Introduction

This is a "there ought to be a book . . ." book. Anyone who has driven a long distance with only a radio for company has felt the need for this national radio directory. **ACROSS THE DIAL** can serve an amazing variety of purposes, but it is designed primarily for automotive travelers who enjoy listening to the radio while on the road. It is a single-source directory for the radio listener who wants to tune in a favorite kind of music (or news) on the AM or FM dial anywhere in North America, and for the TV viewer who needs to find the available channels in any American city.

ACROSS THE DIAL is easy to use. Towns and cities are listed alphabetically under their states or provinces. Radio stations' call letters and their formats are listed by city (stations appear under the city in which they are licensed by the Federal Communications Commission or its Canadian equivalent, the Canadian Radio-television and Telecommunications Commission). The television section—"Around the Channels"—similarly lists call letters and network affiliations under each city. In both directories, stations are listed in the order they appear on the dial, that is, by frequency or channel. For radio, each town's AM stations are listed first, then FM's. In the TV directory, VHF stations precede UHF's. (Cable channels are not listed; those viewing on a television hooked up to cable may find that channel numbers in the directory do not correspond to the channels on the set.)

In order to show all the radio stations serving a metropolitan area under the city's name, some radio stations are listed in more than one place. Suburban stations appear under the town in which they are located and the nearby major city. For example, KBEA, an AM news/talk station, is listed under its hometown of Mission, Kan., as well as the larger city it serves, Kansas City, Mo.

In very large metropolitan areas (or "markets," as they are known in the jargon of commercial broadcasting) such as New York, Chicago or Los Angeles, more

than one radio station may be listed under a single frequency. Under New York City, for instance, three stations are listed under the FM frequency 88.5. Each broadcasts over 88.5 in different parts of the greater New York region: WARY in Valhalla, N.Y., WKWZ in Syosset, N.Y. and WPOB in Plainview, N.Y. In most cases, stations sharing a frequency in a metropolitan area are of relatively low power, and may be receivable only in the suburb in which they originate.

The Call Letters Directory is used to find the actual location of a suburban radio station listed in a large city, or to find the location of any station for which only the call letters are known. Beginning on page 181, the directory lists every radio station alphabetically by call letters, showing the city and state in which each is licensed. A station's frequency and format may then be found under its city in the main directory.

Americans' listening tastes vary widely, and radio programming reflects that diversity. This edition of **ACROSS THE DIAL** uses some 42 categories to delineate the programming styles of more than 11,000 U.S. and Canadian stations listed. Even within these programming styles there are variations. In general, our format designation gives a good idea of what to expect when tuning in a listed station. For some diversified stations, we list up to three formats (e.g., KRLW-AM in Walnut Ridge, Ark., broadcasts agricultural news, country & western music, and talk). Just under 10% of the radio stations in **ACROSS THE DIAL** list no format. Be aware that formats change often, and although every effort has been made to be completely up-to-date, there may be a few incorrect format listings.

Because of space limitations, many of our format designations are abbreviated. **ACROSS THE DIAL** accepts the radio industry's names for the various types of music and other programming listed. Instead of the general term "rock," for example, we use "AOR" (Album-Oriented Rock), "Class Rock" (Classic Rock) and "CHR" (Contemporary Hit Radio, similar to Top 40, which includes some rock). A list of format abbreviations and short descriptions of some of the formats begins on page 5. As noted there, an asterisk (*) in front of a radio or television station's call letters indicates the station is noncommercial.

For television stations, network affiliations listed include ABC, CBS, NBC, PBS (Public Broadcasting

System) and Fox (for Fox Broadcasting Co.'s recently formed TV network) for the United States. Nonaffiliated stations are listed as "Ind" for independent. For Canadian TV stations, the language of the programming is indicated: "Eng" for English and "Fr" for French.

Aside from the obvious value of **ACROSS THE DIAL** to recreational vehicle users and other travelers, this directory is used by professionals in media relations and advertising, by radio enthusiasts such as DXers, by airplane pilots (for orientation) and, certainly, by many others for purposes beyond the editors' imagination. The publisher wants to continue to make the book more useful to you, and welcomes your comments. Suggestions should be addressed to:

Broadcasting Book Division
1705 DeSales St., N.W.
Washington, DC 20036

For more complete information on radio, television, cable and related facilities, use the **BROADCASTING/CABLE YEARBOOK**. Radio and TV listings include addresses, phone numbers, personnel, power and antenna information and much more. This annual publication is the most comprehensive and up-to-date directory available of the broadcast and cable industries. Write for a brochure: Circulation Dept., Broadcasting, 1705 DeSales St. N.W., Washington, DC 20036.

Formats

* An asterisk (*) before a station's call letters indicates that the station is noncommercial.

AC Adult Contemporary - Music format featuring popular songs of recent vintage, with a few oldies. The songs tend to be upbeat and soft; many AC stations call themselves "Lite." News and talk at these stations are prominent during morning and evening rush hour, or "drive time."

Agri Agricultural - News, weather and features of interest to farmers and others involved in agriculture.

Am Ind American Indian - Programming of interest to American Indians, often in native languages such as Navajo.

AOR Album-Oriented Rock - Strong emphasis on music, usually featuring "sweeps," uninterrupted sets of several songs. The music is rock, often ranging from sixties classics to recent hits. News plays a secondary role. Also see Classic Rock.

