HUGHES SERVICE

RECEIVED
APR 08 1991
HASTAD ENGINEERING

With the launch of SBS-6, Hughes Communications will ensure Ku-band capacity into the 21st century.

Hughes Communications means satellite service that's right for your business. No matter what you need. Or when you need it.

Private satellite network owners entrust their communications to our SBS fleet of Ku-band satellites. They know they can count on Hughes for reliable interactive data, voice, and video services. And the launch of SBS-6 later this year will reaffirm our dedication to meeting increased customer demand for Ku-band satellite communications.

SBS-6 will expand our capacity for business networks. Additionally, SBS-6 will enable us to inaugurate services targeted to satellite newsgathering

(SNG) and the occasional use video markets. These services feature a customized transponder reservation system that allows customers to respond to fast-breaking news and special events, quickly and efficiently, with more availability and less contention during peak periods.

Our mandate is to provide unsurpassed satellite communications. That's why Hughes' team of experts continuously monitors the entire Ku-band fleet to ensure quality transmission around the clock. That's service you can count on.

Hughes Communications. We have the services to make ideas happen — well into the 21st century.

Subsidiary of GM Hughes Electronics

THINK SYSTEMS. THINK PANASONIC BROADCAST SYSTEMS.

You know about our recording systems—from players to editors to the sophisticated M.A.R.C. automated cassette system. You know about our unmatched standards for price/performance with component analog VTRs at 3/4" prices.

But we want you to know we're more than that. We are the source of the world's first digital

processing cameras, as well as some of the most cost-effective analog cameras ever made.

And, we've got just about everything in between: auto-setup monitors, cables, adapters, switchers, editors, etc.

When you're looking for value, performance and innovation, think systems. Panasonic Broadcast Systems.

Panasonic
Broadcast Systems

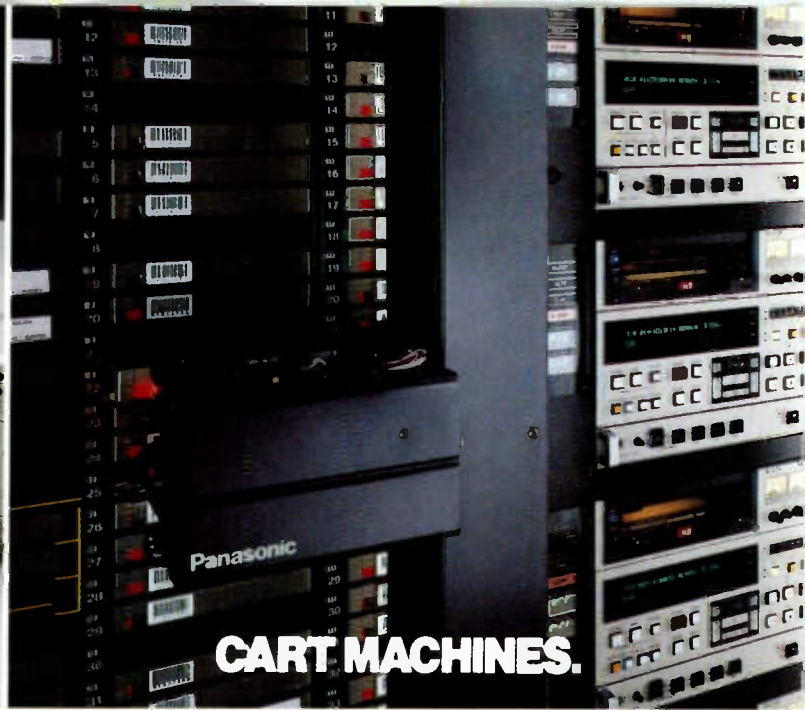

Value and innovation. First and foremost.

Nature has its own
professionals of
sound and vision.

The wonders of sound and vision found in nature are hard to reproduce. In fact, if anyone has come close it's EEV.

Whatever your broadcast requirements, you'll find EEV has the technology to match. High-efficiency UHF Television Klystrons from 5kW to 70kW for Television Transmitters. A range of Broadcast Tetrodes and Vacuum Capacitors for AM and FM transmitters, and Leddicon® camera tubes to fit virtually every broadcast color camera available today.

Our experience is the key to technological leadership. Our manufacturing know-how ensures the highest quality and reliability. Above all, our professional dedication to our customers' needs makes us the natural choice of broadcasters the world over.

® Leddicon is the Registered
Trade Mark of EEV Lead Oxide
Camera Tubes.

TV STATIONS VOLUME

SECTION A — STATIONS VOLUME

Index to Contents (Stations Volume)	xi
An alphabetical index of all companies and organizations listed in the Stations Volume. Included are the names of all sections with page reference numbers.	
Television Market Rankings	A-1
A listing of television markets (in ascending order by rank) according to Arbitron Area of Dominant Influence (ADI) Television Households based on the 1989-90 Arbitron Television Markets and Rankings Guide.	
Alphabetical List of Television Market Rankings	A-5
An alphabetical listing of Arbitron TV Markets based on the 1989-90 Arbitron Television Markets and Rankings Guide.	
U.S. Television Station Call Letters	A-6
An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.	
Canadian Call Letters	A-12
An alphabetical listing of Canadian commercial and non-commercial television station call letters including market name and channel number.	
Description of Station Directory Section	A-14
A detailed description of the kinds of information that can be found on each station page as well as definitions of terms used throughout this section.	
U.S. Television Station Directory	A-16
State by state listings of commercial television stations including coverage maps and Arbitron Net Weekly Circulation levels (where available), personnel and technical facilities for each station listed. Also listed are CP holders reported due to begin operating by late 1990. At the beginning of each state is a map containing the rankings of Arbitron's Area of Dominant Influence that fall within that state as well as those that fall within bordering states. Listed below the map are the ADI market names, Arbitron ADI TV Households for that ADI, the ADI rank and the television stations that fall within it. Total operating commercial and educational TV stations—both UHF and VHF—are shown for each state in a status report located on each state page.	
Public/Educational Television Stations	A-1289
State by state listings of public/educational television stations including personnel and technical facilities for each station listed.	
Foreign-Language Programming on U.S. Commercial TV Stations	A-1366
An alphabetical listing, by call letters within state, of U.S. commercial television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.	
Foreign-Language Programming on U.S. Public/Educational TV Stations	A-1367
An alphabetical listing, by call letters within state, of U.S. public/educational television stations carrying foreign language programming. Each listing contains the language(s) carried and the number of hours/week the programming is aired.	
Construction Permits	A-1369
A state by state listing of commercial and non-commercial construction permits with probable starting dates as reported by principals. Included are stations that were operating but have reverted to CP status.	
Applications Pending for New TV Stations	A-1383
A state by state listing of applications pending for new commercial and non-commercial television stations.	

