# EICO Makes It Possible

Uncompromising engineering—for value does it!  
You save up to 50% with Eico Kits and Wired Equipment.

## Cortina Stereo

Engineering excellence, 100% capability, striking esthetics, the industry's only **TOTAL PERFORMANCE STEREO** at lowest cost.

A Silicon Solid-State 70-Watt Stereo Amplifier for \$99.95 kit, \$139.95 wired, including cabinet. Cortina 3070.

A Solid-State FM Stereo Tuner for \$99.95 kit, \$139.95 wired, including cabinet. Cortina 3200.

A 70-Watt Solid-State FM Stereo Receiver for \$169.95 kit, \$259.95 wired, including cabinet. Cortina 3570.

## Eicocraft

The newest excitement in kits, 100% solid-state and professional.

Fun to build and use. Expandable, interconnectable. Great as "jiffy" projects and as introductions to electronics. No technical experience needed. Finest parts, pre-drilled etched printed circuit boards, step-by-step instructions.

Electronic Siren \$4.95, Burglar Alarm \$6.95, Fire Alarm \$6.95, Intercom \$3.95, Audio Power Amplifier \$4.95, Metronome \$3.95, Tremolo \$8.95, Light Flasher \$3.95, Electronic "Mystifier" \$4.95, Photo Cell Nite Lite \$4.95, Power Supply \$7.95, Code Oscillator \$2.50, FM Wireless Mike \$9.95, AM Wireless Mike \$9.95, Electronic VOX \$7.95, FM Radio \$9.95, AM Radio \$7.95, Electronic Bongos \$7.95.

## Citizen's Band

Two years ahead! Model 7923 All Solid-State 23-Channel 5W Transceiver. 4 exclusives: dual-crystal lattice filter for razor-sharp selectivity; efficient up-converter frequency synthesizer for advanced stability; precision series-mode fundamental crystals; Small: only 3"H, 8"W, 8 1/4"D. \$189.95 wired only. The best buy in tube-type CB—"Sentinel-Pro" 23-channel dual conversion 5W Transceiver \$169.95 wired only.

EICO Trans/Match (Model 715) is a professional test set designed for complete checking of ham and CB equipment. Kit \$34.95; Wired \$49.95.

## Truvohm

Professional Portable Multimeters by EICO. The industry's greatest V-O-M values. Designed, made to Eico's high standards of professionalism. Each complete with batteries & test leads. Backed 100% by famous EICO warranty.

- Model 100A4, 100,000Ω/V, \$34.95.
- Model 30A4, 30,000Ω/V, \$19.95.
- Model 30A3, 30,000Ω/V, \$15.95.
- Model 20A3, 20,000Ω/V, \$12.95.
- Model 4A3, 4,000Ω/V, \$9.95.
- Model 1A1, 1,000Ω/V, \$5.95.

## Automotive

EICO 888—Car/Boat Engine Analyzer. For all 6V/12V systems; 4, 6, 8-cyl. engines.

Now you can keep your car or boat engine in tip-top shape with this solid-state, portable, self-powered universal engine analyzer. Completely tests your total ignition/electrical system.

Complete with a Tune-up & Trouble-shooting Manual. Model 888; \$44.95 kit, \$69.95 wired.

Model 232 Peak-to-Peak VTVM. A must for color or B&W TV and industrial use. 7 non-skip ranges on all 4 functions. With exclusive Uni-Probe.® \$29.95 kit, \$49.95 wired.

## Test Equipment EICO®

100 best buys to choose from.

"The Professionals"  
—laboratory precision, at lowest cost.  
Model 460 Wideband Direct-Coupled 5" Oscilloscope. DC-4.5mc for color and B&W TV service and lab use. Push-pull DC vertical amp., bal. or unbal. input. Automatic sync limiter and amp. \$109.95 kit, \$149.95 wired.

# 10 Reasons why RCA Home Training is your best investment for a rewarding career in electronics:

## 1 LEADER IN ELECTRONICS TRAINING

RCA stands for dependability, integrity and pioneering scientific advances. For over a half century, RCA Institutes, Inc., has been a leader in technical training.

## 2 RCA AUTOTEXT TEACHES ELECTRONICS FASTER, EASIER

Beginner or refresher — AUTOTEXT, RCA Institutes' own method of Home Training will help you learn electronics faster, easier, almost automatically.

## 3 THOUSANDS OF WELL PAID JOBS ARE OPEN NOW

RCA Institutes can help you qualify for a rewarding career if you have an interest in electronics. Every year, thousands of well paid electronics jobs go unfilled just because not enough men take the opportunity to train themselves for these openings.

## 4 WIDE CHOICE OF CAREER PROGRAMS

Start today on the electronics career of your choice. On the attached card is a list of "Career Programs", each of which starts with the amazing AUTOTEXT method. Look the list over, pick

the one best for you and check it off on the card.

