## How to get a bigger audience no matter where your station is located

Many TV Stations Have Done It With JFD Operation G-O ... Your Own Station Can, Too.

JFD has a three-barrelled program that can improve reception of your signal and increase your share of the market: JFD Operation G-O.

JFD Operation G-O combines available air time with massive TV dealer and distributor advertising and merchandising support that ...

1. BRINGS in your channel sharp and clear—in natural color, or crisp black and white—through improved TV antenna installations.
2. CAPTURES a larger, more loyal viewing audience for your station.
3. PROMOTES a valuable, closer relationship between your station and the TV service-dealers and installers in your markets.

**Your cost ... absolutely zero.**

And JFD can help you do it, as it has helped many other TV stations. Write or phone for complete Operation G-O details.

# To reach more young women at lowest program cost...

(See our doctor)

In Boston, for instance, Dr. Kildare delivers more young women per program dollar invested than its Merv Griffin competition.

Why? Because Dr. Kildare concentrates on the 18-34 women while the Griffin show draws its strength from the older group of daytime viewers. (This older audience bias appears common to both Griffin and Douglas

daytime strips, just as Dr. Kildare consistently attracts more young women viewers.)

Compare the cost. Compare the audience. Dr. Kildare can be your station's most effective daytime program buy.

Ask the man from MGM-TV for the facts.

# The Norelco "Little Shaver" does everything its big brother, the PC-70, can do ...and gets around a lot more.

This is the new Norelco PCP-70 Portable Color Television Camera. We call it the "Little Shaver" for short.

Like its big brother, the PC-70, which is used on the majority of top network live

and taped shows, it employs the exclusive Norelco 3-Plumbicon\* tube system that provides the truest color, highest resolution and maximum sensitivity available today.

The "Little Shaver" goes where the action is.

Sports. News and documentaries. Political events . . . just about anywhere a man can go.

The "Little Shaver" is fully compatible with the camera control unit of the PC-70 studio camera. Thus, present PC-70 owners have an even greater advantage in that they can have the versatility of the PCP-70 with

no further expense for control equipment.

Instantly accepted by all the major networks, the Norelco PCP-70 is the portable that gives you the

world's best color television picture.

If you want faithful color reproduction in a port-

able camera, you want the "Little Shaver." For a live demonstration and technical data, call or write our representative, Visual Electronics.

\*Registered trade mark for television camera tubes.

show your  
local news  
minutes after  
it happens...  
in **COLOR!**

You can do it easily...with a  
**TREISE COLOR PROCESSOR!**

Now that big things are happening in network color, the logical next step for your station is to film your local news in color. You'll gain added interest from your community . . . enhance your value to advertisers . . . and brighten your profit picture. Treise makes it possible by offering you a fully automatic, professional quality processor that will have your local news "on the air" in color within minutes after the exposed film is loaded in the processor. This compact, self-contained unit can be operated in a 17' x 9' area, requires only simple plumbing and electric plug-in, and is so foolproof, anyone can run it!

**Check these features:** Warms up in only 20 minutes (instead of the usual 2 to 3 hours) • stays on temperature automatically • only processor in its price range that meets or exceeds all Kodak color requirements • even provides 50% additional first-developer time to permit full utilization of new EF Ektachrome film • operates up to 40 fpm (the ideal speed for most TV station needs). Want more data?

*Write for free catalogs on Model MTV-30 (illus) and Model MT-20 (up to 70 fpm), plus our full line of color and B&W processors and accessories.*

## STATUS SYMBOLS

Your name on the door—and carpet on the floor, are two important first steps.

But even more important—not just for status, but for honest-to-goodness practical application—is a copy of the 2-volume-in-1, Linen-Bound Executive Edition of Television Factbook.

Containing both volumes of our Factbook, it is designed for even easier reference, and to stand years of hard use. What's more, we'll personalize your book (either your name or your company's name) in attractive gold stamping.

# The college contribution

is a two-way street

There are two ways to look at it.

There's the contribution the colleges make to business.

That's crucial.

Business employs about 42% of all college educated people. It uses their brainpower and skill in developing new products and methods. It fills management posts.

In the other direction, there's the contribution business makes to colleges.

The colleges welcome it. They need all the funds they can get. They're helping to prepare leaders for management, but the cost of this preparation—the whole cost of education—is going up sharply.

