# Have you ever been to Superior, Nebraska? We have.

Suppose you have a small budget. You need results through a limited advertising program. Your product appeals to farmers or rural dwellers. The media you select MUST SELL for you.

**Solution — Standard Rate & Data's:**  
Spot Radio Rates & Data  
Spot Television Rates & Data  
Newspaper Rates & Data

Every month in these issues you'll find reliable, up-to-date market statistics and market maps to help you solve your problem.

Naturally, media selection can't be 100% guaranteed, but the buyer of media who does careful research — thoroughly studying averages and percentages — can justify his decisions. He's sure of presenting his product to the people who need it, want it and can afford to buy it.

When you have something to sell, results are essential. You'll get those results by using market data made available to you by Standard Rate & Data.

This is just one of the many ways we seek to make your job easier — for you.

# Know Your Service

## Special features of Spot Radio Rates and Data help your station selection

Besides the regular station listings, these four specific references in the monthly edition of *Spot Radio* aid in your selection of stations by type and location:

- **Alphabetical Index** — stations are listed alphabetically by call letter showing city of license and state.
- **Foreign Language Programming** — stations with at least one program are listed geographically showing the language and number of hours of foreign language programming.
- **Negro Programming** — listed by state, city and call letters, stations having at least one regularly scheduled program are shown with total hours Negro programming.
- **Farm Programming** — stations broadcasting at least one total weekly farm broadcast hours.

These features — kept up to date monthly — are designed to facilitate the job of station selection. See the contents page for location of these and other feature bonuses.

## SALT LAKE CITY (11 AM; 7 FM)

(including Murray)

Salt Lake County—Map Location F-8

See SRDS consumer market map and data at beginning of the State.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

# More Information Through 14,500 Aids To Media Buying

Last Year, more than 14,500 Service-Ads (more than one thousand per month) appeared in Standard Rate. Service-Advertisers supplied the qualitative media information designed for your use . . . designed to make evaluating and buying more effective.

Each month, Service-Advertisers present useful material, condensed and qualitatively edited, to provide you with as complete a media picture as is possible.

Service-Ads include ready-to-use information on:

- household income characteristics • coverage by county and other civil divisions • market maps • area characteristics • rural and/or incorporated areas • audience or circulation data • rate comparisons • special services • audience or reader characteristics • retail sales potential • sales influence and case histories • awards for excellence • major crops and/or industries • community growth • audience or circulation growth • consumer spendable income figures • market index figures • market data by sales characteristics • market group or network affiliation • staff members and number of years serving community •

Service-Ads can aid you in market and media evaluation . . . supply the additional data you need to make that process easier . . . provide the facts with which to support your final decision.

**ROANOKE...  
A Great \$740 Million  
Market!**

Roanoke has a diversified, and  
reliable economy. Year-round  
sales are unusually free of fluctu-  
ations. As a market, Roanoke  
ranks as the nation's 66th ADI.  
And as a metro, Roanoke's \$8513  
per household retail sales ranks  
it 14th in the nation!

And WSLC makes it  
even greater!

Why? Because WSLC "clicks"  
with listeners for advertisers—  
reaching 24 counties with a mil-  
lion-plus population.

The modern country sound of  
WSLC reaches your audience.  
WSLC is #1... a strong #1  
... in most time periods...  
with most age groups.

Ask Katz about Roanoke and  
WSLC. It's a combination story!

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is the part of the time buying function to determine extent of coverage, audience delivered, etc., within the area.

Spokane County—Map Location F-2

See SRDS consumer market map and data at beginning of the State.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

### RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest cost stations (and the average thereof) in each daypart.

# Listings in SRDS' SPOT RADIO Are Governed by Established Criteria

*TO PROTECT YOU, the user, SRDS has established certain criteria which must be met by those who are listed in its rates and data catalogs. In order that you would realize the conditions of eligibility which govern editorial treatment, we present the guidelines followed by SRDS for radio station listings in its SPOT RADIO RATES AND DATA.*

SRDS' policy is to list, without charge, commercially-licensed radio stations (AM and FM) according to the city of license as assigned by the Federal Communications Commission. These stations are listed alphabetically and follow this sequence:

- (1) alphabetical by state,
- (2) alphabetical by city within state,
- (3) alphabetical by call letters.

