spokane

Always good to sacrifice your first born at the altar of a new Priest! Judas and the dudes covering "Johnny B. Good" -- forget it, you're out of here. The troops can't get enough of it. Already #2 phones just behind Savoy Brown's "Just For Kicks", the clear cut champ for the inland north west. Give it a spin.... Gene Loves Jezebel right in the pocket with "20 Killer Hurts". I was skeptical too, but the meaty guitar is a plain winner.... Pleasure to go deep on Satriani with "Satch" and now "Surfing With The Alien".... Monsters Of Rock getting ever so close to a possible Spokane date. Over 9,000 signatures collected on petitions and postcards. We're taking the Hulksters advice. We're training, taking our vitamins and saying our prayers. The Monsters Of Rock will play our back yard.

Clarissa R. Garcia, Enigma, 213-640-6869

Last week, I told you I was married to Bill Fischer while I was unconscious. I'd like to thank everyone who has helped me put the pieces of that fateful day together. I'm starting to get an idea of what my wedding was like. Chris Black and Jessica Harley threw a great bridal shower for me. Shelli B. and Kathie Reed-Barr were there to liven things up. Bob Lang threw the bachelor party for Bill. On the wedding day, Ross Goza gave me away. We were blessed by the godfather of rock, Joe Anthony. The fact that Bill's Jewish and I'm not wasn't a problem. Joe just said, "Hey, that's rock 'N' roll". Phil Hardy was supposed to be there but he saw his reflection in a window on the

way to the wedding and never made it. But these people did make it to the wedding: Jeff Luttrell, Scorchin' Scotty, Dyana Cass, Don Kaye and others. If anyone has any info on my wedding to Bill, please call me. I'd love to get the whole story.

Mike Michelli, WONE, Akron

The WONE third birthday bash was a tremendous success. Featured artists, playing to a sold out venue, were the Fabulous T-Birds followed by Stevie Ray Vaughan and Double Trouble. Some of the highlights of the event were the mayoral proclamation making March 6th WONE Day in Akron and perhaps more notably the fact that Stevie Ray Vaughan, having overcome his personal problems, was as crisp, as clean and as happy as I've ever seen him. Thanks to CBS for helping us out to make the event possible.... In the category of first listens aren't enough: The Church record goes on this week and I'm hoping that it won't take our listeners the amount of listens it took me.... Along those same lines the new Talking Heads took me about three listens to realize that it is a lyrical delight. David Byrne has once again made a very entertaining social comment on society in America.

Jetson, WOXY, Oxford

Here at 97X we've declared it "the year of the skinhead", with groups like Sinead, Midnight Oil and The Screaming Blue Messiahs all having a skinhead in the band. Let's face it, it's a trend we can't ignore any longer. With this trend, we predict big comebacks this year for Spirit and Telly Savalas and we also think that people will be hearing from the ghost of Yul Brenner. So, get a hair cut.... On to music this week, Drivin' & Cryin' is happening here at 97X.... Midnight Oil continues to burn up the phones and the new Morrissey is our #1 request after only five days in rotation.

Richard Smith, WIXV, Savannah

Last weekend was an all digital double shot weekend with CD giveaways every hour and a grand prize of a Sony car CD player and ten CD's. It went well and further hammered home the fact that we play 95 % of our music from compact disc. Thanks this week go to David Fleischman, George Cappellini and Michael Steele for lots of help.... Any doubts I had about the BoDeans "Dreams" have vanished now.... It sounds great on the air as does Lita Ford.... The Church is getting good response here as well as Midnight Oil and Virgil says Robert Plant is album of the year, but what else is new?

Joe Blood, KEZO, Omaha

Guns N' Roses owns the phones and next week I expect retail to follow. It's our fastest mover of the week.... Surprisingly enough we're getting more reaction to Plant's "Tall Cool One" than "Heaven Knows".... Starting to get curiosity phones on Midnight Oil.... The second Kingdom Come track "Loving You" reminds me of Led Zep's "Going To California".... The Church's "Under The Milky Way" has grown on me. The first couple of times through I wasn't so sure but now I'm convinced it's going to work.... The new Talking Heads seems to be a return to the "Little Creatures" type of sound. I love the lyrics. It's our Record Of The Week and is getting the best staff reaction of the new stuff this week.... Concert news: Sting was in town this past Saturday, March 5th. He put on a great show. What an incredible band. Thanks to Dick Merkle for the great tickets and the backstage visit with Sting.... Also Ted Nugent came to town Friday the 4th. He put on a gonzo show. Ted's in great shape and the band was hot.... Five faves at home would have to be The Del-Lords, The Mighty Lemon Drops "Inside Out", Robyn Hitchcock's "Balloon Man" and the "Johnny Be Good" soundtrack, especially the Frozen Ghost track.

Ty Banks, KQWB, Fargo

Check out the Midnight Oil album "Diesel And Dust". It's a beautiful album and it's made me a true fan of the band.... Moved The Church's "Under The Milky Way" up to heavy this week. We're getting incredible phones on this and personally it's one of the most beautiful soft songs that we are playing. I find myself humming it all over the place.... Personal Faves at home: Balaam & The Angel, The Godfathers album really

rocks, and Midnight Oil. I also like the Myles Goodwyn. We don't think he'll have trouble finding a place on the radio.

Tom Van Sant, WIZN, Burlington

The new Talking Heads tune is a fun one. Who but David Byrne could be so optimistic about the post-apocalypse? We're seeing immediate phone response.... At last we know why The Browns missed the Super Bowl for the last two years. You can't stuff the ballot box on the grid iron, Leo.... Steve "Drainpipe" Cormier said he had a great time in Dallas, and sends big thanks to Paul Brown, among others. And you wonder why we're trying to get him off the air?

Dan McClintock, WWRX, Providence

The Talking Heads quirky rhythm and story line is a unique attraction. We're already getting positive phone response after only a few days.... Also new this week Springsteen's "Roulette", Foreigner and Paul Carrack's "One Good Reason", a natural follow-up with "Don't Shed A Tear" working well for us.

