# Canada

**Note:** Unless indicated as French (Fr), programming is in English on Canadian stations in all provinces except Quebec. In Quebec, programming is in French unless shown as English (Eng). Due to Canada's geographic expanse, several Canadian stations have affiliates on shortwave (sw) frequencies for domestic broadcasting. In all cases they duplicate the AM station programming 100%.

## Voice of America

**Headquarters:** 330 Independence Ave., S.W., Washington, (202) 755-4744 Moton S. Smith, acting dir; Robert L. Chatten, deputy dir; Robert Frese, dir of engr. Public affrs office: Frederick Quinn, dir; Pat Sowick, deputy dir.

### Policy

By law the Voice of America, a part of the U.S. Information Agency, operates under the following directive: The long-range interests of the United States are served by communicating directly with the people of the world by radio. To be effective, the Voice of America must win the attention and respect of listeners. These principals will govern VOA broadcasts:

1. VOA will serve as a consistently reliable and authoritative source of news. VOA news will be accurate, objective and comprehensive.
2. VOA will represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions.
3. VOA will present the policies of the United States clearly and effectively, and will also present responsible discussion and opinion on these policies.

To implement this directive, these broadcasts present news and news-related items of American and world events, news analyses, editorials, correspondents' reports, editorial roundups, and feature material such as documentaries, roundtable discussions, interviews and special events all of which provides overseas audiences with a balanced and accurate concept of the many facets of American life and clear information regarding U.S. policies.

### Facilities

The Voice of America has a network of 109 transmitters: 31 in the continental United States and 78 overseas. These are short and medium wave stations ranging in power from 10 kw to 1,000 kw. The largest transmitter complex is at Greenville, N.C. There, 16 transmitters relay programs received via microwave from the Washington studios to audiences and relay stations abroad over 66 directional antennas. Total power at Greenville is 4,700 kw. Other domestic facilities are at Bethany, Ohio; Marathon, Fla. (MW); Delano and Dixon, both California.

Overseas relay stations are at: Munich, Germany; Kavala and Rhodes, Greece; Tangier, Morocco; Monrovia, Liberia; Tinang and Poro, The Philippines; Wooffer-

ton, England; Colombo, Sri Lanka; Bangkok, Thailand; Judge Bay, Antigua, Selebi-Phikwe, Botswana, and Quesada, Costa Rica. These include short and medium wave transmitters, among which are two one-megawatt transmitters. VOAs total power is now 21,520,000 watts. Also 21 satellite circuits are used to feed VOAs overseas relay stations.

### Local Placement

Many VOA tapes, music recordings and script materials are furnished by United States Information Agency offices overseas for local distribution and broadcast. Other relays and rebroadcasts are made through arrangements with local broadcasters in Western Europe, Africa, the Near East, South Asia, the Far East and Latin America. For example, VOAs Spanish-language feed of 25 daily (M-F) correspondent reports are broadcast a total of 2000 times on stations and networks throughout the southern hemisphere.

## Armed Forces Radio and Television Service

AFRTS operates over 800 radio and television outlets located in more than 50 foreign countries, remote areas of Alaska, U.S. trusts, territories and possessions, and aboard Navy ships. Most of the land-based stations are grouped into regional AFRTS networks to serve specific geographical areas (for example, American Forces Network-Europe in Europe and Far East Network in the Pacific). These AFRTS networks and independent stations create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Los Angeles and from their own local productions. Some outlets are broadcast operations and some carried on closed circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis and provides real-time stateside radio and TV to certain overseas locations.

## MAKING IT IN RADIO Your Future In The Modern Medium by Dan Blume

A wealth of information for anyone who wants to know more about careers in radio broadcasting either as a professional or for personal knowledge. **MAKING IT IN RADIO** tells the inside story about the industry, explains the rewarding jobs and careers it offers, and shows how stations and networks operate. The rich traditions of radio, its unlimited future, the wonders of satellite transmission, and much more are covered. And 19 top professionals, including morning man Don Imus of WNBC, ABC sportscaster Don Chevrier, and CNN anchorman Bob Cain, provide firsthand advice about careers in radio announcing, programming, sales, engineering, and management. They also discuss how one determines if a career in radio is for him or her, and, if so, how to prepare for the field, break into the business, and advance in the industry. 178 pages, comprehensive glossary, bibliography, index. \$9.95 (paper).