Because of the continuing evolution of modern marketing concepts as practiced by the SRDS user, there have been certain refinements made in the conventional listing format by FCC city of license (alphabetical by city within state). These refinements follow.

## (1) Urban Area Designation

Applicable only to licensees in the five (5) urbanized areas of metropolitan New York, Los Angeles, Chicago, Philadelphia and Detroit. The listing format shall be, first, to identify all stations licensed to urbanized places from the major city (e.g. "Stations in Chicago Urban Area"). In both arrangements, the stations will be identified in alphabetical sequence of call letters.

All stations within cities whose center of town is 25 or less miles from the major city's downtown area (e.g. the "loop" in Chicago or "midtown" Manhattan in New York) are eligible for listing under the Urban Area Designation. For those stations within cities beyond the 25 mile (direct measurement), there must be evidence of contiguity—in this sense, an uninterrupted series of urbanized areas emanating from the major city.

The urban area designations immediately follow the final station listing licensed to the major city. The name of the city of license appears directly beneath the station's call letters. A free cross reference is provided under the city of license. A station has the option to have its listing appear under the Urban Area heading or under its city of license. A station which has its listing under an urban area may also qualify for a duplicate listing under the major city heading provided it places a 10 MV/M signal over 70% of the corporate area of the major city.

A station that qualifies for a listing under an urban area may purchase either a paid cross reference or a duplicate listing under the urban area with the basic free listing under the city of license.

## (2) Combination City Designation

In describing the alternative policies which govern the Combination City Headings—as set forth

below—the classic use of the word "contiguous" (a series of things in contiguous connection) is intended to convey its application in modern marketing as "an uninterrupted series of urbanized areas."

### Phase A

1. Where two or more cities of comparable size are contiguous, and where one of the stations requests a combined heading, the cities are combined in one heading and the city heading sequence will be determined by descending population size.

2. The following paragraph is to be inserted following the combination city heading and immediately preceding the call letters of the first listing:

3. "Stations (licensed to cities) located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time-buying function to determine the extent of individual station coverage, audience delivered, etc. within the area."

### Phase B

1. Where the population figures vary widely and the smallest city's population is less than 1/3 the population of the largest, it will be shown as ..... (including .....).

2. The following paragraph is to be inserted following the combined city headings which contain the word "including." It will immediately precede the call letters of the first listing.

3. "Stations (licensed to cities) contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area of cities involved. It is part of the time-buying function to determine the extent of individual station coverage, audience delivered, etc. within the area."

NOTE: A service free cross reference showing the location of the listings, will be used under the respective city of license. Paid cross references and/or paid duplicate listings are not permitted for stations whose basic listings appear under combined city headings.

## (3) Routine Listing Service

Available to stations satisfying the following criteria:

### a) Population Size

The FCC city of license has a corporate city population of 25,000 or more ('70 Census), or the licensee is in a city contiguous to the major city and consolidated under the major city heading.

e.g. COLUMBUS (including Worthington), Ohio

e.g. TULSA (including Sand Springs), Okla.

### b) Advertising Acceptance, National and Regional Spot Radio

A station provides evidence of sufficient advertising acceptance (National and Regional Spot) in accordance with the minimum criteria established by SRDS.

### c) Advertising Solicitation, National and Regional Spot Radio

A station actively solicits National and Regional Spot radio advertising and includes SRDS in its marketing plan.

Other radio stations' data have been compacted to serve minimum user requirements.

## (4) Duplicate Listings

(a) Where an AM station is licensed to one city, but places a daytime 10 MV/M signal over 70% of the corporate area of a second city, we would grant a paid duplicate listing under the second city. Engineering contour maps showing the 10 MV/M signal strength must be forwarded for measurement purposes.

(b) The requirement for a paid duplicate listing for an FM Station is a daytime 1 MV/M signal over 70% of the corporate area of the second city. Engineering contour maps showing the 1 MV/M signal strength must be forwarded for measurement purposes.

