<sup>1</sup> Dwelling units are defined as the living quarters occupied by one household. They are classified as occupied if they were occupied at the time of enumeration in the Population Census.

<sup>2</sup> Urban areas are made up in general of cities and other incorporated places having 2,500 inhabitants or more.

<sup>3</sup> A unit was enumerated as having a radio if it contained a usable set or one only temporarily out of repair, and adjusted to include a portion of the families not reporting on the radio question.
