

**DEPARTMENT OF COMMERCE****RADIO SERVICE BULLETIN**

ISSUED MONTHLY BY BUREAU OF NAVIGATION

Washington, July 31, 1926—No. 112

**CONTENTS**

	Page		Page
Abbreviations.....	1	Miscellaneous—Continued	
New stations.....	2	Times of transmission by far eastern stations of weather reports and time signals.....	8
Alterations and corrections.....	3	Time signals by Ilha Do Governado station, Rio de Janeiro, Brazil.....	9
Miscellaneous:		List of foreign broadcasting stations.....	9
Additions to list of vessels equipped with radiotelegraph.....	7	Constant frequency stations.....	17
Instructions for transmitting hydrographic and weather reports from ships to Government offices.....	7	Standard frequency stations.....	18
Radiobeacon established at St. Pierre Island, Newfoundland.....	8	References to current radio literature.....	19
Changes in transmission of fog signals, weather reports, etc., by foreign stations.....	8		

**ABBREVIATIONS**

The necessary corrections to the List of Radio Stations of the United States and to the International List of Radiotelegraph Stations, appearing in this bulletin under the heading "Alterations and corrections," are published after the stations affected in the following order:

Name	= Name of station.
Loc.	= Geographical location. O = west longitude. N = north latitude. S = south latitude.
Call	= Call letters assigned.
System	= Radio system used and sparks per second.
Range	= Normal range in nautical miles.
W. l.	= Wave lengths assigned; normal wave lengths in italics.
Service	= Nature of service maintained.
	FX = Point-to-point (fixed service).
	PG = General public.
	PR = Limited public.
	RC = Radiocompass station.
	FS = Fog signal.
	P = Private.
	O = Government business exclusively.
Hours	= Hours of operation.
	N = Continuous service.
	X = No regular hours.
F. T. Co.	= Federal Telegraph Co.
I. R. T. Co.	= Intercity Radio Telegraph Co.
I. W. T. Co.	= Independent Wireless Telegraph Co.
K. & C.	= Kilbourn & Clark Manufacturing Co.
R. C. A.	= Radio Corporation of America.
U. R. Corp.	= Universal Radio Corporation.
W. S. A. Co.	= Wireless Specialty Apparatus Co.
C. w.	= Continuous wave.
I. c. w.	= Interrupted continuous wave.
K. c.	= Kilocycles.
Fy.	= Frequency.
A. c.	= Alternating current.
V. t.	= Vacuum tube.
U. S. L.	= After operating company denotes that the change applies only to the List of Radio Stations of the United States.

This edition is the first supplement to the new edition of the list of Commercial and Government Radio Stations, June 30, 1926, which will be ready for distribution by the Superintendent of Documents, Government Printing Office, about

RADIO SERVICE BULLETIN

NEW STATIONS

Commercial land stations, alphabetically by names of stations

[Additions to the List of Radio Stations of the United States, edition of June 30, 1926, and to the International List of Radiotelegraph Stations published by the Bureau]

Station	Call signal	Wave lengths	Service	Hours	Station controlled by—
Baler, P. I. (Tayabas) <sup>1</sup> ....	KZBR	500, 600, 750.....	PG	.....	Philippine Insular Govern- ment.

## ALTERATIONS AND CORRECTIONS

## COMMERCIAL LAND STATIONS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925, and to the International List of Radiotelegraph Stations, published by the Berns bureau]

ROCKY POINT, N. Y. (WQL).—Hours, N.  
ROCKY POINT, N. Y. (WQM).—Hours, N.

The above changes will appear in the June 30, 1926, edition of the list of commercial and Government Radio Stations of the United States.