## (5) Cross References

For a paid cross reference under other than city of license, the station must be (a) a designated outlet for a network system (statement from network is a requirement), and/or (b) maintain a business office and/or studio in the city other than city of license.

The paid cross reference would include either or both of the following, according to the method under which the station would qualify.

a. Call letters, address, and telephone number of office or studio in adjoining city, and a standard reference referring to the basic listing.

b. Call letters, national network affiliation, and a standard reference to the basic listing.

## TELL-ALL UNIT

Eight column spread unit, or multiples thereof, consisting of ad and listing, with the listing starting at the top of the first column on the left-hand page. A tell-all unit is a complete eight column spread devoted exclusively to the advertiser's listing and advertisement.

To figure the space available, add up the number of inches of listing (ten inches per column) and subtract the total from 80. The number of inches left over should be devoted to advertising space, with a minimum charge based at least 45 inches of advertising space where one listing appears in the tell-all. If two or more listings appear, the minimum charge is based on 50 inches of display space. In any case, the space left over after the listings are provided for is subject to charge. Colors and bleed, when used, at rates shown under these headings.

## 6. AGENCY DISCOUNT

A 5% discount will be given at termination of contract year to advertisers who contract in advance and then run advertising of 5 inches or larger in every issue. The discount is earned only if SRDS receives a firm order in advance of the appearance of the first insertion which starts the contract year. The 5% discount is rebated to the advertiser at the conclusion of the contract year (not applicable to color charges).

Not applicable to cover positions. Advertising of media in common ownership may not be combined to earn continuity discount.

You are there—in SRDS

You or your representative would like to be on hand every time a radio buy is being considered in your market — but you can't always be. SRDS can and is, so the best thing you can do to cover every selling situation is to put your selling story in SRDS to support and substitute for your representative.

Spot Radio Rates and Data is designed to provide complete, current, accurate data on 6,300 commercially licensed radio stations in the U. S. Our publication is used by agency buyers/planners of media and national/regional advertisers. These people rely heavily on all the vital, up-to-date information Spot Radio Rates and Data provides each month:

- list of station representatives
- stations regularly scheduling farm, foreign language, Negro programs
- coded contract regulations
- consumer market data summary: states, census divisions, U. S.
- composite ranking of all U. S. metros by market data categories
- specific rankings of all metros by market data categories, including the actual data
- radio stations in Standard Metropolitan Statistical Areas
- farm market data summary; states, census divisions, U. S.
- farm income by commodities and commodity groups
- 400 leading farm counties ranked by population, gross income and number of farms
- Negro population totals for all U. S. metros plus counties for nine states
- 100 leading metros ranked by Negro population
- Spanish population totals for selected metros and counties in eight states
- regional radio networks and groups

AND — in each State section:

- state media/market map
- consumer market data (CSI, TRS, etc.) for state, all counties, metros and cities
- Negro population data for metros and selected counties in nine states
- state networks and groups

## BINDING METHOD

Perfect.

## PRINTING SPECIFICATIONS

Half-tones for body pages 85-line screen preferred, maximum 100-line screen with highlights deep etched to .0035 lines and tone contrasts exaggerated. For covers and inserts—up to 133 screen. Ben Day screens exceeding 50% density are not recommended. Reverse: Reverse plates acceptable but fine line art elements, or type involving fine line serifs or strokes not advisable for good reproduction.

Original plates produce best results. If electros are furnished they should be unused, clean, sharply molded, made from properly etched original plates. Electros must be mounted and not exceed maximum dimensions, including tacking edge or flush mount. Mounting, mortising, repairs, etc., and making of plates charged to advertiser. Can use mats, but printing results from stereotypes not guaranteed. Color register guaranteed only when engraver's proofs are furnished.

No charge for composition from available SRDS typefaces on material received by scheduled set-copy closing date.

Outside composition and late set copy is charged at cost plus handling.

All plates destroyed 12 months after publication unless instructed otherwise.

## INSERTS

Furnish 3 column unit (30") inserts trimmed for 8-1/8" in width (8-1/8" x 11-1/2"). This allows for 1/8" trim at the binding edge (for Perfect Binding) 1/4" trim at the top and 1/4" trim at the bottom.

