PENNSYLVANIA

\*Noncommercial.

**ALLEGHENY MOUNTAIN NETWORK**  
Now Interconnected!

Allegheny Network coverage is equivalent to three 50 Kw stations spaced along the mountains of Pennsylvania. Add Allegheny to Pittsburgh, Philadelphia, Harrisburg, Scranton-Wilkes Barre and Erie schedules. You'll get complete coverage of all major areas of the state with little or no overlap.

Buying Allegheny is simple. Requires one buy, one bill, one set of copy AND . . . you get a million listeners. Allegheny is an actual working network, interconnected programming over 50 simultaneous broadcasts weekly.

## A SINGLE RATE FOR ALL ADVERTISERS!

At WHAT everybody's rate is the same. Card #11 (now available) is our only current rate.

This means that WHAT's "national" advertisers do not pay up to 30% more than "local" advertisers . . . (30% is the approximate local/national rate differential on another local Negro station)

WHAT — and only WHAT plays no favorites. All advertisers are equal with us — that's guaranteed! And so is the town's best C.P.M.

The Bolling Co. has all the details.

100% **WHAT**  
Negro PHILADELPHIA

**WCAU RADIO  
PHILADELPHIA'S  
MOST  
TALKED ABOUT  
STATION!**

WCAU Radio and CBS News • Eagles Pro Football • Penn State College Football • Masters Golf Tournament • Horse Racing's Triple Crown • CBS Worldwide Sports • WCAU Radio Business News Analyst • WCAU Radio Political Science Specialist • WCAU Radio Weather Probability Service • CBS Radio Network Programs • Dimension Features • Colorful, Dynamic, Talented Local and Network Personalities • Road & Traffic Reports • Timely Local Editorials • Public Service Programs . . . Exciting, Many-Faceted Radio that makes WCAU Radio Philadelphia's most talked about, most influential station.

## How To Be Popular In Populous Pennsylvania

If you seek a radio signal that has reach and depth, it is hard to run out from under the Clear Channel broadcasts from WKOK-AM-FM in Central Pennsylvania.

Located in Sunbury this station has been operating since 1933 as a Class IV low power outlet. Recently it became a Clear Channel station with 10,000 watts day and 1000 watts night at 1070 on the AM dial.

A CBS affiliate with 34 years of built in management and programming know-how, WKOK's stability has stood the test of time. With added power, it is now happily serving a rapidly growing group of listeners in their homes and on the highways. A rare situation in today's radio broadcasting business spectrum.

# WSIX RADIO

Clayton Bracey, immediate past Commander Post 5, and Paul Ruhle, Manager of Radio Station WSIX, admire the award presented by National Commander James E. Powers. In the background are, from left to right: Legionnaire I. F. (Ike) Gentry, Chuck Adair, Bob Bell and Buzz Benson, WSIX Mike-men, and Jim Eastman, News Director of WSIX Radio.

*receives highest award...*

## AMERICAN LEGION NATIONAL COMMANDER'S AWARD...

*... for its generous contribution of time and talent in the highest tradition of the broadcasting industry's dedication to public service.*

WSIX goes over the top and then some! WSIX . . . the only radio station to receive this highest award for its part in the outstanding community service program of the American Legion. In a "Parade of Pennies" fund drive to help support the Legion's Annual Christmas Party, WSIX far exceeded the original goal, and helped to bring Santa Claus to more than 1,500 underprivileged children. WSIX, 5000 watts, covers 305,980 Radio Homes in the OPEN HEART AREA of Middle Tennessee and Southern Kentucky.

# DON'T BUY WDMS

Lynchburg, Virginia

**IF** you want noise instead of music  
—static instead of sales  
—promise instead of performance  
—amateurs instead of professionals  
—double and triple spots instead of "showcased" selling commercials  
—cut rates instead of results

**BUT** if you do want results in the ever growing Lynchburg area, based on top commercials, air salesmen, the professional touch, smooth music and loyal listeners, then please do buy WDMS. Call collect to Danny Shaver or contact our national representative, Hal Walton & Company.

# ANNOUNCING

a new member of the Speidel family -

## WHIH\*

1000 W 1400 KC Nondirectional  
PORTSMOUTH - NORFOLK, VIRGINIA

Covering the greater metropolitan area of Norfolk, Portsmouth, Hampton and Newport News, WHIH reaches 226,200 Negroes—equalling the 17th largest Negro market. Total population of the area is 857,100.

With WHIH added, the Speidel group will cover more than 1,250,000 Negroes. One easy buy of the five Speidel stations will reach this special market, or you can choose any combination that suits your marketing plans. Our representatives will give you costs and detailed coverage information.

\*Subject to FCC approval.

# AM FREQUENCIES

## U. S. AM Radio by Frequencies

CP—Construction permit for frequency.  
L—Limited time; operates night hours only when dominant station is not operating.

CR—Canadian restricted.  
CH—Critical hours.  
DA—Directional antenna.  
D—Daytime operation.  
LS—Local sunset.

N—Night.  
U—Unlimited time.  
SH—Specified hours.

\*CP granted for increase in power.  
†CP granted for new station.  
‡Special authorization for power or frequency.

Note: Class of station is shown in parentheses. For explanation of classes see FCC Rules, C-42.

Radio Stations in Mexico And the Caribbean Area

**Note:** The following list of Mexican and Caribbean radio stations is based on available data from the U. S. Federal Communication Commission, the communications ministries of the various countries and the Foreign Broadcast Information Service. Like other countries in the North American Regional Broadcasting Agreement area, most follow the 1950 NARBA, although all are not signatory. For a listing of TV stations in the Caribbean see July 1963 issue of TELEVISION MAGAZINE.

**BAHAMAS**

- 1240 kc ZNS-2 Nassau, Bahamas Government, 0.25 kw IV.

College or University Campus—Limited Radio Stations in the U.S.

The following college or university campus-limited stations are operated principally by students enrolled in the schools. Their transmission is by radiation, and reception is limited to on-campus listening. IBS indicates affiliation with Intercollegiate Broadcasting System. See Associations, page E-35. Station affiliation is listed beside the call letters.

 Ottawa, J. J. Quinn, area director.

## International Radio in U. S.

These stations, located in the U. S. but

bearing overseas, operate with a maxi-  
 mum power of 200 kw on various frequen-  
 cies depending on the seasons of the year.  
 The frequencies (in the 6-25 mc band):  
 6-6.200, 9.500-9.775, 11.700-11.975, 15.100-  
 15.450, 17.700-17.900, 21.450-21.750, 25.850-  
 26.100.

Crosley Broadcasting Corp.—**KQ2KXU**  
 Cincinnati, Ohio (special experimental  
 station on 6080 kc with 1 kw. identifica-  
 tion only, sharing time with WLWO (see  
 below), **KQ2KXU** is scheduled for a  
 regular, 24 hour continuous operation to  
 permit the National Bureau of Standards  
 to make field strength recordings in con-  
 nection with ionosphere studies.

Far East Broadcasting Co.—**EGEI** Bel-  
 mont, Calif. with 50 kw, broadcasting in  
 English and Spanish to Mexico, Central  
 America, South America, and Japan. John  
 C. Berger, president, Robert H. Bowman  
 and William J. Roberts are owners.

International Educational Broadcasting  
 Corp. (Mormon Church), 4 W. 48th St.,  
 New York 19, N. Y., FL 2-3322.—**WRUL**,  
 five installations at Scituate, Mass., on  
 various frequencies with 20-50 kw, broad-  
 casting in English, Spanish, to Central  
 America, Europe, South America and West  
 Africa. **WRUL** is international affiliate of  
 ABC and Educational Radio Network.  
 Ralph Brent, pres & gen mgr. Represented  
 by Edward Petry and Co. Inc.

"Radio New York Worldwide-**WRUL**"  
 —see International Educational Broad-  
 casting Corp.

World International Broadcasters Inc.—  
**WINE** Red Lion, Pa. beams programs to  
 land areas bounded by Mediterranean Sea.  
 Permittee is Rev. John M. Norris who  
 also owns **WGCB-AM-FM** Red Lion, Pa.

Other privately-operated interna-  
 tional stations owned by or leased to the Voice  
 of America are as follows (operating  
 firms in parentheses): **\*WLWO** Bethany,  
 Ohio (Crosley) 110 kw, 6 transmitters;  
**WBOU** Bound Brook, N. J. (NBC), 50 kw,  
 6 transmitters; **WDSI**, 3 transmitters in  
 Brentwood, N. Y.; 2 in Wayne, N. J. (both  
 CBS); **WGEO** Schenectady, N. Y. (G.E.),  
 3 transmitters; **\*KCEB** Delano, Calif.  
 (CBS), 50-200 kw, 5 transmitters; **\*KNBH**  
 Dixon, Calif. (NBC), 50-200 kw, 5 trans-  
 mitters. VOA has new 9 transmitter sta-  
 tion (50-500 kw) at Greenville, N. C., and  
 50 kw stations at Marathon and Sugar-  
 Loaf, both Florida, on 1180 kc and 1040  
 kc, respectively.

\*Stations which are owned 100% by U.S.

\*Estimated for first six months.

Compiled by B. F. Osbahr, editor "Electronic Industries."

## Why is this trademark important to you?

For 30 years one principle has guided us in meeting our responsibility to provide you with equipment of the highest performance standards. That principle is *integrity*.

---

<i>integrity in design</i>	25% of our people are in Research and Development.
<i>integrity in manufacturing</i>	The best facilities, the best materials, the industry's finest craftsmen.
<i>integrity in sales</i>	Honest claims, backed up by the best guarantee in the industry (2 years).
<i>integrity in service</i>	Around the world, around the clock to <i>insure</i> Collins performance.

---

*Our trademark is a symbol of Collins integrity. You can depend on it.*

COLLINS RADIO COMPANY • Cedar Rapids • Dallas • Los Angeles • New York • International Division, Dallas

## One good thing leads to another

1,000 Watts to

10,000 Watts to

20,000 Watts

It also leads to an easy, economical method of matching your equipment to your FM growth. You start with Collins 830D-1A 1,000 watt transmitter. You'll get immediate benefit from its stability. You'll like the operating and adjusting convenience as well as its clean, accessible design. Adding stereo takes just a few minutes.

As your operation grows, all you need

do is add on a final power amplifier cabinet, making the 830D the driver unit. You now have an 830F-2A 10,000 watt transmitter. The addition of stereo still takes just minutes.

To increase to 20,000 watts you simply add another final power amplifier and a diplexer to your existing Collins equipment. Neat, easy, economical expansion.

Find out how one good thing can lead to another in your station. Ask your Collins Broadcast Sales Engineer for full details on the complete FM line: Nine models from 10 watts to 20 kilowatts.

## PRODUCT GUIDE

Radio and television broadcast equipment products and services are listed alphabetically in an easy-to-use classified directory style with the manufacturers of each product, or service, listed directly below. (†) Indicates rental equipment.

To locate headquarters, or nearest sales office, of any

listed manufacturer or service, please turn to BROADCAST EQUIPMENT MANUFACTURERS, DISTRIBUTORS, SERVICES Directory starting on page C-13. That alphabetical listing includes address, principal executives, branch offices and telephone numbers.

**Quality Broadcast Equipment  
for the  
World's Greatest Radio Stations**

**AM TRANSMITTERS**

50 to 10,000 watts. The Bauer Model 707, 1000/250 watt transmitter is the most copied in the industry. Exclusively offered as a "kit" or factory assembled. Other transmitters from 50 watts to 10,000 watts.

**AUTOMATIC LOGGING EQUIPMENT**

The Bauer Model 440 Log Alarm logs all required parameters. Meets FCC specs. Economical — simple — labor saving!

**NEW PRODUCTS**

Bauer Model 920 limiter "Peak Master" available now. FM transmitters—Audio Consoles available soon.

Four  
ways  
to mind  
your own  
business

### 1. PRECISION PHASE MONITORS

The Nems-Clarke 108-E Phasemeters provide an indication of the phase relations in directional antenna systems. They are tailored for the particular installation and incorporate provisions for indicating current ratios in the various antenna arrays, as well as the phase relation. Their simplicity, freedom from modulation jitter, direct indication, and easy operation are well known throughout the industry.

### 2. FIELD INTENSITY METER

Compact, lightweight, and portable, the Nems-Clarke 120-E Field Intensity Meter measures a wide range of radio signal intensities. It is equally effective for interference studies at low signal strengths and for close-in measurements on high-power directional arrays. The meter is direct reading on all ranges and provides both linear and logarithmic indications.

### 3. SPECTRUM DISPLAY MONITOR

The Nems-Clarke SDM-520 is a new high-resolution spectrum display and receiver complete in one chassis. It measures TV and FM frequency deviation and is capable of determining the amount of sideband or sub-carrier attenuation, locating spurious radiation and identifying sources of interference. The SDM-520 includes an entire AM and FM audio channel and front panel speaker.

### 4. FM REBROADCAST RECEIVER

The Nems-Clarke FMR-101 is designed for FM rebroadcast operations where stability, sensitivity and low distortion are of extreme importance. It eliminates the use of marginal performance Hi-Fi receivers or expensive telephone lines. It is completely self-contained in a silverplated brass plug-in housing to provide good shielding and reduce radiation and to facilitate rapid changing of frequencies.

# EQUIPMENT MAKERS, DISTRIBUTORS, AND OTHER SERVICES

The following is an alphabetical directory of manufacturers and services to the business of broadcasting. Each listing contains company name, headquarters address, tele-

phone, executive personnel, and branch offices. To locate products or services of these companies, please turn to PRODUCT GUIDE, page C-3.

**Adler Electronics Inc.** 1 Le Fevre Lane, New Rochelle, N. Y. Phone: 636-1620. Ben Adler, pres; Alfred Strogoff, exec vp; Stanley P. Lapin, dir industrial products div; Emanuel Strunin, adv & pr.

**Air Space Devices Inc.** Safety Tower Ladder Division. 5428 Vineland Ave., North Hollywood, Calif. Triangle 7-0314. Bernard Sternquist, pres; Harold Lane, sls mgr.

**Aitken Communications.** 301 S. Lincoln St., Taft, Calif. Kenneth Aitken, pres.

**Alford Manufacturing Co.** 299 Atlantic Ave., Boston 10. Hancock 6-2150. Andrew Alford, pres; Harold H. Leach, mgr.

**Allied Radio Corp.** 100 N. Western Ave., Chicago 80, Ill. Haymarket 1-6800. Myron Bond sls mgr of industrial & bcstg div.

**Altec Lansing Corp.** 1515 S. Manchester Ave., Anaheim, Calif. Prospect 4-2900. New York 3, N. Y.: 222 Park Ave., South. Spring 7-3640.

**Alto Fonic Tape Service Inc.** 211 Lambert St., Palo Alto, Calif. (415) 321-5164. D. Alan Clark, pres.

**Ameco Inc.** 2949 W. Osborn Rd., Phoenix, Ariz. 254-5511. Bruce Merrill, pres; William Ross, vp; Edward Furman, sec; Edward Whitney, natl sales mgr; Milford Richey, chief eng; James Connor, dir prod development.

Lewiston, Pa.: P. O. Box 481. Richard F. Yearick, mgr eastern marketing div.

Dallas, Tex.: 6111 Harry Hiner Blvd. John Buchanan, marketing mgr; Edward Dart Jr., southwestern contracting mgr.

**Ampex Electronic Corp.** 230 Duffy Ave., Hicksville, N. Y. Wells 1-6200. Frank Randall, pres and sales mgr; J. Messerschmitt, mgr power tubes & renewals; L. Rudich, mgr semiconductors & special purpose tubes.

Elmhurst, Ill.: 253 York St. National 5-5910. Roger Gabbel, regional sls mgr.

**Ampex Audio Co.** (Div. of Ampex Corp.)

1020 Kifer Road, Sunnyvale, Calif. Regent 6-2110. Herbert L. Brown, Ampex Corp. vp, mgr; B. J. Quinn, controller; Rein Narma, chief engr; A. O. Stoeften, mftg mgr; T. J. Nicholson, product mgr; E. Peter Larmer, marketing rsch mgr; Don Truax, service engr mgr.

**Ampex Corp.** 401 Broadway, Redwood City, Calif. 367-2011. William E. Roberts, pres; Thomas E. Davis, sls mgr; C. Gus Grant, vp & gen mgr of Video & Instrumentation Div.; Robert L. Pappas, vp & gen mgr of Magnetic Tape Div.; Rein Narmer, chief engr of Audio Div.

Palo Alto, Calif.: 750 Welch Rd. DA 6-2797. Charles Wirth, regional mgr.

Los Angeles, Calif.: 8467 Beverly Blvd. OL 3-1610. Al Sroka, regional mgr.

Elmhurst, Ill.: Suite 1-A, 2-N-575 York Rd. TE 3-8500. Tom Harleman, regional mgr.

Englewood Cliffs, N. J.: Suite 22, 600 E. Pallsades Ave. 567-7800. George Shoaf, regional mgr.

Washington 9, D. C.: Suite 218, Universal Bldg., Connecticut & Florida Ave., N. W. Decatur 2-0300. William Follin, regional mgr.

Atlanta, Ga.: 3376 Peachtree Rd., N.E. 231-3480. William Craig, regional mgr.

Dallas, Tex.: 2626 W. Mockingbird Lane. FL 7-0481. Robert Owens, regional mgr. See Advs. pages C-15, C-17.

**Amplifier Corp. of America.** 398 Broadway, New York 13, N. Y. Worth 6-2929. R. J. Swartz, pres; N. M. Haynes, vp.

**Analab Instrument Corp.** 30 Canfield Rd., Cedar Grove, N. J. Center 9-6500. Morton G. Scheraga, pres; Cleo O. Marsh, vp & treas; Robt. B. Shepard Jr., sec.

**Andrew Corp.** P. O. Box 807, Chicago. (312) FI 9-3300. Robert P. Lamons, vp, sls & marketing; C. Robert Lane, sls mgr; Robert C. Bickel, marketing mgr; Douglas E. Proctor, sls admin mgr.

Claremont, Calif. 91718: 941 E. Marylind Ave. (714) NA 6-3505. John D. Cupp, dist mgr.

Dallas, Tex. 75240: P.O. Box 30506. (214) AD 5-1279. H. L. Woodbury, dist mgr.

Palo Alto, Calif.: 701 Welch Rd., Rm. 305. (415) 323-3139. William E. Sirvatka, dist mgr.

Ridgewood, N. J. 07451: P. O. Box 416. (201) GI 5-2500. Harold J. Detlefs, regional mgr; Kenneth Robinson, dist mgr; Joseph Geronimo, dist mgr.

Washington, D. C. 20014: P. O. Box 5897. (202) OL 4-2540. Lawrence Krahe, dist mgr; John A. Gilson, applications engr.

Westwood, Mass. 02090: P. O. Box 296. (617) DA 6-6500.

Whitby, Ont., Canada: 606 Beech St. (Andrew Antenna Co. Ltd.) (416) MO 8-3348. Richard Matthews, vp & gen mgr.

**Anso Products, General Aniline & Film Corp.** Photo Repro Div., Vestal Parkway East, Binghamton, N. Y. (607) Raymond 9-6555. Norbert F. Rincker, gen sls mgr, photo products; Louis W. Jennis, marketing mgr, motion picture products.

Atlanta, Ga.: 1219 Williams St. (404) Trinity 6-0351. J. D. Coil, professional regional sales mgr.

Boston, Mass.: 80 Federal St. (617) Hubbard 2-0850. J. B. Spilman, office mgr.

Chicago 46, Ill.: 4255 West Touhy Ave. (312) 583-2100. William Hopkins, professional regional sls mgr.

Dallas, Tex.: 1400 Hi-Lane Dr. (214) Riverside 8-9017. P. V. DeGraff, professional regional sls mgr.

Detroit, Mich.: 12790 Westwood Ave. (213) Oldfield 4-0550. L. H. Purcell, professional regional sls mgr.

Los Angeles, Calif.: 1001 N. LaBrea Ave. (213) Oldfield 4-0550. L. H. Purcell, professional regional sls mgr.

New York 17, N. Y.: Chrysler Bldg. 405 Lexington Ave. (212) Oxford 7-6161. Jack Barry, motion picture supvr; P. J. Daly, professional regional sls mgr.

South San Francisco, Calif.: 206 Utah Ave. (415) Juno 9-6500. B. E. Kleeman, distributor mgr.

What portable VTR kicked around the world a year and came back as good as new? The AMPEX

A test model never has a moment's peace. This one—the forerunner of our VR-660—was bumped, bounced, dropped and banged on four continents. By experts. But when it came back there was only one thing we had to do to get perfect performance: plug it in. And there's good reason for that. The backbone of the Ampex VR-660 is a single, unit-designed casting at the center of the machine. Every assembly that has anything to do with tape movement or position is mounted to it (so all critical tolerances can be referenced to a common surface). This top plate is all important,

that's why we make it out of the most rigid, rugged cast aluminum available. Without that strength in the center, the VR-660 would be just another portable. With it, it's the most rugged little VTR that ever joined a mobile unit. Weight? 96 lbs. Price? just \$14,500. For complete information call your Ampex representative. Or write the only company providing recorders, tape and core memory devices for every application—as well as Marconi television cameras and accessories: Ampex Corporation, 401 Broadway, Redwood City, Calif. Term leasing and financing available.

What's the state of the art in basic solid state VTRs?

AMPEX VR-1100

There's only one way to improve the VR-1100, and that's to add Ampex accessories. We purposely made these optional in order to offer you a basic VTR that you can adapt to suit your own particular needs. With the VR-1100 you add only the accessories you need, when you need them. And as a basic tape machine, the VR-1100 has no equal. It is a value engineered Ampex product representing the state of the art in solid state broadcast Videotape\* Recorders today. In addition

\*TM Ampex Corp.

to a fully transistorized recorder, for less than \$35,000 you get superb Ampex picture quality; utter simplicity of operation; two speeds—7½ and 15 ips; recording time up to three hours; and compatibility with all four-head recorders. Call your Ampex representative or write the only company providing recorders, tape, core memory devices for every application—as well as Marconi cameras, accessories: Ampex Corp., Redwood City, Calif. Term leasing and financing.

# Does Your Station Have the "BIG VOICE?"

Are you losing advertisers because you don't have the loudest signal in your area? Are they going to other stations because you don't have the "BIG VOICE?" Only DYNAMIC DIMENSION Control Equipment by FAIRCHILD, individually or integrated, can provide you with an easy-to-listen-to "BIG VOICE"—the loudest and cleanest signal in your area!

## FAIRCHILD DYNALIZER Model 673

The newest approach for the creation of "apparent loudness"—the Dynalizer is an automatic dynamic audio spectrum equalizer which redistributes frequency response of the channel to compensate for listening response curves as developed by Fletcher-Munson. Adds fullness and body to program material. Completely automatic with flexible controls. Easily integrated into existing equipment.

## FAIRCHILD CONAX Model 602

The world-acknowledged device that eliminates distortion problems caused by pre-emphasis curves. Allows higher average program levels through inaudible control of high frequencies. Invaluable in FM broadcast and disc recording. Eliminates stereo splatter problems in multiplex channels.

## FAIRCHILD LIMITER Model 670

Fast attack stereo limiter (50 microseconds) with low distortion and absence of thumps. Sum and difference limiting position eliminates floating stereo image, despite amount of limiting used in one of the two channels. Also includes regular channel A and B limiting. Dual controls and dual meters provided. Now used throughout the world in recording studios. (Mono model available).

Write to Fairchild—the pacemaker in professional audio products—for complete details.

ANOTHER FILMLINE FIRST!

**The REVOLUTIONARY R-36**

DEVELOPS 16MM FILM AT 2160 FT. PER HR.  
NEGATIVE FILM AT 3000 FT. PER HR.  
POSITIVE FILM AT 3600 FT. PER HR.

*Super Speed—Super Quality.* The R-36 is the answer to the film industry's exacting requirements for increased speed and quality in reversal processing. It is ideal for military, industrial and commercial use. The Filmline R-36 gives you performance that never existed before. You must see it in action... see its results to believe it. Write or phone today.

- **EXCLUSIVE OVERDRIVE TRANSPORT SYSTEM** eliminates film breakage, automatically compensates for elongation—tank footage stays constant.
- **OPERATES** at 83°F at better than 60 ft. per min.
- **EASY TO OPERATE**...needs no attention.
- **COMPLETE DAYLIGHT OPERATION** on all emulsions—no darkroom necessary.
- **FEED IN AND DRY BOX ELEVATOR**, plus 1200' magazine permits continuous processing.
- **TEMPERATURE CONTROL SYSTEM** controls heating and cooling of all chemical solutions.
- **VARIABLE SPEED DRIVE**, development times from 1½ to 15 minutes.

Milford, Connecticut

K-87

Recent Filmline Installations:

- N. A. S. A. Huntsville, Ala.
- Reeves Sound, N. Y. C.
- Thiokol Chemical Co.
- WHYN-TV, KNDO-TV, WFMV-TV
- Moral Rearmament

**FAST!**  
**MODEL R-36**  
**REVERSAL FILM**  
**PROCESSOR**

- Additional Features:**
- Forced Warm Air Dry Box • Filtered Air Supply
  - 316 Stainless Steel Construction • Film Speed tachometer • Two developer pumps • Built in air compressor • Bottom drain valves and drain trough
  - Rotary Oilless air compressor • Dry box and solution thermometers • Plumbed for continuous replenishment • Weight: Approx. 1150 lbs. • Size: 9'4" x 33" x 55½" • Only \$7950.00 F.O.B. Milford, Conn.

**M**agnecord  
introduces...

**The New 1000 Series ■ Unprecedented Reliability at Lowest Conceivable Price**

THE 1028... a new giant of supremacy... the best tape recorder that any amount of money can buy. **from \$995**  
RECORDER/REPRODUCER  
FOR TWO-TRACK STEREO OR  
MONAURAL HALF-TRACK  
OPERATION

**Model 1021**  
**RECORDER/REPRODUCER**  
For Monaural Operation

only **\$659**

**TAPE SPEEDS:** 3.75 and 7.5 inches per second.

**REEL SIZE:** 5-, 7-, and 8-inch E.I.A. hubs.

**HEADS:** Full-track Erase, Record and half-track play.

**DIMENSIONS:** 19" wide, 15¾" high, 12" deep.

Fully transistorized with regulated power supply ■ Standard readily available transistors and components ■ Switchable equalization (N.A.B. standard) ■ Broadcast standard input and output connectors ■ In-built cueing speaker-with separate level control ■ Two speed hysteresis synchronous capstan motor ■ Separate reel drive motors ■ Military type fail-safe differential band brakes ■ Simultaneous record and playback

**Model 1022**  
**RECORDER/REPRODUCER**  
For Two-Track Stereo or Half-Track Monaural Operation

only **\$739**

**TAPE SPEEDS:** 7.5 and 15 inches per second

**REEL SIZE:** 5-, 7- and 8-inch E.I.A. hubs

**HEADS:** Selectable 2-channel Erase, 2-channel Record, 2-channel play and ¼-track play.

**DIMENSIONS:** 19" wide, 15¾" high, 12" deep.

Solid state electronics with regulated power supply ■ Earphone monitoring-switchable for stereo or mono ■ Easy remote "start-stop" control ■ New "cue" transport control ■ Pay out compliance arm and tapebreak shut-off ■ Double flywheel capstan drive ■ Signal switching available at remote socket ■ Solenoid operated tape gate, brakes and pressure roller ■ ¼ track playback head (switch selectable) integral

For the first time in the history of our industry, professional users are offered two tape recorders with maximum performance reliability insured by the name Magnecord — yet at lowest conceivable prices. No other name offers so much for so little. Depending on your needs, choose the Model 1021 or Model 1022, neither of which requires accessories.

## *Daily Station log for those using the GAF Ozalid system*

SAVINGS... that's the big news from stations who have adopted the lower-cost Ozalid data processing system.

Yes, in just one year over 144 stations (and 2 station reps) have installed Ozalid systems and gained faster billing methods, faster traffic procedures—more accurate and current availabilities. All of which log important savings.

One station told us their GAF Ozalid system saved them at least 1½ people, and eliminated *all* overtime. In salaries alone, you'll agree this represents a significant reduction.

Another station reported it cut daily log preparation time from 2 days with 2 girls, to 2 hours with 1 girl!

Whether your station is large or small, a GAF Ozalid system can bring this kind of performance and economy to your internal operation. It will pay you to check into it. Just write: General Aniline & Film Corp., Department HH-3, Binghamton, New York.

# EXPERIENCE AT YOUR COMMAND! RCA SERVICE...

## FROM REPAIRS TO COMPLETE OVERHAUL

- Video tape recorder service
- TV camera overhaul
- Antenna inspection measurements
- Microphone & pick-up repairs
- Transmitter performance measurements
- Custom fabrication
- Installation supervision
- Console repairs
- TV projector service
- Microwave service

Broadcasters have selected RCA for dependable service over the past 30 years.

To guard performance of all your equipment . . . simply telephone one of the following field offices: Atlanta (phone 799-7291), Chicago (WE 9-6117), Camden (GL 6-7984), Hollywood (OL 4-0880). Or contact Technical Products Service, RCA Service Company, A Division of Radio Corporation of America, Bldg. 203-1, Camden 8, N. J.

## Sponsor Preferred

# Choose RCA-4415 & 4416 for Your Big Year in Color

Colorcast schedules are growing heavier. And heavier. And heavier. Get set now to deliver the sharp, true, bright pictures sponsors demand for their programs and commercials. Replace with RCA Image Orthicons 4415 & 4416. For RCA insists on highest quality performance in its color image orthicons. And has invested more to get it.

The RCA 3-tube factory-matched set in your camera produces exceptional pictures in color receivers, as well as high resolution pictures with normal tone rendition in black-and-white sets... at lighting levels available in black-and-white studios! There's no problem of high scene-lighting temperatures...no need for extra air-conditioning. And

many lighting costs usually associated with high-quality indoor color pickup are avoided.

RCA precision construction, Field Mesh, plus finely matched tube characteristics assure you excellent picture registration and uniform color balance over the entire scanned area.

Also available is RCA-7513, an Image Orthicon for highest quality color pickup using conventional color TV lighting. Ask about RCA Image Orthicons locally. SEE YOUR AUTHORIZED DISTRIBUTOR OF RCA BROADCAST TUBES.

RCA Electronic Components and Devices, Harrison, N. J.

**Rely on ROHN**

**for TOWERS, TOWER SYSTEMS, MICROWAVE PASSIVE REFLECTORS, LIGHTING EQUIPMENT and ACCESSORIES**

ROHN is the largest company of its kind exclusively manufacturing communication towers and allied equipment. They can supply a wide range of both guyed and self-supporting towers from all heights up to 800'. They have available engineering and manufacturing facilities for special tower systems and complete engineering and design services. Also ROHN makes microwave passive reflectors and complete tower lighting equipment. So whether it's a single tower or a complete communications system, contact ROHN for dependable and reliable equipment and service.

"Pioneer Manufacturers of towers of all kinds—Representatives world-wide"

# NOW! the low-cost SONY BV-100 VIDEOTAPE RECORDER for TV BROADCASTING

SONY, recognized as leader in the design and manufacture of slant-track video tape recorders, presents a new first: The BV-100, a truly low-cost video tape recorder that meets all FCC engineering standards for television broadcasting. Transistorized for light weight and extreme reliability, the BV-100 includes the famous SONY "Stop-Look" feature which permits true slow-motion or full stop at the touch of a button. Extremely economical and ideal for all-purpose use in smaller stations and remote operation for metropolitan broadcasters, the unit makes use of the new rotary transformer which eliminates all brush problems and provides years of low-noise, trouble-free service. Send the coupon for full details.

## Tubes designed from the user's viewpoint ...use them wherever reliability is essential

When reliability really counts—as it does in broadcasting—be sure with tubes custom-designed and tested for the job.

Sylvania engineers traveled the country—met with engineers and maintenance groups in broadcasting, public service radio, industry, the airlines—listened to their problems and studied them. From this came GB Gold Brand, a superior line of new and upgraded tubes,

each tailor-made to a specific job. A given tube may have, for example, low noise, exceptional stability or vibration resistance. Or a critical parameter may be as much as three times the usual value. In each case, performance and reliability have been verified by actual user experience as well as laboratory testing.

This extra effort has paid off. "Excellent results," says an airline official. "No failures,"

reports a highway patrol department. "Hundreds of dollars saved in program interruptions," reports a TV station. "Less costly in the long run," discovered a county government. Similar results can be yours with a truly reliable, genuinely interchangeable GB Gold Brand Tube.

Electronic Tubes Division, Sylvania Electric Products Inc., 1100 Main St., Buffalo 9, N. Y.

# TEKTRONIX WAVEFORM MONITORS

**...NOW with illuminated "zero-parallax" graticules—for greater accuracy**

In a rack or console, this Tektronix Waveform Monitor adapts easily to control applications. For example, in addition to conventional two LINE and two FIELD displays, you can choose from three calibrated time-base rates—at 0.125 H/CM, at 0.025 H/CM with 5X Magnifier, and at 0.005 H/CM with 25X Magnifier—which eliminates the need for time markers.

You can use the dual inputs differentially.

And you can observe bright displays accurately and dependably over a full 7-centimeter by 10-centimeter viewing area.

*Adaptable and versatile, this Waveform Monitor features:* amplitude linearity within 1% over full 7-cm of vertical deflection • sensitivity from 0.25 volt minimum to 1.6 volts maximum for 140 IRE units • response flat within 1% from 60 cps to 5 Mc or new IRE rolloff • internal calibrator for 1.0 and 1.4 volt peak-to-peak signals • backporch dc restoration, with no color-burst distortion.

## SPECIAL MODEL TYPE RM527 MOD132C

This special model of the rack-mount waveform monitor has all capabilities of the Type RM527 plus two additional features—a Line Selector and a Video Distribution Amplifier.

The Line Selector permits detailed analyses of single television lines (particularly useful with 4½ inch cameras), and the Video-Distribution Amplifier permits slaving a picture monitor to the oscilloscope display.

Type RM527 MOD132C . . . . . \$1185

8" monitor      Type 527      2-RM527's slide mounted      2-527's cradle mounted

Type RM527      \$1000  
5¼" high, 16¾" wide, 16" deep

Type 527      \$925  
9¼" high, 8½" wide, 16¾" deep

10½"

## TYPE 526 COLOR-TELEVISION VECTORSCOPE

The Vectorscope enables quick and accurate relative phase and amplitude measurements (of chrominance information in the N.T.S.C. Color Signal). Dual inputs facilitate equipment matching. Also, in addition to vector display, the Vectorscope can present the chroma signal demodulated along any phase-angle axis with respect to time.

Type 526 Vectorscope . . . . . \$1665

## TOPAZ POWER FREQUENCY STANDARD

FOR DRIVING  
VIDEO TAPE RECORDERS

Model 500-FC delivers 500 watts

- The Model 500-FC drives your video tape recorder and other synchronous devices with frequency stability & accuracy (60 ± .03 CPS)
- Operates off 115V. lines from 50 to 500 CPS.

**TOPAZ, INC.**  
3802 HOUSTON ST.  
SAN DIEGO, CALIF. 92110

# LARGE SCREEN TV PROJECTION

Since its introduction, Tele-Beam has become the most widely accepted TV projection system. The reason: Tele-Beam is the best buy based on quality of performance, reliability, ease of use, and price.

### FEATURES:

**SIMPLE CONTROLS . . .** same as home TV

**BOTH OVER-THE-AIR and CLOSED-CIRCUIT TUNING . . .**  
a switch permits going from one to the other

**BOTH FRONT OR REAR PROJECTION . . .** a switch reverses sweep direction without additional effort

**PROJECTOR HEAD MAY BE REMOTE CONTROLLED UP TO 400 FT.**

**LIGHT WEIGHT . . . EASY PORTABILITY . . .** projector head and control unit are compact and easily handled

### USED FOR

ENTERTAINMENT, EDUCATION, SALES, COMMERCIAL, INDUSTRIAL, MEDICAL, AND COMMUNICATIONS APPLICATIONS

### USED BY

SCHOOLS, UNIVERSITIES, MUSEUMS, HOSPITALS, THEATRES, AUDITORIUMS, TV STATIONS, ADVERTISING AGENCIES, MOTELS, HOTELS, CLUBS, LOUNGES, INDUSTRIAL, COMMERCIAL, AND MERCHANDISING ENTERPRISES, MILITARY ORGANIZATIONS, GOVERNMENTAL AGENCIES Federal, State, and Municipal.

