Todd Rundgren, "For The Want Of A Nail", WB....

"Nearly Human" has been declared one of his strongest offerings in eons. And this first track opens the album in superb fashion. After such production jaunts such as *The Pursuit Of Happiness*, it's spellbinding to hear Todd back in his own element. And now it appears that he'll be entering into the enviable category of "Appreciated Talent", rather than "Musician's Favorite", which often seems to be the resting ground for many a gifted artist. "Fidelity" has been counted as a potential single, and "Unloved Children" and "Can't Stop Running" are also mentioned as good tunz. On over 130 stations, and new this week at CHEZ, KRQU, KSJO, WEGR, WMAD, WRDU among others and increased at KDJK, KFMQ, KRIX, KWIC, WNGZ to name just some. WMDK's Mike Thomas comments, "Todd Rundgren's album is the closest thing he's done to 'Something Anything' in years! This is by far one of my favorite albums right now. We're playing 'Want Of A Nail' successfully in Medium so far..." On the Hard Hundred 24-17*, and Heavy players include KEZE, WAAF, WAQX, WDHA, WGIR, WRCN and WROV. It's also snagging Top Five phones at KKZX, WAAF, WDHA, WMFX, WRXK and WTPA.

MORE HARD ACTS

Tora Tora, "Walkin Shoes", A&M....

From the opening chords of "Love's A Bitch" (pass the Kleenex), you know this is gonna charbroil your eardrums faster than briquette and starter fluid. Much attention has been focused on Anthony Corder and his unique timber, something that you just gotta grab in the genetic wheel spin. And in other offerings the guitar work lines up behind Anthony and sizzles nonstop. Searching through their debut to get to the single, you'll find yourself confronted with some beastly amazing mierda. Even those "non-metal" types are finding it within themselves to say nice things about them. WQFM's Dan Hansen comments, "Hot spot this week has to be Tora Tora. The record sounds real good on the air and stacks up well against the rest of our playlist..." And Ty Banks over at KQWB warns, "Better duck, Tora Tora's gonna knock your block off. 'Walkin Shoes' captures the magic of Van Halen's debut... Wow!..." Adds from KEZE, KILO, KISS, KWHL, KZEW, WEGR and WQFM to name a few. Debuting on the HH at 95*.

Guadalcanal Diary, "Pretty Is As Pretty Does", Elektra....

If you're not easily seduced by a big backbeat, kind of like a lullabye, give this second track from "Flip Flop" an audition and stand back! Plus that rippling guitar adds just the right edge to an excellent song that lends itself to endless segue scenarios. The slightly-askew and biting humor of "Always Saturday" maintains a solid thread in this song, and it's the perfect counterbalance to those T&A tunes so prevalent on the airwaves. Isn't this a lesson we should all heed? So, take a hint, present this at your next ears meeting and sit back. Deftly moving up on the Hard Hundred 100-93* with adds on KEYJ, KISW, KKTIX and WRQK. Already on at KBOY, KLBJ, KXRX, WHTG, WROV and dozens more. Murray and his boys are in the finest shape ever recorded so why deny them the core audience they so unashamedly deserve in their back pocket?

The Rainmakers, "Spend It On Love", Mercury....

Don't be fooled by all this bi-coastal rhetoric. There's a wee bit of acreage to be found between the yonder Atlantic and Pacific, with this band just one of the luminary talents rising from its expanses. They're building on a concrete foundation of last year's performance on both vinyl and stage and now it's time for everybody to help add on a story or two. Lin Brehmer at WXRT says, "We're very impressed with the new album by The Rainmakers. 'Spend It On Love' is a 'one listen' gem..." And the inimitable Tom Scheppeke of KISS asks, "Finally, the Rainmakers' 'Spend It On Love' goes on, but how did they miss 'Hoo Dee Hoo'? Get the fudge out!..." Along with KISS, new at KOZZ, KWHL, KXRX, WBCN, WLLZ, WMAD, WQFM and scads others. It comes in as one of this week's biggest movers at 65-51*. Not too trifling.

Warrant, "Heaven", Columbia....

Time for serving number two, and this is the little ballad that could. The emotion is pure sincerity, so don't wipe that shocked expression off your face. Hard rock dudes aren't incapable of waxing misty, and this is a prime slice of warm weather slow dancing for all to enjoy. "Dirty Rotten Filthy Stinking Rich" is rapidly reaching Gold, and pretty soon people will be tripping over each other for the words, "Well, we played them back when..." "Down Boys" was just the first of many radio rippers that still wait, like "32 Pennies" or "Big Talk", and for another ballad try "Sometime She Cries". WGIR's Karen Andersen Small says, "'Heaven' has multi-format hit written all over it. This is one of those records that you must get to before the CHR competition grabs a hold of it and burns it into crispy critters. 'Heaven' is going to be a giant summer ballad..." Besides Ms. Small, we've sampled reams of positive reactions too numerous to print. For now, let the data speak, 13 adds including KEZE, KISS, KQWB, WDHA and WLZR. Already over 20 stations and a mighty smokin HH Debut of 81*.

The Outfield, "My Paradise", Columbia....

"Play Deep" literally opened a field as big as anything Vet Stadium or Candlestick Park could offer to these gents. And nothing could close their contention as "Voices Of Babylon" took the #2 spot on the Hard Hundred earlier this year. But wait, there is much more to come. Well crafted songs are always in demand no matter the season or the traffic. When the smoke clears and the dust settles, the most obvious statement imaginable will be that this year's Outfield album is, without doubt, their best yet for radio. And this is the song to nail home those warm weather adds across the country. 15 new plays from KFMF, KGGO, KICT, KQDS, KSJO, KTYD, KZRR, WLWQ and WPLR and increases from KDJK, KFMH, KKAZ, KZOQ, WGIR and WWCT counts for a Hard Hundred move of 69-53*, one of this week's biggest movers.

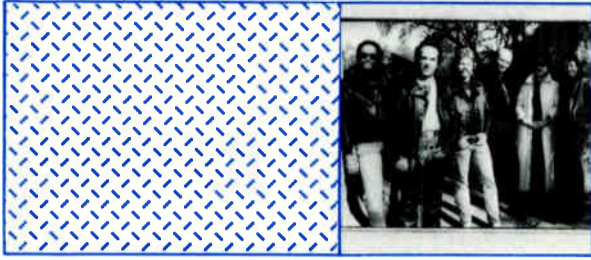

BulletBoys, "Smooth Up In Ya", WB....

These babes have been relentlessly tearing up stadiums with Winger and Cinderella as well as other pieces of real estate in their quest to plunder the youth of America. From the moment we heard this first single last year, we knew this was an act to be reckoned with in many ways. Since then, from trashed out Trenton clubs to concrete stadiums, the boys have been leaving the mark of their carefully groomed image on all who pass through the doors. And what follows during any successful show? An encore, so stand up and acknowledge this new L.A. powerhouse with what put them on the map in the first place. WNGZ's Dominick Milone says, "The BulletBoys' 'Smooth Up' was an easy add. You can't miss with this one the second time around. Put in another round and fire away..." Starting up on the first week of summer as Number Four Most Added with 21 stations, including KFMG, KISS, KISW, KRQR, KWHL, WCMF and WLAV this one reenters the HH at 87*.

Blue Rodeo, "Diamond Mine", Atlantic....

With the melancholy twang of folk and the more aggressive stance of rock, Blue Rodeo is preparing even now to cross a few borders, some political, some more subjective. For those of you in the Colonial states, these Canadians will be starting their mini U.S. tour on June 9 in Baltimore and will be in Atlanta, Boston and Philadelphia in the next couple weeks. Sounds cool, eh? Keep one ear pinned to your streets as they breeze through your community because they will shake things up wherever they go. They ought to wake up your senses like a gust of warm air after a day spent under an a/c vent. And warming up your audience to this new development for the Atlantic gang could only do your heart and your image good. KACV, KZAP, WHFS, WLAV and WVVV added it this week, joining company along with CFNY, CFOX, KBCO, KOTR, KTCL and mucho others for a Hard Hundred move of 93-84*.

Badlands, "Dreams In The Dark", Atlantic.... Hormones are surely raging for this newly blazing group, but at the quick, they're just a bunch of talented Joes with babe-ish looks as a bonus. For some reason, this may be the densest population of healthy hair follicles in the industry at present. And by the time you peruse these pages, the video will have already blasted the audiences of the nocturnal Headbangers Ball. When the mood suits the segue, try some of the quieter cuts like "Jade's Song". **WBCN's Carter Alan** states, "A surprising album from Badlands - it's very much in the mold of classic hard rock with out techno-boring guitar masturbation. Our Raw Power show is eating it up!"... And in other reaction highlights, **Joe Skare** at **KFMQ** observes it "blew out the phones on a test last week."... New at **KBOY, KILO, KQDS, KXFX** and **WDVE** and already on at **KAZY, KDJK, KNAC, KUPD, WQFM** and **KEZE**. You can all relax and take the rusty razor blades away from your greater arteries, the Hard Hundred debut has materialized at 91*.

10,000 Maniacs, "Trouble Me", Elektra.... Natalie Merchant and her mates have gotten some incredible "lip service" this past year as disc-philes recounted their favorite breakthrough artists. Now in the recent weeks past, an overwhelming amount of you have put your opinions where they count the most. 115 of you are voting with your airplay with that demonic "follow-up fever" nowhere to be found. Consistency is the prime word being used when comparing "In My Tribe" to "Blind Man's Zoo". **WMDK's Mike Thomas** covers the canvas and does some depth digging, "10,000 Maniacs are a top request for us! This album is pop oriented and will cross all formats and demographics. It's strong lyrically and the staff is all over it. "Trouble Me" and "Eat For Two" are our first selections for airplay."... Added at **KRQR, WGLF, WIMZ, WJXQ, WKLC** and **WWCT** and increased at **CHEZ, KBCO, KITS, WAAF, WBCN, WPLR** and lots more, bubba. And, most importantly, ringing loud and clear at **CHEZ, KRCK, WHDA** and **WMDK**, to name just a few. On the Hard Hundred, smartly sashaying up 29-25*.

Concrete Blonde, "God Is A Bullet", I.R.S.... You say that you missed those club dates last month? Kicking yourself in the briefs every other hour? Fret not, this band is not going to dematerialize. "Teaser" (as in the past mini-tour) means there's more to come, like some sort of aural appetizer designed to enhance the taste buds. Like the beat on "Roses Grow", they creep into your subconscious and won't let go. We've certainly had enough kudos about this band pass through our ears to fill a score of bios, and it still doesn't seem enough. The "Night" side offers some correspondingly sinister and deceptively placid tunes. Call it a form of day parting, or what you will, but at least get it on the air. This week, new at **KEYJ, KKEG, KRQU** and **WRKI** and spinning in Heavy at **KACV, KOTR, KRCK, KROQ, KTCL** and tons more. Cruising the Hard Hundred at 50-45*.

Fabulous Thunderbirds, "Knock Yourself Out", Epic.... This may be the season of the Vaughans. Siblings and instrument sharers **Stevie Ray** and **Jimmie** are both serving up platters for our insatiable appetites and it's about time. Since **Stevie's** been given ample space already in this ish, this is for the latter picker, **Jimmie**. Given the past performance of "Powerful Stuff" from **Cocktail**, the smash of last summer, the T-Birds are in prime position to sweep with the second track to the album of familiar name, "Powerful Stuff". **Tom Schepke** down at **KISS** takes the color in his best **Howard Cosell** impersonation, "'Knock Yourself Out' is a 4:31 KO punch! Texas automatic."... Unbuh-leeb-able. Cut to the action in its first official week from **KEZE, KEZO, KISS, KNCN, KRQU, KTXQ, WDHA** in the Add slot, stack that with existing play by **KLBJ, KMOD** and **WLAV** and it'll be up there neck and neck with other chartmates in weeks to come, starting with a Hard Hundred this week at 99*.

Jeff Healey Band, "Roadhouse Blues", Arista.... Several contenders in our data files can contest to the visibility-boosting power of "The Soundtrack". That other **Swayze** film's accompanying disc has gone platinum so many times they've stopped counting, and the media blitz on this vehicle never ceases to amaze. And who's up there with a name on the credits? Our own **Mr. Healey**, who just last summer was barely being introduced to industry types. "Angel Eyes", "Confidence Man" and "See The Light" all chalked up some serious charts runs, taking the uninitiated by surprise, and the shell shock still registers whenever this man picks up a six string. His solo album kicks with the ferocity of weasels on the scent of something yummy. And you know this is the type of material that won't roll over and go stiff anytime before the next century. On at **KFMX, KRZZ, WFYV, WQFM** and others with Heavy/Power play from **KBCO, KFMH, KLBJ, KOME, WHCN, WPLR** and **WXRC**. Programmers are giving this a close look, so that current HH standing of 41-33* will quicken pace next week.

Whatever you've heard about the band is true. These guys are incredible live. They put on an energetic show with music to match. It's so hard to decide which track should be the next single. I wanna play them all!

John Amberg, WKRR, Greensboro

King Swamp strikes me as sort of a drinking man's INXS, slick and raw at the same time. One of life's great pleasures is to hear "Is This Love" thundering through your car speakers with the windows down and your foot to the floor. Summertime records don't come any hotter. . . .

