Hard Hundred 94\*

From the *Tantilla* album

R&R New & Active!

Management: Danny Goldberg and John Silva for Gold Mountain Entertainment Produced by John Leckie

July 14, 1989

**Ziggy Marley, "Look Who's Dancing", Virgin....** It makes perfect sense that it took the son of the late great Bob Marley to bring reggae music back to our airwaves. Last year his Virgin debut went Platinum-plus worldwide and spawned a Top 40 smash with "Tomorrow People", which everyone knows started at AOR. Considering Ziggy was not yet out of his teens the list of trophies he racked up has been very impressive. He won a Grammy the last time out for his efforts, he notched the first ever #1 R&B reggae hit and collected the prestigious Image Award from the NAACP. All in all a pretty heady experience. But with this first taste of "One Fine Day" young Mr. Marley demonstrates that he has kept his squarely on his shoulders. Once again employing the production team of Tina Weymouth and Chris Franz, of T. Heads and Tom Tom Club fame, Zig has stirred up an infectious blend of reggae, pop and rock. The early Adds from KROQ and WMDK are just the beginning on a tune that could have been custom ordered for this time of the year. The Summer months are the perfect time to include Jamaican spice in the music mix, and this particular ingredient has already proven to be a winner with the taste buds of your audience. If you're familiar with the song from the advance cassette make sure you check the edit, because the time and rap like quality have been trimmed. Ziggy has just hit the road for touring duty, and we don't see any reason for him not to duplicate the sell-out "Conscious Party" performance of a year ago. Expect sales for this record to commence out of the box, which is exactly when you should get involved.

**John Cafferty and the Beaver Brown Band, "Pride And Passion", Scotti Brothers....** When the "Eddie And The Cruisers" movie was released to theaters back in 1983 it didn't make much of an impact. But when it hit cable TV and home video less than a year later, a virtual explosion of interest occurred. The soundtrack album became one of the hottest items on the shelves, and fueled by the runaway success of "Tender Years" wound up selling in excess of two million units. Although Michael Pare was the face on the screen, the main man responsible for the Double Platinum grooves was John Cafferty. It was more than a bit ironic that John and the Beaver Brown Band would break through by providing the tunes for a movie about a band working the Jersey Shore bar circuit. Because that's just what they had been doing, with a few exceptions. First and foremost, John didn't drive off a bridge, and Beaver Brown was one of the biggest attractions in clubs up and down the entire Eastern Seaboard, not only the Jersey Shore. This first effort from the upcoming soundtrack is the kind of pure bar band rock and roll that we've come to expect from them, complete with Michael Antune's wailing sax. There will be a major advertising blitz, with TV, radio and print all making sure that the potential film audience is unable to make the same mistake as the first time. Over 500 theaters will be screening the movie nationwide on its August 18 release, and "Pride" is already getting "Before the Box" air at stations like KATT, KFMM and WRKI.

**Victory, "Don't Tell No Lies", Capitol/Rampage....** This band is already a staple of the European market and now that Capitol has decided to get involved the question is, can The Colonies be far behind? In a word, no! For those who keep an eye on the indie scene "Culture Killed The Native" is nothing new. Ditto anyone who sneaks a peak at MTV's Headbanger's Ball, since this is the second video from Victory to get big play on the small screen. The album was released earlier in the year on Rhino's Rampage label, and with a minor tune-up from The Tower is about to get the big push it deserves. They're a product of the same West German industrial town that gave the Scorpions to the world, in fact bassist Peter Knorn and axe man Tommy Newton were bandmates of Scorp Matthias Jabs in an outfit called Fargo. The other member of the string section, Herman Frank, may ring a bell as a charter member of Accept, and Fritz Randow cut his thunder drum teeth with the legendary Eloy. Now who better to front this group of Kilowatt Krauts, than a singer of Spanish extraction who spent his formative years in Switzerland? Hey, not even we could make this up! Lead vocalist Fernando Garcia has earned the nickname "el toro loco" for his powerful pipes and exotic good looks. Come to think of it, our female talent scouts have reported that the entire band isn't the least bit tough on the eyes. But all you'll need to use is your ears for proof that Victory belongs on the air right away.

**Record Of The Week**

**Stage Dolls, "Love Cries", Chrysalis....** It hasn't taken long for this product of Norway to cause a commotion on our continent. As Steve Becker at KLCX sez, "From the opening chords to its memorable chorus, Stage Dolls deliver a solid debut that should be found on most rock n' roll playlists".... "Love Cries" is new at 26 including KBOY, KDJK, KKDJ, KPEZ, KSJO, WDVE, WFBQ, WIMZ, WLLZ, WRIF and WYNF, with Increased play already a factor at WLVO. Combined with steady support from KBER, KEZE, KEZO, KILO, KISS, KJJO, KL0L, KQWB, KUPD, KXBR, WAOR, WGIR, WLZR, WONE, WQFM, WRXX, WSHB and many more, it gets the week's 4th Biggest Move with a 80-57\* on the Hard Hundred. The feedback has been all positive, and the mega hook has inspired quite a few predictions from those on board. Need a sample? Try this one on for size from Jon Erdahl at WGIR, "My new band to hit the big leagues. We've hit them out of the box with success. Their music is loaded with enough hooks to take your listeners through the Summer sizzlin'! Not only does this band have the look, they also possess that rare music sensibility that will take them from their current success to that next level. Play em now and get in on the ground floor with a band that's going all the way and taking names".

**HARD ACTS TO FOLLOW**

**Stone Roses, "She Bangs The Drum", Silverstone/RCA....** We can just hear the cynics when they're asked to give this band a look see. You could make book (no Pete Rose jokes please) that before even giving this a test spin, there will be some who declare that The Stone Roses are merely, "The flavour of the month from England". After all, they are the latest rage across the ocean, they hail from Manchester which is the home turf of The Smiths and were first produced by New Order's Peter Hook. Well, ignorance may be bliss but if you pre-judge these boys before plucking down the platter (or dropping the disc), you'll be missing out on an engaging blend of The Byrds, Beatles and Buffalo Springfield. Smooth, catchy pop that utilizes the spirit of yesterday, and is as current as tomorrow's newspaper. All the members are in their early twenties, yet they each list the names of The Beatles, Stones and Jimi Hendrix on their fave rave review. This debut U.S. effort is produced by John Leckie, and his past credits stretch back as far as Be Bop Deluxe, with stops at diverse projects like early Simple Minds, post punk Alternative gods The Fall, Let's Active and the latest House Of Freaks Lp to name but a few.

**Dirty Looks, "Nobody Rides For Free", Atlantic....** The state slogan for Dirty Looks' base of operations is "You've Got A Friend In Pennsylvania", and with the release of their sophomore Atlantic longplayer, these graduates from the school of hard rocks are about to make many new ones. "Nobody" is an early Add at KNAC, but we see an action packed week ahead now that the Buch and Flash riot squad has named this "Job One". The first focus from the Jon Janson produced "Turn Of The Screw", shows the coast to coast road work the band has done since their "Cool From The Wire" debut has paid off. An added toughness, or "edge" if you will, jumps out of the speakers immediately, and that's just what the rock and roll doctor prescribed for success. Danish born lead singer Henrik Ostergaard would make the late Bon Scott proud, with his tonsils turned all the way up to the terrorize level. The stop-start snare riffs of basher Gene Barnett leave little doubt that he spent plenty of practice time with the Jerry Shirley instruction manual, otherwise known as Humble Pie "Rockin' The Fillmore". To continue playing the comparison game, we hear a striking similarity to Nick Gilder's 1977 hit "Roxy Roller", with a much better vocal track.

**Beat Farmers, "Girl I Almost Married", MCA....** If you're expecting this latest journey into the wild and wacky world of The Beat Farmers to be another knee slapping visit with Country Dick's wonderfully warped brain, you will be disappointed. But if you're among those who realize the band's ability to create charming and twang filled pop, then you'll be more than happy. You see boys and girls, just because The Beat Farmers aren't afraid to display their sense of humor, not to mention their habit of hanging with pal Mojo Nixon, they run the risk of being dismissed as a novelty. We find that sad fact quite disturbing, and you will too if you give this track from "Poor And Famous" a listen. A killer hook, knockout chorus and the production skills of veteran Thom Panunzio add up to a hit in waiting. New at KGB, KMOD, KPEZ, KTYD and WTPA, with steady support from another nine including WMDK, WOXY and WRAS. You can rest assured of a Hard Hundred debut by next week, but don't get caught in the slipstream before getting involved.

**See No Evil, "Awake Now", Robinson/ Epic....**

They are led by Robin Salmon, a man who spent his childhood in South Africa until his family was forced to flee the country due to what else---differences with the government. Settling in Colorado, Robin met up with the rhythm section of James Hedrick and Bob Barleen and began a musical journey through the clubs of Denver and Boulder. They tried a move to Austin, Texas, but it's only natural that a songwriter of Robin's passion and commitment would eventually land in New York City. No one knows for sure if they took their name from a song by one of the Big Apple's most beloved bands, Television, but it was here that things finally came together. Rounding out their line-up with keyboard player, and native New Yorker, Kol Marshall, they were picked to launch the new label of a man whose contributions to the N.Y. music scene are legendary. Richard Robinson has production credits that include classics like Lou Reed's "Street Hassle", the first (and best) David Johansen album and The Flamin Groovies' "Teenage Head". He has honed the dark quality of Salmon's songs to a razor edge, and makes sure to mention that this record was recorded "at night". While this first track from the band's self titled debut may not be a one listen affair, it won't take long for the throbbing guitar riff to work its way under your skin. Contributing to the album is another legend of the N.Y. streets, John Cale. Give this one a shot.

**Darling Cruel, "Everything's Over", Polydor....**

We all have friends and family who make their living outside of the slam bang whirl of the music business, right? O.K., did you ever try to explain to those people that we have to deal with standards and practices just like they do? That just because we mix and mingle with the jingle and swing, when something comes along that defies label or categorization our biz is just as prone to sweep the untidy bugger under the rug. Well, as that famous line from The Godfather goes, "This is the business we have chosen", and Darling Cruel are the latest arrival to "push the envelope". Listening to this track from "Passion Crimes", armed with a trusty legal pad to jot down comparisons is enough to make the best of us crazed and confused. Why? Because how can any band possibly sound like Ambrosia, Queen, The Beatles, The Left Banke, The Monkees, Alan Parsons, Bowie, Simple Minds, Def Leppard, The Grass Roots, Yes and Prince? All within the first sixty seconds, and due to space limitations this is only a partial listing! Furthermore, how come we can't stop playing it? And who the hell was the last band to use a Balalaika, a boys choir and The London Symphony, London Philharmonic and BBC orchestra on a "pop" record? By the time you answer all these questions MTV will have this video in regular rotation, so do yourself a favor and avoid the head scratching. Just play it, and by all means have a nice day.

**NEW PLAY PRIORITIES**

**Replacements, "Achin' To Be", Sire/Reprise....**

Shame on those of you who doubted the commercial potential of this Twin City tune factory. At the risk of breaking our arm, we will pat ourselves on the back for telling you that with "Don't Tell A Soul", Paul Westerberg and company were ready for airplay battle. With sales more than double any of their previous records at 320,000, The Mats are just now taking the show on the road with Tom Petty. For the official follow-up to the #1 "I'll Be You", they've decided to go with this country honk ditty, and once again the mighty pen of Westerberg has delivered a set of lyrics so real they have a pulse. It starts out as a portrait of a girl who, "Opens her mouth to speak and what comes out's a mystery", and is "Thought about, not understood-- she's achin' to be". But just when you start to feel sorry for this misunderstood creature, he reveals, "I been achin' now for years". It's then you get the hint that he's the one in real pain, confirmed with the line "If no one's on your canvas, I'm achin' to be". There are zillions of people who have experienced unrequited love, and countless more who would give their right arm to be able to express it so perfectly. With a musical approach straight out of The Stones' "Dead Flowers", The Replacements continue to display ample evidence why so many still call them the best damn band in America.

**The Cure, "Love Song", Elektra....**

With "Disintegration" already at the 700,000 sales level, and the mainstream finally leaving that haircut nonsense behind, The Cure are about to head out on the toursville trail again. For more than a decade Robert Smith has piloted the band on a steady progressive path, remaining ahead of the pack but picking up new passengers along the way. It seems strange to early travelers that it took this long for so many to punch their ticket, and unlike most bands who cross the tracks The Cure has been able to keep their initial crew on board for the entire cruise. Many of you took the trip to "Fascination Street", and the early bookings on this follow-up list new stops at stations including KEYJ, KFMH, WLAV, WQFM, WRCN and WZEW. The week before official departure doesn't slow the 99\* Hard Hundred debut, thanks to early boarding at KBCO, WBAB, WDRE, WKXL, WROV, WWTR and more, increased service from KITS and WFNX, Top 5 rings at KJON and Heavy or higher saturation from half a dozen including KBCO, KITS, WFNX and WDRE. This track is packed with the sound that put The Cure on the fast lane in the first place, so make sure you confirm your station reservation immediately.

**Mary My Hope, "Wildman Childman", Silvertone/RCA....**

Are you aware that there's been a major Alternative buzz on this Atlanta based band? You'd think that the overwhelming acceptance of The Cult, Love And Rockets, The Replacements and countless others would be enough to convince the skeptical that left of the dial raves aren't limited to the blips and boinks of a computer chip. This track will reveal that Mary My Hope have a fiery, slam bang, take no prisoners approach much closer in spirit to early 70's crunch, than mid-80's techno dreck. In fact, their two guitar, bass and drum line-up doesn't leave room for any Casio cowboys with lip gloss and an attitude. We hate to hammer you, but you've gotta admit that pre-conceptions have been responsible for that woeful mainstream lag time on the many afformentioned outfits. We don't want the same old song and dance to happen here. And don't think that Mary is all pound and no passion, they have a truck load of structure underneath their sonic slaughter. "Wildman" is already getting Heavy play at stations like KOTR, WWVU and more, and if you give this one a shot in your music meeting you're bound to be next.

**Icehouse, "Great Southern Land",**

**Chrysalis....** There's a half a dozen jumping the gun on this blast from Icehouse's past including 91X, KSQY, WFNX, WMDK and WZEW. This title track from the soon to be released retrospective was initially issued on 1982's "Primitive Man" album, which was later re-named "Hey Little Girl". Confusing? You bet! But considering the amount of time it took for Iva Davies' and crew to catch on in the States, most of you don't realize they've been releasing records here since 1981. Apart from MTV, the first breakthrough for us Yanks came with "No Promises", and "Crazy" served to seal the deal. This song is Iva's anthem for his homeland of Australia, and if you pay attention to the lyrics you just might learn something. Look beyond the line, "Anyone will tell you it's a prisoner island hidden in the Summer for a million years", and you'll find the story of Down Under as seen through the eyes of the real natives--- the Aborigines. Midnight Oil isn't the only band from that geographic location that has condemned the exploitation of Australia's answer to the American Indian. But subject matter aside, this song will further prove that Icehouse has been a step ahead musically since the seven year gap from release to rerelease hasn't aged the tune at all. This track is getting plenty of exposure in the "Young Einstein" movie, where it spends an amazing two uninterrupted minutes on the screen. It's a new one to many, so treat it that way.

**Kix, "Don't Close Your Eyes" Atlantic....**

We all know the story by now, a hard rockin', high volume powerhouse of a band releases a batch of albums, tours incessantly and builds a fiercely loyal core audience. They sell a respectable amount of units without the benefit of consistent airplay, and carve a niche of believers that lie in wait for the rest of the public to catch up. Then, out of nowhere, the "power ballad" appears! Oh how things change. Suddenly the band is an "overnight success", geeks and morons emerge from the woodwork spouting off cliches like, "I always knew ya had it in ya" and "Can I get backstage passes?". The same little girls who were afraid to even look at the band's press photos for fear of getting preggies, are tossing panties on stage like go-go dancers at a Hells Angels' bachelor party. In other words, success with a capital S! It sure would have been great to be there before the rest of the wagon train arrived, huh? Well, you can! This band is a hair away from Gold on their fourth Atlantic album, they've toured their cha-cha's off since day one and this is the "power ballad" that will even have pre-pubescent females returning their Ken dolls for the missing genitalia. You've been warned!

**"L**ITTLE FEAT has always been one of WNEW-FM's favorite bands and 'Rad Gumbo' continues our love affair. Gritty and gutsy rock 'n' roll is what they do best and this one fits the bill. **TOP 5 PHONES!**"

**Richard Marx, "Nothin You Can Do About It", EMI....** Don't let those suave harmonies trick you, the real substance lies in those Steve Lukather licks. The fact that he moved one cool mil-yone units on the strength of one single puts him into that high density classification already. So nobody'll want to mess with him except those determined to get left by the side of the road. "Satisfied" cleaned up on the video request lines on MTV and there's no reason to expect him to do any less this time around. And in case you're still fretting over the thin CHR/AOR line, smooth those worry lines away. You have a special second single only for this format. CHR gets the ballad, lucky them. Michael Young at WIOT says, "If there as any question as to whether Richard Marx could tear it up or not, that answer is most definitely yes. Richard Marx's drive and Steve Lukather's guitar work makes 'Nothin You Can Do About It' something you should do."... Half of a hundred adds is enough to land a Debut at 38\*, some of the new play comes from KEZE, KGON, KOME, KSHE, WCCC, WPYX and dozens others.

**Jackson Browne, "Chasing You Into The Light", Elektra....** The fourth Most Added track of the week with 31 making the move on J.B.'s follow-up focus. As Gary Palmer at WLLZ relates, "Every managers dream. Switching tracks from the politics of 'World In Motion' to a love song. Jackson has all the bases covered on this strong LP".... Others making the scene include KEZE, KISS, KMOD, KQDS, KQWB, KUPD, WAPL, WEBN, WEQX, WIMZ, WMAD, WQFM and KDJK where Beaver Brown confesses, "This is easily my favorite track from Jackson's latest, give it a good listen and I think you'll agree".... The support base is already at the half century mark, and Heavy or higher play from KBCO, KLBK, WKQQ, WLAV, WROV, KQRS and KTCZ prove that this was chosen by popular demand. He's always been at his best dealing with matters of the heart, and when it comes to emotion few can match his feel flow. With a major 92-53\* move, "Chasing" is making lightning advances toward the upper reaches of the chart, and next week should be another giant step forward.

**BoDeans, "You Don't Get Much", Slash/Reprise....** The first emphasis from what many are calling their finest ever is 119 stations strong, and the 28-22\* Hard Hundred move has the BoDeans resting in rarefied air. New at 16 including KBPI, KCAL, KDJK, KMOD, KOME, KRQR, WEGR, WIMZ and WMMR with Increased Rotations from nine others like KFMZ, KSQY, WDHA, WIZN and WKQQ where Stacy Yelton offers, "They are flexing their muscle and getting a very positive response, so it's on to Heavy for these guys".... "Home" makes the third time the charm, and long time fans are ecstatic that the general public is catching on. WPYX's Joe Moss is one of those who are mightily impressed, "I'm still high on the BoDeans' new record. It's just a beautiful collection of songs. In fact, almost two albums worth!".... You could call them the Everly Brothers of the 90's for those distinctive harmony lines, but that's just one element of their musical magic. Remember that this is only stage one from an album that will place them in the automatic category from now on.

**Little Feat, "Rad Gumbo", Arista....** The movie studio's publicity department made Patrick Swayze's pecks the main push point for the film, but we knew it was the music that would make a lasting impression. For example here's Karen Anderson Small at WGIR, "On first listen to the 'Roadhouse' soundtrack, this was my favorite tune. Some Little Feat summertime audio gumbo is just perfect for those warm days, the sound and the season are right for this one!".... Joining Karen in the Add column this week are KDKB, KMOD, KRIX, KRQR, WHCN, WIXV, WIZN, WPDH, WPLR and 15 more, with Increased play from KFMU, WOUR, WVVV, WWCT and WZXL. Da Feats were always a headline attraction in the Nation's capital, and the Power play at DC101 shows that nothing has changed. A shade under 20% of the 54 on board have got this shuffle in the Heavy category, and the Hard Hundred reflects a 72-46\* move.

**Tin Machine, "Heaven's In Here", EMI....** This is the track that you've deemed best to follow "Under The God", and here it is, smack dab in the middle of your paper pile, maybe a little buried under the mess. Pull it out and haul it up the pole. With a Hard Hundred move like 99-61\*, you know that enough people have, and there's still plenty of folks out there to spare for weeks to come. 24 reporters called in with this depth track including KILO, KNCN, KZLR, WAPL, WHEB, WZZO and even more. Reports are coming in still of how highly anticipated David's shows were in Europe, so many people turned up outside a club in Amsterdam they numbered in the thousands. Shocked? Stunned? This was demonstrative of the demand he raises. And that should only escalate if a U.S. tour is finalized. With sales almost at Gold, David and his bandmates are just waiting for the support stateside to mature. With an upward climb like this, the pace is yet to peak.

**Katrina And The Waves, "That's The Way", SBK....** They've made Summertime sizzle before, and with this new entry they prove ready to turn the trick again. The weight of being a new label's debut has got to be stress city, but Katrina and Co. sound like a joyous day at the beach on their return to the airwaves. While we're on that subject, two dozen reporters jumped in the water Out Of The Box including KACV, KPEZ, KRIX, KTAO, KWIC, WDHA, WEQX, WHFS, WQFM, WRAS, WTPA, WWWV and WNGZ where Dominick Malone approves, "Speaking of dig, ha ha, the new Katrina and The Waves is a very strong first release on SBK. It goes in this week".... Surf's up, Dom! Turn up the volume and pass the tanning butter, we smell a hit of tidal proportions. The Hard Hundred welcomes this pounding slice of pure pop with a 87\* debut.