### FOR MANY DIVERSE USES AS

PUBLIC RELATIONS, AGENCY PRESENTATIONS, NEWS CASTS, OVERFLOW AUDIENCES, AND CLOSE-CIRCUITING OF THEATRICAL AND SPORTING EVENTS, NATIONAL SALES MEETINGS, CONFERENCES, TRAINING PROGRAMS, SEMINARS, LECTURES, DEMONSTRATIONS, CLINICAL AND LABORATORY WORK, REMOTE OBSERVATION AND LARGE SCREEN MONITORING, INFORMATION EXCHANGE AND RETRIEVAL, AND NUMEROUS OTHER PURPOSES.

# STATION APPLICATION PROCEDURE

## How to Apply for a Broadcasting Station (AM/FM/TV)

(updated to November 1963)

Any qualified citizen, firm, or group may apply to the Federal Communications Commission for authority to construct a standard (AM), frequency modulation (FM), or television (TV) broadcast station.

Licensing of these facilities is prescribed by the Communications Act of 1934, as amended, which sets up certain basic requirements. In general, applicants must satisfy the Commission that they are legally, technically and financially qualified, and that operation of the proposed station would be in the public interest.

The licensing procedure is detailed in Part 1 of the Commission's rules, "Practice and Procedure," while station operation is covered by Part 3, "Radio Broadcast Services." The latter includes technical standards for AM, FM, and TV stations; FM frequency allocations by classes of stations and TV channel assignments by states and communities. Copies of these rules are not supplied by the Commission but are available in Volumes I and III of the FCC rules and regulations sold by the Superintendent of Documents, Washington 25, D. C.

Most applicants employ engineering and legal services in preparing their applications. In many cases the applicant must have a search made for a frequency on which he could operate without causing or receiving interference from existing stations and stations proposed in pending applications. Also, he usually requires legal advice and assistance in filling out the application form. The workload of the Commission does not enable it to make frequency studies, etc., for prospective applicants. Nor does it recommend individual lawyers or engineers. Those who practice before the Commission have their own associations, the members of which are listed in various trade publications.

Following is a summary of the consecutive steps to be followed in applying for authorization to build and operate a broadcast station. The application procedure is substantially the same whether the facility sought is AM, FM, or TV.

### Selecting a Frequency

AM broadcast stations operate on "local," "regional," or "clear" channels. Stations of 250 watts power nighttime and up to 1 kilowatt daytime serve small communities; stations of 500 watts to 5 kilowatts power cover centers of population and surrounding areas; stations of 10 to 50 kilowatts power are for large area coverage, particularly at night. There is no separate classification for AM operation by educational stations.

There are three classes of commercial FM stations. Class A stations use power of from 100 watts to 3 kilowatts to cover a radius of 15 miles; class B stations, 5 kilowatts to 50 kilowatts for 40-mile service and class C, 10 kilowatts to 100 kilowatts for 65-mile range. Noncommercial educational FM stations are in a separate category and may operate with power as low as 10 watts. Operating FM stations may apply for a "Subsidiary Communications Authorization" to furnish background music and other supplemental program service. FM stations, if they so desire, may engage in stereophonic broadcasting, for which no special application is required.

An applicant for a TV station must request a VHF (Very High Frequency) or a UHF (Ultra High Frequency) channel assigned to the community in which he proposes to operate, or a place within 15 miles of that community. TV "translator" stations serve remote communities by picking up and rebroadcasting the programs of outside stations, with the latter's permission. They operate on VHF or the upper 14 UHF channels. Certain channels are reserved for educational TV operation.

### Applying for a Construction Permit

Once a prospective licensee has decided upon the type of station he desires, the place where it would be located and determines the programming needs of the audience he intends to serve, the next step is to apply for a construction permit. This is done on FCC Form 301, "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station," which

covers AM, FM or TV broadcast, except educational FM applicants who use Form 340, translators (Form 346) and UHF station boosters (Form 343). These forms require information about the citizenship and character of the applicant, as well as his financial, technical, and other qualifications, plus details about the transmitting apparatus to be used, antenna and studio locations, and the service proposed. A specific channel or frequency must be requested. Triplicate copies are required.

### Applicants Must Give Local Notice

Applicants for new broadcast stations, license renewals, station sales or major changes in existing stations must give local notice of such intent, also of any subsequent designation of their applications for hearing. This is done over the applicant's local station (if any) and by advertising in the local newspaper.

### Application Processing

All broadcast applications are twice reported by the Commission— when first tendered and, again, when accepted for filing. An application is not acted upon until at least 30 days after public notice is given of its acceptance. During that time it is subject to objecting petitions being filed.

Applications are, in general, processed in the order in which accepted. They are reviewed in their engineering, legal, and financial aspects by the Broadcast Bureau, which makes recommendations to the Commission.

If, upon examination of an application, the Commission determines that there are no engineering or other conflicts, that the applicant is qualified, and that all other requirements are met, the application is granted without hearing and a construction permit is issued. All such grants are announced publicly. Petitions for reconsideration must show good cause why the objections were not raised prior to the grant.

### Hearing Procedure

Where it appears that an application violates the Commission's rules and regulations; that serious interference would be caused; there is protest of merit; or if other serious questions of a technical, legal, or financial character are involved, a hearing is usually required. The Commission must accord a hearing to competing, timely filed applicants.

In designating an application for hearing, the Commission gives public notice of the issues for the information of the applicant and others concerned. The hearing notice generally allows the applicant 60 days or more in which to prepare. Even after being designated for hearing, an applicant may find it possible to amend his application to resolve engineering or other problems. (Commission approval is required for all mergers or "pay-offs" involving competing applicants.)

Hearing on competing applications are normally held at the Commission's Washington offices; however, hearings on license revocations and renewals often are held in the communities affected.

Hearings are customarily conducted by an examiner. The hearing examiner has authority to administer oaths, examine witnesses and rule upon the admission of evidence. A prehearing conference is generally held to reach agreement on procedural matters.

Within 20 days after the close of a record by the hearing examiner, each party and the chief of the Broadcast Bureau of the Commission has the privilege of filing proposed findings of fact and conclusions to support their contentions. After review of the evidence and statements, the hearing examiner issues an initial decision.

If he wishes to contest the initial decision, the applicant or any other interested party has 30 days from the date on which the initial decision was announced to file exceptions. In all cases heard by an examiner, the Commission or the Review Board may hear oral argument on timely request of any party. After oral argument, the Commission or the Review Board may adopt, modify, or reverse the hearing examiner's initial decision. Where the Review Board has acted on the exceptions an appeal may be taken to the full Commission within 30 days. However, the Commission may in its discretion deny an appeal for review without stating its reasons. Court appeals can be taken within 30 days following the announcement of the final decision.

### Construction Permit

When an application is granted, a construction permit is issued. The permittee

may then suggest call letters which, if available and conforming to the rules, are issued. A maximum of 60 days from date of the construction permit is provided in which construction shall begin, and a maximum of 6 months thereafter as the time for completion (or 8 months in all). Application to modify a broadcast construction authorization, or to make changes in an existing station, or to modify a license, is made on the same form (301) used in seeking initial construction authorization. If the permittee is unable to build his station within the time specified, he must apply for extension of time on Form 701 ("Application for Additional Time to Construct a Radio Station"), giving the reasons. Upon completion of construction the permittee conducts equipment (not program) tests.

### License

The final step is to apply for the actual license on Form 302 ("Application for New Broadcast Station License"), or Form 341 (for non-commercial educational fm stations), Form 344 (for UHF station boosters), or Form 347 (for tv translators). Applicants must show compliance with all terms, conditions, and obligations set forth in the original application and the construction permit. Not until he applies for a license can the holder of a construction permit request authority to conduct program tests. The license application form provides a space for making program test request, or it can be made separately. A station license and program test authority are issued if no new cause or circumstance has come to the attention of the Commission that would make operation of the station contrary to public interest.

### Renewal of License

Applicants for renewal of station licenses must show that they have operated according to the terms of their authorizations and the promises they made in obtaining them. Renewal applications are made on Form 303 ("Application for Renewal of Broadcast Station License"), except that noncommercial educational FM licensees use Form 342; UHF station boosters Form 345, and TV translators Form 348.

### Sales and Transfers

If the holder of a construction permit or license desires to assign the same to someone else, he makes application on Form 314 ("Application for Consent to Assignment of Radio Broadcast Station Construction Permit or License"). Should the permittee or licensee wish to transfer corporate control, he applies on Form 315 ("Application for Consent to Transfer Control of Corporation Holding Radio Broadcast Station Construction Permit or License").

Form 316 ("Application for Assignment or Transfer—Short Form") may be used when the transfer or assignment involves no substantial change in interest. Sales of stations held less than three years are subject to automatic hearing, except in case of death, hardship or other mitigating circumstances beyond the licensee's control.

### Construction Changes

Applicants for authority to make construction changes in existing stations make application on the same form used in applying for a construction permit for the type of station involved.

### Contemplated Filing Fees

On May 6, 1963, the Commission adopted a schedule of fees to be charged for the filing of applications in most of its services, to become effective Jan. 1, 1964.

The prescribed fees for broadcast applications filed on and after that date are: For new stations or major changes, \$50 for AM or FM and \$100 for TV; for renewal or assignment of license or transfer of control, the same fees (except for those on FCC Form 316, of which \$30 would be paid); for change of call letters, \$20; for all other broadcast applications (including TV translator), \$30.

Fees are not required for noncommercial educational broadcast applications by tax exempt organizations.

### CONCERNING FCC RULES AND REGULATIONS

"How to Apply for a Broadcast Station License" is a concise report prepared by the FCC Office of Reports & Information as a lay language guide. Serious applicants will also wish to study the FCC Rules & Regulations. Excerpts of the rules begin on page C-42.

# SHURE

...broadcast audio  
equipment that is  
exciting the industry

## MICROPHONES

Specially designed for exacting studio applications. Extensively field-tested, many in use by leading radio and TV stations.

**MODEL 576  
OMNIDIRECTIONAL  
DYNAMIC**

Only 3/4" diameter! 40% smaller diam., 60% smaller area than popular dynamic omnidirectionals. Virtually flat from 40 to 20 Kc. Rugged steel case.

**MODEL 570  
LAVALIER DYNAMIC**

Outstanding on the job. Specially shaped response cuts "chest boom" ... provides unequalled presence. Non-metallic "Flex-Grip" hanger... silent, secure. Only 3/4" diam.

**MODEL 546  
UNIDIRECTIONAL  
UNIDYNE III**

Uniquely uniform and symmetrical cardioid pattern solves many difficult studio and remote problems. Provides broad useful front coverage.

**MODEL 333  
UNIDIRECTIONAL  
RIBBON**

Extremely rugged. Exceptionally attractive and compact. Ideal for music (stereo or mono) and general applications on stand or boom. Super cardioid, flat wide-range response.

## CIRCUITRY

Shure stereo equalizer and preamplifiers are praised as MAJOR contributions to upgrading station quality by broadcasters.

**SE-1 STEREO  
TRANSCRIPTION PREAMPLIFIER**

Provides precise RIAA equalization from magnetic phono reproducers at line levels. Separate high and low frequency response trimmers. Lowest distortion, noise level, susceptibility to stray RF fields.

**M66 BROADCAST  
STEREO EQUALIZER**

Passive equalizer compensates recorded frequency to three playback characteristics: RIAA, flat, roll-off. Provides precise equalization from magnetic pickup at microphone input level.

## STONE ARMS & CARTRIDGES

World standard for quality sound.

**SHURE SME  
"THE BEST PICK-UP  
ARM IN THE WORLD"**

Utterly beyond comparison. Supremely accurate, proved reliable in quality music stations.

**STEREO DYNETIC  
Phono Cartridges**

First choice on every count—standard in the quality music stations.

Write directly to Mr. Robert Carr, Manager of Professional Products Division, for personalized assistance, technical data, samples for testing: Shure Brothers, Inc., 222 Hartrey Ave., Evanston, Ill.

# FCC Rules Regulating Radio-Television

(Selected sections amended to Sept. 1, 1963. Compiled with the cooperation of Pike & Fischer Inc., publisher of Pike & Fischer Radio Regulation.)

## ALLOCATIONS AND DEFINITIONS

### In am rules . . .

**§3.1 Standard broadcast station.**—The term "standard broadcast station" means a station licensed for the transmission of radio-telephone emissions primarily intended to be received by the general public and operated on a channel in the band 535-1605 kilocycles, inclusive.

**§3.2 Standard broadcast band.**—The term "standard broadcast band" means the band of frequencies extending from 535-1605 kilocycles.

**§3.3 Standard broadcast channel.**—The term "standard broadcast channel" means the band of frequencies occupied by the carrier and two side bands of a broadcast signal with the carrier frequency at the center. Channels shall be designated by their assigned carrier frequencies. The 107 carrier frequencies assigned to standard broadcast stations shall begin at 540 kilocycles and be in successive steps of 10 kilocycles.

**§3.4 Dominant station.**—The term "dominant station" means a Class I station, as hereinafter defined, operating on a clear channel.

**§3.5 Secondary station.**—The term "secondary station" means any station except a Class I station operating on a clear channel.

**§3.6 Daytime.**—The term "daytime" means that period of time between local sunrise and local sunset.

**§3.7 Nighttime.**—The term "nighttime" means that period of time between local sunset and 12 midnight local standard time.

**§3.8 Sunrise and sunset.**—The term "sunrise and sunset" means for each particular location and during any particular month, the time of sunrise and sunset as specified in the instrument of authorization.

**§3.9 Broadcast day.**—The term "broadcast day" means that period of time between local sunrise and 12 midnight local standard time.

**§3.10 Experimental period.**—The term "experimental period" means that time between 12 midnight and local sunrise. This period may be used for experimental purposes in testing and maintaining apparatus by the licensee of any standard broadcast station on its assigned frequency and with its authorized power, provided no interference is caused to other stations maintaining a regular operating schedule within such period. No station licensed for "daytime" or "specified hours" of operation may broadcast any regular or scheduled program during this period.

**§3.11 Service areas.**—(a) The term "primary service area" of a broadcast station means the area in which the ground wave is not subject to objectionable interference or objectionable fading.

(b) The term "secondary service area" of a broadcast station means the area served by the sky wave and not subject to objectionable interference. The signal is subject to intermittent variations in intensity.

(c) The term "intermittent service area" of a broadcast station means the area receiving service from the ground wave but beyond the primary service area and subject to some interference and fading.

**§3.12 Portable transmitter.**—The term "portable transmitter" means a transmitter so constructed that it may be moved about conveniently from place to place, and is in fact so moved about from time to time, but not ordinarily used while in motion. In the standard broadcast band, such a transmitter is used in making field intensity measurements for locating a transmitter site for a standard broadcast station. A portable broadcast station will not be licensed in the standard broadcast band for regular transmission of programs intended to be received by the public.

**§3.13 Auxiliary transmitter.**—The term "auxiliary transmitter" means a transmitter maintained only for transmitting the regular programs of a station in case of failure of the main transmitter.

**§3.21 Classes of standard broadcast channels and stations.**

(a) Clear channel. A clear channel is one on which the dominant station or stations render service over wide areas, and which are cleared of objectionable interference within their primary service areas and over all or a substantial portion of their secondary service areas. Stations operating on these channels are classified as follows:

(1) Class I station. A Class I station is a dominant station operating on a clear channel and designed to render primary and secondary service over an extended area and at relatively long distances. Its primary service area is free from objectionable interference from other stations on the same and adjacent channels, and its secondary service area free from interference except from stations on adjacent channels, and from stations on the same channel in accordance with the channel designation in §§3.25 or 3.182. The operating power shall not be less than 10 kilowatts nor more than 50 kilowatts. (Also see §3.25[a] for further power limitation.)

(2) Class II station. A Class II station is a secondary station which operates on a clear channel (see §3.25) and is designed to render service over a primary service area which is limited by and subject to such interference as may be received from Class I stations. Whenever necessary a Class II station shall use a directional antenna or other means to avoid interference with Class I stations and with other Class II stations, in accordance with §3.182 (and §3.22 in the case of Class II-A stations). Class II stations are divided into three groups:

(i) Class II-A station. A Class II-A station is an unlimited time Class II station operating on one of the clear channels listed in §3.22 and assigned to a community within a state specified in the Table contained in that section. A Class II-A station shall operate with power not less than 10 kilowatts nighttime nor more than 50 kilowatts at any time.

(ii) Class II-B station. A Class II-B station is an unlimited time Class II station other than those included in Class II-A. A Class II-B station shall operate with power not less than 0.25 kilowatts nor more than 50 kilowatts.

NOTE: The Class II station operating unlimited time on 760 kc at San Diego and the Class II station operating unlimited time on 750 kc at Anchorage, Alaska, shall be limited to a power of 10 kw. Both stations shall protect the I-A station on the same frequency to its 0.5 mv/m 50% skywave contour.

(iii) Class II-C station. A Class II-C station is a Class II station operating daytime or limited time. A Class II-C station shall operate with power not less than 0.25 kilowatts nor more than 50 kilowatts.

(b) Regional channel. A regional channel is one on which several stations may operate with powers not in excess of 5 kilowatts. The primary service area of a station operating on any such channel may be limited to a given field intensity contour as a consequence of interference.

(1) Class III station. A Class III station is a station which operates on a regional channel and is designed to render service primarily to a principal center of population and the rural area contiguous thereto. Class III stations are subdivided into two classes.

(i) Class III-A station. A Class III-A station is a Class III station which operates with power not less than 1 kilowatt nor more than 5 kilowatts and the service area of which is subject to interference in accordance with §3.182.

(ii) Class III-B station. A Class III-B station is a Class III station which operates with power not less than 0.5 kilowatt, nor more than 1 kilowatt night and 5 kilowatts daytime, and the service area of which is subject to interference in accordance with §3.182.

(c) Local channel. A local channel is one on which several stations operate with powers no greater than provided in this paragraph. The primary service area of a station operating on any such channel may be limited to a given field intensity contour as a consequence of interference. Such stations operate with power no greater than 250 watts nighttime, and power daytime no greater than 1 kilowatt (or no greater than 250 watts if the station is located 100 kilometers [62 miles] or closer to the Mexican border, or in the area of the state of Florida south of 28 degrees north latitude and between 80 and 82 degrees west longitude).

(1) Class IV station. A Class IV station is a station operating on a local channel and designed to render service primarily to a city or town and the suburban and rural areas contiguous thereto. The power

of a station of this class shall not be less than 0.1 kilowatt, and not more than 0.25 kilowatt nighttime and 1 kilowatt daytime, and its service area is subject to interference in accordance with §3.182.

NOTE 1: Under NARBA the power ceiling for Class IV stations is 250 watts daytime as well as nighttime. The U.S.-Mexican Agreement permits such stations to operate with up to 1 kilowatt power daytime if they are located further than 100 kilometers [62 miles] from the Mexican border. Pursuant to the U.S.-Mexican Agreement and informal coordination with the other NARBA signatories, the Commission will consider applications for Class IV stations on local channels with daytime powers more than 250 watts, up to 1 kilowatt, if such station is to be located outside of the areas specified in paragraph (c) of this section, and if no objectionable interference would be caused (under the standards set forth in the pertinent international agreement) to a duly notified station in Mexico, Haiti, or any foreign country signatory to NARBA.

NOTE 2: All authorizations of new or changed Class I-B, Class II-B, Class II-D, Class III or Class IV facilities after October 30, 1961, are subject to whatever interference may be received from, or whatever overlap of 2.0 mv/m and 25 mv/m groundwave contours or overlap of 25 mv/m groundwave contours may be involved with previously or subsequently authorized Class II-A facilities.

### §3.22 Assignment of Class II-A stations.

(a) Table of assignments. One Class II-A station may be assigned on each channel listed in the following table within the designated state or states:

Channel (kc)	Existing Class I Station	City	State(s) in which Class II-A Assignment may be Applied for
670	WMAQ	Chicago	Idaho
720	WGN	Chicago	Nevada or Idaho
780	WBBM	Chicago	Nevada
880	WCBS	New York	No. Dakota, So. Dakota or Nebraska
890	WLS	Chicago	Utah
1920	KDKA	Pittsburgh	New Mexico
1030	WBZ	Boston	Wyoming
1100	KYW	Cleveland	Colorado
1120	KMOX	St. Louis	California or Oregon
1180	WHAM	Rochester	Montana
1210	WCAU	Philadelphia	Kansas, Nebraska or Oklahoma

(b) Minimum service to "white" areas. No Class II-A station shall be assigned unless at least 25% of its nighttime interference-free service area or at least 25% of the population residing therein receives no other interference-free nighttime primary service.

(c) Power. Class II-A stations shall operate with not less than 10 kw power nighttime.

(d) Protection. (1) Protection by Class II-A stations to other stations. The co-channel Class I-A station shall be protected by the Class II-A station to its 0.1 mv/m contour daytime and its 0.5 mv/m 50% skywave contour nighttime. All other stations of any class authorized on or before October 30, 1961, shall normally receive protection from objectionable interference from Class II-A stations as provided in §3.182.

(2) Protection to Class II-A stations. A Class II-A station shall normally receive daytime protection to its 0.5 mv/m groundwave contour and nighttime protection to the contour to which it is limited by the co-channel Class I-A station.

(e) Applications not complying with this section. Applications for Class II-A stations which do not meet the requirements of paragraphs (b) and (c) of this section will be returned without further consideration.

**§3.23 Time of operation of the several classes of stations.**—The several classes of standard broadcast stations may be licensed to operate in accordance with the following:

(a) "Unlimited time" permits operation without a maximum limit as to time.

(b) "Limited time" is applicable to class II (secondary) stations operating on a clear channel with facilities authorized before Nov. 30, 1959. It permits operation of the secondary station during daytime, and until local sunset if located west of the dominant station on the channel, or if located east thereof, until sunset at the dominant station; and in addition during night hours, if any, not used by the domi-

# Look What's Happened to the **SUN GUN**® Photo Light!

Now it's all head (no handle)—easier to mount with a new universal post clamp.

Now it comes complete with a new transistorized SYLVAC™ Control that lets you dial the color temperature you need for each shot.

And it's a complete, portable, studio lighting system priced lower than you would ever imagine.

The new 3½-lb. **SUN GUN Photo Light** is equipped with dual leaf rotating and locking barn doors that turn a full 360°. And there's a full range of standard and optional accessories that lets you do virtually anything with the light from its powerful 1000-watt lamp.

The new SYLVAC Control tells you the exact voltage

across the lamp, allows you to dial the precise color temperature you require—gives you quick, easy, fingertip control of light intensity and lighting ratios for black-and-white work, too. It comes in two models: SV-9 for controlling one **SUN GUN** photo light, SV-20 for controlling two.

Details? Ask your dealer—or write Sylvania **SUN GUN** Products, Sylvania Electric Products Inc., 730 Third Ave., New York 17, N. Y.

## FCC RULES

nant station or stations on the channel.

(c) Daytime permits operation during the hours between average monthly local sunrise and average monthly local sunset. Daytime stations operating on local channels with a power of 0.1 kw or 0.25 kw may, upon notification to the Commission and to the Engineer in Charge of the radio district in which they are located, operate at hours beyond those specified in their license.

(d) "Sharing time" permits operation during hours which are so restricted by the station license as to require a division of time with one or more other stations using the same channel.

(e) Specified hours means that the exact operating hours are specified in the license. (The minimum hours that any station shall operate are specified in Section 3.71.) Specified hours stations operating on local channels with a power of 0.1 kw or 0.25 kw, except those sharing time with other stations may, upon notification to the Commission and the Engineer in Charge of the radio district in which they are located, operate at hours beyond those specified in their license.

**§3.24 Broadcast facilities: showing required.**—An authorization for a new standard broadcast station or increase in facilities of an existing station will be issued only after a satisfactory showing has been made in regard to the following, among others:

(a) That the proposed assignment will tend to effect a fair, efficient, and equitable distribution of radio service among the several states and communities.

(b) That objectionable interference will not be caused to existing stations or that if interference will be caused, the need for the proposed service outweighs the need for the service which will be lost by reason of such interference. (For special provisions concerning interference from Class II-A stations to stations of other classes authorized after October 30, 1961, see Note 2 to §3.21 and §3.22(d)). That the proposed station will not suffer interference to such an extent that its service would be reduced to an unsatisfactory degree. (For determining objectionable interference, see §3.182 and §3.186.)

(c) That the applicant is financially qualified to construct and operate the proposed station.

(d) That the applicant is legally qualified. That the applicant (or the person or persons in control of an applicant corporation or other organization) is of good character and possesses other qualifications sufficient to provide a satisfactory public service.

(e) That the technical equipment proposed, the location of the transmitter, and other technical phases of operation comply with the regulations governing the same, and the requirements of good engineering practice. (See technical regulations of this subpart and §3.188.)

(f) That the facilities sought are subject to assignment as requested under existing international agreements and the rules and regulations of the Commission.

(g) That the population within the 1 mV contour does not exceed 1.0 per cent of the population within the 25 mV/m contour: Provided, however, that where the number of persons within the 1 mV contour is 300 or less the provisions of this subparagraph are not applicable.

(h) That, in the case of an application for a class II station, the proposed station would radiate, during two hours following local sunrise and two hours preceding local sunset, in any direction toward the 0.1 mV/m ground-wave contour of a co-channel United States Class I station, no more than the maximum radiation values permitted under the provisions of §3.187.

(i) That, in the case of an application for a Class II-A station (see §3.22), 25% or more of the area or population within the nighttime interference-free service contour of the proposed station receives no nighttime interference-free primary service from another station.

(j) That the public interest, convenience and necessity will be served through the operation under the proposed assignment.

**§3.25 Clear channels: Classes I and II stations.**—The frequencies in the following tabulations are designated as clear channels and assigned for use by the classes of stations given:

(a) On each of the following channels, one Class I station will be assigned, operating with power of 50 kw: 640, 650, 660, 670, 700, 720, 750, 760, 770, 820, 830, 840, 870, 880, 890, 1020, 1030, 1040, 1100, 1120, 1160, 1180, 1200 and 1210 kc. In addition, on the channels listed in this paragraph,

Class II stations may be assigned as follows:

(1) On 670, 720, 780, 880, 890, 1020, 1030, 1100, 1120, 1180 and 1210 kc, one Class II-A unlimited time station, assigned and located pursuant to the provisions of §3.22.

(2) On the channel 750 kc, an unlimited time Class II station located at Anchorage.

(3) On the channel 760 kc, an unlimited time Class II station located at San Diego.

(4) On any of the channels listed in this paragraph (to the extent consistent with the assignments provided in subparagraphs [1], [2], and [3] of this paragraph), unlimited time Class II stations located in Alaska, Hawaii, Virgin Islands, or Puerto Rico, which will not deliver more than 5 microvolts per meter groundwave day or night or microvolts per meter 10 percent time skywave at night at any point within the continental limits of the United States excluding Alaska.

(5) On any of the channels listed in this paragraph (to the extent consistent with the Class I, Class II-A, and Anchorage and San Diego Class II assignments provided in this paragraph, and, in the case of limited time stations, subject to the restrictions contained in §3.38), limited time and daytime only stations, as follows:

(i) In Alaska, Hawaii, Puerto Rico and Virgin Islands.

(ii) Within the continental United States excluding Alaska, where the station would operate with facilities authorized as of October 30, 1961.

NOTE 1: In view of special circumstances arising from the provision of pre-sunrise broadcast service on 640 kc at Ames, Iowa, applications will be accepted for broadcast operations on 640 kc between 6:00 a.m. central standard time and local sunrise at Ames, Iowa, with not to exceed 1 kw power: Provided, that such applications will be acted upon only after and in light of the decision reached in Docket No. 11290.

NOTE 2: In view of special circumstances arising from the provision of a service during some nighttime hours by a Class II station operating on 830 kc at New York, N. Y., (i.e. from 6:00 a.m. to local sunrise and from sunset at Minneapolis to 10:00 p.m. E.S.T.), applications will be accepted for such operation: Provided, that they will be acted upon only after and in light of the decision reached in Docket No. 11227.

NOTE 3: On the frequency 770 kc, two Class I stations may be assigned.

NOTE 4: See NARBA concerning priority for Canadian Class I-B and Cuban I-C assignments on 640 kc.

NOTE 5: See NARBA concerning Cuban Class II-E assignments on 660, 670, 760, 780, 830, 1020, 1030 and 1120 kc.

NOTE 6: See U.S.-Mexican Agreement concerning Mexican use of 660, 760 and 830 kc.

(b) To each of the following channels there may be assigned Class I and Class II stations: 680, 710, 810, 850, 940, 1000, 1060, 1070, 1080, 1090, 1110, 1130, 1140, 1170, 1190, 1500, 1510, 1520, 1530, 1540, 1550 and 1560 kilocycles.

NOTE 1: See NARBA and the U.S.-Mexican Agreement concerning a Cuban Class II-E assignment on, and Mexican use of, 1030 kc.

NOTE 2: Class I and Class II stations on 1540 kc shall deliver not over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point of land in the Bahama Islands, and such stations operating nighttime (i.e., sunset to sunrise at the location of the Class II station) shall be located not less than 650 miles from the nearest point of land in the Bahama Islands.

(c) For Class II stations which will not deliver over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point on the Canadian border, and provided that such station operating nighttime (i.e. sunset to sunrise at the location of the Class II station) are located not less than 650 miles from the nearest point on the Canadian border, 690, 740, 860, 990, 1010, and 1580 kilocycles.

NOTE: See NARBA concerning priority for Cuban Class I-B assignment on 1010 kc, Class I-C assignments on 690 and 860 kc, and Class I-D assignment on 740 kc.

(d) The frequencies 730, 800, 900, 1050, 1220 and 1570 kilocycles, for Class II stations which operate daytime only, which will not deliver at any point on the Mexican border over 5 microvolts per meter groundwave, and which operate with no more than the following powers:

(1) If not located within the areas specified in subparagraph (2) of this paragraph, 5 kilowatts.

(2) If operating on any of the following frequencies within the following specified areas, no more than one kilowatt:

(i) 800 kc: less than 1319 kilometers (820 miles) from Ciudad Juarez, Chihuahua.

(ii) 1050 kc: less than 998 kilometers (620 miles) from Monterrey, Nuevo Leon.

(iii) 1570 kc: less than 998 kilometers (620 miles) from Ciudad Acuna, Coahuila.

NOTE: See the U.S./Mexican Agreement concerning specific U.S. unlimited time Class II assignments on each of the following channels: 730, 800, 900, 1050 and 1220 kc.

(e) The frequency 540 kilocycles, for Class II stations which will not deliver a signal of more than 5 microvolts per meter groundwave or 25 microvolts per meter 10% skywave at any point on the Canadian border, nor more than 10 microvolts per meter daytime or 50 microvolts per meter nighttime at any point on the Mexican border: Provided, that stations operating at night shall be located:

(1) Within the continental United States including Alaska; and

(2) Not less than 650 miles from the nearest point on the Canadian border; and

(3) North of the parallel 35° N. if west of the meridian 93° W., or north of the parallel 30° N. if east of said meridian.

NOTE: See §2.104(a) of this chapter with respect to use of 540 kc.

**§3.26 Regional channels: Classes III-A and III-B stations.**—The following frequencies are designated as regional channels and are assigned for use by class III-A and III-B stations: 550, 560, 570, 580, 590, 600, 610, 620, 630, 790, 910, 920, 930, 950, 960, 970, 980, 1150, 1250, 1260, 1270, 1280, 1290, 1300, 1310, 1320, 1330, 1350, 1360, 1370, 1380, 1390, 1410, 1420, 1430, 1440, 1460, 1470, 1480, 1590, and 1600 kilocycles.

NOTE: See NARBA concerning Cuban Class I-C assignment on 550 kc, Class I-D assignments on 570, 590, 630, 920, 950 and 980 kc, and Class III-E assignments on 790, 910 and 1150 kc.

**§3.27 Local channels: Class IV stations.**—The following frequencies are designated as local channels and are assigned for use by class IV stations: 1230, 1240, 1400, 1450, and 1490 kilocycles.

NOTE: See NARBA concerning Cuban Class IV-E assignments on 1240 and 1340 kc.

**§3.28 Assignment of stations to channels.**—(a) The individual assignments of stations to channels which may cause interference to other United States stations only shall be made in accordance with the provisions of this Part for the respective classes of stations involved. (For determining objectionable interference see §3.22, 3.182 and 3.186.)

(b) Except as provided in §3.21(c) concerning Class IV stations, no assignment of a standard broadcast station will be made which would be inconsistent with the provisions of NARBA or the U.S./Mexican Agreement. Similarly, as long as protection for U.S. assignments from Haitian assignments continues, no U.S. assignment of a standard broadcast station will be made which would cause objectionable interference (under the standards set forth in NARBA) to a duly notified Haitian station. (The Haitian stations considered to be duly notified are those notified and accepted in accordance with past agreements, and those subsequently notified in accordance with the procedures and understandings which have pertained thus far.) In all cases where an individual assignment may cause interference with, or may involve a channel assigned for priority of use by, a station in another North American country, the classifications, allocation requirements, and engineering standards set forth in NARBA and the U.S./Mexican Agreement shall be observed.

NOTE: In general, an application for a standard broadcast station assignment, the grant of which would be consistent with the provisions of NARBA and the U.S./Mexican Agreement and would not cause objectionable interference to a duly notified station in Haiti, will be considered and acted upon by the Commission in accordance with its rules and established procedure for action upon such applications. However, in particular cases such applications may also present considerations of an international nature which re-

# FCC RULES

quire that a different procedure be followed. In such cases the procedure to be followed will be determined by the Commission in the light of the special considerations involved.

With respect to applications for facilities which would involve conflict with NARBA only as to a country which has signed but not completed formal ratification of that agreement, and facilities which would cause objectionable interference to a duly notified Haitian station, special provisions of a procedural nature are contained in §1.352 of this chapter.

(c) Engineering standards now in force domestically differ in some respects from those specified for international purposes. The engineering standards specified for international purposes (in NARBA and the U.S./Mexican Agreement) will be used to determine: (1) the extent to which interference might be caused by a proposed station in the United States to a station in another country of the North American Region; and (2) whether the United States should register an objection to any new or changed assignment notified by another country of the North American Region. The domestic standards in effect in the United States will be used to determine the extent to which interference exists or would exist from a foreign station where the value of such interference enters into a calculation of: (1) the service to be rendered by a proposed operation in the United States; or (2) the permissible interfering signal from one station in the United States to another United States station.

(d) Upon showing that a need exists, a Class II, III or IV station may be assigned to a channel available for such class, even though interference will be received within its normally protected contour; Provided: (1) no objectionable interference will be caused by the proposed station to existing stations or that if interference will be caused, the need for the proposed service outweighs the need for the service which will be lost by reason of such interference; and (2) primary service will be provided to the community in which the proposed station is to be located; and (3) the interference received does not affect more than 10 percent of the population in the proposed station's normally protected primary service area; however, in the event that the nighttime interference received by a proposed Class II or III station would exceed this amount, then an assignment may be made if the proposed station would provide either a standard broadcast nighttime facility to a community not having such a facility or if 25 percent or more of the nighttime primary service area of the proposed station is without primary nighttime service. Further, proviso (3) of this paragraph shall not apply to existing Class IV station on local channels applying for an increase in power above 250 watts, nor to new Class IV stations proposing power in excess of 250 watts with respect to population in the primary service area outside the equivalent 250 watt, 0.5 mv/m contour.

**§3.29 Class IV stations on regional channels.**—No license will be granted for the operation of a class IV station on a regional channel, provided, however, that class IV stations presently authorized to operate on regional channels will not be required to change frequency or power but will not be protected against interference from class III stations.

