Key to Television Listings

Television listings include TV stations in the United States, its territories and Canada. All collected data for these listings include information current to January 1994. To use the television key, see boldface numbers and corresponding explanations.

(1) WOF-TV—(2) ch 17, 2,200 kw vis, 20 kw aur, ant 500t/300g. TL: N36 49 21 W108 47 32. (CP: ant 750t/550g). **(3)** On air date: April 13, 1952. **(4)** Box 100, 71701. (909) 555-1000. FAX: (909) 999-9999. **(5)** Licensee: WOF Bcstg Co. **(6)** Group owner: Acme Stations, see Cross-Ownership (acq 7-20-69; \$2 million; **(6a)** FTR 3-6-87). **(7)** CBS, NBC. Sp 2 hrs wkly. **(8)** Rep: Jones, Tri-State. Wash atty: Goltz & Stick. **(9)** Jud Jones, pres & gen mgr; D. Spark, chief engr. **(10)** On 6 CATVs—20,000 subs. On 10 trans. **(11)** Co-owned radio: WOF-AM-FM. **(12)** Rates: \$100; 83; 70.

(1) Station call letters as assigned by the Federal Communications Commission (FCC) or Canadian Radio-television and Telecommunications Commission (CRTC).

(2) Channel, power, antenna, location and construction permit. WOF-TV operates with 2,200 kilowatts (effective radiated power) visual and 20 kilowatts aural. Its antenna is 500 feet above average terrain and 300 feet above ground. "N36 49 21 W108 47 32" refers to the geographical coordinates (latitude and longitude) of the transmitter location. WOF-TV holds a construction permit for an antenna height change to 750 feet above average terrain, 550 feet above ground.

(3) Date station first went on the air (regardless of subsequent ownership changes).

(4) Address and zip code, telephone and FAX number. Teletype Writer Exchange may also be included.

(5) Licensee name.

(6) Ownership and date of acquisition (if not original owner). If a station has been sold, any available sale information is listed

following the acquisition date. WOF-TV is owned by Acme Stations, which also owns several other broadcast properties. For details on group owners, see *Group Ownership* listings in Section A. WOF-TV also has print media connections, which are detailed in the *Cross-Ownership* listings, also in Section A. Principal stockholders of independently owned stations may also be listed.

(6a) FTR date refers to *Broadcasting & Cable* magazine's weekly "For the Record" column, where station sales are recorded as received from the FCC.

(7) Network and foreign language programming. The primary WOF-TV national network is CBS, the secondary affiliation is with NBC. The station broadcasts two hours of Spanish programming per week.

(8) Representatives and Washington attorney. Sales representatives are listed with the national rep first, then regional.

(9) Key Personnel.

(10) Cable systems, subscribers and translators. WOF-TV is carried on six cable TV systems with a total of 20,000 subscribers, and on 10 rebroadcasting translators.

(11) Co-owned radio. WOF-TV has the same licensee as WOF-AM-FM.

(12) Advertising rates. This data indicates the prices the station charges for a 30-second spot during the following time slots: primetime; early fringe; daytime, respectively. If a time slot is not applicable "na" replaces the rate.

An asterisk (*) preceding station call letters indicates noncommercial stations.

Note: Listed beneath each city heading is the ranked market Area of Dominant Influence (ADI) in which the city falls. ADI details are presented in the ADI Market Atlas on page C-123.

Broadcasting & Cable

COVERS THE WORLD

If you're involved in television anywhere in the world, you should be reading the magazine that covers the world like no other, *Broadcasting & Cable*. Never before has getting the latest news and information been so important to your industry. Subscribe to *Broadcasting & Cable* and stay on top of the world.

Broadcasting & Cable covers *your* world. Our special reports include vital subjects like Telcos, Satellites, Radio & TV Software, Advertising, Equipment, Movie Packages, Radio Syndication, Cable Marketing, Children's TV, and Journalism. We cover the important conventions including NAPTE, MIP-TV, NAB and MIPCOM. And we cover the news of the industry, as it happens, with a new issue every week.

Why Subscribe?

At last, the global potential of broadcasting is being realized. Whether by radio frequency, wire, fiber optics, satellite or microwave transmission, more radio and television signals are being distributed to more people in more places around the world every day. Digital compression technologies, 500-channel cable systems, telcos in television, booming expansion in Europe—it's an exciting time to be in broadcasting. And a great time to subscribe to *Broadcasting & Cable* and keep up with it all.

IMMEDIATE ATTENTION! To *Broadcasting & Cable* Order Dept.

San Juan—WLI(TV) Caguas (ch 11).

Experimental Television Stations

The following is a list of the experimental television stations authorized by the FCC as of January 1994.

