Program an ad message here next year

Our most recent study of some 4,000 subscribers to the **Television & Cable Factbook** has shown that the programming section of both volumes of our industry resource is the second most used of all. It ranks just behind the sections on station or cable ownership in number of times to which it is referred.

Almost 80% of those responding to the survey were in the top six categories of job responsibilities: Chairman, President, Vice President, General Manager, Manager or Director. Television stations, cable systems and MSOs and equipment manufacturers and distributors comprise the largest segment of buyers of the **Factbook**...in fact, they account for about half the sales each year.

Programmers, advertising and consulting organizations also buy and use the **Factbook** regularly. And they buy it four out of five years. Most have been buying it an average of nearly 10 years.

Point is, if you want your advertising message to reach the key people who refer to this section daily or weekly *every month of the year*, you need to put the **Television & Cable Factbook** at the top of your media list. You'll reach some 23,705 different decision-makers and influencers who will refer to information in the *Program Sources* and *Pay TV* sections as many as 241,000 times every month. Your message will receive nearly 3 million impressions in the course of a year!

It makes sense to plan right now for a position in next year's book. A single page ad, spread, even inserts and specialty packaging can be a part of your media plan to reach the people in our business who say "Yes" and buy!

For a comprehensive media kit, to make reservations or for any information you'd like to have about the survey, contact Gene Edwards, Advertising Sales Director, 202-872-9200.

Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business'...the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

Factbook is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*...you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

Television Digest With Consumer Electronics

Television Digest has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming ploys . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

Television Digest regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Television Digest gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

For subscription information, call collect: **202-872-9200**.

The biweekly newsletter that covers everything that's happening in public broadcasting... the news and the facts behind the news...

PUBLIC BROADCASTING REPORT

Public Broadcasting Report is the totally independent information service that covers significant developments on all public broadcasting fronts... from CPB and PBS to NPR and other network programming... from marketing innovations to new technologies... you will follow all the action, *as it develops!*

Public Broadcasting Report will keep you up to date with every important development that affects public broadcasting with:

- key reports on critical local and federal legislative action
- interviews and inside information from top executives at PBS, NPR, CPB and stations nationwide
- coverage of the latest industry studies and research
- in-depth analyses of regulatory developments
- early warnings about grants and awards complete with application deadlines

If you have a stake in public broadcasting, a personal subscription to **PBR** could make a substantial difference in your ability to pursue funding, spot trends, anticipate the impact of developments and make even more informed business decisions.

For subscription information, call collect: **(202) 872-9200.**

Television Translators

As of September 4, 1989
VHF and UHF Channels

Star (★) preceding a listing indicates construction permit(s). Asterisk (*) preceding a listing indicates application only. All others are licenses. Transmitter power output (TPO) is given at end of each listing; all translators are one watt (1-w) unless otherwise indicated. Channel numbers are contained in call letters. For example, Ch. 4 is indicated for Adak, Alaska by K04LY. Call letters and location of station repeated are in parentheses. This listing includes all existing & proposed translator stations, including those which are owned & operated by television stations.