## In fm rules . . .

**§3.201. Numerical designation of fm broadcast channels.**—For convenience, the frequencies available for fm broadcasting (including those assigned to noncommercial educational broadcasting) are given numerical designations which are shown in the table below:

**EDITOR'S NOTE:** [The band is 88-108 mc. Noncommercial educational fm occupies 88-92 mc. Class A commercial channels are shown in §3.204, below. The rest are class B or C. This is subject to revision upon FCC's issuance of fm Table of Assignments.]

**§3.202 International agreements and other restrictions on use of channels.**

(a) Authorizations issued by the Commission for fm broadcast facilities will be subject to the provisions of any agreements entered into by the United States with Canada concerning fm assignments and authorizations. The Commission may decide after consultation with Canada that an application should not be granted; or if, pursuant to an agreement providing for timely objection after grant, Canada files such objection, the Commission may on its own motion set aside the grant pending

consideration. The Commission will give notice of the filing of such objections.

(b) The frequency 89.1 mcs. (ch. 206) is reserved in the New York City metropolitan area for the use of the United Nations with the equivalent of an antenna height of 500 feet above average terrain and effective radiated power of 20 kilowatts, and the Commission will make no assignments which would cause objectionable interference with such use.

(c) In Alaska, the frequency band 88-100 mcs is allocated exclusively to Government radio services and the nonGovernment fixed service. The frequencies 88.1 through 99.9 mcs (chs. 201 through 260) will not be assigned in Alaska for use by fm broadcast stations.

(d) In Hawaii, the frequency band 98-108 mcs is allocated for nonbroadcast use. The frequencies 98.1 through 107.9 mcs (chs. 251 through 300) will not be assigned in Hawaii for use by fm broadcast stations.

## §3.203 Zones.

For the purpose of allocation and assignment, the United States is divided into three zones as follows:

(a) Zone I consists of that portion of the United States located within the confines of the following lines drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29½° and 45½°; North American datum): Beginning at the most easterly point on the state boundary line between North Carolina and Virginia; thence in a straight line to a point on the Virginia-West Virginia boundary line located at North Latitude 37° 49' and West Longitude 80° 12' 30"; thence westerly along the southern boundary lines of the states of West Virginia, Ohio, Indiana, and Illinois to a point at the junction of the Illinois, Kentucky, and Missouri state boundary lines; thence northerly along the western boundary line of the State of Illinois to a point at the junction of the Illinois, Iowa, and Wisconsin state boundary lines; thence easterly along the northern state boundary line of Illinois to the 90th meridian; thence north along the meridian to the 43.5° parallel; thence east along this parallel to the 71st meridian; thence in a straight line to the intersection of the 69th meridian and the 45th parallel; thence east along the 45th parallel to the Atlantic Ocean. When any of the above lines pass through a city, the city shall be considered to be located in Zone I.

(b) Zone IA consists of that portion of the State of California which is located south of the 40th parallel.

(c) Zone II consists of Alaska, Hawaii, Puerto Rico, the Virgin Islands, and the rest of the United States which is not located in either Zone I or Zone IA.

## §3.204 Classes of commercial channels, and stations operating thereon.

(a) **Class A channels and stations.**

(1) Except as provided in §3.202, the following frequencies are designated as Class A channels and are assigned for use, in all zones, by Class A stations only:

Fre- quency (mc)	Chan- nel No.	Fre- quency (mc)	Chan- nel No.
92.1	221	100.1	261
92.7	224	100.9	265
93.5	228	101.7	269
94.3	232	102.3	272
95.3	237	103.1	276
95.9	240	103.9	280
96.7	244	104.9	285
97.7	249	105.5	288
98.3	252	106.3	292
99.3	257	107.1	296

(2) A Class A station is a station which operates on a Class A channel, and is designed to render service to a relatively small community, city, or town, and the surrounding rural area.

(3) A Class A station will not be authorized to operate with effective radiated power greater than 3 kilowatts (4.8 dbk), and the coverage of a Class A station shall not exceed that obtained from 3 kilowatts effective radiated power and antenna height above average terrain of 300 feet. For provisions concerning minimum facilities, and concerning reduction in power where antenna height above average terrain exceeds 300 feet, see §3.209.

(b) **Class B-C channels and Class B and Class C stations.**

(1) Except for the channels specified in paragraph (a)(1) of this section, all of the channels listed in §3.201 from 222 through 300 (92.3 through 107.9 mcs) are classified as Class B-C channels, and (subject to the restrictions set forth in §3.202) are assigned for use in Zones I and I-A by Class B stations only, and for use in Zone II by Class C stations only (there are

no Class C stations in Zones I or I-A and no Class B stations in Zone II).

(2) A Class B station is a station which operates on a Class B-C channel in Zone I or Zone I-A, and is designed to render service to a sizable community, city, or town, or to the principal city or cities of an urbanized area, and to the surrounding area.

(3) With respect to Class B stations authorized after September 10, 1962, no such station will be authorized with effective radiated power greater than 50 kilowatts (17 dbk), and the coverage of a Class B station authorized after that date shall not exceed that obtained from 50 kilowatts effective radiated power and 500 feet antenna height above average terrain. For provisions concerning minimum power, and concerning reduction in power where antenna height above average terrain exceeds 500 feet, see §3.209.

(4) A Class C station is a station which operates on a Class B-C channel in Zone II, and is designed to render service to a community, city, or town, and large surrounding area.

(5) With respect to Class C stations authorized after September 10, 1962, no such station will be authorized with effective radiated power greater than 100 kilowatts (20 dbk), and the coverage of a Class C station authorized after that date shall not exceed that obtained from 100 kilowatts effective radiated power and antenna height above average terrain of 2,000 feet. For provisions concerning minimum power, and reduction in power where antenna height above average terrain exceeds 2,000 feet, see §3.209.

## §3.205 Minimum mileage separations between co-channel and adjacent-channel stations on commercial channels.

(a) No application for a new station, change in the channel of an existing station, or (except as provided in paragraph [b] of this section) increase in antenna height or effective radiated power, or change in location of an existing station, will be granted unless the proposed facilities will be located at least as far from the transmitter sites of other co-channel and adjacent-channel stations (both existing and proposed) as the distances specified in this paragraph. Proposed stations of the respective classes shown in the left-hand column of the following table shall be located no less than the distance shown from co-channel stations and first adjacent-channel stations (200 kc removed) and second and third adjacent-channel stations (400 and 600 kc removed) of the classes shown in the remaining columns of the table. The distances shown between stations of different classes apply regardless of which is the proposed station under consideration (e.g., distances shown from a new Class A station to an existing Class C station are also the distances between a new Class C and an existing Class A station). The distances between Class B and Class C stations apply only across zone lines. The adjacent-channel spacings listed also apply: (1) to applications for noncommercial educational facilities on Channels 218, 219, or 220, with respect to other stations on Channels 221, 222, or 223; (2) to applications for facilities on Channels 221, 222, or 223 with respect to noncommercial educational stations on Channels 218, 219, or 220.

(b) Where an existing station is located less than the minimum distances specified in paragraph (a) of this section with respect to co-channel or adjacent-channel stations:

(1) It may apply for increases in antenna height, or in effective radiated power up to the maximum specified in §3.204 for its class, if the application for increase is accompanied by a request to decrease power or antenna height so that the station's 1 mv/m contour (located pursuant to Figure 1 of §3.333) will be no further from the station's transmitter than with its present facilities.

(2) It may apply for permission to move transmitter site, but this will not be granted if it would increase the amount by which the station is located at sub-standard separation.

(c) The zone in which the transmitter of an fm station is located or proposed to be located determines the applicable rules with respect to minimum required spacings.

## §3.207 Protection from interference.

(a) Permittees and licensees of fm broadcast stations are not protected from any interference which may be caused by the grant of a new station, or of authority to modify the facilities of an existing station, in accordance with the provisions of this subpart.

(b) The nature and extent of the protection from interference accorded to FM

Class of Sta.	Class of Station and Frequency Separation (kc/s)															
	Class A			Class B			Class C			10-watt educational						
	Co-ch.	200	400	600	Co-ch.	200	400	600	Co-ch.	200	400	600	Co-ch.	200	400	600
Class A	65	40	15	15	—	65	40	40	—	105	65	65	—	30	15	15
Class B					150	105	40	40	170	135	65	65	—	—	40	40
Class C									180	150	65	65	—	—	65	65
10-watt educational																

NOTE: Intermediate frequency amplifiers of most fm broadcast receivers are designed to operate on 10.7 megacycles. For this reason the assignment of two stations in the same area, one with a frequency of 10.6 or 10.8 megacycles removed from that of the other, will be avoided if possible.

broadcast stations is limited solely to the protection which results from the minimum assignment and station separation requirements and the rules with respect to maximum powers and antenna heights set forth in this subpart.

**§3.209 Power and antenna height requirements.**

(a) **Minimum requirements.**

(1) Except as provided in paragraph (b) (2) of this section, the minimum effective radiated power shall be, for stations of the respective classes, as follows:

- Class A 100 watts (—10 dbk)
- Class B 5 kw (7 dbk)
- Class C 10 kw (10 dbk)

(2) No minimum antenna height above average terrain is specified.

(b) **Maximum power and antenna height.**

(1) The maximum effective radiated power in any direction, and maximum antenna height for equivalence purposes, shall be as follows for the various classes of stations:

Class	Maximum power	Maximum antenna height (feet above average terrain)
Class A	3 kw (4.8 dbk)	300
Class B	50 kw (17.0 dbk)	500
Class C	100 kw (20.0 dbk)	2,000

(2) Antenna heights may be used exceeding those specified in this paragraph for equivalence purposes, provided effective radiated power is reduced in the amount determined by use of the appropriate curves in Figure 3 of §3.333. Where, under Figure 3 of §3.333, effective radiated power must be reduced to an amount less than the normal minimum specified in paragraph (a) (1) of this section for the class of station involved, the effective radiated power determined by Figure 3 of §3.333 shall be the minimum for the station involved.

(c) **Determination of applicable rules.** The zone in which the transmitter of an fm station is located or proposed to be located determines the applicable rules with respect to the class of station, and thus the minimum and maximum requirements as to facilities.

(d) Existing stations. Pending resolution of the issues in Docket No. 14185, stations authorized as of September 10, 1962, which do not conform to the requirements of this section, may continue to operate as authorized; but any application to change facilities will be subject to the provisions of this section, except that the minimum power specified in paragraph (a) of this section shall not apply to an application to increase facilities.

(b) In Alaska and Hawaii the frequency bands 76-82 mc and 82-88 mc are allocated for nonbroadcast use. These frequency bands (Channels 5 and 6) will not be assigned in Alaska and Hawaii for use by television broadcast stations.

**§3.606. Table of Assignments.** (a) The following Table of Assignments contains the channels assigned to the listed communities in the United States, its Territories, and Possessions. Channels designated with an asterisk are assigned for use by noncommercial educational broadcast stations only. A station on a channel identified by a plus or minus mark is required to operate with its carrier frequency offset 10 kc above or below, respectively, the normal carrier frequencies.

[EDITOR'S NOTE: Channel assignments by cities are reprinted in the tv station directory and are not repeated here.]

**§3.607. Availability of channels.**—(a) Subject to the provisions of paragraph (b) of this section, applications may be filed to construct television broadcast stations only on the channels assigned in the Table of Assignments and only in the communities listed therein. Applications which fail to comply with this requirement, whether or not accompanied by a petition to amend the Table, will not be accepted for filing provided, however, that applications specifying channels which accord with publicly announced Commission orders changing the Table of Assignments will be accepted for filing even though such applications are tendered before the effective dates of such channel changes.

(b) A channel assigned to a community listed in the Table of Assignments is available upon application in any unlisted community which is located within 15 miles of the listed community. In addition, a channel assigned to a community listed in the Table of Assignments and not designated for use by noncommercial educational stations only, is available upon application in any other community within 15 miles thereof which, although listed in the table, is assigned only a channel designed for use only by noncommercial educational stations. Where channels are assigned to two or more communities listed in combination in the Table of Assignments the provisions of this paragraph shall apply separately to each community so listed. The distance between communities shall be determined by the distance between the respective coordinates thereof as set forth in the publication of the United States Department of Commerce entitled "Air Line Distances Between Cities in the United States." (This publication may be purchased from the Government Printing Office, Washington, D. C.) If said publication does not contain the coordinates of either or both communities, the coordinates of the main post office in either or both of such communities shall be used. The method to be followed in making the measurements is set forth in Section 3.611 (d).

**§3.609. Zones.** (a) For the purpose of allocation and assignment, the United States is divided into three zones as follows:

(1) Zone I consists of that portion of the United States located within the confines of the following lines drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29° and 45°; North American datum):

Beginning at the most easterly point on the state boundary line between North Carolina and Virginia; thence in a straight line to a point of the Virginia-West Virginia boundary line located at North Latitude 37° 49' and West Longitude 80° 12' 30"; thence westerly along the southern boundary lines of the states of West Virginia, Ohio, Indiana and Illinois to a point at the junction of the Illinois, Kentucky, and Missouri State boundary lines; thence northerly along the western boundary line of the State of Illinois to a point at the junction of the Illinois, Iowa, and Wisconsin state boundary lines; thence easterly along the northern state boundary line of Illinois to the 90th meridian; thence north along this meridian to the 43.5° parallel; thence east along this parallel to the 71st meridian; thence in a straight line to the intersection of the 69th meridian and the 45th parallel; thence east along the 45th parallel to the Atlantic Ocean. When any of the above lines pass through a city, the city shall be considered to be located in Zone I. (See Figure 1 of §3.699.)

(2) Zone II consists of that portion of the United States which is not located in either Zone I or Zone III, and Puerto Rico, Alaska, Hawaiian Islands and the Virgin Islands.

(3) Zone III consists of that portion of the United States located south of a line drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29° and 45°; North American datum) beginning at a point on the east coast of Georgia and the 31st parallel and ending at the United States-Mexican border, consisting of arcs drawn with a 150 mile radius to the north from the following specified points:

North Latitude	West Longitude
a) 29°40'00"	83°24'00"
b) 30°07'00"	84°12'00"
c) 30°31'00"	86°30'00"
d) 30°48'00"	87°58'30"
e) 30°00'00"	90°38'30"
f) 30°04'30"	93°19'00"
g) 29°46'00"	95°05'00"
h) 28°43'00"	96°30'30"
i) 27°52'30"	97°32'00"

When any of the above arcs pass through a city, the city shall be considered to be located in Zone II. (See Figure 2 of §3.699.)

**§3.610. Separations.** (a) The provisions of this section relate to assignment separations and station separations. Petitions to amend the Table of Assignments (§3.606(b)) (other than those also expressly requesting amendment of this section or §3.609) will be dismissed and all applications for new television broadcast stations or for changes in the transmitter sites of existing stations will not be accepted for filing if they fail to comply with the requirements specified in paragraphs (b), (c) and (d) of this section.

NOTE: Licensees and permittees of television broadcast stations which were operating on April 14, 1952 pursuant to one or more separations below those set forth in §3.610 may continue to so operate, but in no event may they further reduce the separations below the minimum. As the existing separations of such stations are increased, the new separations will become the required minimum separations until separations are reached which comply with the requirements of §3.610. Thereafter, the provisions of said section shall be applicable.

(b) Minimum co-channel assignment and station separations:

(1) Zone	Channels 2-13	Channels 14-83
I	170 miles	155 miles
II	190 miles	175 miles
III	220 miles	205 miles

(2) The minimum co-channel mileage separation between a station in one zone and a station in another zone shall be that of the zone requiring the lower separation.

(c) Minimum assignment and station adjacent channel separations applicable to all zones:

(1) Channels 2-13	Channels 14-83
60 miles	55 miles

(2) Due to the frequency spacing which exists between channels 4 and 5, between channels 6 and 7, and between channels 13 and 14, the minimum adjacent channel separations specified above shall not be applicable to these pairs of channels (see §3.603).

(d) In addition to the requirements of paragraphs (a), (b) and (c) of this section, the minimum assignment and station separations between stations on channels 14-83, inclusive, as set forth in Table IV of §3.699 must be met in either rule making proceedings looking towards the amendment of the Table of Assignments

# FCC RULES

(§3.606(b) or in licensing proceedings. No channel listed in column (1) of Table IV of §3.698 will be assigned to any city, and no application for an authorization to operate on such a channel will be granted unless the mileage separations indicated at the top of columns (2)-(7), inclusive, are met with respect to each of the channels listed in those columns and parallel with the channel in column (1).

(e) The zone in which the transmitter of a television station is located or proposed to be located determines the applicable rules with respect to co-channel mileage separations where the transmitter is located in a different zone from that in which the channel to be employed is located.

**§3.614. Power and antenna height requirements.**—(a) Minimum requirements. Applications will not be accepted for filing if they specify less than—10 dbk (100 watts) visual effective radiated power in any horizontal direction. No minimum antenna height above average terrain is specified.

(b) Maximum power. Applications will not be accepted for filing if they specify a power in excess of that provided in this paragraph. Except as provided in subparagraph (1) below, the maximum effective radiated powers of television broad-

cast stations operating on the channels set forth below with antenna heights not in excess of 2000 feet above average terrain shall be as follows:

Channel Nos.	Maximum visual effective radiated power in db above one kilowatt (dbk)
2-6	20 dbk ( 100 kw)
7-13	25 dbk ( 316 kw)
14-83	37 dbk (5000 kw)

(1) In Zone I, on Channels 2-13 inclusive, the maximum powers specified above for these channels may be used only with antenna heights not in excess of 1000 feet above average terrain. Where antenna heights exceeding 1000 feet above average terrain are used on Channels 2-13, or antenna heights exceeding 2000 feet above average terrain are used on Channels 14-83, the maximum power shall be based on the chart designated as Figure 3 of §3.699.

NOTE: This limitation shall not apply to any licensee or permittee in Zone I who received an authorization after March 22, 1951, to relocate its transmitter site and construct a new tower and antenna to a height in excess of 1000 feet above average terrain and who constructed or who had substantially completed construction of said tower and an-

tenna prior to April 14, 1952. In such case, maximum power may be utilized at the height above average terrain specified in the authorization. The limitation shall apply, however, where the tower or other principal supporting structure had been constructed prior to the date of such authorization.

(2) In Zones II and III, the maximum powers which may be used by television broadcast stations operating on the respective channels set forth in the above table with antenna heights exceeding 2000 feet above average terrain shall be based on the chart designated as Appendix III, Figure 2b.

(3) The effective radiated power in any horizontal or vertical direction may not exceed the maximum values permitted by this section and Appendix III, Figures 2(a) and 2(b).

(4) The maximum effective radiated power in any direction above the horizontal plane shall be as low as the state of the art permits and may not exceed the effective radiated power in the horizontal direction in the same vertical plane.

(c) The zone in which the transmitter of a television station is located or proposed to be located determines the applicable rules with respect to maximum antenna heights and powers for vhf stations when the transmitter is located in Zone I and the channel to be employed is located in Zone II, or the transmitter is located in Zone II and the channel to be employed is located in Zone I.

[Note: The maximum visual effective radiated power of television broadcast stations operating on channels 14-83 within 250 miles of the Canadian-U. S. border may not be in excess of 30 dbk (1,000 kw).]

## MULTIPLE OWNERSHIP

### In am rules . . .

**§3.35 Multiple ownership.**—No license for a standard broadcast station shall be granted to any party (including all parties under common control) if:

(1) such party directly or indirectly owns, operates or controls another standard broadcast station, a substantial portion of whose primary service area would receive primary service from the station in question, except upon a showing that public interest, convenience and necessity will be served through such multiple ownership situation; or

(2) such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other standard broadcast station if the grant of such license would result in a concentration of control of standard broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of area served, the number of people served, classes of stations involved and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven standard broadcast stations.

NOTE: The word "control" as used herein, is not limited to majority stock ownership but includes actual working control in whatever manner exercised.

NOTE: In applying the foregoing provisions to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1% or more of the outstanding voting stock.

### In fm rules . . .

**§3.240 Multiple ownership.**—No license for an fm broadcast station shall be granted to any party (including all parties under common control) if:

(1) such party directly or indirectly owns, operates, or controls another fm broadcast station which serves substantially the same service area; or

(2) such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other fm broadcast station if the grant of such license would result in a concentration of control of fm broadcasting in a manner inconsistent with public interest, convenience or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the

TABLE IV\*

\*UHF mileage separations, see Sec. 3.610(d).

size, extent and location of areas served, the number of people served, classes of stations involved, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven fm broadcast stations.

**NOTE:** The word "control" as used herein, is not limited to majority stock ownership but includes actual working control in whatever manner exercised.

**NOTE:** In applying the foregoing provisions to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1% or more of the outstanding voting stock.

**In tv rules . . .**

**§3.636. Multiple ownership.**—(a) No license for a television broadcast station shall be granted to any party (including all parties under common control) if:

(1) such party directly or indirectly owns, operates, or controls another television broadcast station which serves substantially the same area; or

(2) such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, and the extent of other competitive service in the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven television broadcast stations, no more than five of which may be in the vhf band.

(b) Paragraph (a) of this section is not applicable to non-commercial educational stations.

**NOTE 1:** The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

**NOTE 2:** In applying the provisions of paragraph (a) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1% or more of the outstanding voting stock.

**STUDIO LOCATION ORIGINATIONS**

**In am rules . . .**

**§3.30 Station location and program origination.**—(a) Except as provided in paragraph (b) of this section, each standard broadcast station will be licensed to serve primarily a particular city, town, political subdivision, or community which will be specified in the station license and the station will be considered to be located in such place. Unless licensed as a synchronous amplifier transmitter, each station shall maintain a studio, which will be known as the main studio, in the place where the station is located provided that the main studio may be located at the transmitter site whether or not the transmitter site is in the place where the station is located. A majority (computed on the basis of duration and not number) of a station's programs or in the case of a station affiliated with a network 2/3 of such station's non-network programs, whichever is smaller, shall originate from the main studio or from other studios or remote points situated in the place where the station is located.

(b) Stations will be licensed to serve more than one city, town, political subdivision, or community only where a satisfactory showing is made that each such place meets all the requirements of the rules and regulations of this subpart with substantial number of local live programs that the station can and will originate a respect to the location of main studios; from each such place; and that the re-

quirements as to origination of programs contained in paragraph (a) of this section would place an unreasonable burden on the station if it were licensed to serve only one city, town, political subdivision or community. A station licensed to serve more than one place shall be considered to be located in and shall maintain main studios in each such place. With respect to such station the requirements as to origination of programs contained in paragraph (a) of this section shall be satisfied by the origination of programs from any or all of the main studios or from other studios and remote points situated in any or all of the places in which the main studios are located.

(c) The transmitter of each standard broadcast station shall be so located that primary service is delivered to the borough or city in which the main studio is located in accordance with the Standards of Good Engineering Practice, prescribed by the Commission.

**§3.31 Authority to move main studio.**—The licensee of a station shall not move its main studio outside the borders of the borough or city, state, district, territory, or possession in which it is located, unless such move is to the location of the station's transmitter, without first securing a modification of construction permit or license. The licensee shall promptly notify the Commission of any other change in location of the main studio.

**In fm rules . . .**

**§3.205**—[EDITOR'S NOTE: In substance the same as §3.30, above, except that subsection (c) reads as follows:

The transmitter of each fm broadcast station shall be so located that satisfactory service is delivered to the city where the main studio is located in accordance with the technical standards of this subpart; provided, however, upon special showing of need, authorization may be granted to locate the transmitter so that adequate service is not rendered to this city, but in no event shall this city be beyond the 50 mv/m contour."]

**In tv rules . . .**

**§3.613 Main studio location.**—(a) The main studio of a television broadcast station shall be located in the principal community to be served. Where the principal community to be served is a city, town, village or other political subdivision, the main studio shall be located within the corporate boundaries of such city, town, village or other political subdivision. Where the principal community to be served does not have specifically defined political boundaries, applications will be considered on a case-to-case basis in the light of the particular facts involved to determine whether the main studio is located within the principal community to be served.

(b) In cases where an adequate showing is made that there is good cause for locating a main studio outside the principal community to be served and that to do so would not be inconsistent with the operation of the station in the public interest, the Commission will permit the use of a main studio location other than that specified in paragraph (a) of this section. The licensee or permittee of a television broadcast station shall not move his main studio outside the principal community in which it is located without first securing a modification of construction permit or license. Such a licensee or permittee shall notify the Commission promptly of any change of the location of the main studio within the community. In any case where the main studio is located outside the principal community to be served, the licensee or permittee of a television broadcast station shall not move his main studio without first securing a modification of construction permit or license.

**OPERATING SCHEDULES**

**For am stations . . .**

**§3.71 Minimum operation schedule.**—(a) All standard broadcast stations are required to maintain an operating schedule of not less than two-thirds of the total hours they are authorized to operate between 6 a.m. and 6 p.m.; local standard time, and two-thirds of the total hours they are authorized to operate between 6 p.m. and midnight, local standard time, on each day of the week except Sunday; Provided, however, that stations authorized for daytime operation only need comply only with the minimum requirement for operation between 6 a.m. and 6 p.m.

(b) In the event that causes beyond the licensee's control make it impossible to adhere to the operating schedule in paragraph (a) of this section or to continue

operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. However, the Commission and the Engineer in Charge of the radio district in which the station is located shall be immediately notified in writing if the station is unable to maintain the minimum operating schedule and shall be subsequently notified when the station resumes regular operation.

**§3.72 Operation during experimental period.**—The licensee of each standard broadcast station shall operate or refrain from operating its station during the experimental period as directed by the Commission in order to facilitate frequency measurement or for the determination of interference.

**§3.73 Specified hours.**—If the license of a station specifies the hours of operation, the schedule so specified shall be adhered to except as provided in Sections 3.71 and 3.72.

**§3.79 License to specify sunrise and sunset hours.**—If the licensee of a broadcast station is required to commence or cease operation, or to change the mode of operation of the station at the times of sunrise and sunset at any particular location, the controlling times of each month of the year are set forth in the station's instrument of authorization. Uniform sunrise and sunset times are specified for all of the days of each month, based upon the actual times of sunrise and sunset for the fifteenth day of that month adjusted to the nearest quarter hour. In accordance with a standardized procedure described therein, actual sunrise and sunset time are derived by interpolation in the tables of the 1946 American Nautical Almanac, issued by the Nautical Almanac Office of the United States Naval Observatory.

**§3.80 Secondary station; filing of operating schedule.**—The license of a secondary station authorized to operate limited time and which may resume operation at the time the dominant station (or stations) on the same channel ceases operation shall, with each application for renewal of license, file in triplicate a copy of its regular operating schedule, bearing a signed notation by the licensee of the dominant station of its objection or lack of objection thereto. Upon approval of such operating schedule, the Commission will affix its file mark and return one copy to the licensee authorized to operate limited time, which shall be posted with the station license and considered as a part thereof. Departure from said operating schedule will be permitted only in accordance with the procedure set forth in section 3.77.

**§3.81 Secondary station; failure to reach agreement.**—If the licensee of a secondary station authorized to operate limited time and a dominant station on a channel are unable to agree upon a definite time for resumption of operation by the station authorized limited time, the Commission shall be so notified by the licensee of the station authorized limited time. After receipt of such statement the Commission will designate for hearing the applications of both stations for renewal of license, and pending the hearing the schedule previously adhered to shall remain in full force and effect.

**§3.82 Departure from schedule; material violation.**—In all cases where a station licensee is required to prepare and file an operating schedule, any deviation or departure from such schedule, except as herein authorized, shall be considered as a violation of a material term of the license.

**§3.83 Local standard time.**—All references herein to standard time or local standard time refer to local standard time as determined and fixed by the Interstate Commerce Commission.

**§3.84 Daylight saving time.**—If local time is changed from standard time to daylight saving time at the location of all stations sharing time on the same channel, the hours of operation of all such stations on that channel shall be understood to refer to daylight saving time, and not standard time, as long as daylight saving time is observed at such location. This provision shall govern when the time is changed by provision of law or general observance of daylight saving time by the various communities, and when the time of operation of such stations is specified in the license or is mutually agreed upon by the licensees; provided, however, that when the license specifies average time of sunrise and sunset, local standard time shall be observed. In no event shall a station licensed for daytime only operate on regu-

## FCC RULES

lar schedule prior to local sunrise, or shall a station licensed for greater daytime power than nighttime power or for a different radiation pattern for daytime operation than for nighttime operation operate with the daytime power or radiation pattern prior to local sunrise.

**§3.85 Changes in time; agreement between licensees.**—Where the local time is not changed from standard to daylight saving time at the location of all stations sharing time on the same channel, the hours of operation of such stations shall be understood to have reference to standard time, and not daylight saving time, unless said licensees mutually agree upon a new schedule which shall be effective only while daylight saving time is observed at the location of some of these stations.

**§3.86 Local standard time; license provisions.**—The time of operation of any broadcast station which does not share time with other stations on the same channel shall be understood to have reference to local standard time unless modification of such license with respect to hours of operation is authorized by the Commission.

**§3.87 Program transmission prior to local sunrise.**—(a) The provisions of Sections 3.6, 3.8, 3.9, 3.10, 3.23, 3.79 and 3.84 shall not prevent the transmission of programs between four o'clock a.m., local standard time, and local sunrise of standard broadcast stations with their authorized daytime facilities, provided, that the provisions of this rule shall not extend to:

(1) Stations regularly sharing time during daylight hours either under licenses pursuant to which time-sharing agreements have been entered into or licenses specifying hours of operation, unless time-sharing agreements have been reached covering such operation prior to local sunrise, Sections 3.74, 3.77, and 3.78 of these rules shall be applicable to such agreements.

(2) Any Class II station which by use of its daytime facilities causes objectionable interference, as determined by the standard broadcast Technical Standards of this subpart or by the engineering standards of NARBA or the U.S./Mexican Agreement (whichever is controlling) within the 0.5 mv/m 50 percent time skywave contour of any Class I station of the United States, Mexico or any country party to NARBA, except (i) where the Class I station is located east of the Class II station, in which case operation may begin at local sunrise at the Class I station; (ii) where an agreement has been reached with the United States Class I station affected to begin operation prior to local sunrise.

(3) Operation by use of its daytime facilities of any Class II station on any Class I-A channel not assigned to the United States under the North American Regional Broadcasting Agreement or under the U.S./Mexican Agreement.

(4) Class IV stations authorized for operation with daytime power in excess of 250 watts.

(b) Any station operating during such hours receiving notice from the Commission that undue interference is caused shall refrain from such operation during such hours pending further notice from the Commission.

(c) Nothing contained in outstanding instruments of authorization for such stations shall prohibit such operation except as herein provided.

(d) The period 4 a.m. to 6 a.m., local standard time, shall not be included in determining compliance with section 3.71.

(e) Restrictions imposed by section 3.187 on daytime operations shall apply to pre-sunrise operation under this section.

**EDITOR'S NOTE:** Proposal for rule-making adopted Dec. 6, 1961, but postponed indefinitely April 25, 1962, would amend §3.87 to provide (1) that stations operating with daytime-only facilities before sunrise so notify the commission; (2) that new daytime stations be precluded from presunrise operation; (3) that any unlimited time station operating on any regional channel that receives objectionable interference within its nighttime normally protected service area or present RSS limited contour, whichever is higher, from any station operating on the same channel with its daytime facilities prior to local sunrise, may submit a showing of interference and request the commission to issue a notice to the offending station to refrain from pre-sunrise operation with its daytime facilities; (4) that skywave interference calculations made under the skywave propagation curves in commission rules and other applicable technical

standards in Part 3 shall be considered as conclusive.

**§3.88 Blanketing interference.**—The licensee of each broadcast station is required to satisfy all reasonable complaints of blanketing interference with the 1 mv/m contour.

**For fm stations . . .**

**§3.261 Time of operation.**—(a) All fm broadcast stations will be licensed for unlimited time operation. A minimum of 36 hours per week during the hours of 6 a.m. to midnight, consisting of not less than 5 hours in any one day, except Sunday, must be devoted to the fm broadcast operation; time devoted to operations conducted pursuant to a Subsidiary Communications Authorization (see §§3.293-3.295) shall not be included in meeting this 36-hour broadcast requirement.

(b) In the event that causes beyond a licensee's control make it impossible to adhere to the operating schedule in paragraph (a) of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. However, the Commission and the Engineer in Charge of the radio district in which the station is located shall be immediately notified in writing if the station is unable to maintain the minimum operating schedule and shall be subsequently notified when the station resumes regular operation.

**§3.262 Experimental operation.**—The period between 1:00 a.m. and 6:00 a.m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any fm broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization by the Commission.

**For tv stations . . .**

**§3.651 Time of operation.**—(a) (1) All television broadcast stations will be licensed for unlimited time operation. Each such station shall maintain a regular program operating schedule as follows: not less than 2 hours daily in any five broadcast days per week and not less than a total of 12 hours per week during the first 18 months of the station's operation; not less than 2 hours daily in any 5 broadcast days per week and not less than a total of 16 hours, 20 hours and 24 hours per week for each successive 6-month period of operation, respectively; and not less than a total of 28 hours per week thereafter.

(2) "Operation" includes the period during which a station is operated pursuant to temporary authorization or during program tests, as well as during the license period. Time devoted to test patterns, or to aural presentations accompanied by the incidental use of fixed visual images which have no substantial relationship to the subject matter of such aural presentations, shall not be considered in computing periods of program service.

(3) In the event that causes beyond a licensee's control make it impossible to adhere to the operating schedule in paragraph (a) (1) of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 10 days, without further authority of the Commission. However, the Commission and the engineer in charge of the radio district in which the station is located shall be immediately notified in writing if the station is unable to maintain the minimum operating schedule and shall be subsequently notified when the station resumes regular operation.

(b) Noncommercial educational television broadcast stations are not required to operate on a regular schedule and no minimum number of hours of operation is specified; but the hours of actual operation during a license period shall be taken into account when considering the renewal of noncommercial educational television broadcast licenses.

(c) (1) The aural transmitter of a television station shall not be operated separately from the visual transmitter except for the following purposes:

(i) For actual tests of station equipment or actual experimentation in accordance with Section 3.666; and

(ii) For emergency "fills" in case of visual equipment failure or unscheduled and unavoidable delays in presenting visual programs. In such situations the aural transmitter may be used to advise the audience of difficulties and to transmit for a short period program material of such nature that the audience will be enabled to remain tuned to the station; for example, music or news accompanying a test pattern or other visual presentation.

(2) During periods of transmission of a test pattern on the visual transmitter of a television station, aural transmission shall consist only of a single tone or

series of variable tones. During periods when still pictures or slides are employed to produce visual transmissions which are accompanied by aural transmissions, the aural and visual transmission shall be integral parts of a program or announcement and shall have a substantial relationship to each other; Provided: That nothing herein shall preclude the transmission of a test pattern, still picture or slides for the following purposes and periods:

(1) To accompany aural announcements of the station's program schedule and aural news broadcasts or news commentaries, for a total period not to exceed one hour in any broadcast day.

(ii) To accompany aural transmissions for a period of time not to exceed fifteen minutes immediately prior to the commencement of a programming schedule.

Examples: (1) Duplication of am or fm programs on the aural transmitter of a television station while the same program is broadcast on the visual transmitter (i.e., a "simulcast") is consistent with this paragraph.

(2) Duplication of am or fm programs on the aural transmitter of a television station while a test pattern is broadcast on the visual transmitter is not consistent with this paragraph, except for the specific purposes and periods specified in paragraph (c) (2).

(3) A travel lecture in which the words of the lecturer are broadcast simultaneously with still pictures or slides of scenes illustrating the lecture, and a newscast in which the words of the newscaster are broadcast simultaneously with still pictures or slides of the news events, are examples of programs in which the aural and visual transmission are integral parts of the same program having a substantial relationship to each other, within the meaning of paragraph (c) (2). Mood music unrelated to the visual transmission is not consistent with this paragraph.