TV STATIONS VOLUME

SECTION A — STATIONS VOLUME

Commercial Television Station Ownership A-1393

An alphabetical listing, by company name, of all commercial television station owners.

TV Stations with Newspaper, Book & Periodical Publishing Interests A-1427

An alphabetical index of those companies or individuals listed in the TV Ownership section that also have publishing interests.

Sales & Transfers of Television Stations 1949—1990 A-1428

A state by state listing of television stations that have been sold or had a transfer in major ownership since 1949. Included are volume references to issues of *Television Digest* reporting details of deals.

SECTION B — STATIONS VOLUME

Federal Communications Commission Directory B-1

A listing of FCC departments and personnel including major bureau heads and staff.

Television Networks B-5

An alphabetical listing, by company name, of U.S. and Canadian television networks. Listed are departments and personnel as well as network affiliates.

Public & Educational TV Networks B-15

An alphabetical listing, by company name, of Public/Educational television networks. Listed officers and personnel as well as a state by state list of member stations.

Network Parent Companies B-19

Capital Cities/ABC Inc.
CBS Inc.
General Electric Company
Listings include key personnel and major departments and divisions.

Network Engineering Departments B-22

A listing of the major television network engineering departments and their key personnel.

Low Power Television Stations B-26

A state by state listing of low power television (LPTV) stations including licensee name and technical facilities. Also listed are LPTV construction permits and lottery grantees.

Ownership of Low Power Television Stations B-101

An alphabetical listing, by company name, of low power television station owners. Included are licensees and permittees. Lottery grants not included.

Television Translator Stations B-135

A state by state listing of VHF and UHF television translator stations including licensee name, channel number (contained in call letters), transmitter power output (TPO), call letters and location of the station(s) repeated. Included are translators owned & operated by television stations as well as applications and construction permits.

Translators Owned & Operated by Television Stations B-241

A state by state listing of television translator stations owned and operated by television stations listed by primary station call letters. Also listed are stations with CP status.

Canadian Television Stations B-247

An alphabetical listing, by call letters within province, of Canadian television stations including personnel and technical facilities. Listed at the end of each province are repeater stations listed alphabetically by city of license, with call letters, channel number, licensee, station or network repeated (in parenthesis) & power.

International Directory of TV Stations & Sets B-291

An alphabetical listing, by country, of television stations on air, under construction, planned and operating experimentally throughout the world (based on best available information from U.S. & foreign government agencies). Also listed are Sets-in-Use as of August 1990, Characteristics of World Television Systems, Channel Frequencies and Color Television Systems in Use or Planned.

Armed Forces Television Stations B-312

A listing of television stations operated by the military departments under the jurisdiction of the Department of the Defense.

SECTION B — STATIONS VOLUME

Color Television Systems in Use or Planned B-313

An alphabetical listing, by country, of the type of color television system in use within that country.

Television Systems of the United Kingdom and IBA Commercial Program Contractors B-315

Companies listed include Directors, Executives and Staff.

World TV Stations and Sets B-319

An alphabetical listing, by country, of the total number of stations/transmitters, black & white and color television sets for each country.

SECTION C — STATIONS VOLUME

Attorneys Practicing Before the FCC C-1

An alphabetical list of law firms, attorneys active in communications, and members of the Federal Communications Bar Association.

Consulting Engineers Specializing in TV, Radio & Cable TV C-40

An alphabetical list of engineering firms and engineers specializing in television, radio and cable matters.

National Sales Representatives of Television Stations C-47

An alphabetical listing, by company name, of U.S., Canadian, Foreign-Language and Overseas Station Representatives. Included is a list of stations represented as of September 1990.

Television & Cable Program Sources & Services C-58

An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.

Management & Technical Consulting Services C-91

An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.

Brokerage & Financing C-105

An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.

Market and Audience Research Organizations C-116

An alphabetical list, by company name, of U.S. and Canadian companies and organizations involved in market and audience research. Included are firms involved in commercial & program evaluations, national monitoring and other related services.

Manufacturers & Suppliers of Broadcasting & Cable Television Equipment C-120

An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.

Buyers Guide of Products and Services C-165

A complete listing of television & cable related products and services as well as companies listed in the *Factbook* that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.

Buyers Guide Product Index C-298

An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.

Channel Allocations—VHF & UHF By City & State C-333

An alphabetical listing, by city within state, of VHF & UHF channel allocations. Channels reserved for non-commercial educational use are identified as are offset carrier positions.

VHF Channel Allocations C-342

A numeric listing, by channel number, of VHF channel allocations. Listed beneath each channel number is list of cities alphabetical by state.

TV STATIONS VOLUME

SECTION C — STATIONS VOLUME

UHF Channel Allocations **C-345**

A numeric listing, by channel number, of UHF channel allocations. Listed beneath each channel number is list of cities alphabetical by state.

Channel Allocations for Canada and Mexico **C-351**

An alphabetical listing, by city within province, of VHF & UHF channel allocations within 250 miles of the Canadian and Mexican borders as agreed upon by U.S. and respective countries through change of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Channels reserved for non-commercial educational use are identified as are offset carrier positions.

CABLE & SERVICES VOLUME

SECTION A — SERVICES VOLUME

Index to Contents (Services Volume) **Roman Numerals**

An alphabetical index of all companies and organizations listed in the Services Volume. Included are the names of all sections with page reference numbers.

