Exclusive with **RCA** ...

AUTOTEXT®

new, faster, easier way toward a career in electronics

EXCLUSIVE WITH RCA. "AUTOTEXT", developed by RCA and introduced by RCA Institutes, Inc. is a system of programmed instruction, a method of learning proved with thousands of students. This beginning course in electronics is accurately planned so that as you read a series of statements, questions, and answers, you learn almost without realizing it. It's fast! It's easy! It's fun!

BEGIN NOW WITH RCA "AUTOTEXT". Now you can start your home training the amazing new RCA "AUTOTEXT" way. And, you get a complete set of theory lessons, service practice lessons, experiment lessons, and all the kits you need. Because "AUTOTEXT" has been designed to help you master the fundamentals of electronics more quickly, more easily—almost automatically—you'll be ready to go on to advanced training in electronics sooner than you ever thought possible.

STUDENT PROVED. Prove it to yourself as others throughout the country are now doing. An interest or inclination in electronics is all you need. RCA "AUTOTEXT" helps you to do the rest. The future is unlimited. The jobs are available! The important thing is to get started now,

Complete Selection of Home Training Courses.

- Electronics Fundamentals (also available in Spanish)
- TV Servicing
- Color TV
- Transistors
- Communications Electronics
- FCC License Preparation
- Mobile Communications
- Drafting
- Computer Programming
- Automation Electronics
- Industrial Electronics
 - Automatic Controls
 - Industrial Applications
 - Nuclear Instrumentation
 - Digital Techniques

All RCA Institutes Home Training Courses are complete step by step easy-to-understand units. You get prime quality equipment in the kits furnished to you to keep and use on the job. In addition, RCA's liberal tuition plan affords you the most economical possible method of home study training. You pay for lessons only as you order them. If you should wish to interrupt your training for any reason, you do not owe one cent. Licensed by the N.Y. State Department of Education. Approved for Veterans.

FREE OFFER!

We'll send you complete information on amazing new RCA "AUTOTEXT", along with a free sample of a home training lesson in Electronics Fundamentals to prove to you how easy it is to learn this new way. Check Electronics Fundamentals and information will be rushed to you.

Classroom Training Available in New York City, and Cherry Hill (near Camden) New Jersey. Check "Classroom Training" and we will rush information.

WHITE'S RADIO LOG

An up-to-date Broadcasting Directory of North American AM, FM and TV Stations. Including a Special Section on World-Wide Short-Wave Stations

THIS is the third and last part of *White's Radio Log*, now published in three parts twice each year. This format change, the first in over two decades, enables the Editors of RADIO-TV EXPERIMENTER to offer its readers two complete volumes of *White's Radio Log* each year, while increasing the scope of the *Log* and its accuracy.

In this issue of *White's Radio Log* we have included the following listings: U. S. AM Stations by Call Letters, U. S. FM Stations by Call Letters, Canadian AM Stations by Call Letters, Cuban, Mexican and Puerto Rico AM Stations by Call Letters, and the newly expanded World-Wide-Short-Wave Section.

In August/September 1964 issue of RADIO-TV EXPERIMENTER, Volume 42, No. 1 the *Log* will contain the following listings: U. S.

AM Stations by Frequency, Canadian AM Stations by Frequency, U. S. Television Stations by States, Canadian Television Stations by Location and the World-Wide Short-Wave Section. In the event you missed any part of the *Log* published during the first half of 1964, you will have a complete volume of *White's Radio Log* by collecting any three consecutive issues of RADIO-TV EXPERIMENTER during 1964. The three consecutive issues are an entire volume of *White's Radio Log* that offers complete listings with last minute station change data that are not offered in any other magazine or book. If you are a broadcast band DX'er, FM station logger, like to photograph distant TV test patterns, or tune the short-wave bands, you will find the new *White's* format an unbeatable reference.

QUICK REFERENCE INDEX

U.S. AM Stations by Call Letters.....	109
U.S. FM Stations by Call Letters.....	118
Canadian AM Stations by Call Letters.....	121
Cuba, Mexico & Puerto Rico AM Stations by Call Letters.....	122
World-Wide Short-Wave Stations.....	122

U. S. AM Stations by Call Letters

actual monitoring reports rather than data taken from published program schedules received from the stations, you may find that frequencies (and operating times) given here differ from *official* listings. This is because foreign short-wave stations frequently operate several kilocycles away from their assigned (and announced) frequencies. In addition, the schedules of these stations are often changed and the changes are not published in the schedules until many months later. We feel that the type of log which *White's Radio Log* is presenting represents a very realistic picture of the current status of short-wave broadcasting, and is something which cannot be obtained from any other sources.

