Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based on average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.

# U.S. Radio Markets: Population Ranking

This chart ranks the 287 radio markets by Total Survey Area population (see also the preceding chart of ranking by Metro Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2003. Data reflects the Spring 2003 Arbitron market definitions. A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See U.S. Radio Markets beginning on pg D-755 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

# U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 287 radio markets by Metro Survey Area population (see also the following chart of ranking by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2003. Data reflects the Spring 2003 Arbitron market definitions. A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See U.S. Radio Markets beginning on pg. D-755 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

# U.S. Radio Markets

The following is the Arbitron population ranking for Spring 2003, based on markets definitions at the time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to August 14, 2003.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.