U.S. Call Letters **Section A**

An alphabetical listing of commercial and non-commercial television station call letters including market name and channel number. Included are call letter assignments to CP holders.

Directory of Cable Systems **Section A**

A state by state listing of operating cable systems throughout the U.S., Puerto Rico, Guam, Marianas and Virgin Islands. Included are franchises that have been awarded and are under construction as well as applications pending for franchises. Listings include basic and pay subscribers, programming, equipment in operation, personnel, ownership and more. At the beginning of each state is a summary of the total number of cable systems for that state, total communities served, franchises not yet operating, applications pending, communities with applications, total number of basic subscribers and total number of pay units.

Cable Ownership—U.S. **Section A**

An alphabetical listing, by company name, of persons or companies which have interest in cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.

Cable Ownership Category Index **Section A**

Two alphabetical indices which refer to the Cable Ownership section. The first index lists those cable owners who also have radio or TV broadcast interests. The second lists those cable owners who also have holdings in telephone companies.

Canadian Cable Group Ownership **Section A**

An alphabetical listing, by company name, of major Canadian companies which have interest in cable systems or franchises. Listings include officers, systems/franchises owned, legal/sales/engineering reps., total basic and total pay subscribers.

SECTION B — SERVICES VOLUME

Federal Communications Commission Directory **Section B**

A listing of FCC departments and personnel including major bureau heads and staff.

Congressional Committees **Section B**

A listing of congressional committees handling TV-Radio matters.

Attorneys Practicing Before the FCC **Section B**

An alphabetical list of law firms, attorneys active in communications, and members of the Federal Communications Bar Association.

Consulting Engineers Specializing in TV, Radio & Cable TV **Section B**

An alphabetical list of engineering firms and engineers specializing in television, radio and cable matters.

SECTION B — SERVICES VOLUME

Communications Satellite Corporation (COMSAT) **Section B**

A listing of COMSAT officers, divisions and departments.

Satellite Communications Services (SATCOM) **Section B**

An alphabetical list, by company name, of companies involved in satellite communications services. Listed are the satellites operated by each company as well as their location and number of transponders.

Multipoint Distribution Service (MDS) **Section B**

An alphabetical list, by company name, of companies involved in Multipoint Distribution Service—a common carrier, super-high frequency service authorized to transmit specialized private TV programming or data and facsimile transmissions to customer-selected locations within a metropolitan area. Included in each listing is a list of licenses, construction permits (CPs) held and/or the primary service areas in which they have applied; followed by licensees, permittees & applicants arranged alphabetically in state and city order. Channel numbers, station locations, latitudes & longitudes, tariffs & power have been included. Cities in boldface capital letters denote licensees. Star (*) and boldface capital letters denote grantees of CPs. Asterisk (*) denotes applicants.

Multichannel Multipoint Distribution Service (MMDS) **Section B**

An alphabetical list, by city within state, of cities where MMDS service is in operation. MMDS is a common-carrier, super-high frequency service authorized by the FCC in 1983 to transmit specialized private TV programming or data and facsimile transmissions to customer selected locations within a metropolitan area. Listings in all capital letters denote licensees. Star (*) preceding a listing indicates construction permit(s). All other listings are lottery selectees. Dagger (†) preceding a listing indicates lottery selectees.

MDS/MMDS Ownership **Section B**

An alphabetical listing, by company name, of MDS (Multipoint Distribution Service) and MMDS (Multichannel Multipoint Distribution Service) owners.

Instructional Television Stations (ITFS) **Section B**

A state by state listing of instructional television stations (2,500 MHz) including licensee name, channel number (contained in call letters) and technical data. Also listed are applications and construction permits.

Publications in Television & Related Fields **Section B**

An alphabetical list, by publication name, of publications concerned with communications and related fields.

Market and Audience Research Organizations **Section B**

An alphabetical list, by company name, of U.S. and Canadian companies and organizations involved in market and audience research. Included are firms involved in commercial & program evaluations, national monitoring and other related services.

National Association of Broadcasters (NAB) **Section B**

A listing of NAB personnel, committees, television and radio boards of directors.

NCTA, CATA, Regional and State Cable Associations **Section B**

A listing of NCTA and CATA personnel, committees and chairmen as well as an alphabetical listing of regional cable associations. Following the regional associations is a state by state list of state regulatory agencies for cable television

State Regulatory Agencies for Cable Television **Section B**

An alphabetical listing, by state, of cable television state regulatory agencies and public utility commissions.

Labor Unions and Guilds **Section B**

An alphabetical listing, by company name, of labor unions and guilds involved in television and related fields.

Electronic Industries Association (EIA) **Section B**

A listing of the EIA board of governors, officers and senior staff. Included are groups, divisions and departments and relevant personnel.

CABLE & SERVICES VOLUME

SECTION B — SERVICES VOLUME

Associations and Other Organizations **Section B**

An alphabetical listing, by company name, of associations and other organizations involved in television, cable and related fields.

European Broadcasting Union (EBU) **Section B**

A listing of EBU headquarters personnel and administrative council as well as a country by country listing of active members.

SECTION C — SERVICES VOLUME

Pay TV & Satellite Services **Section C**

An alphabetical listing, by company name, of companies offering Pay-TV & Satellite Services. Included are categories for Pay-TV Programmers, Pay-per-View Services, Satellite Programming Services, Audio Only Services, Text Services, Regional Programming, Planned Services and Canadian Satellite Programming Services.

Television & Cable Program Sources & Services **Section C**

An alphabetical listing, by company name, of companies producing/distributing television and/or cable programming or offering specialized programming services.

Management & Technical Consulting Services **Section C**

An alphabetical listing, by company name, of companies involved in marketing, market surveys, promotion, public relations, engineering, research, management consulting for television stations, radio stations, cable systems and other communications properties.

Brokerage & Financing **Section C**

An alphabetical listing, by company name, of companies involved in sales, financing, appraisals, consulting, mergers, etc. of television stations, radio stations, newspapers, cable systems or other communications properties.

SECTION C — SERVICES VOLUME

Public Relations & Promotion **Section C**

An alphabetical list, by company name, of companies involved in public relations & promotion.