(4) The broadcast of a test pattern accompanied by a musical composition for the purpose of demonstration, sale, installation or orientation of television receivers, or receiving antennas is not consistent with this paragraph.

(5) Music accompanying the transmission of a test pattern upon which is visually imposed a moving test consisting of continuous program material, such as a running newscast or news commentary, is consistent with this paragraph.

(6) Music accompanying the transmission of a test pattern upon which is visually imposed a clock indicating the time of day, or a text that is changed at spaced intervals, is not consistent with this paragraph.

## OPERATOR REQUIREMENTS

**In am rules . . .**

**§3.93 Operator requirements.**—(a) One or more radio operators holding a valid radio-telephone first-class operator license, except as provided in paragraph (b) of this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

(b) A station which is authorized for non-directional operation with power of 10 kilowatts or less may be operated by persons holding commercial radio operator license of any class when the equipment is so designed that the stability of the frequency is maintained by the transmitter itself within the limits of tolerance specified, and none of the operations, except those specified in subparagraphs (1) through (4) of this paragraph, necessary to be performed during the course of normal operation may cause off-frequency operation or result in any unauthorized radiation. (A person holding any class of radio operator license or permit who is authorized thereunder to perform limited operation of a standard broadcast station may, when a CONELRAD Radio Alert is called, or for the purpose of participation in a drill or test of the Emergency Broadcast System, make adjustments necessary to effect operation in accordance with a National Defense Emergency Authorization; provided, that the station's full-time radiotelephone first-class operator shall have previously instructed such person in the adjustments to the transmitter which are necessary to accomplish operation in the Emergency Broadcast System.) Adjustments of transmitting equipment by such operators, except when under the immediate supervision of a radiotelephone first-class operator, shall be limited to the following:

(1) Those necessary to commence or terminate transmitter emissions as a routine matter.

(2) Those external adjustments that may be required as a result of variations of primary power supply.

(3) Those external adjustments which

may be necessary to insure modulation within the limits required.

(4) Those adjustments necessary to effect any change in operating power which may be required by the station's instrument of authorization.

Should the transmitting apparatus be observed to be operating in a manner inconsistent with the station's instrument of authorization and none of the above adjustments are effective in bringing it into proper operation, a person holding other than a radiotelephone first-class operator shall be required to terminate the station's emissions.

(c) The licensee of a station which is operated by one or more operators holding other than a radiotelephone first-class operator license shall have one or more operators holding a radiotelephone first-class operator license in regular full-time employment at the station whose primary duties shall be to effect and insure the proper functioning of the transmitting equipment. In the event that the licensee also operates an fm broadcast station in the same community, a regular fulltime radiotelephone first-class operator or operators employed in connection with the standard broadcast station may concurrently be employed to satisfy the requirements of §§ 3.265 (c) or 3.565 (c): Provided, that the duties of such operator or operators concerning the fm broadcast transmitting equipment shall in nowise interfere with the proper performance of his duties with respect to the standard broadcast transmitter.

(d) The licensed operator on duty and in charge of a standard broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another radio station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such other stations: Provided, however, that such duties shall in nowise interfere with the proper operation of the standard broadcast transmitter.

**In fm rules . . .**

**§3.265 Operator requirements.**

[EDITOR'S NOTE: Substantially the same as §3.93.]

**In tv rules . . .**

**§3.661. Operator requirements.** One or more operators holding a valid radiotelephone first-class operator license shall be on duty at the place where the transmitting apparatus of each is located or at a remote control point established pursuant to the positions of §3.676, and in actual charge thereof whenever the transmitter is delivering power to the transmitting antenna. The original license (or FCC Form No. 759) of each station operator shall be posted at the place where he is on duty. The licensed operator on duty and in charge of a television broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of license which he holds and the rules and regulations governing such other stations. However, such other duties shall in nowise impair or impede the required supervision of the television broadcast transmitter.

**FACSIMILE**

**§3.266 Facsimile broadcasting and multiplex transmission.**—(a) Fm broadcast stations may transmit simplex facsimile in accordance with transmission standards set forth in §3.318 during periods not devoted to fm aural broadcasting. Such transmissions may not exceed one hour during the period between 7 a.m. and midnight (no limit for the hours between midnight and 7 a.m.) and may not be counted toward the minimum operation required by section 3.261. The Commission shall be notified by the licensee of the fm broadcast station of its intent to transmit such facsimile.

(b) Fm broadcast stations may, upon securing authorization from the Commission, transmit multiplex facsimile in accordance with transmission standards set forth in §3.318; provided that the transmission of such facsimile does not reduce the quality of aural programs simultaneously transmitted by the licensee below that required by the technical standards of this subpart and that no degradation of such aural programs will result from such facsimile transmissions when received on fm receivers not equipped with filter or other additional equipment.

**NETWORK AFFILIATION**

**In am rules . . .**

**§3.131 Exclusive affiliation of station.**—No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, broad-

casting the programs of any other network organization. (The term "network organization" as used herein includes national and regional network organizations. See Chapter VII, J of Report on Chain Broadcasting.)

**§3.132 Territorial exclusivity.**—No license shall be granted to a standard broadcast station having any contract arrangement, or understanding, express or implied, with a network organization which prevents or hinders another station serving substantially the same area from broadcasting the network's programs not taken by the former station, or which prevents or hinders another station serving a substantially different area from broadcasting any program of the network organization. This section shall not be construed to prohibit any contract arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its primary organization.

**§3.133 Term of affiliation.**—No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original term, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than two years; provided, that a contract, arrangement, or understanding for a period up to two years, may be entered into within six months prior to the commencement of such period.

**§3.134 Option time.**—No license shall be granted to a standard broadcast station which options for network programs any time subject to call on less than 56 days' notice, or more time than a total of three hours within each of four segments of the broadcast day, as herein described. The broadcast day is divided into four segments, as follows: 8:00 a.m. to 1:00 p.m.; 1:00 p.m. to 6:00 p.m.; 6:00 p.m. to 11:00 p.m.; 11:00 p.m. to 3:00 a.m. (These segments are to be determined for each station in terms of local time at the location of the station but may remain constant throughout the year regardless of shifts from standard to daylight saving time or vice versa.) Such option may not be exclusive as against other network organizations and may not prevent or hinder the station from optioning or selling any or all of the time covered by the option, or other time, to other network organizations.

**NOTE:** As used in this section, an option is any contract, arrangement, or understanding, express or implied, between a station and a network organization which prevents or hinders the station from scheduling programs before the network agrees to utilize the time during which such programs are scheduled, or which requires the station to clear time already scheduled when the network organization seeks to utilize the time.

**NOTE:** All time options permitted under this section must be for specified clock hours, expressed in terms of any time system set forth in the contract agreed upon by the station and network organization. Shifts from daylight saving to standard time or vice versa may or may not shift the specified hours correspondingly as agreed by the station and network organization.

**§3.135 Right to reject programs.**—No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which (a) with respect to programs offered pursuant to an affiliation contract, prevents or hinders the station from rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable; or which (b) with respect to network programs so offered or already contracted for, prevents the station from rejecting or refusing any program which, in its opinion, is contrary to the public interest, or from substituting a program of outstanding local or national importance.

**§3.136 Network ownership of stations.**—No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control with a network organization, for more than one standard broadcast station where one of the stations covers substantially the service area of the other station, or for any standard broadcast station in any locality where the existing standard broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. (The word "control" as used herein, is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.)

**NOTE:** Effective date of this section with respect to any station may be extended from time to time in order to permit the orderly disposition of properties; and it shall be suspended indefinitely with respect to regional network organizations.

**§3.137 Dual network operation.**—No license shall be issued to a standard broadcast station affiliated with a network organization which maintains more than one network; provided, that this section shall not be applicable if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

**§3.138 Control by networks of station rates.**—No license shall be granted to a standard broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

**In fm rules . . .**

**§3.231-3.238, inclusive—**

[EDITOR'S NOTE: Same as §§3.131-3.138, above, with the following exceptions: (1) references are to fm rather than standard stations and networks; and (2) the section on 'Network Ownership of Stations' is changed to read as follows:]

**§3.236 Network ownership of stations.**

—No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control of a network organization, for an fm broadcast station in any locality where the existing fm broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. The word "control" as used herein, is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.]

**In tv rules . . .**

**§3.658. Affiliation agreements.**—(a) **Exclusive affiliation of station.** No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, broadcasting the programs of any other network organization.

(The term "network organization" as used herein includes national and regional network organizations. See ch. VII, J. of Report on Chain Broadcasting.)

(b) **Territorial exclusivity.** No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another broadcast station in the same community from broadcasting the network's programs not taken by the former stations, or which prevents or hinders another broadcast station located in a different community from broadcasting any program of the network organization. This regulation shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its community upon the program of the network organization. As employed in this paragraph the term "community" is defined as the community specified in the instrument of authorization as the location of the station.

(c) **Term of Affiliation.** No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original terms, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than 2 years: Provided that a contract, arrangement, or understanding for a period of up to two years may be entered into within 6 months prior to take commencement of such period.

(d) **Station commitment of broadcast time.** No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with any network organization, which provides for optioning of the station's time to the network organization, or which has the same restraining effect as time optioning. As used in this section, time optioning is any contract, arrangement, or understanding, express or implied, between a station and a network organization which prevents or hinders the station from scheduling programs before the network agrees to utilize the time during which such programs

## FCC RULES

are scheduled, or which requires the station to clear time already scheduled when the network organization seeks to utilize the time."

(e) **Right to reject programs.** No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which, with respect to programs offered or already contracted for pursuant to an affiliation contract, prevents or hinders the station from (1) rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable or contrary to the public interest, or (2) substituting a program which in the station's opinion, is of greater local or national importance.

(f) **Network ownership of stations.** No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control of a network organization, for a television broadcast station in any locality where the existing television broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. (The word "control" as used in this section is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.)

(g) **Dual network operation.** No license shall be issued to a television broadcast station affiliated with a network organization which maintains more than one network of television broadcast stations: Provided, that this section shall not be applicable, if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

(h) **Control by networks of station rates.** No license shall be granted to a television broadcast station having any contract, arrangement or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

(i) No license shall be granted to a television broadcast station which is represented for the sale of non-network time by a network organization or by an organization directly or indirectly controlled by or under common control with a network organization, if the station has any contract, arrangement or understanding, express or implied, which provides for the affiliation of the station with such network organization; provided, however, that this rule shall not apply until December 31, 1961, to television broadcast stations so represented on October 30, 1959; and provided further, that this rule shall not be applicable to stations licensed to a network organization or to a subsidiary of a network organization.

### COMMON ANTENNA SITE

**§3.635. Use of common antenna site.** No television license or renewal of a television license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for television broadcasting in a particular area and (a) which is not available for use by other television licensees; and (b) no other comparable site is available in the area; and (c) where the exclusive use of such site by the applicant or licensee would unduly limit the number of television stations that can be authorized in a particular area or would unduly restrict competition among television stations.

### REPORTS TO BE FILED

#### All broadcast stations . . .

**§1.341 Financial report.**—Each licensee or permittee of a commercially operated standard, fm, television, or international broadcast station (as defined in Part 3 of this chapter) shall file with the Commission on or before April 1 of each year, on FCC Form 324, an annual financial report.

**§1.342 Filing of contracts.**—Each licensee or permittee of a standard, fm, television, or international broadcast station (as defined in Part 3 of this chapter), whether operating or intending to operate on a commercial or non-commercial basis, shall file with the Commission copies of the following contracts, instruments, and documents together with amendments, supplements, and cancellations, within 30 days of execution thereof. The substance of oral contracts shall be reported in writing.

(a) Contracts relating to network service. All network affiliation contracts, agreements, or understandings between a

station and a national, regional, or other network shall be filed. Transcription agreements or contracts for the supplying of film for the television stations which specify option time must be filed. This section does not require the filing of transcription agreements or contracts for the supplying of film for television stations which do not specify option time, nor contracts granting the right to broadcast music such as ASCAP, BMI, or SESAC agreements.

(b) Contracts relating to ownership or control. Contracts, instruments, or documents relating to the present or future ownership or control of the licensee or permittee or of the licensee's or permittee's stock, rights, or interests therein, or relating to changes in such ownership or control. This paragraph shall include but is not limited to the following:

(1) Articles of partnership, association, and incorporation, and changes in such instruments;

(2) Bylaws, and any instruments effecting changes in such bylaws;

(3) Any agreement, document, or instrument (i) providing for the assignment of a license or permit or (ii) affecting, directly or indirectly, the ownership or voting rights of the licensee's or permittee's stock (common or preferred, voting or non-voting), such as: (a) Agreements for transfer of stock; (b) Instruments for the issuance of new stock; or (c) Agreements for the acquisition of licensee's or permittee's stock by the issuing licensee or permittee corporation. Pledges, trust agreements, options to purchase stock and other executory agreements are required to be filed.

(4) Proxies with respect to the licensee's or permittee's stock running for a period in excess of one year; and all proxies, whether or not running for a period of one year, given without full and detailed instructions binding the nominee to act in a specified manner. With respect to proxies given without full and detailed instructions, a statement showing the number of such proxies, by whom given and received, and the percentage of outstanding stock represented by each proxy shall be submitted by the licensee or permittee within 30 days after the stockholders' meeting in which the stock covered by such proxies has been voted: Provided, however, that when the licensee or permittee is a corporation having more than 50 stockholders, such complete information need be filed only with respect to proxies given by stockholders who are officers or directors, or who have 1% or more of the corporation's voting stock; in cases where the licensee or permittee is a corporation having more than 50 stockholders and the stockholders giving the proxies are neither officers or directors nor hold 1% or more of the corporation's stock, the only information required to be filed is the name of any person voting 1% or more of the stock by proxy, the number of shares voted by proxy by such person, and the total number of shares voted at the particular stockholders' meeting in which the shares were voted by proxy;

(5) Mortgage or loan agreements containing provisions restricting the licensee's or permittee's freedom of operation, such as those affecting voting rights, specifying or limiting the amount of dividends payable, the purchase of new equipment, the maintenance of current assets, etc.; or

(6) Any agreement reflecting a change in the officers, directors, or stockholders of a corporation, other than the licensee or permittee, having an interest, direct or indirect, in the licensee or permittee as specified by §1.343.

(c) Contracts relating to the sale of broadcast time to "time brokers" for resale.

(d) Contracts relating to Subsidiary Communications Authorization Operation, except contracts granting licensees or permittees engaged in SCA the right to broadcast copyright music.

(e) Time sales contracts. Time sales contracts with the same sponsor for 4 or more hours per day, except where the length of the events (such as athletic contests, musical programs, and special events) broadcast pursuant to the contract is not under control of the station.

(f) Contracts relating to personnel.

(1) The following contracts, agreements, or understandings shall be filed: management consultant agreements with independent contractors; contracts relating to the utilization in a management capacity of any person other than an officer, director, or regular employee of the licensee or permittee station; management contracts with any persons, whether or not officers, directors, or regular employees which provide for both a percentage or profits and

a sharing in losses, of any similar agreements.

(2) The following contracts, agreements, or understandings need not be filed: agreements with persons regularly employed as general or station managers or salesmen; contracts with program managers or program personnel; contracts with chief engineers or other engineering personnel; contracts with attorneys, accountants, or consulting radio engineers; contracts with performers; contracts with station representatives; contracts with labor unions; or any similar agreements.

**§1.343 Ownership reports.**—(a) Each licensee of a TV, FM or standard broadcast station (as defined in Part 3 of this chapter), other than noncommercial educational stations, shall file an Ownership Report (FCC Form 323) at the time the application for renewal of station license is required to be filed: Provided, however, that licensees owning more than one TV, FM, or standard broadcast station need file only one Ownership Report at 3-year intervals. Ownership Reports shall give the following information as of a date not more than 30 days prior to the filing of the Ownership Report:

(1) In the case of an individual, the name of such individual;

(2) In the case of a partnership, the names of the partners and the interest of each partner;

NOTE: Any change in partners or in their rights will require prior consent of the Commission upon an application for consent to assignment of license or permit. If such change involves less than a controlling interest, the application for Commission consent to such change may be made upon FCC Form 316 (Short Form).

(3) In the case of a corporation, association, trust, estate, or receivership, the data applicable to each:

(i) The name, residence, citizenship, and stock-holdings of officers, directors, stockholders, trustees, executors, administrators, receivers, and members of any association;

(ii) Full information as to family relationship or business association between two or more officials, and/or stockholders, trustees, executors, administrators, receivers, and members of any association;

(iii) Capitalization with a description of the classes and voting power of stock authorized by the corporate charter or other appropriate legal instrument and the number of shares of each class issued and outstanding; and

(iv) Full information on FCC Form 323 with respect to the interest, and identity of any person having any direct, indirect, fiduciary, or beneficiary interest in the licensee or any of its stock;

For example:

(a) Where A is the beneficial owner or votes stock held by B, the same information should be furnished for A as is required for B.

(b) Where X corporation controls the licensee, or holds 25% or more of the number of issued and outstanding shares of either voting or non-voting stock of the licensee, the same information should be furnished with respect to X corporation (its capitalization, officers, directors, and stockholders and the amount of stock [by class] in X held by each) as is required in the case of the licensee, together with full information as to the identity and citizenship of the person authorized to vote licensee's stock in case of voting stock.

(c) The same information should be furnished as to Y corporation if it controls X corporation or holds 25% or more of the number of issued and outstanding shares of either voting or non-voting stock of X, and as to Z corporation if it controls Y corporation or holds 25% or more of the number of issued and outstanding shares of either voting or non-voting stock of Y and so on back to natural persons.

(4) In the case of all licensees:

(i) A list of all contracts still in effect required to be filed with the Commission by §1.342 showing the date of execution and expiration of each contract; and

(ii) Any interest which the licensee may have in any other broadcast station.

(b) A permittee shall file an Ownership Report (FCC Form 323) within 30 days of the date of grant by the Commission of an application for original construction permit. The Ownership Report of the permittee shall give the information required by the applicable portions of paragraph (a) of this section.

(c) A supplemental Ownership Report (FCC Form 323) shall be filed by each licensee or permittee within 30 days after any change occurs in the information required by the Ownership Report from that previously reported. Such report shall include without limitation:

(1) Any change in capitalization or

organization;

- (2) Any change in officers and directors;
- (3) Any transaction affecting the ownership, direct or indirect, or voting rights of licensee's or permittee's stock, such as:
  - (i) A transfer of stock;
  - (ii) Issuance of new stock or disposition of treasury stock; or
  - (iii) Acquisition of licensee's or permittee's stock by the issuing corporation; or
- (4) Any change in the officers, directors, or stockholders of a corporation other than the licensee or permittee such as X, Y, or Z corporation described in the example in paragraph (a)(3) of this section.

NOTE: Before any change is made in the organization, capitalization, officers, directors, or stockholders of a corporation other than licensee or permittee, which results in a change in the control of the licensee or permittee, prior Commission consent must be received under Section 310(b) of the Communications Act and §1.329. A transfer of control takes place when an individual, or group in privity, gains or loses affirmative or negative (50%) control. See instruction on FCC Form 323 "Ownership Report."

(d) Exceptions: Where information is required under paragraphs (a), (b), or (c) of this section with respect to a corporation or association having more than 50 stockholders or members, such information need be filed only with respect to stockholders or members who are officers or directors of the corporation or association, or to other stockholders or members who have 1% or more of either the voting or non-voting stock of the corporation or voting rights in the association.

(e) The provisions of this paragraph apply to all licensees and permittees of noncommercial educational TV, FM, or standard broadcast stations.

(1) Each licensee covered by this paragraph shall file an Ownership Report (FCC Form 323E): Provided, however, that licensees owning more than one non-commercial educational TV, FM, or standard broadcast station need file only one Ownership Report at 3-year intervals. Ownership Reports shall give the following information as of a date not more than 30 days prior to the filing of the Ownership Report:

(i) The following information as to all officers, members of governing board, and holders of 1 percent or more ownership interest (if any): Name, residence, office held, citizenship, principal profession or occupation, and by whom appointed or elected.

(ii) Full information on FCC Form 323E with respect to the interest and identity of any individual, organization, corporation, association, or any other entity which has direct or indirect control over the licensee or permittee.

(iii) A list of all contracts still in effect required by §1.342 to be filed with the Commission, showing the date of execution and expiration of each contract.

(iv) Any interest which the licensee or permittee or any of its officers, members of the governing board, and holders of 1 percent or more ownership interest (if any) hold in any other broadcast station.

(2) A permittee shall file an Ownership Report (FCC Form 323E) within 30 days of the date of grant by the Commission of an application for original construction permit. The Ownership Report of the permittee shall give the information required by the applicable portions of this paragraph.

(3) A supplemental Ownership Report (FCC Form 323E) shall be filed by each licensee or permittee within 30 days after any change occurs in the information required by Ownership Report from that previously reported. Such report should include, without limitation:

- (i) Any change in organization;
- (ii) Any change in officers or directors;
- (iii) Any transaction affecting the ownership (direct or indirect) or voting rights with respect to the licensee or permittee (or with respect to any stock interest therein).

**LICENSE RENEWALS**

**General . . .**

§1.328 Application for renewal of license.—(a) Unless otherwise directed by the Commission, an application for renewal of license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed except that applications for renewal of license of an experimental or developmental broadcast station shall be filed at least 60 days prior to the expiration date of the license sought to be renewed.

(b) No application for renewal of license of any broadcast station will be considered unless there is on file with the Commission, the information, if any, cur-

rently required by §§1.341 to 1.343, inclusive, for the particular class of station. The renewal application shall include a reference by date and file number to such information on file.

(c) Whenever the Commission regards an application for a renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a certain date, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

(d) The following application forms shall be used:

[EDITOR'S NOTE: There follows a list of forms to be used in filing for license renewals.]

**In am rules . . .**

§3.34 Normal license period.—(a) Licenses for standard broadcast stations ordinarily will be issued for a period of three years and, when regularly renewed, at three year intervals thereafter: Provided, however, that, if the Commission finds that the public interest, convenience and necessity will be served thereby, it may issue either an initial license or a renewal thereof for a lesser term. When regularly issued or renewed, licenses will be issued to expire at the hour of 3:00 a.m., eastern standard time, in accordance with the following schedule, and at three year intervals thereafter.

[EDITOR'S NOTE: Expiration dates for licenses are grouped geographically.]

**In fm rules . . .**

§3.218 Normal license period.—(a) Licenses for fm broadcast stations ordinarily will be issued for a period of three years and, when regularly renewed, at three year intervals thereafter: Provided, however, that, if the Commission finds that the public interest, convenience and necessity will be served thereby, it may issue either an initial license or a renewal thereof for a lesser term. When regularly issued or renewed, licenses will be issued to expire at the hour of 3:00 a.m., eastern standard time, in accordance with the following schedule, and at three year intervals thereafter.

[EDITOR'S NOTE: Expiration dates for licenses are grouped geographically.]

**In tv rules . . .**

§3.630 Normal license period.—(a) Licenses for television broadcast stations ordinarily will be issued for a period of three years and when regularly renewed, at three year intervals thereafter: Provided, however, that, if the Commission finds that the public interest, convenience and necessity will be served thereby, it may issue either an initial license or a renewal thereof for a lesser term. When regularly issued or renewed, licenses will be issued to expire at the hour of 3:00 a.m., eastern standard time, in accordance with the following schedule, and at three year intervals thereafter.

- (1) For stations located in Delaware and Pennsylvania, August 1, 1957.
- (2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, October 1, 1957.
- (3) For stations located in North Carolina, South Carolina, December 1, 1957.
- (4) For stations located in Florida, Puerto Rico and Virgin Islands, February 1, 1958.
- (5) For stations located in Alabama and Georgia, April 1, 1958.
- (6) For stations located in Arkansas, Louisiana and Mississippi, June 1, 1958.
- (7) For stations located in Tennessee, Kentucky and Indiana, August 1, 1958.
- (8) For stations located in Ohio and Michigan, October 1, 1958.
- (9) For stations located in Illinois and Wisconsin, December 1, 1958.
- (10) For stations located in Iowa and Missouri, February 1, 1956.
- (11) For stations located in Minnesota, North Dakota, South Dakota, Montana and Colorado, April 1, 1956.
- (12) For stations located in Kansas, Oklahoma, Nebraska, June 1, 1956.
- (13) For stations located in Texas, August 1, 1956.
- (14) For stations located in Wyoming, Nebraska, Arizona, Utah, New Mexico and Idaho, October 1, 1956.
- (15) For stations located in California, December 1, 1956.
- (16) For stations located in Washington, Oregon, Alaska, Guam, and Hawaii, February 1, 1957.
- (17) For stations located in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, April 1, 1957.
- (18) For stations located in New Jersey and New York, June 1, 1957.

**STATION IDENTIFICATION**

**In am rules . . .**

§3.117 Station identification.—(a) A licensee of a standard broadcast station shall make station identification announcement (call letters and location) at the beginning and ending of each time of operation and during operation (1) on the hour and (2) either on the half hour or at the quarter hour preceding the next hour: Provided,

(b) Such identification announcement need not be made on the hour when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, operatic production or forum of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the entertainment continuity, and at the conclusion of the program.

(c) Such identification announcement need not be made on the half hour or quarter hours when to make such an announcement would interrupt a single symphony concert, or operatic production. In such cases an identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion of the program; provided, that an announcement within 5 minutes of the time specified in paragraph (a) (2) of this section will satisfy the requirements of identification announcements.

(d) In the case of variety show programs of longer duration than 30 minutes, the identification announcement shall be made within 5 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(e) In the case of all other programs the identification announcement shall be made within 2 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(f) In making the identification announcement the call letters shall be given only on the channel of the station identified thereby, except as otherwise provided in §3.287 of the Commission's Rules Governing Fm Broadcast Stations.

**In fm rules . . .**

§3.287 Station Identification.—(a) A licensee of an fm broadcast station shall make separate station identification announcement (call letters and location) for such station; provided, however, that if the same licensee operates an fm radio broadcasting station and a standard broadcast station and simultaneously broadcasts the same programs over the facilities of both such stations, station identification announcements may be made jointly for both stations for periods of such simultaneous operation. If the call letters of the fm station do not clearly reveal that it is an fm station, the joint announcement shall state that one of the stations is an fm station. Station identification announcements shall be made at the beginning and during operation (1) on the hour and (2) either on the half hour or at the quarter hour following the hour and at the quarter hour preceding the next hour: Provided:

[EDITOR'S NOTE: Remainder is identical with paragraphs (b), (c), (d), (e) and (f) of §3.117 above.]

**In tv rules . . .**

§3.652. Station identification.—(a) A licensee of a television broadcast station shall make station identification announcements (call letters and location) at the beginning and ending of each time of operation and during the operation on the hour. The announcement at the beginning and ending of each time of operation shall be by both aural and visual means. Other announcements may be by either aural or visual means.

(b) Identification announcements during operation need not be made when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or any type of production. In such cases, the identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion thereof

**SPONSORED PROGRAMS (Announcement of)**

**In am rules . . .**

§3.119 Sponsored programs, announcement of.—(a) When a standard broadcast station transmits any matter for which money, services, or other valuable consideration is either directly or indirectly paid, promised to, or charged or received by, such station, the station shall broadcast an announcement that such matter is sponsored, paid for, or furnished, either in whole or in part, and by whom or on whose behalf such considera-

## FCC RULES

tion was supplied: Provided, however, that "service or other valuable consideration" shall not include any service or property furnished without charge or at a nominal charge for use on, or in connection with, a broadcast unless it is so furnished in consideration for an identification in a broadcast of any person, product, service, trademark, or brand name beyond an identification which is reasonably related to the use of such service or property on the broadcast.

(b) The licensee of each standard broadcast station shall exercise reasonable diligence to obtain from its employees, and from other persons with whom it deals directly in connection with any program matter for broadcast, information to enable such licensee to make the announcement required by this section.

(c) In any case where a report (concerning the providing or accepting of valuable consideration by any person for inclusion of any matter in a program intended for broadcasting) has been made to a standard broadcast station, as required by Section 508 of the Communications Act of 1934, as amended, of circumstances which would have required an announcement under this section had the consideration been received by such standard broadcast station, an appropriate announcement shall be made by such station.

(d) In the case of any political program or any program involving the discussion of public controversial issues for which any records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: Provided, however, that only one such announcement need be made in the case of any such program of 5 minutes' duration or less, which announcement may be made either at the beginning or conclusion of the program.

(e) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (d) of this section are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(f) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for, or furnished, either in whole or in part, or for which material or services referred to in paragraph (d) of this section are furnished, by a corporation, committee, association, or other unincorporated group, the announcement required by this section shall disclose the name of such corporation, committee, association, or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group shall be made available for public inspection at the studios or general offices of one of the standard broadcast stations carrying the program in each community in which the program is broadcast.

(g) In the case of broadcast matter advertising commercial products or services, an announcement stating the sponsor's corporate or trade name, or the name of the sponsor's product, when it is clear that the mention of the name of the product constitutes a sponsorship identification, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course of the program.

(h) Commission interpretations in connection with the foregoing rules may be found in the Commission's Public Notice entitled "Applicability of Sponsorship Identification Rules" and such supplements thereto as are issued from time to time.

### In fm rules . . .

§3.289 [EDITOR'S NOTE: Identical with §3.119 above.]

### In tv rules . . .

3.654 [EDITOR'S NOTE: Identical with §3.119 above.]

[EDITOR'S NOTE:—In a statement issued in 1950, the FCC warned that the sponsor or his product must be identified by a distinctive name and not by one merely descriptive of the type of business or product. The following are acceptable, the Commission said: "Henry Smith offers you . . ." or "Smith Stove Co. offers you . . ." or "Ajax Pens brings you . . ." The following are not acceptable: "Write to the Comb Man . . ." or "Send your money to Nylons, Box . . ." or "This program is sponsored by your Sink man . . ."]

## RECORDINGS and TRANSCRIPTIONS (Identification of)

### In am rules . . .

§3.118 Mechanical reproductions.—(a) No mechanically reproduced program consisting of a speech, news event, news commentator forum, panel discussion, or special event in which the element of time is of special significance, or any other program in which the element of time is of special significance and presentation of which would create, either intentionally or otherwise, the impression or belief on the part of the listening audience that the event or program being broadcast is in fact occurring simultaneously with the broadcast, shall be broadcast without an appropriate announcement being made either at the beginning or end of such reproduction or at the beginning or end of the program in which such reproduction is used that it is a mechanical reproduction or a mechanically reproduced program: Provided, however, that each such program of one minute or less need not be announced as such.

(b) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. Any other program mechanically reproduced or series of mechanical reproductions, including a mechanical reproduction used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of sponsorship of the program proper, need not be announced as provided in subsection (a), but the licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

(c) The requirements of subsection (a) are waived with respect to network programs, transcribed and rebroadcast at a later hour because of the time zone differentials between the place where the program originates and where it is rebroadcast, this waiver being applicable whether the off-the-line recording is made by the network itself at one of its key stations or by an individual station, but only when the on-the-line recording is for broadcast at an hour not exceeding the time zone differential between the place where the program originates and where it is rebroadcast. Each station which broadcasts network programs at a later hour in accordance with this waiver shall make an appropriate announcement at least once each day between the hours of 10:00 a.m. and 10 p.m., stating that some or all of the network programs which are broadcast by that station are delayed broadcasts by means of transcription. This waiver provision also applies during the annual period in which daylight saving time will be effective with respect to network programs transcribed and rebroadcast one hour later because of the time differential resulting from the adoption of daylight saving time in some areas.

### In tv rules . . .

§3.653—[EDITOR'S NOTE: Identical with §3.118 above.]

## POLITICAL BROADCASTS

### For am, fm and tv . . .

§3.120 Definitions.—(a) A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who

(1) has qualified for a place on the ballot or

(2) is eligible under the applicable law

to be voted by sticker, by writing in his name on the ballot, or other method, and (1) has been duly nominated by a political party which is commonly known and regarded as such, or (2) make a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) General requirements.—No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates; provided, that such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) Rates and practices.—(1) The rates, if any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means direct or indirect. A candidate shall, in each case, be charged no more than the rate the station would charge if the candidate were a commercial advertiser whose advertising was directed to promoting its business within the same area as that encompassed by the particular office for which such person is a candidate. All discount privileges otherwise offered by a station to commercial advertisers shall be available upon equal terms to all candidates for public office.

(2) In making time available to candidates for public office no licensee shall make any discrimination between candidates in charges, practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) Records: inspections.—Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such request, and the charges made, if any, if request is granted. Such records shall be retained for a period of two years.

(e) A request for equal opportunities must be submitted to the licensee within one week of the day on which the prior use occurred.

(f) A candidate requesting such equal opportunities of the licensee, or complaining of non-compliance to the Commission, shall have the burden of proving that he and his opponent are legally qualified candidates for the same public office.

[EDITOR'S NOTE: In fm this is §3.290; in tv, §3.657.]

## REBROADCASTS

### In am rules . . .

§3.121 Rebroadcast.—(a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.

NOTE: As used in this section, program includes any complete program or part thereof, or any signals if other than A-3 emission. In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.

(b) The licensee of a standard broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard or high frequency broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE: The notice and certification of consent shall be given within three (3) days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a standard broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

The foregoing requirements concerning notification of call letters and certification of authority shall not apply to a station when rebroadcasting Defense Network (FM) programs. Blanket authorizations

for the rebroadcast of such programs have been filed with the commission by all Defense Network (FM) stations.

(c) (1) The licensee of a standard broadcast station located within a state or the District of Columbia may, without further authority of the Commission, rebroadcast on a noncommercial basis a noncommercial program of a United States international broadcast station.

(2) The licensee of a standard broadcast station located in any territory or insular possession of the United States may, without further authority of the Commission, rebroadcast any program of a United States international broadcast station.

(3) In the case of any rebroadcast under the provisions of this paragraph (c), the Commission shall be notified of the call letters of each station whose programs are rebroadcast and the licensee shall certify that express authority has been received from the licensee of the station originating the program.

(d) No licensee of a standard or high frequency broadcast station shall rebroadcast the program of any other class of United States radio station without written authority having first been obtained from the Commission upon application accompanied by written consent or certification of consent of the licensee of the station originating the program.

NOTE: The broadcasting of a program relayed by a remote pickup broadcast station (section 4.401) is not considered a rebroadcast. Informal application may be employed. By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, section 3.121 (d) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by U.S. Government radio stations.

(e) In case of a program rebroadcast by several standard broadcast stations, such as a chain rebroadcast, the person legally responsible for distributing the program or the network facilities may obtain the necessary authorization for the entire rebroadcast both from the Commission and from the person or licensee of the station originating the program.

Attention is directed to section 325(b) of the Communications Act of 1934, which reads as follows:

No person shall be permitted to locate, use, or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there, having a power output of sufficient intensity, and/or being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission, upon proper application therefor. [See §1.327.]

**In fm rules . . .**

§3.29—[EDITOR'S NOTE: Identical in terms with §3.121, above, with two exceptions: Paragraph (c) of §3.121 is deleted in §3.291, and Paragraph (b) relates to rebroadcast of programs of U.S.: "standard, fm or noncommercial educational" stations.]

**In tv rules . . .**

§3.655. **Rebroadcast.**—(a) The term "rebroadcast" as used below means reception by radio of the program of a television broadcast station, and the simultaneous or subsequent retransmission of such programs by a broadcast station. The broadcasting of a program relayed by an auxiliary broadcast station licensed to the television broadcast station is not considered a rebroadcast. (As used in this section, program includes any complete program or part thereof.)

(b) The licensee of a television broadcast station may, without further authority of the Commission, rebroadcast the program of a United States television broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE 1: The notice and certification of consent shall be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a television broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for such rebroadcast practice if begun during a license period.

NOTE 2: By Order No. 82, dated and

effective June 24, 1941, until further order of the Commission, Section 3.655(c) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by U. S. Government radio stations.

(c) No licensee of a television broadcast station shall rebroadcast the program of any United States radio station not designated in paragraph (b) of this section without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.