ON DECK

With
Mike Marrone

For the second consecutive year the East Coast has skipped the clear crisp air of Spring, and plunged directly into the super humid stickiness of August. Now tell us that the Greenhouse Effect isn't real!.... In a related note, "From The Greenhouse" by Crack The Sky has spent quite a while on the HH (currently #54), and this Grudge Records return for John Palumbo's band may have sent some of you in search of their back catalog. If so, Grand Slamm Records is about to make your quest a whole lot easier with the release of "Best Of Crack The Sky". It includes 12 selections culled from all 5 of the band's Lifesong Records releases (remember Henry Gross?!?). The set is due in early July, and if you need more info Brian McEvoy is the man to call at (609) 845-6398. While you've got him on the line ask about the upcoming re-issue of the first Gary Moore album, featuring Phil Lynott. Grand Slamm is a great little label with a very interesting catalog, including a dynamite best of Thin Lizzy called "Lizzy Lives", "The Best Of The Dixie Dregs" and the long sought after debut album from White Lion called "Fight To Survive". Just think, one call could fill a gap in any station library.... While we're on the re-issue subject, Grudge Records are getting ready to ship Roy Orbison's "The Original". This is a collection of "The Voice's" seminal Sun Records recordings, and will consist of material originally released in the years 1956-58. Long out of print in this country, it's great that this piece of history will be available again.... Some history will be in the making this Summer with the Who's tour already the hardest ticket to come by. Although there will be no new Who record per se, the soon to be released Pete Townshend solo album will more than suffice. A modern song cycle along the lines of the almost twenty year old (!) "Tommy", Atlantic Records will start radio off with an advance track called "A Friend Is A Friend" very shortly. The album will be titled "The Iron Man", and is based on Ted Hughes' children's story of the same name. It will include two songs performed by the Who, "Dig"

and a cover of Arthur Brown's "Fire". Both of these tunes will be included in the band's live set, and are sure to get maximum air exposure as soon as they're available. One song title on the album that needs to be leaked is "I Eat Heavy Metal", sung by the one and only John Lee Hooker!.... As deadline approached, the news that Big Country have decided to call it a day arrived. It seems that the band recently lost some 200,000 pounds (approx. \$400,000) on their "goodwill" trip to Russia. As Stewart Adamson admitted, "We're stoney broke thanks to glasnost!" The band has been on a farewell tour of England, but Adamson's health problems have also flared up causing some dates to be canceled. This news is very upsetting to this office, as we couldn't name a nicer bunch of guys. Big Country were a delight when they visited the Hard Cabin a while back, and all our fingers are crossed that they get their financial problems solved, and most importantly their health back soon.... Geffen Records are following XTC's very successful "Mayor Of Simpleton" with another beauty from "Oranges And Lemons"--- "King For A Day". The album is the band's tenth, and best selling ever with over 400,000 units already in consumers hands. Andy and Colin proved to be one of the easiest and best interviews ever, and that four page spread of a few months ago was one of supreme personal enjoyment. Their sparkling personality has also been causing a stir on the promotional circuit with Tower Records in-store appearances drawing record crowds, and live radio performances garnering ecstatic reviews. One of the best ever British imports seems to have finally cracked the nut in this country, and radio should continue the momentum with the brilliant "King For A Day".... Gifted Canadian Andrew Cash returns with his second Island Records release, "Boomtown". Andrew was the first ever Canadian artist signed to Island, and this year's model is head and shoulders better than his promising debut. The main reason is the involvement of "the God-like genius" of Don

Dixon. Don set the band up at his favorite studio, Reflection Sound in Charlotte, and recorded the whole thing live. It's a terrific record that will once again display that Island Records knows how to spot great talent. The song "What Am I Gonna Do With These Hands" is stunning, and the wonderful Marti Jones joins in on vocal support. Actually there's not a clinker on the whole album, but "Hands" will stand out immediately for airplay.... As you're probably aware of, RCA Records is the new home of the Hoodoo Gurus, and July will mark the release of the band's Nipper debut. The album bears the cute and catchy moniker "Magnum Cum Louder", and even if it's only half as good as their previous work, it will shatter most anything currently on the dial. This Australian powerhouse have long been superstars in the minds of many, and the feeling from RCA's version of Batman and Robin (Sutter & Sigler), is that this is the one to break The Gurus in the USA.... Also just out from RCA is the second longplayer from Buster Poindexter, "Buster Goes Berserk". The alter ego of David Johansen has delivered what might wind up the party record of the Summer. Hard to believe that this is the same guy that sported pumps and a dress, spitting out youth angst like "Pills" and "Personality Crisis", but whatever works, right?.... Not much has been working right in the Bronx, and as predicted here last week the clock ran out on Tommy John. It's sad to see him go, because he truly is one of the classiest individuals to ever pull on the pinstripes. At 46 it looks as if his dream of 300 wins may never happen, but it would be foolish to bet against anything when dealing with a competitor of his magnitude. Mattingly is really starting to sting the ball, but The Yankees as a whole have been way too inconsistent to get any kind of an extended win streak going. Whatever you do, don't count out J.B.'s Orioles. They're a hungry bunch, and have the makings of a legit contender in the woeful AL East.... Until next week, remember to keep your ears open.

NOISEMAKERS OF THE WEEK

WNEW/New York resolves that lingering PD vacancy with the news, long rumored, that Dave Logan has been signed as PD. The people in Gotham have been slamming off the walls about this change for some time now and we are glad to announce that one of premiere programming talents in the country has secured the post. Dave was instrumental in the Abrams Superstar II permutation that fueled his long association with KFOG/San Francisco and, generally speaking, he is seen as one of the finest "thinking PDs" on the scene today. When we got a chance to talk to Ted Utz about his new associate he told us, "Dave Logan brings the experience and style that I feel is essential when it comes to representing WNEW-FM. His track record speaks for itself. I'm happy that we found somebody as strong as Dave." The rollcall of hopefuls was long but, according to Utz, "Dave's experience placed him head and shoulders above the other candidates. Working with the Loop during its "Disco Demolition" heyday and programming WLAV into one of the Midwest's prominent radio stations, his work with Lee Abrams all show a very keen understanding of what the essence of this format is all about." What about Ted's long time assertion that you had to be from the region to understand and program WNEW? "I think this is an exception due to the fact that my background is purely programming and I grew up here and I'm looking for Dave to come in and be a part of the entire management team." As for any other shakedown, "Any and all changes have already been made in regard to the music department, our music philosophy is in place at this time. All those rumors about slashing the library in half were all just guesstimates by people who really had nothing better to talk about. That's simply not the case at all. This radio station has always and will always continue to have one of the deepest libraries in the nation. We are going to embrace new acts and live on the tradition that has built the WNEW legacy."

KLOL/Houston PD Ed Levine has taken our collective breath away with the word that he is on the road back East. That's right. The Snake is about to hop a plane for the land of muggy Summers and the PD job at one of the East coast Infinity properties. Surprising to note that the deal went down with the one company in America that we thought would never work with Ed given his much publicized fracas with Howard Stern. But in the end, talent will always win out. The exact station in question won't be revealed until early next week and we'll never tell, (unless you've got a five spot with our name on it). The move comes as something of a surprise given the upturn in numbers at KLOL and the general feeling that the KLOL staff has really started to make progress under Ed's tutelage. But that's the way the guy always leaves a station, doing well and getting better. The way we understand it, Ed was one of the top candidates for the Infinity job in New York and while Mark Chernoff ultimately got that position, Ed so impressed the powers that be that he was instantly offered a prime position a sister station on the East coast. More next week, of course.

KROQ/Los Angeles has been reverberating to the news that Rick is back! At any rate, that is the hottest ticket in town on the gossip go round this week. Talk had been gathering steam lately in the market that Rick and certain members of the Infinity power elite had been in conversation about a continuing role for himself at the station. Now the word is that Rick has been seen in the building and that a staff meeting this week made the announcement that Rick would, indeed, be the on call music consultant to the station. Calls to the team at KROQ and Mr. Carroll went unanswered at deadline but we think the story comes from sources credible enough to risk a little print. Life has never been more exciting.

KFMQ/Lincoln has acquired Gabe Baptiste as their new Operations Manager, following much speculation to that effect in Noise last week. Gabe is near perfect for the post with his deep background in corporate broadcasting and his take-no-prisoners attitude. A denison of the Midwest before nabbing jobs in Miami and Denver, Gabe brings a wealth of major market experience to the table. At this time, what comes to mind for the Gabester, "If the Cubs could just stay in first place it would be the first time since 1945. Now that's real news" Looking over the turf, Gabe sees a strong position getting stronger, "We have the heritage in the market with 18 years in the format and we intend to use it to our advantage." How did the job come about, "They must have found my tape in an old file 'cause the last time I applied at the station was 1975. All I can say is they took their damn sweet time about it." When we asked him how the AOR climate had change since his departure at KBPI we got the answer we hoped for, "There is a lot better music to work with. The stuff coming out right now is really in tune with America and I'm very excited about it. It could just be me, but the music coming out reminds me of when I got into radio back in 1974. Now, whether it has the same effect remains to be seen. There is this certain energy happening that really excites me." Any specifics? Some of the releases I brought with me in my journey through the hinterland included The Cult and the Doobles and they are remarkable albums. The first side of the Cult album is incredibly strong." Any thought about his return to active duty? "Well, Logan and I were out the same week so it must be some sort of cyclical action in motion. Besides, I told my psychic that if the Cubs stayed in first place I'd get a job where I could mouth off about them." It must be kismet in Cubland.

CHRYSALIS COUNTDOWN

As discussed out West during the Bowling Party, so it shall be. Word out of the House that Bone built is that the new AOR/Video Promo King is none other than **Steve Schnur**. Steve spent the last five years at **Elektra** where he held various positions including, most recently, the top Video Promotion job in the company. In that capacity he spearheaded the success of acts like **10,000 Maniacs**, **The Sugarcubes**, **Tracy Chapman** and **Metallica**. "We broke bands on that level and proved the worth of video as a solid promotional tool." Given the "big win" atmosphere at **Elektra** these days, why the move? "**Tom Gorman** has a real belief in video and wants to move that aspect of our efforts up to a par with other formats of promotion. He also knew that I missed radio terribly so this change came as a natural one." The gameplan is as follows, "I have already hired **Suzanne Olsson** from **Elektra** with whom I have worked before and now we intend to establish a credible and efficient video promotion arm for the label. We will then use video to lay down a base and break bands from the grassroots up." How does Steve measure the climate as he steps off into this new and fascinating world? "The potential to break bands out of AOR is incredible right now and the list of AOR bands on **Chrysalis** is equally amazing." In other news, we hear that longtime DC guy for the label **Neal Lasher** has exited and can be reached at (202) 462-7228. People interested in the opening should direct their inquiries to **Tom Gorman** ASAP. As for other staff shakings, **Greg Thompson**

↑ **Greg Thompson**

SBK CAUSE AND EFFECT

As the dominos continue to tumble along the halls of numerous record companies, we track the announcement of **Ken Lane** joining **SBK** as Director of National Singles Promotion for the group. Ken had formerly held the same position at **Chrysalis** since March of last year and had spent time at **Lorimar** and **Z100** previous to getting in the trenches. In making the announcement **Daniel Glass** told Noise, "He learned from the best while in radio and now has applied his talent at developing music in a very competitive format."

↑ **Ken Lane**

↑ What do you do when you get stomped by a guy like **George Bush**? How do you ooze back into the public eye when the whole world is laughing about what an uptight lump of wood you turned out to be? Of course, you pose with **Columbia** recording artists **New Kids On The Block** to announce a day in their honor. **The Duke** is also available to preside at shopping mall openings and pet parades for a nominal fee.

↑ **Skid Row** continues to be one of the big success stories this year for the gang at **Atlantic** and with good reason. The band simply can not be stopped and here we have photographic proof as the band and various heavies at **Atlantic** gather for some smiley smile to celebrate their **Gold** certification.

ELEKTRA ELEVATIONS

Among the many changes in structure over at Elektra look for a move out West as Phil Poulos shifts his emphasis from CHR to AOR. Phil is a bundle of energy and one very effective player, (even if he is the only living human I know who is willing to bet against the Lakers), and his move to Rock is bound to net big returns for the firm. We are also glad to report the promotion of one of our favorite people in the concrete canyons of New York. Sue Stillwagon, long a life saving, miracle working, Madonna with a phone, has been justly raised to National Album Radio Promotion Coordinator at the label. Sue has been keeping us momentarily sane since joining the label in 1986 and we have never found her to be anything less than completely helpful on all occasions. Linde Thurman, Sue's counterpart out in California, has also been promoted to a similar position with the label. Congrats to all concerned.

↑ **MCA Records** and **Fine Young Cannibals** shown spreading the wealth of their recent Platinum certification for the album, "The Raw and The Cooked". Shown making the presentation to the band is MCA President Al Teller.

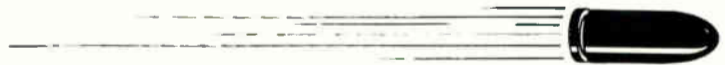

↑ **The Boston Music Awards** saw fit to bestow the "Outstanding Local Band" crown this year to **Slash** recording artists **The Zulus**. Here the band receives their goodies from **Tom Anderson** on the far left and **Benjamin Orr** on the far right.

YESKEL CHANGES

Staff realignments continue at **AIM Marketing** with word that **David Perl** has departed for a local post with **A&M**. This follows the move by **Kim White** to **EMI's** Alternative team and continues the infusion of fresh blood at the company. New to the line-up are **Stephanie Barsamian**, recently MD of **WSNI/Philadelphia**, who will be working **AC/Pop** promotion. Ditto **Greg Dubrow**, an ex-Marketing Rep for **A&M** who will be working **Alternative** and **Phil Hardy**, he of **Megaforce** fame, who will be handling **AOR** promotion for the time being. "I feel like we have become the farm team for the majors. That means we lose some talented people like **Kim** and **David** but it's also very flattering", said **Paul Yeskel** while splitting a magnun of **Dom** with us out by the pool, "Also, look for us to make some moves that will reposition the organization for the future." The phone buzz on that little tidbit has the company getting revved for a foray into the **Heavy Metal** promotional field that is currently doing such land office business.

THE RADIO RUMBLE

KSJO/San Jose ties the knot with their new morning guy Lamont Hollywood, last heard at 92Rock/Winnipeg. Lamont signs on this week and we are looking forward to more fun and games as the market gets serious about those warm weather months to come. The familiar voice holding down the shift while Lamont unpacked his bags belonged to longtime market vet Dana Jang.

KATS/Yakima is shopping for some new air talent. The station is looking for someone with a Top-40 background who wants to crossover into the world of rock and roll. Interested candidates should get their best in action ASAP.

↑ **KGON/Portland** gassed their listeners to the tune of 50 cents a gallon when the impact of rising prices at the pump started a local growl of protest. The custom KGON overalls are now regulation wear for all broadcast executives with the company.

WTXK/Pensacola PD Steve Smith announces his departure from the station effective June 2nd. Steve has decided, in a truly logical move, to become a canoe and kayak instructor at a camp in Maine for the Summer. Fear not, Steve intends to get back in the biz in the Fall after some much needed down time. Steve can be reached at (207) 465-2216. No word has surfaced back home about his replacement at this time.

KRRX/Seattle broke a few records last week with their seven live broadcasts from the heart of the Soviet Union. This could be another first for the Northwest stars, as no other rock station in America has ever used the Soviet Union as a remote site. Locals were amazed by use of the word "Baby" in casual conversation and we understand that the support staff was running amok with the bluejean black market. Kudos go out to engineer Don Winget for keeping all the ducks in a row during this historic week of broadcasts.

↑ **WIXV/Savannah** showing the colors with their I-95 Kazoo Band.

KFOG/San Francisco settles their long standing MD gap with an in-house promotion this week. The move sees M. Dung getting upped to MD while continuing his "hoo-ya" afternoon drive shift. Dung can be reached on Monday and Tuesday from 10-2pm only.

↑ The **Concrete Blonde** show at the Axis in Boston brought out the local luminaries to sample the latest album from this potent quartet. Shown in the crowd are Strawberries' **Michael Evans**, I.R.S. tagteamers **Derek Graham** and **Karen Lee** and WBCN's **Bill Abbott**. Do these I.R.S. types know which way the camera is facing or what?

KZEW/Dallas is now the center of much speculation about Dale Kelly's replacement. While we can imagine that the T&R stack is piling up massively, the chances are that an in-house promotion may see someone already on site getting the top spot. Talk on the street is hug on this one and with good reason. This would make a half a dozen PD's in two years. By any standard, a ton of turnover.