**Queensryche, "I Don't Believe In Love", EMI....** Here we go again, a case of the superior band finally rising to the chart positions worthy of their talent. And even better, radio putting some ink where their mouth is. First the inimitable Beaver Brown at KDJK, "Here's another track you can believe in. The video is powerful and the song floors me".... And from Dave Kane at WCMF, "If you haven't tried any of the songs from Queensryche yet, all I can tell you is that they're working for us with good calls and good research."... As for empirical data, in our own banks, 20 Adds from KEZO, KFMG, KGB, KILO, KMJX, WSHE and WZZO to count a few and almost 50 stations in total with a 86-66\* move on the Hard Hundred, one of this week's biggest. And finally, WRJK's Craig A. Bradley says, "We are looking at Queensryche to blow out any time. The strength of their last song is starting to carry over to "I Don't Believe In Love" and it's making it's move toward the top of our chart making a big increase in the phone action."

**MORE HARD ACTS**

**Syd Straw, "Future 40's", Virgin....** Few voices are so exquisitely expressive as Ms. Straw's. She can move a roomful of people to tears and that is far more effective than all the techno-bilge gadgets in the world. Just a stage and a mic, two of the most basic tools of the trade and she uses them to their most expansive potential. But if you just can't rush to a club to hear her, check out the vinyl version, "Surprise". It's a delightful accompaniment to a woman whose performances have yet to be discovered by her compatriots at large. This particular song features a duet with Michael Stipe and stands to put together two of the most ear-catching timbres since..., um, you think of an example. Our collective mind can't take the strain. Cutting to the data now, from last week's debut, it moves 98-85\* on the Hard Hundred and is in part bolstered by 8 adds, some from KACV, KLBJ, WRCN and WZEW.

**House of Freaks, "When The Hammer Comes Down", Rhino....** This second track swings from a percussion jaunt to a soaring acoustic sweep with Bryan Harvey and Johnny Hott keeping the kinetics moving and well within control. Producer John Leckie, who has served as producer for other numerous groups, was responsible for taking this act from a two-man ensemble to a full band with the complete sound entitled for one. The hook is just as present as "Sun Gone Down" and with a Hard Hundred move of 97-94\* this week, the potential is there for substantial chart action. New play comes in from KBOY, KSJO, WRXL, WWV and WYBB and we track Heavy moves already at KOTR. Rhino doesn't need power tools to make this one go over, just some willing ears. Include your pair. They're on tour even now, and with a sample of their stage sound included on the latest 12", you know what's gonna go down.

**King's X, "Over My Head", Megaforce/Atlantic....** Let's not get carried away with the "Sounds like..." game. It's subjective practice and leaves little room for true creativity. Are we making a point here? It's that King's X has etched its own niche bordered by all the harshness and grandeur of the desert around the band's homebase of Houston. Despite an early release of the single, metal reporters snapped it right up, putting King's X at the top of the Most Added column for 3 consecutive weeks. That's how this band has been viewed by programmers, familiar with them since last year's highly applauded debut "Out Of The Silent Planet". And finally this week, the first single from "Gretchen Goes To Nebraska" hauls in 15 Adds from the likes of KISS, KLLO, KQWB, WCCC, WDHA, WFYV and WQFM. KZEW's Chaz Mixon says simply, "King's X is my favorite add in the last few weeks. Jump on it, folks. It's really different, yet mainstream enough for most dayparts."... Paying attention? Look for a HH debut real soon..

**Tora Tora, "Walkin Shoes", A&M....** That little bass line in the bridge has the spirit and quirkiness that great summer rock track are made of... boundless vigor and that youthful zest translates into a big ol' demo magnet. Not too flashy, but polished enough to give it a nice shine on the dashboard. WHJY's Chris Herrmann acknowledges just how well this tune is rolling along, "Tora Tora is really beginning to pull in the phones, sales are building nicely, and I'm just floored by the songwriting, musicianship and talent displayed by these kids! Just wait until 'Guilty' hits the air."... Consider that fair warning, and Joe Paiano at WRKU gushes, "Tora Tora captures that perfect blend of styles and hands us our walkin shoes."... 15 adds this week from the likes of KBPI, KGB, KOME, WCCC, WDIZ, WONE and WZZO. 39-33\* on the Hard Hundred and nothin on the road even close to cutting it off yet.

**Boris Grebenshikov, "Radio Silence", Columbia....** We've been giving our Yankee color commentary on the opposite side of the Iron Tapestry for some time, now it's high time for some words from the other side. And yes, he's written in our own language, so stow that xenophobic reaction away. Detente's no longer gauche, it's the year of Glasnost. Even if you don't have any funny forehead marks, you too can be more popular than anyone ever thought possible. Spin Boris (and we mean that figuratively) for your co-workers and see how much your hip quotient goes up. In fact, the very SoCal Randy Maranz from KDJK gets ancestral, "My favorite of the week is the man who shares the same heritage as myself, from Russia with love - Boris Grebenshikov. Just say da!"... Added at KOMP, KZEW, KZRR, WIZN, WLZR, WPLR and WQFM plus others! 85-70\* on the Hard Hundred and the album makes a debut at 58\*.

**Jason and the Scorchers, "Find You", A&M....** It's not often that programmers will be simultaneously excited about a new release. So, we'll let them tell the story. Ty Banks at KQWB knows the intro, "I've been following Jason And The Scorchers from the beginning, and their new one on A&M, "Find You", blew me through the wall! No one can stomp, chomp, and romp like Jason and Warner. These guys have drawn on, and combined more different styles than any group I can think of! When God created Jason, he broke the mold and said, 'Well, that's all this world can handle'."... But that's not all, you lucky kids. Karen Andersen Small at WGIR warns, "All puns aside, from the name to the matchbook CD cover, Jason and the Scorchers do Burn with "Find You". These guys put out some hot and heavy rock n' roll and why they aren't superstars yet is beyond me. Play it and light the airwaves on fire!"... 13 adds for OTB action from KFMG, WCCC, WDHA, WROV and others to boot and a Hard Hundred debut just around the corner.

**Steve Winwood, "Time Is Running Out", Island....** Every instrument is defined at some point and in this instance, the ivories are deeply carved with the initials S.W. He played them with a classic sound that was to shape an entire generation and alter rock arrangements forever. Now in an age where synths can emulate any piece in an orchestra, Steve takes a swoop into a tune from his debut solo record from way-back-when that delights in long, clean piano lines highlighted by Steve's best singing of his career. Dated? This could be brand spanking new out of the can and everybody would still harken back to those untainted days of Traffic. From last week's debut, a healthy move 100-88\* on the Hard Hundred. 7 new stations like KGON, KXFX, WLUP, WMFX and WRIK jump on for the ride. Don't get left behind, especially when you know his format impact is a given.

**Hoodoo Gurus, "Come Anytime", RCA....** Don't knock yourself out trying to chuck around comparisons for these Alternative crossover hounds. This is as genuine as rock gets, either domestic or otherwise and the Gurus are there to make it work. They've been releasing jagged pop tunes for years upon years and now they stand to multiply their listener base times itself many times. And why you may ask? Because they have diverged their output into both lighter and darker regions of exploration. Some of these tunes are swirling, some almost buzzing with a grinding momentum. "Another Day" is in this first slot, and could carry away just as many AOR's as "Come Anytime". This is one of the most underrated bands yet to come out of Australia. You can change that and this is the first step. A nifty dozen adds from KBCO, KTAO, KTYD, WDHA, WROV and more and increased at KTCL, WDRE, WFNX and WXVX. The Hard Hundred spits out a move of 95-79\*.

THE NEW EMPHASIS TRACK FROM  
**drivin' n' cryin'**

**WILD DOG  
MOON**

**OUT  
NOW!**

From the **MYSTERY ROAD** Album

**Henry Lee Summer, "Treat Her Like A Lady", Epic....** The man's already earned his credits as an album core dude with his own righteous songs and this is only his second long-player. You'll find this Cornelius Brothers and Sister Rose tune one of the hotter spots on your play list this season, and with good reason. 14 Adds from KNCN, KTYD, WAPL, WGLF and more are just part of the story with 20 stations on and ready to go. A debut on the Hard Hundred will follow in step. KDJK's Beaver Brown hollers, "Henry Lee Summer, what a guy, what a cover! 'Treat Her Like A Lady' jumped out of the speakers and I screamed, 'We gotta add this!' I can't tell you how great I think this tune sounds! Wowzers!!" ... Just like that tried and true pair o' blue jeans, this will slide on without any nasty chafing.

**Diesel Park West, "When The Hoodoo Comes", EMI....** Face it, no matter how much we look down on first impressions, they are still critical. So, yeah, when you checked out the cover to "Shakespeare Alabama", it looked just like the Bard had been taken a plunge into a paisley paint pot. And if you've followed through on that burning curiosity to see what laid underneath the plastic, that initial analogy takes on a further depth. So, take the third and bestest step and get this Park off the ground and airborne. We didn't have to draw pictures for Chris Herrmann at WHJY, who says, "Diesel Park West simply write fantastic songs (especially 'All The Myths On Sunday'), and deserve your attention for at least one uninterrupted pass.... you won't be disappointed!"... 69-63\* on the Hard Hundred and new this week at CHEZ, KSJO, KYYS, WAQY, WEOX, WLZR and others, too. Almost 50 stations within our little parameters know what's good for the listener. Do you?

**Indio, "Hard Sun", A&M....** While some are just planting their seeds now, waiting for those eventual sproutings, Gordon Peterson is working hard to pull in the large reapings from his debut "Big Harvest". And he can't do it without your help. Yep, it's time for us all to take up that inevitable share of the airplay burden and make Indio an AOR natural. With those easy rhythms and oh-so-sophisticated lyrical utterings, Gordon is making this record an adult leaner that doesn't fall into your lap every morning like a hot cup of caffeine. Maybe that's what some of us need. It's apparently morning for 9 new calls this week, like KILO, KLPX, WAOR, WLUP and WROV. Count those increases, too, like two handfuls from KFMU, KTCL, KTCZ, WDHA and WHTG. A move of 61-49\* on the Hard Hundred is nothin to throw on the back burner either. Pay attention.

**Mr. Big, "Addicted To That Rush", Atlantic....** You're only as strong as your weakest link, so goes the old sage's words and that's nowhere truer than in the collaboration fest of the music biz. So, where can these guys go wrong? They can only get hurt if their potential doesn't reach the critical mass that is waiting for them. And that's entirely up to the person on the opposite side of this page. You've eaten the candybar, now take another bite. Billy Sheehan, Paul Gilbert, Pat Torpey and Eric Martin are among the best in their respective fields, but together, their collective equals are few and far between. 60-52\* on the HH, with 9 adds from KAZY, KUPD, WCCC, WCKW, WRCN among some of the 60 plus stations supporting this group debut.

**The Graces, "Lay Down Your Arms", A&M....** After a few years of pop success with the Go-Go's, Charlotte Caffey apparently discovered the true extent of her rockin' abilities. While no exercise in noise, she flexes that lovely but able riff and sings just where all the grit and sweetness oughta be. While love may be the subject under the microscope this time, it's not with the same carefree la-dee-dah style she shared with Belinda and buds. Just remember, she was the major song penner then, and with these "new" guitars and silky harmonies to back it up instead of just some girly smiles, the end result should aim right at your CHR crossover. So, make the move while the others are just putting thoughts together. In its first week at radio, 9 adds from KACV, KFMH, KKAZ, WHFS, WHTG, WNCS, WWWV, WYBB and WYBR. A Hard Hundred debut can only be a week away, so don't just sit there!

**Badlands, "Dreams In The Dark", Atlantic....** Modish metal? Heavenly head-bangers? This is one group who wouldn't let sequined spandex come within a mile of their skin. Let's not forget that hard rockers have some rather discriminating tastes of their own too. And so aesthetically armed, they set to knock the world off kilter. At 52-47\* on the HH, we're already leaning a bit and with new play from KSJO, WDIZ, WHTQ, WZZO and others, our posture may be permanently bent. WGIR's Jon Erdahl says, "This is a song that has proven itself for us here at the radio ranch week after week. These guys are on the cusp of crushing the market with their high-powered brand of guitar (remember when that instrument wasn't even used a few years ago?) rhythms that only Jake E. Lee can knock out. This band is heading for Gold (by the time you read this, it may already be there) and beyond coz this album is deep. Put Badlands into your music arsenal and get ready for the 90's."

# ON DECK

With  
Mike Marrone

Before we get to the around the bend release express, it's necessary to point out a couple of Hard Hundred debuts that would have been unheard of a short time ago.... First up, the 97\* entry of Pere Ubu with "Waiting For Mary". If someone told you a few years ago that David Thomas and his band would make an appearance on a mainstream chart, you would have bashed them over the head with an old Lava lamp. But as the saying goes, you can look it up! If you don't believe what this column has stated more than once, that this is just what Pre-"Sledgehammer" Peter Gabriel fans are looking for, then you still haven't listened. Please do so now.... Next, hows about Fetchin Bones

sliding in with a 100\* debut for "Love Crushing"? The only word that comes to mind is "Beautiful"! All signs point to this being the band's best chance yet at opening some

previously closed ears, and proof that it's starting is right there in the chart. Are you getting a warm feeling all over or what?.... Another dark horse continues to make friends a chunk at a time, with word of mouth and a live show that is nothing short of mind blowing. Who, you ask? Chris Isaak, of course! "Don't Make Me Dream About You" takes one small step for man with a 78-76\* HH move, but it's definitely a giant leap for great music on the radio. This lean mean crooning machine has been a best kept secret of the Bay Area for far too long, and the endorsement of Roy Orbison's widow should be reason enough for you to give the man a serious listen. His latest Reprise album is yet another masterpiece of classy rock hooks, and if more of you don't start giving it some hang time on the airplay wall, we may start holding our breath til we turn blue. You wouldn't want Tip Sheet suicide on your conscious, would you? Don't answer that!.... As reported a few weeks back, Nona Hendrix has a new

album out on Private Music. Now that the CD has glued itself to the home deck, it can be said that this is something you do not want to miss. Nona has written all the tunes herself, and Private

Music founder, and charter member of Tangerine Dream, Peter Baumann performing co-producer duties. If you expect this to sound like her Labelle or disco diva days, forget it! Picture a mixture of Kate Bush, Peter Gabriel, Anna Domino, Eurythmics, Sinead O'Connor and David Sylvian for starters, and remember the spectacular sonics this label is renowned

for. This is the first foray into vocal territory for Private Music, and after experiencing the results you'll pray it won't be the last. Intensely personal lyrics mark this dramatic style shift, and the first word that will come to your mind regarding the new look Nona will be--- Artist. By all means obtain a copy for proof, if you can't go through EMI call Private Music at 212-684-2533.... There's a great guy that's been banging away on the New York music scene for quite some time by the name of Greg Kroll. He has just released his second album called "The Wheels Of Desire" on Chameleon/Capitol, and if straight ahead rock and roll delivered with passion and conviction strikes your fancy, you should seek this out. Produced by Joe Jackson's drummer extraordinaire, Gary Burke, and featuring one of the best bass players in the universe Graham Maby. This is a talent to keep a close eye on. If you want to give yourself a treat call Dan Tobim at Peregrine Management for a copy. The digits to dial are 212-769-8013, call it collect, call it direct-- but call it today!

Eddie, are you kidding?.... Remember when the Bangles were just a bunch of "New Wavers" from out West? Needless to say, those days are over, and their #1 Pop smash "Eternal Flame" is just another example of the girls' big time status. The "Everything" album on Columbia has been certified Platinum, and the band started a massive tour just last week that will take them to every section of this great Country of ours. They've already completed a hugely successful European jaunt, and Columbia has shipped "I'll Set You Free" as the next potential chartbuster from "Everything". Check for the tour touchdown in your area.... One of the great unsung heroes of American music, Chris Stamey, has just about finished work on his latest album. His last Lp for A&M Records was tragically overlooked, but one of these days the general public will wake up to this former Db's excellence. Chris was forced to postpone recording due to guitar duties with Bob Mould on a series of live dates. Bob's "Workbook" album could be one of the year's best, and most ignored releases. It's hard to believe that music this good is allowed to fall between the cracks, but it's not too late to make amends. Stamey's new album is produced in part by Mitch Easter at his Drive-In Studio.... While we're on the overlooked tangent, The Sandmen on A&M deserve a much better fate for their outstanding "Western Blood" album. Check out "The Bellman", and see if you don't agree that it's T.Rex's "Bang A Gong" inverted.... Do you want to take a journey back in time when the living was easy and LSD was legal? Well, Owsley's number is unlisted, but if you call Performance Records in New Brunswick, N.J. at 201-545-3004, you will get a rush of nostalgia. They've just re-issued Dr. Timothy

Leary's original motion picture soundtrack of "Turn On, Tune In, Drop Out", and if you ask for Steve he might just

hook you up with a copy. Groovy, baby!.... The David Bowie catalog re-issue series is close to a reality, with the first batch of titles arriving in the fall.

RYKODISC has announced their plans regarding the launch of this historic two year series, and as expected it is pure class all the way. "Sound + Vision", a 6Lp/3Cd/3Cass set will arrive in stores in early September. It will be a striking package, but with RYKO's reputation as a leader in the quality control field that should come as no surprise. Visually, it will have a permanent outer shell, state-of-the-art image design and a 72 page book with liner notes by Kurt Loder and a multitude of photographs. Visuals aside, this package could be released in a plain brown wrapper and the more than 45 tracks included would be enough to send Bowie fans into orbit. Rarities in the set abound, with everything from the 7" version of "Rebel Rebel", the demo of "Space Oddity" and the impossible to find 1976 cover version of Bruce Springsteen's "It's Hard To Be A Saint In The City" among all your favorite Bowie classics. But that's not even close to all! There's also an extra CDV with the video of "Ashes To Ashes", as well as three previously unreleased live songs recorded on the '72 Ziggy tour. You won't need a CDV player to enjoy the audio track, but this will only be included in the CD version of the box set. RYKO has outdone themselves, and John

Hammond is about to know what it feels like to be a ballplayer at World Series time, when everyone is calling for tickets....

Another big box is on tap, The Rolling Stones "Singles Collection" will be released worldwide in August. A 3Cd/4Lp and Cass collection with a 70 page, photo jammed book. The selections are from the London Records years, and was produced by and assembled under the supervision of Andrew Oldham. It features every Stones single from 1963-1971 including all the B sides for a total of 58 songs. While there have been many European Stones box sets, this will be the first to get an official American release.... The 60th All Star game was very satisfying for this AL fan, ever since Willie Mays retired that is! Bo Jackson certainly dominated the affair, and people will be talking about his mighty blast off Big Daddy for years. It was also great that Don Mattingly broke his 0 for 8 string in the Mid-Summer Classic with a sharp double late in the game. Nolan Ryan getting the win was yet another plus, but you had to feel bad for Atlanta's John Smoltz who really pitched well despite getting tagged with the loss. When regular play resumes, The Yankees will be at .500, and the time for them to make a real run at the Birds is now, we'll see.... Until next time, remember to keep your ears open.

# INDUSTRIAL NOISE

## NOISEMAKER

**KROQ/Los Angeles** is the site of much shaking and moving this week. Aside from the sobering news of Rick Carroll's death, (see our feature immediately following Noise), there is also big news breaking about Trip Reeb heading North on 101 for the GM post at that leading edge rocker. The position was formerly held by Tony Berardini who remains as VP. "I look forward to bringing Trip's operational expertise to the radio station. His familiarity with the modern music format will benefit KROQ and help take it forward into the 90's", Tony told us. Berardini will still have a high profile at the station and Trip will report directly to him. Most recently OM at 91X/San Diego, Trip had also been highly successful at both KAZY/Denver and KISS/San Antonio. When contacted by Noise, Trip told us, "Needless to say, this is an opportunity of a lifetime". Trip went on to rave about his time with Noble but, in the long run, the ability to get his management chops well honed in the country's number one radio market was just too big a deal to pass by. While Trip gets ready for the action in LA, you can look for things to get hot and heavy at Noble as they begin looking for his replacement.

## JACKSON HEADED FOR U.S.A

In an announcement that marks the first tour for **Joe Jackson** in nearly three years, A&M Records outlines a list of "quality" venues for his \*criss cross tour of the States. In a move away from some of his earlier stands regarding the marketing and promotion of his work, Joe has even been spotted making happy face with **Arsenio Hall**, the Man with the Petro Chemical Smile. Joe is bringing bass master **Graham Maby** with him, along with a tidy fistful of horns to bring things to life on stages throughout America. We can only hope that his latest release will get the attention it deserves in the song list.

## PAUL FLOYD

We all know that **Paul Rappaport** loves his six string. Magic tricks, the kids, Gold Records on the wall and his six string. Talk about celebrity six string action, check out a certain **Stones** concert movie and the axe being slung by **Ron Wood** is a bona fide gift from the self same Rapper. The man loves the guitar and his playing ability has come a long way from those days with the **Savage Young Winos**. Now, it's also no secret that Paul and **Pink Floyd** have been working hand in glove for a long time, but excuse me! Evidently Paul was as surprised as anybody else about the invitation to join the Floyd in London for a stand up with the band. All we can say is that after a little jaunt like this, the man has still got to be in reentry.

↑ Pablo during a performance of "Run Like Hell".

## BAD DAY AT BD&A ROCK

Word in the pipe this week has several Great American stations dropping their relationship with **BD&A**. Long time stalwarts **KYYS/Kansas City**, **WLWQ/Columbus** and **WKLS/Atlanta** have all jumped ship and we have news that **KZAP/Sacramento** has also exited. Insert something about the tough getting going here, I think.

## MORE ENIGMA CHANGES

Official word breaks this week the longtime **Epic Rock God Jon Kirksey** is heading to **Enigma** for the VP/Rock desk. The move has been endlessly labored in the trades and we hear that the stars all came into alignment over the last couple of weeks. Also at **Enigma**, the new National Director of Modern Rock and AOR Promotion is **Ron Cerrito**. Ron formerly worked at **Billboard** where he worked with the Progressive Chart, among other things and we count him as one of the best transfers to make the move from print to a label.