If business wants college talent, it must keep colleges in business. It can help finance their need for classrooms, facilities and especially teachers.

In this light, your aid-to-education program is an aid to your company.

**SPECIAL TO MANAGEMENT**—A new booklet of particular interest if your company has not yet established an aid-to-education program.

# Spend a little money to fight inflation.

That's not a paradox by any means. The price of a postage stamp can let you take a hand in building a stronger economy. That stamp, and the coupon below, will get you all the information and material you'll need to set up a Payroll Savings Plan for U.S. Savings Bonds in your plant.

The benefits are many . . . systematic savings for your employees and the protection of your profit's worth—profits you've spent long, hard hours building year after year.

Today, the benefits are sounder and more attractive than ever. Now there's a spe-

cial U.S. Savings Note called the "Freedom Share" — a higher-paying companion to the popular Series E Bond which is available through the Payroll Savings Plan.

When your employees purchase E bonds, they have the option to buy Freedom Shares, too, on an approximate one-for-one basis. Freedom Shares earn 4.74% when held to maturity of 4½ years and must be held for at least one year. They are available in four denominations ranging from \$25 to \$100, and only one deduction is necessary to apply toward the Bond/Freedom Share "package."

Send for the complete kit today. See how far a stamp can take you.

# STATUS SYMBOLS

Your name on the door—and carpet on the floor, are two important first steps.

*But even more important*—not just for status, but for honest-to-goodness practical application—is a copy of the 2-volume-in-1, Linen-Bound Executive Edition of Television Factbook.

Containing both volumes of our Factbook, it is designed for even easier reference, and to stand years of hard use. What's more, we'll personalize your book (either your name or your company's name) in attractive gold stamping.

### CBS TELEVISION NETWORK RATES

(Sept. 5, 1967)

(Consult Network for Discounts, Specifications, etc.)

The CBS Television Network, as a national advertising medium, solicits those orders which will provide the largest nationwide circulation, the best program quality most suitable for a given time period, and which will leave no substantial portion of the nation without network service. While no minimum line-up of stations is required, the CBS Television Network in determining whether to accept a particular order, will consider the foregoing objectives. In the case of a program involving more than one advertiser, such consideration will include the stations otherwise ordered for and carrying the program.

## GEORGE BERNARD SHAW HELPED US WRITE THIS AD

In Shaw's play "Major Barbara,"  
the fastidious Greek scholar,  
Adolphus Cusins, is described as being

*"quite content with  
the best of everything."*

In a manner of speaking, the phrase  
is a neat summing-up of NBC's approach  
to television programming.

After all, no other network can boast  
so varied and far-ranging a lineup:  
entertainment offerings like "The Dean  
Martin Show" and "Kraft Music Hall" ...  
first-grade drama like this season's "Saint  
Joan" and "A Bell for Adano" ... the  
inimitable "Tonight Show Starring  
Johnny Carson" ... daily news coverage  
as well as News Specials by broadcasting's  
largest news organization ... every major  
sport ... the finest religious, educational  
and children's programs – all in color.

What's more, no matter how different  
the types of NBC shows may be, all have  
one thing in common: they're stand-outs  
in their respective categories. (That's not  
just *our* opinion. Last season, for example,  
NBC television programs won more major  
awards than any other broadcaster.)

As we say, "quite content with the best  
of everything" *could* be NBC's credo.  
But the truth is that NBC is never really  
satisfied, for we know there is no such  
thing as a best that can't be bettered.

NBC-TV NETWORK RATES

Effective Jan. 31, 1968

(Consult Network for Discounts, Specifications, etc.)

In order to serve the public interest in having NBC television programs available on a national basis and to maintain the network function as an effective national advertising medium, orders for NBC-TV Network facilities are subject to acceptability of the station line-up ordered.

Consistent with the foregoing objectives, a station line-up order shall be deemed acceptable if the Class A hourly rates of the stations ordered total \$110,000 or more. Recognizing the interests of national advertisers with unusual marketing requirements, NBC will consider for individual approval orders for station line-ups which do not meet the hourly rate totals specified.

In connection with administering orders for participating or multi-sponsored programs, NBC may designate for each such program individually the basis of station order acceptability.