## 5 SPECIALIZED ADVANCED TRAINING

For those working in electronics or with previous training, RCA Institutes offers advanced courses. Start on a higher level. No wasted time on material you already know.

## 6 PERSONAL SUPERVISION THROUGHOUT

All during your program of home study, your training is supervised by RCA Institutes experts who become personally involved in your efforts and help you over any "rough spots" that may develop.

## 7 VARIETY OF KITS, YOURS TO KEEP

At no extra cost, a variety of valuable specially engineered kits come with your program—yours to keep and use on the job.

## 8 FROM RCA INSTITUTES, INC. TRANSISTORIZED TV KIT AND VALUABLE OSCILLOSCOPE

All students receive a valuable oscilloscope. Those enrolled in the TV program or courses receive the all-new Transistorized TV Receiver—both at no extra cost and only from RCA.

## 9 UNIQUE TUITION PLAN

You progress at your own pace. You only pay for lessons as you order them. There's no long-term contract or large down-payment to lose. Even if you decide to interrupt your training, you don't lose a single cent.

## 10 RCA GRADUATES GET TOP RECOGNITION

Thousands of graduates of RCA Institutes are now working for leaders in the electronics field; many others have their own profitable businesses... proof of the high quality of RCA Institutes training.

## SEND ATTACHED CARD TODAY FOR FREE DESCRIPTIVE BOOK

All courses and programs approved for veterans under new G.I. Bill.

## CLASSROOM TRAINING ALSO AVAILABLE. FREE CATALOG ON REQUEST.

Canadians: These same RCA courses are available to you in Canada. No postage. No customs. No delay. Your inquiry will be referred to our school in Canada.

What would you expect to pay  
for a Vox "Jaguar" Combo organ  
with a 180-watt 3-channel amp?  
\$1000? \$1250? \$1500? More?

You can get both for only \$598  
during this Special Heathkit Offer!

Now you can get this famous professional combo organ with a versatile high-power piggy-back amp. and matching speaker system for just a little more than you'd expect to pay for the "Jaguar" alone! The Heathkit/Vox "Jaguar" is solid-state; two outputs for mixed or separated bass and treble; reversible bass keys for full 49 key range or separate bass notes; bass volume control; vibrato tab; bass chord tab; four voice tabs (flute, bright, brass, mellow); keyboard range C<sub>2</sub> to C<sub>6</sub> in four octaves; factory assembled keyboard, organ case with cover, and stand with case. Also available separately; you'll still save \$150 (order Kit TO-68, \$349.95).

The Heathkit TA-17 Deluxe Super-Power Amplifier & Speaker has 180 watts peak power into one speaker (240 watts peak into a pair); 3-chan-

nels with 2 inputs each; "fuzz", brightness switch; bass boost; tremolo, reverb; complete controls for each channel; foot switch; 2 heavy duty 12" speakers plus horn driver. Also available separately kit or factory assembled (Kit Amplifier TA-17, \$175; Assembled \$275; Kit Speaker TA-17-1 \$120; Assembled \$150; Kit TAS-17-2, amp. & two speakers \$395; Assembled TAW-17-2, amp. & two speakers \$545).

Kit TOS-1  
Organ, Amplifier  
& Speaker Kits (240 lbs.)  
**\$598.00**

Kit TOS-2  
Organ Kit, Assembled  
Amplifier & Speaker (240 lbs.)  
**\$698.00**

## New! Solid-State Portable

So Handy, So Low Cost we call it "every man's" meter. Just right for homeowners, hobbyists, boatowners, CBER's, hams ... it's even sophisticated enough for radio & TV servicing! Features 12 ranges ... 4 AC & 4 DC volt ranges, 4 ohm ranges; 11 megohm input on DC, 1 megohm input on AC; 4 1/2" 200 uA meter; battery power; rugged polypropylene case and more. Easy 3 or 4 hour kit assembly.

### Volt-Ohm-Meter

Kit IM-17  
**\$19.95**

## New! Heathkit Guitar Headphone Amplifier

Kit TA-58  
**\$9.95**

Now you can play and practice your electronic guitar in private! Just plug this miniature amplifier into the jack of your guitar and use a pair of headphones. Solid-state circuit has tailored response; automatic off-on switching; self-contained battery (not supplied); and capability of operating one or two pairs of mono or stereo headphones of 4 to 2 megohms. Ideal for practice or instruction. Easy to build.

Kit TA-58, 2 lbs. .... \$9.95

## NEW FREE 1968 CATALOG!

# WHITE'S RADIO LOG

**An up-to-date Broadcasting Directory of North American AM, FM and TV Stations. Including a Special Section on World-Wide Shortwave Stations**

**T**his is the third and last part of *White's Radio Log*, published in three parts twice each year. This format presentation enables the Editors of RADIO-TV EXPERIMENTER to offer its readers two complete volumes of *White's Radio Log* each year, while increasing the scope of the *Log* and its accuracy.

