Program an ad message here next year

Our most recent study of some 4,000 subscribers to the **Television & Cable Factbook** has shown that the programming section of both volumes of our industry resource is the second most used of all. It ranks just behind the sections on station or cable ownership in number of times to which it is referred.

Almost 80% of those responding to the survey were in the top six categories of job responsibilities: Chairman, President, Vice President, General Manager, Manager or Director. Television stations, cable systems and MSOs and equipment manufacturers and distributors comprise the largest segment of buyers of the **Factbook**...in fact, they account for about half the sales each year.

Programmers, advertising and consulting organizations also buy and use the **Factbook** regularly. And they buy it four out of five years. Most have been buying it an average of nearly 10 years.

Point is, if you want your advertising message to reach the key people who refer to this section daily or weekly *every month of the year*, you need to put the **Television & Cable Factbook** at the top of your media list. You'll reach some 23,705 different decision-makers and influencers who will refer to information in the *Program Sources* and *Pay TV* sections as many as 241,000 times every month. Your message will receive nearly 3 million impressions in the course of a year!

It makes sense to plan right now for a position in next year's book. A single page ad, spread, even inserts and specialty packaging can be a part of your media plan to reach the people in our business who say "Yes" and buy!

For a comprehensive media kit, to make reservations or for any information you'd like to have about the survey, contact Gene Edwards, Advertising Sales Director, 202-872-9200.

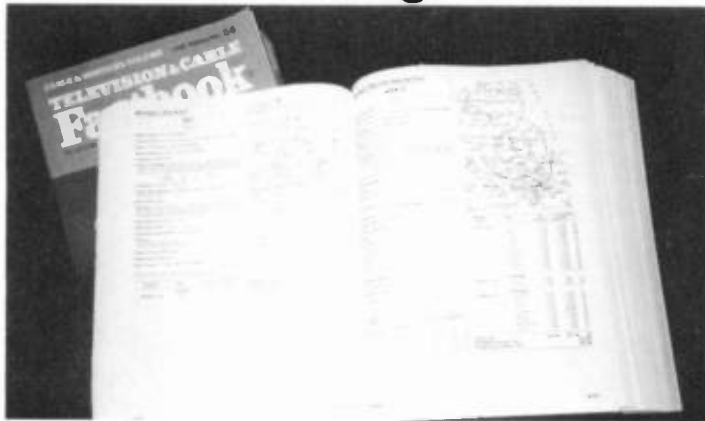

Television & Cable Factbook

Managers Programmers Engineers Financial wizards

...have one thing in common.

It's been around so long most people take it for granted. But all 23,705 of them refer to it over 241,000 times on average each month! Where else can the people you want to sell your products or services get the names and numbers and data that are so important to decision-makers and influencers?

If your advertising program is suffering from a weak budget, maybe you should be in the 'bible of the business'...the **Television & Cable Factbook**. A single ad in this important industry resource is a 'year-round campaign' that will continue to showcase your message.

Remember, the **Television & Cable**

Factbook is not a 'shelf item'. It's used monthly, weekly, daily, even hourly by mostly upper-level and mid-level managers. It's used *regularly* more than twice as often as Broadcasting's *Yearbook*. And for television and cable needs, there's less waste circulation.

If you want them to *buy*...you'd better *sell* them...in the **Television & Cable Factbook**. Contact Gene Edwards, Advertising Director, for space reservations and rates. Our media kit will tell you even more about us. The time to plan for next year is now!

Buyers Guide

that helps you find products faster!

Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific field can be found in the Buyers Guide.

Listed after the name of each product category is a product **NUMBER** that will help you find product categories even faster than before! This 8 digit number contains a **PRIMARY** number (the first 4 digits) followed by a **SECONDARY** number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the **BUYERS GUIDE**.

Listed at the top of each page is the **PRIMARY** product number to help guide you to the correct category.

— OR —

You can use the Buyers Guide Questionnaire (see following pages) to find the **NUMBER** assigned to a particular product and then find it by number within the Buyers Guide.

The Buyers Guide Questionnaire lists product categories **IN THE SAME ORDER** that the products are listed in the **BUYERS GUIDE**.

For example: 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the **PRIMARY** number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

Key to Abbreviations

- (m) — manufacturer
- (r) — repair
- (d) — distributor
- (s) — service
- (p) — producer (i.e. film, etc.)

BUYERS GUIDE EXPLANATORY NOTES

The Television & Cable Factbook BUYERS GUIDE is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid BOLD-FACE BUYERS GUIDE advertisers*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.

BUYERS GUIDE PRODUCT INDEX

An alphabetical listing of all products and services listed in the **BUYERS GUIDE** that precedes this section. Immediately following each entry is the page number where company listings for that product/service can be found. Also included in each listing contained in this Product Index is an 8 digit number that corresponds to the number assigned to products in the **BUYERS GUIDE**.

The concise, easy-to-digest, well-organized information service that allows you . . . in just minutes each week . . . to keep up with the latest, most accurate, relevant, indispensable information covering the entire telecommunications industry.

COMMON CARRIER WEEK

Common Carrier Week is *the* authoritative weekly news service for the telecommunications industry.

Each issue uncovers proposed regulation changes, looks at successful (and unsuccessful) business strategies, comments on new equipment and services, reports on what the decision-makers in the industry are up to, and provides the key intelligence that busy telecommunications executives *need*.

Common Carrier Week is presented in a way that makes the information you're looking for easy to find. There's a logic to each issue—you can scan the spot you're looking for and find your relevant information instantly.

Common Carrier Week will give *you* the advance intelligence to move quickly to make the management decisions that will help your business move ahead. Each week you'll receive hard-nosed business advice from the award-winning team of journalists who also keep the top leaders of the communications industry informed every day with Communications Daily.

The weekly executive information service devoted to international satellite communications...

SATELLITE WEEK

Satellite Week is the trusted source for all the fast-breaking news in space technology and communications.

Satellite Week is a weekly briefing of satellite business news presented in a crisp, concise editorial style. It is concerned *entirely* with space technology and communications.

A subscription allows you to keep pace with the latest in satellite communication technologies, learn what other industry leaders are doing that could affect your plans, keep current with changing developments in satellite programming and marketing, be forewarned of domestic and international regulation and deregulation, and follow the mergers, acquisitions and future plans of your competitors.

Wherever international developments occur in the global satcom industry, Satellite Week will enable you to follow them. Whatever the key issues concerning satellites and satellite communications, Satellite Week is your most accurate source of news. For up-to-date coverage, features and interviews, only Satellite Week has the information you need.

For subscription information, call collect: (202) 872-9200.

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canada and Mexican borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified.

All we need is a minute of your time.

Just :60 of prime time to get our recruiting message out.

Because more than ever before, it's a message that deserves to be heard.

The National Guard makes up about one-half of our nation's combat forces. And we need men and women to help keep us strong—ready to protect your community and defend your country.

It's a commitment that takes dedication. Guardsmen give at least two weeks a year and two days every month to the Guard—and to you. Is a minute of your time really too much to ask?

Run our spots whenever possible. And if you can't spare a minute, we'll settle for :30. Even :20 or :10.

To obtain free dubs of Air and Army National Guard PSAs write: National Guard Bureau, Advertising Distribution Center, P.O. Box 1776, Edgewood, Maryland 21040, Attn: SMSgt Pat Campbell.

Americans at their best.