Furnish 40" inserts untrimmed (10-15/16" x 11-1/2"). This allows for 1/8" trim at the binding edge (for Perfect Binding) 1/4" trim at top, 1/2" at side, and 1/4" at bottom.

In both cases, keep important type and illustrations at least 1/2" from gutter and 1/4" from trim edges. Insert stock: Uncoated book paper, maximum weight .0055. Coated book paper, maximum weight 70 lbs. (25 x 38 basis) should calliper not to exceed .0035.

SRDS requests paper samples for inserts supplied by the advertiser for use in SRDS.

Ship all spread inserts unfolded. Allow 1/4" space in the gutter for trim-off in the Perfect Binding process. Minimum quantity required 5,100.

# TELLING

**Tell Buyers What They Need To Know . . .** hard facts about your station and your market to serve the buyer at the point of purchase! Here are some of the points most buyers say they want to know about your radio station:

## Your Station

### Coverage - Audience Characteristics

- Station coverage by measured contours (0.5 MV/M and 0.1 MV/M), by ARB and/or Pulse survey areas
- composition of audience — urban, farm; by age, sex, income, education; by ethnic/language groups
- population, income, sales by designated areas
- special penetration studies

### Programming - Ratings

- programming structure, daytime and nighttime (e.g. talk, news, pop/light/serious music)
- amount and kind of sports/news/recreational programming
- amount of simulcast AM / FM programming
- station personalities and special-audience programs (farm, teen, foreign language)
- programs available for participation or full sponsorship
- comparative rating data by dayparts (drivetimes, daytime, late evening); comparisons of shares, ratings, quarter-hour of cume audiences for single or combined dayparts
- breakouts by age/sex demographics
- audience data against previous years

### Identification, Policies, Facilities, Time Costs

- ownership, network or group affiliation
- channel, frequency and power
- studio and mobile facilities
- discount availabilities, package plans
- cost-per-thousand listeners

### Advertiser Acceptance

- number of national and local sponsors; prestige accounts
- sponsor-renewal trend in current, past years
- mail or telephone response to commercials, offers, contests
- test market campaigns and results

### Special Services

- special station studies or surveys on market potential, buying habits
- all media reach/impact comparisons with radio, newspapers, etc.
- merchandising services to all advertisers

## Your Market

### Market Area Map

- engineering contour map showing daytime and/or nighttime coverage by measured contours
- coverage data based on accepted research and **sourced**
- county lines, major cities, urban, suburban, and farm areas outlined

### Market Size, Population & Households

- totals within coverage areas plus breakdowns by urban, farm, ethnic, etc.
- ranking within state, nation or metro area
- per cent of state, regional, U. S. population (also gain in per cent)
- characteristics (age patterns by sex, education; economic data by census tracts, age groups)
- home ownership data

### Economic Factors—Consumer Spendable Income and Retail Sales

- totals by designated areas; all households, per household
- ranking (national, state, metro area)
- per cent of U. S., region, state (also gain in per cent)
- gross farm income by area totals, gains, comparison with other farm markets, and by ranking
- totals by type of retail outlet (drug, food, automotive, service station)
- comparisons of city, county, metro sales-to-CSI ratios vs. other markets
- sales by ethnic groups (Spanish, Negro, etc.)

### Special Market Characteristics

- marketing patterns (retail trade activity and special factors, such as tourist trade)
- estimates of sales to non-residents
- industry diversification (types, number of plants, total wage earners in each)
- new and expanded industry; leading manufacturers; payroll and wage average
- military installations (number of military and civilian personnel)
- transportation facilities, utilities, schools and universities, banking institutions

# SELLING

The best way to reach planners and buyers of radio is with an ad next to your listing in SRDS Spot Radio. Your ad will be noticed and read by the people **actually making a buy** in your market. Research has proven this time and time again.

For example, in an ongoing 1974 report of spot radio buying activity, conducted nation-wide by phone, every single respondent was actively engaged in planning or buying spot radio. Of these planners and buyers, 99% confirmed they use Spot Radio Rates & Data, and 75% said they use it **daily or weekly**.