## I.R.S. BANGS THE BUCK

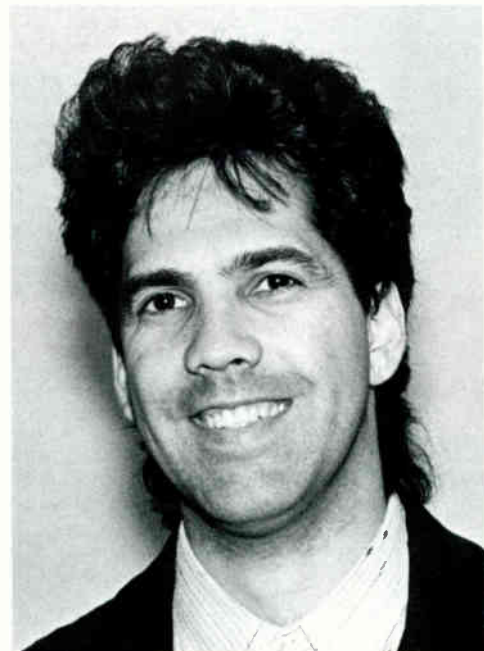

After a small bidding war for a band called **Alligator**, **Barry Lyons** called exuberant about his new signing and what he called an, "expletive deleted song". Look for a tune called "**Sea Of Fire**" to rip it up in a couple of weeks. "It's sort of like **Ring Of Fire**" but with bigger horizons." Now that you've hawked your tupperware, how is the restaffing going? "We keep shaking things up, looking for the right combination, there is always expansions and contractions when a company goes through the changes we are right now." But as for the field staff, Barry told us, "We are looking for someone to handle the Midwest out of Chicago and we need a person for the West Coast as well. I'm also setting up a system here in LA where some people will work the tertiary markets on the phone. That way I can train them right here and set up my next generation of field people." Any more tupperware, Barry? Any general bitches you wanna air? "Yeah, tell 'em that the new **Alarm** is shipping September 18th, it's produced by **Tony Visconti**. The only bitch is that I have spent so much time wrestling with administrative stuff that I haven't been spending as much time with radio as I want to. Ya know, when it all works, it's great". Ahh June, that boy of ours.

## CAT FIGHT! CAT FIGHT!

**ABC Radio Networks** won a round in their running battle with **WW1's "Casey Kasem's Top 40"**. The spin off of their long lived partnership with **Kasem** has been fraught with legal stink and the latest action is more of same. **ABC** sued to stop **Westwood One** from using the term "**CT40**" in connection with program content, jingles, advertising or promotion. The point being that **ABC's** show has long used "**AT40**" as an on-air logo and took them about 30 seconds to cry foul on **WW1's** slipstream positioning. And now, a very special request from someone in Federal Court.

## SBK MAKES MENA

Long time **A&M** Alternative fixture **Mike Mena** has jumped to fledgling **SBK** in a position that should make good use of his skills. Mike has been named the new National Director of New Music

Promotion and Marketing. His new boss, **Daniel Glass** told Noise, "We are extremely fortunate to have somebody with the background and experience of **Mike Mena** at **SBK Records**. This is the man who guided **Suzanne Vega**, **John Hiatt**, **Robyn Hitchcock** and **Soul Asylum**. You know he belongs at **SBK**. Watch what he does with **Wendy Wall**, **Will and the Bushmen**, and **Katrina** and the **Waves** this Summer!"

↑ Same as it ever was. Mike Mena in his Dad's coat.

Diesel Park West is even more immersed in Springsteen (the promised land expedition of "Like Princes Do") on the group's just-released "Shakespeare Alabama" album, but there is also a touch of Kinks' social observation and wit in places, notably the satiric "All the Myths on Sunday."

The quintet, formed in the early '80s, is based in an industrial region of England, and the group's often provocative lyrics have a blue collar undercurrent.

"I try to write songs from my own experience, which has been working class, secondary modern, factory fodder," explains John Butler, the band's singer. "I live in a city totally geared to that system."

**CONCLAVE-ATORIUM**

Minneapolis is starting to look pretty damn good. The heat and humidity in Jersey have been beyond thermal and we are waiting for the entire state to spontaneously combust and then get put out by all the moisture in the air. We are talking Venus here! So some time spent anywhere else is right on the money for this boy. How nice that the excuse is a genuine occasion. The Upper Midwest Conclave has fast become a big bright "E" ticket in the Disneyland of confabs right now. The gathering has been known to bring a strong regional contingent, with distant cousins like Stan Main of WCMF/Rochester making the trip because, face it, some of the best radio coming out right now is coming straight from the Pita Pocket of America. We anticipate that air conditioning will be an option this year as last year's Sauna Arms was like pouring gas on a fire when the suites got going. The sessions were incendiary from time to time as well. The attraction of the Conclave is that it is one of the rare events where one feels that you can say something and be heard. Somehow, there is less corporate posturing and ID Badge mentality at the Conclave and the result is a very productive environment for the broadcast professionals in attendance. So, how soon do we leave Jersey?

**THE RADIO RUMBLE**

WLVQ/Columbus MD Wendy Steele has departed the station following 9 years in the headphone groove. Wendy is shopping for a deal that would get her an on-air MD post in a major market and given her recent ranking as one of the Billboard nominees for Personality Of The Year, that shouldn't be too difficult to knock down.

WFBQ/Indianapolis took umbrage at the decision by NBC to replace Merlin Olson with Bill Walsh this year for their highly rated NBC football coverage. The afternoon team, Jim "Mad Dog" Matis and Chick McGee, decided that they weren't going to take it laying down. They decided that maybe a little "pick me up" was in order, so they launched a campaign to reach the jilted Merlin which continues at press time. The other side of the coin is, of course, a clutch of dead flowers to be sent to NBC President of Programming, Brandon Tartikoff.

KBCO/Boulder resolves a rare announcer opening with the news that Richard Murphy has joined for their all night shift. Richard comes over from KKFM/Colorado Springs.

KFMG/Albuquerque is in search of a new morning talent following the departure of Jeff Curtis who held down the fort for the last five months. PD Glenn Stewart called to inform us of his need and said that he was leaving things open as to whether or not to go solo or team with this new opening. "No shot in the dark hopefuls", said Glenn, "We need a serious talent who can work well with others in the studio and out." T&R's should be directed to Glenn at KFMG, 5700 Harper Drive NE, Suite 290, Albuquerque NM, 87109.

WMMR/Philadelphia is putting the Morning Zoo on the road once again. John DeBella and his team are scheduled to broadcast for a week at the Trump Plaza Casino in Atlantic City. This is the fourth year the Zoo has broadcast from the Boardwalk and over 1,000 listeners were in line as early as 6am for their tickets to the live studio audience broadcasts. "This type of radio show, with a live studio audience, isn't done anywhere else in the country", said DeBella when announcing the week of dates.

KBER/Salt Lake City sees the arrival of group owner Chris Devine to take the helm. Seems that their previous GM is going in the out door and Chris will be nailing things down while a replacement is sought.

↑ Another Extreme night for A&M Records. Members of the label's politburo with the band during a recent show in Los Angeles. The band is getting up a head of steam and should not be missed out there on the road.

↑ So, tell me about your childhood. Pete Townshend trying to get the name of a fan of Polish extraction. Actually what we have here is photographic proof that Music Awareness Promotions hand delivered 200 people from 96 radio stations to NYC to witness the first two performances of "Tommy" by The Who with guest performances by Elton John, Billy Idol, Robert Plant and Phil Collins. The winners were selected from across America and Pete was gracious enough to spend time with the crowd backstage. Here we see him trying to get that third "t" into Ratittovskyowiz.

WHTQ/Orlando resolves a few airshift questions this week with the news that T.C. McGuire has joined for night duty with Lou Bennett moving to overnights.

WIOT/Toledo names Mike Young to their vacant MD post this week. Mike is also the guy who keeps Toledo rocking nights, so he should be a pretty busy boy these days.

CFNY/Toronto has a new morning look with the appearance of Humble Howard on their frequency. Howard has notched time in the AM at Canadian stations CFOX, CKIK and CJFM. He has also spent years working the LA TV circuit and doing stand up from Medicine Hat to Metropolis. Howard, whose real last name is Glassman, will be working Fred Patterson as co-host and Sports Director. Look for the team to get wired for sound by August 8th.

WPLR/New Haven introduced their new morning team this week amid much fanfare. The show will feature veteran comedy performers Gary Lazer and Earl Reed who have both logged mucho time out there on what passes for the Borscht Belt of the 80's. Lazer has MTV, The Today Show and Showtime on his resume and is a fixture at the Catch A Rising Star clubs in New York, Las Vegas and Chicago. Reed has worked more than 100 colleges and 50 comedy clubs with lots of experience opening for musical acts along the way. GM Manuel Rodriguez told Noise, "We are revolutionizing the way Connecticut listens to morning radio. We will remain the cutting edge of rock and roll, but with Lazer and Reed our entertainment values will skyrocket."

KFOG/San Francisco has a rare overnight opening to fill. Must be totally professional and desire living in one of the finest cities known to man. Interested? Get your T&R in the mail right away. Please, no calls.

↑ WDVE/Pittsburgh getting religion in the studio of the immaculate conception. The occasion was the arrival of Hightone recording artist, the Reverend Billy C. Wirtz.

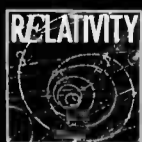

WZXL/Atlantic City named morning guy Mike Ondayko to their newly created APD position this week. PD Barbara Voight called to tell us that Mike has done such a good job to date that he just naturally earned the new responsibilities of an APD job. Look for Mike to continue in his role as chef of the Big Breakfast.

# JET RED

**Beaver Brown, KDJK, Modesto**  
*I hope everyone has checked out the entire Jet Red CD on Relativity. It is so chock full of great songs it's hard to ignore. If you like rock and roll (and I know you do), give this outstanding debut a listen.*

**Joe Skare, KFMQ, Lincoln**  
*"This is a great Summertime party tune that we liked from the first listen. It's working well here with phone response increasing every day, it wouldn't surprise me at all to see Jet Red crack our Top 5 very soon. Crank it up!"*

WBLM/Portland blew fuses and connection for 17 separate towns when they culminated their 16th Birthday celebration. The station asked for callers to hit the phones when they played their one millionth song, caller 107 to get a home stereo system loaded with, among other things, 107 CD's. The result jammed the lines for Portland and 16 other surrounding towns as eager listeners crunched their redial button with a frenzy more frequently akin to feeding sharks. Phone service in the metro was disrupted as a result and the folks at WBLM could count their 16th birthday a huge success.

WOXY/Oxford PD Kerry Gray announced his recent nuptials to the new bride Lee Ann this week. Congratulations to the young couple and remember, never go to bed mad.

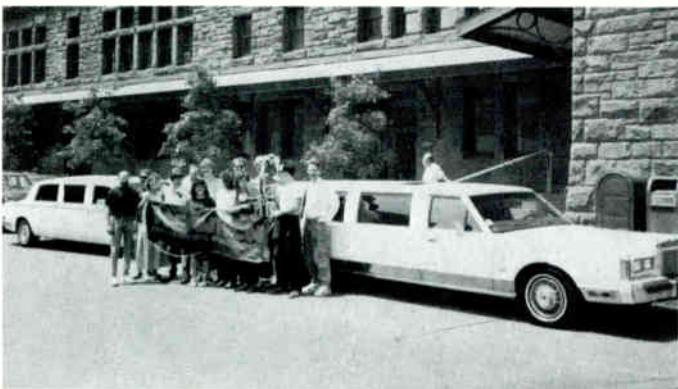

KATT/Oklahoma City as the recipient of a visit from the World's Largest Pickle. The pickle received the start treatment from its work on the cover of the Talking Heads cover jacket to "Naked". Here we see the staff paying homage to the almighty Cuke Of The Gods.

WAAF/Worcester is shopping for a creative mainspring for their morning show. Topical, funny and adventurous best describes the talent they are looking for so get your best in the mail ASAP as this one won't last long.

WLLZ/Detroit PD Doug Podell informs us that he will no longer be taking music calls. From now on direct all that promo energy to Gary Palmer. The station will continue to take calls all day long, five days a week, but Gary is the guy from here on in. Also at the station, they are happy to announce the addition of Dan Carlisle to their airstaff. Dan has punched the on air light at Detroit legends WABX and WWWW so he won't have any trouble with those street names.

↑ WHCN/Hartford shipping off a dozen listeners to see the Who in NYC. They made use of two white stretch jobs, one of which was a Rolls. We are informed there are only ten such vehicles in America. Well, now there's nine.

KBAT/Midland names Mark Zeiger to their afternoon shift and, aside from being the on air pilot of their rock and roll afternoons, Mark has been handed a Production Cowl to wear in the halls. He's a scary guy alright. Congrats, Mark.

WCCC/Hartford MD Joe Marino is moving from afternoons to nights at the station so his music calls will change accordingly. You can now reach Joe on Monday and Friday from 3-5pm. Adds will be ready Tuesday at 12noon.

WWRX/Providence makes some changes this week. Rob Wagman leaves behind his turntable to become Promotion Director and Jim "Huck Finn" McGuinn steps up to the bar to fill that still quivering MD slot. Former Promotion Director Jane Donovan now concentrates on her air work and production duties at the station.

KINK/Portland MD Keri Stone exits the station to further her education. No replacement for Keri has been named at deadline but look for that situation to be resolved soon.

↑ KGB/San Diego and a few dozen Queensryche fans caught during a special pre concert party.

WWCT/Peoria is in the market for a new morning show talent and you just might fill the bill. Creativity, visibility and topicality are a must. Candidates must have enough ego to do a good job but primadonnas are not welcome. Get your T&R to Rick Hirschmann at WWCT, 1111 Main Street, Peoria IL 61606. No calls please.

WWZU/Williamsport joins the rush to a rock driven CHR approach with news of a format switch on the immediate horizon. No staff changes are expected but look for the music to be stood on its head in the next day or two. One source told Noise, "The station has been doing AOR for the last three years and while we have done well, we haven't been able to translate that success into sales. In this town they want females, females and more females." Nothing wrong with that bias bud, except that it costs us yet another AOR signal.

↑ KMJX/Little Rock in a line-up with the BulletBoys and staffers David Allen Ross, Sharp Dunaway, Carole Kramer and Casey Jones.

KZEP/San Antonio is looking for an airtalent conversant with the lifestyle approach of a 25-49 adult AOR. You should be confident but not cocky and able to adapt to the market quickly. Get your best to Dana Brown if interested. The address is KZEP, 427 East 9th Street, San Antonio TX, 78215.

WCKW/New Orleans has changed their phone number. The new info is (504) 524-0768 so alter your rolodex accordingly.

WEQX/Manchester co-promoted a recent sold out concert by the 10,000 Maniacs and here the folks get in front of the old brownie. Smile for the folks back home.

KZEW/Dallas is still looking for the PD they need to execute the station's turnaround. Candidates should be capable of implementing the new format direction being touted at the station. In fact, young PD's from small and medium markets are encouraged to give this one their best shot. Key to winning the roses on this one will be the ability to put egos on hold and play with the team. get your best materials to the station ASAP for due consideration.

↑ WIZN/Burlington pictured getting their mitts on the Program Achievement Award from The Vermont Association of Broadcasters. The station also got an award for Outstanding Marketing and Promotion. Here's lookin' at ya!

WPYX/Albany makes Smokin' Joe Moss their official MD. Joe had been "acting" MD for some time and just got the nod this week following some hard work down in the turntable trenches. Also form the station, morning teamsters Mason & Sheehan have been broadcasting live from France all week to mark Bastille Day.

KISW/Seattle raises Dave Douglas to APD status this week following some long hard work as Research Director. Dave will continue in his research capacity while helping out Sky in his programming efforts.

WRXR/Augusta names Mark McClure to their new Assistant GM and afternoon on air slot. Mark moves over from Nashville and should make a big difference with his many years of big league experience.

↑ WGIR/Manchester has been spearheading blood drives in their state for a dozen years. Here the staff is seen being presented with a proclamation by Governor Judd Gregg.

WAZU/Dayton PD Jim Leven exits to pursue ownership and will be replaced by long toothed pro Mike Luczak who steps over from WEBN/Cincinnati. Also announced, Eddie Mercer is now the MD at the station as things get ready for that next stage of growth.

WIXV/Savannah raised over \$42,000 over the Fourth with their Jail and Bail promotion. The event benefited the American Cancer Society and was spearheaded by the morning team of John Garber and Mary Ann Eddinger. The team was arrested for felonious funniness and the audience responded with a huge outpouring of cash to insure that they would be back for another shift. It took two days to convince the powers that be that the Garber and Eddinger really deserved to live among decent people, but when they were finally liberated the station celebrated with their 2nd Annual Free 4th Of July Concert at Hilton Head Island.

↑ WMMS/Cleveland getting a grip on things with Kingdom Come.

KGON/Portland MD Bill Prescott was spotted on stage recently when Warrant hit town. The man was cranking like a real guitar hero on a Cheap Trick cover during the encore. The band left their audience wanting more and Prescott is just the guy to handle that action day in and day out.

**REPORTING NOTE:**

The Hard Report are proud to welcome some new stations to the team. WGR/Buffalo has signed on this week, as have WTUE/Dayton, WRXR/Augusta, WZRR/Birmingham and KDGE/Dallas. With all the news As for stations making a move to AOR, check out KLZX/Salt Lake City and KZKZ/Ft. Smith... all hail rock and roll!

**MARRONE TO MEGAFORCE**

There will be hamburger all over the highway in Old Bridge New Jersey with the news that Mike Marrone is departing the Hard Report to become Director A&R/National AOR Promotion for Megaforce. The company that is about to sear the modern world with their upcoming King's X release will get a few thousand degrees hotter with the arrival of Mr. Mike. Here at the Hard Report, Marrone has been an endless source of musical knowledge and Jersey wit, "Just jerk it Trapp", and we will miss him tremendously. As Mike puts it, "I'm still in a state of shock, but Jon and Marsha have promised to let me continue therapy! All kidding aside, this is the area of the business I've been working toward for the last 15 years and I couldn't be happier. It will be a challenge, but with the kind of close knit family type staff at Megaforce, I'm sure I'll get plenty of support through the transition. It was a whirlwind of a year at the Hard Report, and I'll never forget the outstanding bunch of people that shared the cabin, and taught me a great deal. They will always have a special place in my memory. Dawn, Jim, Chris, Jeff, Rich, Mike V., Beth and of course Bill and Collie --- thanks for everything. Now, about that King's X record....." Work me baby, work me. Replacing Mike will be 20 year industry veteran Norman Hunter. Norman began in retail back in 1969 and quickly progressed to Head Buyer for the Record Bar chain. During that time Norman was instrumental in getting a number of now well established acts off the ground. Two years ago Norman left Record Bar for a position with Radio & Records, where he began work on a special retail section for that publication. Since that time Norman has been consulting local labels and bands while looking for an opportunity like this to get back in the saddle. "I am, first and foremost, a music junkie and that is where my energy can best be used here at the Hard Report", Norman told us, "I have a passion for this business and I am not shy about sharing that exuberance with others. I'm really excited about the opportunity of working with the Hard Report. I have known Bill for 15 years and I have a great respect for his ears, (not to mention the rest of his body), and I am looking forward to working with all of the team at the Hard Report to expose all this great music."

## ROCK OF THE EIGHTIES PIONEER RICK CARROLL 1947-1989

Rick Carroll, broadcaster, cultural innovator and creator of the first successful modern music format, passed away this week in a shocking and sad turn of events. It was ironic that Rick had only just started to see the effects of his latest changes at KROQ take hold when, tragically, he died due to complications arising from pneumonia.

Rick started in the San Jose Top Forty wars of the early 60's. He was a teenage prodigy, steeped in a classic Top Forty presentation, an influence he would never leave behind. Face it, most of us are in this business because of those great Top-40 stations. The excitement they conveyed, the energy and pace, the ability to project a vibrant and insistent presence in that rattling dashboard speaker. That was the inspiration for many a young man and woman who subsequently got into the business, but for Rick it was much more. Top-40 and radio were synonymous to Rick and those incredible Bay Area signals of the 60's were to become the cornerstone of all his work thereafter.

As the young PD of KNDE/Sacramento and KROY/Sacramento he took the lessons learned in the Bay Area and went one step further. The crucible of those Olympian Top-40 giants KFRC and KYA laid the foundation, but it took Rick to create something brand new. An AM Top-40 format that took into account the upstart rise of album rock at then freeform renegade KZAP. It was his first of many hybrids and made the stations he worked for in Sacramento creative showpieces, hints of what the future would hold. His stations racked up audience at a feverish pace everywhere he went and it didn't take long for the Bigtime to come calling. Soon Rick was off for his life long love affair with Los Angeles.

Typically, the job was on the cutting edge. It was 1973 and the challenge was to take his format to FM at the then KKDJ/Los Angeles. Nobody had tried a full blown CHR on FM until then. The grand old men of those Top 40 dynasties were paying the price for their willful clinging to huge, soon to be outmoded, AM sticks. It was guys like Rick who pointed the way, who said, "Look we can take this to the FM band too." Following a subsequent stint as National PD of Drake's FM client list and PD of KEZY/Anaheim, Rick was ready for the next step. A new musical surge, dangerous and hell bent for glory, was breaking down the staid Mid-70's frontiers. Another epoch was opening and Rick was there with his seismic sensibilities well tuned and ready to catch a wave.

In an edgy halo of new and dynamic music from previously unknown artists, KROQ never really burst on the scene, so much as it leaked. For years the station struggled on the brink of oblivion with a pathetic signal, seemingly insurmountable legal fights, promissory notes instead of paychecks and the occasional staff bloodbath. KROQ operated out of some ratty offices in Pasadena and no matter how weird it got, you always had the feeling that Rick was right there in the center of the web all the time, adjusting the sound, making split second decisions. An exposed wire with the sound of the station running through him for current. Of course, after all the hard work and insane hours paid off there was a long list of gladhanders ready to say "I knew it all the time", but Rick would just sit back, smile and think up the next sound.

Success came like an avalanche and soon Rick was consulting companies all across the globe. His ability to devine the best in any trend and make the most of same set him apart quickly from a host of poseurs. In fact, his budding Rock Of The Eighties format was soon heard on stations throughtout the country. That it didn't stick, that it gave Managers the heebie jeebies for years afterwards was one of his biggest disappointments. But there was always LA, with that enticing strip of Malibu and the best, most dependable, (i.e. static), Freeway Culture in the known world. An environment custom made for his medium. And in LA, the man was King. Every time Rick left KROQ to devote energy to his other operations, the station got hurt. Every time he came back, (three times in all), the station showed positive results. His was the single presence that made things work, no other testimonial is more telling.

