Our seventh year and it's almost unbelievable the strides made by the Canadian Music Industry, thus far. It is a tribute to the domestic music industry that it has grown to the point where changes occur in the Directory listings, virtually every day. More and more new people are entering the industry. Studios are being built, production companies are being formed, booking agencies and music publishers organized. The story of our industry is growth, growth, growth.

We humbly acknowledge that our contribution to this development has been small. There have been so many other people who have made great sacrifices to create what is growing into a truly great Canadian business, with an obvious growing influence on the International market. Within these pages are the listings of the people who are making it happen.

Treat this Directory as a vital link to our industry. It is as accurate as we can make it in a country of such immense size and of an industry so young. We always say "the biggest Directory ever!", and this year is no exception. However, the 1971 Directory already promises to completely eclipse all others.

The sudden faith in Canadian recording is little short of amazing. The successes came overnight. It was nothing more than the suggestion of a content ruling and suddenly the "sound of Canada" became acceptable. The ball is now rolling. Where is it all going to happen? North...? East...? West...? South...? Wherever, let's make it happen in Canada.

Now browse through this book of names and addresses. This is the "Who's Who" of the Canadian Music Industry, and if your name is missing, don't adjust your set, we may locate you before you inform us.

Why can't all stereos sound as good as this?

MESSY surfaces on otherwise admirable stereo discs have led to many complaints in these columns. The complaints are supported by letters and phone-calls from readers. But some stereo records *DO* have smooth, silent surfaces, blissfully exempt from clicks, blips, pops, swishes and other scourges. Question: Why can't they all be like that?

JAMES LAST, Trumpet a gogo, Vol. 2 (Polydor 249161). This may seem an oddly lightweight item to head off a discussion of new albums featuring the music of titans like Bach and Brahms. But Polydor records, manufactured in Germany by Deutsche Grammophon, deserve the gratitude of all phono-fans for showing just what CAN be done in producing stereo discs that have immaculate surfaces as well as full-bodied, realistic sound. I wish Polydor would give lessons to some of its competitors on both sides of the Atlantic. Processing considerations aside, this easy-listening concert by the James Last orchestra is a pleasure from start to finish. Random titles: Begin the Beguine... Caravan... Down by the Riverside."

Just for the record, we're getting better all the time.

Recording is our business. We didn't think we could make it any better than it was. But we did.

We built a new studio in Montreal and new facilities in Toronto. So now we've got new consoles in both Toronto and Montreal.

Our Dolby noise reduction systems reduce tape noise. Now we can use our 8-track stereo systems and our 24-input consoles even more efficiently to make better recordings more smoothly and faster than ever.

We've got everything you need. Most people don't like being used. We do. Just for the record.

**"EVERYBODY'S PLAYTHING"
MURRAY PATRON**

Murray Patron constantly strives to exchange the loyalty of friendship, between an artist and fan. Therefore, an imaginary pseudonym such as "Everybody's Plaything", should always be considered as an invitation to his world of music, which is at present, on the BIG CHIEF record label.

Also writer duties, for CANADA - WAY Music House, 935 Robert Rd., N.E., Calgary 61, Alberta.

May I have the pleasure of naming you as an honorary member of the Murray Patron Fan Club.

We're new this year!

But we're not inexperienced. We've put together a team of personnel whose collective experience covers show business production, trade show co-ordination, advertising, studio sound production, casting for radio and television commercials, and public relations.

Need some inspiration for a public relations campaign? Give us a call - we'll be happy to submit our ideas to you at no obligation.

Need personnel for radio or television commercials? Give us a call - we can provide expert musicians, musician/arrangers, producers, directors, vocalists, etc. - and, if necessary, at a moment's notice. We all know just how important that can be. How we do it is our secret. That we can do it we'd like to be able to prove. Give us a call the next time you're in a hurry

RPM Weekly reports on the activities of the trade from coast to coast in Canada. Every area of the music industry is covered. Who reads it? Anyone who makes their living in music, records, or broadcasting. We get to the people who make records, play them, and sell music. Who reads it? This Directory is a partial list of our readers and subscribers. Where music is made, played, or sold, you'll find RPM.

THEY'RE DOING THEIR THING

... and their thing is writing and publishing music. BMI Canada Limited has long pioneered and looked forward to the day when Canadian composers would receive the recognition they so well deserve. That day has arrived and Canadian creators of music have taken their rightful place in the world of music. We at BMI Canada have always been proud of the great contributions made by our affiliated composers and publishers to Canadian music. Our thing is to work on behalf of our affiliates and Canadian music.