## COMMERCIAL SHIP STATIONS, ALPHABETICALLY BY NAMES OF VESSELS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925, and to the International List of Radiotelegraph Stations, published by the Berns bureau]

AMBRIDGE.—Station controlled by R. C. A.  
AMERICAN TRADER.—Station controlled by I. W. T. Co. (U. S. L.)  
ASTERO II.—*Read Athero II.*  
BAKERSFIELD.—W. L., 600, 706, 800.  
BARRYTON.—Owner of vessel, W. E. Hedger Co.  
BRAVE COEUR.—Station controlled by R. C. A. (U. S. L.)  
CADDO.—System, R. C. A. v. t. telegraph; w. l., 600, 706, 750, 800, 900.  
CARDONIA.—Station controlled by I. W. T. Co. (U. S. L.)  
CITY OF FAIRBURY.—Station controlled by I. W. T. Co. (U. S. L.)  
DORBLAY.—Owner of vessel, Alaska S. S. Co.  
DORCHESTER (KGBG).—Station controlled by R. C. A.  
EURANA.—Owner of vessel, Gulf Refining Co.  
HAITI.—Owner of vessel, Columbian S. S. Co., station controlled by I. W. T. Co.  
INDEPENDENCE.—Station controlled by R. C. A. (U. S. L.)  
JOHN N. STEWART.—Range, 50; system, composite, v. t. telegraph; w. l., add 800.  
KERHONKSON.—Station controlled by R. C. A. (U. S. L.)  
LAKE HELEN.—Station controlled by R. C. A.  
LAKE TREBA.—Owner of vessel Lake Treba S. S. Co.  
LIBERTY GLO.—Station controlled by R. C. A. (U. S. L.)  
LIGHTBURNE.—W. l., 600, 706, 800.  
MARJ III.—Range, 150; system, composite v. t. telegraph; w. l., 600, 706, 715; service, PG; hours, X; rates, Great Lakes service 4 cents per word, all other service 8 cents per word; station controlled by owner of vessel.  
NISHMAHA.—Station controlled by I. W. T. Co. (U. S. L.)  
PETREL.—Station controlled by I. W. T. Co.  
PRESIDENT JACKSON.—Owner of vessel, Admiral Oriental Line.  
PRESIDENT MCKINLEY.—Owner of vessel, Admiral Oriental Line.  
SAMONA.—W. l., 126, 600; service, P; rates, none.  
SANTA TECLA.—Owner of vessel, New Orleans & South American S. S. Co.  
SIELE.—Range, 100; system, R. C. A. v. t. telegraph; w. l., 600, 706, 750, 800, 900; service, PG; hours, X; rates, 8 cents per word; station controlled by R. C. A.  
THE LAMBS.—Station controlled by R. C. A.  
TOPA TOPA.—Station controlled by I. W. T. Co. (U. S. L.)  
TUXPANOIL.—Station controlled by R. C. A.  
WAUKEGAN.—Station controlled by R. C. A. (U. S. L.)  
WEST CAMARGO.—Owner of vessel Pacific Argentine Brazil Line.  
WEST DURFEE.—Station controlled by I. W. T. Co. (U. S. L.)  
WEST EKONK.—Station controlled by I. W. T. Co. (U. S. L.)  
WESTERN GLEN.—Station controlled by I. W. T. Co. (U. S. L.)  
WESTMORELAND.—Station controlled by R. C. A. (U. S. L.)  
WEST MUNHAM.—Station controlled by R. C. A.  
WEST NERIS.—Station controlled by I. W. T. Co. (U. S. L.)  
WEST NOHNO.—Station controlled by I. W. T. Co. (U. S. L.)  
WEST NORRANUS.—Name changed to Pacific Pine.  
WEST TACOOK.—Station controlled by R. C. A. (U. S. L.)  
WEST WIND.—Name changed to Edwin Christenson.  
WILLETT.—Station controlled by R. C. A.  
Strike out all particulars of the following-named vessels: Fordonian, Jean, Loki.

## RADIO SERVICE BULLETIN

## COMMERCIAL LAND AND SHIP STATIONS, ALPHABETICALLY BY CALL SIGNALS

KFZO, read Athero II; KJH, read Edwin Christenson; KUVZ, read Pacific Pine; strike out all particulars following the call signals, KDCT, KDGD, KFSN, KFYW, KFZK, KIKK, KZJ.