Cable TV Construction & Installation Services **Section C**

An alphabetical listing, by company name, of companies involved in cable television system construction & installation.

Manufacturers & Suppliers of Broadcasting & Cable Television Equipment **Section C**

An alphabetical listing, by company name, of companies involved in manufacturing and/or distribution of television/cable equipment.

Cable Sales Representatives **Section C**

An alphabetical list, by company name, of companies representing cable systems in advertising sales.

Cable Interconnects **Section C**

An alphabetical list, by name, of cable interconnects located throughout the U.S.

Buyers Guide of Products and Services **Section C**

A complete listing of television & cable related products and services as well as companies listed in the *Factbook* that manufacture, distribute and/or service the products or offer the various services listed in the SERVICES section of the Buyers Guide.

Buyers Guide Product Index **Section C**

An alphabetical index of all products and services listed in the Buyers Guide. Included is a page reference number as well as a product reference number for each entry.

Industry Charts **Section C**

Statistics, charts and graphs containing information concerning television, radio and cable.

The End The Means

The Story

If you take broadcasting seriously, Broadcast Investment Analysts' publications are a must for your reference library.

Radio Yearbook—Profiles every Arbitron-rated market and 325 smaller markets, with an in-depth cross reference section. Available annually, or updated versions semiannually/quarterly.

Investing in Radio—Complete market-by-market profiles with information on retail sales, income, advertising revenues, revenue projections and much more.

Broadcast Services Guide—Profiles over 270 firms, including brokers, lenders, investment banks/capital firms, FCC law firms, consulting engineers, programming/research firms, and program suppliers.

Stick Values—Unique "Value Grid" to quickly calculate the value of any FM station in the top 260 Arbitron-rated markets. Plus new, exclusive, specific "stick values" for the various classes of FM stations by market.

Investing In Television—All the information on all Arbitron-rated markets. Available annually or completely updated versions every quarter.

cable and broadcast data

TAKE ADVANTAGE of this unique opportunity to develop the valuable market research you need to:

- Market new products and services
- Pinpoint media acquisitions
- Monitor your competition
- Conduct numerous other types of research & analysis

FOR ACCESS to our TELEVISION & CABLE FACTBOOK DATA as customized reports:

- On 9-track magnetic tapes
- On diskettes
- On printed forms
- On mailing labels

CALL US COLLECT
202-872-9200

WE'LL TREAT YOUR BROADCASTS AS IMPORTANTLY AS THEIRS.

Some of the biggest names in broadcasting rely on GTE Spacenet. So when you come to us for broadcast services, you'll be in good company.

You'll also be making a very popular choice. Last year alone, we carried more than 44,000 hours of news and sports events with broadcasters accessing our satellites over 53,000 times.

One reason so many broadcasters come to us is for our specialized services. Like News Express,[™] a satellite news gathering service for live, on-the-spot coverage. Sports Express,[™] a backhaul service for remote sports coverage. Full-time Transponder Service for program distribution. And Occasional Use Service for special or regularly scheduled events.

Broadcasters also choose us for the customer service we provide. Our computerized scheduling system ensures you'll get access when you need it. Once you're on the air, we monitor your broadcast to assure the highest quality service possible. And when you need customer service, call our toll-free number 24 hours a day, 7 days a week.

So when you have a program to broadcast, call GTE Spacenet. No one will do more to see that your show goes on.

GTE Spacenet

THE POWER IS ON

Television Market Rankings

Listing 211 markets according to Arbitron Area of Dominant Influence Television Households

Asterisk (*) indicates no Prime Time ranking. Arbitron ADI & Prime, TV Household information & rank are based on the 1989 to 1990 Arbitron Television Markets and Rankings Guide.

Market	Arbitron ADI TV Households	Rank	Market Area Commercial TV Stations

Description of Station Directory Section

THE STATION MAPS

The only official and uniform rough guide to a station's physical coverage is found in the files of the Federal Communications Commission. Each TV station grantee is required to submit to the Commission its coverage contours predicted on the basis of engineering formulas designated by the Commission. The FCC specifies three grades of service as a general indication of the probable quality of reception.

The FCC does not intend or expect the predicted coverage contours, submitted by each station, to reflect whether a signal is received or not received at any specific location. Rather, the Commission regards the contours as a general guide to probable reception. The basic use made by the Commission of the contours is as a tool to determine where to allocate channels to minimize interference among stations.

Though all stations and applicants are required to submit predicted contours to the FCC, stations may also file contours based on actual measurements of transmitted signals. Under FCC rules, such filings are not mandatory, and only a relatively few stations have offered such measurements voluntarily. The Commission has no official and uniform rules for measuring service contours; such submissions are associated with stations' files but are not given official status by the Commission.

The maps are intended to serve as guides. It should be emphasized that the use of maps for legal proceedings, such as those before the FCC, may require precision greater than that reasonably obtainable in maps of the size employed in the *Factbook*.

The three grades of predicted contours required by the FCC are as follows:

Grade B Service: The quality of picture expected to be satisfactory to the median observer at least 90% of the time for at least 50% of the receiving locations within the contour, in the absence of interfering co-channel and adjacent-channel signals.

Grade A Service: Satisfactory service expected at least 90% of the time for at least 70% of the receiving locations.

Principal City Service: Satisfactory service expected at least 90% of the time for at least 90% of the receiving locations.

We obtained the predicted contour maps from the FCC files or from the stations. We publish two contour lines, "Grade A" and "Grade B."

(The composite maps and all other contents of this book are copyrighted by Warren Publishing, Inc., publishers of Television & Cable Factbook. The American Map Corp. Reproduction in whole or part is prohibited without written permission of the copyright owners.)

ARBITRON TV STATION CIRCULATION

The counties listed on the station pages represent the home market Arbitron Metro area plus those counties in which the station receives a Net Weekly Circulation of at least 5% according to Arbitron circulation estimates. Each of these counties is then delineated by three circulation categories which include those in which the station's circulation is 50% or more, 25%-49% and 5%-24%. In some instances, counties listed do not appear on the maps, since the reduction in scale required to include them would impair the legibility of the maps.

