AFRTS operates radio and television outlets located in 69 foreign countries. AFRTS facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard over 500 Navy ships and as closed-circuit facilities in 200 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, ie. American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

**Broadcast Television Locations:** Antarctica, Belgium, Cuba (Guantanamo Bay), Diego Garcia, Federal Republic of Germany, Greece, Greenland, Italy, Japan, Republic of Korea, Netherlands, Panama, Portugal, Philippines, Turkey and USA (Alaska, Kwajalein Atoll, Puerto Rico).

**Cable Television Locations:** Australia, Bermuda, Canada (Newfoundland), Cuba (Guantanamo Bay), Greece, Federal Republic of Germany, Iceland, Japan and Spain.

**INDEPENDENT BROADCASTING AUTHORITY**—70 Brompton Road, London, SW3 1EY. Telephone: 01-584-7011. Telex: 24345. The Authority was created by Parliament in 1954 as Independent Television Authority to provide a comprehensive television service additional to that of BBC. In 1972, it was renamed the Independent Broadcasting Authority and its functions were extended to provide an Independent Local Radio service.

The Authority selects and appoints the program companies; supervises programs provided by the contractors and their scheduling; controls the advertising; builds, owns & operates the transmitting stations. Fifteen companies provide programs in fourteen independent television regions of the United Kingdom (2 companies share the contract for London). As part of its review of the ITV system, the Authority, in Dec. 1980, offered a contract to broadcast a new national breakfast-time television service, which started in May 1983, to TV-AM. In addition, changes were made to some ITV companies. Both Independent Television & Independent Local Radio services are financed mainly by the sale of advertising time.

# Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business' ..the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

**Factbook** is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*...you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

# Television Digest With Consumer Electronics

**Television Digest** has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

**Television Digest** goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming ploys . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

**Television Digest** regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

**Television Digest** gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

# The lowdown on getting a higher price for your cable system.

If you're a System owner and you're thinking about selling, the big things on your mind are:

How much can I net for it?

How is the deal going to work for me?

How much am I really worth?

We can answer those questions for you. But we can also tell you a lot more.

## We talk your language.

We're cable people, not recycled bankers. We've grown up in the cable business, cut our teeth on it. We've paid our dues, just like you.

That's why we can talk your language, straight talk about every area of a system's operation. We can talk marketing, programming, engineering. We can talk hardware into the wee hours.

## Here's how we go about selling your property.

First, if confidentiality allows, we personally visit your system and its marketing area. Whether we do or not, we can draw on our own financial and socio-economic data, covering virtually every market in the country.

Next, we identify the five to ten best prospects for your property, based on the profiles we maintain on just about everyone.

(How do we get this information?

Buyers want us to know their "wish list" so we won't waste their time.)

Then we prepare a presentation that's

different from everyone else's. Even the look of one of our presentations is different, because of its better graphics and easier-to-read typefaces. But much more important is the difference in what we put into it.

## We give buyers powerful reasons to buy.

Instead of just copying pages of background material, we tell the prospects why they should buy. We customize and editorialize, providing what-if scenarios and recapping the pertinent information.

We take the material and synthesize it, analyze it, pick it apart. We ask ourselves, if we were going to buy, what would we want to know?

We present facts that are cogent, comprehensive, and persuasive. In short, we generate less paper, but more reasons why the buyer should pay *your* price.