WRKI/Danbury PD Ray Graham is the source of some deadline dithering this week as we have heard that Ray's boss has informed certain trades that he is shopping for a new PD. We can neither confirm nor deny at press time but Ray has been a fixture at the station for many a year now and his impending departure comes as a bit of the shock.

↑ **WLLZ/Detroit** morning bullpen **Jim Johnson** and **George Baier** getting organ tips, (now cut that out, I mean, er, uhm... oh forget it), from baseball great **Denny McLain**. Denny showed the guys how a good organist can really make a difference at a ballgame. Namely by unplugging the damn thing.

KATT/Oklahoma took the recent 30 Second Silence Strike heard at thousands of stations one step further with a three way link-up in their market. Setting aside all format and competitive considerations, the station joined with **KJYO** and **KRXO** to simulcast their involvement in the event. The result was a rare three way talent pool that saw the morning shows of those stations getting together and hammering home the point of the campaign. Or as PD **Scott Douglas** told us, "We discussed the pros and cons of participating in the program because thirty seconds of radio silence is a really long time. We agreed that if the point was to be made, it should be made by the market leaders and it should be made together." No death threats resulted from the unique talent tag team approach to the concept. In fact, the talents involved seemed to enjoy the experience.

KROQ/Los Angeles secured Mike Bell as their new Production Director after seven months as Production Assistant and weekend air talent. Mike had been a fixture in Seattle for a number of years with time spent notching production at KISW, KUBE and KPLZ. His addition to the fulltime studio of shame is a vote of confidence for his well developed chops. I have heard his work in the Emerald City and he is a top flight talent.

← **KMJX/Little Rock** shown here welcoming Henry Lee Summer during a recent show stop. With HLS is Casey Jones and David Allen Ross along with their intrepid front desk denison Laura Sifford.

KQDS/Duluth sees a new face step in for their midday duty this week. The latest name on the roster is Jeff France who has joined for more fun and games than the legal limit provides in most states.

KLOL/Houston steps into the future with their interactive phone network and the results have been very encouraging. The net has proven a positive boon to Sales, Promotion and Programming departments. The key is to make use of special software written for radio's needs and the result has been a tremendous reaction on the part of the public. Great for cross-promote vehicles and building good will, the whole program has proven a worthy investment, (it ain't cheap), for the team in Houston. For more information give Promotions Director Doug Harris a call. This guy believes.

↑ **KBCO/Boulder** APD Doug Clifton shown with his arms full of Reprise' Nancy Levin and Tanita Tikaram during a recent visit to the station.

PICKS

Bullet Lavolta "The Gift" (Taang!)

Sure, you've heard every punk band this side of the equator... already traveled that route. Many recall the glory days of rock reawakened in the form of the Pistols, The Clash, VU, New York Dolls, Ramones, Black Flag, Minor Threat, Mission Of Burma, DK's, Circle Jerks or AC/DC. Somewhere along the line a

post modern/new and improved movement of posers and poofs re-interpreted those lofty musical ideals by draining the energy and emotion into neat, quick-fix musical ditties. The area where art and free expression became fueled by a monetary agenda is hard to pinpoint, but those true to the idea of *New Music* can still turn to an active underground scene brewing with excitement. You simply have to dig a little deeper to hit paydirt. Now dig this. "The Gift" is the first album from Bullet Lavolta, a record that redefines the strength and direction of hard rock as we know it. They combine all the rebellious reasons you listen to the stuff in the first place, and update those styles by cranking out beat-driven power chords that bombard you with melody and distortion. The familiar tried and true influences (garage punk, glam, metal and noise rebellion) fight it out at a furious pace and never challenge the band's integrity. Kenny Chambers (also in Moving Targets) and Clay Tarver build a dense wall of guitar noise and crash through it with rhythmic bar chords and the solid, thunderous percussive edge formed by bassist Bill Whelan and Chris Guttmacher on drums. This aural assault provides the perfect backdrop for Kurt Davis aka Yukki Gipe's fiery presence to draw on the lyrical angst that instantly becomes his weapon of choice on stage. He holds onlookers captive with a mad glare and manic outbursts, while the band indulges itself in a turbulent clash of music and vocals. Bullet Lavolta puts you in a dreamy, adrenalin state where mind-bending urgency rules. Forget relaxation and key into rapid-fire rock guaranteed to rekindle your interest. The militant tone of "X Fire", "Underground Well" and "Chalkdust" changes into a steady groove in "Little Tiny Pieces" and "One Room Down". A torrid descent into the darkness of "Birth Of Death" is redeemed by the ringing quality of "Mother Messiah", "The Gift" and the fist-raising chants in "Trapdoor". Todd Phillips has replaced Chris on the skins, but the band is still more explosive than ever live. See them play no matter what and talk to Taang! Records: 617-527-1647.

New Releases

Morrissey's new single (heard that before?) is titled "Interesting Drug", new this week from Reprise Records. The band is comprised of three ex-Smiths, Andy Rourke, Mike Joyce and Morrissey with Craig Gannon and Neal Taylor on guitars. The three song 12" includes "Such A Little Thing Makes A Big Difference" and "Sweet And Tender Hooligan", plus Kirsty MacColl sings backing vocals. Once a fan, always a fan me thinks. Stephen's consistency and signature style keeps reworking itself against airy acoustics and slender electric strings that cradle his soaring vocals. Eight reporting stations have already laid claim to the import: WBER, WBRU, KJQN, KRCK, KROQ, WFNX, WHTG and WKPX.... A special servicing of the **Something Happens!** album, "Been There, Seen That, Done That" is now underway. It's only available on Virgin/Import right now and Second Vision is overseeing promotion (212-334-9260). Ireland is firmly established on the pop front now that U2, Hothouse Flowers, Sinéad and The Pogues have left their mark on the international scene. **Something Happens!** has been churning out monster-sized melodies since 1985, and this import will hopefully introduce the band prior to a major campaign stateside. They call to mind the Sandmen on first listen, but the music has a softer focus and flows along a series of lightly treated guitar patterns and then surges with unexpected passion. Produced by Tommy Erdelyi except for two tracks by Vic Maile (godstar), the songs are distinct, varied and showcase a promising new batch of performers. "Beach" is the current emphasis track, but "Take This With You" immediately claims its place in the forefront. Other gems include "Give It Away" and "Tall Girls Club", for moody, unpretentious pop that stands alone behind Tom's resonant vocals.... The Keystone State's **Original Sins** have released their second album, "The Hardest Way". More of the neo-classic garage sounds heard on the debut can be found here in a crispy-hot new song line up. The tin-echo of drums and a Dan McKinney's roaming rink-style keyboards provide an element of reckless fun to this runaway band with a four-chord fixation. Take the bar-band mentality and boost up the volume to ten, pump it, grind it and turn the songs into a minimalist's rock dream. Get ready to bop with "You Can't Touch Me", "Heard It All Before", "Can't Get Over You" and "The Hardest Way". Will someone please offer these guys a movie contract? Contact Psonik Records, P.O. Box 2727, Lehigh Valley, PA 18001 (215-435-1669).... How can you discount a band that thanks "...all who come to our shows and do not spit" on the inner sleeve of an album? Seattle's **Walkabouts** come out of hiding with folk intentions that run a course all their own on "Cataract", the band's second release on Sub Pop Records. The band clamors about and somehow generates melodic order with definite but eclectic shades of rock

and pop. Vocals are shared by Chris Eckman and Carla Torgerson, who conjures images of Julie from the Divine Horsemen and Kim Longacre of the Reivers and this time the Walkabouts pursue less perfection and a more charming, ragged mix. It's a 180 degree turnaround for a band who originally sounded a bit too sterile on the debut. "Cataract" unravels a wide variety of slow-rockers with the spice of surprise. Jonathan Segal lends a Camper's hand on "Whereabouts Unknown", and establishes a celtic feel that permeates through the entire record. Radio's best bets are "Whiskey XXX", "Smokestack", "Long Black Veil", "Home As Found" and the hyper-strum action in "The Wicked Skipper", tailor-made for the college radio appreciation society.... Another record on the Sub Pop agenda is the noxious, acid-fusion from Tad on his album "God's Balls". Life isn't always a bucket o'fun. For an overdose of the dark side according to a rock'n'roll mad scientist, drop the needle on the razor sharp noise of "Sex God Missy (Lumberjack Mix)", "Cyanide Bath" or "Hollow Man" for a few nervous laughs. Escapism doesn't always mean a visit to your local theme park. Tad could send you to the moon if you're in the right frame of mind. Contact Sub Pop, P.O. Box 20645, Seattle, WA 98102.... Following the single "Out Of My Mind" is the debut album by **John Moore And The Expressway**, "Expressway Rising". This

ex-Jesus And Mary Chain guitarist is ready to hit head-on with the steamy intensity of songs like "Friends", as the pressure builds into a blaring chorus and tensely strummed guitars. Another outstanding choice is "One To Five", a countdown to the relationship dilemma that continually surfaces in his songs. The cassette and CD contain the additional tracks "Set It On Fire" and "Live From Death Row" for those must-have fans of the Expressway touch. You'll find it on Polydor Records, 810 Seventh Avenue, NY, NY 10019. One of these days... Maureen Tucker of Velvet Underground fame has released her third solo LP on 50 Mega Watts Records, titled "Life In Exile After Abdication". One of the members of New York's original underground music phenomenon returns to her craft as untainted and true to art as in the late 60's, welcoming long time friend Lou Reed to play on two tracks, "Hey Mersh!" and "Pale Blue Eyes", her favorite VU song. The album explores new sonic potential with the addition of Thurston Moore, Lee Ranaldo, Steve Shelley and Kim Gordon, who plays bass on most of the album. The song "Chase" is already buzzing about for its brash improvisation and free-form energy and "Andy", written in memory of the artist who helped form the Velvets is a stirring original she wrote just days after his death. Moe's collaboration with these fine players makes a historic musical statement on "Life In Exile...", for the quality and honesty of her songs to the creativity and form they contribute to her work. Make sure you own it: 50,000,000 Watts Records, 5721 E. Laguna Ave, Stuart, FL 34997-7828 (407-283-6195).

Chartstars

Mary My Hope is not a U.K. sensation, rather a promising band from the Atlanta area. But we won't be surprised to find this new band eating the British charts for lunch soon. "Museum" is their debut album on Silvertone/RCA Records, already praised a few weeks ago as a feature pick in this section. They pay tribute to psychedelia without getting caught up in a web of imitation, and inflict scorching guitar licks and wandering melodies into

an ambitious song line-up. Immediate radio reaction is already surrounding "Wildman Childman", "Suicide King" and "Communion", as the airplay tally reaches 20 stations and a 47* Airplay entry. WWVU's Patrick Ferrise muses, "This band has really grown on me. They go beyond the Jane's Addiction comparisons and we like the whole album!" WXCI's Greg Vegas adds, "This band covers lot of ground, breaking through on a hard rock level yet maintaining the arty stance appealing across the board. Our jocks were surprised and excited by this album." Kim Saade at WRAS admits, "This is my favorite new album on the home front. Sure they're local but this band is incredibly strong. When you hear the songs on this album you'll be amazed at how powerful they are!" We hope more programmers will join KRCK, KUCI, KUSF, KUNV, WBER, WBNY, WCDB, WFIT, WKPX, WMDK, WRAS, WRVU, WTSR, WXCI, KCRS, WWUH, WWVU and KUKQ in the coming weeks.... "Blind Man's Zoo", the new album from 10,000 Maniacs on Elektra Records is already a Top Three Alternative chartstar, mostly due to automatic response on the single, "Trouble Me" which is pushing Top 20 mainstream status at the moment. Now that programmers have spent time with the LP, here are a few observations: Mike Thomas at WMDK says, "The 10,000 Maniacs are a top request for us! This album is original, pop oriented and will cross all formats and demographics. It's lyrically strong and the staff is all over it." Anthony Musiala at WLRA is "The 10,000 Maniacs' biggest fan. It sounds like Natalie is shedding her innocence on this album, and she's moved into the adolescent songwriting stage. 'Trouble Me' is a totally different sound from anything else on the record. It's a lot more subtle than the rest of the songs. One of the best songs on the album is 'Dust Bowl Days' for its guitar arrangements and emotional content." Heavy airplay highlights include Live 105, KACV, KBCO, KRCK, WBCN, WBRU, WDRE, WFNX, WKPX, WKXL, WMDK, WNCS, WRAS, WXVX, KOTR, KTAO, KUCI, WFIT, WLRA, WRVU and WTSR.

How about a little mud, Honey? Are the Tom Tom Club's Tina Weymouth and the guys in Mudhoney exchanging fashion statements or beauty secrets? When cover art like this crosses your desk in the same week, one must consider it more than a parallel coincidence. Anyway you wash it, "Suboceana" by the Tom Tom Club (Sire) and "You Got It (Keep It Outta My Face)" by Mudhoney (Sub Pop) are two singles that should be booming on the air this summer.

Red Youth: Sonic Youth is back from a successful tour of Russia, the last leg of a six-month string of dates that took them to Australia, New Zealand, Japan and other countries in support of the album "Daydream Nation" on Blast First! Records. They are currently shooting a video for a special 12" release of "Candle", which also includes four brand new songs on the flip.

HEAVY HITTERS

Mr. Big, "Addicted To That Rush", Atlantic.... Superstar band #2 is now at the starting gate and ready to rock your face with all the fire-power that big name musicians like Billy Sheehan, Paul Gilbert (ex-Racer X), Pat Torpey (Plant, Impelliteri), and Eric Martin can offer up. And those in the know, have chosen by far one of the most dynamic tracks off the Lp, to pave their way into the hearts of Radio America and therefore onto the charts. The tune utilizes a great swaggerin' boogie, not unlike The Satchman's biggest hit to date, highlighted by several spotlight bass and guitar licks from Sheehan and Gilbert, (and anyone with a brain and/or even the smallest semblance of musical intelligence, can at least imagine how great they sound). Of course, Eric Martin has been a favorite vocalist of many, though he never gained the notoriety and level of success that he was probably aspiring to. That's already beginning to change, because the early buzz on this group alone, is enough to get them instant reaction from radio types across the country. Drummer Pat Torpey is rock solid, and shines on this one, proving that the guys out front aren't the only stars in this outfit. Once this track hits the air - it's all over with. Okay, so it's not your standard, formula-type, pop rock monster with lipstick marks on the inner sleeve... nope, uh-huh, it's something much "Bigger". No need to twist any arms to get this one on, I'm sure. So... just do it.