Kerry Gray, WZEW, Mobile

A bodacious thank you to Michael Stevens and everyone at Atlantic Records for putting a little "Kick" into my weekend. INXS was great. I can't remember the last time I experienced such a high energy show.... This coming weekend Sting will be in concert. To get geared up for the show, we've added "Englishman In New York" now making "Nothing Like The Sun" eight tracks deep.... We're currently five cuts into the Robert Plant album with "Tall Cool One" snagging #1 requests for the second consecutive week.... For several weeks I've been listening to The Church's "Under The Milky Way" and have failed to see anything spectacular about it until, lo and behold, it hit me in the midst of a sleepless night. I heard it on our new music show. It was at that point that I suddenly realized the song had grown on me. Watch out this song is like fungus. Once it captivates you it doesn't stop growing on you.... Another thing that has grown on our playlist is "Flowers" planted by the Talking Heads with "(Nothing But) Flowers" in medium and Jerry Harrison's "Rev It Up" still in heavy rotation, we're "Head" happy waiting for the release of "Naked".... Also new this week is Robyn Hitchcock's "Balloon Man". Having already established himself with the college audience, we feel that this tune has that 60's sound that is sure to capture the upper demos. "Balloon Man" is a perfect springtime tune and we love those quirky lyrics. Give him a chance.

Lorraine Rapp, WAQX, Syracuse

It was great to see and meet so many of the industry's finest this past weekend in Dallas. Getting together with people who are so excited and committed to what they are doing really recharges the batteries.... So does good music and this week we're adding Balaam & The Angel's "Love The Things You Do", George Thorogood's "Born To Be Bad" and the new Talking Heads "(Nothing But) Flowers".

Scott Laudani, WHEB, Portsmouth

After two years of programming WKRZ in Wilkes Barre, PA morning ace Jim Rising will triumphantly return to WHEB-FM to co-host mornings with Fran Lane.

Joe Anthony, KISS, San Antonio

I don't know about anyone else, but I was thoroughly disappointed in the Grammy Awards. When Nashville gives out country awards they never award anything to rock and rollers, but the Grammy Awards recognize country artists. What about the other rock acts? How long is AOR going to be excluded from the Grammy's. How about Bon Jovi? How many records did they sell? And remember Little Richard's performance. His comments are a good example of what I'm talking about. If the Grammy's are going to ignore AOR and groups like Bon Jovi and Whitesnake then maybe it's time we took care of our own and started our own awards. Come on record people, the Grammy's are for the granny's!

Kelly Cruise, WEGR, Memphis

The Church sounds so good on the air, and we're getting good response even with a light rotation. Needless to say, it moves to medium this week.... Will And The Kill has a fun and infectious tune with "Heart Of Steel". In fact, check out the whole album.... Someone please tell me why Peter Himmelman's "I Feel Young Today" is not getting more adds. It's one of the best songs out there, and it's perfect for the current spring fever frame of mind.... A fond farewell to our news director/morning Memphis maniac Art Merhing. Good luck wherever you're going since you won't tell us.

Jeff Robinson, WKQZ, Saginaw

I've just returned from Los Angeles and the LA Music scene. Oh my God, there are a lot of bands out there. It seems ironic that there are so many that no one in particular seems to stand out. But a band that did stand out in the crowd was In Between People. I saw them at Madam Wong's and someone should check them out. They are more than just a club band. They are very much a rock and roll band.... Also saw Gene Loves Jezebel at the Universal Amphitheater. What a huge show, the crowd was on their feet the entire set. It was clearly evident to me that the success of the concert was a product of radio. Radio has brought this band to the forefront.

Cyndee Maxwell, KWHL, Anchorage

Why didn't Elektra release Guadalcanal Diary's "Get Over It" as the first single? Get over it, radio. This is a rock song. We didn't play any Guadalcanal Diary before this, but this is the track that works.... Judas Priest's scorching version of "Johnny B. Goode" should have Chuck Berry taking a second listen. Immediate phone response and requests.... "(Nothing But) Flowers" is good. The Talking Heads stay true to themselves with a jammin', toe tappin' tune.... Hats off to Elektra for their Adventures Irish Sweepstakes. My only question is: Can I enter more than once.... And finally important to all record type people. Our adds are now ready on Monday at 2:00. Please ask for Dan Thomas when calling for adds and rotations.

Bob Walton, WRDU, Raleigh

On first listen to The Church, one might think "too progressive", but once you hear it on the radio it's all different. It's a little Al Stewart, it's a little Pink Floyd, it's a little bit Byrds. This song works.... Godfathers could be the hottest song of the week and it took listening to it outside the confines of the radio station. You got to hear it in your car or in your living room. Bring some friends over, they'll tell you.... And needless to say, the Talking Heads are automatic. They keep redefining the mainstream.... Phones for Plant and Kingdom Come haven't stopped.... Henry Lee Summer is for real.... Please pass the plate of crow concerning my comments about the Mellencamp wanna be.

Robert Harder, KWLN, Memphis

I'm learning to hate the phone. I haven't seen a hotter phone response to anything than I have with the new Judas Priest cut "Johnny B. Goode" cut. It's incredible.... Other predicted phone getters this week include the new Roxanne tune "Cherry Bay". If you never heard of Roxanne, get used to the name. They sound like a cross between Motley Crue and Aerosmith. In fact, they sound so much like Aerosmith, you could tell your listeners it was Aerosmith and they probably wouldn't know the difference.... Otherwise, we like Guns N' Roses "Sweet Child Of Mine" and Balaam and the Angel.... Strongest Add Of The Week: I would say Roxanne because I think it's gonna be a keeper.... Like the new Great White tune "Mistreater". It's a good straight ahead follow up to "Save Your Love". It gets the folks back to what Great White is all about.... I think the Church has great lyrics and a very catchy hook.... Phones: Priest #2, Henry #5. New phones include George Thorogood "Born To Be Bad", Rick Springfield "Rock of Life" is starting to get some phones, and Lita continues with very strong female phones.... The Godfathers' "Birth School Work Death" is starting to get some early phone action. Another one I think will be a keeper.... Prophet also showing a phone increase. I look for that to be a pretty big hit in this market.

Michael Cross, KJJO, Minneapolis

Finally back from the R&R Convention '88 in Dallas, and although I had fun, it was evident that AOR has a problem. From the first day, it was clear that too many stations are being too safe in what they add. And not enough new music or deeper cuts from albums are being heard enough on the air. This is album oriented radio, right? We would prefer to call it album oriented rock. To be honest, I feel there needs to be more radio that sounds like Hot Rocking 104, and I wished I could have been on one of those panels. I feel that Hot Rockin 104 is the future of rock radio. You can't live in the past forever, there is a lot of great rock and roll out there.... Guns N' Roses is a perfect example, yet I noticed not one station in Dallas played it. I could go on forever on that subject, but I won't. Overall, I had a great time in Dallas and met tons of great people. Strokes next week.

Jon McGann, KFMX, Lubbock

The Balaam & The Angel Lp is a very deep album, more than just one track will eventually be released. Great depth.... Will and The Kill continue to bust out around here. The more you hear it, the more you like it.... Lita Ford is getting a steady stream of phones and is breaking into Top 5 sales here in town.