Gross Rates follow (applicable to 6-11 p.m., Mon.-Sun.). One-half gross rates apply to 5-6 p.m. & 11 p.m.-1 a.m. Mon. thru Sun.; 4-5 p.m. Sat. & Sun. All other times, 35% of Gross Rates. Note: Rates following are to be used only as an estimate of cost, subject to change.

**Corporate structure:** The Canadian Broadcasting Corp. is a publicly-owned corporation chartered by Parliament with carrying on a national broadcasting service in Canada. It is directly responsible to Parliament and is financed by an annual Parliamentary appropriation, supplemented by revenue from advertising.

CBC national programming is fed out over 555 transmitters of AM, FM & short wave radio & VHF television. Of these, 254 are TV stations and their satellites, including 191 which are privately-owned and 63 maintained by the CBC. Because of the bicultural nature of the country, broadcast services are provided in English and French. There is one English-language TV network and one radio network; in the French-language, there is one TV and one radio network. There is also a service to Arctic communities, with 6 northern radio stations and short-wave broadcasts. The program services of the two national radio networks are received by 301 transmitters, which can broadcast to 98 per cent of Canadians. This is achieved by means of 42 stations and 171 low power relay transmitters of the CBC, and 89 privately-owned stations. This is a unique feature of the Canadian system, that privately-owned radio and television stations are affiliated with the publicly-owned body and assist in the vital task of distributing national program service.

# "MUSICAL CHAIRS" is fun for kids...

## **MUSICAL FACTBOOKS IS A COSTLY WASTE OF TIME!!**

Every time one of your staff wants to refer to Television Factbook, and finds your *only* copy already in use, he has wasted his time—and you lose money.

Even if the house copy of the Factbook *is* available, each staffer must leave his desk to go to a centrally located volume. And, if he takes your *only* copy to his desk, and leaves it there—you can play another time-wasting game—FACTBOOK, FACTBOOK, WHO HAS TELEVISION FACTBOOK?

All levity aside, this situation would never pass an efficiency expert's examination. We submit that you will save time *and* tempers (and that means money) by simply ordering enough Factbooks to go around.

1-4 Television Factbooks	<b>\$25.00 each</b>
5 or more Television Factbooks, ordered at one time .....	<b>\$22.50 each</b>

**PLEASE USE HANDY POSTAGE-PAID ORDER CARD #1,  
BOUND INSIDE THE BACK COVER OF THE STATIONS VOLUME**

# Teach somebody a skill and his skill becomes yours.

Train someone to be a typist. It takes about two months. Or train someone to be a welder. Four months crash training would do the job. The same goes for draftsmen, machinists, assemblers, molders, bookkeepers.

In a few short months, your skilled labor shortage could be over. For good.

363 American corporations are already spending millions to train unskilled people. Whites, Negroes, Puerto Ricans, Mexican-Americans and others.

Can you afford to ignore this valuable source of talent?

These 363 corporations have formed a voluntary organization called Plans for Progress. They are working to show how equal job opportunity works for everybody. Let them show you.

Write: Plans for Progress, 1800 G Street, N.W., Suite 703, Washington, D. C. 20006. You'll get a local action kit which tells you how to end the skilled labor shortage in your area.

BROADCAST

BUREAU

Broadcast Information Bureau's job is to make station buying of film foolproof, with "\$"-ratings (of motion picture film) and APQ-ratings of made-for-TV film. Three source books do the job:-

"TV FEATURE FILM SOURCE BOOK"

"Series, Serials and Packages"

THE MADE-FOR-TV FILM SOURCE BOOK

"FREE FILM" SOURCE BOOK

The public relations - public service film Source Book.

There's a reason why they're on the desks of 80% of the world's TV film buyers.

You may not be able to save millions as networks have, but you will save thousands.

# AMCI BROADCASTING ANTENNAS

For ITV, UHF-TV, VHF-TV and FM

- Directional and Omnidirectional TV Antennas
- Directional and Omnidirectional ITV Antennas
- Dual Polarized Directional and Omnidirectional FM Antennas
- Antenna may be top or side mounted

AMCI Antennas are ruggedly designed and constructed of noncorrosive materials such as 6061-T6 aluminum, copper, and stainless steel. This type of construction, combined with an electrical design that requires few transmission line seals (*from 1/8 to 1/4 as many as other comparable antennas*), yields an extremely dependable antenna that requires essentially no maintenance.

