**Financial and Operating Data Relative to
Standard Broadcast Stations and Networks**

STANDARD BROADCAST STATIONS AND NETWORKS

Section B contains financial and employee data concerning the operations of 1025 standard (AM) broadcast stations, 4 nation-wide networks and 4 regional networks during the calendar year 1946.

Many revisions have been made in the content and presentation of the data this year in accordance with a general program to improve the usefulness of the statistics. Of particular note are tables presenting profitability ratios which are made available in the volume for the first time. Two ratios of profitability are used: The ratio of broadcast income (before Federal income tax) to depreciated cost of tangible broadcast property,^{1/} and the ratio of broadcast expenses to broadcast revenues. (See tables 28 and 30).

The following table indicates the number of existing licenses for stations and permits for new construction as of December 31, 1946:

Commercial broadcast stations included in summaries -----	1025
Noncommercial stations (not included in summaries)----- ^{2/}	35
Reports filed too late to be included in summaries-----	2
Construction permits for new stations (not included in summaries)-----	458
Total-----	1520

Geographical groupings. — The standard broadcast stations, which are included in the tabulations, have been grouped geographically into seven regions, as follows:

Northeastern region. — Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.

Great Lakes region. — Illinois, Indiana, Kentucky, Michigan, Ohio, West Virginia, and Wisconsin.

Midwest region. — Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota,

Southeastern region. — Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

South Central region. — Oklahoma and Texas.

Mountain region. — Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming.

Pacific region. — California, Oregon, and Washington.

^{1/} It should be noted that several hundred AM licensees received authorization during 1946 to construct frequency modulation (FM) stations. Since segregations between FM costs and AM costs were not made, the investment data for the year 1946 necessarily reflect such additional FM costs. Other financial data (such as revenues, expenses, etc.) reflect FM operations to a lesser degree since relatively few AM licensees started actual FM broadcasting during 1946.

^{2/} Includes 22 stations operated by educational institutions, 11 by religious groups, and 2 by other nonprofit organizations.

1/ One station licensed December 13, 1946.

2/ Includes some nation-wide, regional and other network time sales reported by licensees of stations with total time sales of less than \$25,000.

3/ Since stations with total time sales of less than \$25,000 for the year are not required to report details, this figure may include some amounts for national and regional non-network business.

4/ Of these amounts \$19,481,742 for 1945 and \$19,566,148 for 1946 is applicable to the sale of network time, columns 3 and 4, line 6, while the remainder and amounts shown in columns 9, 10, 15 and 16, line 14, are applicable to amounts reported on line 12, in respective columns.

1/ Does not include the operations of 10 key stations of nation-wide networks, as the reports filed by them with the Commission do not include adequate segregations of expense between station and network operations.

Note: Stations identical as to class and time and serving as outlets for nation-wide networks for both years (but not necessarily the same network) are included in this comparison.

1/ Does not include the operations of 10 key stations of nation-wide networks as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

2/ Does not agree with region totals shown in State and region table as some of the metropolitan districts overlap two or more regions.

1/ Data for 1943, 1944, 1945 and 1946 do not include the operations of key stations of nation-wide networks, as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

2/ The licensees of three stations reported no owned broadcast property.

3/ The licensee of one station reported no owned broadcast property.

1/ Does not include the operations of 10 key stations of nation-wide networks as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

2/ Does not agree with region totals shown in State and region table as some of the metropolitan districts overlap two or more regions.

^{1/} Does not include the operations of the key stations of nation-wide networks, as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

^{2/} Since licensees with total time sales of less than \$25,000 for the year were not required to report details, this item may include some amounts for network, and national and regional non-network business; however, the greater portion of the revenue for these stations is from time sold to local users.

1/ Does not include the property of 10 key stations of nation-wide networks, as the reports filed by them with the Commission do not include adequate segregations of property between station and network operations.

2/ The licensee of one station reported no owned broadcast property.

Note: Stations identical as to class and time and serving as outlets for nation-wide networks for both years (but not necessarily the same network) are included in this comparison.