Tangier, "On The Line", Atco.... Philly rockers Doug Gordon (guitarist/songwriter), Bill Mattson (vocals), Gary Nutt (bass), Gari Saint (guitar), and Bobby Bender (drums) join the ever growing legion of area talent now finding homes with major label hitmakers. Tangier has been working the tri-state club circuit for many years, and has always been a good draw at the local hotspots. In fact, for as long as I can remember, there's been a really strong buzz on this band. One listen to the record will verify that all the street talk is justified, and that Atco has got themselves their Cinderella story. The lead track is immense, with a huge and biting chorus that rivals the catchiness of Hurricane's "Na Na Nas" in "I'm On To You". In fact, Mattson's vocals sound more than vaguely similar to Kelly Hansen's on a few occasions - and that as you might expect, is a good thing. Good, because Mattson has one of those deep and rough voices that maintains a powerful presence from first note to last. Add to that the overall sort of, kind of, Whitesnake-ish feel to the song - slow build, hard hitting chorus, good harmonies, and just a touch of that blues orientation we're hearing so much of these days, and you've got one of the most radio ready tunes out there. Never fear metal minds, even though there's a major push with this band on the AOR side of the street, Tangier has more than enough cutting bar chords to satisfy your metallic desires. I've heard from our Director of Music, Spike "Snap Crackle & Pop" Marrone, that the rest of the record rocks with a vengeance as well - and he should know. Philly rocks, don't you know?!

24-7 Spyz, "Harder Than You", In-Effect....

Three weeks or so ago, I had the pleasure of telling you all about this great new band from New York. I told you that I couldn't wait for y'all to hear it and play it. Unfortunately there was a major problem with shipping the record. Not so unfortunately, I get to tell you about these guys all over again. This fresh-sounding Bronx quartet has overcome serious adversity to become one of NYC's hottest local bands. What type of adversity? Well to start with, they're black... and as everybody knows, there aren't many successful all-black bands in the metal genre. But then again, their brand of music isn't exactly metal. To accurately describe their sound one would have to mix rap, metal, funk, hardcore, reggae, ska, hip hop, skate, jazz and boogie into a cohesive sound while retaining some degree of musical integrity and originality. Or, you could just listen for yourself. Something else that this band has had to work through was the near-fatal shooting of original drummer Kendu

on a Bronx street. Thankfully, he has since recovered, but he was replaced in the band by Anthony Johnson. The rest of the line-up consists of vocalist Peter Fluid, guitarist Jimi Hazel and bass man Rick Skatore. For you're listening pleasure, I advise you to check out, "Spyz' Dope", "Grandma Dynamite" and "Jungle Boogie". The latter being a cover of the hit by Kool And The Gang, who by the way, are playing at Six Flags Great Adventure in Jersey soon, wanna go? (J.L.)

Silent Rage, "Don't Touch Me There", RCA.... They changed their name to The Hunger for a little while, but now they are again using the moniker that first brought them recognition as the winners of KNAC's "Ten Best From The West" competition a couple of years ago. Silent Rage's brand of hook-laden power pop is not exactly a new sound, but it works well enough. The vocals of Jesse Damon, (the former Timmy James Reilly), show that big Coverdale influence that's in vogue right now so this band should do well on the radio. They're also a serious image band, which means they'll be pretty much a sure bet for massive MTV play as well. Early believers at metal radio include CHEZ, KPGA, KRSR, WARC, WGLS, WJUL and ARN who this week conspired to put the band into a tie for #4 Most Added Metal and 97 Underground (WHVY) and the Krusher reporting them in medium. So far the song of choice is the 12" "Rebel With A Cause" so for a goof you could always throw the original version from their "Shattered Hearts" Lp on the air and see what happens. Other gems from this Gene Simmons/Paul Sabu produced slab include "Runnin' On Love", "Tear Up The Night", "I'm On Fire" and "Touch Me". Also check out the cover of Electric Light Orchestra's "Can't Get Her Out Of My Head". (J.L.)

QUICK PICKS

White Lion, "Little Fighter", Atl..... Okay people, the moment of truth is here. The latest greatest single from the band that took America by storm and by video, has arrived. While it's important to realize that Mike, Vito, James and Greg are primarily an AOR and CHR package these days, it's also good to keep in mind that they got their start on metal radio - college and AOR blocks alike. So let's not be too hasty in writing them off as "too commercial". The first track from "Big Game" is this little rocker, which finely meshes the upbeat tempo and color of last year's "Tell Me" with the slow build and temperament of "Wait". Undeniably, Mike Tramp has one of the most easily distinguishable voices on the scene, and when combined with the impressive bag of guitar tricks that Vito Bratta continually pulls from, you get a sound that is totally their own. Oh, there may be comparisons thrown around here and there - but you can't accuse White Lion of sounding like anything but themselves. Their huge success with "Pride" was the culmination of over a year of touring, videos, press and promotion. And it looks like they're in for a repeat performance with "Big Game" and this, the first cut.

Trust, "Live! In Paris", Mega/Atl.... Throughout Europe this band has maintained a very healthy following and has enjoyed the fruits of a lengthy career on that side of the world (mucho platinum and gold Lps). Stateside however, it's another story. They are in fact virtually unknown on these shores, (actually they have a small but loyal underground following among import hounds), that is until now. The fine folks at Megaforce have released this live compilation of some of Trust's best known and loved European releases - for the perusal of the very fickle American audience. Most notable among the tracks is of course the original version of "Anti-Social" which was recently made famous by those mosh masters in Anthrax. The only catch is that all the songs are sung in French, ("Anti-Social" takes on a whole new existence like that), but if you're looking for a little spice in your playlist, this record has that certain je ne sais quoi! Also included on the record are "Paris By Night", "Death Instinct", "I Shall Return", "The Elite" and 8 more, plus "In The Name Of The Race" is a CD bonus track.

Suicidal Tendencies, "How Will I Laugh Tomorrow" 12", Epic.... This record has been out for one heck of a long time eh? The first 12"/emphasis track was "Trip At The Brain" b/w "Suisycho Mania" then the third installment of our Hard Hitters CD Sampler Series featured "The Miracle". After that came "Pledge Your Allegiance" b/w "Surf And Slam". Now we have a Tendencies 12" with four different versions of the same song... the title track from "How Will I Laugh Tomorrow... When I Can't Even Smile Today?". Side A features the Lp version and the video edit but Side B has a totally re-recorded acoustic version (a la Guns N'Roses' "Lies" perhaps?) and it's respective edit. The original recording is a Megadeth-ish cruncher with the usual array of grueling guitar lines and vocal melodies. The acoustic version comes off as a ballad. Complete with heartfelt vocals courtesy of Mike Muir. Guaranteed to get the phones hoppin'. (J.L.)

CHART AX-SHUN

Bang Tango, "Psycho Cafe", Mech/MCA.... Joe Leste and his band of marauders have hit the scene with a colorful splash, as they touched down on our chart a coupla weeks ago. And in the days since, they've nailed down a considerable amount of airplay on the likes of KNAC ("Someone To Love"), KBER, KFMG, KFMH, KISW, KOZZ, KPGA, KRCK, KRSR (Heavy), KTEC, WARC, WEOS, WHVY (Medium), WKNC, WPSU, WTPA, WXCT, ARN and Z-ROCK ("Attack Of Life") among others. The album is chock full of atmospheric, funky rockers like "Shotgun Man", "Love Injection", "Sweet Little Razor" and of course the two singles mentioned above. Also be sure to catch these guys live if you get the chance. This week the record enjoyed a comfortable 7 spot move up from 24-17* on Hard Hitters.

Annihilator, "Alice In Hell", Roadracer.... Response to this band has been increasing steadily over the last month or so and with the video due out next Saturday, there's no where to go but up. This week CHEZ, KCMU, KGRG, KISW, KJJO, KPGA, KSJS, KSVR, KTEC, KUNV, WAIF, WARC, WEOS, WHJY, WHVY, WJUL, WKPX, WLRA, WPSU, WTPA, WZMB and ARN all check in to pump Annihilator up to #10 Hard Hitters. Requests have also been through the roof and this week Jeff Waters, his red t-shirt, (endorsements, right Kathy?), and his band of merry Canadians hit #6 Most Requested Metal with phones melting at KJJO, KSJS, KSVR, KTEC, WEOS and WTPA. There was even an add reported this week from WXCT which only leads me to believe that still more people have yet to dive into this one. So if you haven't played this one yet, what are you waiting for? The Rob Lowe videotape??? (J.L.)

Sea Hags, "Sea Hags", Chrysalis.... The band that has supporters ranging from The Cult's Ian Astbury to Ratt's Stephen Percy, is riding a wave that's just beginning to build, with weeks to go before it crests. This week "Half The Way Valley" and other smokin' tracks like "Back To The Grind", "Three's A Charm" and "Miss Fortune" are finally puttin' some motion behind the Hags as they cruise 37-30* on Hard Hitters. So far their lookin' at good action on KNAC, KGRG, KOZZ, KRSR, KSVR, WGLS, WMMS, WTPA, WWUH, WZMB and Z-ROCK and more. Look for more action as they should be ready to hit the road in support of the LP real soon. They've already played some choice dates with great response, so be sure to check them out.

Black Ball

Black Sabbath's Tony Iommi and Cozy Powell recently played host on MTV's "Headbanger's Ball" and afterwards, found time to get cozy with some of the staffers. In the back row are MTV's Steve Leeds and Bruce Gillmer, Cozy Powell, Tony Iommi and I.R.S. Records' Karen Kelly. In the front row are MTV's Joe Perota, Frieda Sarahadi, Carol Donovan, Nancy McDonald and Greg Johnson.

PICTURES FROM THE KRUSHER

Newly signed Atlantic act Vicious Rumors played in Las Vegas a little while back and this was the scene after the show when they were met by Magic Alex and the Krusher welcoming committee. As always, Alex is identified in the photo as "the dude with the moustache".

Who's the guy with the black hair? Why it's Mark Slaughter (formerly of the Vinnie Vincent Invasion)! And here he is hanging out with KRSR's Bob Berzins and Magic Alex, Dana Strum and Dana's 4 1/2 foot inflatable love doll.

F.Y.I. - Andy "Panda" Ingkavet our man on the scene in the Big Apple - isn't, and therefore will not be seen on this channel this week. Seems the Wild One himself is sunning his limbs in the Bahamas (oh so lucky, that one). Andy returns next week with, I'm sure, some tall tales of his trip to what's left of Paradise and a hellacious tan - NOT FAIR! Such is life. C-Ya. -Chrisby

Paul Shaffer's "Coast To Coast" album has now been scheduled for release in August. Shaffer, the musical director for "Late Night With David Letterman," wanted to offer different American music "sounds" on the album, and he has tracks centering on the sounds of eight different U.S. cities. "The idea for the record was to capture a coast to coast party on vinyl," Shaffer says. "By concentrating on a few specific cities, I could pay tribute to the regional centers of rock, past and present."

Just as Tiffany toured shopping malls to promote herself, Big Bam Boo are planning a tour of the Hard Rock Cafes in the U.S. to promote their current album, "Fun Faith & Fairplay." The tour, which begins June 12, includes dates in San Francisco, Los Angeles, Houston, New Orleans and Chicago.

Previously unreleased material from Little Walter, Chuck Berry and Bo Diddley is included on a new compilation album, "Wrinkles: Classic & Rare Chess Instrumentals," coming out later this month. The LP and cassette version includes ten songs and there are 12 tracks on the CD. Several other Chess Records reissues are also coming out at the same time, including Muddy Waters' "Trouble No More/Singles 1955-1959," and Little Walter Jacobs' "The Best Of Little Walter, Volume Two."

Queen's new album is their first one in three years, but Freddie Mercury says the gap isn't due to personality conflicts between band members. "I think we know each other quite instinctively now, after all these years, and there wasn't anything like 'Oh, I want to go and further my career without you.' It wasn't that sort of thing," Mercury says. "We've been together now for about 18 years. If egos came into it, they would have done that a long time ago, and we would have gone our separate ways. It's just that after a while we get bored with each other and we need a bit of space." Queen won't be touring to support the album, as Mercury says he has no plans to play live this year.

The Traveling Wilburys won the Album Of The Year award at the first International Rock Awards held in New York. Guns N' Roses was named Artist Of The Year, while Living Colour was named Newcomer Of The Year. Elvis Costello won for Songwriter Of The Year, and the Amnesty International tour won an award for Tour Of The Year. The ceremony also named an all-star band of the year that included Madonna as lead female vocalist, Bono as lead male vocalist, Eric Clapton as guitarist, Sting as bass player, keyboards by Steve Winwood and drums from Phil Collins.

Bill Wyman is buying another restaurant, as a wedding present for his 18-year-old fiancée, Mandy Smith. He's buying a restaurant in Glasgow, Scotland, and he'll rename it Mandy's. His first restaurant, Sticky Fingers, opened in West London two weeks ago, and has been doing good business. "It's doing better than I ever dreamed," Wyman says. "We've been turning people away because there's just not enough room for them all. I'm sure we could do the same in Glasgow. It's a great city, full of trendy young people. And it would make a great wedding present for Mandy." The two are to be married at St. Mary's Church in London's Hyde Park on June 5.

Eleven W.A.S.P. fans were arrested when the band played in Belfast, Ireland. There was a riot as fans who did not have tickets tried to get into the show at the Ulster Hall. All 11 fans appeared in court the day after the show, and are scheduled to appear in court on June 20. By the way, in what seems like an unlikely pairing, W.A.S.P.'s Blackie Lawless has been dating British singer Julia Fordham.

A British musician has filed a legal action against Rick Astley claiming breach of contract. Drummer Patrick Ahern says he was booked to play in Astley's band as part of a tour and then dropped, causing damage to his career and professional reputation.

Deadringer will have their debut album, "Electrocution of The Heart," out later this month. The band includes former Alice Cooper band members Neil Smith and Dennis Dunaway, as well as founding Blue Oyster Cult member Joe Bouchard.

Former Echo & The Bunnymen singer Ian McCulloch will make a solo appearance at a show in Liverpool in July. Julian Cope, New Model Army, Hothouse Flowers, Icicle Works, Feargal Sharkey and Black are also on the bill for the Big Beat '89 show. McCulloch is working on a solo album for release

in September. He's been recording at the Eurythmics' studio in north London with Boris Williams of the Cure.

Former Orange Juice member Edwyn Collins has released his first solo album, "Hope And Despair." It was recorded with former bandmate Dennis Bovell in Cologne, West Germany, earlier this year. Roddy Frame of Aztec Camera also appears on the LP. Collins is planning to tour later this year.

Former Clash and Public Image Limited member Keith Levene has a new record out, with the Keith Levene's Violent Opposition as the name of his band. "Looking For Something" features Flea of the Red Hot Chili Peppers, and the other side of the single is a cover of Jimi Hendrix' "If Six Was Nine."

Elvis Costello, Stevie Wonder, George Michael and Bob Dylan are on the line-up for the 12-hour "Liberty Show" planned for Paris on June 25. The concert is part of observances of the French bicentennial and will also feature Rod Stewart, Tracy Chapman, Edie Brickell & The New Bohemians, Cyndi Lauper, the Gypsy Kings and Deon Estus. The concert will be broadcast in 50 different countries.