Howard Glassman, WEQX, Manchester

Joni Mitchell goes in and the phones light up. You don't have to be a Vegas oddsmaker to figure that one out.... David Byrne es muy loco en la cabeza, but the rest of the world is catching up. Talking Heads will once again rule the airwaves.... Maybe it's the U.S. mail, maybe it's the ozone layer but we just received the Roy Rogers "Slide Winder" Lp on Blind Pig Records and it's wicked! This is serious as hell blues.... Linda Kirishjian, my better half is forever in debt to you. Thanks for the bruce juice... Before I head back into the stratosphere, I want to thank the folks at Rounder for the enjoyable evening in Poughkeepsie. I can't think of a better way to spend a Saturday night with a longneck in one hand and the joyous antics of NRBQ filling up my soul. May tomorrow be a perfect day.

Tom Starr, WOUR, Utica

Feeding listeners on a steady diet of established artists and tunes is the programming equivalent of serving nothing but sweets to a six year old. They'll love you until their teeth fall out. It's not unlike what the fast food places began to discover a couple of years ago. Nothing but burgers went like gangbusters for a period of time but they realized that unless they put in salad bars and diversified the menus, growth was headed down the tubes. If AOR is approaching that evolutionary stage now, we're fortunate there is such a wealth of nutritious music to feast your listeners ears on.... The Del Lords rip roaring opener is going to make any label that had them or passed on them feel like the Red Sox watching John Tudor pitch the Cardinals into the pennant.... Sinéad O'Connor has a chunky enough arrangement to bring home her distinctly different sound for the format.... The Church is quickly winning favor and their first WOUR exposure as well.... Robert Plant has delivered nothing less than a masterpiece. It comes as no surprise that he has been listening to exciting new music himself.... Amusing to see public confirmation of what we knew all along re: the Rolling Stone Readers Poll and WMMS. You watch, though, Leo will turn this all around and milk it to the max. The mileage they'll get out of the scandal will end up going in the right direction.

Paul Marszalek, WMAD, Madison

A very belated thank you to Peter Himmelman who did a WMAD budget show a few weeks back. The guy is hilarious, you must take him home to meet your parents. Long live soda machines with 10 oz. bottles.... Sting proved last week that you can sound good in Madison's Coliseum if you want to.... Allow me a moment to speak radio jive. Giant phones continue for Treat Her Right.... I often wonder if Morrissey is really a troubled introvert or if it's all just some marketing scam. Regardless, we nod our "Suedehead" in approval.... Now if you will excuse me, I must do the boogaloo.

Marty Griffin, KFME, Chico

I have to admit I was a little skeptical upon my first listen of "(Nothing But) Flowers". Midway through the second listen I was hooked. It sounds so different and refreshing on the air, besides how can you go wrong with those Latin rhythms and lyrics that are both funny and yet so clever. Welcome back Talking Heads.... A tip of the hat to the Elektra team for the outstanding set up on one of the truly great new songs of 1988, Adventures' "Broken Land". Hypnotic, passionate, sincere all come to mind when describing this excellent new record.... Give a listen to the Toto album. I think you'll be surprised when you "Stay Away". It features Linda Ronstadt on background vocals. And yes, I know it's hard to believe. It rocks!!

Harry Reynolds, KOZZ, Reno

There are so many new groups out now with great new songs and so many young groups with great new songs that established rock and roll bands had better take heed. Cause it looks like they're about to get blown out. I'm really enjoying all the great new music here in Reno.

Alison Stewart, WBRU, Providence

"(Nothing But) Flowers is spicy. It's just plain fun, don't over analyze it. You can always expect the unexpected from the Talking Heads. That's part of their appeal. We dig it here.... Think of adding Love & Rockets as an investment. It's obvious they're going to be big stars of the 90's but they need a solid base. If they can deliver songs like "No New Tale To Tell" and "Waiting For The Flood", radio can at least consider playing them.... Joni makes her move with a great record. It's got a really mature sound. Her curious lyrics really make you listen.... Treat Her Right is #1 phones followed up by 10,000 Maniacs at #5.

Brian Illes, WKFM, Syracuse

Holy Readers Poll, Batman! The Buzzard's stuffing the ballot box? Why, that's almost as hard to believe as San Diego being a small market. Well, I guess one of the two is true. What else might they be stuffing, Batman? I wonder if any eyebrows are being raised in Beltsville or Coral Springs? But hey. Rolling Stone, don't drop the category, give us all a chance to stuff the ballot box. May the best stuffer win. Kablaam!... Holy tight list, Batman, only one add this week? And it wasn't your label? Hey, all the records on my list are performing, and you can't ignore a Talking Heads record like this one. I was tapping my toes ten seconds into it, and singing before the end. This is the perfect song to take us from those winter doldrums right into the spring fling. I just can't wait to spring my "Naked" promotion on all the bunny people.

Mike Jones, WGIR, Manchester

Udo - say Uooooooooo! Way happenin' stuff here folks. Rockin', ragin' and very cool. "Animal House" will have you barkin', pantin' and salivating. Everything a good rock and roll Lp should have you doin'. Needless to say, I'm into it bigtime.... Fifth Angel; great band and a great Lp. Yeah, I know it came out a couple of years ago on another label, but the number of people in this country who heard it could probably be counted on one hand, so don't use that old excuse. Pump it again, this band is going places. Take it from me, they will be large.... People seem to be very divided in their opinions about Kingdom Come. Just talking to various folks around here and lookin' through the trades, people either hate 'em for being Zep clones or really love 'em. Like I said, I love the album even though they are cloning Zeppelin on most of the Lp. At least, it's good for some interesting discussion.... I have to mention that this ongoing "Why does Megadon always talk about TV debate" is kind of funny. The Mega-one and Phil Hardy turned me onto "Married With Children". Now I'm hooked, so I'm joining the Al Bundy fan club (God help me), but no one ever mentions "21 Jumpstreet". It's on 90 minutes before "Married With Children". I think it's a very cool show. It's done intelligently and Hollie Robertson gives new meaning to the word gorgeous.... Personal to Dimples and WKNC: Guns are still God, they've gotten so big here that we don't even call them Guns N' Roses anymore. I've come up with different names that you can use to shock your listeners like: Magnums and Magnolias,

Derringers and Dandelions, Firearms and Flowers, and Rifles And Rhudabagas, try it.

