## Foreword

### Does Radio Have a Future?

The easy answer – well, of course it does. It's been around for 87 years and it continues to provide a valuable service to listeners. We all know that – except for the skeptics who also think TV and newspapers are doddering dinosaurs.

Plenty of other products have gone into the recycle bin of history – so why won't radio expire, in an age of exploding choices for getting personalized instant news updates and immediate artist information and new music?

For one thing – radio's still the cheapest-cost mass medium out there, in terms of ad-driven media. "Mass medium" means advertisers or underwriters can use radio to reach a vast number of people very efficiently. Clients want accountability – but they also want reach. Nothing can do that like radio.

But radio needs imagination, and it needs people who are committed to fresh thinking – and in some cases, to re-discovering the core principles about what makes local radio work. Because "local" is the word that crops up everywhere these days. If radio can offer valuable and timely local entertainment and information – it will remain relevant. If not, it's dino-time.

The staff at *The Radio Journal* is committed to providing you with the best data and analysis we can produce – because we believe that you can't act without solid facts and useful information (like the right phone number). We also take very seriously our responsibility to continue creating the industry's most long-term views of radio formats, both commercial and non-commercial. Our DNA is from the M Street Journal (founded in 1984), and from the beginning the Journal editors were intensely curious about trends in formats (like the explosion in news/talk and the decline and rebirth of Top 40). So don't overlook the charts at the beginning of this Directory, revealing the format trends of the last 10 years. You won't see anything like them anywhere else.

Also in this Directory (the 15<sup>th</sup> in our ongoing series) –

- Information on more than 14,000 U.S. and Canadian radio stations, including call letters, frequency and contact information. They're listed by state and city of license.
- Listings of stations by market (look near the back, running alphabetically by state) – including both commercial and non-com stations, all listed by frequency.
- Formats, researched by the staff of the Radio Journal and Inside Radio. We don't merely accept what a station may tell us – we make our own determinations.

Our thanks go out to our advertisers and other supporters – we couldn't do this work without them.

And our gratitude goes out to the men and women who work diligently every day to make sure that radio DOES have a future. We want to be part of that.

Tom Taylor, Editor

Programming information is followed by M Street's **format** codes in square brackets. If this station simulcasts from another station, the call letters and frequency of the station that it repeats will be shown here. Please see the section **FORMAT CLASSIFICATIONS** for a complete explanation of our format classifications and their codes.

If the station is broadcasting in digital, there format will be noted with <sup>HD</sup>, ie Country<sup>HD</sup>. If the station is multicasting then its second (and in some cases third) format will be noted as HD2: Second Format, ie Country / **HD2**: Oldies. In some cases the stations regular format and a multicast are the same but the programming is different. In those cases we have also added the slogan for the multicast to clarify. For example, Classic Rock / **HD2**: Classic Rock "Deep Tracks"

The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

<b>AAA</b>	<b>Adult Alternative</b> An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	<b>CWO</b>	<b>Classic Country</b> This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.
<b>ACW</b>	<b>AC &amp; Country</b> Just what it says. A near 50/50 blend of music from the two formats.	<b>CWT</b>	<b>Traditional Country</b> The Traditional Country station aims for a sound that reflects country music before it was made contemporary" through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
<b>ADC</b>	<b>Adult Contemporary</b> An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	<b>DNC</b>	<b>Rhythmic-CHR</b> A contemporary hit radio station that focuses on rhythmic music.
<b>ADH</b>	<b>Adult Hits</b> Promoted as "We Play What We Want" with playlists that draw from music from the 70's forward, and commonly branded as "Jack," "Bob," et al.	<b>DNX</b>	<b>Dance</b> Closely related to Rhythmic-CHR but focused more on pure dance club music.
<b>AMR</b>	<b>Americana</b> A blending of the rock music played on the AAA station with country and folk music.	<b>EIT</b>	<b>80's Hits</b> A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
<b>BGS</b>	<b>Black Gospel</b> Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>ETH</b>	<b>Ethnic</b> Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
<b>BIZ</b>	<b>Business News</b> An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	<b>EZY</b>	<b>Easy Listening</b> This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
<b>BLG</b>	<b>Bluegrass</b> A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	<b>FLK</b>	<b>Folk</b> A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.
<b>BLU</b>	<b>Blues</b> A station whose playlist focuses on Blues music. Some older rhythm & blues or soul music may also be included.	<b>FNA</b>	<b>Format Not Available</b> This applies to a station that is involved in program stunting as part of a change to new format.
<b>CCN</b>	<b>Contemporary Christian</b> A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>FRM</b>	<b>Farm</b> A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
<b>CCR</b>	<b>Christian CHR/Rock</b> Rock-driven alternative or harder rock Christian-themed music  A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	<b>GOS</b>	<b>Gospel Music</b> Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
<b>CLA</b>	<b>Classical</b> Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music.	<b>HAC</b>	<b>Hot AC</b> Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
<b>CLR</b>	<b>Classic Rock</b> Mainstream rock of the 60's, 70's and 80's with little or no current rock music included.	<b>INF</b>	<b>Surveillance/ Weather/Traffic</b> These are fully licensed radio stations that provide programming that is more commonly associated with Traveler's Information Service (TIS) radio stations. Their programming consists solely of one or more types of information with no other entertainment programming
<b>CLX</b>	<b>Classic Hits</b> A blend of rock and pop music of the late 60's through early 80's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.	<b>JAZ</b>	<b>Jazz</b> A station that programs music either traditional jazz or smooth jazz or some blend of the two.
<b>CPN</b>	<b>cp-new</b> Assigned to a new station that has been authorized to build its transmitting facility but has never been on the air.	<b>KID</b>	<b>Pre-Teen</b> Although we call this Pre-teen this station can appeal to children ages six through 16. The format is generally manifest as a very young skewing CHR station with high energy disc jockeys, call-ins and a large proportion of novelty records.
<b>CTY</b>	<b>Country</b> A station playing a variety of country music styles. Although this station will play music currently listed in music industry trade publication charts in Billboard and Radio & Records, usic, the amount of older country music played on the station may vary greatly between 25% and 75% of the playlist.

The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>XOL</b>	<b>Spanish Oldies</b> Popular Latin music of the 50's, 60's and 70's. Estimates of audience share labeled Arbitron represent 12+ AQH Shares, Mon-Sun, 6 am to midnight and may not be quoted or reproduced without prior written permission of The Arbitron Company - Copyright 2006, The Arbitron Company.

Estimates of audience share labeled Eastlan are Copyright 2006 by Eastlan Resources. Any resale of their ratings are subject to approval by Eastlan Resources.

The M Street Radio Directory contains estimates of average-quarter-hour-audience size and market audience share from surveys taken by the above ratings companies. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The term “ratings” is used to describe the audience figures published in the M Street Radio Directory. However, “audience share” and “audience estimate” are more accurate terms. The published numbers express the size of a station’s audience in a theoretical “average-quarter-hour” (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station’s AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