For the DX'er. If you care to roam the bands for DX, we present here some information which will be of invaluable use to you in tracking down DX stations.

It should be noted that most short-wave broadcasting stations operate within 9 specific frequency bands, established by international agreement. Each of these bands has a number, corresponding to the average wavelength of the frequencies within the band. The 9 bands are as follows:

- 60-meter band= 4750 kc to 5060 kc
- 49-meter band= 5950 kc to 6200 kc
- 41-meter band= 7100 kc to 7300 kc
- 31-meter band= 9500 kc to 9775 kc
- 25-meter band=11700 kc to 11975 kc
- 19-meter band=15100 kc to 15450 kc
- 16-meter band=17700 kc to 17900 kc
- 13-meter band=21450 kc to 21750 kc
- 11-meter band=25600 kc to 26100 kc

Although the current radio propagation conditions have made the high frequency bands (11 and 13 meter bands) relatively poor for DX'ers, the other bands are generally good during certain periods of the year. As a general rule, the following bands are "hot for DX" during the times indicated:

- 60-meter band=Winter nights.
- 49-meter band=Winter nights.
- 41-meter band=Winter nights.
- 31-meter band=Nights, all year.
- 25-meter band=Nights, all year.
- 19-meter band=Days all year, and Summer nights.
- 16-meter band=Days, all year, and Summer nights.
- 13-meter band=Days, all year.
- 11-meter band=Days, all year.

Here and There on the Bands. Those of you who are interested in monitoring spaccshots and the like should make note of the

frequencies which have been used for such purposes in the past. The following have been utilized by NASA for the American shots: 5190, 7580, 10615, 11228, 13215.5, 13826, 15016, 15968, and 20700 kc/s.

In our last issue we ran an article on "undercover" broadcasting stations (*Counterfeit Broadcasters*, by Tom Kneitel, K3FLL/WB2AAI) which drew considerable mail. The author reports that RADIO-TV EXPERIMENTER readers added some clandestine loggings of their own to the list we published. Some of those reported were: "Sawt alh Thawra al Jazariyah" on 6430, 8023, 8277, 12415; "Idhaat Harakat an Nahdah al Jazairiyyah" on 8220 kc/s; "Sawt Athuqawimin Min Alwilaya Alkamisah" on 8277 kc/s; "Radio Christo Botev" on 7232 kc/s; "Radio Republik Persatuan" on 6465 kc/s; "Radio Rebelde" on 7005 kc/s; "ZPX14, La Voz del Movimiento Catorce de Mayo para la Libertad Paraguaya" on 14100 kc/s; "Voce d Istria" on 6326, 6470, 6550 kc/s.

The clandestine "R. Libertad" is still one of the most active of the many undercover stations on the air. Despite two previously reported mailing addresses for the station which turned out to be false, we have come up with two additional addresses now. The first is P.O. Box 1624, Miami 1, Fla., the other is P.O. Box 2113, Ocean View Branch, Miami, Fla. We can't vouch for either yet. There has been some speculation that the station is located aboard a ship known as the *SS Rex*, but we still put our bet down for the true location as being Venezuela.

"Radio Americas" (formerly "Radio Swan") has been playing musical chairs with an annoying jamming station in Cuba. Because of the jammer they have had to keep changing their broadcast band frequency. They announce that they are on 1160 kc/s but have been heard anywhere between 1156 and 1175 kc/s.

By the way, "La Voix de la Revolution," which was listed in the *Counterfeit Broadcasters* as being an undercover station, turned out to be legit. Their address is P.O. Box 617, Conakry, Guinea Republic.

Let Us Know. Listeners are invited to submit their loggings to us for publication in the Shortwave section of *White's Radio Log*. Be sure to include the following information for each station you report: approximate frequency, call sign and/or station name, city and country, and time heard in Eastern Standard Time, 24 hour clock. Address your reports to: DX CENTRAL, *White's Radio*

WHITE'S RADIO LOG

Log, c/o RADIO-TV EXPERIMENTER, 505 Park Avenue, New York, N. Y. 10022, U.S.A.

Time To Listen. All times shown in *White's Radio Log* are in the 24 hour EST clock system. For example, 0800 is 8:00 AM EST, 1200 is noon EST, 1800 is 6 PM EST, and so on. For conversion to other time zones, subtract 1 hour for CST (0800 EST is 7 AM CST), 2 hours for MST, 3 hours for PST.