Catfish, WHMD, Hammond

We're seriously considering The Connells' "Scotty's Lament" on TVT. It's genuine, unique rock and roll with a loyal local following. "Over There" worked well for us and "Scotty's Lament" will do even better. Think Connells.... It was fun meeting Cat Stone and Kerry Gray from WZEW, Mobile at the INXS/PIL show.... Thanks to Michael Stevens of Atlantic for the pro-bono show.... Also thanks to Howie Klein of Sire for helping out with wax for our new music hour. Howie, you're the way the bee bumbles. Yahoo.... How about that Flesh for Lulu. Did you call Lulu at 1-800-248-0412?... Beaver Brown, welcome to the Hard Report.

Dr. Metal, WHJY, Providence

First of all, if you're gonna put "Johnny B. Goode" to metal, there's nobody better to do it than Judas Priest. It's just a kick ass version of the song. It emphasizes the fact that the Priest is still the greatest.... Fifth Angel are gonna be the supergroup of the 1990's. The all new production does a lot of justice to the record. All nine tracks are very strong. It's a good tape to have in your car for cruising around.... A thank you to Cheryl Valentine for my Metal Blade T-shirt and the great time at lunch at the Hard Rock Cafe.

Mike Scott, WRIK, Paducah

The Mamas Boys have a great re-make of the Stevie Wonder song "Higher Ground". We just added it into light. We'd been fooling around with it for weeks and it kept popping up so we finally put it in. Stevie Wonder would be proud of it.... With the EIEIO, we had trouble picking one cut from that and it came down to either "Hey Cecile" and "Love Thang" but there are a lot of good cuts on that record. We'll hit "Love Thang" down the road.... Mr. Mister sounds like they're rocking out more on this one. It almost doesn't even sound like Mr. Mister. It could be the Bob Seger "Shakedown" of this year.... Dave Wakeling is excellent. I thought it was the English Beat. It's got beat written all over it.... Prophet is just doing real good, especially with the upper teen demo. Young males and females in love really go for this song.... Jerry Harrison is doing just fantastic revin' up our airwaves and he's gonna stay put for a while. We're thinking of putting in "Chief". He sounds more like the Talking Heads than this new Talking Heads track.... We still play Guns N' Roses 'cause all our jocks break format and play it anyway, so we won't readd it 'cause it's our secret song in rotation. Pick a spot.

Jeff Ivan, KFME, Lubbock

Sounds to me like Roadrunner has got a hot new album on the way for us.... Toxik's advance cassette sounds marvelous. Great guitar work to say the least with some very catchy hooks. The vocals lean towards Agent Steel but played loud, as all metal should be, this sounds great. I'm psyched.... Combat comes out strong again with two hot ones. I jumped on Tiger-tailz, which is a cross between a nasty Poison and Hanoi Rocks. This one should do well with the females and I think the guys will buy it when none of the girls are looking. Start with "Shoot To Kill".... The second one is the new Crumbsuckers. These guys look like they should be in school or playing football but they seem to rock. I went with "Remembering Tomorrow" which starts off in a bizarre way but picks up. Definitely catchy to the listener.... On the phones, it's all Kingdom Come, White Lion, Great White and Guns N' Roses.... Another band to take note of is the new one by D.C.Lacroix. I started with "One On One", but of course they deliver yet another version of "These Boots".... The must play list continues to grow. Eric Steel gets better with each listen as does Fates Warning, Udo, Candlemass and Barren Cross.... On to the Grammy's. This year wasn't too bad. Disappointments for me were Paul Simon, Terence Trent D'arby and Prince coming up empty handed. And did you notice that only one of the country song nominees was written by the artist that sang it. Get real. Embarrassment of the night had to go to Little Richard, with Michael Jackson's new commercials a close second. Let's get a metal award show on say, MTV next year.... Finally, Zodiac Mindwarp and

the Love Reaction rules. Play this record and feel like a "Tattooed Beat Messiah".

Carl Scheider, KJOT, Boise

Big Pig is getting incredible reaction from women in their mid-twenties which shouldn't surprise me because it's kind of danceable and hooky. One of those songs that sticks in your head.... Joni Mitchell is real interesting, not really perceived as an AOR artist. She's always been around and is really one of the founding females in rock. It's just great for the upper demos. It should do well if people can get past their preconceptions of her as a folkie.... INXS' album has been really interesting and you might as well get on this before CHR does. The whole album is so infectious.... White Lion has been our surprise group this year. "Wait" is a strong phone song. "Tell Me" goes on this week and it's another catchy tune. These guys will be around for awhile.... "Johnny B. Goode" is a monster. If anyone can come up with a new rendition of "Johnny B. Goode", you gotta play it. When you hear Judas Priest do "Johnny B. Goode", you gotta wonder. You put it on the turntable and people's eardrums begin to pop all the way down the hallway.

Steve Kosbau, KRNA, Cedar Rapids

If you haven't had a chance to listen to "Take Me Back" by Noiseworks, you owe it to yourself to do it soon! For KRNA, the value of this track is that it rocks enough to satisfy our male core, but it sports enough melody and hook to grab any upper demo female. It has jumped into our Top Ten phones this week. Trust me this noise works.... The remix of REM's "Finest Worksong" is excellent. Our listeners responded very favorably to the album version, but the horns have given this monster more strength.... The new Foreigner single is a smash! We played "Don't Want To Live Without You" briefly when the album first arrived, and the message our listeners sent was clear. They loved it! Pound it to death before the CHR's do. It's a re-add to heavy for KRNA!

Jane Fredericksen, KTCZ, Minneapolis

So glad to see 10,000 Maniacs catching on elsewhere. Those of you looking to go deeper on the album try "Hey Jack Kerouac" but only do it if you have the time to answer all the phone calls.... We're now three tracks deep on Lyle Lovett. This album has elicited phenomenal response, especially after we featured a side of it during our special programming.... Thanks to Denise George, Denise Lutz and all the folks at A&M for the chance to hear and meet the incomparable Sting last week. Couldn't resist slipping him a playlist. Maybe it was a bit forward of me, but I think it's important to let the artist know, after he's given us such a great performance that "hey we support you here". Those of you who can, don't miss this chance to see a most amazing musician and showman.... Thanks also to A&M for bringing John Hiatt by the station yesterday. He gave a very engaging, cordial interview, and what a writer - check out his contribution on the new Nick Lowe Lp.... Not to make this sound like a Grammy acceptance speech, but thanks also to Calvin and Bill at PolyGram for a great John Cougar Mellen-camp show and advance thanks to Gold Castle for bringing Bruce Cockburn by.... So may good shows, so little time.