## We know how to nail down sales.

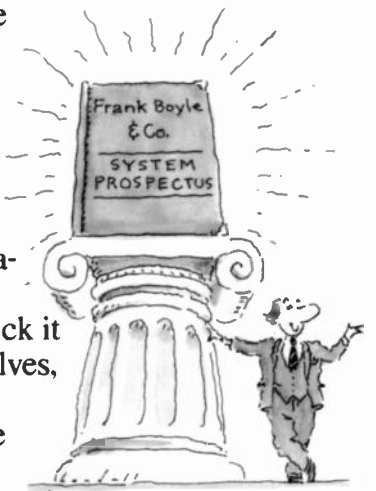

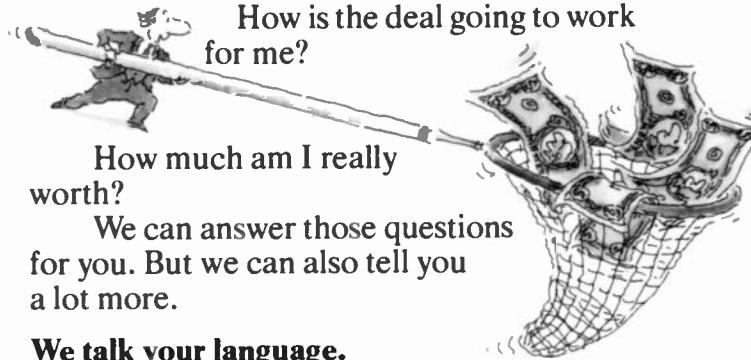

Closing the deal comes naturally to us. It's something we've all learned in our years in the cable buying and selling business.

We don't dance around. We keep things moving. We deal with the headaches and guide you through the mine fields (lawyers, CPAs, financing) on the way to putting your money in the bank.

We know who's looking to buy. So if you're looking to sell, give us your listing.

We'll help

you get the most net cash for your property.

The weekly executive information service devoted to international satellite communications...

# SATELLITE WEEK

Satellite Week is the trusted source for all the fast-breaking news in space technology and communications.

Satellite Week is a weekly briefing of satellite business news presented in a crisp, concise editorial style. It is concerned *entirely* with space technology and communications.

A subscription allows you to keep pace with the latest in satellite communication technologies, learn what other industry leaders are doing that could affect your plans, keep current with changing developments in satellite programming and marketing, be forewarned of domestic and international regulation and deregulation, and follow the mergers, acquisitions and future plans of your competitors.

Wherever international developments occur in the global satcom industry, Satellite Week will enable you to follow them. Whatever the key issues concerning satellites and satellite communications, Satellite Week is your most accurate source of news. For up-to-date coverage, features and interviews, only Satellite Week has the information you need.

For subscription information, call collect: (202) 872-9200.

# “Seven of the most luxurious hotels in Los Angeles.”

California Executive Magazine

L'Ermitage Hotels bring business to the level of art. Everything about our hotels is extraordinary: from concept to service to accommodations. Our hotels are all-suites, with ample room for both work and relaxation. We have seven unique hotels, purposely small to give the kind of personal

attention rarely experienced. In acknowledgment of personal taste, each L'Ermitage Hotel is unique in flavor. Their common bond is excellence.

Gourmet restaurants, gymnasiums, state of the art meeting rooms, multi-line telephones, 24-hour gourmet suite

service are made extraordinary by original master artwork and an old world commitment to service.

As world class hotels, we are proud to present what the world has said about us...

“...every amenity you ever needed in a hotel suite—and more.”

New York Post

“The Bel Age is a place for feeling guilty—happily.”

Los Angeles Times

“...L'Ermitage may well be the finest hotel in the world.”

Boston Globe

“...The Mondrian is a great favorite of the Music Set... a Los Angeles landmark... with bold elegance.”

Washington Times

“...L'Ermitage Hotels are warm and inviting... little gems in a sea of mediocrity.”

# Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business'...the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

**Factbook** is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*...you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

# Buyers Guide

*that helps you find products faster!*

---

## Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific field can be found in the Buyers Guide.

Listed after the name of each product category is a product NUMBER that will help you find product categories even faster than before! This 8 digit number contains a PRIMARY number (the first 4 digits) followed by a SECONDARY number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the BUYERS GUIDE.

Listed at the top of each page is the PRIMARY product number to help guide you to the correct category.

— OR —

You can use the Buyers Guide Questionnaire (see following pages) to find the NUMBER assigned to a particular product and then find it by number within the Buyers Guide.

The Buyers Guide Questionnaire lists product categories IN THE SAME ORDER that the products are listed in the BUYERS GUIDE.

**For example:** 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the PRIMARY number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

---

## Key to Abbreviations

- (m) — manufacturer
- (r) — repair
- (d) — distributor
- (s) — service
- (p) — producer (i.e. film, etc.)