The station circulation estimates which determined the allocation of each county to the proper category were derived from samples obtained over several survey periods. The estimates were based on Arbitron market surveys conducted during 1989 and 1990.

The Total Households and Television Households which are listed for each county qualifying for inclusion in one of the three circulation categories are current Arbitron projections as of January 1990 (see Definitions of Arbitron Terms).

Net Weekly and Average Daily Circulation totals for each station are based on the above surveys.

(Data from The Arbitron Company are fully protected by copyright. Reproduction in whole or part is prohibited without written permission from the The Arbitron Company, 142 West 57th St., New York, NY 10019.)

DEFINITIONS OF ARBITRON TERMS

Total Households—A household is a single dwelling unit, which may be a house, an apartment, or a group of one or more rooms. The total households figures shown in the current study are Market Statistics estimates projected to January 1, 1990 and rounded to the nearest hundred. These estimates include households on military installations.

Television Households—A television household is an occupied dwelling unit having one or more television sets. Updated estimates of TV households in each county are prepared annually by the Arbitron Research Department.

TV Penetration—The percent of total homes having one or more television sets at the time of the surveys. TV penetration uses current regional penetration estimates derived by the Advertising Research Foundation from U.S. Bureau of the Census surveys conducted in accordance with ARF specifications.

Net Weekly Circulation—The estimated number of different television households viewing a particular station at least once per week, Monday-Sunday, Sign-on to Sign-off.

Average Daily Circulation—The estimated average number of different television households reached by a particular station on each day of the week, Sign-on to Sign-off.

EDITOR'S NOTE: Total Households listed for each station in this Volume of the Television and Cable Factbook do not include households in any county in which the station's circulation is less than 5%. The counties appearing in the circulation report are listed alphabetically by state. The states are arranged alphabetically by two-letter state abbreviations.

SURVEY METHODS, DESCRIBED BY ARBITRON

Arbitron uses one-week, interviewer-supervised family viewing diaries to secure information for television audience estimates. Families are contacted initially by mail to inform them of their selection for the survey. They are then contacted by telephone to secure their cooperation in the survey and to elicit basic information as to television set ownership and number of sets owned in the household. Contact is maintained with the sample families through followup calls to encourage proper recording and prompt return of the diaries.

Sampling is controlled by geographic units of no larger than county size, and in some instances for reasons of population distribution, terrain or technical control a county is divided into two sampling units. Sample homes are selected by computer from all available households with listed telephones in the sampling universe through a systematic interval selection technique with random selection occurring within each interval.

In the Metro and ADI Rating Area, households with unlisted telephones are included in the sample universe by using a list of potential telephone numbers. Known listed numbers, business numbers, nonresidential business exchanges and unassigned number blocks have been eliminated.

The Arbitron family viewing diary measurement technique is used for both market surveys of television viewing and broadscale station circulation information by county.

At least four times each year, Arbitron surveys every county to provide viewing information for every television market in the country. Further details on Arbitron sampling procedures are available from Arbitron.

EXPLANATION OF FCC SYMBOLS

FCC Filing Symbols:

1. BPCT: Broadcast Permit Commercial Television.
2. BMPCT: Broadcast Modification of Permit Commercial Television.

3. DOC: Docket (designation applied by FCC to hearing cases).

4. GRANTED: Date of authorization by FCC.

Note: "BPCT" and "BMPCT" designations, accompanied by numbers, are affixed by the FCC to applications for new or changed station facilities to identify each when it is accepted for filing. They therefore constitute file numbers. Each map in the Factbook is accompanied with its file number to facilitate reference to the Commission's official files. In each case, the file number used is the one affixed to the application for facilities which were subsequently authorized by the FCC and in use at the time this Factbook was published. "Docket" numbers are used in those few cases where the application was in a hearing status and a file number had not been assigned. The "granted" date indicates when the FCC approved construction of facilities involved.

After a station is completed according to the terms of its construction permit, it receives a license; this is identified by a number with a "BLCT" (Broadcast License Commercial Television) prefix. When a license is renewed, a number with a "BRCT" (Broadcast Renewal Commercial Television) prefix is employed. Applications for licenses or license renewals do not include requests for changes in facilities, thus do not affect predicted Grade A & B contours. Therefore, they are not employed as references in the Factbook.

The Grade A & B contours on the maps are predicted by station engineers according to the formulas designated by the FCC, as previously explained. They are based on facilities authorized or in use by stations at the time of Factbook publication.

U.S. Television Station Directory

Data updated to October 1, 1990 unless otherwise indicated. Includes rate digests, personnel, facilities and other data.

THE STATE PAGES

Following the map of each state, rankings for Arbitron's Area of Dominant Influence Television Households are shown. ADI Household Rank is established by Arbitron.

The state pages also carry additional cross-reference material, indicating for example, those stations within the state that are identified with two or more cities, or with cities in another state.

Operating commercial and educational TV stations by VHF and UHF are shown for each state in a status report as of October 1, 1990.

STATION PAGES

Rates, personnel and other data supplied by stations.

RATE DIGESTS: These show only the highest one-time rate charged by the stations. Most rates are also subject to frequency discounts, separate or additional rehearsal charges, talent & production charges, etc. For further details and for contract conditions, specifications etc., consult complete station rate cards, available from the stations on request.