## BROADCASTING STATIONS, BY CALL SIGNALS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925, and list in Radio Service Bulletin No. 106, January 20, 1925]

KFIQ (Yakima, Wash.).—Owner of station Dr. I. M. Miller.  
 KLDS (Kansas City, Mo.).—When this station is operating under the auspices of the Kansas City Journal-Post, call letters KMJP are used.  
 WBNY (New York, N. Y.).—Owner of station, Baruchrome Corporation.  
 WDBK (Cleveland, Ohio).—Owner of station, Stanley J. Broz.  
 WGHB (Clearwater, Fla.).—Owner of station Fort Harrison Hotel (Ed. A. Haley)  
 WGN (Chicago, Ill.).—Owner of station, The Chicago Tribune.  
 WIBA (Madison, Wis.).—Owner of station, Capital Times Studio and Strand Theatre Corporation.  
 WIBR (Weirton, W. Va.).—Changed to Steubenville, Ohio.  
 WIOD (Miami Beach, Fla.).—Owner of station, Carl G. Fisher Co.  
 WQAO (New York, N. Y.).—When this station is operating under the auspices of the Palisades Amusement Park, Palisades, N. J., call letters WPAP are used.  
 WJZ (New York, N. Y.).—Changed to Bound Brook, N. J.  
 WLAP (Louisville, Ky.).—Owner of station, Virginia Avenue Baptist Church, 2600 Virginia Ave.  
 WRAX (Gloucester City, N. J.).—Changed to Philadelphia, Pa.; owner of station, Bereahah Church (Inc.), 1608 Alleghany Ave.  
 Strike out all particulars of the following-named station: WOWL (New Orleans, La.).

## GOVERNMENT LAND STATIONS, ALPHABETICALLY BY NAMES OF STATIONS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925, and to the International List of Radiotelegraph Stations, published by the Bernie Bureau]

NOTE.—With the exception of Fort Hayes, Ohio, and Key West, Fla. (NGK), all of these changes will appear in the June 30, 1926 edition of the List of Commercial and Government Radio Stations of the United States.

ANACOSTIA, D. C.—Hours, strike out.

## GOVERNMENT AIRPLANE STATIONS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925, and to the International List of Radiotelegraph Stations, published by the Berne bureau]

Strike out all particulars of the following-named stations: Arctic Plane No. 1, Arctic Plane No. 2, Arctic Plane No. 3. (These stations are included in the list of ship stations.)

## GOVERNMENT LAND AND SHIP STATIONS, ALPHABETICALLY BY CALL SIGNALS

NCP, read Nahant, Mass.; strike out all particulars following the call signals, NADK, NAFK, NAGK.

## SPECIAL LAND STATIONS, BY NAMES OF STATIONS

[Alterations and corrections to be made to the List of Radio Stations of the United States, edition of June 30, 1925]

Strike out all particulars of the following-named stations: Carterville, Mo. (9XV); Milford, Utah (6XB).

## MISCELLANEOUS

## ADDITIONS TO LIST OF VESSELS EQUIPPED WITH RADIOCOMPASS

The following-named vessels have been equipped with a radiocompass: *Otagamie*, owned by Standard Oil Co. of Indiana; *Pennsylvania Sun* (WKP) and *Renown*, owned by Standard Oil Co. of Indiana.

