Fellow media professionals,

Welcome to the newest issue of the SRDS Radio Advertising Source.

We've really pumped up the volume by making a number of important changes, many of which you requested.

The first and most obvious of these changes is that the new book is actually two books (the SRDS Radio Advertising Source and the SRDS Radio Local Markets Source) combined into one comprehensive directory. The new Radio Advertising Source includes in-depth small market coverage as well as all the major market information.

The new Radio Advertising Source now also includes complete, consistent listings for ALL commercial AM/FM stations. As a result, you can instantly access key information like formats, demographics, key personnel and unique programming opportunities.

The book is now organized by Arbitron Metros and Non-Metro markets within state boundaries. This, coupled with new quick-read state maps, instantly gives you an idea of where your message will be heard.

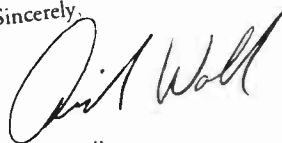

And unlike any other publication, EVERY station's listing will now be updated monthly. This ensures that all the latest information will always be at your fingertips.

Finally, the Radio Advertising Source now features a Market Profiles section with metro rankings, demographic breakdowns, and average quarter hour shares. We complete the book with new indexes that will help you quickly locate stations by call letters and format.

I hope you enjoy the new Radio Advertising Source. Please continue to pass along your comments and suggestions about this or any of the other new SRDS sourcebooks. Because the more you tell us, the more effectively we can serve your needs.

Thanks again for your support.

Sincerely,

Rick Wolk  
Publishing Director

THE WAY YOU PLAN AND BUY **radio media** WILL NEVER BE THE SAME.

### Radio changes quickly.

At the touch of the dial, stations are bought and sold. New stations arise. Old ones sign off forever. And yesterday's modern country format is now all sports talk.