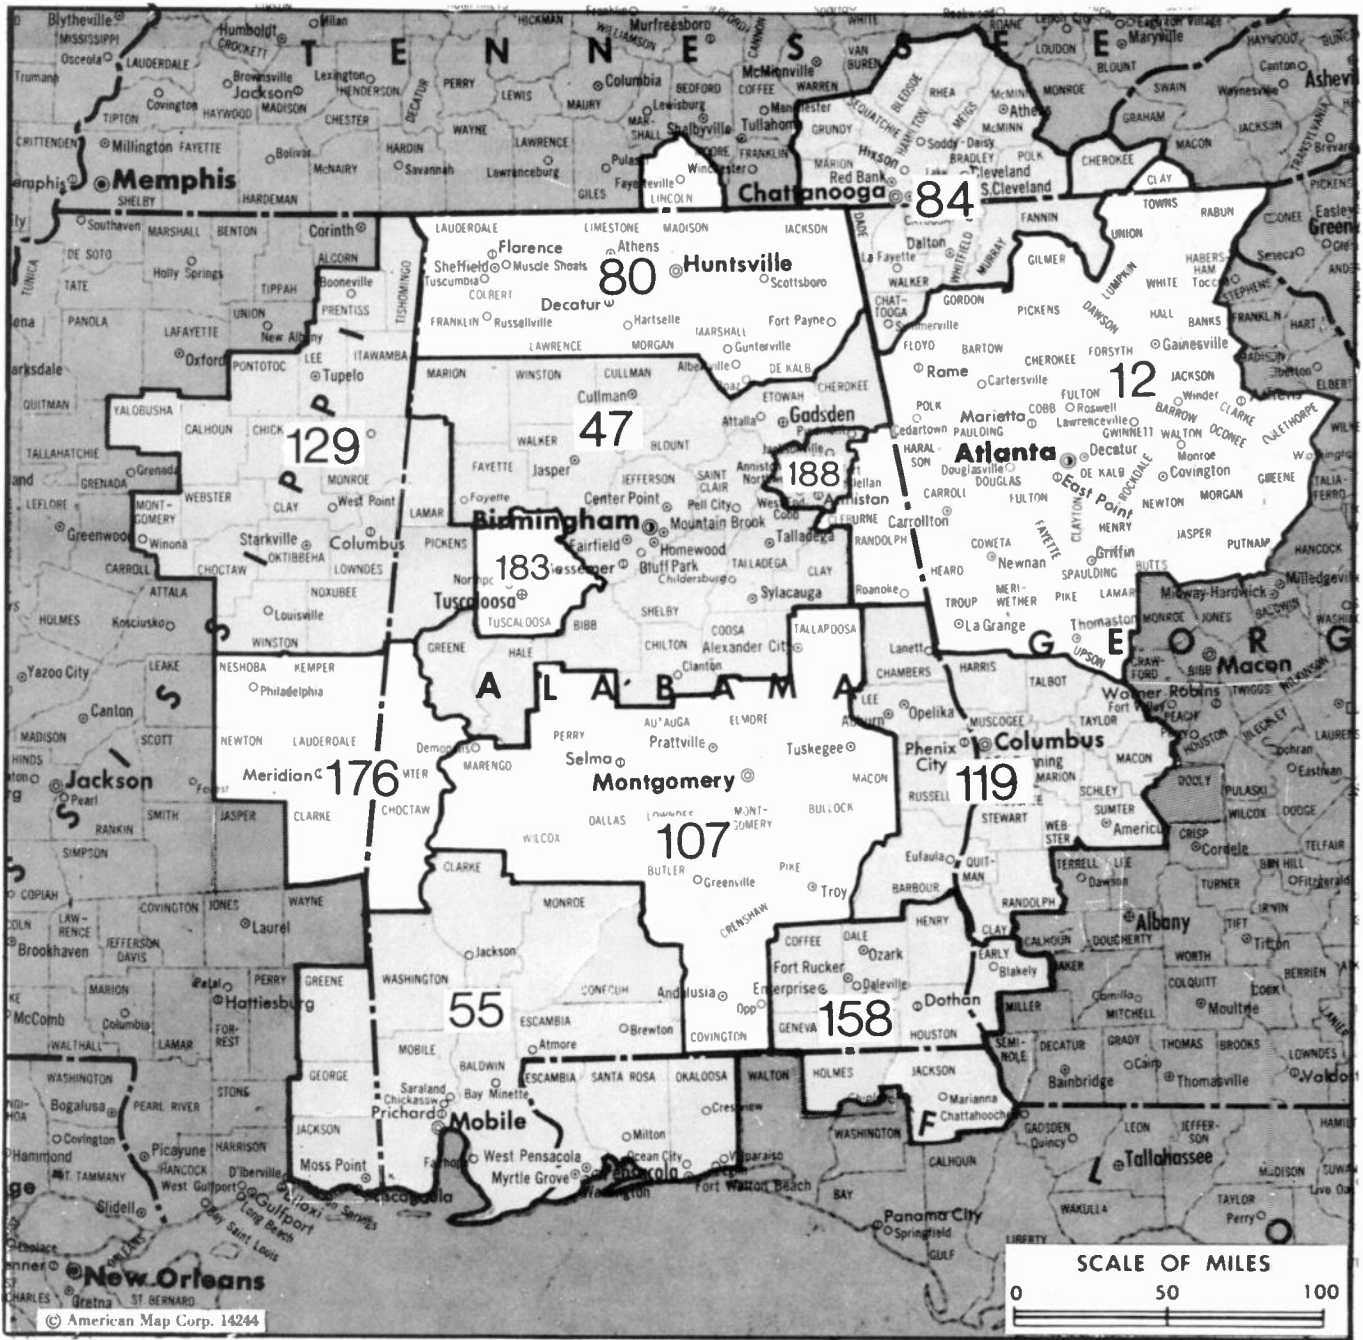

STATION POWER: Powers shown are Effective Radiated Powers (ERP).

NETWORK SYMBOLS (registered trademarks)

The individual station tables show a complete listing of all counties grouped by Arbitron Net Weekly Circulation levels, with Total Households, and TV Penetration in each county individually. For definitions of Arbitron terms, see Introduction.

SATELLITE STATIONS are shown with a dash line pattern in relation to the parent listing. In the satellite listing the parent station is shown with a dash line pattern.

Satellite Earth Stations: Comtech, 5-meter C-band; Comtech, 3.8-meter Ku-band; Pinzone receivers.

Ownership: Astroline Communications Co. L.P.