Richard O'Brien, the writer of the "Rocky Horror Picture Show," is the creator of a new promo video from Holly Johnson, the former lead singer of Frankie Goes To Hollywood. O'Brien, who played Riff Raff in "Rocky Horror" also makes a brief appearance in the clip for "Atomic City," which was directed by the man responsible for Michael Jackson's "Smooth Criminal." "Atomic City" is the third single in Britain to be pulled from Johnson's "Blast" album, which will be out in the U.S. later this month.

The Pet Shop Boys album with Liza Minelli has been completed, and includes covers of Tanita Tikaram's "Twist In My Sobriety," Yvonne Elliman's "Love Pains" and Stephen Sondheim's "Losing My Mind." It also includes Minelli's versions of the Pet Shop Boys' "Rent" and "Tonight Is Forever."

The new album from former Lone Justice lead singer Maria McKee features Lone Justice keyboardist Bruce Brody. The self-titled album was produced by Mitchell Froom, who has worked with Crowded House, Los Lobos and Richard Thompson. The ten songs on the album include Thompson's "Has He Got A Friend For Me?" and a song co-written with Robbie Robertson called "Nobody's Child."

Andrew Cash says he's very pleased at the way his new album, "Boomtown," came out, and he credits producer Don Dixon. "Dixon's a very likable guy and we hit it off immediately," Cash says. "I didn't want the sound of the band redefined." Cash says that when he began talking to Dixon about the new record "any other considerations as far as producers were concerned went out the window." Cash got married last month to Sandy Pandya in Regina.

UK MUSIC NEWS

At the time of going to press, **Planet Aid**, the concert organized by the United Nations in New York, was due to be held June 3rd featuring contributions globally from **Elton John** in London, **Midnight Oil** in Sydney, **Sting** in Rio De Janeiro and **Herbie Hancock** in New York as well as speeches made by world leaders and representatives. **Iggy Pop**, **LL Cool J.**, **Debbie Harry** and **The Ramones** are among the artists on a 'Spirit Of the Rainforest' charity single, released by Virgin of June 5th - World Environment Day. The single also features **Ringo Starr**, **Fleetwood Mac**, **Kim Wilde**, **XTC**, **Was Not Was**, **Little Steven**, **Belinda Carlisle**, **Sam Brown**, **David Gilmour**, **Richie Havens**, **Gilberto Gil** and **Olivia Newton John**. Like the **Band Aid** single and **USA For Africa**, it features different artists singing different lines, with the whole ensemble joining in on the chorus. Here in Britain, BBC television was due to show a documentary on the making of the single June 4th, the same day as the national rock and pop network, BBC Radio One plays two hour highlights for the BBC-2 network.

As "Shaking The Tree", the new single by **Youssou N'Dour** and **Peter Gabriel** picks up airplay here, N'Dour has announced his first album for Virgin Records, released this week. "The Lion", which features the single, was recorded in Paris, Dakar and **Peter Gabriel's** studio in Bath, south-west England. It was produced by **George Acogny** and most of its nine tracks are sung in Wolof, Youssou's native tongue. The artist from Senegal is planning to play his first British dates since the highly successful **Amnesty International Human Rights Now** tour of the would last year. A biography of this life "Hey You" was also due to be published this week in Britain by **Fineline Books**,

to coincide with the album. Gabriel and N'Dour are cover stars this week (June 3rd issue) of the "New Musical Express." N'Dour explains "Shaking The Tree" as a plea for women in his native Senegal to take more control over their lives: "The idea of the song is for women to take more control of their own destiny. We tried to work out something for both an African and western situation." On his growing popularity in the west, N'Dour says: "My music has evolved as I've evolved. I'm an African artist of a new generation, from Dakar, where ideas come from outside as well as from within. I've listened to a lot of pop music and worked with a lot of musicians: They've pulled me in other directions, given me new ideas. Now the young people of Senegal are evolving with me in an extraordinary way." His partner and friend, Peter Gabriel, has also announced the launch of his own label **Real World** this week. There will be five initial releases, including th soundtrack for **Martin Scorsese's** controversial "Last Temptation Of Christ", called "Passion." It's a largely an instrumental album featuring collaborations with N'Dour, Pakistan's **Nusrat Fateh Ali Khan**, **L. Shankar** and a group of English choirboys. Gabriel has worked on the record since the movie's release as he believes it "should stand up as a separate body of work." The album title comes from the working title of the film. "Passion Sources" is a compilation of music that inspired Gabriel's soundtrack, including **Baba Maal** from Senegal, Egyptian and Armenian folk music, Turkish flute and rhythms from Guinea and West Africa. The three other albums are **Nusrat Fateh Ali Khan's** "Shahen-Sha", "La Explosion Del Momento", by Cuban dance band **Orquesta Reve** and "Babeti Soukous" by **Tabu Ley**, the 159th album for the star in Zaire! All albums on **Real World** are distributed by **Virgin**.

The Castle Donnington Monsters Of Rock Festival in England has had the green light by local authorities to go ahead this year, after the event had been put into jeopardy following the death last year of two young fans, who were crushed to death. The deaths had been blamed on negligence by the promoter who had allegedly allowed too many people into an enclosed space which sloped downwards. A license was granted this year, after new safety measures were approved and under the condition that no more than 70,000 would be admitted. The promoters, Aimcarve, say they are disappointed at this condition and will appeal against it. Heavy metal festivals have generally had a bad name in recent years in Britain, because of the unruly behaviour of fans. As reported last week in this column, Donnington's main rival, Reading Rock, have this year decided to scrap their 15 year tradition of hard rock and are instead inviting groups like **The Sugarcubes**, **The House of Love** and **Billy Bragg** in the hope of attraction a more well behaved crowd.

Elvis Costello, Tracy Chapman, Edie Brickell And The New Bohemians, Bob Dylan and Rod Stewart are among the artists taking part in The Liberty Show to be held in Paris June 25th. The concert is to celebrate France's bicentennial and will run from midday to midnight local time, and will be transmitted to over 50 countries. It's the largest concert to be held in France, taking place at the Hippodrome De Vincennes. The show also features **Stevie Wonder, George Michael, The Gipsy Kings, Boris Grebenshikov and Deon Estus**. Meanwhile, the final lineup has been announced for **The Glastonbury Peace Festival**, a hip annual three day event in west England, with proceeds going to **The Campaign For Nuclear Disarmament**. This years lineup is: **The Waterboys, Throwing Muses, The Pixies, The Wonderstuff, All About Eve, Suzanne Vega, The Bhundu Boys, Van Morrison, Fairground Attraction, The Proclaimers, Hothouse Flowers, Donovan, Martin Stephenson, Youssou N'Dour, The Mahotella Queens, David Rudder and Lucinda Williams**.

**CAUGHT IN THE ACT - Deacon Blue:
Hammersmith Odeon, London, May 24**

It's been a year since I saw **Deacon Blue** as a lean, hungry group from Scotland, giving all they had at the small Town And Country Club, having just released their debut album, "Raintown." I'm happy to report they've lost none of that drive. While their success in America was immediate, fame in Britain has been creeping. It took a big realization and push from fans in their native Scotland to put their latest platter, "*When The World Knows Your Name*" straight to number one in the British album charts, selling 300,000 copies in ten days (the same amount as "*Raintown*" has now sold in a year). Now they can confidently stride into London and sell out three nights at The Hammersmith Odeon to absolutely ecstatic fans. **Deacon Blue** have hit the big time and they always looked like a band who needed and craved it. Most stunning about their performance is its energy and length - no support band just them for 2 1/2 hours plus! They are really an incredible double act between the twirling, Leaping, manic energy and beautiful vocals of **Lorraine MacIntosh** and the angular good loods and husky vocal of **Ricky Ross**. Together they provide the kind of showmanship that reminds you of **Bruce Springsteen**, or in Lorraine's case, her heroine **Maria Mckee** of **Lone Justice** (about whom they wrote "*Real Gone Kid*"). Having exhausted the entire contents of their two albums, "*Dignity*", "*When Will You Make My Telephone Ring*", "*Real Gone Kid*" and "*Fergus Sings The Blues*" were particularly splendid. They also tackled several impressive cover versions like an a capella version of **Bobby Gentry's "I'll Never Fall In Love Again"**. Their own songs were stretched out to the maximum with some enjoyable little monologues in the middle break. I was less impressed with the over-rehearsed in between song banter ("Hey how are you doing London, are we hot tonight? etc.) but this was a small complaint about a band who seemed destined to be entertaining big audiences and leaving them with the warmest glow, since its inception. Highly recommended live.

June 2, 1989

Lin Brehmer, WXRT, Chicago

Andy Partridge, Colin Moulding and Dave Gregory were sitting in our studio performing live on the air for nearly an hour. We sat entranced by a rare event that lived up to our giddy anticipation. Special thanks to Starvin' Marvin and Mark Kates for their help in staging this exciting episode. Just another great day in WXRT's history.... The **Neville Brothers** live at the Navy Pier Ballroom. Sun-splashed clouds and sails in the lake billowed around us. 4,000 enchanted listeners danced across the ballroom floor as **The Nevilles** were forced into more encores than I could count. Oh lord, what a party! What a band! Have you heard any of the new **BoDeans** record?... We're talking the most important new record this summer. First cut, first side is a hit song as in Top 40 stations will probably nail it before an embarrassing number of album stations. How often do you get to bank on a young and hungry band coming off two exceptional albums? Right. Maybe twice a year. **The BoDeans**. It's destiny, babe.... We're very impressed with the new album by **The Rainmakers**. "Spend It On Love" is a "one listen" gem.... The Chicago Cubs are in first place. The Mets are filing for triple A status.

Nicki Gardner, KFMG, Albuquerque

The first time I heard "Big Daddy", I had difficulty hearing its potential, now I have difficulty taking it out of my CD player.... I also want to thank the folks at Arista, coz I was fortunate enough to get an advance of **Anderson Bruford Wakeman Howe** and my only comment, is big, my god, it's big. Put my name down for two full CDs -- one for me and one for the station.

Lorraine Rapp, WAQX, Syracuse

Congrats and best of luck to Grego on his night gig at KLOL in Houston.

Karen Andersen Small, WGIR, Manchester

The **Bon Jovi/Skid Row** express will be rolling through Manchester in July so I would say now is the right time to give people another dose of **Skid Row** music with the excellent "18 And Life".... **Indio's** "Hard Sun" perked up our ears immediately on first listen to our mystery cassette a couple of weeks ago. This one will sneak up on you. It's unique from the overall structure to sound, don't wait too long before **Indio's** "Hard Sun" hits your airwaves. This tune is infectious.... **Warrant's** "Heaven" has multi-format hit written all over it. This is one of those records that you must get to before the CHR competition grabs a hold of it and burns it into crispy critters. "Heaven" is going to be a giant summer ballad.... **Anderson Bruford Wakeman Howe** has Yes fans young and old coming out of the woodwork and hitting the phones! We're getting immediate reaction to "Brother of Mine".

Jon Erdahl, WGIR, Manchester

When I got the ??? cut from A&M and popped this baby on the CD player, I was knocked breathless! We got on the phone right away with this one and try as we might, the lips were tight at A&M. Even J.B. was "The Mum Man". No matter, this song was on the air right away for us and now, since the word is out, **Indio** is the band to watch! They blaze on the air with the debut "Hard Sun". The musicianship is stellar, the singing sizzling and the hooooook, simply stated, is like no other song you're playing on the air. If you want your listeners to hear what is destined to be a band for the 90s, give this record a pop and watch the phones burn out! Whoever produced this track knew enough to let the vocals become the major focus because whoever sings lead has a sense of urgency that demands attention now! Say it and play it!... **Warrant's** "Heaven", you'll see God just for playing this mutha! Thanks to the Blair-man (our Boston Main Man) and Jim Delbalzo for turning us on to this one early. Watch the product fly out of the bins after you track this song. It has everything you need to lock in both the males and females. As I have said before, **Warrant** is a band with a future planted firmly at the top of the charts. Multi-platinum is on the way here, folks. Play it now before CHR gets their sticky little Donny Osmond paws on it.

Beth Kepple, WKLS, Atlanta

So you thought **Indigo Girls'** "Kid Fears" was too different for the AOR airwaves, even with **Michael Stipe's** background vocals. But think back. **Tracy Chapman** was just as different and even though "Kid Fears" is an acoustic, down-tempo, female vocals tune, it's not wimpy - it's got balls! Excuse me, make that ovaries. "Closer To Fine" is up-tempo and passionate and races with as much energy as the

Doobies or Bowie or Nicks. **Indigo Girls** just don't have the audience familiarity of **Doobies or Bowie or Nicks**. Yet.

Dan Hansen, WQFM, Milwaukee

Hot spot this week has to be **Tora Tora**. The record sounds real good on the air and stacks up well against the rest of our playlist.... Big move into **Heavy for Tesla's** "Hang Tough" this week and **Top Five** phones for the **Warrant** follow-up "Heaven", a great sounding record for the Midwest.

Michael Young, WIOT, Toledo

What a big big Memorial Day weekend. We kicked it off w.th an all request Friday with pledges benefiting **Toledo** area Vietnam Vets. The topper was that the real **Adrian Cronauer** teamed up with our **Dawn Busters** Lou and Steve to help us raise nearly \$14,000 in a 12 hour span. Thanks to **Atlantic Records** for their pledges and special TIN thanks to **Danny Buch, Jeff Appleton** and **Bill Siddons BOB Management** for **Graham Nash's** phone call. **Graham** also made a pledge, which was icing on the cake, as was **Steve Earle's** call and pledge. Thanks also to **MCA Records** and **Q Prime Management** for hooking **Steve** up with us. Also, a big thank you to **Donnie Van Zant** of **.38 Special**, **A&M Records** and the **Mark Spector Company** for the autographed guitar and phone call. And, last but not least, **Mercury's** **Doug Burton** gets a big thank you for the **Bon Jovi** tickets and autographed picture disc and to **Richie Zambora** for the phone call. We also received TV coverage each day of the weekend so this one was definitely a success. Well, I'm out of breath so I'll stop for now.

Tom Scheppke, KISS, San Antonio

Stevie Ray Vaughan's "Crossfire" may be the best yet from the Lone Star guitar hero. "In Step" should be a mutha! It's been since '85 and the last one "Sold His Soul". By the way, **Stevie** and brother **Jimmie's** **T Birds** will be opening for the **Who's** Texas dates in September. Speaking of **T-Birds**, "Knock Yourself Out" is a 4:31 KO punch! Texas automatic.... Love the title of **Great White's** latest, "Mista Bone". This **Texas T-Bone** says, "Yo!".... Finally, the **Rainmakers'** "Spend It On Love" goes on, but how did they miss "Ho De Ho"? Get the fudge out!