Please send me \_\_\_ copies of **MAKING IT IN RADIO**. My payment in the amount of \_\_\_\_\_ is enclosed. Payment must accompany order.) Mastercard and VISA accepted.

## World and International Electronic Media

Prepared by: Christopher H. Sterling, Director, Telecommunications Policy Program, George Washington University.

This section lists and briefly annotates some of the current sources for information on broadcasting, cable and newer media in other parts of the world. Citations are found under one of the following headings: general, Britain and Western Europe, the Soviet Sphere, general Third World material, The Middle East, Asia and Oceania, Africa, the Americas, and International Communications and Propaganda. Nearly all of these areas have periodicals on broadcasting and other media which are crucial for current data. Information listed here is current as of November 1985.

### General

Altschull, J. Herbert. *Agents of Power: The Role of the News Media in Human Affairs*. New York: Longman, 1984. 355 pp. \$29.95/15.95. Historical discussion analysing the role of news in media in East and West, and its impact on developing world.

Codding George A., Jr., and Anthony Rutkowski. *The International Telecommunication Union in a Changing World*. Decham, MA: Artech House, 1982. 414 pp. \$38.00. Standard treatment of the ITU and its parts, the organizational context for the many international meetings on spectrum use for broadcasting and related services.

COMBROAD. Available from CBA Secretariat, Broadcasting House, London W1A 1AA, U.K. Quarterly journal of the Commonwealth Broadcasting Association.

Edgar, Patricia and Syed A. Rahim, eds. *Communication Policy in Developed Countries*. London: Kegan Paul, 1983. 297 pp. \$15.00. How others develop media and common carrier policies: chapters on the U.S., U.K., Canada, Sweden, West Germany, Australia and New Zealand.

Gerbner, George, and Marsha Siefert, eds. *World Communications: A Handbook*. New York: Longman, 1983. 544 pp. \$35.00. It is not really a handbook, but it provides a very good collection of scholarly articles on all aspects of media around the world, arranged in topical rather than regional sections.

Head, Sydney W. *World Broadcasting Systems: A Comparative Analysis*. Belmont, CA: Wadsworth,

1985. 457 pp. Best place to begin for an analytic rather than a regional approach. Chapters on ownership types, access, laws and regulation, economics, facilities, programs and programming, audience research, and international broadcasting.

*International Film & Television Directory*. Available from The Kemps Group, 1-5 Bath St., London EC1V 9QA. Phone (01) 253-4761. Production facilities, advertising agencies, TV broadcast equipment.

# 320.

The ProCam™ Video Camera  
with Plumbicon\* tubes at Saticon\*\* price.

JVC's experience—and success—in designing the highest quality and reliability into compact video production cameras is unmatched. Now, continuing this tradition of high performance at an affordable price, JVC has brought a "high-end" teleproduction camera within the financial reach of production people often victimized by modest budgets. This time, it's ProCam 320.