The foregoing requirements concerning notification of call letters and certification of authority shall not apply to a station when rebroadcasting Defense Network (FM) programs. Blanket authorizations for the rebroadcast of such programs have been filed with the commission by all Defense Network (FM) stations.

**REVOCACTIONS, MODIFICATIONS, SUSPENSIONS**

**(All Classes of Station Licenses)**

§1.63 **Modification of licenses or construction permits on motion of the Commission.**—(a) Whenever it appears that a station license or construction permit should be modified, the Commission will notify the licensee or permittee in writing of the proposed action and the grounds and reasons therefor and direct him to show cause why an order modifying the license or construction permit in the manner proposed by the Commission should not be issued.

(b) Any order to show cause issued in accordance with paragraph (a) of this section will notify the licensee or permittee that he may request, within a period of time to be stated in the order to show cause, that a hearing be held on the proposed modification. In case of timely request, a hearing will be held on the proposed modification, in no event less than 30 days after the receipt of the order to show cause, unless the Commission finds that safety of life or property require the fixing of a shorter period.

(c) In order to avail himself of the right to request a hearing and of the opportunity to appear and give evidence upon the matters specified in the order to show cause, the licensee or permittee, in person or by his attorney shall, within the period of time as may be specified in the order to show cause, file with the Commission a written statement stating that he requests a hearing and will appear at the hearing and present evidence on the matter specified in the order to show cause. Such written statement must contain a detailed response to the matter specified in the order to show cause and the permittee or licensee shall be limited in the hearing to matters fairly encompassed within the issues raised by the response.

(d) The right to request a hearing shall, unless a good cause is shown in a petition to be filed not later than 5 days before the lapse of the time specified in paragraph (c) of this section, be deemed waived:

(1) In case of failure to timely file a written statement as required by paragraph (c) of this section.

(2) In case of filing the written statement provided for in paragraph (c) of this section but failure to appear at the hearing, either in person or by counsel.

(e) Where the right to request a hearing is waived and no written statement has been filed within the period of time specified in the order to show cause, the licensee or permittee will be deemed to consent to the modification as proposed in the order to show cause and a final decision will be issued by the Commission accordingly.

(f) Where the right to request a hearing has been waived, a written statement may be filed within the period of time to be specified in the order to show cause, showing with particularity why the license or construction permit should not be modified or not so modified as proposed in the order to show cause. In this case, the Commission may, depending upon the facts alleged and proof offered, either call upon the submitting party to furnish additional information under oath, designate the proceeding for hearing, or issue without further proceedings an order modifying the construction permit or license as proposed in the order to show cause or in said written statement. The order to show cause will advise the person against whom it is directed of procedure set forth in this paragraph.

(g) Any order of modification issued pursuant to this section shall include a statement of the findings and the grounds

and reasons therefor, shall specify the effective date of the order and shall be served on the licensee or permittee.

§1.76 **Notice of violations.**—(a) Any licensee who appears to have violated any provision of the Communications Act or any provision of this chapter shall be served with a written notice calling the facts to his attention and requesting a statement concerning the matter. FCC Form 793 may be used for this purpose.

(b) Within 10 days from receipt of notice or such other period as may be specified, the licensee shall send a written answer, in duplicate, direct to the office of the Commission originating the official notice. If an answer cannot be sent nor an acknowledgement made within such 10-day period by reason of illness or other unavoidable circumstances, acknowledgement and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay.

(c) The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices. In every instance the answer shall contain a statement of action taken to correct the condition or omission complained of and to preclude its recurrence. In addition:

(1) If the notice relates to violations that may be due to the physical or electrical characteristics of transmitting apparatus and any new apparatus is to be installed, the answer shall state the date such apparatus was ordered, the name of the manufacturer, and the promised date of delivery. If the installation of such apparatus requires a construction permit, the file number of the application shall be given, or if a file number has not been assigned by the Commission, such identification shall be given as will permit ready identification of the application.

(2) If the notice of violation relates to lack of attention to or improper operation of the transmitter, the name and license number of the operator in charge shall be given.

**§1.77 Revocation and/or cease and desist proceedings; hearings.**

(a) If it appears that a station license or construction permit should be revoked and/or that a cease and desist order should be issued, the Commission will issue an order directing the person to show cause why an order of revocation and/or a cease and desist order, as the facts may warrant, should not be issued.

(b) An order to show cause why an order to show cause why an order of revocation and/or a cease and desist order should not be issued will contain a statement of the matters with respect to which the Commission is inquiring and will call upon the person to whom it is directed (the respondent) to appear before the Commission at a hearing, at a time and place stated in the order, but not less than thirty days after the receipt of such order, and give evidence upon the matters specified in the order to show cause. However, if safety of life or property is involved, the order to show cause may specify a hearing date less than thirty days from the receipt of such order.

(c) To avail himself of such opportunity for hearing, the respondent, personally or by his attorney, shall file with the Commission, within thirty days of the service of the order or such shorter period as may be specified therein, a written appearance stating that he will appear at the hearing and present evidence on the matters specified in the order. The Commission in its discretion may accept a late appearance. However, an appearance tendered after the specified time has expired will not be accepted unless accompanied by a petition stating with particularity the facts and reasons relied on to justify such late filing. Such petition for acceptance of late appearance will be granted only if the Commission determines that the facts and reasons stated therein constitute good cause for failure to file on time.

(d) Hearings on the matters specified in such orders to show cause shall accord with the practice and procedure prescribed in this subpart and Subpart B of this part, with the following exceptions: (1) In all such revocation and/or cease and desist hearings, the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission; and (2) the Commission may specify in a show cause order, when the circumstances of the proceeding require expedition, a time less than that prescribed in §§1.153 and 1.154 within which the initial decision in the proceeding shall become effective, exceptions to such initial decision must be filed, parties must file requests for oral argument, and parties must file notice of in-

## FCC RULES

tention to participate in oral argument.

(e) Correction or promise to correct the conditions or matters complained of in a show cause order shall not preclude the issuance of a cease and desist order. Corrections or promises to correct the conditions or matters complained of, and the past record of the licensee, may, however, be considered in determining whether a revocation and/or cease and desist order should be issued.

(f) Any order of revocation and/or cease and desist order issued after hearing pursuant to this section shall include a statement of findings and the grounds therefor, shall specify the effective date of the order, and shall be served on the person to whom such order is directed.

**§1.78 Revocation and/or cease and desist proceedings: after waiver of hearing.**—(a) After the issuance of an order to show cause, pursuant to §1.77, calling upon a person to appear at a hearing before the Commission, the occurrence of any one of the following events or circumstances will constitute a waiver of such hearing and the proceeding thereafter will be conducted in accordance with the provisions of this section.

(1) The respondent fails to file a timely written appearance as prescribed in §1.77(c) indicating that he will appear at a hearing and present evidence on the matters specified in the order.

(2) The respondent, having filed a timely written appearance as prescribed in §1.77(c), fails in fact to appear in person or by his attorney at the time and place of the duly scheduled hearing.

(3) The respondent files with the Commission, within the time specified for a written appearance in §1.77(c), a written statement expressly waiving his rights to a hearing.

(b) When a hearing is waived under the provisions of paragraph (a) (1) or (3) of this section, a written statement signed by the respondent denying or seeking to mitigate or justify the circumstances or conduct complained of in the order to show cause may be submitted within the time specified in §1.77(c). The Commission in its discretion may accept a late statement. However, a statement tendered after the specified time has expired will not be accepted unless accompanied by a petition stating with particularity the facts and reasons relied on to justify such late filing. Such petitions for acceptance of a late statement will be granted only if the Commission determines that the facts and reasons stated therein constitute good cause for failure to file on time.

(c) Whenever a hearing is waived by the occurrence of any of the events or circumstances listed in paragraph (a) of this section, the Review Board at the earliest practicable date shall issue an order reciting the events or circumstances constituting a waiver of hearing, terminating the hearing proceeding, and certifying the case to the Commission. Such order shall be served upon the respondent.

(d) After a hearing proceeding has been terminated pursuant to paragraph (c) of this section, the Commission will act upon the matters specified in the order to show cause in the regular course of business. The Commission will determine on the basis of all the information available to it from any source, including such further proceedings as may be warranted, if a revocation order and/or a cease and desist order should issue, and if so, will issue such order. Otherwise, the Commission will issue an order dismissing the proceeding. All orders specified in this paragraph will include a statement of the findings of the Commission and the grounds and reasons therefor, will specify the effective date thereof, and will be served upon the respondent.

(e) Corrections or promise to correct the conditions or matters complained of in a show cause order shall not preclude the issuance of a cease and desist order. Corrections or promises to correct the conditions or matters complained of, and the past record of the licensee, may, however, be considered in determining whether a revocation and/or cease and desist order should be issued.

**§1.79 Availability of station logs and records for Commission inspection.**—(a) Station records and logs shall be made available for inspection or duplication at the request of the Commission or its representative. Such logs or records may be removed from the licensee's possession by a Commission representative or, upon request, shall be mailed by the licensee to the Commission by either registered mail, return receipt requested, or certified mail, return receipt requested. The return receipt shall be retained by the licensee as part of the station records until such rec-

ords or logs are returned to the licensee. A receipt shall be furnished when the logs or records are removed from the licensee's possession by a Commission representative and this receipt shall be retained by the licensee as part of the station records until such records or logs are returned to the licensee. When the Commission has no further need for such records or logs, they shall be returned to the licensee. The provisions of this rule shall apply solely to those station logs and records which are required to be maintained by the provisions of this chapter.

(b) Where records or logs are maintained as the official records of a recognized law enforcement agency and the removal of the records from the possession of the law enforcement agency will hinder its law enforcement activities, such records will not be removed pursuant to this section if the Chief of the law enforcement agency shall promptly certify in writing to the Federal Communications Commission that the removal of the logs or records will hinder law enforcement activities of the agency, and stating insofar as feasible the basis for his decision and the date when it can reasonably be expected that such records may be released to the Federal Communications Commission.

### (Of Operator Licenses)

**§1.72 Suspension of operator licenses.**—Whenever grounds exist for suspension of an operator license, as provided in Section 303(m) of the Communications Act, the Chief of the Safety and Special Radio Services Bureau, with respect to amateur operator licenses, or the Chief of the Field Engineering and Monitoring Bureau, with respect to commercial operator licenses, may issue an order suspending the operator license. No order of suspension in any operators' license shall take effect until 15 days' notice in writing of the cause for the proposed suspension has been given to the operator licensee, who may make written application to the Commission at any time within said 15 days for a hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have 15 days in which to mail the said application. In the event that physical conditions prevent mailing of the application before the expiration of the 15-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be designated for hearing by the Chief, Safety and Special Radio Services Bureau or the Chief, Field Engineering and Monitoring Bureau, as the case may be, and said order of suspension shall be held in abeyance until the conclusion of the hearing. Upon the conclusion of said hearing, the Commission may affirm, modify or revoke said order of suspension. If the license is ordered suspended, the operator shall send his operator license to the office of the Commission in Washington, D. C., on or before the effective date of the order, or, if the effective date has passed at the time notice is received, the license shall be sent to the Commission forthwith.

### LOTTERIES

For all stations . . .

**§1.122 Lotteries.**—(a) An application for construction permit, license, renewal of license, or any other authorization for the operation of a broadcast station, will not be granted where the applicant proposes to follow or continue to follow a policy or practice of broadcasting or permitting "the broadcasting of any advertisement or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all such prizes." (See 18 U.S.C. §1304.)

(b) The determination whether a particular program comes within the provisions of paragraph (a) of this section depends on the facts of each case. However, the Commission will in any event consider that a program comes within the provisions of paragraph (a) of this section if in connection with such program a prize consisting of money or thing of value is awarded to any person whose selection is dependent in whole or in part upon lot or chance, if as a condition of winning or competing for such prize, such winner or winners, are required to furnish any money, or thing of value or are required to have in their possession any product sold, manufactured, furnished or distributed by a sponsor of a program broadcast on the station in question.

**§1304 (of U. S. Criminal Code) Broadcasting Lottery information.**—Whoever broadcasts by means of any radio station for which a license is required by any law of the U. S. or whoever, operating any such station, knowingly permits the broadcasting of any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise or scheme, whether said list contains any part or all of such prizes, shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

Each day's broadcasting shall constitute a separate offense.

### CENSORSHIP

For all stations . . .

**§326 (of Communications Act.)**—Nothing in this Act shall be understood to give the Commission the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the Commission which shall interfere with the right of free speech by means of radio communication.

### INDECENT LANGUAGE

**§1464 (of U. S. Criminal Code) Broadcasting obscene language.**—Whoever utters any obscene, indecent, or profane language by means of radio communication shall be fined not more than \$1,000 or imprisoned not more than two years, or both.

### TRANSFERS and ASSIGNMENTS

Voluntary . . .

**§1.329 Applications for voluntary assignment or transfer of control.**—(a) Application for consent to the assignment of construction permit or license, or for consent to the transfer of control or a corporation holding such a construction permit or license, shall be filed with the Commission on FCC Form 314 (Assignment of License), FCC Form 315 (Transfer of Control), or FCC Form 316 (Short Form). Such application should be filed with the Commission at least 45 days prior to the contemplated effective date of assignment or transfer of control.

(b) The following assignment or transfer applications may be filed on FCC Form 316.

- (1) Assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;
- (2) Assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;
- (3) Assignment or transfer by which certain stockholders retire and the interest transferred is not a controlling one;
- (4) Corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;
- (5) Assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment owned or controlled by the assignor stockholders without substantial change in their interests; or
- (6) Assignment of less than a controlling interest in a partnership.

[EDITOR'S NOTE: In a statement issued by the FCC in 1948, licensees were warned that no transfers of station control are permitted until after Commission approval. The FCC also asked that licensees who are in doubt whether a transfer application is necessary bring ownership changes to the attention of the Commission to determine whether they are changes in control before consummating the transfer action.]

Involuntary transfers and assignments

**§1.330 Application for involuntary assignment license.**—(a) The Commission shall be notified in writing promptly of the death or legal disability of an individual permittee or licensee, a member of a partnership, or a person directly or indirectly in control of a corporation which is a permittee or licensee.

(b) Within 30 days after the occurrence of such death or legal disability, an application on FCC Form 316 shall be filed requesting consent to involuntary assignment of such permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

# MAJOR AWARDS AND CITATIONS

**AMERICAN COLLEGE OF RADIO ARTS, CRAFTS AND SCIENCES—RADIO HALL OF FAME**, nominations limited to those people living or deceased who have contributed to national growth of radio not only as medium of education and information, but also entertainment, technical and advertising medium. **Contact:** Radio Hall of Fame, Conrad Hilton Hotel, 720 S. Michigan Ave., Chicago 5.

**AMERICAN TV COMMERCIALS FESTIVAL AWARDS**, given annually for best commercials in 35 product categories: gold statuettes, certificates to runners-up and finalists. Open to all tv commercials telecast in U. S. and Canada between March 1, 1963 and March 1, 1964. Deadline for entries: February 1, 1964. **Contact:** Wallace A. Ross, American TV Commercials Festival, 40 East 49th St., New York 17, N. Y.

**ANNUAL AGRICULTURE AWARD FOR FARM DIRECTORS**, given to active members of National Assn. of Television and Radio Farm Directors for program material promoting sound, prosperous animal agriculture by encouraging better practices of breeding, management, nutrition and marketing. Entries should consist of written summation of program material broadcast and one tape of film clip, not exceeding thirty minutes, giving best example of air work on subject of animal agriculture (can be composite of several different program features); plaque. Sponsored by American Feed Manufacturers Assn. Deadline for entries: Feb. 1. **Contact:** Animal Agriculture Award for Farm Directors, American Feed Manufacturers Assn., 53 W. Jackson Blvd., Chicago.

**HOWARD W. BLAKESLEE AWARD**, given annually for creative efforts in any medium of mass communication judged to have contributed most to public understanding of progress in research and the prevention, care and treatment of heart and circulatory diseases; \$500 and citation. Programs must have been broadcast March 1 through February 28. Deadline for entry: May 1. **Contact:** Chairman, Managing Committee, Howard W. Blakeslee Awards, American Heart Assn., 44 E. 23rd St., New York 10, N. Y.

**BMI HISTORY AWARDS**, given annually to radio and television stations for two best programs dealing with state and local history; two \$500 grants. Similar grants made to state or local history agencies involved in production of winning programs. Deadline for entry: January 15. **Contact:** Public Relations Department, Broadcast Music Inc., 589 Fifth Ave., New York, N. Y.

**HEYWOOD BROUN MEMORIAL AWARD** for outstanding journalistic achievement "in the spirit of Heywood Broun." Deadline for entry: February 1. **Contact:** Yetta Riesel, American Newspaper Guild, 1126 16th St., N.W., Washington 6, D. C.

**DR. LEE DEFORREST AWARD**, given at discretion of Board of Directors of NAFBRAT to an individual who has made an outstanding contribution for improvement of radio and television. Nominations not solicited. **Contact:** NAFBRAT, 882 Victoria Ave., Los Angeles 5, Calif.

**ALFRED I. DUPONT AWARDS**, given annually. Two station awards for broadcasting in the public interest, one to a relatively large radio or tv station and one to a relatively small radio or tv station; \$1,000 each. One commentator award for meritorious reporting and interpretation of news and opinion; \$1,000. Deadline for entries: December 31. **Contact:** O. W. Riegel, Curator, Alfred I. duPont Awards Foundation, Washington and Lee University, Lexington, Virginia.

**THOMAS ALVA EDISON MASS MEDIA AWARDS**, given annually for meritorious effort in following categories: television and radio programs best portraying America; television series best portraying America; best children's television and radio program; best science television and radio program for youth; also the television and radio station that best served youth; scrolls and citations for distinguished public service in the interest of education. In category of television and

radio station best serving youth there is \$1000 scholarship for high school student in station's area. **Contact:** Director, National Mass Media Awards Program, Thomas Alva Edison Foundation, 8 W. 40th St., New York 18, N. Y.

**THE EMMY AWARDS**, given annually to television stations, networks, production companies and individuals for outstanding achievement in programming, performance and technical advances; statuettes. Area Emmys presented in cities where there are chapters of National Academy of Television Arts & Sciences. **Contact:** National Academy of Television Arts & Sciences, 7188 Sunset Blvd., Los Angeles, Calif. or 54 West 40th St., New York 18, N. Y.

**HAROLD E. FELLOWS MEMORIAL SCHOLARSHIPS**, given annually by National Association of Broadcasters to employees (past or present) of NAB member radio or tv stations or networks or children of employees of same, for study in the field of broadcasting in junior or senior year of college or at graduate level. Criteria for award will be scholarship, ability, interest and intent; two scholarships of \$1100 each. Deadline for applications: January 15. **Contact:** Executive Secretary, Assn. for Professional Broadcasting Education, 1771 N St., N.W., Washington 6, D. C.

**FREEDOMS FOUNDATION AWARDS**, given annually to radio and television stations, sponsors and producers for outstanding programs which better the understanding of American way of life. Deadline for entry: Nov 1. **Contact:** Freedoms Foundation at Valley Forge, Valley Forge, Pa.

**EARL GODWIN MEMORIAL AWARD** (see RCA-NBC Fellowship).

**GOLDEN MIKE AWARDS**, given annually for best local radio or television program in the interest of youth, originating over a local station between May 1 and May 1 of succeeding year; trophy to producer and plaque to originating station of national winner, certificates to winners in each state. Deadline for entry: July 1.

**Golden Mike Medallion**, given annually to winning program from four to six specific categories. No formal entries required. Junior Jury award, given annually to best program in opinion of youth, determined by national poll of Auxiliary Junior members. No formal entry required. **Contact:** Layton K. Hurst, Radio-TV Director, American Legion Auxiliary, 1608 K St., N.W., Washington 6, D. C.

**HALL OF FAME AWARD** (world-wide in scope) to anyone who has made an outstanding contribution to art of broadcasting. Candidate must have been deceased at least two years prior to annual meeting of Broadcast Pioneers in spring of each year. Nomination must be accompanied by short biography and statement of achievement. **Contact:** M. H. Shapiro, Exec. Sec., Broadcast Pioneers, 589 Fifth Ave., New York 17, N. Y.

**SIDNEY HILLMAN FOUNDATION PRIZE AWARDS**, of \$500 each, given for outstanding contributions by radio-TV and other media to trade union development, race relations, civil liberties, scientific welfare and world understanding. Deadline for entry: Feb. 1. **Contact:** Sidney Hillman Foundation, 15 Union Sq. W., New York 3.

**INTERNATIONAL BROADCASTING AWARDS**, given to "world's best" radio and TV commercials as selected by representative panels of advertising people in England, Canada, New York, Chicago and Hollywood. Competition is sponsored by Hollywood Advertising Club. Trophy, full-color certificates. Deadline for entries: Dec. 1, 1963. **Contact:** International Broadcasting Awards, Hollywood Advertising Club, 6362 Hollywood Blvd., Hollywood 28, Calif. address, HADCIBA, Lucille Liets, managing director.

**NAB DISTINGUISHED SERVICE AWARD**, given annually to any individual who has made a significant and lasting contribution to the American system of broadcasting by virtue of singular achieve-

ment or continuing service for or in behalf of the industry. **Contact:** National Assn. of Broadcasters, 1771 N St., N.W., Washington 6, D. C.

**NAB ENGINEERING AWARD**, given annually to individual for single significant engineering contribution or contributions over a period of time which advanced technical state of broadcasting art. Deadline for nominations: January. **Contact:** George W. Bartlett, Manager of Engineering, National Assn. of Broadcasters, 1771 N St. N.W., Washington 6, D. C.

**NAB ENGINEERING AWARD**, given in years when particular contribution warrants it to officers or employees of an organization whose primary business is broadcasting via stations licensed by the FCC and to employees of the federal government actively engaged in broadcast engineering for a single significant contribution or contributions over a period of time. **Contact:** National Assn. of Broadcasters, 1771 N St., N.W., Washington 6, D. C.

**NATIONAL AUDIENCE BOARD AWARD OF MERIT** made periodically to program producers and sponsors for television programming of outstanding quality. (No deadline for entry.) **Contact:** Peter Goelet, President, National Audience Board, 152 East End Ave., New York 28, N. Y.

**NATIONAL HEADLINERS CLUB AWARDS**, given annually for radio and television network news broadcasting and individual stations' news, public service and editorials; silver medallions. Deadline for entry: February 1. **Contact:** Mall Dodson, Exec. Sec., National Headliners Club, 2300 Pacific Ave., Atlantic City, N. J.

**NATIONAL & REGIONAL NAFBRAT AWARDS**, given annually, limited to network programs or syndicated programs. Suggestions submitted to evaluation committee which makes nominations. NAFBRAT members select winners. Regional awards at present confined to Los Angeles and Chicago areas. Deadline: December 1. (See Dr. Lee DeForest Award) **Contact:** NAFBRAT, 882 Victoria Ave., Los Angeles 5, Calif.

**NATIONAL SAFETY COUNCIL PUBLIC INTEREST AWARDS**, given annually to radio and television stations and broadcast advertisers which demonstrate exceptional service to safety; plaques. Deadline for entry: February 1. **Contact:** Radio-TV Division, National Safety Council, 425 N. Michigan Ave., Chicago 11, Ill.

**NATIONAL SCHOOL BELL AWARDS**, given annually for distinguished service in interpretation of education by national magazines, press, and network radio and television. Awards for 1963 cover one-year period ending April 1, 1963. **Contact:** National School Public Relations Assn., 1201 16th St., N.W., Washington, D. C.

**OHIO STATE AWARDS**, given annually for excellence in commercial and non-commercial programs of an educational and public service nature, including school broadcasting. **Contact:** Director, Institute for Education by Radio-TV, 2470 N. Star Road, Columbus 21, Ohio.

## Why KSL-TV bought Volumes 3,4 and 5 of Seven Arts' "Films of the 50's"...

### Says Lloyd Cooney:

Vice President and General Manager of KSL-TV, Salt Lake City, Utah.

...because of the financial success we had with Seven Arts' Volumes 1 & 2!"

"Features have always been good in this market, and as you know, the other stations here have programmed prime time network movies. We wanted to provide a prime time exposure for local sponsors, so we bought Seven Arts' films and upped our rate card from section two to premium rate. It's been that way ever since.

"Ratings for our Friday night (7:30-9:00 P.M.) time slot in which we program our Seven Arts' 'Films of the 50's' show us now to be #1 in the market. This was a jump from third spot over strong competition from the other two network stations. And, with the help of the 'Films of the 50's' we're going to stay #1 in our market for a long time to come."

## NAB Television Code

### Preamble

Television is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

The revenues from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obliged to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

The American businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

Television and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for the advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

In order that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

### I. Advancement of Education and Culture

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and cooperation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. The television broadcaster should be thoroughly conversant with the educational and cultural needs and desires of the community served.

5. He should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

6. He should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

7. It is in the interest of television as a vital medium to encourage and promote the broadcast of programs presenting genuine artistic or literary material, valid moral and social issues, significant controversial and challenging concepts and other subject matter involving adult themes. Accordingly, none of the provisions of this code, including those relating to the responsibility toward children, should be construed to prevent or impede their broadcast. All such programs, however, should be broadcast with due regard to the composition of the audience. The highest degree of care should be exercised to preserve the integrity of such programs and to ensure that the selection of themes, their treatment and presentation are made in good faith upon the basis of true instructional and entertainment values and not for the purposes of sensationalism, to shock or exploit the audience or to appeal to prurient interests or morbid curiosity.

### II. Responsibility Toward Children

1. The education of children involves giving them a sense of the world at large. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. In addition, those programs which might be reasonably expected to hold the attention of children and which are broadcast during times of the day when children may be normally expected to constitute a substantial part of the audience should be presented with due regard for their effect on children.

2. Such subjects as violence and sex shall be presented without undue emphasis and only as required by plot development or character delineation. Crime should not be presented as attractive or as a solution to human problems, and the inevitable retribution should be made clear.

3. The broadcaster should afford opportunities for cultural growth as well as for wholesome entertainment.

4. He should develop programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

5. Programs should reflect respect for parents, for honorable behavior, and for the constituted authorities of the American community.

6. Exceptional care should be exercised with reference to kidnapping or threats of kidnapping of children in order to avoid terrorizing them.

7. Material which is excessively violent or would create morbid suspense, or other undesirable reactions in children, should be avoided.

8. Particular restraint and care in crime or mystery episodes involving children or minors, should be exercised.

### III. Community Responsibility

1. A television broadcaster and his staff occupy a position of responsibility to the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

2. Requests for time for the placement of public service announcements or programs should be carefully reviewed with respect to the character and reputation of the group, campaign or organization involved, the public interest content of the message, and the manner of its presentation.

### IV. General Program Standards

1. Program materials should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has towards his society. The intimacy and confidence placed in Television demand of the broadcaster, the network and other program sources that they be vigilant in protecting the audience from deceptive program practices.

2. Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

3. Words (especially slang) derisive of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combating prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

4. Racial or nationality types shall not be shown on television in such a manner as to ridicule the race or nationality.

5. Attacks on religion and religious faiths are not allowed. Reverence is to mark any mention of the name of God, His attributes and powers. When religious rites are included in other than religious programs the rites shall be accurately presented. The office of minister, priest or rabbi shall not be presented in such a manner as to ridicule or impair its dignity.

6. Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually as a solution for marital problems.

7. In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

8. Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy.

The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

9. Law enforcement shall be upheld and, except where essential to the program plot, officers of the law portrayed with respect and dignity.

10. Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

11. The use of animals both in the production of television programs and as part of television program content, shall at all times, be in conformity with accepted standards of humane treatment.

12. Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cyni-

For definitions of abbreviations used in the 1964 YEARBOOK see page D-34

## NAB TV CODE

cal or callous manner is unacceptable.

The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

13. The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

14. Suicide as an acceptable solution for human problems is prohibited.

15. Illicit sex relations are not treated as commendable.

Sex crimes and abnormalities are generally unacceptable as program material.

The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

16. Drunkenness should never be presented as desirable or prevalent.

The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

17. Narcotic addiction shall not be presented except as a vicious habit. The administration of illegal drugs will not be displayed.

18. The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature.

19. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

20. Exhibitions of fortune-telling, occultism, astrology, phrenology, palm-reading and numerology are acceptable only when required by plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.

21. Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.

22. No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

23. The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

24. The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

25. Contests may not constitute a lottery.

26. Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward rather than for the quality of the program, shall be avoided.

27. The costuming of all performers shall be within the bounds of propriety and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

28. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

29. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

30. The use of the television medium to transmit information of any kind by the use of the process called "subliminal perception," or by the use of any similar technique whereby an attempt is made to convey information to the viewer by transmitting messages below the threshold of normal awareness, is not permitted.

31. The broadcaster shall be constantly alert to prevent activities that may lead to such practices as the use of scenic properties, the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogans, within a program dictated by factors other than the requirements of the program itself. The acceptance of cash payments or other consid-

erations in return for including any of the above within the program is prohibited except in accordance with Sections 317 and 508 of the Communications Act.

32. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements, nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives, (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a new release.

### V. Treatment of News and Public Events

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

4. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

5. Good taste should prevail in the selection and handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

6. Commentary and analysis should be clearly identified as such.

7. Pictorial material should be chosen with care and not presented in a misleading manner.

8. All news interview programs should be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or newsworthy area of questioning, the interviewer will state on the program that such limitation has been agreed upon. Such disclosure should be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

9. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

### Public Events

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. The treatment of such events by a television broadcaster should provide adequate and informed coverage.

### VI. Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. The television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to his fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

3. Programs devoted to the discussion of controversial public issues should be identified as such. They should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news, or other character.

4. Broadcasts in which stations express their own opinions about issues of general public interest should be clearly identified as editorials. They should be unmistakably identified as statements of

station opinion and should be appropriately distinguished from news and other program material.

### VII. Political Telecasts

1. Political telecasts should be clearly identified as such. They should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the program is of any other character.

(Ref.: Communications Act of 1934, as amended, Secs. 315 and 317, and FCC Rules and Regulations, Secs. 3.654, 3.657, 3.663, as discussed in NAB's "A Political Catechism.")

### VIII. Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community appropriate opportunity for religious presentations.

2. Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

3. Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

4. Religious programs should be presented by responsible individuals, groups and organizations.

5. Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

6. In the allocation of time for telecasts of religious programs the television station should use its best efforts to apportion such time fairly among the representative faith groups of its community.

### IX. General Advertising Standards

1. This Code establishes basic standards for all television broadcasting. The principles of acceptability and good taste within the Program Standards section govern the presentation of advertising where applicable. In addition, the Code establishes in this section special standards which apply to television advertising.

2. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements.

3. Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

4. In consideration of the customs and attitudes of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. These standards should be applied with judgment and flexibility, taking into consideration the characteristics of the medium, its home and family audience, and the form and content of the particular presentation.

5. The advertising of hard liquor (distilled spirits) is not acceptable.

6. The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable only subject to Federal and local laws.

7. Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

8. The advertising of firearms is acceptable only subject to Federal and local laws.

9. The advertising of fortune-telling, occultism, astrology, phrenology, character reading or subjects of a like nature is not permitted.

10. Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste. Such advertising of personal products as is accepted must be presented in a restrained and obviously inoffensive manner.

The advertising of particularly intimate products which ordinarily are not freely mentioned or discussed is not acceptable.

(See Television Code Interpretation No. 4)

11. The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

12. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

13. "Bait-switch" advertising whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes, is not acceptable.

**X. Presentation of Advertising**

1. Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

2. The role and capability of television to market sponsors' products are well recognized. In turn, this fact dictates that great care be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, the presentation must not, by copy or demonstration, involve a material deception as to the characteristics, performance or appearance of the product.

3. The broadcaster and the advertiser should exercise special caution with the content and presentation of television commercials placed in or near programs designed for children. Exploitation of children should be avoided.

Commercials directed to children should in no way mislead as to the product's performance and usefulness.

Appeals involving matters of health which should be determined by physicians should not be directed primarily to children.

4. Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes.

5. Commercials for services or over-the-counter products involving health considerations are of intimate and far-reaching importance to the consumer. The following principles should apply to such advertising:

a. Physicians, dentists, or nurses, or actors representing physicians, dentists or nurses, shall not be employed directly or by implication. These restrictions also apply to persons professionally engaged in medical services (e.g., physical therapists, pharmacists, dental assistants, nurses' aides).

b. Visual representations of laboratory settings may be employed, provided they bear a direct relationship to bona fide research which has been conducted for the product or service. (See Code X, 10.) In such cases, laboratory technicians shall be identified as such and shall not be employed as spokesmen or in any other way speak on behalf of the product.

c. Institutional announcements not intended to sell a specific product or service to the consumer and public service announcements by non-profit organizations may be presented by accredited physicians, dentists or nurses, subject to approval by the broadcaster. An accredited professional is one who has met required qualifications and has been licensed in his resident state.

6. Advertising copy should contain no claims dealing unfairly with competitors, competing products, or other industries, professions or institutions.

7. A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called trailer or "hitch-hike" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.

8. Since advertising by television is a

dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

9. A charge for television time to churches and religious bodies is not recommended.

10. Reference to the results of bona fide research, surveys or tests relating to the product to be advertised shall not be presented in a manner so as to create an impression of fact beyond that established by the work that has been conducted.

**XI. Advertising of Medical Products**

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer because of the direct bearing on his health.

2. Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe," "without risk," "harmless," or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

3. A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

**XII. Contests**

1. Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent laws and regulations. Care should be taken to avoid the concurrent use of the three elements which together constitute a lottery—prize, chance and consideration.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of products, reasonable facsimiles thereof should be made acceptable unless the award is based upon skill and not upon chance.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (See Time Standards for Advertising Copy.)

**XIII. Premiums and Offers**

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of viewers.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

**XIV. Time Standards for Advertising**

In accordance with good telecast advertising practice, the time standards for commercial material are as follows:

**1. Prime Time**

Definition: A continuous period of not less than three evening hours per broadcast day as designated by the station.

Commercial material for both individually sponsored and participation programs in prime time shall not exceed 17.2% of any hour.

Commercial material in prime time includes billboards, public service announcements, promotional announcements for other programs as well as commercial copy.

**2. Non-Prime Time**

Definition: All time other than prime time. Commercial material for both individually sponsored and participation programs within any 30-minute time period in non-prime time may not exceed 6 minutes plus station break time. Commercial material for all other periods of time shall not exceed this ratio, except that individual programs of 5-minutes duration may include commercial material not in excess of 1 minute 15 seconds and individual programs of 10-minutes duration may include commercial material not in excess of 2 minutes 10 seconds.

Not more than three announcements shall be scheduled consecutively.

Commercial material in non-prime time does not include public service announcements, promotional announcements for other programs, and opening and closing "billboards" which give program or sponsor identification.

**3. Station Breaks**

In prime time, a station break shall consist of not more than two announcements plus non-commercial copy such as station identification or public service announcements. Total station break time in any 30-minute period may not exceed one minute and 10 seconds.

In other than prime time station breaks shall consist of not more than two announcements plus the conventional sponsored 10-second ID.

Station break announcements shall not adversely affect a preceding or following program.

**4. Prize Identification**

Reasonable and limited identification of prizes and statement of the donor's name within formats wherein the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraphs 1 and 2, above; however, any aural or visual presentation concerning the product or its donor, over or beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1, above (See Television Code Interpretation No. 5.)

5. Care should be exercised in the selection, placement and integration of non-program material in order to avoid adversely affecting the program or diminishing audience interest.

6. Programs presenting women's services, features, shopping guides, fashion shows, demonstrations and similar material with genuine audience interest provides a special service to the viewing public in which what ordinarily might be considered advertising material as an informative and necessary part of the program content. Because of this, the Time Standards may be waived to a reasonable extent and limited frequency.

The Code Authority will evaluate each such program on its own merits.

7. Any casual reference by talent in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

8. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade-mark or slogan may be used only incidentally. They should not intrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

9. Each opening and closing billboard, regardless of the number of sponsors, shall not exceed 10 seconds in program periods of one half-hour or less, or in the ratio of 10 seconds of opening and closing billboard per 30 minutes of program time in periods exceeding 30 minutes, provided that a billboard for any one sponsor at no time shall exceed 20 seconds in programs exceeding 30 minutes.