Advanced Television Test Center—Alexandria, Va. Private, nonprofit corporation that tests high definition (HDTV) transmission systems for new U.S. terrestrial TV standard. Provides testing & other support to FCC Advisory Committee on Advanced Television Service and to industry in evaluating advanced TV options. Members: Capital Cities/ABC, CBS, NBC, PBS, Electronic Industries Association, Association of Independent Television Stations, Association for Maximum Service Television,

National Association of Broadcasters. Executives: Peter M. Fannon, exec dir; Charles W. Rhodes, chief scientist.

Blonder Broadcasting Corp.—WEXP-TV Hoboken, N.J., operates on UHF chs 27 & 28 with low power. Experimental testing of proposed HDTV systems, 3-D TV systems, terrestrial bcst reception, psychometric TV picture quality. Executive: Isaac S. Blonder, pres.

Channel 7 Inc.—WSTE(TV) Ponce, P.R., operates an experimental TV stn on ch 7 using 5.01 kw visual, 100

kw visual and 316 kw visual from three transmitter locations in Puerto Rico.

Dielectric Communications Antennas—KA2XZV Cherry Hill Twp., N.J. Chs 2 to 69, 54-88 mhz and 174-806 mhz, authorized to use up to 100 kw visual in the lower-VHF band, 316 kw visual in the upper-VHF band, and 5,000 kw on UHF chs up to ch 69.

King Broadcasting Co.—KHNL(TV) Honolulu (ch 13) operates a co-ch TV transmitter.

Television Assignments by State

The following table of assignments contains the channels designated for the listed communities in the United States, its territories, and possessions. Channels designated with an asterisk (*) are assigned for use by noncommercial educational broadcast stations only. A station on a channel identified by a plus (+) or minus (-) mark is required to operate with its carrier frequencies offset 10 kHz above or below, respectively, the nominal carrier frequencies.

Footnote: 1) Following the decision in Docket 18261 (amendment of rules regarding geographic reallocation of channels 1-20 to land mobile radio in the 25 largest urbanized areas of the U.S.) channels so indicated will not be available for use until further action by the FCC. 2) Operation on this channel is subject to the conditions, terms and requirements set out in the report and Order in Docket No. 19075, RM-1645, adopted Jan. 5, 1972, released Jan. 7, 1972, FCC 72-19 (Added 72-19, 1/7/72). 3) This channel is not available for Elgin, Ill., unless and until FCC determines it is not needed at Joliet, Ill. 4) Stations using these assignments shall limit radiation toward stations on the same channel in Puerto Rico to no more than the effective radiated power which would be radiated by an omnidirectional radio station using maximum permissible effective radiated power for antenna height above average terrain, at the minimum distances from such stations specified in §73.610(b). The FCC shall consider the status of the negotiations with the appropriate British authorities concerning these allotments when the applications for construction permits come before the FCC.

Arbitron ADI Market Atlas

The Area of Dominant Influence (ADI) is a geographic market design that defines each television market exclusive of others, based on measured viewing patterns. Each market's ADI consists of all the counties in which the home market stations receive a preponderance of viewing, and every county in the continental U.S. is allocated exclusively to one ADI—there is no overlap. The total of all ADIs represents the total television households in the U.S.

The ADI is a standard market definition. As a television buying tool it is a geographical and demographic means for maximum efficiency. As a station tool it is a geographic and demographic means for maximum efficiency. As a station tool it has applications for sales, programming and promotion planning.

Following, in alphabetical order, are Arbitron's 209 ADI markets for 1993-1994 with coverage maps for each, and county by county breakdowns of TV households. Other data includes the markets' stations, their cities of license, channel numbers and network affiliations.

Coverage maps show total survey areas in light shading, the ADIs themselves outlined in black, and Arbitron Metro rating areas in white. The survey areas consist of all counties in which the home market stations are viewed to a significant extent, including via cable. The Metro Areas usually conform to U.S. Census Standard Metropolitan statistical areas.

Non-ADI markets do not meet Arbitron's criteria for having an ADI of their own. They are listed with the ADI of which they are a part.