## INSTRUCTIONS FOR TRANSMITTING HYDROGRAPHIC AND WEATHER REPORTS FROM SHIPS TO GOVERNMENT OFFICES

All hydrographic information which includes reports on ice, wrecks, derelicts, floating obstructions, and important changes in aids to navigation should be addressed to the Hydrographic Office or any of its branch offices by mail and to any of the following-named naval radio stations by radio, addressed "Gov't Hydro:"

Name of station	Call signal	Name of station	Call signal
<b>Atlantic Ocean:</b>		<b>Pacific Ocean:</b>	
Boston.....	NAD	Baltos, Canal Zone.....	NBA
New York.....	NAH	San Francisco.....	NPG
Philadelphia.....	NAT	Eureka.....	NPW
Norfolk.....	NAM	North Head.....	NPE
Charleston.....	NAO	Puget Sound.....	NPC
Key West.....	NAK	Honolulu.....	NPM
New Orleans.....	NAT	Cavite, P. I.....	NPO
Brownsville.....	NAY	Great Lakes: Great Lakes, Ill.....	NAJ
St. Thomas, Virgin Islands.....	NBB		
San Juan, P. R.....	NAU		
Guantanamo, Cuba.....	NAW		
Colon, Canal Zone.....	NAX		

Attention is also invited to the fact that all communications concerning weather should be forwarded to the Weather Bureau, Washington, D. C., and if sent by radio or telegraph should be addressed "Observer." In accordance with the

Under the subject "Weather" should be included all information of a meteorological nature, including reports of barometric pressures, wind force and direction, and movements of air strata. Forms and instructions for reports can be obtained from the Weather Bureau, Washington, D. C.

A report of any buoys adrift or any deficiencies noted in lighted aids to navigation affecting United States waters should be forwarded to the superintendent of the nearest lighthouse district, as given in the Light and Buoy List.

Care should be taken in properly addressing messages, if not most of the value of a message will probably be lost due to the delays which occur when it is incorrectly addressed.

#### RADIOBEACON ESTABLISHED AT ST. PIERRE ISLAND, NEWFOUNDLAND

A radiobeacon has been established at St. Pierre Island, Galantry Head Light Station. During fog this beacon broadcasts the signal HYR, followed by a series of dashes on a wave length of 850 meters. The audible range is 100 miles. Location,  $46^{\circ} 45' 35''$  N.,  $56^{\circ} 09' 22''$  W.

#### CHANGES IN TRANSMISSION OF FOG SIGNALS, WEATHER REPORTS, ETC., BY FOREIGN STATIONS

*Spitsbergen (Svalbard), Norway.*—Vessels fitted with radiocompass apparatus can obtain signals for the determination of bearings from this station on request. Position,  $78^{\circ} 04' 25''$  N.,  $14^{\circ} 09' 20''$  E., call signals LFG, wave length 600 meters, range 300 miles. *Borkum Riff Light Vessel.* Radio fog signals are now transmitted from this light vessel on 950 meters.

*Karlsborg, Sweden.*—Weather bulletins and storm warnings are now transmitted from this station at 10.50 and 22.00, G. M. T., on a wave length of 2,500 meters, spark. The weather bulletin for shipping is transmitted at 12.15, G. M. T., on Sundays and holidays. The synoptic messages previously transmitted at 07.40, 13.40, and 18.40, G. M. T., on 4,200 meters, continuous wave, have been discontinued.

*Karlskrona, Sweden.*—The synoptic messages referred to above as having been discontinued by Karlsborg are now transmitted by this station at the same time on a wave length of 18,520 meters, continuous wave.

*Malabar, Java.*—Urgent notices to mariners are transmitted by this station immediately after the time signal, both on 15,600 meters, continuous wave.

#### Times of transmission by far eastern stations of weather reports and time signals

Hour of transmission (Greenwich time)	Station	Call signal	Matter transmitted	System employed	Wave length

## TIME SIGNALS BY ILHA DO GOVERNADO STATION, RIO DE JANEIRO, BRAZIL

The International system of radio time signals (also known as the "Onogo" system) has been replaced at this station by the New International System of radio time signals, which was adopted at the International Time Commissions, 1925.