10. Billboard language may not include a commercial message and should be confined to the sponsor's name, product and established claim or slogan. Billboards should not mention contests, premiums, offers or special sales.

**Interpretations of the Television Code by the Code Review Board**

No. 1, June 7, 1956, Revised March 3, 1960, March 15, 1962

**Integrated and Piggy-Back Announcements**

There are two types of announcements advertising multiple products or services: 1) The Integrated Announcement and

# NAB RADIO CODE

## 2) The Piggy-Back Announcement.

The basic difference between the two is the audio and video treatment.

1) The Integrated Announcement is one advertising two or more products or services, WHICH IS SO EXECUTED IN AUDIO AND VIDEO PRESENTATION THAT IT ACTUALLY IS A SINGLE ANNOUNCEMENT. Such an announcement will be counted as a single announcement under the commercial limitations of the Code, provided that:

- the products or services are related in character or purpose; or
- if the products or services offered are those of the same sponsor.

2) The Piggy-Back Announcement is one advertising two or more products or services, WHICH IS SO EXECUTED IN AUDIO AND VIDEO PRESENTATION THAT IT ACTUALLY IS TWO OR MORE SEPARATE ANNOUNCEMENTS. Such a piggy-back announcement will be counted as two or more announcements under the commercial limitations of the Code.

No. 2, June 7, 1956, revised June 9, 1958

### "Pitch" Programs

The "pitchman" technique of advertising on television is inconsistent with good broadcast practice and generally damages the reputation of the industry and the advertising profession.

Sponsored program-length segments, consisting substantially of continuous demonstration or sales presentation, violate not only the time standards established in the Code, but the broad philosophy of improvement implicit in the voluntary Code operation and are not acceptable.

No. 3, June 7, 1956

### Hollywood Film Promotion

The presentation of commentary or film excerpts from current theatrical releases in some instances may constitute "advertising copy" under "Time Standards for Advertising." Specifically, for example, when such presentation, directly or by inference, urges viewers to attend, it shall be counted against the advertising copy time allowance for the program of which it is a part.

No. 4, June 7, 1956

### Non-Acceptability of "Intimately Personal Products"

Paragraph 10 of the "Advertising Standards" reads in part, "The advertising of intimately personal products which are not freely mentioned or discussed is not acceptable.

Products for the treatment of hemorrhoids and for use in connection with feminine hygiene are not acceptable under the above stated language.

No. 5, Jan. 23, 1959

### Prize Identification

Aural and/or visual prize identification of up to 10 seconds duration may be deemed "reasonable and limited" under the language of Paragraph 4 of the Time Standards for Advertising. Where such identification is longer than 10 seconds, the entire announcement or visual presentation will be charged against the total commercial time for the program period.

## NAB Radio Code of Good Practices

### The Radio Broadcaster's Creed

We Believe:

That radio broadcasting in the United States of America is a living symbol of democracy; a significant and necessary instrument for maintaining freedom of expression, as established by the First Amendment to the Constitution of the United States;

That its influence in the arts, in science, in education, in commerce, and upon the public welfare is of such magnitude that the only proper measure of its responsibility is the common good of the whole people;

That it is our obligation to serve the people in such manner as to reflect credit upon our profession and to encourage aspiration toward a better estate for all mankind; by making available to every person in America such programs as will perpetuate the traditional leadership of the United States in all phases of the broadcasting art;

That we should make full and ingenious use of man's store of knowledge, his talents, and his skills and exercise critical and discerning judgement concerning all broadcasting operations to the end that we may, intelligently and sympathetically:

Observe the proprieties and customs of civilized society;

Respect the rights and sensitivities of all people;

Honor the sanctity of marriage and the home;

Protect and uphold the dignity and brotherhood of all mankind;

Enrich the daily life of the people through the factual reporting and analysis of news, and through programs of education, entertainment, and information;

Provide for the fair discussion of matters of general public concern; engage in works directed toward the common good; and volunteer our aid and comfort in times of stress and emergency;

Contribute to the economic welfare of all by expanding the channels of trade, by encouraging the development and conservation of natural resources, and by bringing together the buyer and seller through the broadcasting of information pertaining to goods and services.

Toward the achievement of these purposes we agree to observe the following:

## 1. PROGRAM STANDARDS

### A. News

Radio is unique in its capacity to reach the largest number of people first with reports on current events. This competitive advantage bespeaks caution—being first is not as important as being right. The following standards are predicated upon that viewpoint.

NEWS SOURCES. Those responsible for news on radio should exercise constant professional care in the selection of sources—for the integrity of the news and the consequent good reputation of radio as a dominant news medium depend largely upon the reliability of such sources.

NEWSCASTING. News reporting shall be factual and objective. Good taste shall prevail in the selection and handling of news. Morbid, sensational, or alarming details not essential to factual reporting should be avoided. News should be broadcast in such a manner as to avoid creation of panic and unnecessary alarm. Broadcasters shall be diligent in their supervision of content, format, and presentation of news broadcasts. Equal diligence should be exercised in selection of editors and reporters who direct news gathering and dissemination, since the station's performance in this vital informational field depends largely upon them.

COMMENTARIES AND ANALYSES. Special obligations devolve upon those who analyze and/or comment upon news developments, and management should be satisfied completely that the task is to be performed in the best interest of the listening public. Programs of news analysis and commentary shall be clearly identified as such, distinguishing them from straight news reporting.

EDITORIALIZING. Some stations exercise their rights to express opinions about matters of general public interest. Implicit in these efforts to provide leadership in matters of public consequence and to lend proper authority to the station's standing in the community it serves, is an equal obligation to provide opportunity for qualified divergent viewpoints.

The reputation of a station for honesty and accuracy in editorializing depends upon willingness to expose its convictions to fair rebuttal.

Station editorial comment shall be clearly identified as such.

TREATMENT OF NEWS AND PUBLIC EVENTS. All news interview programs shall be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or noteworthy area of questioning, the interviewer shall state on the program that such limitation has been agreed upon. Such disclosure shall be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

### B. Public Issues

A broadcaster, in allotting time for the presentation of public issues, shall exert every effort to insure equality of opportunity.

Time should be allotted with due regard to all elements of balanced program schedules, and to the degree of interest on the part of the public in the questions to be presented or discussed. (To discuss is "to sift or examine by presenting considerations pro and con.") The broadcaster should limit participation in the presentation of public issues to those qualified, recognized, and properly identified groups or individuals whose opinions will assist the general public in reaching conclusions.

Presentation of public issues shall be clearly identified.

### C. Political Broadcasts

Political broadcasts, or the dramatization of political issues designed to influence an election, shall be properly identified as such.

### D. Advancement of Education and Culture

Because radio is an integral part of American life, there is inherent in radio broadcasting a continuing opportunity to enrich the experience of living through the advancement of education and culture.

The radio broadcaster, in augmenting the educational and cultural influences of the home, the Church, schools, institutions of higher learning, and other entities devoted to education and culture: Should be thoroughly conversant with the educational and cultural needs and aspirations of the community served; Should cooperate with the responsible and accountable educational and cultural entities of the community to provide enlightenment of listeners; Should engage in experimental efforts designed to advance the community's cultural and educational interests.

### E. Religion and Religious Programs

Religious programs shall be presented respectfully and without prejudice or ridicule.

Radio broadcasting, which reaches men of all creeds simultaneously, shall avoid attacks upon religion.

Religious programs shall be presented by responsible individuals, groups, or organizations.

Religious programs shall place emphasis on religious doctrines of faith and worship.

### F. Dramatic Programs

In determining the acceptability of any dramatic program containing any element of crime, mystery, or horror, proper consideration should be given to the possible effect on all members of the family.

Radio should reflect realistically the experience of living, in both its pleasant and tragic aspects; if it is to serve the listener honestly. Nevertheless, it holds a concurrent obligation to provide programs which will encourage better adjustments to life.

This obligation is apparent in the area of dramatic programs particularly. Without sacrificing integrity of presentation, dramatic programs on radio shall avoid:

Techniques and methods of crime presentation in such manner as to encourage imitation, or to make the commission of crime attractive, or to suggest that criminals can escape punishment; Detailed presentation of brutal killings, torture, or physical agony, horror, the use of supernatural or climactic incidents likely to terrify or excite unduly; Episodes involving the kidnapping of children; Sound effects calculated to mislead, shock, or unduly alarm the listener; Disrespectful portrayal of law enforcement;

The portrayal of suicide as a satisfactory solution to any problem.

### G. Children's Programs

Programs specifically designed for listening by children shall be based upon sound social concepts and shall reflect respect for parents, law and order, clean living, high morals, fair play, and honorable behavior.

They shall convey the commonly accepted moral, social, and ethical ideals characteristic of American life.

They should contribute to the healthy development of personality and character. They should afford opportunities for cultural growth as well as for wholesome entertainment.

They should be consistent with integrity of realistic production, but they should avoid material of an extreme nature which might create undesirable emotional reaction in children.

They shall avoid appeals urging children to purchase the product specifically for the purpose of keeping the program on the air or which, for any reason, encourage children to enter inappropriate places.

### H. General

The intimacy and confidence placed in Radio demand of the broadcaster, the networks and other program sources that they be vigilant in protecting the audience from deceptive program practices.

Sound effects and expressions characteristically associated with news broadcasts (such as "bulletin," "flash," etc.) should be reserved for announcement of news,

and the use of any deceptive techniques in connection with fictional events and non-news programs shall not be employed.

The broadcaster shall be constantly alert to prevent activities that may lead to such practices as the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogans, within a program dictated by factors other than the requirements of the program itself. This expressly forbids the acceptance by producer, talent, or any other personnel of cash payments or other considerations in return for including any of the above within the program.

When plot development requires the use of material which depends upon physical or mental handicaps, care shall be taken to spare the sensibilities of sufferers from similar defects.

Stations shall avoid broadcasting program material which would tend to encourage illegal gambling or other violations of Federal, State and local laws, ordinances, and regulations.

Simulation of court atmosphere or use of the term "court" in a program title shall be done only in such manner as to eliminate the possibility of creating the false impression that the proceedings broadcast are vested with judicial or official authority.

When dramatized advertising material involves statements by doctors, dentists, nurses, or other professional people, the material shall be presented by members of such profession reciting actual experience, or it shall be made apparent from the presentation itself that the portrayal is dramatized.

Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.

No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

In cases of programs broadcast over multiple station facilities, the originating station or network shall assume responsibility for conforming such programs to this Radio Code.

Requests for time for public service announcements or programs should be carefully reviewed with respect to the character and reputation of the campaign, group or organization involved, the public interest content of the message, and the manner of its presentation.

**II. ADVERTISING STANDARDS**

Advertising is the principal source of revenue of the free, competitive American system of radio broadcasting. It makes possible the presentation to all American people of the finest programs of entertainment, education, and information.

Since the great strength of American radio broadcasting derives from the public respect for and approval of its programs, it must be the purpose of each broadcaster to establish and maintain high standards of performance, not only in the selection and production of all programs, but also in the presentation of advertising.

**A. Time Standards for Advertising Copy**

The time standards for advertising copy are as follows:

**1. Programs under single sponsorship.**

The maximum time to be used for advertising, allowable to any single sponsor, regardless of type of program, shall be—

5 minute programs	1:30
10 " "	2:10
15 " "	3:00
25 " "	4:00
30 " "	4:15
45 " "	5:45
60 " "	7:00

The time standards allowable to a single advertiser do not affect the established practice of allowance of station breaks between programs.

Any reference in a sponsored program to another's products or services under any trade name, or language sufficiently descriptive to identify it, shall, except for normal guest identifications, be considered as advertising copy.

While any number of products may be advertised by a single sponsor within the specified time standards, advertising copy for these products shall be presented within the framework of the program

structure. Accordingly, the use on such programs of simulated spot announcements which are divorced from the program by preceding the introduction of the program itself, or by following its apparent sign-off, shall be avoided. To this end, the program itself shall be announced and clearly identified before the use of what have been known as "cow-catcher" announcements, and the programs shall be signed off after the use of what have been known as "hitch-hike" announcements.

**2. Announcement type programs, multiple sponsorship programs, and any combination of programs and announcements.**

The maximum time to be used for advertising in announcement and/or multiple sponsorship programs shall not exceed an average of 14 minutes an hour computed on a weekly basis; provided, however, that in no event shall the maximum exceed 18 minutes in any single hour or five minutes in any 15-minute segment. For the purpose of determining advertising limitations, such program types as "classified," "swap shop," "shopping guides" and "farm auction" programs, etc., shall be regarded as containing one and one-half minutes of advertising for each five-minute segment.

**B. Presentation of Advertising**

The advancing techniques of the broadcast art have shown that the quality and proper integration of advertising copy are just as important as measurement in time. The measure of a station's service to its audience is determined by its overall performance, rather than by any individual segment of its broadcast day.

The final measurement of any commercial broadcast service is quality. To this, every broadcaster shall dedicate his best efforts.

**C. Acceptability of Advertisers and Products.**

1. A commercial radio broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, he shall, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each radio broadcaster shall refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form of the particular presentation. In general, because radio broadcasting is designed for the home and the entire family, the following principles shall govern the business classifications listed below:

- a) The advertising of hard liquor shall not be accepted.
- b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable subject to existing laws.
- c) The advertising of fortune-telling, astrology, palmistry, phrenology, palm-reading, numerology, mind-reading or character-reading is not acceptable.
- d) The advertising of certain intimate personal products which might offend or embarrass the listening audience is unacceptable. In this category are products for the treatment of hemorrhoids and for use in feminine hygiene.
- e) All advertising of products of a personal nature, when accepted, shall be treated with special concern for the sensitivities of the listeners.
- f) The advertising of tip sheets, publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

2. An advertiser who markets more than one product shall not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

3. Care shall be taken to avoid presentation of "bait-switch" advertising whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes.

4. Advertising copy should contain no claims dealing unfairly with competitors, competing products, or other industries, professions or institutions.

**D. Contests**

Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent federal, state, and local laws and regulations.

All contest details, including rules, eligibility requirements, opening and termination dates, shall be clearly and completely announced or easily accessible to the listening public; and the winners' names shall be released as soon as possible after the close of the contest.

When contestants are required to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof shall be made acceptable.

All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection shall be considered a part of and included in the total time limitations heretofore provided.

**E. Premiums and Offers**

The broadcaster shall require that full details of proposed offers be submitted for investigation and approval before the first announcement of the offer is made to the public.

A final date for the termination of an offer shall be announced as far in advance as possible.

If a consideration is required, the advertiser shall agree to honor complaints indicating dissatisfaction with the premium by returning the consideration.

There shall be no misleading descriptions or comparisons of any premiums or gifts which will distort or enlarge their value in the minds of the listeners.

# ASCAP

ASCAP — the American Society of Composers, Authors and Publishers — an unincorporated, non-profit membership association of the 9200 outstanding men and women who write and publish our nation's songs, the Society also represents the music of more than 50,000 writers of other countries

The Society, which was organized in 1914, has always served the public by encouraging musically creative talent. Its members represent every phase of musical literature: the popular songs of today, the standards of yesterday, the Broadway and motion picture hits, as well as the leading symphonic and concert works, religious, folk and country music.

**THE AMERICAN SOCIETY OF COMPOSERS,  
AUTHORS AND PUBLISHERS** 575 Madison Ave., New York 22, N. Y.

Faith for Today  
Now On 214  
TV Stations

Available in Black & White or COLOR!

Faith for Today—America's oldest church-sponsored telecast is still growing. This public service one-half hour program is currently being televised on stations in United States, Canada, and eight foreign countries.

**For All Faiths**

—practical religion is emphasized rather than theology.

**Varied Format**

—dramas, interviews, and all music programs.

**Popular**

—up to 9000 letters are received each week in the New York City headquarters.

This family telecast is available on a weekly basis without charge. For further information write to:

### Foreign Language Programing on U. S. Radio Stations

This list, arranged by languages, reports the stations programing foreign languages and the number of hours weekly. Each station carrying foreign language programs is also listed in the U. S. AM and FM Radio Directory. The complete list of languages carried by each foreign-language station is reported. Asterisk (\*) denotes noncommercial educational station. Where FM duplicates AM in programing, a separate listing is not made.

ABC affiliates as of Oct. 1, 1963: 424.

**ABC RADIO NETWORK RATES**

Segmented ABC rates will include the following gross charges (before discounts): 60-second commercial in "Breakfast Club," \$1,300 for time plus \$300 for talent; 60 seconds in "Flair," \$1,100 plus \$300; 30 seconds in "Flair," \$660 plus \$150; for news and sports events, five-minute segments (1:15 minutes commercial time) \$1,100 plus \$200, 60 seconds \$1,000 plus \$200, 30 seconds \$600 plus \$100; co-sponsorships (alternating 60- and 30-second announcements) \$750 plus \$100. These are gross charges, with time costs discountable according to weekly dollar volume and number of consecutive weeks involved. They assume full-network clearance, rebatable on a pro rata basis for stations not carrying.

**ABC Television Network**

**Station Clearance:** Joseph Giaquinto, director.

**Station Relations:** Robert Coe, vp in chg; Donald Shaw, dir; Ralph S. Hatcher, mgr.

**ABC-TV STATIONS AFFILIATES ASSOCIATION**

Mike Shapiro, WFAA-TV Dallas, chmn; Thomas P. Chisman, WVEC-TV Norfolk, Va., vice chmn; Herbert Cahan, WJZ-TV Baltimore, sec; Martin Umansky, KAKE-TV Wichita, Kan., treas; Joseph L. Brechner, WFTV Orlando, Fla.; Joseph H. Hladky Jr., KCRG-TV Cedar Rapids, Iowa; Norman Louwau, KCPX-TV Salt Lake City; W. W. Warren, KOMO-TV Seattle.

**ABC-TV NETWORK RATES**

Below are gross rates for Class A hour. Class A time is 6-11 p.m., Sunday through Saturday. Class B rate (75% of Class A rate) applies to stations not primarily affiliated with ABC-TV. Class C time (50% of Class A rate) is 11 p.m. to sign-off Sunday through Saturday, 9 a.m. to 6 p.m. Saturday and Sunday, and 5-6 p.m. Monday through Friday. Class D time (33.3% of Class A rate) is daytime hours up to 5 p.m. Monday through Fri-

day, except for special programs on national holidays, which are charged as Class C. Rates for each period of time of less than one hour are figured at the following percentages of the hour rate: half hour—60%; quarter hour—40%; one-third of an hour—40%; two-thirds of half-hour—40%; one-third of half-hour—20%; one-sixth of hour—20%.

ABC has no must-buy list of basic stations. Its rate card states "Advertisers are required to purchase for each program a minimum cleared gross for station time equivalent to \$80,000.00 for each Class A hour telecast."

Voice of America

**Headquarters:** Health, Education & Welfare Bldg., 4th & Independence Ave., S.W., Washington, D. C. Worth 3-3363. Henry Loomis, director of broadcasting; Arthur Hummel, deputy director of broadcasting; Alex Klieforth, program mgr.; Edgar T. Martin, mgr.; Ab Hamilton, pub info officer.

Voice of America Fact Sheet

The Voice of America, a part of the U. S. Information Agency, submits evidence to the peoples of other nations that the objectives and policies of the United States are in harmony with and will advance their legitimate aspirations for freedom, progress and peace. Equally, the Voice attempts to expose Soviet imperialism and the fraud of international communism, while combating their anti-American propaganda.

Radio is the fastest, most effective day-by-day medium for achieving these objectives; it speaks directly to people abroad, instantaneously surmounting barriers of distance, and illiteracy. It also overcomes local efforts at censorship and control, including "jamming."

Facilities

The Voice has a network of 103 transmitters, of which 43 are in the United States. These latter are short wave stations ranging in power from 50 kw to 500 kw, owned and operated by the USIA. The largest transmitter complex is at Greenville, North Carolina. There, 18 transmitters feed programs received via microwave from the Washington studios to audiences and overseas relay bases abroad over 73 directional antennas. Total power at Greenville is 4,800 kw. Other domestic facilities are at Boundbrook, New Jersey; Bethany, Ohio; Honolulu, Hawaii; and Delano and Dixon, California. At the present, the VOA has a transportable 50 kw medium-wave transmitter in Florida broadcasting Spanish-language programs to Cuba.

Overseas relay stations are at Munich, Thessaloniki, Rhodes, Tangier, the Philippines, Okinawa, England and Ceylon, and include short, medium and long wave transmitters. Three of these are one million watt transmitters, placing them among the world's most powerful.

In addition to its network of fixed transmitters, the Agency's broadcast service has four transportable transmitters. These are all 50 kw, three shortwave and one medium wave. They are designed to be moved quickly to wherever they are needed by land, sea or air. The medium-wave transportable transmitter is on Marathon Key, Florida, broadcasting to Cuba. The three shortwave transportables are in Liberia where they will relay Voice of America programs to African audiences until the Agency's permanent 1.6 megawatt facility, now under construction there, is completed in 1964.

This and other construction planned or now under way by the USIA, both in the United States and overseas, will add 6,710,000 watts in shortwave power to the existing 9,344,500 watts. This expansion will also add 300 kw to the existing 3,600 kw of medium and long wave capability giving a total of 19,954,500 watts making the USIA's radio facilities flexible and competitive.

In West Berlin the USIA operates RIAS (Radio in the American Sector), which broadcasts 21 hours a day in German over medium, short, and long wave, as well as FM.

Approximately 40% of VOA's total program effort is directed to listeners in Communist countries including Cuba. Other transcribed programs, music recordings and script material are furnished by U. S. Information Agency offices throughout the free world for local distribution and broadcast. Other relays and rebroadcasts are made through arrangements with local broadcasters in West Europe, Africa, the Near East, South Asia, the Far East and Latin America. Currently some 3,000 stations overseas are rebroadcasting 14,000 hours of USIA programming weekly.

Program Content

The USIA's directive to its broadcast service states: "The long-range interests of the United States are served by communicating directly with the peoples of the world by radio. To be effective, the Voice of America must win the attention and respect of listeners. These principles will govern VOA broadcasts:

1. "VOA will establish itself as a consistently reliable and authoritative

- source of news. VOA news will be accurate, objective and comprehensive.
2. "VOA will represent America, not any single segment of American society. It will therefore present a balanced and comprehensive projection of significant American thought and institutions.
3. "As an official radio, VOA will present the policies of the United States clearly and effectively. VOA will also present responsible discussion and opinion on these policies."

Implementation of this directive has resulted in approximately half of the broadcast schedule being devoted to news. The other half consists of news analyses, commentaries, press reviews, round-table discussions, documentary programs and special events covering American political, economic, social and cultural topics so as to provide overseas audiences a balanced and accurate concept of the United States and clear information regarding United States policies.

Audiences

The USIA estimates its current world radio audience is in the range of from 17 to 26 million on an average day, and about double that amount for an average week. During times of international crisis, or for such special events as an American space launch, the audience increases considerably.

Broadcasting, announcing, writing, radio and TV production. Electronic production studio, theatre, FM radio station, speech and hearing clinic. Outstanding opportunities for achieving professional competence in acting, directing, and script writing for radio and TV. Coed. 84th year. For catalog write: Director of Admissions.</p> <p><b>EMERSON COLLEGE</b> 303 Berkeley St., Boston 16</p>	<p><b>RADIO</b></p> <p><b>TV</b></p> <p><b>SPEECH</b></p> <p><b>THEATRE</b></p>

**Famous Announcers School.** 1836 Euclid Ave., Cleveland 15. PR 1-3663. Leonard J. Kahn, registrar.

Courses offered: Announcing, newscasting, sportscasting and commercials. Correspondence courses.

**Grantham School of Electronics.** Hollywood Division: 1505 N. Western Ave., Hollywood 27. Hollywood 7-7727. Washington Division: 821 19th St., N.W., Washington 6. Sterling 3-3614. Seattle Division: 408 Marlon St. Seattle 4. Main 2-7227. Kansas City Division: 3123 Gillham Rd., Kansas City 9. Jefferson 1-6320.

Courses offered: Preparation for FCC operator license examinations and engineering mathematics, by correspondence or in resident classes.

**Lincoln School of Radio & Television.** 1851 Broadway, New York 23. Circle 6-5300.

Courses offered: Radio, FM and television technicians, electronic (radar) technician, electrical inspector.

**Don Martin School of Radio & Television Arts & Sciences.** 1653 North Cherokee, Los Angeles 28. Hollywood 2-3281.

Courses offered: Complete TV production and engineering; radio production, announcing, electronics and preparation for FCC license.

**Mid-South Electronics Institute Inc.** 207 23rd Ave., North, Nashville 5. Cypress 1-7998.

Courses offered: Radio-TV servicing, engineering and announcing.

<p>Training <b>ENGINEERS</b> and <b>ANNOUNCERS</b> for the Broadcast Industry since 1949</p> <p><b>MID-SOUTH ELECTRONICS INSTITUTE</b></p> <p>207 23rd Avenue North Nashville, Tennessee</p> <p>Phone CY 1-7998</p>
---

**Midwestern Broadcasting School.** 228 S. Wabash Ave., Chicago 4. Wabash 2-0712. Fred Robbins, pres-dir; Alice Lane, registrar.

Courses offered: Announcing, timeselling, copywriting, console operation.

**National Academy of Broadcasting.** 814 H St., N.W., Washington. EX 3-0727. Charles P. Janssen, pres.

Courses offered: Radio & TV announcing,

news editing & reporting, sportscasting, continuity writing, control room operations, diction & speech, English & vocabulary building, foreign language pronunciation, music programing, sales & management, and FCC regulations. Closed-circuit radio & TV studios provided.

**New School for Social Research.** 66 West 12th St., New York 11. Oregon 5-2700.

Courses offered: TV writing workshop; script writing clinic.

**New York School of Announcing and Speech.** 165 W. 46th St., New York 36. LT-1-3471. Joseph Wippler, dir.

Courses offered: Basics of radio; advanced courses in newscasting, disc-jockeying; complete training in closed-circuit AM and TV.

---

**New York University.** (Div. of General Education) 1 Washington Square, New York 3. Spring 7-2000.

Courses offered: Introduction to television, television studio operation, TV workshop, advanced television direction, TV script writing, announcing for radio & TV, television personality, TV film production, writing commercials for radio & TV, planning & coordinating radio-TV advertising campaigns, workshop in tape recording & editing, technical television studio practice, television acting laboratory.

**Northwestern TV & Electronics Institute.** 3800 Minnehaha Ave. S., Minneapolis 6. Parkway 1-2469.

Courses offered: FCC license preparation, industrial and communications electronics, radio and television receiving equipment. All resident classes.

**Northwest Schools.** 1221 N.W. 21st Ave., Portland 9, Ore. Capitol 6-4811. 737 N. Michigan Ave., Chicago; 6362 Hollywood Blvd., Hollywood.

Courses offered: TV studio (camera, film, directing, etc.), radio announcing, electronic technician and FCC license preparation.

**William B. Ogden Radio Operational Engineering School.** 1150 West Olive Ave., Burbank, Calif. Thornwall 2-8291. Reservations required.

Courses offered: Concentrated preparation for first class radiotelephone operator (FCC).

**Portland Electronics College.** 1017 S.W. Washington St., Portland 5, Ore. Capital 8-7777.

Courses offered: Electronics engineering, radio and TV repair and service, broadcasting engineering.

**Leland Powers School Inc.** 31 Evans Way Boston 15. Aspinwall 7-2900.

Courses offered: Radio-TV announcing, acting, writing.

**Radio-Television Training of America.** 52 E. 19th St., New York 3. Oregon 7-7390.

Courses offered: AM-FM-TV studio technique, transistors, color TV.

**RCA Institutes.** 350 W. 4th St., New York 14. Yukon 9-2000.

610 S. Main St., Los Angeles 14. Madison 8-1281.

Courses offered: Electronics technology; industrial and communications electronics; electronics and TV receivers; technical writing; digital computer electronics; automation electronics; electronic drafting; transistors; computer programing; operation & production.

**SRT: The Academy of Broadcasting Arts Inc.** 316 W. 57th St., New York 19. Union 5-2277.

Courses offered: TV programing-production; radio-TV announcing; TV acting; TV writing; first class radiotelephone operator's license; motion picture photography for TV; radio-TV sales and merchandising.

**Washington Academy of Radio & Television Broadcasting.** 1326 18th St., N.W., Washington 6. Adams 4-6916. Robert S. Rush, administrative dir.

Courses offered: Announcing, sportscasting, news reporting, music production, DJ operation, traffic, management & sales, public relations, control operation. Approved for veterans.

<p><b>THE WASHINGTON ACADEMY OF RADIO AND TELEVISION BROADCASTING</b></p> <p>1326 - 18th St., N.W., Washington, D.C. 20036</p> <p>Day and Evening classes—Fully approved for veterans—Air Conditioned classrooms &amp; studios—In the heart of downtown Washington.</p>

## Books

**Editor's Note:** This bibliography supplements other listings that have been published in BROADCASTING YEARBOOKS. This bibliography is representative of publications of the broadcasting industry and does not pretend to be all-inclusive. It was prepared for the YEARBOOK by Robert J. Esposito, American Broadcasting Company.

### DIRECTORIES and DICTIONARIES

**Broadcasting Yearbook—1964** Published every December by Broadcasting Publications Inc., 1735 DeSales St., N.W., Washington. \$5.

Contains 50 separate directories covering the business side of television and radio. Stations, networks, representatives, suppliers and services, manufacturers, trade associations and professional societies, advertising agencies, broadcasting regulations.

**The Broadcasting and Television Yearbook (Australian)** 1964—Greater Publications Pty Ltd., Liverpool House, 257 Castle-reagh St., Sydney, Australia, Box 2608. GPO Sydney.

Yearbook is produced by company and personnel responsible for the weekly appearance of broadcasting and television in Australia and condenses all most needed information concerning this growing industry in Australia.

**Dictionary of Electronic Communications Terms** Compiled by Howard W. Sams staff (engineering). Howard W. Sams & Co., 4300 West 62nd St., Indianapolis, 160 pp., \$3.95.

More than 2,500 terms related to communications field are listed with concise definitions that serve needs of technical and nontechnical people.

**Editor and Publisher Yearbook—1964** Published by Editor and Publisher, 850 Third Ave., N. Y. 22. \$5.

Contains only state-by-state and city-by-city listing of daily newspapers in the U. S. and Canada with information on their circulation and names of executive personnel. Yearbook contains the names of daily newspapers in every country in the world.

**The Madison Avenue Handbook** By Peter Glenn. Peter Glenn Publications, Inc., 444 East 52nd St., N. Y. 22. 1963, 328 pp., \$4.95.

Combined diary-directory. Covers talent agencies, advertising agencies, producers, etc. Published for the past five years.

**The Newspaper Press Directory and Advertisers Guide—1963** John De Groff Inc., 31 E. 10th St., 968 pp., \$14.

Mostly on the newspaper and periodical press of the United Kingdom and Ireland with list of U. S. publishers.

**Who's Who in Advertising** Edited by Eldridge Peterson. Haire Publishing Co., 111 Fourth Ave., N. Y. 1st edition, 1963, 1,275 pp., \$50. (Special Library Price—\$39.50).

Contains estimated 10,000 alphabetically arranged biographical sketches of key advertising executives. The directory also includes a cross index by company and biographies of pioneers in the field of advertising.

### EDUCATIONAL

**Educational AM and FM Radio and Educational Television Stations By State and City** U. S. Government Printing Office, Washington 25., 1963, 29 pp., 25.

Lists educational AM and FM and television stations (with call letters). Also gives information on frequency power, licensees, and the general manager and/or program director.

**A Guide to Instructional Television** Edited by Robert M. Diamond. McGraw-Hill,

330 West 42nd St., N. Y. 36, 1964.

Contributed volume designed to give reader some practical insights into instructional television—as viewed by educators who are actively using medium in various areas of the educational curriculum.

**Manual of Audio-Visual Techniques** By De Kieffner-Cochran. Prentice-Hall, Inc. Englewood Cliffs, N. J., 2nd edition, 1962, 224 pp.

Develops audio-visual skills and techniques at the college level through problems and projects approach.

**The People Look At Educational Television** By Wilbur Schramm, Jack Lyle, and Ithiel de Sola Pool. Stanford U. Press, Palo Alto, Calif., 1963, 209 pp., \$5.50.

Two-year survey in which nine representative ETV stations were examined.

#### GENERAL

**Advertising—Today, Yesterday, Tomorrow** (Printers' Ink—Vol. 283, No. 11, June 14, 1963) McGraw-Hill, 330 West 42nd St., N. Y. 36, 1963, 474 pp., \$12.95.

Collection of articles written by outstanding people in the field and edited with both the professional man and aspirant in mind. Topics included are: Advertising and government, creativity, research, education.

**BBC Handbook 1964** Compiled by the British Broadcasting Corp. Richard Clay & Co. Ltd., Bungay, Suffolk, England, 1964, 224 pp., \$1.40.

Updated compilation of services and scope of BBC. Sections devoted to radio, television, program services and the public, external services (outside England) engineering and reference.

**Chases' Calendar Of Annual Events, 1964.** Compiled by Harrison and William Chase. Apple Tree Press, Publishers, Flint, Mich. 56 pp., \$1.

A compendium of special days, weeks, and months in the coming calendar year. Useful to broadcasters for general information purposes and in timing of promotional schemes. Published in Nov. for forthcoming year.

**Clearing The Air.** By Edward P. Morgan. Robert B. Luce Inc., 119 W. 40th St., New York 18, 1963, 267 pp., \$4.95.

A selection of Mr. Morgan's "essays" carried on ABC and CBS networks. Essays range over the Eisenhower and Kennedy administrations in Washington, civil rights, personal experiences.

**Federal Communications Commission—Annual Report.** (28th Annual Report) U.S. Government Printing Office, Washington 25, .50.

Basically a report for Fiscal year ended June 30, 1962 with summary and notation of subsequent important developments. Topics included are: F.C.C., Law and Enforcement, Frequency Allocations and Use. **History In Sound.** By Milo Ryan, University of Washington Press, 1963, 617 pp., \$15.

Descriptive listing of KIRO Seattle. CBS collection of broadcasts of the W.V. II years and after (3,900). Twenty-three years of history from Hitler's speech to the Reichstag on Jan. 30, 1939 to President Kennedy's speech to the U. S. on Oct. 22, 1962.

**Index To Top Hit Tunes, 1900-1950.** Compiled by John H. Chipman. Bruce Humphries Publishers, 48 Melrose, Boston, 1962, 249 pp., \$10.

Listed both alphabetically and chronologically are about 3,000 titles with musical key, composer, publisher, and names of musicals (films and B'way) in which songs were featured. Also included is list of songs from 1600-1900 which are still in repertory.

**The Intelligent Man's Guide To Broadcast Ratings.** By Martin Mayer. Advertising Research Foundation, 3 East 54th St., New York, 1962, 26 pp.

This clearly written paper covers such topics as: Sampling Theory and Practice, The Ideal Rating, and From Telephone To Computer.

**ITV—1964.** Independent Television Authority, 70 Brompton Road, London S.W. 3, Knights Bridge 7011.

Comprehensive guide to Independent Television. Detailed information on ITV System, ABC Television, Associated Television, etc., with chapters on documentaries, children and television, adult education and others.

**Mass Media and Mass Culture: Great Issues Lecture.** Columbia Broadcasting System, Inc., 485 Madison Ave., New York, 1962, 46 pp.

Text of lecture delivered at Dartmouth College by Frank Stanton, president of CBS. Subject was given as part of the "Great Issues Course" at Dartmouth.

**The People Look At Television—A Study of Audience Attitudes.** By Gary A. Stein-

er. Alfred A. Knopf, 501 Madison Ave., N. Y. 1963, 422 pages, \$7.95.

Definitive effort to provide factual and objective information on how Americans use the medium and what they think about it. Conducted at the Bureau of Applied Social Research of Columbia University.

