## Foreword

### “Survivor”, the TV series?

Actually — “Survivor” is a far more appropriate name for a radio series. Or the entire radio industry, given the punches it’s absorbed over the last 85 years.

Run the time machine back to the early 1950s, when TV was supposed to be rendering radio totally obsolete. (The movies, too.) Didn’t happen. Radio adapted by dropping the old-style block formats (which of course became the foundation of TV) and inventing a sensational new mass appeal format called Top 40. Then came other specialized radio formats like all-news, AC, rock, country and all-talk — which showed the way for cable. Dial up to the early 1990s when 60% of radio stations reported they were either losing money or just breaking even, because of the economy. Some bankers got the sweats, but radio survived and got some regulatory relief in the Fall of 1992, with in-market duopolies of 2 AMs and 2 FMs. Then the 1996 Telecom Act allowed much larger local combinations.

Now – Wall Street and the rest of “the media” believe radio’s facing eventual extinction because of (pick one) satellite radio, Internet radio, videogames, file sharing, cellphones and (who knows?) intracranial implants and contact lens computer screens.

All we know is – radio’s still the most widespread mass medium in the world...the average U.S. house owns more than five radio sets. . .and it’s still free – unlike satellite radio, Internet radio, videogames and all that other stuff.

As always, it’s M Street’s pleasure to bring you an unmatched reference aid, by assembling the M Street Directory, which contains —

- Comprehensive information on more than 14,000 U.S. and Canadian radio stations, both commercial and non-commercial, including calls, frequency, and contact info.
- Freshly-updated formats, researched by the experts at M Street Publications.
- Every radio market – not just the 280 or so recognized by Arbitron. M Street has always gone the extra mile to create its own proprietary list of every radio U.S. radio market that makes sense, whether or not the local operators subscribe to Arbitron. That’s why you’ll see market sizes by both Arbitron rank and “M Street rank.”
- M Street format charts, available only from us. In these pages at the front of the Directory you get breakouts by individual format – including each format’s number of stations over a 10-year period. Also by AM vs. FM, commercial and non-commercial, and large versus small markets. M Street has offered format tracking charts in each Directory since 1990.

Thanks to our advertisers, who help us bring you this information.

Thanks to all the contributors (some named, some not) who call us, e-mail us and buttonhole us at conventions – we couldn’t do it without you.

And feel free to contact us with your own ideas, questions or corrections. We’re at 800-248-4242 and at [www.MStreet.net](http://www.MStreet.net). You’ll find information there about how to order your own unique (and affordable) custom database run, using the information that we update daily with the resources of M Street.

As for radio, the survivor? There’s a longtime radio owner and renowned “escapologist” named Bill Shirk, who’s performed many of the tricks made famous by Houdini, and innovated some of his own. Bill’s always survived. We’d say: Radio will also turn out to be “Houdini” – and continue to survive.

The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

<b>AAA</b>	<b>Adult Alternative</b> An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	<b>CWT</b>	<b>Traditional Country</b> The Traditional Country station aims for a sound that "reflects country music before it was made contemporary" through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
<b>ACW</b>	<b>AC &amp; Country</b> Just what it says. A near 50/50 blend of music from the two formats.	<b>DNC</b>	<b>Rhythmic-CHR</b> A contemporary hit radio station that focuses on rhythmic music.
<b>ADC</b>	<b>Adult Contemporary</b> An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	<b>DNX</b>	<b>Dance</b> Closely related to Rhythmic-CHR but focused more on pure dance club music.
<b>AMR</b>	<b>Americana</b> A blending of the rock music played on the AAA station with country and folk music.	<b>EIT</b>	<b>80's Hits</b> A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
<b>BGS</b>	<b>Black Gospel</b> Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>ETH</b>	<b>Ethnic</b> Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
<b>BIZ</b>	<b>Business News</b> An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	<b>EZY</b>	<b>Easy Listening</b> This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
<b>BLG</b>	<b>Bluegrass</b> A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	<b>FLK</b>	<b>Folk</b> A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.
<b>BLU</b>	<b>Blues</b> A station whose playlist focuses on Blues music. Some older rhythm & blues or soul music may also be included.	<b>FNA</b>	<b>Format Not Available</b> This applies to a station that is involved in program stunting as part of a change to new format.
<b>CCN</b>	<b>Contemporary Christian</b> A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>FRM</b>	<b>Farm</b> A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
<b>CCN</b>	<b>Contemporary Christian</b> Rock-driven alternative or harder rock Christian-themed music  A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	<b>GOS</b>	<b>Gospel Music</b> Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
<b>CLA</b>	<b>Classical</b> Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music.	<b>HAC</b>	<b>Hot AC</b> Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
<b>CLR</b>	<b>Classic Rock</b> Mainstream rock of the 60's, 70's and 80's with little or no current rock music included.	<b>INF</b>	<b>Surveillance/ Weather/Traffic</b> These are fully licensed radio stations that provide programming that is more commonly associated with Traveler's Information Service (TIS) radio stations. Their programming consists solely of one or more types of information with no other entertainment programming
<b>CLX</b>	<b>Classic Hits</b> A blend of rock and pop music of the late 60's through early 80's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.	<b>JAZ</b>	<b>Jazz</b> A station that programs music either traditional jazz or smooth jazz or some blend of the two.
<b>CPN</b>	<b>cp-new</b> Assigned to a new station that has been authorized to build its transmitting facility but has never been on the air.	<b>KID</b>	<b>Pre-Teen</b> Although we call this Pre-teen this station can appeal to children ages six through 16. The format is generally manifest as a very young skewing CHR station with high energy disc jockeys, call-ins and a large proportion of novelty records.
<b>CTY</b>	<b>Country</b> A station playing a variety of country music styles. Although this station will play music currently listed in music industry trade publication charts in Billboard and Radio & Records, usic, the amount of older country music played on the station may vary greatly between 25% and 75% of the playlist.	<b>MAC</b>	<b>Modern AC</b> Somewhat analogous to the Hot Adult Contemporary stations in that they take the music that is part of a younger skewing format and make it attractive to an older audience. The Modern AC station takes the current modern rock music at the core of Modern Rock stations and blends it with older modern rock music.
<b>CWO</b>	<b>Classic Country</b> This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.	<b>MOD</b>	<b>Modern Rock</b> A contemporary hit radio station that focuses on modern rock music.

Estimates of audience share labeled Arbitron are Copyright 2004, The Arbitron Company. Estimates may not be quoted or reproduced without prior written permission of The Arbitron Company.

The M Street Radio Directory contains estimates of average-quarter-hour-audience size and market audience share from surveys taken by the above ratings companies. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The term “ratings” is used to describe the audience figures published in the M Street Radio Directory. However, “audience share” and “audience estimate” are more accurate terms. The published numbers express the size of a station’s audience in a theoretical “average-quarter-hour” (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station’s AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