Mad Max Hammer, Z-Rock Satellite

Pantera's album "Power Metal" is just that; full on power metal. Some labels have passed these guys up in the past but they are worthy of being on a major label. They're from Dallas/Arlington, Texas. It's out on their own label; Metal Magic. The album kicks ass. They have a new singer and they are just so hot.... Black And Blue's "Rev It Up" is a straight ahead party rock song. It'll do good for Black And Blue.... Judas Priest's "Johnny B. Goode" is a great remake. It's a great upbeat song and hopefully it shows things to come from the next Priest album. Immediate phone response off of it; the kids love it.... Coven. I don't know how to take these guys. They're a good thrash band and "McDonalds' Massacre" is a great thrash novelty song. Metal shops should take notice of this.... Z-Rock is on the Mike Monroe, which is an import. The album should be out in the states real soon and you should check it out, he's the former lead singer of Hanoi Rocks.

Kevin Kasky, WOUR, Utica

Greetings, mind-melting humanoids.... The new Priest is as exciting, innovating and powerful as everyone said it was. Great phones.... The band to watch out for is Zodiac Mindwarp. I love it and so do my listeners. I feel that if Commander Cody were to do a heavy metal song, Zodiac is what it would sound like.... Speaking for myself and Dr. Rock, we would like to thank Pat and Jimmy for a great time on the "PolyGrammy" night up here.... That's it, brothers and sisters. Send more metal. I'm suffering from a severe deficiency.

Jack Green, KLPX, Tucson

We've succumbed to the oratory of that silver-tongued devil Jay Ziskrout and joined the campaign. So when do we get to meet the sleazy women?... As we all know the opposite of sleazy is classy and Joni Mitchell and Sinead O'Connor both fit that description. It's great to hear Joni back again and I think she'll do very well for us. Sinead O'Connor has intrigued me from the first listen and I hope we'll be able to spread the gospel to our listeners.... With a big brother like Charlie Sexton, Will really had to come up with something special, and he has with "Heart Of Steel". Could this be the beginning of another brother dynasty?

Jessica Harley, WNGZ, Elmira

Mega-thanks going out to Metal Maria, for hooking up the interview with Testament. I had the privilege of hearing their new material and Testament's forthcoming Lp "The New Order" may very well be the album of the year, and Testament the band of the year. Since their amazing debut Lp "The Legacy", Testament have progressed enormously musically and lyrically. "The New Order" is full of intense rhythm changes, killer leads, ass-kicking riffs, powerful vocals and outstanding production. Testament's forthcoming Lp "The New Order" hosts every element needed to produce gold. This is one band that's gonna make one hell of an impact on the metal scene of '88.

Michael Gardner, KOAS, Kealakekua

So much good music has been released in '88 and yet many will remain uncharted. Based upon past chart action, of course a lot of good records will not see #100. But thanks to some good promo folks and stations that take the time to listen and make their own decisions on what to add, more new rock n' roll and blues is being aired across the country. We get great response "for not sounding like the other guys". When I program new stuff that's not on other stations, listeners say that it's good music. And programming new stuff by ear doesn't always take a chance, it just adds listeners for us.

Michael Areford, WFYV, Jacksonville

Attention! Joanna Dean is out phoning Kingdom Come. Remember you heard it here first.

John Cooper, WPYX, Albany

"(Nothing But) Flowers" by the Talking Heads is an ear catching, foot tapping, fun song. For more than 11 years, The Heads have given us some of the most creative music and they continue to impress.... Bryan Ferry and Joni Mitchell are both important adds for us this week. The Ferry record will certainly take off in Albany, a city that's always been partial to his music. And to paraphrase Ed Levine, the Joni Mitchell song is her best radio record in years.

Alan White, KILO, Colorado Springs

Selling like a house on fire is AC/DC going from 8 to 1. Kingdom Come debuts at 2, Joe Satriani goes to 4 and a big jump for Balaam and the Angel moving 39-23. Toto debuts at 34.... Not to many vacancies at the rock and roll hotel, but we managed to find room for Talking Heads and Joni Mitchell; both are very valuable to our upper crust. "Flowers" is like a wolf in sheep clothing, with its bright and bouncy melody, while its dark message lies hidden beneath in the tradition of "Life During Wartime".... "Snakes And Ladders" has a very modern feel with its richly textured vocal and its playful rhythms which spell credibility from an artist that has never really gone away.

Skip Isley, WWTR, Ocean City

All I can say is I can't wait to hear the new Foreigner song on WNEW.

Pam Brooks, WPDH, Poughkeepsie

Well, well, there is a higher authority. Sometimes when you feel no one believes you can hear a song that is right on the mark, the light glimmers at the end of the tunnel. So Pam, that Henry Lee Summer track is real good! You bet your ass it is! As a matter of fact, this whole Lp is something to be reckoned with. Check out "Hands On The Radio" and "I'll Hurt For You". Hey, Henry, the Hudson Valley wants you.... Talk about eclectic, talk about out of the ordinary, talk about refreshing, talk about Talking Heads' "(Nothing But) Flowers". Spring is in the air and this song puts me in the life begins again mood. Love it.... Finally room for another fine piece from REM. "Worksong" adds to the depth and power of one of the most vital bands to straddle the line of underground and commercialism. I applaud the continuing talent of REM and what they've done for the airwaves.... He embodies cool and debonair. Add some class and savoi faire to the radio give them Robert Palmer's "Sweet Lies". I almost tied up traffic groovin' in my car with Robert's voice caressing me. This is what makes playing the radio game so much fun.

Ron Garrett, KRXQ, Sacramento

The Adventures' "Sea Of Love" is an entire album filled with intelligent, elegant lyrics, delivered over breathtaking melodies. Discover Ireland's new generation of writers, artists, craftsmen. The Adventures, in my opinion, are destined to deliver the best new music from Ireland in 1988. In our industry's quickening pace, in the contemporary music scene, the Adventures' new Lp "Sea Of Love" stands up to confront the ever changing moods of the creative process by being in tune with the needs of the art, the artist and, undoubtedly very soon, with the sensitivity of the buying public. "Sea Of Love" is already on my desert island disc list. This album is worth your time spent listening.

Mary London, WRFX, Charlotte

Anybody that can play Ann and Nancy Wilson can play Joni Mitchell.... Treat Her Right is gonna capture the older and the younger audience. Any station that leans toward that classic rock sound will like this Lp.... I still wish that people would send out cassettes with the Lps because I spend a lot of time in my car. It slays me that a 16 year old boy can sound so good with very little effort. Will and the Kill amazes me and this guy doesn't even have a driver's license.... Roxanne is a good band; give it a second shot. Look right past "Play That Funky Music". The band's gonna stand on its own without doing covers.

Trisha Griffith, KBER, Salt Lake City

KBER and its staff would like to thank Ted Nugent for rockin' Salt Lake for KBER's second birthday party. We love you Ted! Also would like to thank Atlantic's Michael Brannen for all his help.... Finally, the Bear is getting ready to unleash one of the biggest radio promotions in radio history. Details forthcoming. Love, Trisha.