J.D., WONE, Akron

This past week we enjoyed one helluva a kick off to summer. We started off the 97.5 Days of Summer with our after work parties "Rockin' On The River", a regular Friday feature from now until the end of summer. Following that we moved things over to The Akron Agora for one killer of a show with **The House Of Lords**. Many, many thanks going out to **Lanny, James, Ken, and Chuck** from **The House Of Lords** plus **Wally Versen, RCA Records** and the folks at **Ken Adamany & Associates**. It was much appreciated and a great time was had by all. Hope to see you guys back here again real soon.... Also, a big thank you to **Henry Lee Summer** for stopping by the studio and sharing some hometown midwest stories, plus joining us and a few listeners on our pre-concert party at Blossom Music Center the night of the show.

Chris Herrman, WHJY, Providence

Just looking over my playlist and I'm amazed at the strength of the current product currently available to AOR radio! **Queen** continues to garner #1 phones, with **Stevie Nicks** and **The Cult** right on **Freddie's** heels.... **The Doobies** have returned with a vengeance - two more tracks get Heavy air this week ("South Of The Border" and "Need A Little Taste Of Love") with many more to come (I like the cover of the **Isley Brother's** tune!!).... When all is said and done, **Tom Petty's** "Free Fallin'" will still be recurrent three years from now. Chalk up a heavy add for the most elegant tune ever to emerge from **T.P.'s** **Rickenbacker**.... Also on **MCA** is just a spectacular tune from **The Call**. Make sure this gets into your meeting this week. Phones are building nicely for **Billy Squier**, and **Winger** are well on their way to a two format monster, while **Stevie Nicks** gets nothing but positive response.... I've got a hunch that **Geffen's** latest bad boys **Junkyard**, might have pushed that magic platinum button. **Tom Werman's** production is perfect, the track is just laden with hooks, while the look and feel of the band are tailor made for the summer of '89 (eg. **Guns N' Roses, Skid Row, Tesla, The Cult, etc.**.... Posers are out - rockers are in!).... Finally, special thanks to **Sandi** and the rest of **Saraya** for reaching down deep and putting on a great show for a moderate but totally mesmerized crowd in Providence. Don't miss them when they swing through your area - the band is tight and **Sandi** is pure magic on stage.

Carter Alan, WBCN, Boston

Had a delightful time interviewing **Adrian Belew** last week. He's a best-kept-secret to the public but a **DASH** superstar anyway you look at it. I've seen him play with **Zappa, Bowie, Talking Heads, Bears** and soon (hopefully) solo. The guitarist and jack of all trades said he'll be on the road in mid-summer. "Oh Daddy" is lots of fun. It finally passed the music meeting acid test at **BCN**. The video's pretty silly isn't it?... Talking about videos, how about the new one from **U2?** It looks like an episode of the **Twilight Zone** in black and white. "All I Want Is You" has been a fave of mine on "Rattle And Hum" since the beginning and it's nice that the group chose to release it as a single. Of course you know since three of the four members were all featured on single picture sleeves, a fourth release was inevitable, so I guess we'll be getting **Bono** on the next 7".... **The House Of Freaks** dropped in (both of them) to say hello before their show at **Axis**. "Sun Gone Down" has begun to kick in on the air. I believe the song is catchy enough to pick up steam.... A surprising album from **Badlands** - it's very much in the mold of classic hard rock with out techno-boring guitar masturbation. **Our Raw Power** show is eating it up!

Ty Banks, KQWB, Fargo

Better duck, **Tora Tora's** gonna knock your block off. "Walking Shoes" captures the magic of **Van Halen's** debut... wow!

Haz Montana, WXLN, Quad-Cities

Thanks to **John Tupper** at **Columbia** for arranging an in-studio visit with **Warrant** and **Ron Geslin** from **EMI** with the same with **Vixen**. Special thanks to **Bobby "Blue" Bland** from **Capitol** for bringing **Jack Russell** from **Great White** to The X for a great interview. All the aforementioned bands were in town for **Memorial Weekend** concerts, and their on air appearances were a special treat for our listeners.

John Loscalzo, WRCN, Long Island

Congrats to my long time buddy **Mike Mena** on his recent career move! **NOBODY** will be able to fill your shoes. You know what they say, it's good to see good things happen to good people... "How Low Is Low", this week's long distance dedication to **Rob Lowe**.... Great to see **Alan** and **Larry** last week, I've a feeling we'll be high fiving each other shortly.

David Allen Ross, KMJX, Little Rock

The new old **Yes** sounds great and we have had instant phone from the beginning on **Billy Squire**. As you read this, over the weekend, **Magic 105** presented probably the biggest comeback band of '89 -- **Cheap Trick** along with the **Romantics** and some fine local talent. Go **Lakers!**

Pam Brooks, WPDH, Poughkeepsie

Needless to say we're not at all surprised by the phenomenal sound of **Anderson Bruford Wakeman Howe**. We've got a show with them in the **Hudson Valley** on August 9th and our listeners are already wild with anticipation.... Speaking of concerts, **Saraya** smoked Saturday night at The Chance. Many thanks to **Sandi** and **Margaret Ann Ronayne** for the great interview. We've been exposing **Saraya**, so to speak, to the **Hudson Valley** for quite a few weeks now so it was great to have such a strong response.... One of my favorite ladies has resurfaced with a marvelous song. **Maria McKee's** "I've Forgotten What It Was In You (That Put The Need In Me)" is top notch.

Christina Gorton, KKZX, Spokane

Doobie Brothers depth tracks come off easily this week. Face it, the audience loves this record throughout. A real upbeat collection of tunes... **Stevie Ray Vaughan** was in town recently and his new track is what the guy is all about. A fine signature tune from one of the premiere guitarists on the scene... **Jackson Browne** moves up this week and it is well earned. His political activism has always been on target and his music is lined up for the 90s and beyond... **Queen** continues to be a big favorite around these parts... **Tin Machine** simply will not leave my turntable. Just one incredible release all down the line.... **Anderson Bruford Wakeman Howe** doesn't surprise, but it does satisfy. The record stands on both legs and is strong enough to last long after the hype on those other "Superstars" is just a memory.

Steve Smith, WTKX, Pensacola

Effective June 2, **Steve Smith** resigns as the program director at **WTKX**. He is venturing forth to **Maine** to

be a canoe and kayak instructor for the summer. It's possible that he will paddle back into radio after the summer. Steve can be reached at Kennebec Camp, Oakland; ME 04963, phone (207) 465-2216. No announcement on Steve's replacement.

Slats, WKDF, Nashville

Had some great shows in town last week-- Cinderella, Winger and BulletBoys tested the structural integrity of the Starwood for 9,000. While all three put out, Kip and the boys were received like the second coming of Christ. Winger's in-store did early on had to be extended another hour.... Did you hear where Hank Williams Jr. was slipped a micky in Baton Rouge, played a 20 minute set, then split? Well old Hank played Starwood last Saturday for his yearly Memorial weekend blowout. We passed out 103KDF Born to Boogie patches and Micky Mouse hats for all. If Hank's manager had been president of Exxon, he'd have tourists skiing Prince William Sound.

Anthony Alfonsi, WDVE, Pittsburgh

Congratulations and good luck to Mark Fritzges of Atlantic on his promotion into the Atlantic Regional Dept. Mark has had a great and memorable working relationship with WDVE. He's the kind of guy you could always count on and we know he will be outstanding in his new endeavor.

Jon Austin, WXRC, Charlotte

It's been another great week for us. I was sent out along with one of the announcers to the Midwest this past week to pick up the antenna for our upcoming transmitter move, and drive it back. Needless to say, it was a unique roadtrip. We also had a big Memorial Day show Monday with our country AM station and a local promoter, featuring local rock bands, Sawyer Brown and someone who still appeals to country and rock audiences in the South, Charlie Daniels. The event was a qualified success, in that we had as many people as we did at our Night ranger show here and the time is right for rockin' in the streets.... Evidence of that is music by Great White, The Cult, Tora Tora, and Junkyard.... The sales story on Stevie Nicks is very large in the Carolinas, and the pick to harp on this week is Indigo Girls. This duet is adding a folk element to the sound of the New South that continues to evolve from Athens into the next decade, and I feel that any album station that is prepared to give their audience credit for appreciating excellent songwriting talent should be ready to embrace the Indigo Girls. I have to admit that word of mouth after their appearance opening for the Violent Femmes in Charlotte helped bring me to their music.

Dave Packer, WXCT, New Haven

First things first, a much belated thanks to Al Carolonza at Warner with Lou Reed and The BulletBoys. Both enjoying our airwaves and enjoyed by the WXCT legions.... By the way, it took "The Doctor" to cure the severe case of "Full Moon Fever" our listeners have demanded. The D Bros. are back. And now to the heart of the matter.... On Memorial Day weekend radio met records as the Megaforce crew led by Phil Hardy and the WXCT staff partied-till-we-dropped on the shores of Connecticut's own Candlewood Lake. Recovery may take weeks. Finally, don't forget our 12 hours per week of Metal in your summer attack agenda.

Elise Vander Borght, KPEZ, Austin

Whew! What a weekend! A big thank you to the veritable virgins, i.e. Ms. Bonnie Stacy for a wonderful kick off to the Memorial Day weekend. Jim Jones and I jetted up to Dallas to view live and in color King Swamp for ourselves.... Whatever you've heard about the band is true. These guys are incredible live. They put on an energetic show with music to match. It's so hard to decide which track should be the next single. I wanna play them all!... Went home Saturday to rest for our big tug of honor Sunday, the Traditional "Jerk Off" between North and South Austin. The South won again, with several Northerners getting pulled into "lovely" Town Lake. But enough about promotions.... Life couldn't be better in radio land, unless we had an extra 13 hours in the day to play all the incredible new music there is. Not just the major stars, but the up and comers too. drivin' n' cryin' is one of my personal faves, along with Bob Mould and The Indigo Girls and Alannah Myles.... Johnny Diesel will be in Austin June 7th, for their first American appearance. Z ya there.

Paul Cavanagh, KFMU, Steamboat/Vail

Looking forward to seeing all of you at the 5th Annual KFMU vs. the Record Reps softball game on June 24th.

Max Volume, KRZQ, Reno

Well, it snowed again over the Memorial Day weekend, Alpine Meadows Ski Resort is still open with lots of snow. The Tahoe-Reno area has a lot to offer to any of you reading. If you do come to town, may I recommend Thrifty Car Rental, at the corner of Terminal and Mill, just a short drive from the Reno airport. They have clean dependable Chrysler products.... Daniel and I are now doing our music on Wednesday, Thursday and Friday. Keep in mind that Daniel arrives here to do the morning show at 4:30 AM, and tries to leave at 2:00 PM. On the same note, at 2:00 PM, I start preparing for my afternoon show. So that would mean music calls are taken Wednesdays, Thursdays and Fridays, 10:00 AM-2:00 PM, this also means that the music is ready at 10:00 AM on Monday.... We play a lot of new music, let's talk about some -- King Swamp - good, Public Image Ltd - Accessible, The Cure - Phenomenal, 10,000 Maniacs - melodic, The Replacements - fun, Concrete Blonde - Intense, Fine Young Cannibals - phones, Guadalcanal Diary - Hot damn. See Ya. P.S. Congratulations to Dave Logan from Daniel and I, we know Dave, we worked for Dave, this is Dave.

Andy Dean, WDHA, Dover

Three-day weekends are great, but when you return to five days of work in four days, that relaxed feeling doesn't last too long. Quite an exciting week for me. Finally got to meet John Eddie as he stopped by the station prior to a club date in the area. Thanks to Columbia's Jerry Lembo and Champion's Rick Winward for a great day and dinner. Radio, get ready for "The Hard Cold Truth" from John. I admittedly have a pro-Jersey bias, but this album cut-for-cut is sooo strong.... The next night Dave "Snake" Sabo stopped by during a break in Skid Row's tour with Bon Jovi. At the end of the interview, Jon Bon Jovi calls the studio from his car phone! Turns out he was listening to WDHA while on the Turnpike, heard his friend talking about him, and called to say hi. They did about ten minutes on the air together. An absolutely unforgettable moment in my radio career, and certainly a great moment for the station. Stations across the country would kill to get Jon on the air, and he calls us on his own from his car! Classic!... Memorial Day weekend started for me in Poughkeepsie, where I spent an enjoyable day with Saraya before watching them blow the roof off The Chance. This band should be seen when they come to your area. Most impressive for a first-ever tour. Finally, why does it seem like there are a dozen new Hard Rock/Metal bands all out at the same time? Probably because there are.

Fran Kusula, WEQX, Manchester

Well!! We all survived Memorial Day Weekend... and WEQX sizzled!! What a rockin' summer we are gonna have! First off, I'd like to dedicate our lead ad Public Image Limited's "Disappointed" to our "fellow" area broadcasters who ignored the N.A.B.'s "Radio Awareness" campaign kickoff Friday May 26th. Whatever happened to "Team Work"? What's matter which you guys? Afraid you might lose a listener? Come on! But then, I guess when you're up against a format as fresh and innovative as WEQX ya just can't take any chances. After all, how can you do battle against rockers like Johnny Diesel's "Lookin' For Love", or Indigo Girls' "Closer To Fine" or Mellencamp's "Martha Say"?... The Call hits the top of our Top 5 phone list. These guys are rallying for a major record!! If you're not on it -- shame on you!

Dominick Milone, WNGZ, Elmira

Hey gang here's some hot new music this week. Sweet sounds from Bonnie Raitt -- her "Love Letter" gets mailed into medium rotation.... Also this week the Cutting Crew and "Rock and a Hard Place". Hey it's rock, and it wasn't that hard to add. Also the BulletBoys, "Smooth Up," you can't miss with this one the second time around. Put in another round and fire away. Time for this week's puzzle. What has ten legs, ten arms, five sets of lips and vocal harmonies that sound like angels from heaven? The Burns Sisters, that's who. Know they are definitely not an endangered species. Only you can save them. Check out the best new music this week and put your ears to "Love Me Like A Man," and cuts like "Green Light", "My Boyfriend's Back" and "Big Rock" with Peter Frampton on guitar. You don't wanna miss out this time. Reserve a spot in Heavy and watch the phones light up!

Stacy Yelton, WKQQ, Lexington

Yo, how are we supposed to say it when we play it if we keep getting music labeled "????", and then enough already.

Kelly Cruise, WEGR, Memphis

It's great to be back after seven weeks off. Please refer all your music calls to me between 3:00 and 5:00 p.m. Monday and Thursday.

Tom Bass, WPLR, New Haven

Thanks to Steve Kline at Atlantic Records for providing me a place to crash Friday night after I left my competitors' birthday party. And thanks to Bob and Kim, and everyone at WHCN for inviting me up. It's good to see all of you again, and it's always great to see the Fabulous Thunderbirds live! Also, thanks to Michael Williams at MCA for rescuing me from a weekend in New Haven. Somehow, hanging in Greenwich Village seems much more invigorating.