As a new music revolutionary he frequently got mixed up in his Top-40 revisionism. But, in the end, it was his technique of pushing Modern Music through a Top-40 filter that made the difference. Borrowing heavily from the clocks and rotations, the pacing and mechanics of his own days in AM, he came to the ultimate understanding, "Play a *song* like it's a *hit* and it will become a *hit song*." To accomplish this simple but devastating formula, Rick needed complete control and he wouldn't settle for anything less. When many began to view the format he was devising as a new form of free expression, Rick would set the record straight in an admirably honest fashion. This wasn't a new freeform format, this was a music machine with precise tempo restrictions and high frequency rotations. For years it was the perfect combination and the number of bands who sprang to national prominence from his formatic springboard remains unchallenged.

His claim to influence was natural, the automatic by-product of years spent in the front rank of his profession. Rick, after all, could deliver Los Angeles on a platter, *if* he believed in the tune. And another thing, if his format had had better luck during its initial expansion then none of us would be acting so damn surprised about all this Rock40 stuff today. That's Rick's legacy too, and all these guys taking bows for building on his work are just part of the window dressing. But, as usual, he was way ahead of the pack. It only took the rest of us about seven years to catch up.

When Rick got back from a hiatus in Cabo San Lucas to begin his third run at KROQ we talked about how things had changed. "The thing is to create a KROQ that will work for the future. It's a different animal now than it was when we started up. The people we counted on to build that station aren't there anymore, or they have changed so much that the effect is the same. What we have to do is apply the same approach to these new conditions. Match the lifestyle development of that audience and give them what they want, not what we think they want." In the long view Rick was a populist, not an elitist. He just had a wider vision of what the public could absorb, the guts to stake his whole career on that instinct, and the talent, not to mention the stamina, to pull it all together time and time again.

The official press release reads, "Everyone at KROQ mourns a leader and a friend". I can't really improve on that except to add my own note of personal regret and thanks. In 1972 Rick hired me fresh from High School to be the News Editor at KNDE. It was a rare chance to see a master at work, witnessing first hand how to make a radio station special from the ground up. All that I have done since then has carried with it some small imprint of his teaching, and you can't find that on the rack, at any price. Thanks, Rick.

**Hoodoo Gurus "Magnum Cum Louder" (RCA)** These rock and stomp champions from Down Under are back to reclaim all of the fist-waving fans who adore the non-stop energy and roar of Guru guitars. It's like coming home to the sound we try to measure other bands up to, but the Hoodoo Gurus will not relinquish their title anytime soon. They're quite skilled at pumping out fun-filled tunes that ride on a wave of electricity, and shred through the bull to give you a free-wheeling song spree that lasts for days. Most importantly, the Gurus are like no other, so anyone who tries to dribble out tired comparisons has certainly missed the point. Lead singer/songwriter David Faulkner cuts through those crisp, aggressive guitars with a tremolo voice that by now, has become a mark of excellence for the band. Meanwhile, Brad Shepherd's wiry leads give 'em the grit and growl that makes the band's personality come alive. The Hoodoo Gurus have built up enough steam on the first three albums to ruffle a few feathers on "Magnum Cum Louder", as they branch out and explore a slightly adjusted musical approach. 1987's "Blow Your Cool" was fast, rugged and sun dried with enough string burn scorch even the die hard admirers. Now they embark on a new phase of their career. The hi-fi result is the presence of Faulkner's warm, velvety keyboard treatment and more sing-a-long songs than ever before. Once this disc gets under your skin, you will follow them in any direction: From the pure pop brilliance of "Come Anytime", "All The Way" and "Another World"; to the swirling fascination of "Hallucination", "Shadow Me" "Axegrinder" and "Baby Can Dance"; and buckle up for the fierce blitz of "Where's That Hit?", "Glamour Puss", "Death In The Afternoon" and "I Don't Know Anything". Repeat after me: The Gurus are Gods.

**Winter Hours (Chrysalis)** With a major label deal backing their second album, Winter Hours moves into full swing with the ambience they kept honing until the time was right. The echoing landscapes and calm hue that surrounds the songs on "Winter Hours" is purifying and cerebral at the same time. Their clarity of purpose is felt in the sea of swaying guitars guided by the airy, cool voice of Joseph Marques. This NJ band always strived to

create a ceremonial feel, introduced on their earliest independent releases. Now they venture into the hands of producer Lenny Kaye and the music slips even more naturally into a state of thoughtful reflection and solitude. From the first notes, a pedal steel lead in reminds us of the American Music Club's "California" album. Beautiful landscapes materialize before your eyes with the country charm of "Roadside Flowers" and soft rock along with a sober touch of folk, lays the groundwork for the sparkling sounds that will draw in anyone with *blue guitar* radar. "Smoke Rings" stands out with its moody, single string melody that haunts along a rock steady groove. Don't miss the soothing acoustics of "Broken Little Man", that revive a traditional sound, conjuring up the smoky hooks in the 1986 album "Leaving Time". For added depth try "Just Like Love" and "Stay With Me".

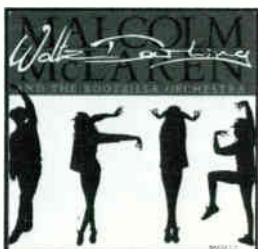

**Pop Will Eat Itself "This Is The Day...This Is The Hour...This Is This!" (RCA)** The grand Grebo speaks again. A musical montage of every dubious facet of western culture, Pop Will Eat Itself is quite a remarkable concept. The bastard children born of the apocalypse keep growing, as we become absorbed into the computer age, manipulated by the media giants in bed with politicians. And what do they do but chuckle at the thought of the psycho-sleaze that's slowly oozing from cracks

in the sidewalk. The Poppies react with an evil grin and spew out samples that link bits and pieces into fragmented images, based on dance-dub rhythms and acid guitar thrust provided by Adam

**Music News**

The storm of controversy surrounding the relationship between Malcolm McLaren and PIL's John Lydon is common, headline knowledge and has been all the way back to the demise of the Sex Pistols, John's "first band". The latest word in this saga is captured in the July issue of "Q" magazine (the coolest, in-depth glossy ever to come out of the U.K.). Johnny hissed, "I'm writing a book about the truth of the Sex Pistols. It will be incredibly unpopular with all the people who love the bullshit and a lot of people better look out. If I have my way I'm going to interview Malcolm but I doubt old fool will go along with it. Or he'll read this interview and try to get his own book out before me." A day without a tongue lashing from Lydon is like a day without sunshine.... Onto media man Malcolm McLaren's newest brainstorm, the single "Deep In Vogue". Who doesn't reflect on the glorious, operatic themes in "Madame Butterfly", and cringe whenever Neneh Cherry samples his forever famous "Buffalo Dance" bits that helped ring in a new dance craze? Back to the future. "Deep In Vogue" encompasses a lot more than slick, sophisticated body beats and synthesized hooks. The motivation came from the dance club trend called Vogueing, or moreover an attitude of fashion and dance that has taken off in trendy Parisian and New York nightspots. The term describes a movement incorporating mime, various "chic" poses and flamboyant hand

Mole. The future is uncertain, but there's plenty of present chaos to focus upon. Graham Crabb lets those explosive, percolating beats run rampant around Clint Mansell's cynical vocal lead, stirring up real a real frenzy in the process. It's hard to pinpoint when this industrial crush began, but Executive Slacks, Age Of Chance, Front 242 and Propaganda all come to mind. Pop Will Eat Itself seems to have seized the moment with an attack on logic and a mish mash of fleeting thoughts found on "This Is The Day". It includes the "Can U Dig It?", "Def Con One" and "Wise Up! Sucker" singles plus new and exciting mind benders "Preaching To The Perverted", "Not Now James, We're Busy" and "Inject Me".

**Monks Of Doom "The Cosmodemonic Telegraph Company" (Rough Trade)**

The Monks are three parts Camper Van Beethoven and one part Ophelias, and on their second album they continue to sculpt the curious machinations introduced last year. It's liberating to hear the experimental elements from both of those San Francisco bands assume a new psychedelic identity in this spinoff project. Although the novelty factor is high, the Monks Of Doom have definitely reached a new plateau

dominated by their own style of free-thinking fret work. Some songs echo content similar to that of Henry Kaiser or Arto Lindsay, but there is always a reminder of paisley, peace signs and even the pompadour. The kitsch is that the playful guitars create pure fantasy while helping to shape the new *now* sound. The record isn't overstuffed with sixties references as they pick and choose their sound elements wisely, with a hint of mischief that makes the disc divine. From the mind-altering instrumental charge of "Vaporize Your Crystals" to the swagger of "Trapped", they bomb you with tripped out variations and fill the air with *good karma*. They attack every note with a twist of purpose, manipulating the melody and beat with quick wit. Not just a series of bar chords leading to the next chorus, the Monks Of Doom mold each song into neat shapes and then bounce it off the wall like *Silly Putty*. Try the dark, cavorting rhythms in "Voodoo Vengeance", "Unexplained Murders" and "The Beach Of Deception". We're happy they broke the code of silence.

gestures while moving to the music. Sounds fun? McClaren responds to this trend along with production help from Bootsy Collins and Phil Ramone, bringing those lustrous sounds to a new high. It's available on Epic Records.... Yeah, "Licensed to Ill" was just a little too big for its own britches. Now comes the *new* Beastie Boys single, "Hey Ladies" on Capitol Records and it's a bruiser. Finally, the sneak peek into "Paul's Boutique" has graced us with its assaultive tone, and this time we're not wincing. The absence of Rick Rubin is immediately noticeable. Instead of metal riffs, a more "blunt weapon" rap stance takes shape. The Dust Brothers, who brought you "Wild Thing" and "Funky Cold Medina", alter familiar rap monotony into a garbled sampling mix, featuring the theme of "Baretta" and numerous other tidbits. This ain't "No Sleep Til Brooklyn". "Hey Ladies" is a welcome sight in a land of Daisy-rappers and when the Lp hits us later this month, the debris will scatter all over the place. Forget maturity. Expect rudeness and enough wah-wah pedal for a nation of boys in VW pendants. (B.R).... New York City has been the base of operations for the distant tones of Blue Blue Blue, a band that has just released its first C'est La Mort album, "Reclusallucination".

The spacious string arrangements and mysterious atmosphere looms over the vocal lead of Shaun T. (who shares a slight resemblance to Cindytalk's Gordon Sharp singing a pop song). John Figley's drums sachet through each song with precision craftsmanship, and the sonic graze of guitars seems to be an offshoot of the thick, lusty sounds made popular by Bauhaus. Blue Blue Blue is a band that will find a lot of praise on the left side of the dial, especially with songs like "Mr. Melancholy" chiseling away at your senses. Seek out this elusive band and you'll find more than a few treasures to give to curious radio listeners. Their songs are hypnotic and soar on peculiar rhythm patterns that lure you in on the same level as the Sugarcubes' unconventional pop wisdom. Also recommended are "The Happening", "Mother And Father", "Red Square" and the Killing Joke surprise attack in "New Joke". Seek and ye will find: C'est La Mort Records, P.O. Box 91, Baker, LA 70714....

After a ten year existence, The Blases have finally released their debut album on Permanent Rave. They were too busy building up big local support in the Tri-State area I suppose. But that's another story. Two original members Rob Wagner and Wilhelm Donohue recruited Joe Delorenzo and Rob Angelo and gave the band a new lease on life. The rest of the tale is still taking shape and could well prosper under their ambitious, energetic line up of pop songs. "The Blases" album offers a promising new sound that draws on remnants of the late 70's *new wave* era, and the last time we said that was in the Posies review. They have a certain innocence that justifies the lighthearted character of songs like "Time Walks Away". Wilhelm's keyboard accompaniment sounds like a page from the Costello book, warming you with "Oh Mammy", "I Walk Alone" and "Firefighter" (also found on the WRSU/Rutgers "Mental Floss" compilation). It's easy to like a

band as honest as The Blases. Write to Permanent Rave Records at P.O. Box 28, Sayreville, NJ 08872.... Before the Metal Department makes off with another killer punk/metal pick, a plug is in order Half Life on the alternative side as well. Punk rock-thrash is a pre-cursor to metal, and even though the trend has been overshadowed by tons of flying hair, there are still a few stubborn hangers on, hammering away at the speed of sound. Half Life barrel asses at hyper speed on "Never Give In", the band's first album on Skylad. The thick, impenetrable wall of electric guitars leave no room for doubt that a big, crash of guitars is upon you. Simplicity is the trade-off for a blunt punch of bar chords, and they carry that buzz and

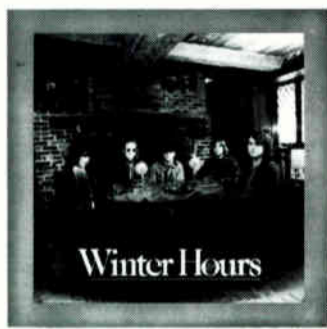

grunge commitment to the hilt. You must be wondering, why all the raves about another speed core band? The answer is "United And Strong", of course. It's invincible, and even though *fuck* starts the whole bomb off, you can hardly notice that minor lyrical stab under the weight of the volume. More delightful din can be found in "Crawling" and the zap of "Something's Missing". Point this record out to the punk rock refugees in your town and give the Proletariat records a rest. Contact Skylad Records, 6 Valley Brook Drive, Middlesex, NJ 08846.... When Euro-disco rears its ugly head, I usually clear the area in a matter of seconds, but now it's time to second guess better judgment and mention the sprightly bounce of the new Hubert Kah single, "Machine Gun". It got the best of this ragged guitar worshiper in one spin, by conjuring up memories of the first time I heard songs like "Video Killed The Radio Star", Sharpe and Numan's "Change Your Mind", Art Of Noise's "Close To The Edit" or even the space age creations of Klaus Nomi. "Machine Gun" won't exactly fit in with the Dream Syndicate or Jesus And Mary Chain, but college radio favorites New Order and Depeche Mode don't either. Hubert Hah's forthcoming album, "Sound Of My Heart" is available on Curb Records, 3907 Alameda Avenue, Burbank, CA 91510....

Enigma Records announces the first single from Red Flag, "If I Ever", from the forthcoming "Naive Art" album. Brothers Mark and Chris Reynolds are back with more of the dance Mode that Alternative to Top 40 crossover stations will welcome with open ears. A bubbling beat ricochets back and forth under melancholy arrangements that are destined for a vigorous hit radio workout, but for now alternative stations KRCK, KTOW, WOXY and WRAS give it an early send off.... Be sure to check out the new Beat Farmers tune, "Girl I Almost Married" already on KABL, KACV, KOTR, KRCK, WHTG, WMDK, WOXY, WRAS, WXVX, KTYD, KPEZ, WTPA, KMOD and yes, the almighty KGB in San Diego. Why aren't more Album Rockers standing up for this delightful taste of country pop/rock from one of the West coast's finest guitar outfits? Well, it looks like those who listen finish first - go for it - and you'll be ready to rock with the forthcoming LP, "Poor And Famous", due out this week on MCA Records....

PRODUCED BY LENNY KAYE

**CHARTSTARS**

If you were watching playlists earlier this Spring, you may have noticed Mary's Danish snagging heavy airplay at KROQ with their single, "Don't Crash The Car Tonight". Chameleon Records recognized that gem and is now concentrating strongly on the album "There Goes The Wondertruck...", which debuted three weeks ago and made the leap from 34-14\* this week. In the Add column are WFNX, KCMU, KCRS, WKPX and WXRT, while KACV, KUCI, KUNV, WBER, WFIT, WHTG and WTSR call in with increases.

With such infectious hooks, you wouldn't think that the atmosphere runs so close to industrial pop, swirling guitar and dizzy vocals, but the combination winds up sounding like America's answer to Voice Of The Beehive. We assure you it's best turned up real loud to let the thundering drum and bass lines surge through the speakers. Reaction proved immediate and lasting. KJQN's Mike Summers says, "It was one of our best testing songs of the week"... And Gina Galli from WBNY says, "Wow! It's a combination of Throwing Muses and Voice Of The Beehive. I like their raspy vocals down n' deep".... Syd Straw's solo debut "Surprise" on Virgin Records is both exuberant and thoughtful, raw emotion communicated through Syd's magical voice and most potent weapon. The force of "Future 40's" helped earn a

23\* Album Debut and a 20\* Debut on the Tracks chart this week. Like a quaint stroll down a forgotten road, wistful memories that Syd draws on wash over you and never fade away. Added at KACV, WBRU, WRAS, KUCI, WBER, WFIT, KUSF, WKPX, WLRA, WNHU, WTSR and WWUH this week, we see increases counted at WFNX, WHTG, WNCS and WVVV. Jamey Karr at KACV says, "An amazing record, an emotional roller-coaster"... We hear must play melodies in "A String Of Pearls", "Heart Of Darkness", "His Turn To Cry" and "Sphinx". Live, she's a hauss on fah.... Fetchin' Bones continues to surprise an unsuspecting radio crowd with the band's new *image*, and line up of incredibly catchy songs on the Capitol Records album, "Monster". Added this week at KJQN, KCPR, KCRS, KTAO, KUNV, KUSF, WBNY, WCDB, WNHU, WRVU, WUNH, WWUH and WXRT we see the resulting 20\* Airplay debut in plain view. And early phone mentions include WOXY, WRAS and KCRS, all logging in Top 5 calls this week... Jim McNeil at WCDB says, "Every song on it is excellent, with the potential to crossover and maintain integrity and a unique sound. I loved the songwriting and arrangements!"... "Love Crushing" debuts on the Tracks chart this week at 19\* and overall, Fetchin' Bones is the highest new entry on both charts.... More next week, along with New Music Seminar highlights. See you there!

**HEAVY HITTERS**

**Alice Cooper, "Trash", Epic...** When you think of "theatrical" rock, the first name that comes to mind, no doubt, is this man's. So what does a guy like that do when the current musical trends are leaning very much in the opposite direction? When the big "thing" in metal these days, is having a more "raw and natural street sound"? Simple. He updates his style and sound to a point where his latest tune virtually rings of success ("Trash" is the first cut up to bat from his soon to be released Lp by the same name). In fact, joining him on this song, with some very compatible and colorful vocal support, is the leader of one of the biggest mainstream dreams goin' these days - Jon Bon Jovi. His participation, as well as Aerosmith's Tom Hamilton (bass) and Joey Kramer (drums), along with guitarists Mark Frazier and Jack Johnson - give this cut an 80's style kick in the ol' chorus so it really comes alive. With the success of Alice Cooper veterans like Kip Winger, Paul Taylor, Neal Smith and Dennis Dunaway (the latter two are now in Deadringer), it's about time the master himself showed these guys that he's still alive and kickin'. Last year's "Raise Your Fist And Yell" did pretty well, but we're bettin' that this one's gonna make that one look like snake... uhm, never mind. Just be forewarned that this cut is a rocker sure to shake up the metal ranks in a major way. What a scream!

**Dirty Looks, "Nobody Rides For Free", Atlantic...** Anybody who can pass up a track with a sound like this and a hook this meaty either doesn't deserve to be a programmer, or should just be shot with a large cannon. I for one, (it's like, by the way, my word IS god), (yeah, right - C.B.), anticipate strong audience reaction and heavy AOR and Metal airplay to boot. Of course, that's judging from the strength of this, the first 12" from their soon to be released, Jon Janson produced, "Turn Of The Screw", Lp. "Nobody" seems to have as much of a Kix meets Hanoi Rocks meets old Kiss, (with slightly better guitar work), kind of a sound, as their earlier work's more AC/DC based style. Of course, the vocals of Atlantic Dane #2, (#1 being that Tramp-type guy from a certain N.Y.C. based band), Henrik Ostergaard, still bear an amazing resemblance to those of the late Bon Scott, but this time out, the mix is such that he's not as up front. There's much more of Paul Lidel's groovy, (ever use that word in casual conversation?), guitar to sink your teeth into. Y'know, it just feels so good to look so dirty. That was an inside joke, but you'll probably be able to figure it out anyway. If not, call Peggy Donnelly, tell her you're playing her record, (now, don't be lying to the poor girl), and ask her all about it. (J.L.)

**Mordred, "Fool's Game", Noise Intl...** A lot of the newer bands are stretching out, less afraid to cross the borders once deemed off-limits. More and more acts are now cultivating elements of thrash, jazz, funk and reggae, etc... into their metallic mix, allowing them to clash in what can only be called - creative chaos. It's a wonderful potpourri of sounds, textures & tempos. And musically, it's not only a challenge for the band to write and play this stuff, but it becomes quite a physical thing for listeners as well. No more ho-hum formula rock for us! Like Faith No More, Last Crack and Underdog (among others), these guys run you over with their crush grooves. One minute their assaulting you with the kind of steady and forceful powergrind you expect in a metal band, ("State Of Mind"/"Spectacle Of Fear"), only to drop some funky, thumping rhythms by way of "Everyday's A Holiday" - what a fun song! Just when you start to sway in a tropical kind o'way, the record revs into overdrive with thrashers like "Sever And Splice", "Reckless Abandon" and "The Artist", (Scott Holderby's vocals remind me of Death Angel's Mark Osegueda a lot), and lest you think the magic ends there... WRONG! Just wait 'til you hear their supercharged version of the Rick James hit "Superfreak". It's pretty, well uhm - freaky. Regardless - sit back and feel the frenzy - these guys rock.

**Kreator, "Extreme Aggression", Epic...** Here's a word you usually don't hear describing a die-hard thrash metal band -- maturity. Signs of it are all over this album, and while they still have an incredible amount of potential, lyrically and musically this is their best and most

cohesive record to date. The tracks most worthy of note are the title cut, "Extreme Aggression" -- some amazing thrash, loaded with startling time changes; "Love Us Or Hate Us" -- the title of this one pretty much says it all. It's quite a powerful tune; "Betrayer" -- the great 12" you all seem more than eager to jump all over; "Bringer Of Torture" -- a startlingly insightful look at the serious problem of father-daughter incest and "Don't Trust". This one is easily the best song on the album, featuring a great lead riff, brilliant drums and some rather thought-provoking lyrics. The album was produced by Randy Burns, (of, among other things, Megadeth fame), who did a more than competent job of handling the big board for these thrashmeisters. The guitars don't overpower the instruments and neither do the vocals. Altogether the sound is really good, and you know that usually, if a record sounds good, you're gonna like it lots. (J.L.)