Jim St. John, KTYD, Santa Barbara

Balaam is workin' well and pulling top 15 requests. It's getting the rotation it deserves now and should go to #1 everywhere.... "Under The Milky Way" by The Church is one of the best produced songs of that genre.... Lita Ford is performing as well now as when we added it. And we were out of the box on it.

Bill Evans, KTAO, Taos

The Taos Valley has not been noted for reactionary listeners in the past, however, this trend appears to be reversing, and one of the measurements of this phenomenon is the Blue Rodeo Lp. Every time we play something from these guys, the phone rings, especially for "Floating"! It's easy for me to say this is an excellent album, but our audience agrees and that is gratifying.... Other good reaction items are Treat Her Right and

James Harmon.... Some people say "Beach Boys" when they hear the intro to Ian Matthews' "Following Every Finger". Not me, I hear South Africa a la "Graceland" and the sound of cash registers! Maybe a Grammy for best new artist next year? Just kiddin', but a serious congrats to Island and U2 for representing our industry with class and eloquence at the awards!

Butch Lazorchak, WVW, Christiansburg

The Woodentops new album is brilliant. They integrate acoustic guitars with a rock feel and a percolating dance groove that's light years ahead of their time! I like "Stop This Car" and "What You Give Out". Their whole image fits the mold of a perfect modern English rock band. Their attitude and emotions really come forth in a genuine way in their music.... E*I*E*I*O. I was walking down the street and all of a sudden I started humming this song, not realizing it was "Hey Cecelie". Absolutely infectious music that if it were on a major label, you'd be all over it. Why let something like that hold you back?... "Inside Out" has a chorus that will knock you out. Listen to this one from the Lemon Drops and you'll be singing along.... I once got into this big Wire phase, buying all their records. "Kidney Bingos" has a great sound to it. Wire writes complex, beautiful pop songs with a real edge. It's good that they split and did side projects and now reformed to combine their new musical influences!... Nick Lowe's "Lovers" is a great song, a real elastic sounding intro. Sort of a funk base applied to guitar. Like magic he churns out these perfect songs with rootsy feel and thoughtful lyrics. You can't get more perfect and he's never had a bad album!

Josh Rosenthal, WCDB, Albany

First of all, I rarely endorse a record this directly. Once in a while, an album will come out that transcends radio and charts and works its way into my psyche permanently. It's no wonder Elvis and Bono love Christy Moore so much. Sure, most stations won't bat an eyelid (and some will cash into the sychophantic celtiphile trip, i.e. those who love The Pogues but really don't like their music). But here's a record that's history and literature all in one. The beauty part for me is that it's actually gonna get played at WCDB and I'll still play it when I'm 64, reading Dillon Thomas and belching Bushmills.

Paul Kriegler, KRCK, Omaha

"Suedehead" is a pop master piece, so says me! Requests for Morrissey are coming in by the bucketful! The B Side, "Hairdresser On Fire" is quite popular among area hair salons.... The new Talking Heads single is refreshingly different. The Latin feel is a different direction for them but I like it and so do our listeners.... The remix of "Mirror People" by Love And Rockets is stunning! The sound of the new version is punchier and re-debuts this week as it sees a whole new round of support.... They Might Be Giants is our #1 requested item of the week. Great things happen when record companies send us records!

Jody Petersen, WNCS, Montpelier

Midnight Oil has been the standout album of all the new releases here at WNCS. The band has an incredibly unique sound, and perform with so much heart. Plus, the sound is beautifully layered and produced on a record with huge shelf life. This should explode! We love "Beds Are Burning" but "Dead Heart" is also working for us, too.... Treat Her Right has been in heavy rotation since the day we added it! Being a blues oriented station, this sound is perfect for us.

Mike Thomas, WMDK, Peterborough

The Wild Seeds have a fresh sound that we enjoy, and right now, "Debbie Came Back" is on the air at WMDK. We expect this band to do well!... Looking back at The Connells' album, "Scotty's Lament" worked very well for us.... The new single from Martini Ranch, "Reach" has multi-format appeal with mass potential.... I really like the new remix of "Mirror People" from Love & Rockets. One listen told me it will be successful on the air.

Ivar Hamilton, CFNY, Toronto

I have to agree with Mike Marrone at WHTG that the single from Red Peters is definitely something to watch out for. It was the most talked about new single at the recent Gavin convention. We'll have it in Power, Power, F...ing Power as soon as it gets across the border!... Our thanks this week to Glen Tilbrook of Squeeze for a great interview. That guitar you see him playing on stage was a gift from Elvis Costello in 1982!... Band to watch for this week is Painters and Dockers out of Australia and their "Nude School" single. They may just be the next big thing from Down Under. Too cool to be ignored?... A very small amount of feature play has forced a full time rotation on "Cold Sweat", the latest U.K. single from the Sugar-cubes. This band has been getting top 20 phones for weeks.... Part two of the Mike Marrone column, and what the hell is a "kidney bingo"? I think it's probably the best record Wire has ever made for radio. Good enough, Mike?... Count CFNY in on Talking Heads and Morrissey as out of the box heavy adds. Looks as if this is going to be a very big year for Sire!

Deb Brady, WXXP, Pittsburgh

The Smiths as a band may be gone but the sound is alive and well with Morrissey and "Suedehead". As this week's Screamer, it was an easy add.... The Adventures "Broken Land" has a haunting hook that is hard to resist. Proof that their first release was not a fluke.... Doing well on the phones as well as in the stores: Midnight Oil, Robyn Hitchcock, The Church, Lita Ford, Bryan Ferry and the Sisters Of Mercy and, in case, you couldn't get past the name Johnny Hates Jazz "Shattered Dreams" will be a smash.

Patti Clarke, KMBY, Monterey

Look out rockers! What happens when you mix Texas with England? Havana 3 A.M.! I know what you're thinking, Havana is in Cuba, but the name has a deep fun meaning, so when Gary Myrick, Paul Simonon (ex-Clash) Nigel, Dixon and Steve Klong come to your town, you've all ready got some shop prep for your interview! The boys dropped by the KMBY studio (Gary has been a long time favorite in the Bay area) and brought us up to date on the new band that will rock your socks off! Havana 3 A.M. packed both the club of Monterey and The Catalyst in Santa Cruz then went on to San Francisco. KMBY is proud to have supported this band in its infancy. Hope these rockers will make it.... The formula is right on track! Thanks to Columbia's Kevin Knee for driving down from San Francisco for a station visit and his input on the show! Phone response from the Adventures and the Del Lords have been unreal! Here are the two bands that all music directors have to close their office doors, hold all the interruptions and turn up the volume!... A quick hello to former KMBY afternoon rocker/MD Steve Hoover who is now WIBA/Madison program director. Hey Steve! You forgot your photo albums. We'll keep the one with Lita Ford.