John Amberg, WKRR, Greensboro

King Swamp strikes me as sort of a drinking man's INXS, slick and raw at the same time. One of life's great pleasures is to hear "Is This Love" thundering through your car speakers with the windows down and your foot to the floor. Summertime records don't come any hotter. Pop the King Swamp cassette in and check out "Louisiana Bride". It's got a groove so sharp it'll part your hair. This definitely is a "best new band of the year" contender.... Crack The Sky is picking up more steam even as I write this. Always a solid top-five phone grabber. The Jeff Healey Band's "Angel Eyes" is happening on the request lines, too. Jeff played a killer set in Winston-Salem on Saturday May 27. During the show I heard more than one call for "Angel Eyes" from the capacity crowd. Thanks to Arista's Linda Alter for the promotional considerations.

Bernie Bernard, VOA, Washington D.C.

VOA Europe will be running the local broadcast of "Our Common Future" in its entirety. Sounds like a good collection of international talent with Sting, Elton John, Midnight Oil, Terence Trent D'Arby and others.... Continued VOA support for Stevie Nicks, Richard Marx and Tom Petty. Just getting into the Jackson Browne and Anderson Bruford Wakeman Howe.... I'm eagerly awaiting the new release from Van Morrison called "Avalon Sunset".... VOA Pacific welcomes air personality Jim Bertel formerly of WASH-FM in D.C.

Butch Lazorchak, WVVV, Blacksburg

I saw Fetchin Bones Saturday night and they sound better than ever. They previewed lots of new material and it sounded great, as good as anything they've ever done. I can't wait for the Fourth of July.... Did anyone read the Rolling Stone article on AOR radio? (in the Ghostbusters ish) That should cause some sleepless nights.

Anthony Musiala, WLRA, Romeville

For this Memorial Day, other stations are playing many hours of classic rocks. We played 12 hours of Frank Zappa, and I'd like to say for people to check out Old Skull, a band of grade school kids playing punk rock, which is how that music oughta be.... Darling Pops on Epic are like Primitives and Transvision Vamp, the best of English female late 80s pop, worth looking into.

Karyn Bryant, WBRU, Providence

Hey kids - the next time you see Adrian Belew, ask him how Larry the Lobster is. This refers to the wonderful dinner we had with him the other day. Big thanks going out to Graham Hatch (why do they call you Grambo anyway?) for the festivities!... We also had the good fortune to have the Ramones stop by the station before their show at the Living Room the 27th - Joey and Markie were great, and it was really fun getting some aggressions out at the show! The crowd loved em. I'm really pleased with what we've got on the airwaves here in Providence, and at home I can't still seem to stop listening to PIL, Bob Mould and Stan Ridgway. I'd say that XTC, Godfathers, Joe Jackson and Adrian Belew are headed toward Heavy home rotation. I can't wait for the summer shows from some of these artists! And remember folks, Ted will have already taken over the PD position by the time this issue comes out, so be sure to get on the phone and re-acquaint yourselves with him. I'll update you all next time, in addition to the Neil Bernstein Memorial. Until then, take it easy and I'll see you at the ball game.

Kim Saade, WRAS, Atlanta

I'm very amazed that the new Wire album is live, because it doesn't sound like one. Although there isn't

much new stuff, the single is the single of the year for this band. You'll get buzzed all day! "Eardrum Buzz" has been generating a lot of phone response and we hope to receive the same from the LP.... I love the **Royal Crescent Mob**. This record has *summer* written all over it! A total blast - and the band keeps improving with every reach. "Going To The Hospital" is hysterical and "Hungry" sounds great on the air. It's airing in heavy rotation!... I'm dying to hear **The The** album. I read an article where **Johnny Marr** said **The The** is his new band. No one-time guest appearance - he's a solid player now. "Beat(en) Generation" rolls along like the **Lilac Time**, which is a departure from **Matt Johnson's** old style, and a comparison meant to compliment the band's new sound. It's performing well for us - and more than anything people are surprised to hear **The The** sound like this. They love the song and the "12" is selling in our area too.... I'm so into **Pere Ubu's** "Cloudland". **WRAS** has never really played them in the past, but this album is different. It's unique sounding, but has enough pop sensibility to make it refreshing. "Waiting For Mary" generated great interest from our audience and the album promises to be a pleasant surprise for us this summer.... My favorite new album on the home front is **Mary My Hope's** "Museum". Sure they're local and that helps the response. But this band is incredibly strong. When you hear the songs on this album you'll be amazed at how powerful they are. See this band live if they come to your town. It's a wild one.

Jonathan Rosen, KUKQ, Phoenix

We're playing the Campfire Mix of "Beat(en) Generation" by **The The**. It's a delightful change of pace from **Matt Johnson**, for whom diversity has always been a musical way of life!.... **Mary My Hope** is my pick for the year! Without trying to pinpoint any prior era/artist, this band has an immediate impact, whether it's the hard edge of "Wildman Childman" or the head-spinning emotionalism of "Suicide King". "Museum" hit me right away and still does every time I listen.... A highly anticipated release for me was **The Ramones**, "Brain Drain" LP. Now that I've heard it, it's not more or less than all of their others - which is not a negative for me! Even though I await their every release - I can never be let down. They're not pretentious. They're the **Ramones**. Plain and simple. Core rock and roll. The **Ramones** were meant to be fun! Stand out tracks are "I Believe In Miracles", "Zero Zero UFO", "Don't Bust My Chops" and also "Palisades Park"!... We had an incredible weekend here at KUKQ. We decided to have a "Remember The Ramones" weekend beginning May 26-29th. Every hour a different library track was played with artist ID's afterward. Every two hours one of the songs off "Brain Drain" was given away. We also gave away 50 CDs of "Follow Our Tracks" on Sire Records and it was wonderful. Another rock and roll weekend in Phoenix!... According to ownership, KUKQ is the highest debut radio station in Phoenix in ten years. The first four weeks of the current Arbitrend shows .07 (12+) , a 1.0 (18-34) and a .07 share (25-44). We only had live jocks on the air for two of those weeks!

Mike Thomas, WMDK, Peterborough

10,000 Maniacs are a top request for us! This album is pop oriented and will cross all formats and demographics. It's strong lyrically and the staff is all over it. "Trouble Me" and "Eat For Two" are our first selections for airplay.... **Todd Rundgren's** album is the closest thing he's done to "Something Anything" in years! This is by far one of my favorite albums right now. We're playing "Want Of A Nail" successfully in medium so far.... **Tin Machine** has a much harder edge than we're used to hearing from **David Bowie** of late. **Reeves Gabriel** and the brothers add a lot to the new sound. One of the hot albums of the summer - rockin'.... I listen to **Bob Mould** a lot lately and I'm awaiting the **Golden Palominos** new one.... And then there's the **Swans**. I actually found a store in Worcester, Massachusetts that carried "The Burning World", an album that I highly recommend you spend time with.... I'm looking forward to the **B-52's** album, too.... Since last winter we've been doing a monthly promotion series dealing with bands/artists from different states or geographical areas -- Canada, the South, New York, New Jersey and now we're on California!

Tracy Barnes, Z-Rock National Network

Congrats to **Jon Scott** and everyone with the **TJ Martell Foundation!** It was a blast to play and party with so many cool industry people, all together at the same time to do the same thing. I know next year will make '89 miniscule by comparison.... **Z-Musicaly**, **Ian's Cult** returns to the King's chair. No doubt this record is hot, hot. And "Fire woman" is kickin' ass coast to coast.... **Great White**, while sitting in #2, is by no means second best. Could be a move up in

the future, we'll see.... Metal fists in the air to **Jeff Naumann** and the **Virgin** clan (**Bonnie!**) for sponsoring our live broadcast #21, with **Roxx Gang**. This band is great! "Scratch my Back"!... And keep your ears on **Z-Rock** world premiers **Badlands**, **Mr. Big**, **U.D.O.**, **Silent Rage** and **Matco's Tangiers** - really cool hard rock happening everywhere.... And extremely cool new adds from **Junkyard**, **Mammoth**, and demo LP rockers with the good ole catch word (but really good) **5 Guns West**. C-Ya!

Steve Prue, WKNC, Raleigh

I capped off my weekend with a killer show with the **Buck Pets** and **Snatches Of Pink**. Thanks to **Stephanie** from **Island** for the passes.... Some good stuff in the station -- **Tora Tora** and **Junkyard** are generating some reaction buzz. If you can't tell, I've been practicing my radio jargon, so express me some units of product. Do people really talk like this, I wonder sometimes. Gotta run, giving a five keg party Friday and I have to pick up the kegs.

Rosanne Samson, WVCR, Loudonville/Albany

April showers bring May flowers, and May flowers bring June allergies (and bugs). **Blacksmith**, a local favorite is added this week, along with **Tora Tora** and **U.D.O.**.... **Metal Church** is back up to #1 in the Capital Region, and those **Metallica** requests just won't quit.... **Government Cheese** was a nice surprise in our mailbag this week. And although we are still having some problems in getting AOR and Metal record service, **WVCR** is forging ahead through the summer, building our reputation as the Capital Region's leader in Commercial Free rock and roll. Be happy or not. Later.

Hans Driesen, KSJS, San Jose

All the mail sent to us at **KSJS** has incorrectly been addressed to **Cole Gill**, who is not our music director. The new music director (in charge of reporting and record/mail) is **Brian Baggens**. Please address your correspondence to **Brian**.

Graham Hatch, Atlantic, 212-484-8680

Do you have to guess what **Graham's** raving about this week? Just look around and you can see **Adrian**

Belew is making a bid for stardom with "Mr. Music Head". Many thanks to **Carter Alan** and **WBCN** for not only a brilliant interview but an intelligent choice of adds (Belew of course)! It was more than a pleasure seeing **Oedipus**, **Steve** and **Shred** to boot! Enormous thank you to **Karyn Bryant** and the then-**PD Neil Bernstein** (Good luck, Neil) for being the rock hosts to **Adrian** and myself and to **Chris Herrman** for reinspiring us to the truth that is **Spinal Tap**. "Oh Daddy" should not be stagnant on anyone's playlist. To all of those who have not put "Oh Daddy" into Heavy this is the week! He's taking his band with him next month, so get ready for the "Mr. Music Head" ensemble to hit your town.... Also taking off is the **Moev/Xymox** tour. One co-bill guaranteed to blow some minds.... **Blue Rodeo's** going to be in **Baltimore**, **Atlanta**, **Boston** and **Philadelphia** in the next two weeks so be sure to put the date in your yuppie book as well.... **Alphaville's** new single from their album "Breathtaking Blue" has finally been announced. Look for "Ariana" to hit your desk next week. Already on **WDRE**, the song is titled after their own manager.... Also, the **Wailers** are still on tour and are making a great big stink at retail! Do not relegate "Irie" to your reggae programming. It's (no, not that word) "accessible" for all your programming. On a personal note - you can stone me all you want but **Mike Schmidt** looked like a total woosy this week during his many retirement speeches. Some folks get a watch, this guy should get a bucket.

Hugo "yippee, it's National Shoe Week" Sizemore, Virgin, 212-463-0980

Yup, back from vacation. And randier than the dickens. I guess that the traffic hasn't cleared, huh? Well, for all you guys out there waiting for **King Swamp** to dry up and blow away, guess again. "Is This Love" continues to muscle its way up the charts. No hookey-dookey, this is real.... Speaking of real, have you listened to **Bob Mould's** "See A Little Light" recently? It's a good time to go back. And it's a good time to check your local sales reports.... Now comes the tough part. I've somehow got to convince you to put aside your preconceptions and listen with a fresh mind to **Public Image Limited**. Listen to the massive guitars, the sweeping vocals and the groove which you could commandeer a truck filled with all of **Tammy Faye's** cosmetics. This is a rock record, kids. "Disappointed" is way cool and all ya gotta do is listen.... Two final notes. If you're looking for an incredibly active nighttime

record, check out **Gary Moore's** "Led Clones". This is a hoot and every single station that's dropped this is in at night has gotten instant, instant phones.... And low and behold, is that **Syd Straw** on the horizon? Above all, please keep in mind that **Jeffrey** and I don't work these records for ego gratification. We do it for love.

Calvin Lew, Polydor, 818-955-5260

We are really excited to be part of the 20th Anniversary **Allman Brothers** reunion. As most of you know, **PolyGram** will be releasing an anthology by the **Allman Brothers** called "Dreams" on June 15. A four CD, four cassette, six album box set, it is, like **Eric Clapton's** "Crossroads", a most complete, detailed compilation that spans from pre-**Allman Brothers** (**Allman Joy**, **Hourglass**) all the way up to most recent projects from **Gregg** and **Dickie**. This package contains over five hours of music, over two hours of that is previously unreleased songs of which two are live. The **Allman Brothers** 20th Anniversary tour kicks off June 30 in **New York**.... This week you will receive the CD pro on **Kingdom Come's** "Who Do You Love". They also kick off their six week tour this week.... We also continue to maintain our high profile on "How Come It Never Rains" by the **Dogs D'Amour**. Now that some of the heavy traffic of superstars has cleared, let's not forget that the **Dogs** have some real good marketing potential on the air.

Jeff Naumann, Virgin, 213-288-1446

If you've been reading the music press lately, you've probably seen a lot of articles on **Bob Mould**. Have you listened yet? I know, I know there's been a lot of traffic! Well hopefully now you'll have time to get into this great record, since there seems to be a let up in the new release flow. **Bob Mould's** "See A Little Light" is already a solid Top 5 Alternative record, and has been quietly dashing up the Top 100 rock song charts, currently resting in the 60's. Some of the mainstream stations playing "See A Little Light" include **WBCN**, **WBAB**, **KQRS**, **WIZN**, **WCCC**, **KLBJ**, **WXKE**, **KPEZ** and quite a few other hip radio stations. Not only is **Bob Mould** very hip for your playlist, the "Workbook" album is a five star masterpiece. And "See A Little Light" is unbelievably catchy. **Mould** is really growing on programmers. Thank you rock radio for your enthusiasm and support of **King Swamp**, now what are the rest of you **Jesus Freaks** waiting for -- K-Tel?

Chris Baca, EMI, 213-461-9141

Richard Marx battles his way up the superstar Top 5. "Satisfied" roaring guitars sound right on AOR. Don't let this **Rock Radio**, multi-platinum artist be stolen by **CHR Radio**. **Richard** rocks as his tour will prove. Check out "Waiting For The Sunrise" or "Nothing You Can Do About It" on the LP.... **Tin Machine** roars on ascending the charts rapidly. **Bowie's** return to rock is filled with incredible power. **Reeves Gabriel** is the next guitar hero. The **Stray Cats** stayed alive in heavy traffic - give it a listen.... Finally, thanks to everyone who supported **Queensryche**. This record is working and the band is destined for even more success. "I Don't Believe In Love" will be the next track.