AMCI also custom designs antenna arrays to meet particular requirements. For a description of one of AMCI's custom designs (An FM Antenna on the Chrysler Building), write for Bulletin 10.

**Assignments Affecting Borders**

# Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canadian and Mexican borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Though allocations beyond 250 miles of border do not require agreement between countries, Canada unofficially reports assignments beyond 250 miles; Mexico reports VHF within 250 miles, UHF within 200 miles.

Plus (+) and Minus (-) symbols designate offset carrier positions of channels  
 (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A.  
 Television Agreement of 1952, announced March 29, 1961.

**"MUSICAL CHAIRS" is fun for kids...**

**MUSICAL FACTBOOKS IS A COSTLY WASTE OF TIME!!**

Every time one of your staff wants to refer to Television Factbook, and finds your *only* copy already in use, he has wasted his time—and you lose money.

Even if the house copy of the Factbook is available, each staffer must leave his desk to go to a centrally located volume. And, if he takes your *only* copy to his desk, and leaves it there—you can play another time-wasting game—FACTBOOK, FACTBOOK, WHO HAS TELEVISION FACTBOOK?

All levity aside, this situation would never pass an efficiency expert's examination. We submit that you will save time *and* tempers (and that means money) by simply ordering enough Factbooks to go around.

**1-4 Television Factbooks. \$25.00 each**  
**5 or more Television Factbooks, ordered at one time..... \$22.50 each**

**PLEASE USE HANDY POSTAGE-PAID ORDER CARD #1, BOUND INSIDE THE BACK COVER OF THE STATIONS VOLUME**

# Television Translator Stations

As of January 8, 1968

Vhf and Uhf Channels

Dagger (†) preceding a listing indicates station(s) are licensed. Asterisk (\*) preceding a listing indicates construction permit(s). Absence of symbols indicates application only. When a community has a translator licensed and another with a construction permit only, these symbols precede call letters.

Transmitter power output (TPO) is given at end of each listing; all vhf's are one watt (1-w), unless otherwise indicated.

Channel numbers are continued in call letters: For example, Ch. 3 is indicated for Clear, Alaska, by K03BE; symbols # # indicate call letters not yet assigned. Call letters and location of station repeated are in parentheses.

This listing includes all existing & proposed translator stations, including those which are owned & operated by television stations. Translators owned & operated by television stations are also listed separately, immediately following this section.

## your super, not-so-silent salesman

Increasing television station sales — and profits — is virtually a reality with an EMCEE VHF or UHF Translator on the job. Designed to automatically rebroadcast television signals without degradation and without change (except to shift the signal to a new channel), EMCEE Translators provide several key functions in opening up new coverage areas, filling shadows and holes in existing coverage areas, and assuring a stronger color signal for even the Grade B coverage area.

And with the new FCC rulings authorizing microwave feed to television translators, you have an ideal relay system to areas previously unreached due to topographic or distance factors.

When you consider these market penetration benefits — plus their low cost and hands-off, maintenance-free operational factors — you will readily see why leading broadcasters have specified EMCEE 5 to 1 for over six years!

The blankest sheet of paper  
in the world

There it is. Right in front of you. The blankest sheet of paper in the world.

You're supposed to write all sorts of clever things on it. Like a new campaign. Or a contest. Or a way to advertise a program. Or to stage a presentation. Or to promote your station's image.

And you can't think of a thing. Well cheer up. No matter how good a broadcasting promotion man you are, there are bound to be days when the creative juices aren't

flowing.

And, besides, there's something you *can* do!

Join the Broadcasters Promotion Association.

You see, ideas are what the BPA is all about. It's an organization that was founded on the theory that a hundred promotional heads can come up with more ideas than one.

And the theory works.

Just pick up a copy of the Broadcasters Promotion Association

"Big Ideas" and you'll see what we mean. It's packed with promotional ideas. Ideas that really work. Ideas that can fill the blankest sheet of paper in the world.

Why don't you get a few hundred other bright guys to help you with ideas? And, at the same time, avail yourself of all the other handy BPA services?

Membership costs only \$30 a year.

Is that too much to pay a hundred guys for a year's work?