Monte Conner, Roadracer, 212-219-0077

Thanks to everybody for staying on the GANG GREEN opus. Chris Doherty and his green Bud-buddies will soon be rolling your way. The first keg, oops - I mean leg, of the "You Got It" U.S. tour, kicks off on April 7th at The Channel in Boston. Following their hometown date, the GANG will be skating through Roanoke, Richmond, Charlotte, Atlanta, Orlando, Miami Beach, St. Petersburg, New Orleans and Houston. A great time is guaranteed for all!... Early feedback over the advance cassettes of TOXIK's "World Circus" has been absolutely overwhelming. Yes indeed, I won't have to work too hard on this one. Special thanks to Mad Max, Jeff Ivan, Ron Stytz, John Lovely and Mark Snider for their early support and encouraging words.... ZNOWHITE "Act Of God" advance tapes went out on Mar. 4th, so you should all have 'em by now. Those of you who have heard the band's previous material will be quite surprised. "Act Of God" is literally light years ahead of anything the band has ever done. ZNOWHITE guitarist and chief dude, Ian Tafoya, will be terrorizing our offices from Mar. 24th through April 4th. Ian has threatened me with death unless I keep him busy with radio and press interviews. Am I scared? You bet your ass! Have you seen this dude? Check the back cover of "Act of God" and you'll see why. Wait a minute, you

ain't got da back cover. That's coming on April 4th along with TOXIK. April's gonna be a great month!... P.S. Check this issue for the scoop on the KING.... P.S.S. No time for Dialogue Wars this issue. Let me just say this: Huge amounts of hatred and filth to Scroggs, Fischer, Megadon and Valentine.

Cheryl Valentine, Metal Blade, 212-645-2607

Yes, I have returned from yet another week of mindless meanderings. At this time, I would like to update those of you who are ill-informed. You will notice that on the March 4th issue of this sheet we had Candlemass at #7, Fates Warning at \$29 (also #1 most added again!), Dead End at #31, Nasty Savage in at #33, and our pals, Viking, were rumbler. This may provide some insight to those weary reporters who often slag independent releases for those that are more -- well, let's not go off on anyone here. Anyhow, Candlemass is coming in for interviews, Nasty Savage is going out on a U.S. party-fest, and Fates Warning is itching to be travelin' jaspers once again.... For those of you who love our product, I thank you for enabling me to keep my job and bug the snot out of you some more (Midwestern humor, sorry). Actually, when this comes out I'll be having fun with Leif and Messiah from Candlemass. I'm so tempted to play a little joke on our foreign buddies. I think that I'll tell them that it's a New York custom to wear birthday party hats and T-shirts that say "I'm with stupid" while singing one of the Nair commercials in Times Square at 4 am. Film at eleven.... Ya know what? We need to start a fund raiser to get Bert New to a town that's more happenin' than Valdosta, GA. I know it will be tough to find a city that's even more swingin' than one on the Georgia-Florida border, but let's give it a whirl, shall we?... I am now accepting applications for board members for the Committee to Keep Rich Scroggs in any Kind of Restrictive institution. Hats off to Mom and Dad Scroggs for putting him there!... Also, you know that guy, ah, Phil Hardy? Well, somebody needs to wake that dude up and make him write a real dialogue!... Next week exclusive: A blow by blow newsflash of Monte Conner's search for a hair-piece that will groove with his current hairstyle. And we'll follow the infamous Megadon to the best comestible dwellings throughout the kingdom. Of course, we'll be taking beer on this trek.... We'll also take another look at that lost marriage from hell between Bill Fischer and Clarissa Garcia. Honestly, Clarissa! Couldn't you think of someone more hip than Bill to marry? Til next week.

Geordie Gillespie, Celluloid, 212-741-8310

Everybody should have the new Splatcats Lp, "Feelin' Bitchy" on their desks by now so make sure that you give them a big push! This is the kind of record that keeps alternative radio, alternative-college and commercial. Listen to "Claim To Fame". "Till December" (checkout the piano intro), and "Even Steven". If you haven't heard this Lp, give me a ring.

Paul Brown, Virgin, 212-463-0980

Coming soon, like the superheated breezes that blow out of West Texas, Rocky Hill produced by Bill Ham. "I Won't be Your Fool" ships real soon. Rocky's flash and panache is beautifully balanced by his feeling. This one will reach out and throttle you.... Also in the wings, a 12" from Feargal Sharkey entitled "If This Is Love". I think it's just beautiful and don't I feel foolish letting my gut instinct do my talking.... Also, a remixed version of "Body" from PiL. Turn it up and when you flock to see INXS, catch PiL as the opening act. You'll not forget the experience, I promise you.... Look at the statistics on "I Love The Things You Do To Me" from Balaam and The Angel, maybe that'll convince you. #1 most added LP 3 weeks running with some of the absolutely toughest stations in the country already on. This bad boy is primed to cross. If you can't recognize a hit by listening, check out the stats.... And speaking of hits, check out "Shattered Dreams" from Johnny Hates Jazz. Fifteen seconds is all it'll take to convince you.... Finally, one last thing. Read my lips. Ziggy Marley, Ziggy Marley, Ziggy Marley, Ziggy Marley, Ziggy Marley. "Tomorrow People". Later folks.

Phillip Hardy, Megaforce, 201-254-6533

Sometimes I don't know if I should laugh or cry when I think about Prophet and their single, "Sound Of A Breaking Heart".

On one phone line, I have someone telling me that the record is too heavy to be played, one phone line saying it sounds great on the radio, but only at 3:00 a.m., and one phone line saying that WEBN just moved the song into heavy rotation. What's wrong with this picture? Take a station like WAOR in South Bend. These people play 0% heavy metal/hard rock and Prophet's in there with no day parts. WAOR's Sue Frey has instructed me to tell the world to call her and she'll tell you about the virtues of this band politely. Her number is 616-683-5432. If you want to hear about why you should be playing this record in a more passionate way, please discourse on this subject with Ron Garrett at KRXQ, a man who is foaming at the mouth over this record. All these people and dozens and dozens more can't be wrong, so please, consider this record.... Also the Frehley's Comet 12" "Words Are Not Enough" is meeting with much more resistance than I can imagine. With such a built in fan-base, how can anyone pass up on this serious nighttime action record? Instant gratification on the phones guaranteed.... Last but not least (by any fuckin' means), is my love of life record by King's X. The single, "King", shipped Friday the 11th, please be on the lookout for this one, it's an absolute masterpiece.