Began Operation: August 4, 1954 as WGTH-TV, 55% owned by General Teleradio and 45% by Gannett's Hartford Times. Sale to CBS approved Feb. 23, 1956 by FCC; transfer reinstated by FCC Sept. 11, 1956 after being held up by protest (Television Digest, Vol. 11:28, 12:8, 17, 37). After CBS took station off air Nov. 15, 1958 (Vol. 14:45), sale to Edward D. Taddei and associates approved by FCC Dec. 23, 1958 (Vol. 14:46, 49) and station returned to air on Jan. 24, 1959. Transfer to RKO General subsidiary Hartford Phonevision Co. approved June 1, 1960 (Vol. 16:14, 23). Assignment of license to Faith Center approved Feb. 16, 1972. Distress sale by Faith Center approved Sept. 27, 1983, contingent on finding Interstate Media to be suitable licensee & consummation of assignment within 90 days. Final approval granted Dec. 23, 1983; sale not consummated. Subsequent sale to present owners by Faith Center approved Dec. 10, 1984 (Vol. 24:40, 51).

Ownership: Burnham Broadcasting Co. (Group Owner).

Began Operation: December 17, 1958 on Ch. 13, and on Jan. 28, 1959 FCC granted temporary Ch. 13 operation by New Orleans Television Corp. (Television Digest, Vol. 14:51; 15:5). Supreme Bcstg. Co. started operation on Ch. 20 Nov. 1, 1953, using WJMR-TV call letters. In Oct. 1957, WJMR-TV began experimental operation on Ch. 12 but FCC ruled in 1958 that this operation was to close by Jan. 1, 1959 but WVUE did not begin on Ch. 12 until Sept. 1, 1962. Sale of 60% by New Orleans Television Inc. (Joseph A. Paretti and associates) to Screen Gems and contingent transfer by Rust Craft of its 40% to Screen Gems approved June 2, 1965 by FCC (Vol. 5:8, 23). Switched to Ch. 8 June 8, 1970. Sale to Gaylord Bcstg. approved by FCC June 30, 1977 (Vol. 16:26; 17:28). Sale to Burnham Bcstg. L.P. by Gaylord approved by FCC June 8, 1987 (Vol. 26:47; 27:3).

Become a Subscriber to the information service—from the publishers of Television Digest—that will keep you informed about the consumer AUDIO industry in less than 20 minutes per week...

AUDIO WEEK

Finally, your chance to receive *focused* consumer audio coverage. Coverage that's supervised by Television Digest editorial director Dave Lachenbruch, "recognized by those in the press and at the major hardware companies as the dean of electronics reporters" (Videography) and by **Audio Week** managing editor Paul Gluckman, formerly editor of Audio Times magazine. They lead a team of veteran correspondents in New York, Washington, Tokyo, Frankfurt and London, and bring you the same caliber of *audio* news coverage as has won Television Digest such widespread recognition in covering television, cable and video consumer electronics.

Audio Week's sole purpose is to inform *you*, the consumer audio decision-maker. **Audio Week** carries *no* advertising. Our intent is strictly to provide you with the *one* "must-have" information tool that will give you a leg up on your competition. Every week in **Audio Week**, you'll get up-to-the-minute coverage of all major audio issues. Forthright, hard-hitting, independent reporting! **Audio Week** is responsible *only* to its subscribers. Responsible only to *you*. Responsible for producing the facts, without coloration or outside influence. Just as we've done with our other information services for the 44 years we've been in business.

Audio Week is already developing a one-of-a-kind Audio Industry Index of Leading Economic Indicators with the help of The Verity Group, a noted Los Angeles-based market research and consulting firm. **Audio Week** and Verity systematically canvass a predetermined sample of audio retailers representing a cross-section of the industry, and report each week on various trends in unit sales, inventories and store traffic (the very information that has been so difficult to come by in the past!). Each week's Index offers insights into the ups and downs of major audio product categories. **Audio Week** also brings you the latest export and Commerce Department statistics. And plans are in the works for the near future to track factory unit sales and inventories as well.

11 WAYS YOU WILL BENEFIT PERSONALLY FROM SUBSCRIBING TO AUDIO WEEK...

1. You'll stay on top of your fiercely-competitive industry with weekly "focused" coverage.
2. You'll be part of a weekly forum of other executives who make audio their number one priority.
3. You'll be *better* informed—your business decisions will be more solidly based—your subscription will pay for itself again and again.
4. You'll get the news ahead of your competitors who depend on slower and less independent news sources.
5. You'll keep up with audio retailing week-by-week by following the Industry Index of Leading Economic Indicators that **Audio Week** will carry as a regular back-page feature.
6. You'll get weekly reports of personnel changes throughout the audio industry—you'll follow the careers of the movers and shakers.
7. You'll receive independent, provocative reporting from a publication supported *only* by its subscribers.
8. You'll be in touch with all major audio issues, providing you with an impressive and continuous grasp of your industry.
9. You'll take advantage of our wealth of editorial experience, sustained over nearly half a century of communications and high-technology journalism, giving you *trustworthy* information.
10. You'll receive comprehensive weekly coverage *for a whole year* at a cost that is probably less than you would spend for a very brief business trip.
11. You'll have the option of receiving **Audio Week** via first class mail or via electronic or facsimile delivery anywhere in the world on the day of publication.

Transmitter: U.S. Hwy. 11, approx. 1.2-mi. N of Eastabutchie.

Satellite Earth Stations: Harris, 8-meter; Harris, 3.5-meter; Avcom, Harris, M/A-Com receivers.

News Service: AP.

Ownership: Federal Broadcasting Co. (Group Owner).

Began Operation: June 8, 1956 on Ch. 9. Two months later WDSU-TV, New Orleans, acquired 51% interest, with remaining 49% being held equally by 4 founding partners, Dave A. & Harold M. Matison and Milton J. & Alvin H. Fine (Television Digest, Vol. 12:31, 38). Plant was sold to owners, who held CP for Ch. 7, Laurel, MS; when WDSU-TV received FCC authorization to shift WAFB-TV, Baton Rouge from Ch. 28 to Ch. 9 pending outcome of hearings, new owners began operation on Ch. 7 Sept. 3, 1959 (Vol. 13:44; 15:36). Sale of 43.75% to S. A. Rosenbaum as well as stock to Marvin Reuben & Jerry P. Keith by William S. Smylie family approved Dec. 7, 1960 by FCC (Vol. 16:49, 50). Sale to Beam Communications approved July 27, 1983. Sale to present owner approved Aug. 2, 1990.