The time signals are automatically transmitted from Rio de Janeiro Observatory at 14<sup>h</sup> 00<sup>m</sup> 00<sup>s</sup> and 24<sup>h</sup> 00<sup>m</sup> 00<sup>s</sup>, G. M. T., corresponding to 11<sup>h</sup> 00<sup>m</sup> 00<sup>s</sup> and 21<sup>h</sup> 00<sup>m</sup> 00<sup>s</sup>, standard time. After the usual preliminary signals the procedure is as follows:

G. M. T.	Signal	Meaning
h. m. s. h. m. s.		
13) 57 00-13) 67 50 23) 23) 23)	--- . . . --- . . . --- etc.	
57 55-58 00	. . . . .	Time signal.
58 01-58 10	---	
58 18-58 20	---	
58 28-58 30	---	
58 38-58 40	---	
58 48-58 50	---	
58 55-59 00	. . . . .	Time signal.
59 01-59 10	---	
59 16-59 20	---	
59 26-59 30	---	
59 36-59 40	---	
59 46-59 50	---	
13) 59 55-14) 00 00 23) 23) 23)	. . . . .	Time signal.

The duration of the dash is one second, and that of the dot 0.2 of a second. The final dot, therefore, terminates at 14<sup>h</sup> 00<sup>m</sup> 00.2<sup>s</sup>, G. M. T.

In the event of failure the time signals are transmitted 30 minutes later, the word "Correção" being sent in conjunction with this series of signals. Call signal SOH, wave length, 1,800 meters, spark.—*Admiralty Notice to Mariners, No. 1133, year 1926, London.*

## LIST OF FOREIGN RADIO BROADCASTING STATIONS

City and call signal	Wave length (meters)	Power (watts)	Operator of station and general information
AUSTRIA			
Vienna (ORV).....	530	1,500	Oesterreichischer Radioverkehr, A. G. Broadcasts three 2-hour programs daily, including music (opera and popular), weather and market reports, and news.
Do.....	488	10,000	Oesterreichischer Radioverkehr, A. G. Testing; to replace above station in the near future.
Gratz.....	401	500	Oesterreichischer Radioverkehr, A. G.
BELGIUM			
Brussels (BAV).....	456	1,500	Radio Belgique Co. Broadcasts 2½ hours daily; programs consist entirely of music, except for news broadcast at the close of each program.
Liege.....	285		Radio Wallonie station.
	205		Radio central station.
CZECHOSLOVAKIA			
Prague (OKP).....	375	5,000	Radio Journal, Stranice station.
Brno (OKB).....	521	500	Radio Journal.
DENMARK			
Copenhagen.....	348	500	Copenhagen Radio Broadcasting Station, Government owned.
Scoo.....	1,150	1,000	Ministry of War. Replaced station at Ryvang.