In this issue of *White's Radio Log* we have included the following listings: U. S. AM Stations by Call Letters, U. S. FM Stations by Call Letters, Canadian AM Stations by Call Letters, Canadian FM Stations by Call Letters, Major Broadcast Stations in Mexico and the Caribbean and the World-Wide Shortwave stations section.

In the August-September, 1968 issue of RADIO-TV EXPERIMENTER the *Log* will contain the following listings: U. S. AM Stations by Frequency, Canadian AM Stations

by Frequency, U. S. Television Stations by States, Canadian Television Stations by Cities and the World-Wide Shortwave Stations section. In the event you missed a part of the *Log* published during 1968, you will have a complete volume of *White's Radio Log* by collecting any three consecutive issues of RADIO-TV EXPERIMENTER published during the year. The three consecutive issues are an entire volume of *White's Radio Log* that offers complete listings with up-to-the minute station change data that are not offered in any other magazine or book.

If you are a broadcast band DX'er, FM station logger, like to photograph distant TV test patterns, or tune the shortwave bands, you will find the new *White's* format an unbeatable and up-to-date handy reference.

## QUICK REFERENCE INDEX TO WHITE'S RADIO LOG

Are your home-town AM stations listed correctly in *White's Radio Log*? If you believe there is a correction called for in *White's* listings, please check first with your local station. For each call sign obtain the correct city location, frequency, and power. (Remember, even though your local paper may list a station as a "home-town" station, it may be officially licensed by the FCC for operation in the next city.) Get all the facts on a piece of paper (be very brief), include your name and address, and mail to *White's Radio Log*, RADIO-TV EXPERIMENTER, 505 Park Ave., New York, N. Y. 10022. Your help in contributing to the accuracy and completeness of *White's Radio Log* will be sincerely appreciated. See page 124.

## A THANK YOU NOTE FROM THE EDITORS

**Thank you!** The Editors of RADIO-TV EXPERIMENTER would like to thank all readers who offered information on station changes, additions and deletions during the past few months. Though many of the letters overlapped, each aided us considerably in making the task of keeping White's Radio Log as current as possible at press time. If we left your name out, please forgive us!

### World-Wide Shortwave Stations

■ Here it is again, time to dust the rust off that ol' antenna and see how you stack up in our big DX contest. Yes, be the first one on your block to be called the nut who spent hours to qualify in a contest where there are no prizes and where you don't even have to enter! Well, that's the bit. All you do is follow the instructions and then rate yourself to see how good you are. Ready? Let's go!

1. Did you ever *lithen* (pardon our *lisp*) to *Lithuania*? Probably not because it's a pretty rare bird. Here's your chance. Look for Radio Vilnius, located at Vilnius, Lithuanian SSR; it's on 7260, 9560, 9590, and 11970 kHz at 2100 and 2230 GMT, Friday and Sunday (only), and in *English*.

2. Like locals? Several hard-to-hear small local broadcasters in Greece are being reported and you might want to take a whack at them. Look for the station in Mytilene which runs 100 watts until 2300 GMT on 6420; the station in Carpenission running 300 watts on 6525 kHz until 2400 GMT; and the station at Chios on 6590 kHz with 100 watts until 2230 GMT.

3. If you're a Navy fan you'll get a kick out of hearing the U.S. Navy aeronautical network which goes nightly on 6723 kHz. Both land stations and aircraft stations can be heard.

4. Here's a change to log one of those newly formed countries. It's the *Voice of*

*Biafra* in the new nation of . . . (you guessed it) *Biafra*. The signal isn't great, but it's there if you seek it out on 6145 kHz around 0500 GMT.

5. We'd like t'bet that you've never logged Tibet; a mini-nation which has been swallowed up by China lo these many years. It's being reported 5935 kHz at 1415 GMT.

6. Here's a switcheroo. We're asking you to try your hand at a distant station on the standard broadcasting band. The station is Radio Peking which pumps a cool 2-million watts onto 1525 kHz. With a nice long antenna you might be able to hear something here if you have no local broadcasters on 1520 or 1530 kHz.

7. Guess what's back in town; no, it's not Lulu, it's *Radio Americas!* That's right, it's holding down the fort on its old 6000 kHz channel too, after an absence of about a year. Is it still on Swan Island? It sure is; however, the station is trying to make it

appear that they are in Venezuela. The broadcast band channel (1157 kHz) is still coming from Swan Island; there's no doubt about that any longer since the press was allowed to visit the island.

8. The Canadian Coast Guard and other governmental stations are being heard on 1630 kHz most evenings. This is a good channel and should provide an interesting earful.