**Television and How It Works.** By Eugene David. Prentice-Hall, Inc., Englewood Cliffs, N. J. (Juvenile Books—Ages 8-11). 1962, 72 pp., \$2.95.

History of television; its role in the future; its use for space exploration, weather forecasting and education. Ill. and indexed.

**Television and Human Behavior—Tomorrow's Research In Mass Communication.** Edited by Leon Arons and Mark A. May. Appleton-Century-Crofts, 34 West 33rd St., N. Y. 1963, \$7.50.

Book of research strategies in which research plans are developed for specific problems—with respect to the communication process itself, levels of taste, effects of vicariously experienced violence, influence of family structure, educational television, and television uses as a research instrument for behavioral science.

**Television and Radio.** By Giraud Chester, Garnet R. Garrison and Edgar Willis. (Third Edition). Appleton-Century-Crofts, 31 West 33rd St., N. Y. 1. 1963, 658 pp.

First half of book is devoted to history of radio and television and the role of the public and advertisers. Second half covers technical aspects. Includes latest, most significant developments in broadcasting since 1955, bibliographies, tables, statistics.

**Television Network Program Procurement.** House Rept., No. 281, 88th Congress, 1st Session, U. S. Government Printing Office, Washington 25, D. C. 25.

Includes both Interim Rept. (June 15, 1960) and Part 1 of Second Interim Rept. (Nov. 28, 1962). Deals with the history of broadcast regulations, the commission's relation to its licensees and sets out in some detail the responsibilities and duties of broadcasters. Second Interim Rept. deals with economic-level aspects of program procurement.

**Telstar: Communication Break-Through By Satellite.** By Louis Solomon. McGraw-Hill, 330 West 42nd St., N. Y. 36, 1962, 63 pp., \$2.95.

Nontechnical review. Covers scientific and technical aspects of Telstar, some earlier communication satellites and describes auxiliary equipment which makes Telstar a success.

**Variety Music Calvacade.** By Julius Mattfield. Prentice-Hall, Inc., Englewood Cliffs, N. J. 1962, 709 pp., \$12.50.

Revised and enlarged second edition lists chronologically and alphabetically popular music in the U. S. from 1620-1961 and outstanding political and cultural events contemporary with the songs.

**The World of Advertising.** Advertising Publications, Inc., 630 Third Ave., N. Y. (Jan. 15, 1963) Vol 34, No. 3.

Covers important topics such as: The Case For Advertising, Advertising and Society, How The Advertising Business Works. Includes also detailed statistics on advertising.

**World Radio-TV Handbook.** Gilfer Associates, P.O. Box 239, Park Ridge, N. J. 1963, 17th edition, 216 pp., \$3.00.

First section of this publication contains articles relating to and information regarding broadcasting and television organizations. Detailed information, by country, of radio and television stations is included in main section (names of broadcasting stations, addresses, frequencies, wavelengths, and call signs).

#### MANAGEMENT, PRODUCTION, AND TECHNIQUES

**Advertising—A New Approach.** By Walter Taplin. Little, Brown & Co., 60 East 42nd St., N. Y. 1963, \$5.

Examines advertising for what it really is, what it strives to do, and how far it can or can not affect our lives.

**The Art of Publicity.** By Leroy Stahl. T. S. Denison & Co., 315 Fifth Ave., S., Minneapolis, Minn. 1962, 245 pp., \$3.95.

Basic primer of which more than a third is devoted to broadcasting.

**Confessions of An Advertising Man.** By David Ogilvy. Atheneum Publishers, 162 East 38th St., N. Y. 16, 1963, 192 pp., \$4.95.

Author reveals among other professional secrets, how to get clients, to write potent copy, and how to rise in the industry.

**Employment Outlook In Radio and Television Broadcasting Occupations.** Government Printing Office, Washington 25, 1962, .10.

Includes radio and television announc-

ers and broadcast technicians.

**How To Become An Advertising Man.** By James Webb. Young Advertising Publications Inc., 740 Rush St., Chicago 11, 1963, 95 pp., \$3.

Spells out five steps in which advertising works (familiarizing, reminding, spreading news, overcoming inertias and adding a value not in the product). Basic Primer.

**Kenyon and Eckhardt Market Guide.** Kenyon & Eckhardt Inc., 200 Park Ave., N. Y. \$15.

A planning guide to regional and test markets based on U. S. TV coverage areas. Contains data on food and drug factors, maps, charts, statistics.

**Marketing In Business Management.** The Macmillan Co., 60 Fifth Ave., N. Y. 11, 1963, 472 pp., \$4.95.

Text book containing 66 articles on the marketing concept.

**Measuring Advertising Effectiveness.** By Darrell B. Lucas (N.Y.U.) and Stuart Henderson Britt (Northwestern U.) McGraw-Hill Inc., 330 W. 42nd St., N. Y. 36, 1963, 399 pp., \$9.95.

Extension of earlier volume, "Advertising Psychology and Research." **Sportscasting.** By Karl W. Klages. Mercury Publishing Inc., Salt Lake City 11, 1963, 154 pp., \$5.00.

Textbook on basic technique. **Success Secrets: The Anatomy of Local Radio-TV Copy.** By William Allen Peck. 456 Cloverleaf #8, San Antonio 9, Tex. 1962, 52 pp., \$3.00.

Brief but thorough manual for copywriters on local station level. Sample of live and production commercials, instructions on writing techniques, and exercises to test them.

**The Technique of Documentary Film Production.** By Hugh Baddley. Hastings House, 151 E. 50th St., N. Y. 22, 1963, 268 pp., \$10.00.

Book deals with all phases in the production of films from initial idea to distribution.

**The Technique of Sound Studio.** By Alec Nisbett. Hastings House, 151 East 50th St., N. Y. 22, 1962, 288 pp., \$10.50.

Covers such topics as: microphones, sound quality and volume, editing, tapes, and discs. Author has provided drawings, diagrams and graphs and a 38-page glossary of terms.

**Truth In Advertising and Other Heresies.** By Walter Weir. McGraw-Hill Book Co., 330 West 42nd St., N. Y. 36, 1963, 224 pp., \$5.95.

Book tells how to stretch advertising dollars by not stretching the truth.

**The Visual Craft of William Golden.** Pinelless Golden, Kurt Weihs, Robert Strunsky, George Braziller, 215 Park Ave. South, N. Y. 3, 1962, 156 pp., \$12.50.

Text consists of articles and talks by Golden, preface by Frank Stanton. In addition, this book is illustrated with 137 pages of pieces Golden designed.

#### TECHNICAL

**Color Television Fundamentals.** Milton S. Kiver. McGraw-Hill, 330 West 42nd St., N. Y. 36, 1964.

Covers basic principles of color television, the operation of color television receivers, and fundamentals of both installation and servicing.

**Elements of Design and Service In TV AGC Circuits.** By Harry E. Thomas. Prentice-Hall, Englewood Cliffs, N. J. 1962, 200 pp., \$6.

Guidebook for solving any service or design problem of TV AGC circuits. Second in a seven-volume series entitled "Design and Service of Television Reviews."

**How To Improve Your Short Wave Reception.** [World Publications.] Gilfer Associates, P. O. Box 239, Park Ridge, N. J. \$2.

Handbook for those who wish to know all about short wave reception, the technical aids and means of improving it and who wish to build receivers themselves.

**The Radio Amateurs Handbook.** Edited by Byron Goodman. American Radio Relay League, West Hartford 7, Conn. 40th edition, 751 pp., \$3.50.

Chapters on radio communications theory have been updated and material on equipment construction has been revised. Handbook contains a catalog section and 14 page index.

**Short Wave Index.** Edited by Ken Brady. New York: SW Index, Box 30, N. Y. 34 pp., \$1.00.

Listing of English language broadcasts directed to the U. S. via short wave radio. A file of cards listing programs by hour of the day and by country.

**Technical Television.** By A. V. J. Martin. Prentice-Hall, Englewood Cliffs, N. J. 1962, 616 pp., \$14.65.

Practical approach to all phases of black and white television. Discusses such

## TRENDS, EVENTS

topics as: Standards, Antennas, Transmitters and Auxiliary Circuits. Numerous examples of design and variants.

**Transistors.** By Dennis Le Croisette. Prentice-Hall, Inc., Englewood Cliffs, N. J. 1963. 272 pp., \$9.

Discussion of both physical theory and amplifying properties of the transistor.

**Transistors—Theory and Practice.** World Publications. Gilfer Associates, P. O. Box 239, Park Ridge, N. J. \$1.50.

Up to date and "how to build" handbook, which in an easy, understandable manner, explains the theory and practical use of transistors.

**TV and FM Antennas.** World Publications. Gilfer Associates, P. O. Box 239, Park Ridge, N. J. \$1.50.

## MAJOR TRENDS, EVENTS — 1962-63

Brief references, grouped by subject, to some of the major news developments reported in BROADCASTING—*The Business-weekly of Television and Radio*, for the year starting Sept. 1, 1962, and ending Aug. 31, 1963. Dates refer to the issues of BROADCASTING in which the stories appeared. Many stories affect more than one aspect of radio-tv, making classification a matter of arbitrary decision, since space does not permit extensive duplication. Users are therefore urged to look under all appropriate headings. For similar references to earlier years see appropriate BROADCASTING YEARBOOKS.

### Access

Struggle of broadcast newsmen to gain admittance for themselves and their electronic reporting gear to courtrooms and other public assemblies went on throughout the year with some gains, some setbacks. Primary battle, as always, was for entry to courts, with Canon 35 of American Bar Association (barring cameras and mikes as disrupting the dignity of the court) the main barrier. RTNDA president sees no signs of relaxation of Canon 35—9/24/62; Federal Bar Association permits filming of its discussion of radio-tv access—9/24/62; ABA committee opposes changes—2/4/63; ABA votes to continue Canon 35—2/11/63; NAB to continue fight against it—4/8/63; Canon 35 concerns ASNE freedom of information committee—4/22/63; issue discussed on air over KRON-TV—9/3/62, and WMAL-TV—9/10/62; Maryland bar proposes ban on recreated jury scene—10/15/62; CBS' Salant proposes a start with US Supreme Court—12/24/62; broadcasters permitted live coverage of Billy Sol Estes trial—10/1/62; Texas bar asked—10/8/62; trial begins—10/15/62; broadcasters accused of botching things—10/12/62, but are allowed to continue live coverage—10/20/62, except for hiatus required by Texas law—11/12/62; TV covers murder hearing from outside courtroom—5/13/63; San Diego court halts prisoner interviews on TV for fear of what might be said—12/17/62

Charge that TV broadcast prejudiced jury wins review of Louisiana murder trial—12/10/62, 5/6/63; U. S. Supreme Court agrees, remands case for rehearing in another locale—6/10/63; microphone in court wins new trial for Georgia defendant—7/22/63, but Denver court denies that TV interview prejudiced jury—7/15/63

Cincinnati Bar Association issues guidelines for lawyers going on radio or tv—8/26/63

Bills to admit mikes and cameras to House committee hearings are introduced—1/4/63, 3/4/63, but rules committee is cool to idea 3/18/63, despite pleadings of NAB—3/18/63, 3/25/63, and CBS—1/28/63, 2/4/63, 3/11/63. Bill to open Senate debates to broadcast coverage introduced—5/20/63

In California, TV newsmen are barred from hearings of California Corporation and Public Utilities commissions—2/4/63; NAB defends their right to cover—2/25/63; court grants Corporation Commission right to keep cameras out—3/4/63, but PUC agrees to listen to arguments as to why it should change its policy—3/4/63

In Kansas, broadcast coverage of debate on state colleges is granted, then canceled—3/25/63

Missouri house debate gets first live broadcast—3/25/63, passes rule permitting radio coverage at any time—5/6/63

New York stations protest denial of access to municipal public hearings—4/22/63

North Dakota admits microphones—4/8/63  
Ohio admits broadcast newsmen to floor for interviews, but denies access to mikes and cameras—6/8/63

How to build TV and FM antennas for all channels. Explains all problems connected with TV and FM antennas.

**Understanding Amateur Radio.** By George Grammer. American Radio Relay League, West Hartford 7, Conn. 1963. 320 pp., \$2.

Presents fundamentals of amateur radio theory, construction and operation. The fundamentals of receivers, transmitters, power supplies and antennas are covered without undue complications.

**Volume 3—AM-FM Broadcast Maintenance.** By Harold E. Ennes. Howard W. Sams & Co., 4300 West 62nd St., Indianapolis 6. 1963. 256 pp., \$5.95.

Discusses maintenance procedures necessary for satisfactory operation of radio station equipment.

### Advertiser-Agency Relations

Agencies should share in profits stemming from advertising campaigns, Marion Harper, president, Interpublic, proposes—10/22/62, but advertisers don't respond—11/12/62; Realty firm pays agency on basis of sales—9/24/62

ANA and AAAA plan liaison in contract negotiations with talent unions over commercials; ANA to advise, AAAA to do actual negotiating—11/12/62

Fewer accounts change agencies in 1962 than in previous year, but they involve \$85 million in time sales—12/31/62, 7/8/63

Reassessment of agency-client functions urged—1/14/63, better rapport needed—7/22/63; increased services bring decreased agency profits—5/20/63

Agency responsibility to clients and public is theme of WS3A convention—5/27/63

### Advertiser-Broadcaster Relations

Procter & Gamble Co. is top TV advertiser in 1962—5/13/63

Guaranteed circulation asked by Sealtest—10/8/62, and Colgate—3/11/63

Who should control placement and content of broadcast commercials? Broadcasters, says K&E's Lewis—10/29/62, but advertisers don't agree—11/5/62; AAAA panel urges end of network monopoly—11/14/62, and Lever executive wants advertiser control of both programs and commercials—1/21/63; broadcasters urged to cluster ads—11/5/62, 3/25/63, 5/6/63, but idea is strongly opposed—5/13/63, 5/27/63

Auto advertising on TV rises in 1962—10/1/62, 11/2/62, 6/10/63; Chrysler wants special deal—2/25/63

Beer advertising essential—6/3/63; most money goes to TV—7/1/63

Cigarette advertising became a controversial subject when NAB President LeRoy Collins urged amending the NAB codes to ban advertising designed to encourage smoking by young people—11/26/62; this attack on a \$134-million broadcast customer—11/26/62, brings largely negative reaction—12/3/62, 12/10/62; TV code review board passes problem to TV board, as senators approve Collins' stand—12/17/62, tobacco industry attacks it—1/7/63; board defers action—1/21/63; Collins repeats views—1/28/63; controversy continues—4/1/63, 4/15/63, 4/22/63, 4/28/63, 5/6/63, 5/13/63, 6/10/63; cigarette makers drop campus ads—6/24/63; Tobacco Institute guidelines for advertising—7/15/63; Consumers Union joins critics—7/22/63; WCAM Camden, N. J., drops cigarette ads—8/19/63

CBS-TV documentary, "The Teenage Smoker," irks tobacco industry—9/24/62

Coffee TV spending stays level in 1962—8/5/63

Cold remedies heavy TV users—10/1/62  
Candy makers put money into TV—5/20/63

Food advertising on TV rises—10/8/62

Insurance spends more on TV—5/27/63

Liquor advertising cropped up on WAME Ft. Lauderdale—9/3/62, causing a proposal that radio's anti-liquor advertising policy be reviewed by NAB and FCC—9/17/62; ad agency survey brings threat of legislation—1/28/63; Washington state liquor control board censors beer commercials—8/5/63

Petroleum TV advertising goes up, chiefly in spot—8/19/63; Texaco is top TV user—9/10/62

Soft drinks on TV led by Coca-Cola and Pepsi Cola—10/15/62

Toiletries are top TV advertising group—9/17/62, 3/18/63, 6/3/63

Toy maker Mattel backs new juvenile series—2/4/63, 2/11/63

Travel TV ads increase—7/8/63; airlines joining in—4/15/63

WNBC-TV New York offers subscription plan to public affairs sponsors—11/12/62  
Multiproduct spots blocked at KNXT(TV) Los Angeles—7/8/63

Short-term campaigns giving way to 52-week contracts—7/29/63

Presbyterian church uses Stan Freberg jingles—8/26/63

Minority groups worth catering to. Over 5 million Spanish-speaking residents in U.S. with own listening-viewing and product preferences—9/24/62, 2/25/63; New York Spanish market is growing—9/3/62; Spanish-language UHF TV station in Los Angeles has over \$250,000 advance sales—9/24/62

Negro buying habits reported—2/25/63, 8/19/63; New York a growing Negro market—9/3/62; UHF Negro TV stations open in Washington, D. C., and Los Angeles—2/4/63

### Advertiser-Government Relations

Advertising wants to cooperate with government, prefers self-regulation—11/12/62

Drug control bill raises worries—10/15/62  
Top 100 advertisers questioned by House Antitrust & Monopoly Committee—1/28/63

Administration feeling probed at AFA-AAW meeting—2/11/63; AAW pledges support to AFA Washington office—7/1/63

Office of Consumers proposed in Congress—6/10/63

Federal Trade Commission issues new rules on procedures—7/15/63

FTC feels co-op advertising violates anti-trust laws—10/1/62, 10/8/62, 10/22/62, 1/7/63; Justice Dept. disagrees—4/29/63, 5/13/63; FTC softens view—6/3/63; schedules hearing on use of word "free"—4/20/63; investigates toy ads—11/19/62

FTC issues charges against: American Home Products' Outgro—9/17/62, 1/14/63; Hazel Bishop's Rybutol—10/8/62; Continental Wax's Six-Month Floor Wax—12/10/62, 4/15/63, 6/4/63; Hada-col—9/24/62, 12/24/62; Ideal Toy—9/24/62, 10/29/62, 4/8/63; Lever Bros' Pepsodent—10/22/62; Plough's St. Joseph aspirin—3/25/63, 6/3/63; Earl Scheib—6/10/63; Sterling Drug's Bayer aspirin—1/21/63, 2/18/63, 3/18/63, 3/25/63, 5/13/63, 7/29/63; Westinghouse—7/29/63; J. B. Williams' Geritol—13/24/62, 2/4/63; Winston Sales Co.—10/8/62; Coty is fined—7/1/63

Sandpaper shaving decision against Colgate-Palmolive is set by court—11/26/62, but FTC slaps on new restrictions—3/11/63, 5/20/63

Libby-Owens-Ford and General Motors argue method doesn't matter as long as facts not misrepresented—2/4/63; FTC thinks otherwise—8/5/63, 8/26/63

### Advertising Image

Advertising Federation of America and Advertising Association of the West form joint committee to improve public appreciation of role of advertising in a free enterprise economy—1/14/63, 6/24/63

Best way to improve image is by improving substance, NAB president states—2/18/63

Despite critics, public seems unconcerned about advertising—4/29/63

### Agency-Broadcaster Relations

J. Walter Thompson Co. is top buyer of radio-TV for fifth straight year—11/19/62

Agencies are too secretive about clients' ad problems, media men charge—11/26/62

AAAA offers formula to simplify pre-emptible spot calculations—1/14/63

AAAA vetos agency ownership of media—4/29/63

J. Walter Thomson sets up broadcast department to do all timebuying—7/15/63

Leo Burnett establishes search and development program department to find best program buys for clients—8/26/63

Disc-to-cartridge transfer of commercials concern agencies—6/3/63; manufacturers reassure them—6/17/63

Agencies find computers helpful in processing data and pretesting campaigns—9/24/62, 10/8/62, 1/14/63; RKO General finds 16 agencies using automation—7/1/63; Young & Rubicam, one of first—10/1/62, 12/3/62, praises idea—4/8/63; BBDO—10/1/62; Leo Burnett—10/15/62; Simulmatics has media mix system—1/14/63; Broadcast Clearing House adds spot TV to spot radio billing service—12/10/62, gets Guild, Bascom & Bonfigli as first agency client—7/1/63

SIRDS-Data Inc. links computer to teletype for nationwide service to agencies—6/17/63; agencies praise H-R decision to install computer center—6/17/63;

AAAA finds co-op media data bank too costly—1/1/63; agencies urged to tell broadcasters what information they want to feed their computers—4/29/63. More than dozen agencies, with \$555 million in TV billings, get daily proof-of-performance reports—4/15/63

#### Agency-Government Relations

New York agencies fight city rental tax—5/13/63, 5/20/63

#### Allocations

Joseph H. McConnell to head U. S. delegation to international conference on space allocations—8/26/63

Way to get more VHF stations seen—12/10/62; another way—7/8/63

Plan of FCC to drop VHF stations into eight two-station markets not dead but deadlocked—9/17/62, 2/18/63, 2/25/63, 3/4/63, 3/11/63; FCC four-to-three vote against plan—3/18/63, only stimulates argument—3/25/63, 4/1/63, 4/22/63, 5/27/63, 6/3/63, 6/10/63, 7/1/63, 7/8/63, 7/15/63. AMST asks that Commr. Cox, formerly connected with issue, not vote in reconsideration—7/22/63, 8/12/63; ABC says let Cox vote—8/5/63; FCC to hear oral argument—7/29/63, 8/5/63

FCC warns UHF grantees to get stations on air or lose permits—12/10/62, 5/20/63, 7/8/63; plans for 650 new UHF stations—1/21/63; relaxes technical requirements—4/1/63; asks if network programs available for UHF—6/3/63

Joint industry-government committee to help UHF proposed by FCC—2/11/63; named Committee for the Full Development of UHF Broadcasting, it gets support of President—2/25/63, holds organizational meeting—3/15/63; value is debated by FCC Commissioners Ford and Lee—3/25/63; changes name to Committee for Full Development of All Channel Broadcasting—4/8/63; authorizes widespread investigations, after heated wrangling—5/6/63

Mobile radio users ask for UHF channels 14 and 15—10/1/62; broadcasters oppose reallocation of those channels—11/12/62; hearing asked for—12/31/62

FCC's \$2 million experiment with big-city UHF ends with donation of test station—WUHF(TV)—to New York City—10/15/62, which gives it new call—WNYC-TV—11/5/62, but claim that results show UHF the equal of VHF—10/29/62, 11/19/62, are challenged by Association of Maximum Service Telecasters—11/26/62; debate continues—1/7/63, 1/28/63; FCC makes field strength measurements available—2/18/63; AMST insists that big cities need VHF for good TV service—4/8/63

Association for Competitive Television is formed to aid UHF stations—12/17/62

KERO-TV Bakersfield, Cal., asks stay of order deleting ch. 10—10/15/62, but applies for ch. 23—10/22/62, gets authorization to change—11/19/62, starts operating on ch. 23—7/1/63

Clear channel stations ask for higher power—10/15/62, 4/15/63, 4/29/63, but run into opposition from regional stations—11/19/62, 12/3/62, 5/20/63, and FCC, which upholds its decision to duplicate clear channels at night—11/26/62, and turns down congressional request to recall that order—7/1/63, 7/8/63, despite minority view favoring higher power—7/29/63

Regional stations organize to protect interests vs clear channel and local stations 12/3/62; form Association on Broadcast Standards, with Washington headquarters—1/28/63, 2/18/63, 4/8/63, 5/20/63

Daytime stations seeking right to broadcast before sunrise will be handled on case-by-case basis, FCC says—9/3/62; proposes rule permitting them to start at 6 a.m. or sunrise, whichever earlier—12/3/62, 1/7/63; daytimers oppose it—2/4/63, 5/6/63, 6/24/63; regional stations study situation—4/8/63, then oppose daytimers—5/20/63

Daytime Broadcasters Association backs plan for fulltime operation, during emergencies—10/1/62; opens Washington office—2/4/63

FCC tries to settle 21-year-old squabble between WABC New York and KOB Albuquerque by requiring WABC to guarantee protection for KOB on jointly occupied 770 kc—7/8/63; ABC asks stay—7/22/63, which FCC grants—7/29/63

#### Audience

Listener-viewer numbers and behavior continue to hold high interest of advertisers, agencies, broadcasters, Nielsen finds 50 million TV homes, 51 million radio homes in nation—12/17/62, but amount of radio-TV use questioned—1/14/63

Radio finds weekends best to reach men—10/29/62; best listeners have high income—11/12/62; radio regaining public interest—1/21/63; 2/4/63, 87% of fami-

lies in average day—1/28/63; demographic data for city listeners—2/18/63. Television reaches 90% of U. S. homes—11/5/62; audience growth pinpointed—11/26/62; local audience report—11/26/62; viewers more satisfied now—4/1/63; KCRATV Sacramento offers new market concept—12/31/62; Instapoll would give audience reactions at time of broadcast—10/8/62; Daystar Productions launches ANTIGNA to probe public feelings—10/22/62, 2/18/63

#### Broadcast Economics

Broadcasters had a good year in 1962; 1963 looks even better—2/18/63; stations expect larger gross, smaller net—4/15/63, but 1962 profits were better than 1961—7/15/63

Radio-TV employed 89,000 at time of 1960 census—7/22/63; broadcast personnel earn more than any other group except brokerage firm employees—9/3/62, but wage increases are smaller than before—12/3/62; TV station managers' salaries range from \$19,000 to \$39,000—7/8/63

Fewer TV station transfers in 1962 than 1961, but more radio—2/18/63

Radio's net slipped in 1961—12/10/62, but seen up again in 1962—2/18/63; 1963 starts out great—1/28/63; radio spot advertising up in 1962—4/29/63; outlook even rosier—6/3/63

TV time sales hit new high in 1962—2/18/63, 3/4/63, rise again in 1963—6/10/63; spot billings up last year—4/29/63, and this—5/6/63; 6/17/63, 8/12/63; network sales start early—2/25/63

Advertising-per-family on TV varies from market to market—9/3/62

New York and Los Angeles are first two TV markets, with Chicago, Philadelphia and Washington runners-up—2/4/63. Group selling dropped by one rep firm, defended by another—2/18/63

Intermedia competition for the advertiser's dollar intensified. TVB asserts television is surpassing newspapers in circulation—10/29/62; Petry finds spot TV better than Life magazine—12/10/62; ANPA's Bureau of Advertising trades charges with RAB—2/18/63; TV's pace seen lagging, while print media speed up—2/25/63; young adults find TV more truthful than newspapers—6/24/63; newspapers plan new service to agencies—8/26/63

Media audience research standards issued to AAAA—7/15/63; new ways to compare media are offered by ARB—1/14/63, CBS-TV—1/28/63, Simmons—8/5/63. Ability of broadcast media to replace newspapers is tested in long-drawn newspaper strikes in New York, where stations step up news operations—12/17/62, 12/24/62, gain some retail advertising—12/31/62, 1/14/63, weigh gains, losses—4/8/63, and in Cleveland, where bitter weather joins strike in adding to pre-Christmas confusion—12/17/62, but bank promotion succeeds without newspapers—12/24/62, and so does charity drive—2/18/63, and at end broadcasters feel improved image is worth extra expenses—4/15/63. Effects on retail sales debated by TVB and RAB, who find upswings—1/21/63, 2/11/63, and ANPA Bureau of Advertising—2/18/63; Retailer's use of radio-TV during New York strike, assessed by National Retail Merchants Association—4/29/63; Lord & Taylor continues use of radio—4/29/63; New York dailies suffer circulation losses following strike—5/13/63

Special BROADCASTING surveys produce market reports on California's Central Valley—9/17/62; the Heart of America—Iowa, Kansas, Missouri, Nebraska—9/24/62; the Ohio River Valley—3/18/63; the Mid-South—6/17/63

Taxes are always a problem. IRS attempt to clamp down on tax deductible business entertainment and travel expenses swamps bureau with complaints—12/10/62; changes are made—12/31/62, rules explained—1/28/63, 2/4/63; witnesses oppose—4/13/63, rules liberalized—7/8/63

IRS also rules revenue from sale of filmed or taped program is ordinary income—9/3/62, and that payola is not tax deductible—9/10/62

WCFL Chicago claims tax exemption because it is owned by union group—8/26/63

Can network affiliation contracts be depreciated for tax deductions? question reaches U. S. Supreme Court after 9 years argument between IRS and Westinghouse Broadcasting Co.—3/4/63; Corinthian Broadcasting challenges IRS ruling in similar case—4/15/63, 6/24/63; court ruling that WDET-TV can depreciate cost of obtaining license seen as precedent—4/29/63

Tax reforms would hit personal and family corporations, formed for tax pur-

poses—6/3/63, but would mean savings for most taxpayers—8/12/63

Elsewhere, Denver would tax film rentals—2/11/63; California would tax rating reports—3/11/63; Florida would tax advertising on air and in newspapers—5/13/63; Missouri would tax all advertising—3/25/63

#### Broadcasters-Government Relations

A new Communications Act is needed, now, BROADCASTING's publisher tells Southern California Broadcasters Association—10/22/62; sweeping revisions urged by attorneys comprising special committee of Federal Communications Bar Association—1/28/63, whose proposals win enthusiastic response from broadcasters and lawyers—2/11/63; FCBA to study—5/6/63, 7/15/63

Government's news policies, explained by White House News Secretary Pierre Salinger—9/24/62, and State Dept.—10/22/62, lead to charges of "news management" when White House issues "guidelines" for reporting Cuban crisis but denies censorship—10/29/62; news media protest—11/5/62. Congress starts investigation—11/12/62, and NAB's Collins calls for all-media watchdog committee—11/19/62; guidelines are withdrawn—11/26/62; Rep. John E. Moss (D-Cal.) urges news media to act—12/3/62, plans probe—1/14/63, 2/4/63, 3/18/63, leading to postponement of all-media conference with White House on news policies proposed by NAB—12/17/62, set—2/25/63, 3/4/63, then put off—3/18/63; Salinger blames news media for "news management"—3/25/63, as Government information heads defend right to issue inaccurate information in time of public emergency—4/1/63; Salinger denies "news management"—4/22/63; Moss committee (House subcommittee on information) asks Air Force about news restrictions—5/13/63, 5/27/63; demands reply—6/10/63, gets it—6/24/63, but pushes for more satisfactory explanation—7/8/63, 8/5/63, 8/19/63

Code of voluntary emergency censorship, patterned on that of World War II, submitted to news media for comment—5/13/63, is taken up in closed session by House information subcommittee (Moss committee)—5/20/63, 5/27/63, which is told that Pentagon is better equipped to handle news media in short-of-war emergencies than at time of Cuban crisis—6/3/63, and that wartime censorship plans are about ready for publication—6/10/63, 6/24/63; World War II policies told by chief of censorship—8/26/63

News monopoly fears continued to bother legislators. House antitrust subcommittee plans probe of newspaper ownership of radio-TV stations—10/1/62, 10/8/62, 11/26/62, 2/11/63, 3/11/63; hearing starts—3/18/63, 3/25/63, 4/8/63, 6/17/63, 8/5/63

Senate Internal Security Subcommittee investigates policies, practices of Pacifica Foundation, operator of non-commercial, listener-supported stations KPFA (FM) Berkeley, Cal., KPFF (FM) Los Angeles, WBAI (FM) New York; holds up license renewals, subpoenas officers—1/7/63; holds closed hearings—1/14/63; is told KPFF's ex-manager was once a Communist—1/28/63; questions poetry—2/4/63; plans report—2/18/63; releases secret testimony—7/29/63; program policies unchanged—7/29/63, but probe called useful—8/5/63

Small Business Administration issues rules on loans to station owners and applicants—10/22/62; seeks hearings on alleged freeze-out of small businessmen from ranks of TV advertisers—12/10/62, 1/21/63; tries to cut red tape of regulatory agencies—2/18/63

Radio-TV advertising acceptance policies criticized at Senate hearing of exploitation of elderly—1/21/63, 2/4/63, 5/13/63; legislation threatened—1/28/63

Broadcasters told to improve government relations—7/15/63

Wisconsin Broadcasters Association demands documentation of attacks from Sen. William Proxmire (D-Wis.)—6/24/63, 7/8/63

#### Civil Rights

Negro demands for equal treatment in employment and fair portrayal in programs and commercials spread from Madison Ave. to Hollywood. Hollywood Race Relations Bureau protests advertising discrimination—11/5/62, praises Hollywood progress—7/22/63; networks defend employment practices—11/5/62; AFTRA and major elements of advertising-broadcasting-entertainment fields sign non-discrimination pact—6/10/63; National Association for the Advancement of Colored People goes after "lily white" unions of filmdom—7/1/63, 7/8/

## TRENDS, EVENTS

63, 7/15/63, with "Hazel" to be test case—7/22/63; meeting with unions and producers brings progress—7/29/63, also set-backs—8/12/63; present case to Los Angeles agencies, broadcasters—8/19/63; plans meeting with AAAA—8/26/63; Lever Bros. uses Negro in commercial as Congress for Racial Equality starts drive—8/12/63, Colgate and P&G are next—8/26/63

Segregation in ETV feared by NAACP—8/5/63

Broadcasters do comprehensive job covering integration at U. of Mississippi—10/8/62, which FCC plans to investigate—11/26/62; Tuscaloosa mayor commends stations for help in integration at U. of Alabama—6/17/63, but Sen. Thurmond (D-S.C.) charges pro-Negro bias in broadcast reporting—7/1/63; FCC says Negro views must be presented—7/29/63; CBS-TV issues memo calling for Negroes to be "adequately and accurately" shown—8/5/63; civil rights coverage of radio-TV praised and blamed—8/26/63

### Color Television

Color set sales boom as other manufacturers join RCA in promoting them. Motorola announces plans to make color sets 12/10/62; Emerson reports color set sales "practically double" those of previous year—1/28/63; set boom produces shortage of color tubes—3/11/63; Admiral shows color set for \$399.95—5/27/63. Harris Electronics of Bermuda develops new color set—12/31/62. Philco gets patent for color broadcasting-receiving equipment—5/6/63. Phillips has miniature color tube—7/1/63; RCA cuts color set prices—8/26/63.

Color broadcasting also progresses, with WGN's Ward L. Quaal predicting that all programs will be in color within 10 years—10/8/62; NBC-TV spends \$250,000 to improve color facilities—3/25/63; cuts color rates—7/8/63; ABC-TV buys color tape recorders—1/14/63; CBS-TV maintains policy of colorcasting only when advertiser demands color and pays for it—9/17/62, 12/10/62, 2/25/63. Storer TV stations give illusion of color 3/4/63; Peiry reports on color at its stations—7/8/63; General Electric develops system of large screen color which National General will use for closed circuit pay TV in theatres—2/25/63; Baseball colorcasts sell color sets—3/4/63.