SRDS Spot Radio in 1973 far surpassed every other competing publication in the advertising categories surveyed:

- Maintained 1-1/2 times as many radio station accounts as the number two publication.
- Was selected by 58% of all radio station accounts which ran in only one publication, exclusively.
- Ran more insertions than all other publication **combined** — 67% of the total.
- Carried more than 40% of all ad pages run in all publications **combined**.
- Carried 57 of the 58 12-time, once-a-month radio station ad schedules.

Spot radio planners and buyers use — and re-use — Spot Radio Rates & Data. A Service-Ad next to your listing will sell your market and medium when and where it counts.

**Selling Time Thru Space . . .** Whatever you can say to help buyers buy time on your station should be said in SRDS. This literature spells out the advantages of advertising in SRDS. It's yours for the asking.

### Patterns of Success

Want a larger share of the advertising dollars that will be spent this year? Four studies of advertising/sales relationships made during four recession periods show parallel "Patterns of Success" in competitive markets that may have great significance for sellers of advertising.

### Change Creates Opportunity

Change means re-evaluation and re-evaluation means SRDS is used. Apply SRDS aggressively as a competitive weapon. Take advantage of any change in the economy in order to keep your competitor off balance.

**Do You Sometimes Wonder if Media Sales Promotion Pays Off?** Here's a presentation of the John E. Morill study of business advertising effectiveness, showing that product preference, share of customers and dollars are greater when sales of advertising work together, than when sales calls work alone.

### WIXY/WDOK-FM

A discussion about the portion of the total sales communication WIXY and WDOK-FM assign to SRDS and how well it works for them.

**In SRDS, You Are There . . . selling by helping people buy.**

### Here is How Some Media Sellers Have Solved Sales Problems

A folder of exceptional SRDS Service-Ads showing how alert media sellers have taken advantage of the unique marketplace SRDS makes available to them.

**Sellers of Advertising . . . No Shoeless Shoemakers' Children They**

Realizing the total sales communication task cannot be accomplished by personal contacts alone, 1700 media sellers know **THEY ARE THERE** when they advertise in SRDS.

### The Loneliest Man in Town

A saga of the lonely Spot Radio buyer's **ONLY** companion in his moment of decision throughout the planning/buying process — Spot Radio Rates and Data!

### What's in SRDS for You?

For the man with space or time to sell, exposure to the traffic in SRDS makes your service-ad an enterprising selling tool, appearing at the times your prospects are taking positive buying actions.

# SRDS Spot Radio Coded Contract Regulations

## Coded Format for Spot Radio

### A code program designed to make it easier to estimate and buy Spot Radio

Regulations, operating policies and procedures common to the greater number of radio stations have been arranged in code form for efficiency in usage by advertising agency personnel and to extend to every radio station the opportunity of listing all of the standard provisions that apply in the handling of national accounts.

The station rate policies and practices represented by code numbers and letters have been selected based on uniformity and frequency of appearance in station listings. Provisions not readily adaptable to the coding procedure and those not appearing in sufficient frequency to warrant codes are retained in station listings.

The SRDS Radio Coded Contract Regulations guarantee that every standard regulation can be quickly identified by number and letter. Regulations have been grouped insofar as possible under related headings. The numbers and letters in each group will come to be associated with their respective headings (such as code 61 under Continuing Discounts).

Numbered codes based on the numbers and letters encircled by station officials appear in each radio station listing under the listing segment number "5: GENERAL ADVERTISING." Note following example:

**5. GENERAL ADVERTISING** See coded regulations,  
General: 1b, 3a, 3d, 4a, 5, 6b, 7b, 8.  
Rate Protection: 10c, 11c, 12c, 13c, 14b, 16.  
Basic Rates: 20b, 21a, 21c, 24a, 27, 29a, 30.  
Contracts: 40a, 41, 42a, 44b, 46, 51b, 51c.  
Comb.; Cont. Discounts: 60d, 60e, 60f, 61a, 61b, 62a,  
62d.  
Cancellation: 70a, 70c, 71a, 72, 73b.  
Production Services: 80, 82.