# BUYERS GUIDE EXPLANATORY NOTES

The Television & Cable Factbook BUYERS GUIDE is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid BOLD-FACE BUYERS GUIDE advertisers\*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.

YOU'VE ASKED FOR IT...YOU'VE WAITED FOR IT...AND NOW IT'S HERE...

# The Cable Systems and Broadcast Television Directories of the authoritative Television & Cable Factbook are now computerized data bases!

At surprisingly low cost, you now can rapidly obtain a virtually unlimited amount of constantly updated video industry data. Through the Market Research & Data Sales division of Warren Publishing, Inc., you may order reports and other services that manipulate this data *exactly the way you need it*.

These data bases offer you electronic data from a vast bank of:

## Cable Data

- Operating systems, franchises not yet operating & applications pending
- Multiple system operators
- Programming carriage, basic & tiers
- Basic, tier & security subscribers
- Installation & monthly subscriber fees
- Franchise expiration dates
- Makes of equipment
- Channel capacity, miles of plant & homes passed
- Addresses, telephone numbers, owners, managers & engineers

## Broadcast Data

- Operating stations, construction permits awarded & applications pending, both commercial and non-commercial
- Current ownership & pending acquisitions
- Market rankings with TV household shares
- Channel numbers & network affiliations
- Satellite earth station usage
- Broadcast stereo capability

- Installed equipment
- Technical facilities data
- Addresses, telephone numbers & all major executives

*And much, much more.*

Take advantage of this unique opportunity to develop the valuable market research you need to:

- Market new products and services
- Pinpoint media acquisitions
- Monitor your competition
- Determine the impact of the 'Syndex' rules on your business
- Or conduct numerous other types of research & analysis.

## How can you access the information?

Call us for reports from the Factbook data bases that select only those elements that are important to you, then have the reports sort the data into state, county or regional breakdowns, rank it by size, age or any other variable and screen out systems/stations that do not meet specified criteria.

Here are just a few examples of vital studies Warren Publishing, Inc. has recently provided to its clients:

- Cable system channel capacity studies
- Broadcast TV and cable system ownership studies
- Miniature data bases installed at clients' sites for maintaining important sales and marketing information

- Lists of cable systems carrying programming competitive with proposed new services
- Lists of cable systems using equipment competitive with new products being introduced
- Mailing labels for marketing campaigns targeted to broadcast stations and cable systems with specified characteristics

Warren Publishing, Inc. has been collecting broadcast TV data since 1945 and was the first organization to gather cable TV data. The Factbook data bases are unmatched by anything else in the field and are totally responsive to your individual requirements. They offer you unheard of speed and flexibility using the most complete source of television data available.

Best of all, reports from Warren Publishing, Inc. are available to you in a variety of formats sure to meet your needs. You may opt to receive data . . .

- On 9-track magnetic tape
- On 5¼" floppy diskettes ready to load onto your PC
- Via telecommunications
- In a printed format or
- On mailing labels.

**Video Week** is the widely-respected information service that will keep you *informed* about your industry in just 20 minutes per week.

If you have a real stake in any area of the *home video industry*, you literally cannot do *without it!* Subscribe now!

**Video Week** is a *weekly information service* devoted to the business of program sales and distribution for videocassettes, discs, pay television and allied media.

**Video Week** is filled with the kind of practical, level-headed information that is invaluable to anyone involved in the home video industry. And let's face it, information is *crucial* to your business success. Markets. Merchandising. Mergers. Finance. Competition. Litigation. Programming. **Video Week** covers it all!

**Video Week** offers you more content, more scope, more depth and more currency than any other publication in the home video field. And with video, cable, satellite dishes and allied fields growing more interrelated every week, action in any one sector can trigger profound changes throughout the entire industry. **Video Week** allows you to enlarge your perspective . . . to keep up with the entire industry in a single, weekly, authoritative report.