Megadon, Combat, 718-740-5700

The Crumbsuckers interview requests are keeping me very busy lately. At their manager's request, I had to postpone interviews until they played their CBGB's gig. Well, that gig was yesterday, so now we'll get the ball rolling. The Crumbs are a real trip to interview. I don't think there is another band in the world as nice as the Crumbs.... Tigertailz interviews could be difficult, seeing as the band is based in London, but I'll see what we can do. I've got plenty of those Tigertailz rub-on tattoos you read about last week. If you want some to apply to that special someone in your life, you know who to call.... It seems rumors spread quickly in this industry.... A few short weeks ago I made mention to a few people that GLOW-wrestler "The California Doll" is pretty much the girl o' my dreams (except she's really stupid), with "Hollywood" of the tag-teamers "Hollywood And Vine" coming in a very close second. Anyway, word has gotten back to me already, and it seems some of you out there have heard I am actually dating the Doll. As much as I might wish it to be so, I am not going out with the California Doll! I've never even met the beautiful creature, but if I do. Oh my, the possibilities are endless, just as long as she refrains from going "doot-doot-doot-doot."

Victor Lentini, Passport, 818-500-7677

I had a great time in Dallas. Mark Davis, KDJK; Madd Max, Z-Rock; Greg Mull, WRXK; Carter Alan, WBCN; Mike Boyle, WDHA; Don/Tom, KLBj; Harve Alan, WCCC; Michael Cross, KJJO; Lorraine Rapp, WAQX; and Cerph, WBMW are all radio gods, party'ers, and just damn good people. Atlantic wins "suite of the year". Dallas is kinda, kinda, kinda neon.... Wild Seeds are still top priority. So fucking add the goddamn thing already and quit waiting for everybody else because you are everybody else. And if you add it, everybody can follow you see?

Bonnie Simmons, Hightone, 415-763-8500

In the Joe Department around here, Joe Louis Walker continues to gain airplay on "747" and "One Time Around" from the "The Gift". If you like your blues with a little more R&B flavor, take a listen to "Mama Didn't Raise No Fool" with Steve Berlin contributing, might be just the thing for April Fool's Day.... Our other Joe, Ely that is, has started his "Honky Tonk Angel Tour", a month of intimate shows in clubs throughout Texas, and should be starting a new record when he gets home.... The Robert Cray Band is still at work on their upcoming Lp; shouldn't be too long now.... I'm looking forward to seeing Midnight Oil this week at the Fillmore, can't get "Rev It Up" by Jerry Harrison out of my head, and also can't wait to hear the rest of "Viva Hate", Morrissey's new one.

John Schoenberger, Relativity, 213-212-0801

I must say that '88 has started off great! Everyone has been very high profile at the myriad of conventions, a lot of new acts are getting a genuine shot from most of you radio-types across

the country and most important of all, you definitely remembered how to BOOGIE! Now, it's time to SURF. That's right, "Surf With The Alien". You will see a full color "picture" CD of "Surfing With The Alien" anytime now along with a special customized ID Joe did expressly for you.... Be on the lookout for our advanced cassette of four key cuts from the forthcoming Dancing Hoods Lp, "Hallelujah Anyway". The key cut is "Baby's Got Rockets" and will be in CD single form by late March. This record deserves a good listen. We didn't steer you wrong on the Brandos and Satch, did we?... Congratulations to my good friend Randy Hock. A better VP there will never be.

Jim McKeon, RCA, 212-930-4309

It sure is great to be playing a record that's generating strong sales, isn't it! But what if you're not playing it? You know I'm speaking of Lita Ford. Life's not all that complex. Give the audience what they want. Over 100 AORS are banging Lita but sadly over 100 refuse to. We've sold 200,000 records thus far and have experienced top ten video requests on MTV for a solid month. So, if you're not playing what is selling, what are you playing? Do you really care what's selling in your market? You've got to appreciate (I certainly do) the recent additions at these great radio stations who are very plugged into their marketplace: KTXQ, WMMR, KSHE, WBAB, KOME, WQFM, WPHD, WIXV, WRKI and that's just in the last two weeks. After two months of progress and success, don't you think it's time to throw off the early attitudes that prevented you from playing Lita Ford, since the record has proven itself right and you to wrong! Records like this are really testing the credibility of album radio to the industry and it's important that we solve this problem, now!... Speaking of sales, the Love And Rockets project begins chapter two. On your desk is a two song CD featuring the very Floydian "Waiting For The Flood" (a song that Mark Chernoff hummed back to me over lunch) and "Mirror People" (a ferocious completely re-recorded version). As we approach 300,000 records sold and phase two of the American tour beginning April 14 in Washington DC, "No New Tale" was such a powerful hit that an immediate segue into "Flood/Mirror" should be logical and immediate. In other words: Play the sucker!... Finally let's yack about the little old band from Boston that PD's everywhere are raving about. "Treat Her Right". The facts: 1) KQRS; Power rotation after two weeks due to requests. 2) WMAD; Heavy rotation after one week due to requests. 3) KZEW; Immediate add out of the box after one test play due to requests. And there are more. There's nothing like this on the radio which makes for a format exclusive advantage and this is a working band who'll come visit you and play just about anywhere (long as it ain't too fancy). Treat Her Right, "I Think She Likes Me".

Don Kaye, Noise International, 212-334-9260

Drum roll, please! BRBRBRBRBRBRBRBRBROOMMMMMPPP!!! At last it's official: Noise International has signed a deal for United States distribution with Epic/CBS Records! Like, wow! We're all very excited about this development over here, as Noise will join the small yet noble group of indie labels who have linked up with majors without compromising the label's original thinking or sounds.... The first release through the new deal will be Voivod's "Dimension Hatross" on May 2, followed by "History Of A Time To Come" from Sabbath and then the "Doomsday News" compilation album.... First, before we get all carried away with all this wonderful stuff, we've got two releases which should be appearing in your mailbox just about now: The new Tankard and Vendetta Lps I've been talking about with everybody. Tankard's "Chemical Invasion" is like a heavier, more lethal Gang Green, while Vendetta are prime practitioners of that techno-thrash that bands like Destruction, Living Death, and Kreator do so well. Now add Vendetta to those ranks!... Continued thanks to everyone for the Kreator support, let's keep it going and hopefully do the same for the new records.... Whoever does the best with Tankard, I'll have my secretary call yours and we'll do lunch.... In the meantime, sorry to hear about "Little" Richard Scroggs' collapse -- just another thing to blame on Kat. And of course, it's all Monte "F.J." Connors fault. Later.