### Commercials

TV has too many commercials, agency president asserts—10/22/62; a total of 18 million in 1963, BAR predicts—2/4/63; ANA questions effectiveness—3/11/63; viewers want fewer, shorter, funnier spots—2/18/63; will get more color spots this fall—8/5/63

Radio has too many commercials, Rep. Oren Harris (D-Ark.) charges—5/13/63

Advertising Research Foundation has new method of pre-testing TV commercials—9/24/62; BBDO does it on the air—11/26/62

Public clamor against overloud commercials gets support from Marion Harper, AAAA chairman, who proposes limit set by advertisers themselves—11/19/62, and from FCC Chairman Newton Minow, who starts investigation—11/26/62, which is praised by Sen. Clifford Case (R-N.J.)—12/17/62, 1/28/63; but stalls in confusion whether spots are really too loud or just seem that way—12/24/62; FCC is warned not to get into censorship—1/7/63; NAB asks more time for comments—1/21/63; FCC Commr. Frederick W. Ford urges self-regulation by broadcasters—1/28/63; engineers build machine to check noise level—1/28/63; listeners do own regulating, FCC is told—4/1/63

Piggyback commercials come in for criticism from reps and stations—9/24/62, also networks—11/19/62; KNXT(TV) Los Angeles halts them—7/8/63

TV commercials described in BROADCASTING include Apanel; Mishawaka footwear—3/4/63; Compax knitwear treatment—10/15/62; appliances: Amana refrigerators—9/10/62, Boyesen paints—7/15/63, Revere cookware—4/29/63; automotive: Dodge—11/12/62, Falcon—3/4/63; Renault—7/22/63; beer and wine: Gallo—11/26/62, Guinness—3/4/63, Schaefer—1/28/63, 2/25/63; cleansers: Wisk—8/19/63; coffee: Folger—2/4/63; confections: CandyGram—11/26/62, Chooz—2/25/63; financial: Continental Casualty Co.—8/5/63, Great Western Savings & Loan—3/4/63; foods: Farmhouse Donuts—8/5/63, Gaines dog food—3/4/63, H-O cereals—2/4/63, Millbrook bread—3/25/63, Ralston dog food—3/11/63, Rice Chex—2/4/63, Roman Italian food—10/8/62, Laura Scudder potato chips—3/4/63, 6/24/63, Spatini spaghetti sauce—9/10/62; furnishings:

Cumuloft carpet—3/4/63. Formica and Creslan—1/21/63; gas and oil: California Oil Co.—3/25/63, Humble Oil Co.—10/15/62; soft drinks: 7-Up—6/17/63; toiletries: Artra—6/3/63, Tweed—11/12/62; toys: Kenner Products—11/12/62; travel—Santa Fe—2/18/63; miscellaneous: Council for Financial Aid to Education—11/19/62, Olin Mathieson—3/4/63, New York Times—10/22/62, Pacific Gas & Electric Co.—10/1/62, Standard Packaging Corp.—5/6/63

### Community Antenna TV Systems

Although CATV generally prospered and lots of new people, including broadcasters, entered the field, the FCC's assumption of regulatory power over systems using microwave relays, backed up by the courts, was a bitter blow. The National Community Television Association blames Kenneth Cox, new FCC commissioner, for change—10/15/62; FCC defends him—11/12/62, but appeals court refuses to strike NCTA brief—12/24/62; NAB upholds FCC—11/19/62, and FCC announces rule-making—12/17/62, refuses to protect CATV—1/14/63, which resolves to seek legislation—2/11/63; FCC gets support—2/18/63, 2/25/63; relaxes rules for ETV—4/1/63, but won't accede to CATV wishes—4/29/63, and is upheld in court—5/27/63; CATV operators seek FCC compromise—6/10/63, but find outlook gloomy—6/17/63; ask questions—7/1/63; debate matter with congressman—7/8/63

Meeting with broadcasters is proposed—10/22/62, planned—11/5/62, and held—12/31/62

Connecticut passes law forcing utilities to serve CATV—7/8/63

NCTA threatened by splinter group—8/19/63; NCTA President William Dalton resigns—8/26/63

Austin, Tex., gives CATV franchise—2/4/63, then slaps 21 restrictions on it—2/25/63

### Conelrad

Fate of World War II emergency communications system and its replacement with something more up-to-date was not only discussed but decided, WAVA Arlington, Va., sets up own plan—10/15/62, but broadcasters are reminded that Conelrad is still the official system—10/29/62; broadcasters meet with government—1/21/63, establish industry-wide committee—2/4/63, which studies problem—2/18/63, proposes solution—4/1/63, presents plan to FCC—6/24/63, gets approval—7/8/63, and Conelrad gives way to new Emergency Broadcast System—8/5/63; equipment at stations surveyed—8/19/63

### Conventions

Major meetings of organizations, associations and labor unions associated with broadcasting directly or indirectly, as reported between Sept. 1, 1962, and Aug. 31, 1963. Advertising Association of the West—2/11/63, 7/1/63; Advertising Council—3/18/63; Advertising Federation of America—11/5/62, 2/11/63, 6/24/63; Advertising Research Foundation—9/24/62; Affiliated Advertising Agencies Network—5/20/63; American Association of America—11/5/62, 2/11/63, 6/24/11/5/62, 11/19/62, 4/22/63; American Bar Association—8/19/63; American Broadcasting Co. Radio Affiliates—4/1/63; ABC-TV Affiliates—4/1/63; American Federation of TV & Radio Artists—7/15/63; American Federation of Musicians—6/17/63; American Marketing Assn.—6/24/63; American Women in Radio and Television—5/6/63; Association on Broadcasting Standards—2/18/63, 4/8/63; Association of Cinematograph, TV Allied Technicians (Great Britain)—4/1/63; Association of National Advertisers—11/12/62, 3/11/63, 4/15/63, 5/27/63; Association for Professional Broadcasting Education—4/8/63; Audio Engineering Society—10/22/62

Broadcast Pioneers—4/8/63; Broadcasters Promotion Association—11/5/62; Bureau of Advertising, ANPA—4/29/63; California Medical Association—4/1/63; Canadian Association of Broadcasters—5/13/63; Columbia Broadcasting System Radio Affiliates Association—9/17/62; CBS-TV Affiliated Association—5/13/63; Committee for the Full Development of UHF Broadcasting—3/18/63; Electronic Industries Association—9/17/62, 6/24/63; General Federation of Women's Clubs—6/17/63; Georgia Radio-TV Seminar—10/22/62; Institute for Education by Radio-TV—6/10/63; Institute of Electrical & Electronic Engineers—4/1/63

Magazine Publishers Association—4/1/63; National Association of Broadcasters Public Service Institute—2/11/63; NAB Conference of State Association Presi-

dents—3/4/63; NAB annual convention—exhibitors, technical papers—3/25/63; full report—4/8/63; regional meetings—10/22/62, 10/29/62, 11/11/62, 11/18/62, 11/25/62; National Association of FM Broadcasters—4/8/63; National Association of Music Merchants—7/29/63; National Association of Program Directors—6/17/63; National Association of TV & Radio Farm Directors—11/26/62, 12/3/62; National Broadcast Editorial Conference—8/5/63; National Community TV Association—6/17/63; National Council of Churches—6/17/63; Radio-TV News Directors Association—9/24/62; Sigma Delta Chi—11/19/62; Society of Motion Picture & Television Engineers—11/5/62, 4/22/63; TV Advertising Representatives management meeting—1/28/63; TV Information Office—3/25/63; Tobacco Institute—7/1/63; Tri-State TV Translator Association—6/17/63; Western Radio & TV Association—3/4/63; Western States Advertising Agencies Association—5/20/63; Women's Advertising Clubs Eastern Conference—11/5/62

### Copyright

In hopes of changes in copyright law in near future, Congress extends to Dec. 31, 1965, all copyrights expiring before then—9/24/62; experts work on revision proposals—1/21/63

American Society of Composers, Authors & Publishers had gross revenues of \$35 million in 1962—2/25/63, more than \$30 million from radio-TV—3/18/63; considers charging educational stations for music use—11/5/62; wins default judgment against KREB Shreveport, La.—12/3/62; sues eight Washington stations—1/21/63; members sue International Good Music—4/8/63; surveys station's use of music—7/22/63; wins indictment from WJOR South Haven, Mich.—8/12/63; changes royalty distribution pattern—8/19/63

Battle of All-Industry TV Station Music License Committee for clearance at source licenses meets adverse ruling from U. S. District Court—10/17/62; delinquent stations told to pay ASCAP or lose licenses—10/15/62; TV stations take case to Supreme Court—12/3/62, which refuses to hear it—1/21/63; TV committee turns to court of appeals—4/8/63, 4/15/63, and again is rebuffed—5/13/63; prepares new litigation—6/10/63; goes back to Supreme Court—8/19/63 and wins review 10/28/63

All-Industry Radio Music License Committee prepares for its next negotiations with ASCAP, BMI and SESAC—2/25/63

SESAC is accused of unfair tactics by WQIZ St. George, S. C.—7/22/63

### Editorializing

Whether and how stations should editorialize continued a hot issue; broadcasters told to consider carefully—11/12/62; objectivity an issue—12/3/62; 66% of TV subscribers editorialize—3/25/63; Rep Harris (D-Ark.) calls it important—6/3/63; hearings called step toward program control—6/20/63; NAB wants no new rules—6/17/63; Georgia Conference endorses editorial freedom—8/5/63; use right or lose it, KFMB's George Whitney warns—8/26/63

Equal time conflict makes it even hotter: House bill requiring stations editorially supporting one candidate to give time to his opponents—6/24/63; launches probe—7/1/63, 7/8/63, 7/15/63, 7/22/63; which RTNDA president calls dangerous move toward government control—8/5/63; Georgia conference explores subject—7/29/63; congressmen give editorializing lukewarm praise—8/5/63, strong defense—8/12/63; fairness doctrine does not mean giving time to all sides of controversial issues—8/5/63 or does it?—8/26/63

Editorializing means loss of tax exemption for non-commercial stations—1/21/63

WBMM Chicago editorial gets action—9/10/62; so does that of WLOS-TV Asheville—12/17/62

### Educational Television

Money to support their day-by-day operations continued to be major problem of educational TV stations. Educational TV Act funds limited—10/8/62; Congress delays action—10/8/62; Senate and House cut amount—10/1/62, wrangle over how much—10/22/62; Senate appropriations subcommittee would eliminate ETV funds—4/29/63, again Senate and House differ on how much to grant—8/12/63; after approving federal-state fund matching program of \$1.5 million—5/20/63; NAACP fears fund would extend segregation to ETV—8/5/63

Rural Electrification Administration can

finance closed-circuit ETV systems—10/15/62

Ford Foundation gives over \$100 million to ETV—10/2/62; CBS president asks commercial broadcasters to help ETV get established—5/13/63; in Birmingham, WAPI-TV gives \$17,000 to ETV—10/15/62; KQED(TV), San Francisco ETV gets more than it spends—12/10/62; in New York, new WNDT(TV)—9/10/62, gets gifts to help tide it over—4/15/63, internal emergencies—4/22/63, but FCC looks at NBC's \$100,000 gift—5/6/63, 5/20/63, before clearing it—6/3/63; CBS gives \$100,000 to WNDT—5/6/63, and another \$100,000 to WUHY-TV Philadelphia—6/3/63, which also got studios from WPIL—5/6/63; Metro-media gives \$250,000 to Los Angeles ETV group—7/15/63, and CBS matches it—8/26/63

Ohio Educational TV Network Commission asks for 29 UHF channels for statewide ETV system—12/24/62; Nebraska plans six-station system—1/14/63; New York wants 17 channels—3/4/63; FCC changes KFOR-TV Provo, Utah, from commercial to ETV—10/1/62; airborne ETV system asks for six channels—1/21/63; AMST opposes grant—2/25/63

National Education Association urges TV be used for adult education as well as in-school—12/10/62

How commercial can ETV get? Guidelines drafted—12/17/62; Georgia broadcasters protest use of feature films on ETV in prime time—5/6/63, 8/12/63, 8/19/63; ETV stations selling VTR service charged with unfair competition—5/13/63

FCC examiner favors ETV over commercial applicant in Wilmington, Del., ch. 12 hearing—10/1/62

FCC considers mandate that ETV stations carry political broadcasts—9/24/62; proposes relaxed technical standards for ETV—12/17/62

#### Equal Time

With another national election in 1964, Sec. 315 of Communications Act (calling for equal opportunity of radio-TV time for all competing candidates) concerns Congress, FCC and broadcasters. Repeat urged by Sen. Vance Hartke (D-Ind.)—9/24/62, 3/4/63, and FCC Comr. Fred Ford—11/12/62; and Idaho broadcasters—7/22/63; FCC studies 1962 record—1/21/63; Sen. John Pastore (D-R.I.) wants amendment—1/21/63; House Communications subcommittee hearing—2/25/63, 3/4/63, 3/11/63, 3/25/63; bill to suspend requirements for nominees for President and Vice President—2/18/63, 4/15/63, 5/27/63, 6/10/63, 6/17/63, wins House approval—6/24/63, goes to Senate—7/1/63, 7/8/63, 7/29/63, 8/5/63, 8/12/63, 8/26/63

FCC edict on equal time—11/15/62, disliked by Rep. Oren Harris (D-Ark.)—3/11/63; but FCC says law requires it—5/13/63; free time requirement pondered—8/12/63

Political editorials raise equal time problems—7/29/63, 8/26/63

Meanwhile, equal time issues rise in Detroit—10/22/62; Chicago—10/23/62, 11/12/62; California—10/29/62; Congress—4/1/63; Gary, Ind.—4/15/63, 4/22/63, 4/29/63, 5/6/63; Kentucky—5/6/63, 5/27/63

#### Equipment

Radio-TV set sales rise—2/18/63; NAB exhibits show technical advances—4/8/63, produce sales—4/15/63

AM-FM equipment sales hit by freeze on new stations—1/14/63; Miniaturization comes to TV sets—10/29/62, and TV tape recorders—10/29/62, 7/22/63, 4/8/63; Electronic readout device helps quiz shows—12/31/62; new cordless mike developed—projectola aids film editing—8/12/63

All but two Armstrong patent suits settled—4/15/63

Gates sells CBS \$500,000 in audio gear—5/13/63

General Electric goes after more broadcast equipment business—5/13/63

Teleprompter Corp. sells three operating divisions 8/19/63

#### Ex Parte

Since early in 1958, when the House Legislative Oversight Committee first uncovered off-the-record contacts between applicants and individual FCC commissioners which allegedly affected their vote on station grants, arguments over those grants before the FCC and in court have gone on. They end for some, continue for others:

Miami ch. 7—10/8/62, 11/19/62, 11/26/62, 3/25/63, 4/8/63, 8/12/63

Miami ch. 7—10/8/62, 11/19/62, 11/26/62, case ends—12/10/62; FCC approves transfer—12/24/62, but new licensee gets competitive bid—6/17/63

Orlando ch. 9—10/29/62, 1/7/63, 1/14/63, 1/21/63, 2/25/63, 7/8/63, 7/29/63

Jacksonville ch. 12—2/18/63

Boston ch. 5—9/24/62, 10/1/62, 11/19/62, 12/24/62, 3/18/63, 4/1/63, 7/15/63

Spartanburg, S. C., ch. 7—12/3/62, 12/24/62, 2/25/63, 7/1/63

#### Federal Communications Commission

Budget goes to Senate-FCC conference—9/10/62, FCC gets \$14,427,000 for fiscal 1963, 10/1/62, asks \$16.5 million for fiscal 1964—1/21/63

FCC commissioners would get salaries raised from present \$20,000 a year to \$25,000, chairman from \$25,000 to \$40,000, under plan proposed by special advisory panel on federal salary systems—8/19/63

FCC Chairman Newton Minow, whose yearend report calls 1962 a year in which FCC clamped down on stations—12/31/62, privately tells plan to resign—2/11/63, publicly announces it—5/20/63; recommends mandatory NAB membership for stations—4/8/63, urges single administrator for FCC

Despite urging to name a qualified broadcaster, President Kennedy appoints Lee Loevinger, Dept. of Justice antitrust expert to fill remainder of Minow term on FCC—5/20/63; Senate confirms him—6/10/63; public should decide what it wants to see, he believes—8/26/63

E. William Henry, Memphis attorney, named to FCC—9/3/62, expresses views—9/10/62, 9/24/62, gets Senate confirmation—10/1/62, to succeed John S. Cross, who admits surprise—9/3/62, answers questions about FCC—10/1/62; Henry conducts Omaha hearing—2/4/63, 2/11/63; expresses views like Minow's only more so—12/17/62, 5/13/63, succeeds him as chairman—5/20/63, echoes proposal for FCC reorganization—6/10/63, meets with AAAA broadcast committee for off-record discussion—8/12/63

T.A.M. Craven, retiring from FCC—12/3/62, is honored by engineers—9/17/62, colleagues—1/28/63

Kenneth A. Cox, chief of FCC Broadcast Bureau, is appointed to Craven-vacated seat on FCC—12/17/62; Senate confirms—3/18/63; he takes oath—4/1/63

Move to make commercial time limits set by NAB codes part of FCC rules starts running battle with broadcasters beginning—9/17/62, as Commr. Robert E. Lee formally proposes plan—9/24/62, 10/29/62, 11/5/62, 11/12/62, rejected by one vote—11/26/62, reintroduction promised—12/3/62, new push indicated—3/18/63; FCC reverses itself and orders rule-making on how limits should be applied—4/1/63; NAB plans court appeal—4/8/63, 4/15/63, 4/22/63, 4/29/63, 5/6/63, 5/13/63; FCC issues rule-making proposal—5/20/63; advertising forces join broadcasters in opposition—5/27/63, 6/17/63; more time for comments given—6/24/63; all-out battle brews—7/1/63, 7/15/63, 7/22/63, 7/29/63, 8/5/63, 8/19/63

Tackling radio's "overpopulation" problem—FCC slaps sudden freeze on AM grants—10/15/62, gets protests—11/19/62, meets with NAB—1/14/63, plans full hearing—4/8/63, issues proposed standards—5/20/63; after appeals court hears argument—6/3/63, and orders FCC to show cause for freeze—6/10/63, FCC complies—6/17/63; freeze extended to FM—12/24/62 (See FM), is ended—7/29/63

FCC investigation of TV community service, begun with Chicago, will continue in Omaha—11/26/62, where stations prepare—12/3/62, and organizations get invitations to appear—12/10/62; NAB asks to intervene—12/17/62, but is rejected—12/24/62; Nebraska stations protest—1/21/63; so do state legislature and others—1/28/63, 2/4/63; public liking of TV service in Omaha not enough, Commr. Henry says—2/4/63; stations testify—2/11/63; aftermath—2/25/63, 3/18/63, 3/25/63, 5/6/63, 6/24/63

Staff insistence on local public service programming in prime time, in letters to TV stations at renewal time, causes protest—12/17/62, but continues—2/4/63, until FCC calls a halt—3/18/63, then reverses itself by deferring renewal of licenses of six New England stations—4/1/63, 4/22/63, who are questioned about local live shows—5/27/63; new Broadcast Bureau chief endorses idea—4/29/63, and letter writing goes on—6/10/63, 7/29/63

Phileo attempt to get WPTZ(TV) Philadelphia back via license revocation of NBC's WRCA-AM-TV Philadelphia continues before FCC—9/3/62, 9/10/62, 9/17/62; Justice Dept. orders NBC to get rid of station now—9/24/62, temporary swap with RKO General proposed—10/29/62, but FCC says no—11/12/62, NBC gets 18-month extension—11/26/62;

NBC-Phileo hearing resumes—10/22/62, with Westinghouse testimony NBC forced 1954 station swap—10/29/62, 11/5/62, 11/12/62, 11/19/62, 12/17/62, which NBC denies—12/24/62; Phileo seeks to withdraw after patent suit settlement with RCA—1/7/63, 1/14/63, 1/21/63, 2/4/63, 2/11/63, but FCC denies approval—3/18/63, so Phileo resumes fight—3/25/63, 4/15/63, 4/29/63, 5/6/63, 5/13/63, 5/20/63; FCC is flooded with advice on how to decide the case—7/29/63

Peers for licenses proposed—3/25/63, prepared—4/1/63, ordered—5/13/63, questioned—5/27/63, protested—6/17/63

New financial report forms—12/24/62; questions on payment to family rouse complaints of prying—6/17/63

Requirement that all company officers sign applications is protested—10/1/62, dropped—11/26/62

Proposal that stations be required to keep applications on file for public inspection—12/31/62, rouses opposition—1/21/63, 2/11/63

Proposed change in requirements for on-duty operators meets mixed reaction—10/15/62, NABET asks reconsideration—7/29/63, effective date postponed—8/5/63

Incursions into programming regulation bring charges of censorship, some alarm, much discussion—9/10/62, 10/15/62, 10/22/62, 12/3/62, 2/11/63, 5/13/63, 6/3/63, 6/17/63, 6/24/63, 8/26/63

Citizens councils, to advise stations on program policies, proposed by Columbia Law School professor—9/17/62, 9/24/62; FCC chairman wants citizens advisory board to make annual report to FCC—1/28/63

Option time agreement between networks and stations are outlawed—6/3/63; ruling is commended—6/17/63, questioned—7/1/63; reconsideration is asked—7/8/63, opposed—7/22/63

Network study report indicts program practices—12/3/62, advocates limits on network program ownership, ban on syndication by networks—12/17/62, other restrictions—6/3/63, including network licensing by FCC—6/17/63

Multiple ownership rule changes are considered. Proposal to tighten restrictions on overlap—9/17/62, draws criticism—10/29/62; move to force owner of maximum number of stations to sell one before applying for another—2/18/63, opposed by NAB, networks—5/27/63, also Storer—6/10/63; Commr. Lee would let single entity own 5 VHF, 5 UHF stations—3/25/63, but majority of FCC favors reducing number now allowed—8/5/63

Concerned over conviction of General Electric Co. for antitrust violations, FCC delays renewal of licenses for WGY, WGFM(FM) and WRGB(TV) Schenectady, N. Y.—1/7/63, 1/21/63; General Electric Broadcasting Co. formed to operate stations—3/18/63

Right of FCC to require applicant to survey program needs of community upheld by Supreme Court—10/15/62; losing applicants for Moline, Ill., ch. 8 attack grant to Moline TV Corp. claiming lack of survey—2/18/63; court upholds grant—4/22/63

Indianapolis ch. 13 awarded to Crosley Broadcasting Co.—9/17/62; agreement with WBTC approved—10/15/62

KATV(TV) Little Rock, rebuked by FCC hearing examiner—6/10/63, charges him with bias—7/29/63

Wilmington, Del. ch. 13 grant to ETV group recommended by hearing examiner—10/1/62; rival applicant withdraws with blast over "meaningless" hearing—11/19/62; grant made final—12/31/62

WTTV(TV) Bloomington, Ind., loses long fight to move to Indianapolis when FCC refuses to give that city fourth commercial TV station—10/15/62; WTTV asks reconsideration, stating it can't "survive economically" in Bloomington—11/19/62

Protests of FCC's five-year-old shift of ch. 2 from Springfield, Ill., to Terre Haute, Ind., get to appeals court—11/19/62, 4/22/63, which upholds move but orders acceptance of new application—7/1/63; rehearing asked—7/22/63

Syracuse, N. Y., ch. 9 is awarded to Onondaga Broadcasting Inc., one of nine remaining applicants for channel dropped in 1961—2/11/63; rivals appeal—4/8/63, 4/22/63—FCC denies appeal—6/10/63

St. Louis ch. 11 grant to CBS is reaffirmed by FCC—9/17/62

Combination advertising rates illegal, FCC warns stations—2/4/63; sale of WVIP Mt. Kisco, N. Y., falls through when purchaser, semi-weekly newspaper, refuses to promise not to use them—7/15/63

St. Petersburg, Fla., ch. 10 grant to WTSP-TV Inc. protested on program juggling charges—12/17/62, 12/24/62;

## TRENDS, EVENTS

Country and Western music, big business built by radio, a special BROADCASTING report—1/28/63

Defense Dept. briefs producers on new policies for use of military personnel in programs—8/19/63

Block-booking of TV films goes to Supreme Court—10/8/62, 10/22/62, which finds practice illegal—11/12/62

Children's program study, long planned by Dept. of Health, Education & Welfare, gets lots of talk, little action—10/15/62, 12/10/62, 8/5/63

Educators to advise NBC-TV on *Exploring*—9/24/63

Advertisers sign up for ABC-TV's *Discovery*—10/8/62

Westinghouse Broadcasting Co. plans *Legacy of Light* series—10/22/62

Program tastes of audience surveyed by KXYZ-AM-FM Houston—2/18/63, and KIBT Denver—7/15/63

MCA signs consent decree, ending long antitrust action and clearing way for purchase of Decca Records and Universal Pictures—9/24/62; government abandons idea of criminal action—10/22/62, but whether MCA vice president Taft Schreiber will have to answer FCC questions is still not decided—2/11/63

Investigation of crime and violence on TV by Senate Juvenile Delinquency Committee headed by Sen. Thomas J. Dodd (D-Conn.) plans resumption—9/10/62; completes report of year-long probe—11/19/62, revises it—12/24/62; committee gets copies—1/14/63, but further release delayed—1/21/63, even to Senate, which approves committee request for more funds—3/25/63, as staff director calls TV "potential threat" to children—4/8/63; report is completed—5/6/63, but not released—6/3/63, 6/24/63, although 4,000 copies printed—8/12/63

Bill prohibiting broadcasting of sex, violence and obscenity in District of Columbia—3/10/62, passed by Congress—10/5/62, vetoed by President—10/22/62, reintroduced—8/12/63, passed by House—8/19/63

Political campaign opens with GOP pitch for five-minute segments of prime time network shows—9/10/62, which networks reject—9/17/62; Senate Watchdog Committee monitors political broadcasts—10/8/62; FCC issues political primer—10/15/62, which WMCA New York cites to explain refusal to let Socialist Labor candidate appear alone on interview program—10/22/62; candidate's use of taped voice of opponent is refused by two stations—11/5/62; Richard Nixon, candidate for governor of California, calls TV essential part of political campaigning—11/5/62, praises fairness of air media—11/12/62; political business worth \$20 million to radio and TV—6/10/63, 6/17/63; government urged to help pay campaign costs—9/10/62, 7/13/63

National Council of Churches asks tighter FCC control over programming—6/17/63; broadcasters protest—7/29/63; council backtracks—7/1/63

Blacklisting still goes on, entertainer asserts—1/7/63; John Henry Faulk, awarded \$3.5 million for blacklist damages, gets first job in radio in five years—10/22/62, leaves it—4/15/63, as motion picture of his experiences is planned—6/3/63, and award verdict is appealed—8/5/63

Desi Arnaz sells interest in Desilu Productions to Lucille Ball, who becomes president—11/12/62; write-offs produce loss for year—7/29/63, but outlook fine for year ahead, stockholders hear—8/26/63

Four Star profits increase—10/8/62; Dick Powell, made board chairman, 10/22/62, succumbs to cancer—10/1/62, 10/22/62, 12/17/62, 1/7/63; Tom McDermott becomes president—10/22/62; Robert Taylor gets stock for his interest in *The Detectives*—2/4/63; new Taylor series canceled by NBC-TV—7/22/63

Screen Gems has record income—11/12/62

Public affairs programming wins support from viewers, advertisers—12/24/62

Howard K. Smith's "Political Obituary of Richard M. Nixon" on his ABC-TV *News and Comment* broadcast of Nov. 11 and especially the inclusion of Alger Hiss on the documentary evokes an immediate protest, including requests of Schick Safety Razor Co. and Kemper Insurance to cancel their ABC-TV contracts—11/19/62; ABC-TV supported by American Civil Liberties Union and FCC—11/26/62, 12/17/62; ABC sues Kemper for breach of contract—1/11/63; Kemper files counter suit—5/27/63; FCC finds Triangle stations within rights when they refused to broadcast the program—2/25/63; Smith defends use of Hiss—4/1/63

## Radio Advertising Bureau

New strategy seen as Edmund Bunker succeeds Kevin Sweeney as RAB president—2/18/63; in first major speech he attacks TV as inferior to radio on many counts—4/1/63

Stations asked to submit monthly billings statements, so advertisers may have radio data comparable to other media—4/8/63

Breaking with NAB on ratings procedures—5/20/63, RAB holds exploratory talks on methods with Advertising Research Foundation—4/29/63, retains Audits & Surveys Co. to conduct \$200,000 study—6/10/63, 6/17/63, names Alfred N. Watson director of advanced research—7/29/63; Ex-president Sweeney lambasts project—8/5/63

## Ratings

Audience measurements become major issue. FTC investigation—10/8/62, brings admissions of shortcomings from rating services—1/7/63, questions from BBDO—1/14/63, 1/21/63, hearings from House subcommittee—2/18/63 to 6/24/63, interim report—8/12/63; proposed reforms—4/1/63, 4/22/63, 4/29/63; NAB and RAB differ—5/13/63, 5/20/63; RAB plans own study—5/20/63, 6/10/63, wins agency endorsement—8/19/63; NAB sets up advisory council—5/27/63, 6/10/63, 7/15/63, 7/29/63, 8/26/63, in which ANA and AAAA decline direct membership but will observe—5/27/63, 7/8/63, 8/19/63; FCC and FTC promise strict surveillance—6/17/63, 6/24/63, 7/15/63; agencies want ARF to join ratings audit—6/17/63; are urged to help clean up ratings—6/24/63; plan to go on using them—7/15/63; tell how—8/19/63

Florida bill to license raters is passed—7/1/63, but vetoed—7/25/63

ARF doubles sample size—4/15/63; voids Green Bay survey—6/3/63

Nielsen is dropped by Triangle—4/8/63, Cowles—4/15/63, CBS-owned TV stations—4/22/63, as rival charge attempted domination of ratings field—4/15/63, and FTC proposes that Nielsen drop half its clients—5/6/63; Nielsen discontinues local radio ratings—7/1/63, plans changes in television index—7/15/63, is asked to certify Denver survey—7/29/63

Nielsen and Pulse, sued by WAME Miami—5/6/63, seek dismissal—6/3/63, 9/5/63, Pulse gets it—8/12/63; Nielsen asks for trial in federal court—6/17/63

Pulse procedures are questioned by stations in Tucson—7/1/63, 8/12/63, and Nevada—8/12/63; uses double sample for Blair study—7/29/63; modifies methods—8/12/63

## Space Communications

U. S. prepares for international conference 9/3/62, 6/24/63

President signs U. S. Communications Corp. bill—9/3/62, names incorporators—10/8/62, who lay plans—10/15/62, 10/22/62, 11/19/62, 12/24/62, 3/4/63; Senate ponders problem—2/25/63, 3/18/63, 3/25/63, 4/22/63; confirms appointees—4/29/63; RCA's Sarnoff asks for Comsat monopoly—6/3/63, IT&T's Geneen opposes idea—7/8/63; FCC urges more speed—8/5/63, while Comsat complains of interference—8/12/63; Congress wants fill-in—8/19/63

Meanwhile, Telstar relays AFRS sports-cast—9/10/62, adds color—9/11/62, fades out—2/3/63, comes back—1/7/63, 1/14/63, and fails again—3/4/63; Telstar II takes over—5/6/63, 5/13/63, stops service—7/22/63

Relay is planned—9/10/62, goes into orbit lamely—12/17/62, comes back strong—1/7/63, 1/14/63

Syncom gets ready—9/24/62, 2/4/63, goes up but doesn't work—2/18/63; Syncom II is success—7/29/63, 8/12/63

Echo celebrates third birthday as new passive reflector satellite is prepared for U. S.-Soviet cooperation—8/19/63

Government drops idea of censoring space communications—9/3/62

NAB president tells broadcasters to prepare for global responsibilities—9/24/62, so does FCC chairman—10/1/62; ITU official urges single system, UN-controlled—10/15/62

Direct space-to-home TV is possible—11/12/62, desirable—4/29/63, sure to come—7/8/63

FCC adds Office of Space Communications—9/24/62

## Sports

Big sports are big business. Football rights top \$14 million in 1962—9/3/62, and again in 1963—8/19/63; baseball's total is over \$16 million—3/4/63; NBC-TV pays \$926,000 for NFL playoff—4/29/63; ABC-TV's 40 AFL games get nine sponsors—8/5/63

Telstar takes live radio sportcasts to fans overseas—9/10/62, but TV is blacked out where local teams are playing, as

court upholds practice—12/31/62, and stronger law is proposed—7/8/63, despite station protests—7/15/63, 8/12/63, 8/19/63

NFL bars closed circuit theatre telecast of championship game—12/17/62, but Los Angeles Dodgers and San Francisco plan to put their games on pay-TV—8/26/63

Fans sponsor basketball broadcasts themselves—12/31/62; tax collectors freeze receipts of Patterson-Liston fight—10/1/62; special hookups of over 100 TV stations for golf matches—1/28/63

## Success Stories

Reports of successful advertising on radio: automotive; Dodge—11/12/62; Los Angeles Pontiac Dealers—5/6/63; Plymouth—2/18/63; Impact auto belts—10/15/62; Chevron gas & oil—11/12/62; Wilshire gas & oil—12/3/62; financial; Capitol Federal Savings—9/24/62; Equitable Life—2/18/63; Seaboard Finance—12/3/62; food; California Avocado Advisory Council—11/5/62; Golden Indian bread—10/8/62; Gordon Bread—12/3/62, 5/6/63; Johnston Frozen Pies—5/6/63; Patty Cake Cookies—5/6/63; Salada Tea—11/26/62, 2/18/63; V-8—2/18/63; garden; Bandini fertilizer—5/6/63; household appliances; Culligan water softener—5/6/63; Gaffers & Sattler—5/6/63; 6/3/63; paints; Fuller paints—12/3/62; Dove paints—12/10/62; travel—Delta Air Lines—2/18/63; Eastern Air Lines—7/29/63

Television: Auto; Dodge—11/12/62; Smart & Perry Ford City—7/29/63; cigarettes; Lorillard—3/18/63; cleansers; Ajax—9/24/62; department stores—Holmes—2/18/63; financial; Capitol Federal Savings—9/24/62; First National City Bank 1/21/63; Nationwide Insurance Co.—9/17/62; food; Downyflake—9/24/62; Ward—12/17/62; Pegnataro's—11/5/62; furnishings; Myers—7/29/63; household appliances; Sunbeam—12/24/62; Swingline—2/11/63; office supplies; Waterman-Bic—2/18/63; Xerox—2/18/63; paints; Martin—8/12/63; real estate; Inter-City Real Estate Referral Service—12/24/62; toiletries; Alberto-Culver—12/17/62, 1/25/63, 6/24/63, 7/29/63; Brylcreem—2/18/63; Colgate-Palmolive—1/17/63; Lysol—7/22/63; toys; Lakeside—10/8/62; travel; Santa Fe—2/18/63; miscellaneous; AMP Pinstoppers—2/18/63; Formica—2/18/63

## Television Bureau of Advertising

TV can bring manufacturers closer to public, TVB says—11/19/62; TVB starts producing commercials—3/11/62

## Translators

By pushing TV signals into remote communities translators bring programs to millions of viewers, sometimes in competition with CATV dependent on FCC decisions, BROADCASTING special report shows—10/8/62

Should UHF and VHF translators operate in same area? FCC to study—11/26/62

Translator operators ask review of rules 6/17/63

## U. S. Information Agency

Stepped-up activity is reported to Congress—9/10/62, with requests for funds for expanded Asian operations—9/24/62; Congress grants \$146.7 million for 1963—10/15/62; House Appropriations Committee votes USIA \$163.5 million for 1964—6/17/63

Voice of America gets help from 10 commercial radio stations in saturating Cuba with news of U. S. quarantine—10/29/62; stations get praise for public service, blame for interfering with other stations—11/5/62; they are demobilized—11/12/62, 11/19/62, and thanked by President—12/3/62, 12/10/62; reimbursement discussed—11/26/62, 12/10/62, 2/11/63, as rest of crisis hook-up is disbanded—12/17/62

Long range planning is recommended for USIA—1/28/63, which is criticized for broadcasting attacks on government by Rev. McIntire—4/22/63, and allowing materials designed for foreign listeners—5/20/63

## Video Tape

Animation process developed by Videotape Productions—11/19/63, is used for H-O commercials—2/4/63

Ampex introduces new system for automatic tape editing and animation—4/8/63

Machronics denies pirating Ampex trade secrets—9/3/62; develops 60-pound recorder with ABC engineers—7/22/63

MGM Telestudios introduces "Gemini" tape-film system—1/14/63

Revision of TV tape import duties asked by Spanish International Network—3/11/63

British low-cost TV tape recorder for home use to be available in U. S. in 1964—8/5/63

# TOP ADVERTISING AGENCIES

Since 1952, the editors of BROADCASTING—*The Business-weekly of Television and Radio*, have compiled the broadcast billings records of the advertising agencies doing the most business in radio and TV. On this page and the following is the historical record for the past two years. Earlier figures are in appropriate BROADCASTING yearbooks.

Results of the 12th annual survey, including profiles of the first 50 agencies for 1963, appeared in BROADCASTING November 18th issue.

## 1962 (in millions)

Rank	Agency	Combined Radio-TV	Radio Only	TV Only

**“PORTRAIT  
OF A MAN”**

*by Diego Velasquez is a famous character study of a Spanish nobleman in the court of Philip IV. Notable features are its fluid technique and soft pictorial style.*

*in a class by itself*

Masterpiece — *exceptional skill, far-reaching values.* This is the quality of WWJ radio-television service—in entertainment, news, sports, information, and public affairs programming. The results are impressive—in audience loyalty and community stature, and in sales impact for the advertiser on WWJ Radio and Television.