**CHART AX-SHUN**

**Dangerous Toys, "Dangerous Toys", Columbia....** Looks like the Toys are playing to win the always exciting game of musical chairs on our Top 40 Airplay chart. And Jason McMaster, Scott Dalhover, Mike Watson, Mark Geary and Danny Aaron are continuing their steady grind towards the top with a little help from all you people out in radio-land as well as Video America, (the new generation). This week they vault into the Top Ten with a move from 12-9\*. Already the boys have "teased" their way onto the air at KBER, KFMH, KOZZ, KPGA, KRSR, KTEC, KUNV, WCDB, WCWP, WERS, WGLS, WHVY, WJUL, WKNC, WLRA, WMMS, WRFL, WRTN, WSOU, WWUH, WXCT, Z-ROCK, ARN and KNAC, while picking up a couple of new adds at KCSF and KGRG. Also picking up are requests with KFMH, KOZZ, WCDB and WGLS reporting Top Five phone action. Don't forget to put on "Sport'N A Woody", "Feels Like A Hammer", "Take Me Drunk" and the monstrous, must-play - "Scared". Ya see, the playground's mighty crowded, but these guys still got a few tricks up their sleeves.

**U.D.O., "Mean Machine", RCA....** The former lead singer for Accept is up and running, ready for battle in the Top 5, not only with heavy-weights like Badlands, W.A.S.P. and Bang Tango, but also with the revamped lineup of, you guessed it - Accept. It's gonna be a race to the wire folks to see which has the endurance and/or firepower necessary to blow out the still-strong contenders at the top. Well, as it is, Udo and Co. are comin' on strong and givin' 'em all a good run for their money. This week they catapult up 10-4\* on Hard Hitters with strong support from KNAC, KBER, KFMH, KGRG, KISW, KOZZ, KRSR, KTEC, KUNV, WBCN, WCDB, WCWP, WHJY, WHVY, WKNH, WLRA, WNHU, WRFL, WSOU, WVBR, WWUH, WWVU, WXCT, Z-ROCK and ARN (#1). Looks like the audiences are really starting to get into the spirit as well, since requests are building steadily. Already KTEC, WKNH, WNHU and WWUH are listing Top 5 phones for tracks like "Break The Rules", "Dirty Boys", "Streets On Fire" and the title cut.

**Faith No More, "The Real Thing", Slash/Reprise....** And we're not talkin' about cola here folks. Any number of adjectives could be used to describe this bizarre group of men... diverse, articulate, innovative, funky, jazzy and heavy all fit the bill quite nicely. But the one that sums it all up, is captivating. Once you start to listen to this disc, you can't turn it off until it's over. Case in point: I myself, (can ya believe it?), was listening to the CD as background music whilst reading an extremely good book one evening, and during the second song I was forced to stop reading just so that I could listen without any distraction. Yes, it really is that good. This week the band known as Faith No More punches in on all three of our charts moving 37-32\* Hard Hitters, taking an Also Added position and an Also Requested as well. Every track is excellent so choose freely - you'll be happy you did. And remember, if you're not playing this band, you're making a LARGE mistake... or there's something very wrong with you. Word. (J.L.)

**METAL FILINGS**

-Metal Blade has signed a Houston band called The Awful Truth. That be right kiddies, they hail from the same place as the mighty King's X, (who should be #1 on all of your playlists). The word from the venerable Metal Blade N.Y.C. office is that this band is the coolest thing since Faith No More, so I'm sure you can't wait to check that out.... there's a darn good chance that D.R.I. just might be in the studio. If not yet, than sometime soon... and look for Junk Monkeys at the Seminar.

-Britny Fox is currently in the studio to record the follow-up to their nearly platinum self-titled debut Lp. "Fuel The Fire" is the title and the record is currently scheduled for an early October release. Songs appearing on the album will include "In Motion", "Standing In The Shadows Of Love", "Stevie", "Livin' On A Dream" and "Longroad".

-Remember Steve Sheridan from WLFR in Pamona N.J.? No? Well, if you don't, it's probably because he's been hospitalized for the past month suffering from whiplash. You may ask yourself, how in the name of all that is holy, does someone get laid up in a hospital bed for a MONTH with such a seemingly common ailment. Answer: he attends a Metallica concert, (how ironic -- were they playing "Whiplash" dude?), and rips his neck apart while banging his head. Pretty silly eh? Bang that head that doesn't bang... beb. Hope your feelin' better these daze, too.

-Jersey boys Gothic Slam have now signed to Epic Records. Their new Lp is scheduled for a September 12th release and is titled "Just A Face In The Crowd". Included on the Lp will be a cover of Thin Lizzy's "Thunder And Lightning", which was the title track of the last Thin Lizzy studio Lp.

-Jim Saliby has joined the ranks of Concrete Marketing. He will be in charge of overseeing all of the Retail Vision video tapes, including Metalvision, Alternavision and Popvision. He will henceforth be known as Concrete's Mr. Video.... The Faith No More show at WNYU went off without a hitch last Tuesday. Some of the songs they played included: "Surprise You're Dead", "From Out Of Nowhere", "Falling To Pieces", "Underwater Love" and "Epic". They had a crowd of about 20 in the studio including the Jem-master and our own Andy "Panda" Ingkavet.... Congratulations to Russ Gerrior on the receipt of his first gold

and platinum discs, for Britny Fox and Ozzy Osbourne respectively.

-Megaforce has just release some tentative tour dates for M.O.D. in August in the Southwest. Look for them in these towns on these dates: 8/10-Riverside, CA; 8/11-San Francisco, CA; 8/12-Isla Vista, CA; 8/13-Anaheim, CA; 8/14-Phoenix, AZ; 8/17-Ft. Worth, TX; 8/19-San Antonio, TX and 8/20-Houston, TX. Yo beb, if you're not there, you're nobody. (I think I'm finally getting the hang of this record company lingo!)

-In case you didn't already know, Nuno Bettencourt of Extreme, is now an official Hard Hitters guitar god. Just ask George Lynch, Motley Crue, Dweezil Zappa and the world's greatest band, (at least, we like to think so), Queensryche, among others. Seems these are just a handful of the types that can be found backstage at any Extreme show. Looks like they're generatin' quite a following and we all know why, don't we? They rock the "Little Girls" and the Big boys!

-Everybody be sure to enter Kathie Reed-Barr's contest from hell. Yes, you too can be a Buddo. The "Dare To Look Like A Fool With No Clothes On" contest is on. Simply remove as many garments as you wish and assume the position (of the Archer that is). Contestants will be judged on form, originality and sexuality. The winners will receive cool pornographic CDs from Roadracer Hell (in other words - their entire American CD catalog). Call the Kath-woman for more info.... Crimson Glory was awarded with the 1989 Tampa Bay Music Awards for Best Hard Rock/Heavy Metal band, Album Of The Year, Best Male Vocalist, and Best Female Vocalist -- Jenelle Sadler who sings all backup vocals. No other band won more than two awards and these guys came away with a quintet, nuff said. Then there was the Creative Loafing Magazine, (a local Tampa mag), readers poll in which Crimson came away with Best Band, top prizes in all of the instrument categories, Best Songwriting and Best Album Art.... Toxik was recording at Morrisound Studios when the building was struck by lightning... twice! Once during the recording and once during the mixing. All of the guys were plugged in at the time of the first strike and... well, let's just say that they were a little shocked.... The bassist from Obituary has been missing for two months now. His name is Daniel Tucker and he's not been seen since May 1st. If you're reading this Dan, the band is getting ready to tour without you bud! Better get back quick.... Thanks to Roadracer dude Larry Getlen for this week's abundance of news.

**KING'S X AT THE MARQUEE**

↑ Here, smiling big for the camera of Janet Getchell at their London headlining date are Doug Pinnick and Ty Tabor. They seem to be in the throes of what is known in the biz as "stagekill". That's when band members get really tired of having flash bulbs go off in their faces and bludgeon audience members with their instruments.

↑ As you can see from the above photo of a psychotic Scotty Ian, this "stagekill" phenomena is not just limited to members of the performing band. Here we see Mr. Ian preparing to jump over the heads of our intrepid Haddettes, (Beth Renaud and honorary Haddette photograher Janet Getchell), at the scene, only to land on the offending fan. No injuries were reported at the show. Kind of looks like the last thing you see before waking from a nightmare eh?

**The Monsters Murdered for More Safety!**

The most prestigious and important happening in hard rock had been canceled this year. The English Monsters Of Rock Festival held annually on the grounds of the Castle Donnington Racetrack. For the past nine years, bands like AC/DC, Ozzy Osbourne, Bon Jovi, Whitesnake, Z.Z. Top and Iron Maiden have all headlined with 4 to 5 incredible support acts including Guns N'Roses, Def Leppard, The Scorpions, Kiss - the list goes on. The festival attracted thousands of fans for their annual pilgrimage without ever having any serious problems. Last year though, the excitement surrounding the Guns N'Roses portion of the show resulted in a stampede towards the front of the stage. In the rush, two fans, 18 year old Alan Dick and 20 year old Landon Siggers were crushed to death. According to a spokesperson for MCP, the promoters of the festival, a subsequent investigation determined the accident t be caused in part by poor planning of the seating area. So when local authorities granted the license for this year's show, additional requirements for permanent bleachers and a smaller crowd capacity were added. The additions forced the promoters to hold off the show for this year as they construct the safer seating and whether or not the limitations on the size of the crowd will be upheld, will be determined in court.

**I Have The Faith**

San Franciscans, Faith No More, have been visiting the Big Apple this past week. They topped their promotional tour off with an earthy set at WNYU's radio station studio. Cramped into the tiny quarters, the Faithless blew out a half an hour of music off their latest, "The Real Thing", live on the air and even dedicated a song to the man with the most happening job around, Ed Lover (the Yo MTV Raps! dude). New lead singer Michael Patton, not only has attracted new fans with a unique and powerful voice, he will also attract some fans with his new reigning status as "Hunk Of The Month" in Beth Nussbaum's highly respected "Rock Scene" magazine. It's not really fair to lump these fellas in with the rest of the metal bands, because they are not something that you can say, "Oh, this sounds like Poison, or Def Leppard or Metallica" about. The ranger of styles on the Lp include referential nods to rap, funk, R&B, heavy metal, blues and basically, what five guys from the same area of the world think, feel and live like. Currently, their video for "From Out Of Nowhere" is getting lumped in to Hard 60 on MTV, but I would hope that their record label would launch another campaign at the alternative/college market with a different track to show their diversity.

L.A. Guns have a new one coming called "Cocked And Loaded". Now, around Boston, this could mean, "Yo! I'm really in an altered state", but this time I think they meant it to be something that had power. The powerful selection of music includes guest appearances from the Nuge - Ted Nugent himself, and Cheap Tricksters Robin Zander and Rick Nielson. The band wrote all the material with some of the titles being, "Wanna Be Your Man", "Wheels Of Fire", "Rip N'Tear", and a song called "Malaria" which likens a girl the infectious disease. There's also a ballad included which is dedicated to the silver screen goddess Jane Mansfield. The album is produced by Tom Werman along with John Purdell and Duane Baron. It's scheduled for a mid-August release. Drummer Steve Riley, the only tattoo-less member, has put his skin on the line by promising to get a tattoo if this one goes platinum. Their debut went gold.

The Rolling Stones have announced plans for their North American concert tour, the first in eight years. The tour begins at Rich Stadium in Buffalo, New York, on September 1. Announcing details at Grand Central Station, Mick Jagger was asked about how he and Keith Richards were getting along these days. "We don't have fights. We just have disagreements," he responded. The tour coincides with the release of the band's new album, *"Steel Wheels,"* and the first single, *"Mixed Emotions."* Jagger says the LP has "some rough edges." After the Buffalo date, the band goes to Toronto on September 3rd, and Pittsburgh on the 6th. Other dates are: East Troy, Wis., Sept. 9 and 11; Cincinnati, Sept. 14; Raleigh, N.C., Sept. 16; St. Louis, Sept. 17; Philadelphia, Sept. 21; Washington, D.C., Sept. 25; and Cleveland, Sept. 27. The band also plans to go to New York; Los Angeles; Vancouver; Atlanta; Tampa, Fla.; Foxboro, Mass.; Detroit; Montreal; Indianapolis; Minneapolis; Jacksonville, Fla.; Houston; Birmingham, Ala.; Dallas; Denver; Kansas City, Mo.; Ames, Iowa; New Orleans; and Miami, but dates for those cities have not been announced. "This tour is not historical," Jagger said. "I don't see it as a retrospective tour, I don't see it as a farewell tour. It's the Rolling Stones in 1989." Tickets for most of the shows will be \$28.50.

Katrina & The Waves have a new album, *"Break Of Hearts,"* coming out later this month. It will be the first release from SBK Records. "I've never felt this way about a record before," Katrina says. "It's the first time the whole band has actually written the songs. It's a bit of a complicated way of writing material, but we thrive on being on the edge, not being sure of what's going to happen next. It seems to work for us." Drummer Alex Cooper says the LP is "a good reflection of where we are now." The band will be touring Sweden, Holland, Belgium and Norway after the LP is released.

Siouxsie & The Banshees bass player Steve Severin is working on a 20-minute film called *"Visions Of Ecstasy,"* which will be released on video later this summer. It's based loosely on the story of a 15th century Spanish saint. Meanwhile, Siouxsie Sioux & Budgie are also working on another Creatures album, for release in September.

King's X don't have any real reason to call their new album, *"Gretchen Goes To Nebraska."* "It had no meaning," explains guitarist Ty Tabor. "A long time ago, five or six years ago, we were talking about album titles or whatever with one of the guys who worked with us," explains drummer Jerry Gaskill. "And just off the top of his head, he said, 'Gretchen Goes To Nebraska.' And it was hilarious to us, we thought it was kind of classic-sounding, so we said, 'that someday we were gonna name an album with that title. And that's where it comes from.' But the band decided to write a song to go with the title. 'I love this story, and it's about a girl who goes to this place called Nebraska,'" says bass player and vocalist Doug Pinnick. "The story is in the CD and the record, but not in the cassette."

Britny Fox have begun work on their second album, which will be called *"Fuel The Fire."* The LP is being produced in New York City by Neil Kernon, who has worked with Dokken and Autograph. The LP should be out in late October.

Foreigner member Mick Jones will have a solo album out in early August. The LP features Ian Hunter, Ian Lloyd, Carly Simon and Foreigner drummer Dennis Elliot. Jones also co-produced Billy Joel's upcoming album and has worked with Eric Clapton on a song for Clapton's next LP.

Members of the Grateful Dead appeared before a Congressional Human Rights Caucus in Washington to talk about saving the world's rainforests. "We're really just citizens who have a constituent, so to speak," says Jerry Garcia. "They are people who listen to us." Garcia says the band has been interested in the environment for two decades. But one member of Congress noted that most Dead fans don't vote. Garcia agreed, but added, "I know that Deadheads will chain themselves to a tree."

The production manager for New Edition has been charged with criminal homicide in the death of the security manager for Guy. The shooting apparently came after road crews for both entertainers got into a fight. Ronald Byrd is charged with shooting Anthony Bee twice after chasing him from the Pittsburgh Civic Arena to a nearby hotel. Bee died later at a hospital. He will face a coroner's inquest in a few days. "It was a group of guys beating up another group of guys with ball bats," one police detective says. "The accused was one of those being beaten. He managed to get

a gun and chased the victim down the street and fired a few times." New Edition and Guy were to play as part of a concert series, but the show was postponed. There had apparently been a running dispute between the bands since a date in Greensboro, North Carolina. Four members of Guy's crew were jailed on assault charges for the beating of New Edition crew member Michael Clark of New York, police say. Due to the incident, Anheuser-Busch officials have decided to drop New Edition and Guy from its "Superfest" and "Budweiser Presents" tours.

An 18-year-old has been charged with trying to steal Richie Sambora's guitar after a concert by Bon Jovi in Manchester, New Hampshire. David Pearsall was freed on \$1,000 bond after being charged with the theft of Sambora's \$2,000 white Kramer guitar and a \$2,000 transmitter attached to it. Jon Bon Jovi's brother, Tony, saw Pearsall begin to walk away with the guitar backstage and followed him until police could stop him.

Members of Steppenwolf were involved in a weekend traffic accident in Tennessee that caused a big traffic tie-up, but none of the members were injured. Their bus driver did suffer minor cuts and some other people in the seven-vehicle accident were hurt.

The Monkees have received a star on the Hollywood Walk Of Fame. It's the 1,894th bronze star along the walk. About 750 fans were there for the ceremony, which was attended by all four band members: Mickey Dolenz, Davy Jones, Michael Nesmith and Peter Tork. Tork joked about the location of the band's star. "We wanted the star here because we were afraid the burrito shop wasn't doing enough business," he said. "But seriously, we want to thank those musicians like Carole King and Neil Diamond who helped us out years ago, and mainly our fans. Without you we wouldn't have this tribute." The ceremony came after a Monkees convention in Universal City.

Graceland had a record number of visitors recently, with 4,920 people visiting the mansion in Memphis on Monday, July 3rd. In fact, the visitors spent more money that day than it cost Elvis Presley to build the mansion in 1957. The visitors spent \$110,000 on tour tickets and at gift shops operated by Graceland. Presley paid \$103,000 for the house in 1957.

Tom Petty has been including cover versions of the Clash's *"Should I Stay Or Should I Go?"* and the Georgia Satellites' *"Keep Your Hands To Yourself"* on the opening dates of his current tour in his home state of Florida. The shows also included a cover of the Yardbirds' *"I'm Not Talking."*

U.S. District Judge Roger Vinson has ruled that a Pensacola, Florida bar can play whatever music it wants, even though the owners of an adjacent restaurant had filed suit because they objected to the songs that were being played. Western Sizzlin Inc. had sought a preliminary injunction against Michele Lynn's Lounge and a group called the Trashy White Band. The restaurant chain claimed that its reputation and trademark has been damaged. Western Sizzlin attorneys contended that the music violated a franchise agreement because customers would assume that the chain approved of it. But the judge disagreed, saying that customers would know the two businesses were separate. Western Sizzlin filed the lawsuit after receiving a complaint from the National Association for the Advancement of Colored People. A customer had notified the civil rights group after hearing a song that included the word "nigger" and a chorus that said, "To hell with the NAACP." The couple who own both the bar and the restaurant say that the music in question is only played after the restaurant closes at 11pm. The chain is still saying it will terminate the franchise owners' agreement.

John Lydon has no apologies for the sound of the new Public Image Ltd. album, which could be described as being more commercial than previous LPs. "I realize that our new album sounds almost too good and that there's going to be a lot of criticism that we've sold out, but we wanted to make a really professional pop album, so to hell with the critics," he says. "Why did we work with guys who produce mainstream acts like Pet Shop Boys and Talking Heads? We didn't have much of a choice, to be honest. We were originally booked to record the album in Los Angeles with another producer, but on the very day we were due to start, he informed us that the songs stunk and that no one could play." So PIL ended up going to London to work with Eric Thorngren and Stephen Hague. "It all went very smoothly, apart from losing our keyboardist, Lu Edmonds," Lydon says. He says Edmonds has gone partially deaf and was unable to participate in the recording of the album. "The doctors have told him to take a year off, but there'll always be a place in the group for him because he's a good friend."

Treat Her Right made a 13-stop promotional tour on Amtrak to promote their new album, "Tied To The Tracks." It all seems to be part of the band's fascination with trains. The group's music publishing company is called Dogs and Trains. "Trains are a natural part of the world our music creates," says guitarist David Champagne. "The sound a train makes is music. The wheels upon the tracks lay down a percussive rhythm, the whistle could be a harmonica or a slide guitar and the locomotive creates one of the most powerful bass grooves imaginable."

Dickie Betts says that since reuniting, the Allman Brothers Band has been playing a lot of tunes that the band hadn't played since the death of Duane Allman in 1971. "There's an energy here," he says of the group's current tour. But Butch Trucks is quick to add, "This isn't a tribute tour. This group is playing those songs, but we play them the way we play them now." The band is planning to play all old material at the shows this summer. "You're not going to have to sit there and have to try to figure out what song we're playing," says Gregg Allman. They'll have the same old feeling, but they're going to be enhanced by the way we play them now. There won't be anything new, but I'll be surprised if this doesn't go ahead and keep going and we record something."

The parents of Jon Bon Jovi have begun a scholarship named after their son to help aspiring artists attending his old high school. John and Carol Bongiovi say the "Jon Bon Jovi Dare To Dream Scholarship" will be awarded to artistic students at the Sayreville War Memorial High School in New Jersey. Recipients don't have to be rock singers. "It could be a kid who likes to hammer the piano all day long and is driving everybody nuts," Carol Bongiovi says.

**Our exclusive reporter, Lee Carter, can be heard ("live From London") On WBNY and across Canada on the CBC Radio Network.**

Hallo Atlantic hoppers! I cannot tell a lie; I'm on holiday this week in the friendly and modern surroundings of Toronto, Canada. Thanks to my friend at Virgin Records in Los Angeles, Marcia Macro - I was able to go and see the Sugarcubes/Public Image Limited/New Order show in both Toronto and Buffalo. Virgin Canada were also most helpful, thanks to Nancy there. I also had loads of fun and games at WBNY spinning a cartload of records I brought with me. Warm greeting to all the hardworking folks at Buffalo's finest. This week, in place of my usual column, I bring you "Time Out" magazine's Top 100 Albums. "Time Out" is London's entertainment and arts magazine, which enjoys a readership in London of 270,000 people, It's a glossy equivalent to "The Village Voice" or "The Boston Phoenix". Their 100 Greatest Albums of All Time consists of the tabulated results of more than 60 "Time Out" music writers who have at some point worked at the magazine, since their start in 1968. The comments for the Top 20 albums are theirs.