The following abbreviations are used in our listings: BC—Broadcasting Company, Corporation, or System; E—Emissora; R—Radio or Radiodiffusion; V—Voice or Voz.

TNX. We are indebted to the following DX'ers who added their loggings to those of DX CENTRAL, the official R-TVE monitoring station in New York City, to bring you this month's listings:

Pat Stakem, Cumberland, Md.
Fred Simon, Danbury, Conn.
Peter Grenier, Fall River, Mass.
James Howard, Kansas City, Mo.
Donny Perro, Mobile, Ala.
Jim Bennett, Jr., Conygham, Pa.
Tom Kneitel, New York, N. Y.
Walter P. Pyne, Hagerstown, Md.
Richard Wallace, Flushing, N. Y.
Matthew O'Neill, Freeport, N. Y.
Graham Quaal, Lake Forest, Ill.
Alan S. Lamb, Toronto, Ont.
Francis Gifford, Lathrup Village, Mich.
R. Aman, Milwaukee, Wis.
Kermit Hickman, Crocker, Mo.
Charles S. Wackerman II, Pollocksville, N. C.

Why not send us your loggings for our next listing? Share your DX with others! Get those reports in NOW! Good DX!

TRAIN AT HOME with NRI

For 50 years the leader in training men for careers in Electronics, Radio-TV

Training men to succeed in the many fields of Electronics has been NRI's **only** business for half a century. The NRI diploma is respected and recognized by prospective employers in business and industry throughout the U.S. and Canada. NRI graduates are enjoying higher pay, more interesting work, better futures in every field of Electronics . . . performing work for which **you** could qualify through NRI "learn-by-practice" methods. And NRI provides training at reason-

able cost because it is the oldest, largest home-study school of its kind. If you want the security, prestige and freedom from financial worries that come with training . . . then you want to investigate NRI's specialized instruction plans and the many career opportunities in the fast-growing Electronics industry. Write **now** for our two free books. Use the postage-free

SEE OTHER SIDE

THE DEMAND IS GREAT FOR SKILLED TECHNICIANS

NRI's Servicing course trains you to fix black-and-white and color TV sets, radios, hi-fi, etc., shows you how to make \$3 to \$5 an hour in spare time soon after enrolling. Leads to a good full time business of your own, servicing Electronic products for the home.

Prepare for a career as an Electronic Technician in industry, business, government, the military, with NRI training in Industrial Electronics. Computers, telemetry, automation, etc. all employ the same basic electronic principles, and that is what NRI training stresses.

Communications offers a choice of careers operating or servicing transmitting equipment in broadcasting, aviation, marine, mobile radio, etc. From simple circuits to FCC exams, NRI courses train you quickly in one or all of the Communications fields.

PICK YOUR CAREER

Join the thousands who gained success through NRI training

Thousands of ambitious men have moved up to career-level jobs or businesses of their own in Radio-TV Servicing, Communications, Industrial and Military Electronics through NRI training. The demand for skilled Technicians in this age of color TV, stereo, rockets, missiles, computers, telemetry, microwave, lasers, masers and automation is greater than the demand for engineers—4 to 7 times greater. Whether you're working in Electronics now, are a hobbyist or beginner . . . whether you're a college graduate or a man who had to leave school early . . . whatever your desire or education, there's Electronics training for you among NRI's specialized instruction plans. Choose from "short courses," specialized training in fields of Communications or intensive training for career positions. Get full details about the course of your choice without obligation. Mail card below.

1. Television-Radio Servicing
2. Industrial-Military Electronics
3. Complete Communications
4. FCC License
5. Basic Electronics
6. Math for Electronics
7. Aviation Communications
8. Marine Communications
9. Mobile Communications
10. Electronics for Automation

SPECIAL NRI EQUIPMENT MAKES TRAINING FASTER, EASIER

When you train with NRI, you "learn-by-doing" with carefully developed custom-designed equipment included—at no extra cost—with most courses. All equipment is yours to keep. Projects you build, experiments you perform, make NRI illustrated lessons come to life. Complex subjects take on practical meaning. Actual shop and laboratory experience makes learning faster, easier, makes you more valuable to prospective employers—or use it to make extra money in your own spare time or full time service business. Free books we send you show equipment, tell about the NRI Trial Enrollment Plan. Convenient monthly payments. Mail postage-free card.