Sean Coakley, Arista, 212-830-2178

So much great music to choose from. We're delighted that rock radio has embraced the first song from **Anderson Bruford Wakeman Howe** with such love and enthusiasm. "Brother Of Mine" is just the beginning. The album will arrive roundabout June 15. Yes.... "Roadhouse" is full of top shelf shots of rock. Of course, there's **Healey's** "Roadhouse Blues" which is carrying on in the tradition of "Angel Eyes" as a request item. Then **Bob Seger's** "Blue Monday" is on its way to the upper reaches of the charts. Whatever you do, don't forget to check out **Little Feat's** "Rad Gumbo". This is one of the best records in the street right now and makes perfect sense for what most of rock radio is aiming for -- adults. Please listen to **Sarah McLachlan's** "Live 12" featuring "Steaming" and "Solsbury Hill". This gifted Canadian is making waves at retail from her exposure at college, alternative, NAC, public radio and in-store play. Her voice is angelic and the songs are beautiful.... Next week you'll be receiving "Wait For Fire Burning" from **Legal Reins**. Please listen carefully to this track that is certain to ignite this album.... On deck: **Grateful Dead**, **Babylon**, **Boxcar**, **Eurythmics**.

Jackie Tesman, Atlantic, 212-484-6002

Thanks to all those **Adrian Belew** supporters out there! It is nice to see a musician of his caliber is finally receiving the recognition he so rightly deserves. But alas, the buck does not stop here, "Mr. Music Head" is Top Five and climbing quickly at **Alternative Radio**. Look for **Mr. Belew** to make his "Big

Time" media debut when he saturates the video airwaves the week of June 11-15. June 11 Adrian hosts and performs 2 songs on VH-1 "New Visions" show. Nickelodeon will have an appearance by both Adrian and his daughter Audie on their Sunday morning show on June 11. And last but not least Adrian will be hosting MTV's "Post Modern" June 12-15. If that is not enough, Adrian's tour begins on July 5th. Enough?... **Alphaville's** new track "Ariana" is already lighting up the phones at WDRE, and your very own CD of "The Breathing Blue" should be in your mailbox now.... **Blue Rodeo** starts their mini U.S. tour on June 9 in Baltimore. You Must See These Guys Live! Disappointment will not follow.... **The Wailers Band** are yet another must see live band. Yes, this is a traditional reggae band and to some extent a reggae album, but it is very accessible to the mainstream. So, do you know what that means? That means you should be playing it. Hmmm. What a revelation.

Chuck Bliziotis, A&M, 212-828-0477

Tora Tora's "Walkin Shoes" has that big, bluesy rock in your face that just slaps you around with the energy of early **Aerosmith**. **Tora Tora** is right on target to break big. Don't overthink the obvious.... **Indio** is the vehicle in which **Gordon Peterson** launches his first album for A&M. Collaborators include **Larry Klein**, **David Rhodes** (Peter Gabriel) and **Bill Dillon** (Robbie Robertson). "Hard Sun", the lead track, is sexy and seductive with an atmospheric coupled with a strong groove. This is intelligent, emotional and thoughtful rock.... **Simple Minds'** "Take A Step Back" is our next track. This is a big muscular rock song that builds where "Alive and Kicking" left off.... **.38 Special** is coming off their biggest hit of their career with the follow up, "Comin Down Tonight". Quite simply, play this hit before your competitor does.

Michael J. Schnapp, Epic, 212-975-5987

I'm wacked! This week was nuts. I must first thank **Toby Mami** for a hell of a night out. Myself and **Brian Lima** were picked up in a limo (and a nice one at that), and were taken to a Yankee game with **Alice Cooper!** People wouldn't leave Alice alone, mega-autographs and people kept sending him food. Every 10 minutes, a vendor would tell us, "Hey, those dudes back there sent these hot dogs and beer". Then we would see 20 crazy yellin' dudes screamin' "ALICE!" and "COOP!". People from 5 to 60 yrs old were hounding for autographs, and all the Yankees kept on sticking their heads out of the dugout to check out their favorite rock legend. Thanks to **Toby** and especially **Alice Cooper** for a f**kin' truly memorable night. It definitely makes up for my car dying (again), but it got better.... Tomorrow, off to see **Ozzy Osbourne** and **Marchello** at the small Poughkeepsie club, The Chance. Then Sunday, **Ozzy** does a pay-per-view special from The Tower Theater in Philly.... And if that wasn't enough, I'm eatin' the heat. **Accept** has a great week, and your tellin' me you **Accept "D-Train"** and "Generation Clash" (just wait for the video). Germany's metal machine is back and kickin' butt. Tour is very soon, so get ready to "Eat The Heat" - **Accept** no substitute.... Okay. **Marchello is selling!** New sampler for summer is here soon.... You should all have your samplers of new **Kreator** and **Danger Danger**. Check 'em out.... Still being played is **Meliah Rage**. Remember "Kill-To Survive". These Boston dudes are takin' a breather from their first American tour and will be back on the tourpath soon.... **Suicidal Tendencies** tour with our favorite not-sters, **Anthrax**. Call MTV at 1-800-DIAL-MTV and tell them that the only way you'll "Laugh Tomorrow" is if they play **S.T.** today. It's a killer video.... Remember, **Alice Cooper**, **Bad English**, **Jeff Beck**, **Killer Dwarfs**, **Fifth Angel**, **Kreator**, **Danger Danger**, soon, soon, soon. Ya gotta love it.

Bruce Flohr, RCA, 213-468-4000

Number one for five weeks at Alternative radio! That's right, **Love & Rockets** have finally landed on top of the college charts for the fourth straight year. Alternative radio is once again leading the way taking new music to new audiences. The tour starts next month and you can be sure **Rob Lowe** will be backstage.... Next up, the **Sidewinders** are on the road with drivin' n' cryin' and then hook up the **Replacements** in two weeks.... **Treat Her Right** was just in L.A. and played five great shows. This band is playing music that cannot be categorized. Give the new album "Tied To The Tracks" a chance. It will work!... **Human Drama** is a Los Angeles band that has just released an EP produced by **Ian Brodie**. They do a very dramatic version of **Neil Young's** "Old Man". Give it a spin, and you will find a completely different interpretation of the song.... Last up, new bands with debut albums do not tour in England with **Fields Of The Nephilim**. New bands with debut albums from Atlanta do not open for **Love & Rockets**. New

bands with tons of great press do not play the Ritz in New York. New bands usually do not sound as epic as **Mary My Hope**.

Clarissa Garcia, Enigma, 213-390-9969 x215

Two weeks ago, the guys in **Laaz Rockit** were special guests on Southern California's "Request Video" show. Special thanks go out to hosts **Thrasher** from **KNAC** and **KROQ's** poorman for their patience. **Chuck** and **Lanny** from **House of Lords** looked on nervously as the **Laaz** attacked the stage, but soon found out how cool they are. They even joked about forming a new band: **House of Laaz**. The video for "Fire In The Hole" was premiered. Have you seen it yet? It aired in MTV's **Headbangers Ball** this weekend. You must check it out -- guitarists lined up in certain shots, black and white and color, a gas masked person feeding sludge to a baby doll. Now you know, you have to see it.... Also check out **Guardian**. "First Watch" is on its way to ya, but you should already have the 12" featuring "I'll Never Leave You" and "Kingdom Of Rock". So far, **KBER**, **KFMG**, **KISS**, **KJJO**, **KJKJ**, **KXAX** and **WHJY** are on it coz they know a great band when they hear one.... **Barren Cross'** "State of Control" moves up to 34* in this issue for **Hard Rock/Metal**, thanks to fine stations like **KBER**, **KJKJ**, **WHMH** and **WSSY**. They'll also be on **High Voltage** in a couple of weeks.... **Girlschool** will be kicking off their six-week tour in mid-June. Here's a quick itinerary of the girls on the run: 6/13 Las Vegas; 6/16 Reseda, CA; 6/17 Tijuana, Mexico; 6/19 Hollywood, CA; 6/20-21 San Francisco; 6/23 Long Beach, CA; and 6/24 Ventura, CA. "Head Over Heels" is a brilliantly raunchy love song that's heavy enough to take on the big boys, commercial enough to break bigtime and tasty enough to warrant your attention. Tired of all-girl bands who are all hairspray and lipstick? Well, look no further for all rock n' roll. **Girlschool** and "Head Over Heels" from "Take A Bite".... That's it for now, kids. Have a great week and beware of suspicious characters with raspy voices from non-existing Florida radio stations. They'll ask for huge amounts of product in a hurry. Just say no.

John Hammond, Rykodisc, 508-744-7678

Our new **Frank Zappa '88** live CD, "Broadway The Hard Way" features eight cuts not on the original Lp/Cass release. Those include a version of the **Police's** B-side "Murder By Numbers" (featuring a special mystery guest and getting Top 5 phones in Hartford from a homemade cart edit!), and "Elvis Has Just Left The Building". Call if you need a copy, which also goes for "Live At Gruene Hall" by **Jerry Jeff Walker**. Those of you who saw the **Gypsy Songman** on The Tonight Show know how good a song the new single "I Feel Like Hank Williams Tonight" is. And speaking of Austin artists, **Evan Johns** and **The H-Bombs** hit the road in support of the new album "Bombs Away", with immediate dates in the Northeast and Te-has. **Rootsy** rock in the best **T-Birds** and **Satellites** tradition -- don't miss 'em. Lastly, kudos to **Dave Brown** and the crew at **DC-101** for a killer **Chili Cook-Off** last weekend: 35,000 people boogieing to the sounds of **New Potato Caboose** -- watch for their debut album shipping in late June!

Jerry Rubino, Bar/None, 201-795-3809

What do you do the day after **The Replacements** play a special surprise show, like they did at **Maxwells** in **Hoboken** this past Thursday? Talk about it, recover and say "you shoulda been there." Then there's the case of **The Ordinaires** who recently played the **Knitting Factory** in NYC. One person who didn't miss this show was **Talking Heads' David Byrne**. Neither should you. **The Ordinaires**, fresh off their ***1/2 star review in **Rolling Stone** will be at **The Rocket** in **Providence** on June 16 and **The Rat** in **Boston** on June 17. If any of you are trekking this way for the **New Music Seminar**, they'll once again be at the **Knitting Factory** on July 16. **KCMU**, **KSJS**, **WFIT**, **WRVU**, **KABL**, **KOTR**, **KOFM**, **WBRU**, **WRCN** as well as **WNUR**, **WTUL** and **WXYC** are leading the pack with **Ordinaires** support.... **Bill Drummond's** "radio-ready" album "The Man" gets mega support from **KCMU**, **WXXI**, **WUNH**, **WVVU**, **WXYC**, **KTOW**, **WOFM**, **WRCN**, **WVVV**, **KOTR**, **KABL** and **WVXX**.... This week's **Super Soney**: "You Got It (Keep It Out Of My Face)" by **Mudhoney**, "Everybody Moves" by **Died Pretty** (import 7") and "The King Of Joy" by **Bill Drummond**.

Charity Kurz, MCA/Mechanic, 212-226-7272

You say you're in search of the rock of 90s? Well,

look no further -- **Bang Tango** is here! Their debut "Psycho Cafe" is at your station now. Hunt it down and play it. Then play it some more. There is not one bad track on the entire album. It will put you in a good mood. As we speak, the track "Attack of Life" is climbing up the hard rock charts. Check out the first **Bang Tango** video, "Someone Like You", on MTV this week.... **Dream Theater** and I would like to thank **Alison Matochak** of **WPSU** for a wonderful weekend in Pennsylvania. Alison is the greatest hostess. Thanks again.

Kathie Reed Barr, Roadracer/RC Records, 212-219-0077

Well, I'm back on the case after a nine day stint with **Realm**, showing the maniacs from **Milwaukee** how to "do it up right" New York style. Their biggest complaint was the prices of beer and other consumables. They basically said that you can have a major blowout in **Milwaukee** for under \$20. Anyone wishing relocation information the **Milwaukee Chamber of Commerce** or write directly to **Realm**.... **Annihilator** is heading to Europe to tour the continent with **Onslaught!** The metalheads from the **Great White North** will be hitting the states some time in August with their unique blend of thrash and finesse. Watch for "Alison Hell" on **MTV Headbangers Ball**, debuting June 10. Remember the magic phone number 1-800-DIAL-MTV.... **Crimson Glory's** "Lonely" will make its **Headbangers Ball** debut on June 3. Get those dialing fingers ready!... You should all be getting majorly into the new **Sword** by now! "Trouble Is" is a rocker, check it out!... **Sepultura** is ripping up the nation, the long awaited "Beneath The Remains" is set to kick off a doom-filled summer! Southerners keep an eye out for **Chastain** touring through Texas, call for dates and interview info! **David** will do a Z-Rock live broadcast from **Dallas** on June 9. I'll be off to the **Lone Star State** for that one! Hey, is it true everything is bigger in Texas? Guess I'll find out soon enough!

Jill Cohn, Medusa Records, 213-390-9969 x124

So you're done with finals, got that summer job in order, so what next? Call me, call me, call me!!! Okay, the phone bills too high? Then let me know by mail what your summertime office hours are. That way, I'll call you and tell you about all the new **Medusa** stuff. A new album by **Coven** has just been completed, and this **Seattle** band has done it again with a new sense of seriousness in their metal and lyrics.... We're going to turn you on to the **Fire Merchants**. This art-metal trio is the newest member of the **Medusa** label. The group features **Chester Thompson** (**Genesis**) on drums and **John Goodsall** (**Brand X**) on guitar.... The next record to look for will be **Italy's** own **Miss Daisy**. This **GWR** release of this rock trio is just too cool for words, so your ears will have to wait.... If this wasn't enough, I have **SGM** and **Pandora West** coast dates. Lastly, please feel free to help me name the new kitten that I inherited this weekend, I just can't come up with any good ones. **Cathy** (**KISW**) thanx for the kitty-koaching!!

Cheryl Valentine & Dyana Kass, Metal Blade, 212-645-6208

What? **Dyana** is on the East Coast? This must mean a reuniting of "The Tag Team From Hell"! In the midst of our shopping extravaganza, a revelation occurred to us. You poor, poor people. Here we are, merciless to your pleas. You've been working very hard at your jobs and college - looking forward to the relaxing, whimsical days of summer. We've been asking you to tire yourselves further and you have replied "Help us. For we are the weary and brain dead." We will now ease your overworked braincells with step by step instructions for playlist perfection. Follow the bouncing ball: 1) try to de-emphasize the top 3 dominators in order to expose brand new talent that could annihilate the obvious in time, 2) if there's a choice between reporting a band that has promo rep/label support and one that doesn't, then choose the chick that's got the goods, baby! 3) avoid these a) clinging with the **AOR** masses, close proximity with commerciality devalues the alternative slogan and b) long-haired poseros with one-hit wonders, c) glorifying the performance of a singular member representing a now defunct whole who writes new, typically "metal" lyrics to previous hit songs of the whole. Mega brownie points and gold stars are awaiting those who jump off the brain dead wagon and leap onto the playlist perfection jet. We are available for personal consultation to distressed metal MDs with playlist gang green by appointment.