**1/Prince: "Sign O The Times" (Paisley Park)...**Surreal soul in pop-funk boots. Urgent seduction, serene corruption. Impeccable bad taste; religious, sacrilegious. Prince Nelson Rogers - a man who makes passes while wearing glasses. Caramba!

**2/Velvet Underground: "Velvet Underground & Nico" (Verve)...**This album exerts a weird retrospective messianic hold over the current generation of rockers. It's as if everything that anyone ever wanted to say about alienation, both sexual and social, is enshrined beneath the big banana. "VU & Nico" is a rock reliquary.

**3/Marvin Gaye: "Let's Get It On" (Motown)...**Sexual and religious love explored directly and with great feeling. Human vulnerability in general, and Marvin in particular, creates a vicious undertow and makes this album the most brave, complex and thorough-going exposition of the soul aesthetic ever. A better record than "What's Going On", which is merely important.

**4/The Clash: "London Calling" (CBS)...**The "well made" Clash album that at once signaled their apotheosis as a great rock band and sealed their doom as a punk group(punk groups just don't make double albums-not good ones anyway).

**5/Rolling Stones: "Exile On Main Street" (Rolling Stones)...**Another improbable yet hugely successful double LP, with the Stones making their own definitive statement of how it feels. In this case they were extremely ropery: feverish, drunk and dopey in a basement in the south of France one boiler of a summer. "Exile" is the great monument to rock and roll lethargy and disease.

**6/Bob Dylan: "Blond On Blonde" (CBS)...**Staggering, epic songs, perfect southern musicianship, and "Sad-Eyed Lady OF The Lowlands". A blissful marriage of the art of Allen Ginsberg with that of Chuck Berry. Only two albums (Sgt. Pepper is the other) have so radically transformed rock music. This one was first and best and still stands alone.

**7/Patti Smith: "Horses" (Arista)...**The arrogance of the woman was extraordinary - she presumed that we wanted to hear her wild, extravagant, overwritten, stream of consciousness rock poetry. Amazingly, she was right. One of the most abandoned, committed efforts in rock history.

**8/Marvin Gaye: "What's Going On" (Motown)...**Him again. This time with the album from 1971 that changed the course of soul at a stroke. Suddenly the aesthetic ante was upped: orchestral arrangements, extended improvisation and themes concerning environmental, social and moral issues were legal tender in the black pop mainstream. A brilliant gesture.

**9/The Clash: "The Clash" (CBS)...**Long before The Clash's bullshit detector ran out of batteries they were the most exciting, uncompromised and heroic punk group in existence. Here is the documentary evidence.

**10/Television: "Marquee Moon" (Elektra)...**Tom Verlaine's limpid major-label debut somehow contrived to drench a vaguely Francophile existential poetic vision, with the sound of The Byrds melting down and made it all rather appealing to the punk generation. Unsurpassed to this day in the great New York melting pot.

**11/Beach Boys: "Pet Sounds" (Capitol)...**Massed strings, the best LA session men, waves of reverberation, layered teenage voices and the saddest of sad songs. The glory that was mono. It was all downhill from here.

**12/Van Morrison: "Astral Weeks" (Warner Bros.)...**Not exactly celtic soul, but not exactly anything else either. This is early Van, improvising relaxedly in Ladabroke Grove with lots of good friends and pot of jasmine tea.

**13/Prince: "Parade" (WEA)...**It's got "Kiss" on it. The last one he made with The Revolution and the first one where everyone sat up and took notice.

**14/Al Green: "Call Me" (Hi)...**One of the very greatest soul albums of all time getting tardy recognition as such. Beautiful songs, a cracking Memphis rythmn section and the most exquisitely tender singing you'ss hear this side of St. Peter's postern.

**15/Stevie Wonder: "Songs In The Key Of Life" (Motown)...**It's hard to see what makes this a better record than "Talking book" or Innervisions"(apart from its sheer ambition), but still, this is Stevie in the final flush of genius stepping out into unknown territory in terms of technology and taste. Great tunes too.

**16/John Coltrane: "A Love Supreme" (Impulse)...**Exists eternally at that fission point where art, love, spirituality, sensuality, passion and pain collide and create. An album of healing and inspiration that lives up to its title.

**17/Miles Davis: "Kind Of Blue" (CBS)...**Ain't it funny how jazzers stick together? This is Miles grooving in a modal style in 1959 with Coltrane and Adderley up front and, most significantly, Bill Evans at the piano. A benchmark album and one that's always infected non-jazz fans' glands.

**18/Elvis Costello: "Imperial Bedroom" (F-Beat)...**Geoff Emerick's fine production shaped The Attractions knuckle-raw sound into a sumptuous glove to enfold some of Costello's best songs. Perhaps not a definitive effort, but certainly a mature, shapely and endlessly listenable one.

**19/Aretha Franklin: "Greatest Hits" (Atlantic)...**"I Say A Little Prayer" Is going to dignify any album on which it bestows its gracious presence. The great thing about this one is that it has all the Queen Of Soul's other finest moments from the 60's too.

**20/The Doors: "The Doors" (Elektra)...**Jim Morrison, leather trousers, genitals, darkness, reverb, Ray Manzarek's placcy organ. Without The Doors, the 60's might never have ended.

## Chaz Mixon, KZEW, Dallas

King's X is my favorite add in the last few weeks. Jump on it, folks. It's really different, yet mainstream enough for most dayparts.... Skid Row sneaked up and bit me. After letting this one rest on the shelf for a couple of weeks, I pulled it out Monday and was reporting on Tuesday.... We're giving Lita a shot this week.... What can I say? I've liked this Mellencamp for a while, and finally found room.

## Lorraine Caruso, WNEW-FM, New York

It's been a pretty exciting week here at the station and boy, we're on a roll. The numbers are up, the staff is solid, and just when you've had time to come down to earth with The Who coming to town, there's a Rolling Stone press conference at Grand Central Station to announce their Fall tour.... On the noteworthy side, King Swamp is a band to see live.... Also, John Eddie's "Swear" is generating top five phones.

## Joe Moss, WPYX, Albany

This week is totally zany at PYX-106! Our morning guys, Mason and Sheehan, are broadcasting live from Paris, France this week, bringing us all the hoopla at the Bastille Day Celebration. Just broadcast the Stones press conference from Grand Central Station this morning, and there's no doubt the Stones will be the talk of this fall.... As if I wasn't busy enough with that stuff, there's so much great music to listen to! The Stage Dolls sound great -- a solid rock band with some great material!... I'm still high on the BoDeans' new record. Just a beautiful collection of songs -- almost two albums worth!... Katrina and The Waves have a foot-tapper and Marshall Crenshaw's album is the best work he's done since his debut.... The Black Sorrows do Van the Man nearly as good as Morrison himself!... And my favorite new album has to be "Southside" by Texas. This is one band to watch -- not only do they sound fresh, energetic and spirited, but they can write some great songs, too! One of the few albums by a debut artist that's knocked me off my feet in a long time, and one of the few albums this year I've enjoyed from start to finish.

Henley's record will be a close contender for record of the year ("Sonic Temple" and "Full Moon Fever" as the competition so far). My favorite is "The Last Worthless Evening" is as good a song as he's ever penned.... On the air, Winger is scoring big phones with all demos, Skid Row is a stone cold smash with the 18-24's, while Billy Squier has possibly his biggest radio hit yet in "Don't Say You Love Me".

## Wendy Steele, WLVO, Columbus

It's been no secret that I've wanted to pursue other opportunities. I have spent my whole life in Columbus and my devotion to WLVO made it difficult for me to seek the challenges that can be found elsewhere in broadcasting. Working at WLVO for the last nine years has been a great experience and I'll miss it. I'll never forget the support that my listeners and friends have given me over the years. SORRY I DIDN'T TALK TO YOU PERSONALLY BEFORE I LEFT BUT WE'LL TALK SOON. YOU CAN REACH ME AT (614) 231-7442.

## Joe Marino, WCCC, Hartford

I am moving to 7:00 pm-12:00 Mid and John Osterlind is moving to 2-7:00 pm, so of course my music calls are also changing. You can call and rap with me from 3-5:00 pm Monday and Friday and sometimes on Thursday. Your adds will available Tuesday at 12 noon. Please make a note of these hours.

## Gary Palmer, WLLZ, Detroit

Dan Carlisle has joined the Wheels airstaff. Dan is a proven vet from majors around the country and also has some Detroit roots. WABX and WWWW are both on his resume. Dan is big time all the way and we're glad to have him on board. Starting this week Doug Podell will no longer be taking music calls. I'm the guy. We will continue the open door policy of calls anytime. But please, no calls to Doug. Thanks to the Stage Dolls for stopping by. A fine record and a will to promote. Every manager's dream.... Switching tracks on Jackson Browne to "Chasing You Into The Light", from the politics of "World In Motion" to a love song. Jackson has all the bases covered on this strong LP.... Don Hen-

to pursue other opportunities. We'll miss her and wish Wendy all the best.... Mega-thanks to Drew Murray and Jimmy Faye of PolyGram for the outstanding promotion and follow-up at the July 2nd Bon Jovi concert at the Buckeye Lake Music Center. Because of you guys, our listeners love us even more. It was great to see Mark Fritzzges at the show to support Winger, Fritzzgey's such a big dog now, it was a surprise to see him rockin in the sunshine.

## Beth Kepple, WKLS, Atlanta

Yes, they're from Atlanta. Yes, they're female, so yes, you can say I'm prejudiced when I rave about Indigo Girls. But what can you say about the 300,000 plus people across the country who've bought the LP/CD except that they know great music enough to buy it when they hear it. Seeing Amy and Emily live this weekend only further amazed me at how gifted and talented they are and their a cappella rendition of Paul Simon's "American Tune" had me in tears. See them live and judge for yourself.

## Steve Becker, KLCX, Eugene

Two foreign exchange bands have flooded me. From the opening chords of "Love Cries" to its memorable chorus, Stage Dolls deliver a solid debut that should be found on most rock n' roll playlists. Then just a hop and a jump from Norway, there's this young lady from Scotland making a run as the new rock n' roll queen, Sharleen Spitari, what a voice! Texas has definitely found a home on this radio station. (Always like to help a band searching for their identity).... Appreciate Kenny Ryback bringing Warrant by after their Portland show as the group headed to Frisco. Janie and Joey did the honors on the X and generated more interest in their latest "Heaven". That song is their "Patience" and will score well with our listeners!... Thank you department: Westwood One on a job well done on the recent Who concert; Stan Forman at Capitol and Mike Rowley at Geffen for Great White/Tesla concert promotion; Bob Smith at RCA for Love & Rockets evening; Michael Prince at WTG for the Jason Bonham interview.

Ten years ago, he formed a band that became one of the biggest super groups ever.

In two weeks, his debut solo album hits your desk.

ATLANTIC

## J.D., WONE, Akron

Hot! Hot! Hot! So far this summer is sizzling in north-east Ohio. Last weekend we enjoyed the very first Akron mini-Grand Prix. Over 30 cars were entered in the race with the proceeds benefiting the Arthritis Foundation. Over \$35,000 was raised from this event.... The excitement continues on this week as we get set for the much awaited and anticipated Who 25th Anniversary Tour which lands at Cleveland Municipal Stadium July 19th. It may seem a little bit early, but the excitement is already building as we prepare for the next major concert event of the summer/fall season with The Rolling Stones at Cleveland September 27th. Looking forward to not only seeing The Stones, but also hearing the new Lp "Steel Wheels" due out late summer or early fall.... Also, special thanks going out to Billy Squier for stopping by the ol' WONE studios last week and spending some time with us on the air.

## Gregg Stone, KFMX, Lubbock

Johnny Diesel and the Injectors came to Lubbock not to long ago and rocked us good, damn good. Great bunch of dudes as well. Thanks to Randy and Gary at Stardate for the show, and a thank you to Grant at Chrysalis for the giveaways.... Working over my PD on Queensryche, I want that one bad, "I Don't Believe In Love" is a great tune. Let's break these guys.... Blue Murder's "Jellyroll" is a catch S.O.B.. The footstompin' blues at the beginning then the pop ballad change makes this click. Time to skate S.Y.F.L. P.S. Thank you Bubba at MCA for the Petty tickets, and Dan at Warner Bros. for the Rundgren set up. Y'all some righteous dudes!!!

## Chris Herrmann, WHJY, Providence

Three CD's currently dominate my home player - Tora Tora, Don Henley and Diesel Park West. Tora Tora is really beginning to pull in the phones, sales are building nicely, and I'm just floored by the songwriting, musicianship and talent displayed by these kids! Just wait until "Guilty" hits the air.... Diesel Park West simply write fantastic songs (especially "All The Myths On Sunday"), and deserve your attention for at least one uninterrupted pass. You won't be disappointed!...

ley must have been knock knockin' on Axl's door. "I Will Not Go Quietly" could be a big one in all demo's with the 25+ from Don and the 18-24 from Axl Rose. My God, I'm sounding like a consultant.

## Lee Randall, WDIZ, Orlando

Tom Petty blasted through Orlando last weekend with the Heartbreakers getting an A+ on stage and backstage for an exclusive DIZ party. Thanks to Tony Dimaidrias and a great out of the box showing for David Coleman. Listeners and radio impressed. Sold out, of course! Giving the airplay nod this week to Richard Marx, Tora Tora, Saraya, and the bite of that new aggressive group called Badlands. We're turning up the burner.

## Mike Young, WIOT, Toledo

What a wild week last week was. Now that we're all back in the swing of things, let's talk rock and roll. Guns N' Roses "Nightrain", quite frankly, is a must add. The AOR's had to snatch this baby up before the CHR's pound the crap out of it. W. Axl and the boys are the hottest act in rock n' roll so give the listeners what they want.... Don Henley's "I Will Not Go Quietly" is another must track and the most I listen to the album the more I think it's the best so far in 1989.... If there as any questions as to whether Richard Marx could tear it up or not, that answer is most definitely yes. Richard Marx's drive and Steve Lukather's guitar work makes "Nothin You Can Do About It" something you should do.... Then on a lighter note, don't run over turtles in the road. It makes an awful mess.

## Kelly Cruise, WEGR, Memphis

We're getting great reaction on Black Sorrows' "The Chosen One". For a virtually unknown band, this record is tremendous. Van Morrison must be jealous!! I'm excited about the announcement of the Stones' Steel Wheel tour, but from what I heard on the press conference Mick Jagger sounds more cocky and arrogant than ever.

## Jo Robinson, WLVO, Columbus

As you probably know, Wendy Steele has left WLVO

## Karen Andersen Small, WGIR, Manchester

On first listen to the "Roadhouse" soundtrack, "Rad Gumbo" was my favorite tune. Some Little Feat summertime audio gumbo is just perfect for those warm days, the sound and the season are right for this one! All puns aside, from the name to the matchbook CD cover, Jason and the Scorchers do Burn with "Find You". These guys put out some hot and heavy rock n' roll and why they aren't superstars yet is beyond me. Play it and light the airwaves on fire! Many thanks to Susan Archand from Mercury in Boston for her help with our Bon Jovi promotion. We gave away a Richie Samboura Kramer guitar and the winner got to meet Jon before the show and have him sign that beautiful gold and black guitar.... Fans in this area just love Skid Row. Thanks to Danny McClosky from Atlantic in Boston and Kathy and Ron from Inner Light Records for a very successful in-store with Skid Row before their Concert On The River performance. Kids were lined up around the block for their opportunity to meet the guys and get autographs. About 4-500 fans came out to voice off their support and enthusiasm for the Rowsters.

## Gary Jay, WRKU, Youngstown

Thanks to Jimmy Faye from PolyGram and Dale Connone from Warner Brothers. When you guys get together and set up a concert contest, you mean business! The hospitality at the Akron Rubberbowl was sweet and our listeners were ecstatic to meet Bullet-Boys, Winger and Bon Jovi! Also thanks again to Dale for getting those pizzas to us in thirty minutes or less!

## Malcolm Ryker, KZLR, Little Rock

I'm ready for another holiday. Hell, over the 4th I was just getting started. I caught the "Nightrain" to Mexico, passed right through the Badlands, got a hold of some of the "Fire", kind of like Mr. Townshend. Checked into this hotel called "Heaven's In Here", and got into a brawl over some Stage Doll. I told him go ahead, keep the donkey. I repeat "I Will Not Go Quietly". By the time I made it back home, I asked myself, "Was It All Worth It"? Damn right it was.... The new Queen

track sounds killer, great harmonies and tempo changes, well worth putting on the airwaves.... The Stage Dolls have got a very palatable tune in "Love Cries". Norwegian rock and roll with a universal hook.

## David A. Ross, KMJX, Little Rock

We got great response from the Allman Brothers weekend we did. We featured tracks and gave away box sets of "Dreams". Many thanks to the Polydor folks for all of your help.... July 29th Magic 105 hosts the Third Annual River Blues Festival featuring Albert Collins, Larry Totsy Davis and many more.

## Beaver Brown, KDJK, Modesto

Henry Lee Summer, what a guy, what a cover! "Treat Her Like A Lady" jumped out of the speakers and I screamed, "We gotta add this!" I can't tell you how great I think this tune sounds! Wowzers!!... If you were ever wary about adding another Richard Marx track, fear not. "Nothin' You Can Do About It" is a rocker. Don't hesitate to go on this one.... Here's another track you can believe in, Queensryche's "I Don't Believe In Love". The video is powerful and the song floors me.... Kudos to Bad English, I've been living with the CD in my player at home and the cassette in my walkman. This project kicks F\*&in ass! Harvey Leeds was right, there ain't one bad track on this, damn I'm jacked about this one!... What is it about Philadelphia, the water or the air? How many more great bands area going to come out of that area. Tangier is getting good phones here. "On The Line" is proving that the City of Brotherly Love has more to offer than anyone felt possible.... Speaking of Philly, when's the next Hooters CD coming out, eh?... Don and Axl are a great pairing on "I Will Not Go Quietly", it's too cool, junior.... All I can say is Badlands deserve more airplay, with their video Top 5 on Dial MTV somebody likes it, sales are also nearing 250,000. The audience is there, play it for them.... "Chasing You Into The Light" is my favorite track from Jackson Browne's "World In Motion". Give it a good listen and I think you'll agree. I hope everyone has checked out the entire Jet Red CD on Relativity. This CD is so chock full of great songs it's hard to ignore. If you like rock and roll (and I know you do), give this outstanding debut a listen. Try out "Bad As Heaven", "Lolita" or "Outside". It's good, Okay! See ya.

## Dave Kane, WCMF, Rochester

If you haven't tried any of the songs from Queensryche yet, all I can tell you is that they're working for us with good calls and good research.... Likewise for Lita Ford.... One of our more interesting adds this week is "Forever Free" from W.A.S.P.. Now, I didn't think we'd ever play anything by this band, but "Forever Free" is a 180 degree about-face for the band. It's one of the summer's hottest power ballads, and we expect good things from it.... Kim Mitchell's new album will be out soon. It's already all over the radio in Canada where Kim is akin to being god-like. Please spend time with "Rockland" when you get it, and let's make this guy a star here in the states. Thanks to Mercury's Jimmy Fay & Atlantic's Kevin Young for really taking care of biz at the recent big rock show with Bon Jovi, Winger and Skid Row. Special thanks to Jon Bon Jovi for being a real pro by meeting with a about a hundred winners and posing for pix, etc.... Thanks also to Bruce Moser who came for dinner with Doro Pesch and her manager Alex Grob. A very pleasant evening indeed.

## Johnny Riggs, WKLC, Charleston

Holy snot, the Metallica/Cult show was a Monster! Rabid fans who knew all the words, trampled seats and had a dreamy metal night. I'd like to say thanks to Billy Duffy of the Cult, who was truly the nicest guitar god I've ever met. After an afternoon Nautilus workout, the healthy stringsmith gave me a backstage/dressing room tour, and was incredibly friendly to all of our winners and friends as was the rest of the band and the Metallica fellas. Thanks also to Tim at Reprise, and Norrin (5 more minutes) of Elektra, for being boffo dudes. P.S. Billy, what was the name of the girl who does your jeans?"

## Paul Cavanagh, KFMU, Steamboat/Vail

Deeper, KFMU "Digs" this week with Pete Townshend. Also deeper on Don Henley, 10,000 Maniacs, Lou Reed, and The Cure.... "The Explorer's Club" in past weeks has been featuring The Pixies, Alphaville, Morrissey, B-52's and Mary's Danish. Thanks to Randy from Capitol for post American Music Festival introductions and all.... From the land of scorched earth and numerous wildfires, pray for rain.

## D-Day, WRXX, Ft. Myers

Dear record types, sorry for the confusion. Been on vacation. Back now with a recovering neck injury. Back in full swing soon. Please bear with us.... Special thanks this week to Brian Johnson of AC/DC, Brian Howe of Bad Co. and Richie Blackmore of Deep Purple with their outstanding soccer performances against the WRXX team. We raised a tidy sum of money for local kids who are interested in sports but can't afford the equipment. All three of these rockers scored at least one goal apiece and played like professionals. Watch next week for photos... The Black Sor-

rows is just an instant smash rock and roll record. Listen to it.

## Ty Banks, KQWB, Fargo

I've been following Jason And The Scorchers from the beginning, and their new one on A&M, *Find You*, blew me through the wall! No one can stomp, chomp, and romp like Jason and Warner. These guys have drawn on and combined more different styles than any group I can think of! When God created Jason, he broke the mold and said, "Well, that's all this world can handle". Unfortunately, when God created George Michael he didn't break the mold, and it's still in mass production.

## Slats, WKDF, Nashville

What happened for us with John Kilzer is ditto for the Great White story here. We played "Once Bitten" for eight weeks, it takes four to develop, two to gain Heavy and another two for it to dry up and go away. We found out that there were a lot more fans of the record than we first realized, so we'll put it in Heavy and see if it grows legs.... How about Jason And The Scorchers. We have a section of town called the Rock Block, with a bunch of clubs to hear anything from reggae to mental patients singing Elvis tunes. "Find You" is a song where you stumble into one of these places, do a shot of cuervo, get a long neck beer and find some sleazy babe to do the Wild Thing on the dance floor.