#### What a package!

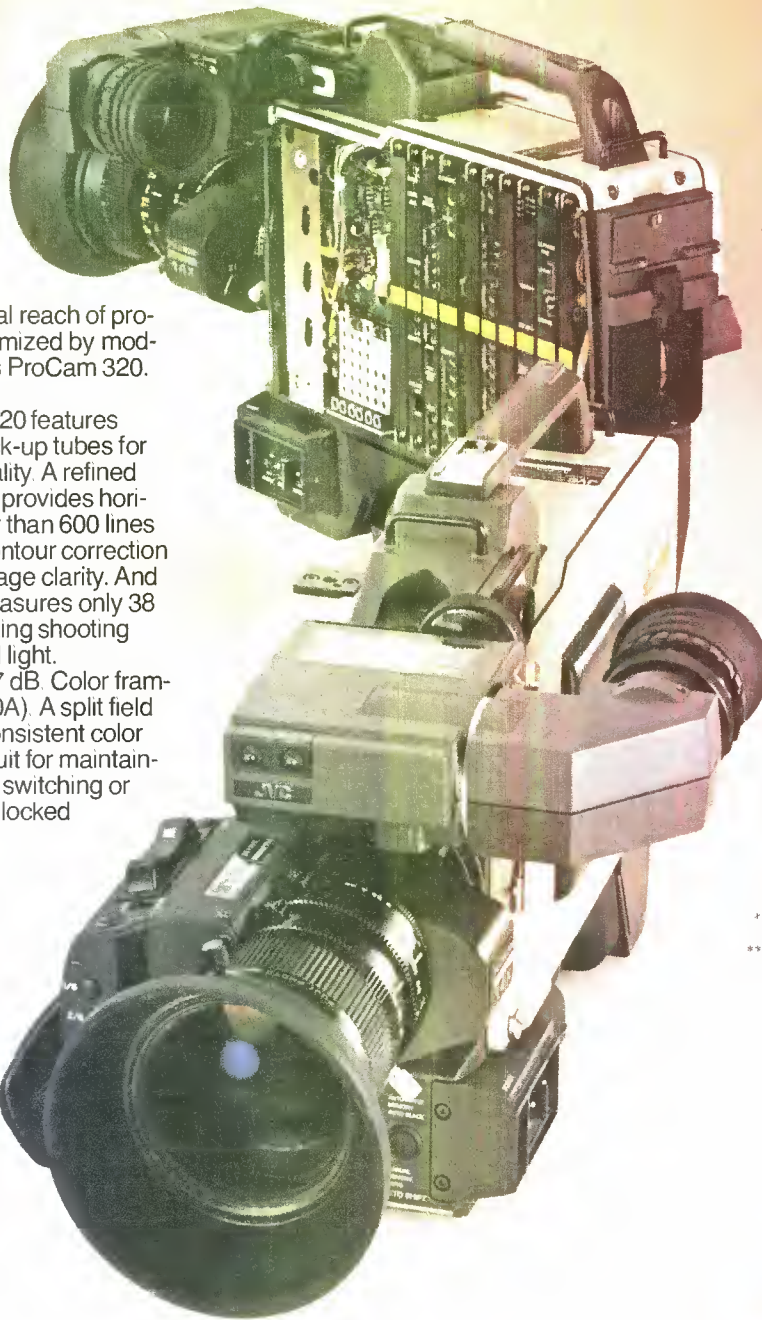

**SENSITIVITY** ProCam 320 features three, 2/3" Plumbicon pick-up tubes for incomparable picture quality. A refined f/1.4 prism optics system provides horizontal resolution of better than 600 lines at center. A 2H vertical contour correction circuit further assures image clarity. And minimum illumination measures only 38 lux (3.6 fc) at f/1.7, permitting shooting even in limited or artificial light.

A video S/N ratio of 57 dB. Color framing output signal (RS-170A). A split field color bar generator for consistent color reference. A genlock circuit for maintaining a stable picture while switching or mixing with other signals locked on the same source.

#### EASY OPERATION.

Several 8-bit data memory chips offer operator conveniences for quick set-up and consistent performance. These include: Auto centering, auto-black balance and auto-white balance, auto black level stabilization and auto beam control circuits. Matrix masking for true color reproduction and automatic protection for the pick-up tubes are a few of the many features standard on this new camera.

**VERSATILITY.** Easy portability. Outstanding performance in low-level

lighting. High degree of automation. An extensive selection of options and accessories combine to make the ProCam 320 suitable for both studio production, EFP, or ENG; or, indeed, to any application, anywhere, that calls for top quality video production while staying within a tight budget.

**PROCAM TECHNICAL SUPPORT.** Your ProCam sales representative will be happy to explain the availability and calibre of the ProCam technical support program.

For a demonstration of the ProCam 320 Video Camera, a 320 Spec Sheet, or JVC's complete catalog, call, toll-free:
