Katz Radio

Somewhere in the fine print is where you'll usually find the truth. The truth is, a commercial aired on WADB 95.9 FM reaches more listeners on average than a commercial aired during the same time period on any other station in Monmouth and Ocean Counties. For example, a commercial aired on WADB between 7am and 7pm reaches on average, 79% more listeners than a commercial on WJLK FM and 70% more than on WOBM FM. Truth is stranger than fiction. Call Bud Heck at 908-681-3800 for more truths that will make you a more successful advertiser in Monmouth and Ocean Counties.