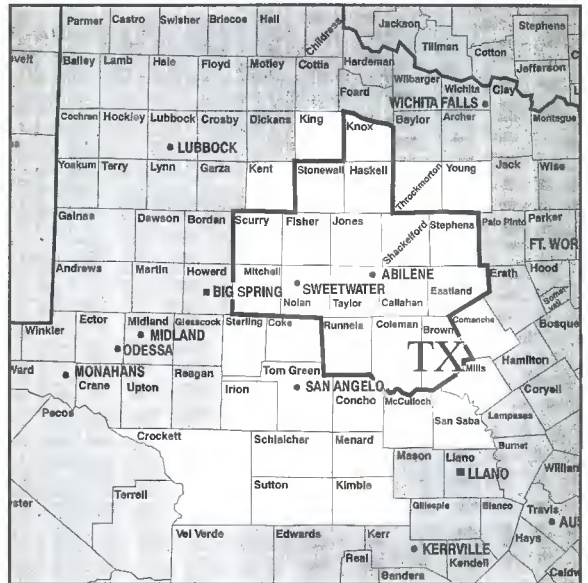

A cross-reference list of cities in multi-city ADIs appears on C-201, and a listing of the non-ADI markets appears on C-202.

Non-ADI Markets

The following single-county markets did not achieve ADI status because the preponderance of viewing is not to the home-market station. Neither did they meet the criteria of the 10% Rule to become an ADI. The home counties in Non-ADI markets are assigned to the ADIs that do receive the preponderance of viewing.

Non-ADI market	Home county	ADI where located	Non-ADI market	Home county	ADI where located
Akron, OH	Summit	Cleveland	Lakeland, FL	Polk	Tampa-St. Petersburg

*Indicates ADI status achieved but elected to remain non-ADI.

Television Markets Ranked by Size

Listed here are the television markets of the United States ranked in descending order by the number of television homes they contain. Also shown are the numbers of women, men, teenagers and children in each market and the percentage of the total U.S. population each represents.

All data is from The Arbitron Company and represents the Arbitron television household and population estimates for the 1993-1994 season.

TV Markets by Nielsen Marketing Research Territory

Nielsen Marketing Research territory groups are another standard way of reporting sales data. The following table ranks TV markets, known as Designated Market Areas (DMAs), within each Nielsen territory. This provides a yardstick for determining the number of spot markets needed to achieve a given coverage of territory. For example, if the national media are not delivering sufficient advertising weight in New England, the planner will find that three TV markets, (Boston, Hartford and Providence) contain over 75% of New England territory households. The planner can also use the table to get a better idea of what TV markets are needed to cover all of New England. Data is from the Nielsen Station Index with tabulations based on a January 1994 estimate.

DMA	TV Households	Territory %	Total U.S.%	Rank	DMA	TV Households	Territory %	Total U.S.%	Rank
New England					Erie				
Boston	2,104,900	45.6	2.247	6	Terre Haute	150,560	1.2	.160	143

The Top 100 Companies

The following charts list the top 100 companies publicly reporting electronic communications-related operations for 1992. The companies are separated into specific categories including Broadcasting, Programming, Technology, Cable, and Agencies and Services. ECI revenue comprises a company's business interest in radio, TV, cable, satellite, allied services and manufacturing. Items not included in ECI revenue for programmers include revenue from theatrical releases and the home video market. For manufacturers, it includes revenue from sales of television sets or products for the general public not built specifically or primarily for Fifth Estate commercial use. All data was obtained from *Broadcasting Magazine's* "Top 100 Companies in Electronic Communications". ECI estimates were provided by the companies, securities analysts and industry associations. NM=not meaningful.

14. Motorola	\$39.8	17.0%	1%	\$453.0	-0.2%

**Kodak went from a net of only \$17 million last year to \$1.1 billion this year, an apparent jump of almost 7,000%. The numbers make more sense, however, when one accounts for a \$1.032 billion write-off from 1991. Without the '91 write-off, Kodak's performance improved about 11% in 1992.

†Negative earnings reflect interest payments to Spanish parent company Pesa, not actual losses, according to the company.

†Profit attributable to ordinary shareholders.

How Network Delivery Varies by Market

National advertisers use spot television to increase network advertising weight in specific markets to achieve a predetermined level. These market goals are derived from the advertising budget and the market's share of the brand's projected sales. Thus, a spot schedule is usually indicated where a market has an unusually high brand-sales potential, or where the network weight delivered for the brand is below the national average used in planning, or both.

The first factor, market brand potential, varies by product and is difficult to generalize. The second factor, local market network audiences, must be generalized because planning is based upon next season's *anticipated* network perform-

ance. The prevalence of network package buys, which tends to deliver average audience levels, supports the use of average data.

The following tabulation, chosen especially for *Broadcasting & Cable Yearbook* shows Arbitron Television's Areas of Dominant Influence (ADI) in total number of U.S. TV households. Also listed, in percentage, are the network audiences in each ADI market during prime-time hours. It is this market audience figure, when compared to the market's share of the population, that indicates whether the network commitment will perform above or below the national plan average in that market.

