

Broadcasting[®] 1972 Yearbook

Quick guide to sections

Information in this YEARBOOK is divided into homogeneous sections as described in the boxes at right. Here's how to locate a section rapidly:

Hold the YEARBOOK in your left hand. With your right hand bend the book back so that the black markings on the right edges of the pages appear. If you wish to find a page in the A section, for example, place your right thumb over the black bar to the right of the letter A at upper right on this page and riffle through all pages containing a similar black bar in the same position; at the end of the sequence of marking will appear the first page of the A section. The same procedure can be used to find the beginning of any other section, starting with your thumb on the black bar on this page to the right of the letter of the section you wish to locate.