Big Band Popular, primarily instrumental music from the thirties and forties by bands such as Glen Miller's Orchestra and Tommy Dorsey. Also see Nostalgia.

Black Music, talk and news for black listeners. While music at Black stations tends to be similar to that of Urban Contemporary stations, in general this format caters more directly to the interests and tastes of black Americans. Also see Disco, Urban Contemporary.

Bluegrass Related formats are Country & Western and Folk.

Blues Some Jazz and Progressive stations also program blues music.

Btfl Beautiful Music - Also known as "Easy Listening," this format features long sweeps of uninterrupted music. The songs are primarily instrumental, and always soft and unintrusive. There is usually very little talk, and few commercials.

C&W Country & Western - These stations play styles of music ranging from older traditional country tunes to today's "Hit Country" sounds. The amount of news and talk on country stations varies widely from station to station.

CHR Contemporary Hit Radio - Similar to the old "Top 40" format, CHR features records that are currently selling well, usually twenty to forty songs played in cycles throughout the day. Often DJ's are upbeat "personalities." News and information are generally de-emphasized.

Class Classical - Classical music, often long pieces played without interruption. Announcers offer commentary and criticism, and special features such as live concerts are common. Primarily a noncommercial FM format.

Class Rock Classic Rock - Popular rock tunes of the seventies and eighties. Similar style to AOR.

Comedy A rare format featuring recorded stand-up comics and/or old radio comedy series.

Disco High-energy dance music first popular in the seventies. Also see Black and Urban Contemporary.

Educ Educational - Primarily a noncommercial format, usually comprised of various types of informative and instructional programming such as over-the-air college courses.

Ethn Ethnic - In addition to the specific non-English language categories of American Indian, Filipino, French, German, Greek, Italian, Polish, Portuguese and Spanish, we use the general term, Ethnic, to denote multilingual stations and others catering to ethnic minorities.

Filipino

Folk Played full-time on very few stations, American folk music is also heard on noncommercial Variety stations. Also see Bluegrass.

French

German

Gosp Gospel - Especially popular in the south, evangelical music is programmed on many Religious format stations.

Greek

Ital Italian.

Jazz Primarily, though not exclusively, a noncommercial FM format. Some Classical stations program jazz music features. Also see New Age.

Literary A rare format featuring dramatic readings, poetry, etc.

MOR Middle-of-the-Road - Primarily a traditional AM format featuring music, news and talk. Songs are usually popular standards. Announcers are often personalities who try to keep the listener interested and informed. News, both national and local, plays an important role at most MOR stations; sporting events and other features of interest to the community are common.

New Age A music format generally featuring soft "fusion" (a form mixing elements of jazz and rock), often enjoyed as background entertainment. As the name implies, this format is a recent development.

News All-news stations deliver local, national and international news, as well as sports, weather and information (e.g., ten-minute features on business or gardening) round-the-clock. Many stations mix a heavy news emphasis with Talk programming.

Nostalg Nostalgia - Popular tunes from the thirties, forties and fifties. Nostalgia stations often feature on-air personalities, and usually deliver a lot of news and information.

Old Oldies - Hit songs from the fifties, sixties and seventies, usually played by upbeat DJ's. News, talk and special features (chart countdowns, trivia contests, etc.) generally play an important role.

Polish

Polka Tunes for the traditional dance. Most Polka stations are located in Wisconsin.

Portgse Portuguese.

Progsv Progressive - Primarily a noncommercial format common among college radio stations. Progressive stations play many types of music, often including avant-garde music not played on conventional stations.

Pub Affr Public Affairs - Programming of interest to the local community, such as broadcasts of city council meetings. Many noncommercial (and commercial

News and Talk) stations cover local issues on news features or talk shows.

Reggae The popular Jamaican musical form. Sometimes played on Progressive stations.

Relg Religious - Talk and/or music with inspirational and spiritual themes. Most American religious stations air Christian sermons or songs. Also see Gospel.

Span Spanish.

Talk The Talk radio format features topical programs on many subjects, especially practical matters such as health or finance, and community issues. Listener call-in and interview shows are common, and the host's personality tends to be an important element. Many Talk stations air national satellite-delivered talk programs. News, sports and weather are usually emphasized during drive times. Primarily an AM format. Also see News.

Urban Urban Contemporary - A music format featuring danceable tunes, often from a variety of genres (i.e., rhythm & blues, disco). Most Urban Contemporary stations emphasize music by black artists. Also see Black, Disco.

Var Variety - Many (especially noncommercial) stations defy categorization because they air so many different types of programming during some or all of their broadcast day. We label these Variety (also known as "Diverse").

Across The Dial is a *must* for anyone who needs to know "where the action is" on the AM, FM or TV dial anywhere in North America. Perfect for motorists who want to listen to their favorite kinds of radio and/or TV programming as they travel, this guidebook is also ideal for professionals involved in media relations, or radio buffs who enjoy tuning in distant stations.

There are probably as many ways to use **Across The Dial** as there are U.S. radio listeners (78% of us tune in every day). Whatever your reason is, if you want to know where to tune for rock in Richmond (Virginia or Indiana), or what TV network uses channel 16 in Scranton, or how many stations broadcast from Eugene, Oregon, **Across The Dial** is the book for you.

For more than fifty years, Broadcasting Publications has published news and information products for the broadcasting industry. The information compiled for **Across The Dial** is authoritative and up-to-date. It is the most complete and accurate pocket directory of radio and television available.
