Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

# YOU ASKED FOR IT!

## SRDS RADIO MARKET ESTIMATOR

### And Now You've got it.

With the permission of the KATZ Radio Organization, we borrowed their style and technique to create a useful, top-150-market radio cost estimator for you in SRDS Spot Radio Rates & Data.

In fact, we've taken the KATZ technique a step further. We'll be publishing our RADIO MARKET ESTIMATOR every month and updating the individual tables whenever there is a rate change for any one of the major stations in the market. That way you can be sure your estimates are always current, always useful.

You'll find the new SRDS RADIO MARKET ESTIMATOR positioned directly below the city of license or major city designation heading, for each of the top 150 markets. Eventually we will add other markets as you need them.

See for yourself if this new addition to SRDS Spot Radio Rates & Data doesn't save you time and trouble.

*You asked for it and now you've got it . . .* **RADIO MARKET ESTIMATOR in SRDS.**

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

Chattanooga occupies a unique position, geographically  
 and demographically. Fringe coverage from neighboring cities  
 doesn't cover Chattanooga: it's a big market, and it takes a big  
 station to cover it.

Only one station has more audience in the mid-South from  
 6 to 10 AM . . . and that's in Atlanta.

Chattanooga's big station is WDEF!