With your weekly subscription to **Video Week**, you'll be the *first* to know all about:

- pre-recorded cassettes and VCRs
- pay TV basic cable
- pay-per-view
- direct broadcast via satellite
- home computers and games

And **Video Week** has an extensive network of correspondents that cover the Congress, the courts and the FCC, to ask the questions that *need* to be answered. These seasoned reporters consult with industry leaders, advertising agencies, producers, manufacturers, distributors, duplicators. They gather information, reaction and speculation about developments from key contacts established in the almost 10 years since **Video Week's** start . . . and in the nearly half a century since the start of Television Digest.

Shouldn't you be taking advantage of all this critical information each and every week? After all, *each issue of Video Week* is actually an *early-warning system* about what leaders in the home video industry are thinking and saying about key issues, mergers and acquisitions, antitrust, programming and copyright law.

**“I use it  
nearly every  
day.”**

**Joe Bruno  
Vice President/Engineering  
WMAR-TV  
Baltimore, MD**

Joe is one of thousands of engineers, programmers, general managers and financial people who get and regularly use the **Television & Cable Factbook**.

“The numerous sections of the two volumes provide complete listings of virtually every organization involved in the television and cable industries.

“It is very handy to have when I need information quickly about a station or manufacturer, and it is indispensable for identifying which stations are carried by a particular cable system.”

Joe is one of the most important people in our business because he can say, “*Yes, we’ll buy!*”

WMAR-TV is one of hundreds of stations that use this important resource. In fact, more than 4.31 different decision-makers and influencers refer to each **Television & Cable Factbook** 10.18 times each

month. In other words, 23,705 top-level executives will see your advertising message more than 241,000 times monthly! Over 63% are in upper-level management, and 30% have mid-level management positions.

Your ad in the **Television & Cable Factbook** costs about the same as those placed in weeklies and monthlies. Yet a single ad will represent your company all year long.

If you want to reach the men and women who can say “*Yes*” to you, plan now to have a space like this in next year’s book while good positions are still available. Contact Gene Edwards, Advertising Director, and get our media kit which will have all the details on our rates, availabilities and research. Plan now to be in our next volume!

# HOW MUCH MORE WOULD YOU PAY FOR MII COMPONENT QUALITY? HOW ABOUT LESS! DISCOVER JVC's KR-M800U

If you'd expect to pay a lot to get component picture quality, you're in for a pleasant surprise. JVC's KR-M800U MII editing recorder gives you the stunning performance of component video technology at a surprisingly low price.

MII is state-of-the-art component video technology, and it's one of the best techniques ever devised to faithfully reproduce video images. Luminance and chrominance tracks are recorded separately to maintain signal integrity and reduce crosstalk and interference. The images are recorded on high-density metal particle tape, giving you a full 90 minutes of the best video you've ever seen. Better performance and greater versatility—That's the MII advantage.

And you don't have to abandon your present format to gain the benefits of MII. In fact, MII enhances your present equipment through Multi-Format Integration.

Shoot in your present format—VHS, S-VHS, 3/4-in. or any format, and transfer your footage to the KR-M800U through JVC's KM-F250U multi-format frame synchronizer/time-base corrector. Now you'll have an edited master in component MII video that is ready for post-production, duplication, or distribution.

Think of the possibilities:

Record live SNG remotes—MII gives you the power of the 1-in. format at a fraction of the size and cost. Edit news stories and

documentaries—the KR-M800U is a superb cuts-only editing recorder. Insert commercials—the KR-M800U gives you pinpoint precision. Save the quality of animation for generations—shoot in any format you want, but preserve the picture in MII with the KR-M800U.

And this is just the beginning. The KR-M800U has the professional features you'd expect too, including selectable CTCM and component outputs. Y/C 3.58 output for compatibility with S-VHS recorder/players, so you can dub S-VHS tapes from MII component masters without any decoding—

eliminating signal degradation. A 45-pin parallel remote control connector for compatibility with existing parallel editing controllers. High-speed search at 32 times normal speed. Jog control for fast access to edit points. Comprehensive editing functions including preroll, auto edit, edit in/out, trim, go to, and preview/review. Meters for audio and video tracking. RF output for external DOC.

See the MII advantage for yourself. Call 1-800-JVC-5825 and ask for complete details about the KR-M800U. Or we'll set up a demonstration of how MII performance can boost the quality of your video productions.