Video Week is the widely-respected information service that will keep you *informed* about your industry in just 20 minutes per week.

If you have a real stake in any area of the *home video industry*, you literally cannot do without it! **Subscribe now!**

Video Week is a weekly information service devoted to the business of program sales and distribution for videocassettes, discs, pay television and allied media.

Video Week is filled with the kind of practical, level-headed information that is invaluable to anyone involved in the home video industry. And let's face it, information is *crucial* to your business success. Markets. Merchandising. Mergers. Finance. Competition. Litigation. Programming. **Video Week** covers it all!

Video Week offers you more content, more scope, more depth and more currency than any other publication in the home video field. And with video, cable, satellite dishes and allied fields growing more interrelated every week, action in any one sector can trigger profound changes throughout the entire industry. **Video Week** allows you to enlarge your perspective . . . to keep up with the entire industry in a single, weekly, authoritative report.

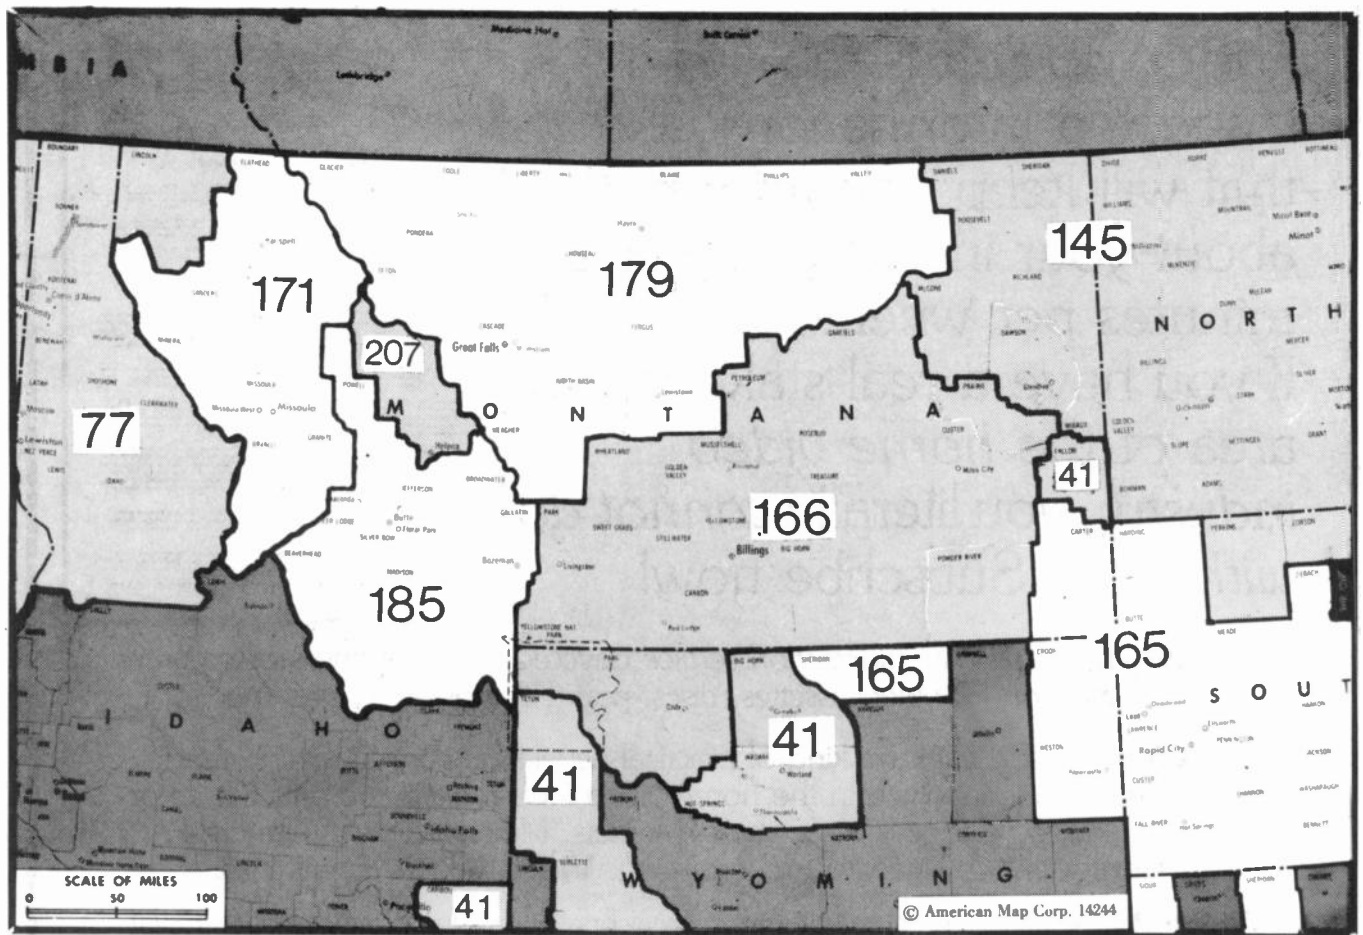

With your weekly subscription to **Video Week**, you'll be the *first* to know all about:

- pre-recorded cassettes and VCRs
- pay TV basic cable
- pay-per-view
- direct broadcast via satellite
- home computers and games

And **Video Week** has an extensive network of correspondents that cover the Congress, the courts and the FCC, to ask the questions that *need* to be answered. These seasoned reporters consult with industry leaders, advertising agencies, producers, manufacturers, distributors, duplicators. They gather information, reaction and speculation about developments from key contacts established in the almost 10 years since **Video Week's** start . . . and in the nearly half a century since the start of Television Digest.

Shouldn't you be taking advantage of all this critical information each and every week? After all, *each issue* of **Video Week** is actually an *early-warning system* about what leaders in the home video industry are thinking and saying about key issues, mergers and acquisitions, antitrust, programming and copyright law.

For subscription information, call collect: **202-872-9200.**