¹ Includes stations with Special Temporary Authorizations, which either had not started operations as of this date, had started but had gone dark, or had received authorizations but turned them back with or without operating.

² Includes 2 licensees that had suspended operation and 37 stations with STAs in same category as footnote 1.

³ Includes 7 licensees that had suspended operation and 40 stations with STAs in same category as footnote 1.

⁴ Includes 6 licensees that had suspended operation and 38 stations with STAs in same category as footnote 1.

⁵ Includes 10 licensees that had suspended operation and 38 stations with STAs in same category as footnote 1.

U.S. Television Audiences

According to Nielsen Media Research, 98.3% of all U.S. homes (including Alaska and Hawaii) were television equipped as of October 1993. Homes equipped with color television sets totaled 91.5 million or 98% of all television homes. The extent to which television sets were used is indicated in the following tables.

Television Usage per Home per Week (hours and minutes)

	7 am- 1 pm	1 pm- 4:30 pm	4:30 pm- 7:30 pm	7:30 pm- 8 pm	8 pm- 11 pm	11 pm- 1 am	1 am- 7 am

Global Media Awards

FOR EXCELLENCE IN POPULATION REPORTING

1994 CALL FOR ENTRIES

Join the elite journalism corps of 225 previous winners of the Global Media Awards and do your part for humanity.

The Population Institute invites you to nominate a worthy news organization or candidate for this year's awards.

Werner Fornos

News organizations are invited to interview Werner Fornos, the President of the Population Institute, on issues of paramount importance in the 21st Century. For scheduling contact the Information Department at 202-544-3300.

The Population Institute

For 25 years the reliable source in population and family planning information.

THE POPULATION INSTITUTE PRESENTS
**THE GLOBAL MEDIA AWARDS FOR EXCELLENCE IN
POPULATION REPORTING**

**AT "THE PEOPLE'S
SUMMIT," INTERNATIONAL
CONFERENCE ON
POPULATION AND
DEVELOPMENT**

**CAIRO, EGYPT
SEPTEMBER 3-15, 1994**

Award's Purpose

The Population Institute's Media Awards are devoted to drawing attention to worldwide population issues. The awards are given to those who have contributed to creating awareness of population problems through their journalistic endeavors in a meritorious manner.

The Population Institute is dedicated to making population an international priority by fostering awareness of population issues and their relationship to resources and the environment. It seeks to develop strong leadership prepared to design and implement rational and humane solutions to population problems throughout the world.

The Population Institute, a private, non-profit public interest group, is interested in encouraging individual editors, news director and journalists to acquire a more in-depth knowledge of population issues, as well as helping stimulate high standards of journalism.

Guidelines

1. The awards for excellence in population reporting are made by a distinguished Panel of Judges. The judges exercise their independent and collective judgement.
2. Entries may be made by any individual or organization from material appearing in the print and electronic media.
3. Entries must be submitted in writing to the Population Institute and accompanied by justification for entry, as well as a photo and biographical sketch of the nominee.

4. Eligible works must have been published or aired between January 1, 1993 and June 30, 1994.
5. Any media, including previous winners, are eligible for consideration each year.

Categories

1. Best Columnist
2. Best Individual Reporting Effort
3. Best Major Daily
4. Best International Daily
5. Best Periodical
6. Best Cartoonist
7. Most Conscientious News Service
8. Best Editorial Support for Solutions to Populations Problems
9. Best Radio Program
10. Best T.V. Documentary
11. Best Population/ Environmental Reporting Effort
12. Best Team Reporting Effort
13. Best Population Journal
14. Best Combined Media Effort on Behalf of Population
15. Best Commercial Advertising Campaign

All awards are given for distinguished examples of reporting on population issues. Nominees for the awards include institutions or journalists. All works are to be characterized by a high quality of

writing and factual reporting. Multiple awards may be given within certain categories. It is the intent of the Panel of Judges to recognize work in all categories.

How to Submit

Entries must be submitted in writing and addressed to Sophie W. Mwangi, Global Media Awards Coordinator, the Population Institute, 107 Second Street, NW, Washington, D.C. 20002. Each entry should be accompanied by a statement as to why the nominator thinks this particular entry merits a Media Award. Entries must also be accompanied by a copy of the material published or aired, including the name of the media outlet and date of its use. No entry fee required.

For more information, call the Population Institute at (202) 544-3300, or fax 202) 544-0068.

Deadline

The deadline for entries is June 30, 1994. All eligible works must have been published or aired between January 1, 1993 and June 30, 1994.

What You Win

Each winner will receive an expense paid two-week study-tour to Egypt where they will be able to cover the People's Summit (ICPD), and examine family planning programs and special efforts the country has undertaken to slow down population growth.
