ENTHUSIASTIC MEMBERS WRITE:

"basic principles unforgettably learned" . . .

It is only after having completed the experiments in your kits that I can say I have truly and unforgettably learned the basic principles of electronics. **JOHN R. KANTA**, Berkeley Ave., Yonkers 5, N. Y.

"your kits are interesting and rewarding" . . .

I am an electronics student in the Air Force and find your kits interesting and rewarding. We have not covered anything in the school that you have not covered in the kits. **JOHN G. DILL**, Keesler Air Force Base, Biloxi, Miss.

"far ahead of friend taking another course" . . .

A friend of mine is taking a correspondence course in electronics, and I have learned more from your first two kits than he has in twenty lessons. **RAY P. BILODEAU**, 130 Exchange St., Leominster, Mass.

"the number of concepts presented is amazing" . . .

Your kits offer a range of experiments usually performed only in the better high school and college laboratories. The number of concepts presented, and the clarity and concreteness of their development is amazing. **R. M. HELM**, Professor of Physics, East Carolina College, Greenville, N. C.

PICK YOUR OWN SUCCESS STORY FROM THIS PAGE

These are the true stories of people who seemed trapped in routine, low-pay shaky jobs. Handicapped by lack of proper training, they couldn't get the things they wanted out of life—more money, a job they liked, security and happiness.

They are a small sample of the thousands of men and women—young and old—who turn to I. C. S. for help. Their will-to-learn plus I. C. S. training have changed the course of their lives.

Are you discouraged with your job and pay and feel you can't improve yourself because of lack of specialized education? Well, these men and women were in the same boat. With I. C. S. training, one of these success stories could be about you.

I. C. S. is the oldest and largest correspondence school. 250 courses. Business, industrial, engineering, academic, high school. One for you. Direct, job-related. Bedrock facts and theory plus practical application. Complete lesson and answer service. No skimping. Diploma to graduates.

Wins \$3000 contest—"After my I. C. S. courses I secured a new position," says Mr. Cecil Rhodes. "My income has more than doubled and I recently won a \$3000 sales contest."

From clerk to Assistant Estimator, thanks to I.C.S. "Any way you look at it," writes Mrs. Edna James, "the time and money one spends for I. C. S. Courses will be repaid a thousandfold."

As a college graduate, I found I.C.S. very valuable. Robert Lee took the I. C. S. Course in Advertising, is now Promotion Manager for a large corporation. "I. C. S. got me started on the way up," he says.

Reports 20% increase in salary! Gregory C. Johns says. "I. C. S. training gave me unlimited opportunity! I have completed one course, and am now enrolled in Practical Plumbing."

3 FREE BOOKLETS—a 36-page pocket-size guide to advancement, a gold mine of tips on "How to Succeed." Also a big catalog outlining opportunities in your field of interest and a sample I.C.S. lesson.

World-Wide Short-Wave Stations

Most international broadcasting is done within frequency limits agreed upon at international conventions. These frequency ranges are listed here, at the right, expressed both in frequency and by meter bands (wave-length).

Reception in the various bands varies according to the time of day and season of the year. Reception in the 60, 49 and 41 meter bands is best at night during the winter months. Reception in the 31 and 25 M. bands is best at night, but all year. Reception in the 19, 16, 13 and 11 M. bands is best during the day, also at night during the summer in the 16 and 19 M. bands. This listing includes only SWBC often heard in the U.S. and Canada, exclusive of those in the continental U.S.

Abbr.: AIR—All India Radio; RAI—Radiotelevisione Italiana; RTF—Radiodiffusion Television Francaise; VOA—Voice of America; RFE—Radio Free Europe. • denotes stations beaming evening (U.S. time) broadcasts to the U.S., † morning or afternoon broadcasts, V—varies.