## LIST OF FOREIGN RADIO BROADCASTING STATIONS—CONTINUED

City and call signal	Wave length (meters)	Power (watts)	Operator of station and general information
<b>DENMARK—continued</b>			
Odense.....	810	250	Relay station, Government owned.
Bjerring.....	1,250	500	Do.
<b>ESTONIA</b>			
Tallinn.....	350		No data.
<b>FINLAND</b>			
Bjorenburg.....	255.3		Under construction by the Nuoren Voiman Liiton Radioyhdistys.
Hango.....	259.6	200	Nuoren Voiman Liiton Radioyhdistys.
Helsingfors.....	522	500	Finnish Civil Guard. Broadcasts concerts daily, and special programs.
	318	750	Military station at Skatudden, a suburb, supported by the public. Broadcasts concerts and other programs irregularly.
Jyväskylä.....	561	200	Nuoren Voiman Liiton Radioyhdistys. Broadcasts musical and other programs irregularly.
Mikkeli.....	561	100	Nuoren Voiman Liiton Radioyhdistys.
Porl.....	255.3	100	Do.
St. Michel.....	561	500	Nuoren Voiman Liiton Radioyhdistys. Under construction.
Tammerfors (JNB).....	393	250	Nuoren Voiman Liiton Radioyhdistys. Broadcasts concerts and other programs irregularly.
Tampere.....	373	250	No data.
Uleaborg.....	713	100	Do.
<b>FRANCE</b>			
Agen (2BD).....	318	250	Department of Lot et Garonne.
Angers.....	290	500	Ministry of Posts, Telegraphs, and Telephones.
Bordeaux.....	330	500	Do.
Cognac.....	332		No data.
Grenoble.....	380	150	Ministry of Posts, Telegraphs, and Telephones.
Issy - les - Moulineux (QGA).....	1,800	500	Ministry of War.
Lyon (YN).....	760	2,000	Dubanchet and Trollet; station radio, Lyon.
	482.3	500	Ministry of Posts, Telegraphs, and Telephones; station La Doua, named for suburb in which located.
Marseille.....	351	300	Ministry of Posts, Telegraphs, and Telephones.
Mont de Marsen.....	390	300	No data.
Montpellier.....	700	200	Radio Montpellier station.
Paris:			
FL.....	2,650	5,000	Ministry of Posts, Telegraphs and Telephones. Eiffel Tower station.
FNQ.....	333	500	Journal Petit Parisien.
FL.....	345	500	Petit Parisien.
SAJ.....	1,780	100	Societe Francaise Radioelectrique.
FTTT.....	1,750	4,000	Cie. Francaise de Radioelectricite.
	419.4	500	Superior School of the Ministry of Posts, Telegraphs, and Telephones.
Pic du Midi.....	350		No data.
St. Etienne.....	220	50	Radio Club Forezien.
Strasbourg (SOH).....	200	100	Radio Club.
Toulouse.....	435.1	2,000	La Radio Basileoise.
Toulouse (MHD).....	280	2,000	Ministry of Posts, Telegraphs, and Telephones. Aerodrome station.
<b>GERMANY</b>			
Berlin (AFT).....	1,300	1,000	Postal authorities. Konigswinterhausen station. Relays Vox Haus programs.
	571	400	Madgeburger Platz station.
	507	12,250	Postal authorities. Vox Haus station.
Bremen.....	279	700	Nordische Rundfunk, A. G. Relays Hamburg programs.
Breslau.....	414.8	14,000	Schlesische Funkstunde. Received at Rotze; to be replaced by station with 10,000 watts input.
Dortmund.....	283	300	No data.
Dresden.....	292	300	Mitteldeutscher Rundfunk, A. G. Relays Leipzig programs.
Elberfeld.....	259	300	Suspended.
Frankfurt-on-the-main.....	470.4	300	Sudwestdeutscher Rundfunkdienst. To be replaced by a station with an input power of 10,000 watts.
Gletwitz.....		1,500	Projected, to relay Breslau programs.
Hamburg.....	392.1	2,000	Nordischer Rundfunk, A. G.
Hannover.....	296	1,500	Nordischer Rundfunk, A. G. Relays Hamburg programs.

## CONSTANT FREQUENCY STATIONS

In this issue of the Radio Service Bulletin the list of "standard frequency stations" is supplemented by the following list of certain other stations which are known to use special means of maintaining their frequencies accurately on their assigned values. The transmitted waves from the stations in either list should be of value to the public as frequency standards because of their constancy and close adherence to assigned values. The Bureau of Standards makes regular measurements of the transmitted frequencies of the standard frequency stations only. The number of stations on whose transmissions such measurements are made is necessarily small, because practical difficulties limit the measurements of this kind which can be made at one place. The "constant frequency stations" in the following supplementary list do not carry the same assurance of reliability as if the transmitted waves were regularly measured by the Bureau of Standards, but it is probable that if measurement data were available many of them would show the same constancy as the standard frequency stations.

Stations included in the following list employ a special device for controlling

quency calibration of the device is in agreement with the frequency standards of the Bureau of Standards; (2) the station has given evidence of following carefully a special procedure in the use of the device. The special devices for frequency regulation include automatic peizo control, piezooscillators, piezo-resonators, and frequency indicators. A frequency indicator is a special type of frequency meter (wave meter) so constructed as to give readings at only a single point or over a very narrow range of frequencies (not over 10 per cent). The usual frequency meter designed for measurements of frequencies over a wide range is not adequate for this purpose.