The headings for the categories shown in the Code are repeated (as indicated above) in the individual code in each station listing for ready reference.

- 60e. 1-minute, 30-second, 20-second and ID announcements may be combined to earn discounts.
- 60f. All announcements, regardless of length or classification, may be combined to determine discounts.
- 60g. 1-minute, 20/30-second announcements may be counted to earn frequency for 10-second (ID) announcements, but not vice-versa.
- 60h. All plans can be combined for greater frequency discount.
- 60i. Multiple products of same parent company may combine for all applicable discounts.
- 60j. Programs and announcements may be combined to earn lower rates.
- 60k. One minute and thirty second announcements may be combined to earn higher discount rate.

## Continuing Discounts/Renewal

- 61a. Schedules maintained without interruption after one year period will continue to be billed at earned discounts. After first year advertiser may continue at same discount until schedule is reduced or interrupted. This schedule is not subject to short rate.
- 61b. Service which has been maintained for 52 consecutive weeks and continues weekly, without lapse, will receive same frequency or the frequency applicable to that portion of the service which continues.
- 61c. To earn continuing discounts advertiser must begin new contract period for quantity discount purposes.
- 62a. Renewal: Advertisers must renew 4 weeks prior to the last scheduled broadcast date to insure broadcast without lapse.
- 62b. Contracts may be renewed providing there is no interruption in service on 28 days' written notice for programs; 14 days' for announcements.
- 62c. Contracts may be renewed providing there is no interruption in service on 35 days' written notice for programs; 28 days' for announcements.
- 62d. Contract renewals subject to rates in effect at time of renewal.
- 62e. In the event of revision of station rates or discounts any continuous broadcasts may be extended at the same rates and discounts for a period of 52 weeks from the effective date of revision.

## Cancellation/Preemption

### (Programs)

Program contracts subject to cancellation—

- 70a. on 28 days' prior written notice.
- 70b. on 28 days' prior written notice but no such termination shall be effective until 13 weeks after the start of broadcasting.

### (Announcements)

Announcement contracts subject to cancellation—

- 70c. on 14 days' prior written notice.
- 70d. on 14 days' prior written notice but no such termination shall be effective until 4 weeks after the start of broadcasting.
- 70e. Schedules may be terminated by either party giving the other two weeks' prior notice, but no such termination shall be effective until two full broadcast weeks, as contracted for, have been broadcast following receipt of such notice.

- 71a. Cancelled contracts subject to short rate.
- 71b. Cancelled contracts not subject to short rate.
72. In the event that the station finds it necessary to preempt all or any part of the service for which an advertiser has contracted, without previous notice, it is understood that cancellation of charges for same will be the maximum liability of station. Station is to have sole discretion as to necessity for such preemption.

- 73a. All programs and announcements subject to cancellation by the station for broadcasts of significant events in the public interest.
- 73b. All programs and announcements are subject to interruption or cancellation for broadcasts of significant events without affecting rate of frequency discount to which advertiser would otherwise be entitled.

## Production Services

80. Advisory services of the program and technical departments in arranging and presenting programs are available to clients at no charge. A charge will be made for programs requiring special production.
81. Talent, mimeographing of scripts and continuity and related production services are subject to extra charges.
82. Remote pick-up facilities, mobile units, extra.

# THE ROCK OF AGES (18-34)

In Detroit, like all other American cities, FM Rock has taken hold. No longer do the AM Contemporary stations dominate that crazy, wonderful, wild spending 18 - 34 year old market.

In Detroit, the one that's packing them in, is **WABX, the Progressive Rock Station**, that's doing it with complex, creative, exciting, contemporary sounds . . . sounds that have made WABX #1 among all FM stations, regardless of their format.

**#1 AMONG ALL FM STATIONS IN ADULTS 18-34  
MONDAY THRU SUNDAY 6 A.M. TO 12 MIDNIGHT\***

*P.S. WABX is also #3 among all AM & FM stations  
in Men, Monday thru Sunday, 6 A.M. to 12 Midnight.*