## Charlie Logan, WYFN, Tampa

I must concur with Pam Edwards of KGB. Her comments of last week were right on. Even if we were all current we couldn't play all the product out right now that deserves airplay. Pam is up for Billboard Music Director of the year. Vote for her, she deserves it.... Tom Petty just blew through town. An incredible show! Roger McQuinn, formerly of the Byrds and a Tampa Bay resident, joined Petty on stage for four songs. He received a standing ovation. You could tell how proud Petty was to be playing with one of his idols and his most obvious inspiration. Thanks to John Hey and Randy Hock for their help and as always it was great to see you guys.... Stage Dolls is a monster. "Love Cries" is one of those rock songs that is all hook and will break this band wide open.... Warrant's "Heaven" has Bic lighter stock reaching new highs. One of those teen anthem kinda things. A great follow up to "Down Boys" -- you can spell this one H.I.T. also.... Guns N' Roses' "Nightrain" will work like every other Gunners track. It will be very big. And I can still honestly say I'm not tired of them yet.

## Stacy Yelton, WKQQ, Lexington

BoDeans are flexing their muscle and getting a very positive response, so it's on to Heavy for these guys.... Indigo Girls have caught on in a BIG way. It's such an uplifting ditty, who can resist?... Kingdom Come's hook on "Who Do You Love" is fan-damn-tastic, so we're ready to answer lots of requests for this song.... We weren't prepared for the way Bad English took our audience by storm. Put John Waite's voice on ANY song, and it works.

## Jon Austin, WXRC, Charlotte

It's hot. It's sultry. It's the summer in the Carolinas, almost too hot for anyone to handle. But we can deal with the heat. I'd like to thank Ann Eason of Polydor for bringing Sandi and Todd from Saraya by for a visit. Every male member of the staff would like to express our thanks for a chance to meet Sandi up close. I'd also like to wish a farewell to Dave Gleekman of Epic and Don Joseph of Atlantic, as they graduate from the Carolinas to bigger and better horizons. Working with these two guys has been a pleasure this past year and a half. I'll miss you two.

## Randy Maranz, KDJK, Modesto

Golly, can you say lots of music again? Sitting here in the plush office of our establishment, I'm looking through a list of 45 plus songs that all our favorite record people are working. Yes, it would be nice to put in all 45 plus, but we could only do what we could do this week. Some of our favorites at KDJK -- gotta love Henry Lee Summer, a down to earth good ol' boy with a great rock and roll sound, doin' the Cornelius Brothers and Sister Rose's tune "Treat Her Like A Lady" singin' like a bird.... Other faves from Norway -- the Stage Dolls. They've come on to center stage at KDJK. Give it a shot, it's doin' well.... Others -- Pete Townshend. What can you say, he's on tour with The Who.... Richard Marx sounds good.... Queensryche is doin' great!... We like the BoDeans.... Also Tora Tora, Mr. Big, Bad English, BulletBoys, Warrant, Allman Brothers, etc, etc.... My favorite of the week is the man who shares the same heritage as myself, from Russia - Boris Grebenshikov. Just say da! That's it, that's all.

## Tom Van Sant, WIZN, Burlington

The WIZN "A&R" department is open again! Most record folks know that from time to time the Wizard blazes its own path musically, and we were at it again this week. Bonnie Raitt's history in our market dictated a more "rootsy" choice from her new album than the title track, and so it's "The Road's My Middle Name". Only fitting since she'll be in town in August....

Call us "Headstrong", but that's the call from 10,000 Maniacs' "Blind Man's Zoo" Lp.... And although not a soul has mentioned R.E.M. to us in weeks, "World Leader Pretend" is such a beautiful, literate song that, well, we just couldn't say no.

## Kim Alexander, WHCN, Hartford

Looks like I have some catching up to do... First off, thanks to Elektra's Jim Cortez for making sure I got to see a 10,000 Maniacs show. I can't say this band "cooks" in concert. The playing is energetic and to the point and Natalie's voice live is real strong. It floored me when she sang "Verdi Cries" at the piano and everyone in the audience sang it word for word with her. I mean they knew all the words! Amazing. People love this band. Can't wait to play "Eat For Two".... One of the highlights of my 4th of July weekend was Los Lobos at Toads with Tom Bass and Geffen's Karen "Washboard" Durkot. See, KD loves these guys like I love NRBQ, and she's been sitting in on washboard with 'em. Hey babe, you're a star!... Finally, speaking of NRBQ, if you live in "Q" country, call the folks at Twin/Tone Records at (612) 872-0646 and ask for Al Anderson's solo record called "Party Favors". We've been playing "I Got Your Number" from this disc and doing well with it. Don't forget, new NRBQ in September!... PS to Pam Edwards -- loved your comments a few weeks back on the number of records worked. It is ridiculous, isn't it?

## John Loscalzo, WRCN, Long Island

Check out Winter Hours on Chrysalis, the band has been a favorite for years, and now their major label debut is sure to send some ears flying. Van Morrison, the Doors, Fairport Convention are all influences and the band takes three styles into the nineties. You are cheating yourself out of a major talent if you're not considering Winter Hours right now!!... Play the Godfathers or else!!!

## Mark Bretsch, WWCT, Peoria

Creatively stifled? Tired of your market? Help take our morning show to the top in Peoria! Creativity, visibility and topicality a must. News background a plus. No egos, team players only. New 8-track studio! T&R to Rick Hirschmann, WWCT, 1111 Main Street, Peoria, IL 61606. We need you now!

## Brian Illes, WKFM, Syracuse

I'll be on vacation until July 24th, and then I'll be back taking music calls on July 27th. I look forward to speaking to all of you then.

## Joe Paiano, WRKU, Youngstown

Henley's album is assorted like a role of assorted Life Savers. "I Will Not Go Quietly" would have to be the cherry flavor -- everybody's favorite.... With one of the largest tours of the year rolling car across North America, Pete Townshend couldn't have timed it better. and with The Who slamming out the classic "Fire", watch the Lp and tour sweep your market.... The success of "Appetite" and "Lies" has made Gun N' Roses one of the top acts in the nation. It's almost impossible not to keep this project alive. "Nightrain" does more than revive the Lp. It's the perfect followup to rock these long summer nights.... Many bands try to link the origins of rock with the current trends.... Tora Tora captures that perfect blends of styles and hands us our walking shoes.

## John Lassman, KQRS, Minneapolis

A couple of quick thank you's to everyone involved who made the 1989 Upper Midwest Conclave such a success.

## Dominick Malone, WNGZ, Elmira

I would like to congratulate Michelle Block on her new position at SBK Records. Hope you like your new digs.... Speaking of dig, ha ha, Katrina and The Waves is a very strong first release on SBK. It goes in this week. Hey Michelle, that's the way.... Also some incredible phone action on The Call, Stevie Ray Vaughan and John Cougar Mellencamp's "Jackie Brown", my favorite on the "Big Daddy" album.... Say, doesn't Todd Rundgren sound great on the air?... And last but not least, to Karen Lee at I.R.S. Records, *Wishbone Ash* is a wonderful record, "Keeper Of The Light" should light up any phone. P.S. where's the ring? Ciao for now.

## Jon Erdahl, WGIR, Manchester

The music hitting the racks is at an all-time high! My new band to hit the big leagues is the Stage Dolls. We've hit this band out of the box with success. Their music is heady and it's loaded with enough hooks to take your listeners through the summer sizzlin'! Not only does this band have the look, they also possess that rare music sensibility that will take them from their current success to that next level. Play 'em now and get in on the ground floor with this band that's going all the way and taking names.... Jason and The Scorchers' "Find You" is a track that grabs that "Golden Ring" for these ears. Jason has always represented rock and roll in its purest form. This song has the feeling, style and energy to keep it running on overdrive on all of our music lists. Your listeners will tap into a song like this which will keep those lines aflame all day. Plus, Jason

is one of the hardest working (and most sincere) guys in the biz! You can be guaranteed full support from him and the Scorchers.... **Badlands** has a song that has proven itself for us here at the radio ranch week after week. These guys are on the cusp of crushing the market with their high-powered brand of guitar (remember when that instrument wasn't even used a few years ago?) rhythms that only **Jake E. Lee** can knock out. This band is heading for **Gold** (by the time you read this, it may already be there) and beyond coz this album is deep. Put **Badlands** into your music arsenal and get ready for the 90's.

### **Fran Kusala, WEQX, Manchester**

When it comes to new music, I've gotta hand it to our listeners, they know good stuff when they hear it! Top 5 phones this week for **Texas**, **Adrian Belew** and **Indio!** **Adrian** and **Indio** have been all over our request sheets for weeks, and after less than a week of airplay (with virtually no "testing") **Texas** takes number one phones!... If you've been waiting for industry reaction on these artists before adding them, you're wasting time and missing out on some of the best rock and roll happening! This is quality material that will gain instant acceptance (read that "respect") from your listeners. Enough philosophical meandering!... This week we expand our horizons with **Andrew Cash** and **Diesel Park West!** Which, of course, raises the question. What am I gonna do with these hands when the hoodoo comes? (Crank up the volume!!)... Speaking of cranking -- **Kinsey Report's** "Midnight Drive" is an album not to be missed! If you've been wondering how to work some serious blues into your format smoothly **Kinsey Report** is the way!... Other adds this week include **Katrina** and **The Waves's** "That's The Way" (on its way to the charts as we speak, no doubt) and we go deeper on 10,000 Maniacs' with "Eat For Two", **Jackson Browne's** with "Chasing You Into The Light" and **Tom Petty's** "Free Fallin'" (very possibly the best tune Tom has ever recorded).... New cruise tapes for the car -- **King Swamp**, **Diesel Park West** and **Syd Straw!** (Don't forget the radar detector tho!) Good(bye)!

on Atlantic at the end of the summer) who were followed by **T-Bone Burnette**, **Cowboy Junkies** (making the event a North American affair), **Lyle Lovett** and his **Large Band** and **Bonnie Raitt**.... The same weekend another 4,200 listeners were a part of the nation's largest fund raising bike tour -- the M.S. 150. The tour left **Denver** Saturday and travelled south to **Colorado Springs** the first day. On Sunday, the final leg of the tour wound up at the **Royal Gorge**. Over a million dollars in pledges were taken in to help in the fight against multiple sclerosis. This week **KBCO** is asking its listeners to help support the **Red Cross** with assisting victims of **Colorado's** worst forest fire in history. At press time 65 homes had been consumed by the **Boulder Canyon** fire that continues to burn out of control.... On the music front hot summer releases: **Syd Straw**, **Black Sorrows**, **Texas**, **BoDeans**, **B-52's**, **Indio**, **Maria Mckee**, **Tuck & Patti** to name a few.... **Ten O'Clock News:** They **Might Be Giants**, live **Indigo Girls**, **Allisons**, **Stan Ridgway**, **B-52's**, **Hoodoo Gurus**, **Eliza Gilkyson**, **Love & Rockets**, **Manzanera** and **McKay**, **Beat Farmers** and **Leo Kottke**.

### **MC/Malibu Sue/Robert Greenbaum, WDRE, Westbury**

Aloha from beautiful **WDRE** land. Things here are great. Happening things include a chance for **WDRE** listeners to go backstage and meet **The Damned** and a radio taping of **PiL** live from **The Ritz**. **PiL's** "Happy" is the number one song on the **WDRE** chart, showing also good retail and phones.... Killer records on the air include **Naked Raygun**, **Texas**, **Third World** and a great import from the band **Skin Games**.... Thanks go out to 10,000 Maniacs and **Howard Jones** for meeting our listeners backstage.... **Shreeek** of the week is **Martin Gore** - in a manner of speaking.... Having fun, wish you were here. Later. P.S. **Mark Cohen**, where is our pineapple juice?

### **Cinda Swanson, WRVU, Nashville**

Unfortunately I didn't get to write my weekly comments last week, cause I had quite a lot to say concerning the shows in town the past week. **The Grinning Plowmen** and **Tomorrow's World** show was truly amaz-

again be the only host station for the **New Music Seminar**. Five hours a day (**July 17-19**) filled with interviews galore (nearly 75) of the bands and artists appearing during **Seminar week**. During the weekend we'll also be doing about a dozen phoners at the studio itself. **July 17-19** we will be broadcasting from the **Marriott Marquis Hotel**. Some highlights will include the premier of **The Bridge: A Tribute to Neil Young**. Executive Producer **Terry Tolkin** will be on hand to do the honors. Then we'll also be playing for the first time anywhere **Swing the Heartache: The BBC Sessions** by **Bauhaus**. Thanks to **Mike Stutto** for that privilege.... A **NMS** wrap-up will appear here in a few weeks. I'm sure they'll be a lot to write about.

### **Rosanne Samson, WVCR, Loudonville/Albany**

Paul "Programming Hell" **Harseim** wants to thank **Blacksmith** for the great live show this past Thursday night... And I want to thank **Stephanie Seymour** for all the great music from **Island**.... There are lots of terrific reps sending us great music, and I'll thank more of you next week.... Til then I have to thank you all as one for supplying the music that has made **WVCR** the #1 college radio station in the **Capital region**.... Later.

### **Tracy Barnes, Z-Rock National Network, 800-527-4892**

Dude! There is so much happening in the world of hard rock that soon every **AOR** will be pounding metal like never before. It IS the genre that keeps rock and roll young, and to quote **Chris Blackwell**, "Metal is the only true form of rock and roll that's left these days". On the **Z**.... **Skid Row** doubling weeks at #1. No surprise, we world premiered the record nine months ago! **Badlands** shows no signs of cooling down at all. Very happening! And rock to watch from **Great White**, **White Lion**, **Accept**. And music you should be on from **Bang Tango** and **Crimson Glory** -- both putting our national watts lines in overload. And, **F.Y.I.**, **Z-Rock** is a national network. We don't own radio stations and when one goes dark from the format, it's beyond our control. Example: **Dallas**. We are not shutting the network down, but we will appear soon on another **DFW**

His band sold 35,000,000 records in the U.S. alone.

In two weeks, his debut solo album hits your desk.

### **Craig A. Bradley, WRJK, Paducah**

Hello everybody out in **AOR** land. Just wanted to say a few things, **W.A.S.P.** is doing well and generating phones, lots of our rockers are pleased to hear some on the air. **Kinsey Report** are making some moves and I am too looking for them to do rather well here in this market -- the blues bands normally do well here.... We are looking at **Queensryche** to blow out any time. The strength of their last song here is starting to carry over to "I Don't Believe In Love" and it's making its move toward the top of our chart making a big increase in the phone action.... As for our top 5 requests, **White Lion** this week is an overwhelming number 1 leading **Love & Rockets**, **Winger**, **Don Henley** and surprisingly enough, **The Call** came in at #5 this week. "Don't Need Love" from **Johnny Diesel** is doing well after our success with "Lookin'".... Oh, by the way, we saw the **Metallica/Cult** concert in **Evansville**. Both bands were awesome. I'm going on vacation this week, probably as you are reading this, so our report is frozen and I'm getting the hell out of here before I kill someone. Vacations are wonderful cures for stress. Take one! **TNX**.

### **Jody Peterson, WNCS, Montpelier**

New projects like **Indio**, **Peregrins** and **Syd Straw** are giving the summer of '89 a great feel, then you've got **Dion** resurfacing. With so much power you could just about waterski behind the wake of his good vibes. Car radios are blaring the scorching licks of **Stevie Ray Vaughan** and kids clamor around the pay phones to request "Oh Daddy" again. **Jackson Browne**, **Don Henley** and **John Cougar Mellencamp** continue to imprint subtle and deep. Here we are again, a black top skateboard top down summer with fudgecycle rivers runnings down arms and car seats everywhere. Radio on.

### **Doug Clifton, KBCO, Boulder**

A hot **July Fourth** followed by a cool weekend in the **Rockies!** Saturday, **July 8th**, over 10,000 **KBCO** listeners escaped the 103 degree heat in **Denver** for the cool mountain breeze of **Winter Park**. The occasion was the second annual **American Music Festival**. The day started with the **Subdudes** (watch for their debut

ing. I wish I'd been able to write about it while the impressions were fresh in my mind, even then I couldn't begin to do justice to them. **The Plowmen** were absolutely mesmerizing, talk about intense! I don't think I've ever felt so completely into a show, physically, mentally, spiritually, etc. I strongly recommend that everyone go see them play in **NY** during the **Seminar** (sorry, I can't find the time and place at this moment).... **The Goo Goo Dolls** also put on a great show that weekend. This past weekend there was an incredible and loud show, **Pussy Galore**. Fantastic!... Can't believe the **Seminar** is this weekend! **Marc** and I will fly up Saturday night and stay till Thursday, and we'll be staying at the **Marriott**.... **Bernie Kraus'** record is really neat! What an interesting concept -- all animal/nature sounds.... **The Snakes** are a **Nashville** band formerly called the **Kingsnakes**, who play pop blues.... **Brett**, our office manager and member of **Jesus Chrysler** (**Toxic Shock**), reviewed the **Fetchin Bones** and says it's the best and most consistently good album they've put out. Hope to see and meet you all soon.

### **Karen Bryant, WBRU, Providence**

Hey kids! Hope the world of rock and roll is treating you as well as it is me -- I'm going to catch the **Monsters of Alternative Rock** tour tonight, which will kick off a veritable plethora of concert-going for me in the upcoming weeks. **Providence** is all excited about the announcement of the **B-52's** concert on the 23rd of July, as well as the **Indigo Girls** on the 31st. And this is only the tip of the iceberg. **Great Woods** will undoubtedly be hopping for the rest of the summer, and we here at **BRU** plan to keep southern **New England** excited about each and every show.... We've already got folks psyched for **Boris Grebenshikov's** gig in a few weeks. We're having a lot of fun with "Radio Silence", and a living room show with him is sure to be a big hit.... **Indio** sounds wonderful on the radio, as does the **Hoodoo Gurus**. Umm, well, I'm starting to ramble, I better go find something hip to wear to the concert. See ya later....

### **Jerry Rubino, WFUD, Teaneck**

In conjunction with **BMI**, **WFUD-FM** prepare to once

frequency. Coming back to town louder and prouder. I appreciate the tons of calls though, and we also signed on two more the weekend **Dallas** changed to wimp-wave. Welcome to **KBZR/Kansas City** and **WZRZ/Ft. Meyers, Fla.** We still and always be jammin'! C-ya!

### **Steve Prue, WKNC, Raleigh**

Pant, pant, pant, no air conditioning in the **WKNC** studios today, but at least the music is way cool. **Bang Tango** and the incredible **King's X** are causing quite a stir here at **KNC**.... Hey **Megadon**, where the hell's **EZO**. I'm getting 2-3 calls a day for it. Looking forward to seeing **Accept** **W.A.S.P.** and **Metal Church** and on **Friday 24-7 Spyz** hits town. Gotta go, everything's getting hazy. Must be heat exhaustion.

### **Louis Heidelmeier, Elektra, 312-351-3900**

**Jackson Browne** finished the first leg of his "World In Motion" tour with a blitz of the midwest including extremely well received shows in **Chicago**, **Milwaukee**, **Cleveland**, **Detroit**, **St. Louis** and **Toledo**. Coincidentally "Chasing You Into The Light" is going on the air all over the **Midwest**, with **Dave Letterman** done and **Arsenio** coming, **Jackson Browne's** album is just getting started.... **10,000 Maniacs** is at 650,000 units off of "Trouble Me". We ought to fly past platinum with "Eat For Two". Pretty topical, considering today's headlines.... We've finally released the song from **The Cure's** album that a lot of you wanted, called "Love Song" and we believe it will be **The Cure's** biggest radio record yet. The **Lp** is at 700,000 and the tour starts in **August**.... **The Pixies** "Here Comes Your Man" is heading towards #1 on all **Alternative** charts and is starting to cross over to **mainstream**. A club tour is started, video play is increasing, including buzz bin on **MTV** and sales approaching 100,000 units. If you haven't at least heard "Here Comes Your Man", then you're way behind.... Having seen **Metallica** 35 times on this tour, I can honestly say.... "And Justice For All" is one of the show's highlights. The 12" edit is now on your desk, play it at night and let it be the highlight of your evening, too.... A lot of you feel **Howard Jones** has an image problem at **AOR**, even though he is among a large number of artists that started at **AOR** and then was stolen by **CHR**.

Well, "The Prisoner" is doing extra well at CHR and MTV, as you would expect, but it's also doing well with 25 AOR's playing it. Those you who lean CHR or keep your eye on the CHR chart should be aware of this song.... Trevor Rabin is coming soon, save a slot in Heavy. In closing, RIP Mel Blanc and Lawrence Olivier.

## **Norm Osbourne, EMI, 212-603-8600**

Richard Marx. One track "Satisfied" = One million plus in sales! Now we're off to track #2 "Nothin' You Can Do About It". With a track as strong as this, it can't be denied that Marx is a hot multi-format artist!... Diesel Park West. This record is breaking in a big way in the Northeast and the Northwest. WBCN and WHJY - in Heavy with strong reaction. This is a band we're committed to breaking.... Queensryche. Had an excellent week, airplay is building as planned. This record is also starting to get action at Rock 40 as well.... Tin Machine. "Heaven's In Here" is off to a great start. This is a track that you'll have no problem dayparting or won't even need to. This one deserves to be on the air!

## **Sean Coakley, Arista, 212-830-2178**

Don't miss the best tasting dish on radio right now, "Rad Gumbo". The Feat will be doing this on tour and VH-1 is pouncing on that yum yum video as we speak. Wait. Don't interrupt! Speaking of delicious tours, how about that Roadhouse Tour tour no one asked for. Little Feat and Jeff Healey in August. Ooooh, I can't wait. Tripe your guacamole baby, eat this!!!... We've got a great new edit of "Order of The Universe" from Anderson Bruford Wakeman Howe coming to you in seven or eight days.... Anyone who is in town for the New Music Seminar should come down to the Century Cafe (43rd and Broadway) at 7:30pm Monday to see Sarah McLachlan perform a delightful set to kick off a summer's evening.... The Dead were awesome at Giants Stadium Sunday and Monday. Looking for an Lp release of "Built To Last" around Halloween. New stuff sounds as good as ever.... Eurhythmics lead track from forthcoming album, "We Too Are One", should hit in late August.... "Babylon" is coming. Personal faves -- Anyone who loves great songwriting on the twangy side should check out Mary Chapin Carpenter. Great stuff. Anyone with kids should listen to "Put Her There" from McCartney's newest. This sound is about two minutes long and reminded me of why the pop music of the sixties was so great! Artists got in, said their peace, and got out in under three minutes. Nowadays, writers, producers, singers, etc. take pop music too seriously and forget how important it is to focus and hit their mark. For most pop artists, if it goes on longer than three and half minutes they've probably missed.

