This section lists the **M Street RADIO MARKETS** in the United States followed by those in Canada. In general, a station is included in a market if it is licensed to a city in that market or if the market is a primary focus of its marketing activities.

For each listing, the market name is followed by, Metro populations, the M Street 2006 market rank (MST), the Arbitron Spring 2006 market rank (ARB), the Eastlan survey dates (if any) followed by AM and FM stations in dial order.

Metro population figures are based on the 12+ population estimates of Arbitron, if an Arbitron-rated market; or M Street, if the market is not rated. M Street rank is based on population estimates for the M Street-defined market area which is defined by postal zip codes, rather than counties. The market definitions of Arbitron and Eastlan are influenced by stations purchasing each company's rating services, and do not necessarily coincide with each other or with M Street.

Audience estimates are for persons 12+ Monday-Sunday, 6am to midnight, average quarter hour shares and persons from the Metro Survey Area. Ratings for each Arbitron market are from the most recent ratings period for that market.

This year's directory includes Arbitron trend information. The column headers indicate the rating period, or "book" from which the numbers came. Here are our abbreviations, as well as the survey dates for each book:

"W06"	Winter 2006 Arbitron	January 5 - March 29, 2006
"F05"	Fall 2005 Arbitron	September 22 - December 14, 2005
"U05"	Summer 2005 Arbitron	June 30 - September 21, 2005
"S05"	Spring 2005 Arbitron	March 31 - June 22, 2005

Trend data may not be available for all stations. Arbitron does not release rating information for non-commercial stations.

For more information on ratings and copyright information, see the **ABOUT RATINGS** section at the front of the book. Estimates are Copyrighted and may not be quoted or reproduced without prior written permission of the Copyright owner. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section at the front of the book.

As with other sections of the book, **M Street RADIO MARKETS** are a condensation of data collected and are revised on an ongoing basis by M Street. Please call or write us with updates, corrections, or inquiries for customized applications of our market data.

Low Power Radio was added to the market mix by the FCC several years ago. While we do not track these stations the same way as the other stations found in this directory, we did think it might helpful and/or to include basic information about this class of stations. Let us know what you think or what might be more helpful.

## Radio News & Information at its Best!

**INSIDE RADIO... GET FREE RADIO HEADLINES EACH DAY @ INSIDERADIO.COM.** The most widely read radio news publication by radio executives each morning. The only daily fax publication that gives you the latest news in a quick read format, puts it in context and explains it with up-to-date expert analysis by Editor, Tom Taylor. You get actionable information on programming offerings, people moves, ownership changes, statistics, radio stock report and ratings that help you make key decisions associated with the radio industry. Get INSIDE RADIO anytime, anywhere by subscribing to the ONLINE version of the Fax. Trial subscription available.

**RADIO JOURNAL** Radio station technical news and station updates summarized in an easy-to-read weekly PDF/Fax newsletter format. This publication reports the technical news at the radio station level in the U.S. and Canada with expert analysis. [www.theRadioJournal.com](http://www.theRadioJournal.com) reports each day every change in format, call letters, LMA, ownership and station facilities, new frequency allocations, translators, construction permit activity, station applications, grants, FCC regulatory news and headlines. An online version is available via PDF on the website.

**CUSTOM DATA, MAILING LISTS & LABEL** Available Now ONLINE @ [www.RadioTVData.com](http://www.RadioTVData.com). Updated daily, we customize our services to meet the needs of our clients. You can license the database, giving you access to more than 100 pieces of up-to-the-minute information on every station in the U.S. and Canada, and receive it as often as you need it with built-in flexibility that allows you to easily tailor reports to fit your needs or link to your own station information. If you need a station list one-time only, we can sort or pull data in list form or printed on mailing labels by: format, market, and more. **BROADCAST FAXING** to your list is also available...

**OTHER M STREET PRODUCTS** *WhoOwnsRadio.com* and *PrecisionTrak.com*. The most accurate radio industry databases available. Custom database services are also available.