The use of the piezooscillator for checking a station's frequency and the use of a frequency indicator are described, respectively, in Bureau of Standards Letter Circulars 186 and 180, which publications give, in addition, specifications for the construction of these devices. They are entitled, respectively, "Specifications for portable piezooscillator, Bureau of Standards Type N," and "Specifications for Frequency Indicator, Bureau of Standards Type B, for use in radio-transmitting stations." Either letter circular may be obtained by persons having actual use for it upon application to the Bureau of Standards.

The list of stations given below is purely preliminary; more stations will be added in future lists. All of the stations listed below use either a frequency indicator of a piezooscillator as a checking device (not automatic control).

Station	Owner	Location	Assigned wave length	Frequency (kilocycles)	Apparatus for frequency regulation
WOC	Palmer School of Chiropractic.	Davenport, Iowa..	453.6	620	Piezooscillator.
WTIC	Travelers' Insurance Co.	Hartford, Conn....	475.9	630	Do.
WMAQ	Chicago Daily News.....	Chicago, Ill.....	447.5	670	Frequency indicator Type B.
WCCO	Washburn Crosby Co....	Minneapolis-St. Paul, Minn.	416.4	720	Piezooscillator.

KFKA	Colorado State Teachers' College.	Greeley, Colo.....	272.6	1,100	Piezooscillator.
KFH	Hotel Lessen (Rigby-Gray Hotel Co.).	Wichita, Kans....	267.7	1,120	Frequency indicator, Type B.
W*LNK	All American Radio Corporation.	Chicago, Ill.....	265.3	1,130	Piezooscillator.
WCAD	St. Lawrence University.	Canton, N. Y.....	263	1,140	Frequency indicator, Type B.
WAAM	I. R. Nelson.....	Newark, N. J.....	263	1,140	Piezooscillator.
W8KC	WorkStar Knitting Co....	Bay City, Mich....	260.7	1,150	Frequency indicator.
WOWO	Main Auto Supply Co....	Fort Wayne, Ind..	227.1	1,320	Piezooscillator.
WBDM	Atlas Investment Co....	Chicago, Ill.....	225.4	1,350	Do.
WEFV	Joseph H. Tate.....	Harrisburg, Ill....	225.4	1,350	Do.
KFBQ	Hirsch Battery & Radio Co.	Cape Girardeau, Mo.	223.7	1,340	Frequency indicator, Type B.
WOK	Neutrowand Radio Manufacturing Co.	Homewood, Ill....	217.3	1,380	Piezooscillator.
WPDQ	Hiram L. Turner.....	Buffalo, N. Y.....	205.4	1,460	Frequency indicator, Type B.

## STANDARD FREQUENCY STATIONS

As a result of measurements by the Bureau of Standards upon the transmitted waves of a limited number of radio transmitting stations, data are given in each month's Radio Service Bulletin on such of these stations as have been found to maintain a sufficiently constant frequency to be useful as frequency standards.

As shown by the list of constant frequency stations, there may be many other stations maintaining their frequency just as constant as these, but these are the only ones among those observed at the bureau. There is, of course, no actual guaranty that the stations named below will maintain the constancy shown, but the data indicate the high degree of confidence that can be placed in them. The

## REFERENCES TO CURRENT RADIO LITERATURE

This is a monthly list of references prepared by the Radio Laboratory of the Bureau of Standards and is intended to cover the more important papers of interest to professional radio engineers which have recently appeared in periodicals, books, etc. The number on the left of each reference classifies the reference by subject, in accordance with the scheme presented in A Decimal Classification of Radio Subjects—An Extension of the Dewey System, Bureau of Standards Circular No. 138, a copy of which may be obtained for 10 cents from the Superintendent of Documents, Government Printing Office, Washington, D. C. The various articles listed below are not obtainable from the Bureau of Standards. The various periodicals can be consulted at large public libraries.