## **Jetson, Relativity, 718-740-5700**

First of all thanks to Dave Benson from WLUP for helping me and our regional Chicago rep Joe Barka get on the air with Steve and Garry and present them with Joe Satriani Gold records. To me it was quite a thrill. I think they are the best team on radio today. Also thanks to my old pal Rick West from WXKE for letting me return to the airwaves for a few hours while I was there on vacation. I had a great time.... Let me tell ya 'bout Jet Red. "Not the Only One" is taking off at Rock Radio. It's already on at KISW, KRXX, KZAP, KZEW, KBER, WCCC, KDJJ, KDJU, KFMQ, KWHL, KZOQ and many others. These stations are seeing great response. Don't miss out on this summertime smash. Also, 24-7 SPYZ is all over college/Alternative Radio and on MTV. Coming to you this week is the long awaited remix of "Jungle Boogie". This band is happening -- sales, radio, video and live. 24-7 Spyz can't be ignored. I'm off to the Midwest Conclave then back to New York for the New Music Seminar. I hope to see you there.

## **Michael Linehan, Reprise, 818-953-3750**

Condolences to KROQ, family and friends on the passing of Rick Carroll. There are too many artists to mention who owe their initial shot to him, including many on Sire. He'll be missed.... As to business, the BoDeans move Top 30-25 on the tracks charts, The Cult's "Sun King" moves Top 20. Both these tracks are smoking. On your desk this week is "Achin To Be" from The Replacements, they're now on tour with Petty. WEZX, KRNA, KFMU join WBCN, KROQ, WHTG and several others on F Machine's "Runaway Train". If the product crush has kept you from hearing this track, please give it a listen. If you are a Midwest Conclave attendee, I hope I see (or saw) you.

## **Chris Baca, EMI, 213-960-4600**

We're on a roll with 4 great records. Richard Marx's "Nothing You Can Do About It" is the #1 most added record and will carry further than a Bo Jackson home run. "Repeat Offender" is past platinum and Richard is proving his rock and roll credentials.... Queensryche makes major gains with over 20 stations and 20 point upward moves. "I Don't Believe In Love" is destined to break Queensryche wide open.... Tin Machine's "Heaven's In Here" is happening at rock radio with major moves and great calls. The CD edit of this "bluesy" guitar workout makes it playable in all

dayparts. Tin Machine's sales are approaching platinum, at #11 at Tower nationally and especially strong on the West Coast.... Diesel Park West is doing great in the Bay Area and picked up by KSJO to go along with KYYS and WLZR. "When the Hoodoo Comes" makes KKDJ's Top 5 at 5. We've got great response when the record is being played. Don't overlook this project.

## **Jessica Harley, Megaforce, 201-254-6533**

Special thanks for out of the box support on "Over My Head" from King's X. We start of building the buzz with adds at WDHA, KOZZ, WYMG, WYBR, KISS, KNAC, KFMH, KLOL, KQWB, WQFM, WPLR, WRIF, KXUS, KJJO, WCCC, KZEW, KPGA, WFYV, and WKQZ. "Over My Head" is a must for this week's music meeting. MTV moves "Over My Head" into breakout rotation and retail action is strong and steady. "Over My Head" has the hooks, musicianship and appeal for all dayparts. WAPL's Garrett Hart says, "This one sizzles. Great summertime rock." Or how 'bout this impressive statement from KZEW's Chaz Mixon, "Definitely the best record I've heard." Get a jump on your competition and listen to King's X "Over My Head" today.

## **Kenny Puvogel, Warner Bros, 818-953-3723**

Lou Reed is back in the good old USA following a very, very successful European tour. Lou Reed kicks off his tour in this country August 1st in Atlanta and continues on right through the end of the summer. Lou Reed's album "New York" is still selling and we are now at 430,000 units. I'm sure all of you would love to see Lou Reed achieve a Gold album for "New York" (He was decorated with many awards while in Europe). To do this we urge you to give a listen and serious consideration for airplay on this great track "Romeo Had Juliette". This remix is hot! Thank You!

## **Bruce Flohr, RCA, 213-468-4177**

Just because RCA has seven of the best alternative records out right now does not mean that we're done for the summer. In fact, we are getting heated up. Love & Rockets has swept through the South and is headed west. Every college programmer that is within zip code distance of the shows have been going. There are rumors floating around that the bubblemen are showing up in unusual places, including the RCA executive offices.... Mary My Hope is on the road supporting a record that is beginning to have programmers understand where this great new Atlanta band is all about.... How about the great new music from the Hoodoo

Gurus? "Come Anytime" is convertible music to go.... The new album from Pop Will Eat Itself is finally arrived stateside. Find any band that sounds like these guys and you'll be able to quit playing the lottery. The new album will definitely be one of college radio's favorite of the year.... If you like beer you will love The Men They Couldn't Hang. This band has worked with Elvis Costello in the past on Demon Records. Their music is bright, clean and perfect for the summer. Try something different on the air and play these guys.... To round out RCA's current releases, how about the heavy street sounds from Boogie Down Productions. If your station is truly Alternative, then BDP has to be dealt with during your rock programming. Please do not deprive your listeners of the chance of hearing some of the best street music being made today. Ask your beat box DJ's, they'll tell you to play it all the time.... Coming soon -- England's newest love, the Stone Roses and the pride of New Jersey, Raging Slab! Sorry it took so long, but this stuff is important.

## **Jill Maxick, Chrysalis, 800-221-8787**

Wow! Talk about making an entrance. Winter Hours is the #1 Most Added Alternative Album in every trade by a whopping amount. The commercial radio response out of the box is more than encouraging with WFNX, WHTG, WHFS, WRCN, WMDK, KABL, KBLE, WNCN, WOXY, WXVX, KTCL, KTAO and KOTR in. Other excited stations: WRAS in Atlanta with Winter Hours in Heavy, WWVU in Morgantown and WICB in Ithaca both expect this to move to Heavy in one week! Nods of approval from WBNY, WXYC, WUSC, WFIT, WCDB, WWUH, WNHU, WDCR, WDET, KCRS, WRFL, WTUL, WRFL, KUNV, KUCI and KUSF as well. I am pleasantly surprised by how many fans are out there. Winter Hours' five-year independent career has built a large and loyal following. This album is the perfect segue from Link to Chrysalis. There is no radical departure in music or lyrical style that could offend or disappoint their established college base and, yet the album is a cohesive and well-produced collection of down to earth American rock, pop and country blends (sounds like I'm describing a gourmet coffee, doesn't it?) that can easily gain them new fans from the mainstream. I watched 200 fans pay 8 bucks a piece to see them in Baltimore (where beers are only a dollar) when no current LP was out. If there is a middle ground between The Doors and the Waterboys, then Winter Hours are standing on it.... Also on your desk should be the new remixed version of "Great Southern Land" by Icehouse. If you need

it, call me! The song was originally on their "Primitive Man" lp back when they still sounded dreamy and Bryan Ferry-like. 91X and Live 105 both leap on it first, commercial alternatives should prick up their ears! The song is from the forthcoming lp of the same name which features two brand new, killer songs as well as some past glories like "Hey Little Girl". The song is featured in the movie "Young Einstein" with MTV's fave, Yahoo Serious. Check it out.

## **Andrew Frances, Isolar Management, 213-973-8282**

Everyone lucky enough to catch the show in NYC (one show, 900 seats total) or L.A. (two shows, 900 seats total) knows what a smokin band this is. Everyone playing the record knows how much heart and perspiration goes into every riff, and everyone listening to Tin Machine on your airwaves appreciates that you're programming this summer's best rock n' roll record. This week the edit of "Heaven's In Here" landed on your desk, and in many cases also landed on your playlists. Thanks to everyone who's in. And to the rest of you out there still waiting, let me talk to you about commitment, I'm having you committed! The European Tin Machine dates were totally sold out. In fact, in Amsterdam on the night of the show, over 20,000 fans showed up outside the venue, so we quickly put together a huge diamond-vision screen and piped the show out to the crowd gratis. A sort of "free dutch treat". If you want a chance to see the show or better, have your listeners see the show, I can do that. Just give me a call at the LA number above. I have a 15 minute Tin Machine performance available on 35mm film that you can have to show in your market with your usual film promotions. This film, originally shot by Julien Temple ("Earth Girls Are Easy") features 9 Tin Machine songs in a musical menage. It was created especially as a theatrical short and is not just edits from live performances. So gimme a call. First come, first serve.

## **Steve Pilon, DB Records, 404-521-3008**

You just can't deny a band as vital as Love Tractor! With each successive album, they have not only broadened their sound, but have also earned more and more devoted fans. Spurred on by the wonderful response their latest Lp "Themes From Venus" has been getting, Love Tractor recently took a break from touring to film a new video. This time the song is called "Crash", and you all really need to check this out. This is a band who is also getting a reputation for making videos that are as winning and imaginative as their music! But what's this got to do with radio? Well, DB will have a CD-single of the same song ready for you as soon as everyone gets back from the New Music Seminar! It's just the thing to freshen up your summertime playlist, so be sure to check this out. It's the latest thing!

## **Lisa Paulon, Caroline, 212-989-2929**

Every band that has ever had any impact on the future of music did not, in the beginning, receive media attention easily. Their sound was new and different and didn't fit in with what was currently the norm. Naked Raygun's new album "Understand?" is not like anything else you are playing right now, and therefore, you may not be used to their sound. "Treason" is hard-driving and gutsy, but at the same time is extremely catchy and full of melody. WXRT, WDRE, AND KTCL, as well as many others, are doing very well with the track. Good phones and retail. "Understand?" is also the #2 college record this week. It may take a few spins to Understand it, but it is well worth your listening time! (I love bad puns).... A very special record will be released by Caroline on July 28th. It is titled "The Bridge" and is a tribute to Neil Young. Proceeds will be donated to the Bridge School for Cerebral Palsey in San Francisco. Artists include the Pixies, Soul Asylum, Sonic Youth, Nick Cave, Flaming Lips, Psychic TV, Henry Kaiser and David Lindley, Dinosaur Jr., Nikki Sudden, Loop and Victoria Williams. They all, of course, perform versions of their favorite Neil Young song. Look for advances this week.

## **Jerry Rubino, Bar/None, 201-795-3809**

It's Seminar time, so now I unfortunately (or fortunately) get away from anything not involved with this radio thang. By time you read this I'll probably be fried and if you're here in the city, you'll be in the same state of mind. I'll be here, I'll be there hope I saw some of you somewhere.... Added to the growing list of "Purple Toupee" supporters include WHTG, WOFM, WEQX, WZEW, KTOQ, KFMU and KUKQ. Sales of "Lincaln" just hit 200,000. So those of you who wanted to wait for sales figures, here you go. With the MTV support on the video plus the week of Post Modern just last week hosted by They Might Be Giants, you're to see an increase in action.... In my Super Segue last week, "Invisible State" was misprinted as Bill Drummond, when it's actually by Bill Pritchard, but Bill Drummond looked great in print. Hey ho! to WXVX who puts Bill Drummond into Heavy, so why aren't any of you following? Go back and check out "I Want That Girl" or

"The King Of Joy".... This week's Super Segue: "Dead Beat Club" by the B 52's, "Wrong To Love You" by Chris Isaak and "Purple Toupee" by TMBG. Later...

## Jay Harding, Frontier, 818-506-6886

## Russell Gerroir, Concrete, 212-645-1360

Dangerous Toys are really breaking out on a retail level. They just jumped from 103\* to 93\* on the Billboard chart and from 16-11 on the Concrete retail chart. Now, they're on the verge of going Top 10 on the Metal radio airplay charts. Tracks to try include "Teas'N, Pleas'N" and "Scared".... Faith No More, I don't know what to say. The record is great, I saw them live last night on WNYU and they were even better live. I'm sure this record will work for you, tracks to try are "From Out Of Nowhere" or "Surprise! You're Dead".... Twenty years later, Black Sabbath seems stronger than ever. Their latest "Headless Cross" in enjoying a long run on the Metal radio charts. The new emphasis track "Black Moon" is keeping the momentum going. Look for more tour info soon.... New stuff to listen to includes Lion with their new lp "Trouble In Angel City" on Grand Slam Records, the lead track is "Lock Up

Dark Angel drummer Gene Hoglan explain to the world he wasn't drunk (while laying on his back on the lawn, barely coherent), and the flight home, where I was seated next to the mother of the drummer in the Lunachicks (small world), before taking over a row of seats to sleep in. All we needed this weekend was Panossian. And speaking of Panossian, have you noticed his surname sounds like a household appliance or something (such as "Excuse me, does this plane come equipped with a panossian?"). This is only the second surname of its type I've come across in the industry, the other being Bob Venetianer at A&M ("Honey, it's awful hot in here. Turn on the venetianer, would you?").... I heard "Love Junkie" by EZO on KNAC Sunday afternoon. This is gonna be big!

## Jill Cohn, Medusa, 213-390-9969 x124

Well, I finally named my cat, but he's a neurotic mess, because he wags his tail and gets my newspaper, do you think it's because I named him Fighto????? Well you may be wondering when I'm gonna send you all some more goodies. It will be very soon. The best thing coming your way this hot July is Miss Daisy. Their debut lp "The Pizza Connection" is well worth waiting for like that hot delivery boy, oops!!! I mean Pizza that seems to take forever to arrive. It gets there, you eat it, then you just want more. Savvy-pas??? (That was bad, French) just in case I lost anyone. Thank-you to the stations that have been playing "I Wanna Spank U" by the Mentors. You all can also check "Peeping Tom" out. It's just as amusing.... You can expect the second lp by Coven to be in your hands by the end of the summer. The Seattle thrash-monsters will haunt you with their dark lyrics and grinding guitar on the new "Death Walks Behind You". I'll keep you all up to date on this one, alright? Well, I'm out of here, See-ya.

## Kathie Reed Barr, Roadracer/RC Records, 212-219-0077

Last Crack has been making a quite a little stir on the radio front. These "brave new world" type of guys are killer!! Check out "Shelter" for the power. "Last

of the summer.... You will be blown away when you hear "Sleight of Hand", Guy Mann Dude's solo instrumental LP, I mean it. Check out "Paint It Black" on the Hard Metal Sampler. There is only 1 Real Dude and it's GUY!

## Missi Callazzo, Megaforce, 201-254-6533

## Clarissa Garcia, Enigma Records, 213-390-9969

We began Friday's "night of decadence" with a screening of Rob Lowe's video and like everyone had forewarned us, it was boring. The Lowe-man didn't seem to have any stamina and was far from well-endowed, not to mention that the camera was stationary

His genius gave way to  
 Seven Top 5 Singles  
 Nine Top 10 Singles  
 Fourteen Top 20 Singles  
 Five Top 5 Albums  
 Six Top 10 Albums  
 Seven Top 20 Albums

In two weeks, his debut solo album hits your desk.

Your Daughters".... Deadringer's debut lp EleEEElSdfsdjfljfljldfkj"Electrocution Of The Heart" on Grudge Records, "Summa Cum Loud" is a real rocker.... And Vain, with their debut lp "No Respect" on Island Records, their lead track is "Beat The Bullet".... Also, the new Metal Church tour has started. Make sure you see them live! If I can help you with any of these records please let me know.

## Stewart Morales, Torrid, 914-664-3885

Hey, hey, whaz up? Mucky Pup prime insanity continues. You won't know what it's like until you try it. Don't worry, Mucky Pup don't bite. They rock. The band is lining up for more dates as we speak. Like the lp, their shows are very dynamic and unusual. Just check it out. You'll report.... Next up from Torrid is Gothic Slam. Oh my god, get ready.... See you at the Seminar, I'll be the guy wearing the Cycle Sluts From Hell jacket.

## Megadon, Amuse America, 212-213-9595

Yet another weekend spent on the wrong side of the country (the west coast), this time to witness the seven minutes of hilarity that was Ron (Dark Angel) Rinehart's wedding. So what else happened to me and Givens? Well, our flight to L.A. was delayed (as usual), so the drinking began in the airport lounge. After boarding the aircraft, we sat on the ground for an hour and a half for really idiotic reasons I won't bother going into, but we spent a good three hours of in-flight schmoozing with a steward and stewardess who took such a liking to our manliness they pumped us full of alcohol, and didn't charge us for any of it (we were the only passengers allowed this rare privilege). Of course, there were many rent-a-car foul-ups to deal with (come to think of it, my underwear is still on the dashboard, but that's a story in itself). We ate nothing but tacos and burritos for the entire weekend, we visited the greatest strip bar I've ever been to with Dark Angel guitarist Eric Meyer (who paid to have girls dance at our table), I finally got to experience a jacuzzi, ate a lot of food at the Rinehart reception while listening to

Crack" for the rip, and "Concrete Slaughterdogs" for the raw feel of it! These guys are happening in a big way!!!... Sword is also no stab in the dark, these Canadian power rockers are making some serious moves with "Trouble Is", "Sweet Dreams" and the killer "State of Shock"! Check out the video for "Trouble Is" on MTV!... Hey, Annihilator is coming home!! They have been rocking Europe and now they will be coming to the states to make their mark! Tour dates will be announced soon.... Crimson Glory will be playing dates all over their native Florida, call me for dates and places!!!... Leather will be on the upcoming Maidens of Metal tour which starts off in L.A. the second week of August. I'll keep you up to date on that tour and also when Leather rejoins David T. Chastain in October to tour again. So much stuff has gone on this week, so thanks to Chris and Beth from Hard Report for the killer party function and the best food I've eaten in a long time, and the Amuse America crew for the fun with EZO!!! The new record is amazing! Keep cranking and watch for the Last Crack Dare to Bare Contest coming your way soon!!

## Diane Gentile, MCA, 212-841-8000

Bang Tango's been Top 5 Metal for the past 3 weeks - and we're still at the #2 slot! MTV reports B.T. at #8 Most Requested video and the phones at Z-Rock are exploding. The public wants this band! Keep it on and move it up. Bang Tango is #1!!!!... You've been seeing it in little lines of print here and there, and by now you've heard about it a billion times -- Steve Jones' "Fire and Gasoline" on August 1. This lp B-U-R-N-S.... It won't be long until we hear everyone singing the hook from the new Lillian Axe metal single "All's Fair In Love and War", release date Aug. 15th. Metal D.J.'s who call me on Aug. 18th and serenade me with the hook will get a Law & Order T-shirt -- I promise. Speaking of New York's finest, meet me at Lamour in Brooklyn on August 4th for Law & Order's first appearance since the LP has been completed -- and it's amazing. Thanks SOU, RTN and NYU for the promotional support of this show -- this will be the best night

and the picture was fuzzy from generation loss. After that, we saw Richard Grieco from "21 Jump Street" riding around on his motorcycle on our way to the top of Sunset Plaza Drive in the Hollywood Hills (not smutty, but it was an awesome view of the city). We made our way to the Pleasure Chest--a shop full of sex toys. An older man followed us in the shop and when we left, he was standing outside to watch us drive away. I asked the Pit Bulls if they noticed him. Steve said this guy had blown kisses to him in the shop. We proceeded to the Seventh Veil, a bar with naked women dancing on tables. One woman, who had danced for five minutes, completely nude, tried to cover up her breasts with one arm when she picked up her tips from the table. I don't get it. After that, we were off to an adult book store to check out the 25-cent peep shows. Last stop was Violines, a sleazy little bar somewhere in the middle of Hollywood. Not bad for one evening, huh? I've already received requests from people who'd like to take the same tour. Please call to make your reservations. The following night, Great White, Tesla and Kix played at Irvine Meadows, Alan Niven passed by and I bowed to one of the best managers in the world. Monday, Tony Palacios was on a hard rock/metal panel sponsored by the National Academy of Songwriters. The panel also included Gene Simmons, Greg Guffria, Brian Slagel and Tom Marshall. Til next week, kids!

## Michael Brandvold, DKP Productions, 312-941-3571

It's not hard rock and heavy metal! It's guitar rock and guitar metal! It's Defcon! It's a chilling song! It's "Cold Hearted"! It's on Hard Hitters CD Volume 5, Summer Edition! It has already been added at "The Krusher" -- KRSR (Bob, you're great), WSSY, WLRA and "Power Rock 103.1", WVVX. We've also had "Time Waits" added at WMMS! Not bad! Thanks for all the support! The band's on the road, they hit Florida on July 20 for a week's worth of dates in Boca Raton, Panama City Beach, Jacksonville, Hallandale, Tallahassee and Andalusia, Alabama! Call me for anything, I want to talk!

# HERE'S WHAT PEOPLE ARE SAYING ABOUT KING'S X:

"Totally uncompromising and totally original. One of the best bands I've ever heard."  
—*Vernon Reid, Living Colour*

"...holding one of the few keys to the future of music."—*Kip Winger, Winger*

"In 5 years there won't be venues big enough to hold them."—*Kerrang Magazine*

"Hasn't and won't sell out. With a touch of Beatles psychedelia, ripping guitar riffs, a wonderful sense of humor and a conscience about them. The future of rock is not digital computerized bullshit. The future is KING'S X!!!"—*Greg Stone, KFMX*

"There is so much hype in this business, it's hard to decipher what's real and what's not. This is the real thing! KING'S X is the band of the '90s."—*Tim Parker, KNCN*

"With 'Over My Head,' KING'S X continues to explore and push the boundaries of pure rock. Great guitar!"—*Tom Marshall, KNAC*

Features the first single and video  
"OVER MY HEAD"

Produced by Sam Taylor & King's X  
Executive producers: Marsha Zazula & Jon Zazula