**How Do You Rate?** Here's how to score yourself. You get 10 points each for numbers 1, 4, 5, 6, and 7. Score yourself 5 points each for the stations in number 2. You earned yourself 2 points each for each station heard within a half hour's listening stint on numbers 3 and 8.

Below 40 points; keep trying. From 42 to 60 points; you show promise. From 62 to 80 points; you're a winner. From 82 to 90 points; great! From 91 points upward; nobody likes a show-off!

# Let I.C.S. equip you for success in radio-TV-electronics—

with professional equipment!

Brand-new "Electronic Laboratory," now being offered for the first time, can help you land in this big money-making field—FAST!

Here's an opportunity for you to turn spare time into cold cash, or begin a whole new career—in a field where the rewards have never been greater. And you *don't* need previous experience to do it!

International Correspondence Schools has just developed a new I.C.S. Electronic Laboratory you can construct in your own home. Includes series of training kits, plus the new I.C.S. VTVM—the professional quality vacuum tube voltmeter shown here. With it comes complete course instruction combining all the fundamentals with practical knowledge you can apply at once. And best of all, you build your own professional test instrument!

**I.C.S. instruction gets you going with equipment you can really use!**

A famous manufacturer of nationally known electronic testing equipment worked closely with I.C.S. to develop the Electronic Laboratory and the VTVM itself. Everything you get is geared to increase your skill and knowledge step by step. Until finally, you've completed a precision testing

unit you can use for practically any kind of experimentation, design or servicing work.

Here's how I.C.S. instruction works. You begin with basic study lessons. Texts are clearly worded and easy to follow. At the same time, you "act out" what you learn with simple experiments. Then, in 3 easy stages, you assemble your own precision testing unit. Throughout, your instructor gives you expert, professional help. You learn at home, in spare time, as fast as ability permits.

**Coupon brings full details on your future in this fast-growing field!**

Make up your mind right now to find out how I.C.S. training in Radio-TV-Electronics can pay off for you. See how it can help you cash in on the tremendous demand for men skilled in installation, maintenance and servicing of radios, TV sets, hi-fis, computers, automation systems and a host of other space-age devices. Clip and mail the coupon below. You'll receive 3 valuable *free* booklets—including sample lesson. They'll show how you can land in this big-money field *fast!*

**Coupon brings 3 valuable FREE booklets. MAIL IT TODAY!**

CIRCUITS AT HOME only  
with the New Improved  
PROGRESSIVE RADIO "EDU-KIT"® \$26.95

## A Practical Home Radio Course

### Now Includes

- ★ 12 RECEIVERS
- ★ 3 TRANSMITTERS
- ★ SQ. WAVE GENERATOR
- ★ SIGNAL TRACER
- ★ AMPLIFIER
- ★ SIGNAL INJECTOR
- ★ CODE OSCILLATOR

- ★ No Knowledge of Radio Necessary
- ★ No Additional Parts or Tools Needed
- ★ EXCELLENT BACKGROUND FOR TV
- ★ SCHOOL INQUIRIES INVITED
- ★ Sold In 79 Countries

Training Electronics Technicians Since 1946

## YOU DON'T HAVE TO SPEND HUNDREDS OF DOLLARS FOR A RADIO COURSE

The "Edu-Kit" offers you an outstanding PRACTICAL HOME RADIO COURSE at a rock-bottom price. Our Kit is designed to train Radio & Electronics Technicians, making use of the most modern methods of home training. You will learn radio theory, construction practice and servicing. THIS IS A COMPLETE RADIO COURSE IN EVERY DETAIL.

You will learn how to build radios, using regular schematics; how to wire and solder in a professional manner; how to service radios. You will work with the standard type of punched metal chassis as well as the latest development of Printed Circuit chassis.

You will learn the basic principles of radio. You will construct, study and work with RF and AF amplifiers and oscillators, detectors, rectifiers, test equipment. You will learn and practice code, using the Progressive Code Oscillator. You will learn and practice trouble-shooting, using the Progressive Signal Tracer, Progressive Signal Injector, Progressive Dynamic Radio & Electronics Tester, Square Wave Generator and the accompanying instructional material.

You will receive training for the Novice, Technician and General Classes of F.C.C. Radio Amateur Licenses. You will build Receiver, Transmitter, Square Wave Generator, Code Oscillator, Signal Tracer and Signal Injector circuits, and learn how to operate them. You will receive an excellent background for television, Hi-Fi and Electronics.

Absolutely no previous knowledge of radio or science is required. The "Edu-Kit" is the product of many years of teaching and engineering experience. The "Edu-Kit" will provide you with a basic education in Electronics and Radio, worth many times the low price you pay. The Signal Tracer alone is worth more than the price of the kit.

### THE KIT FOR EVERYONE

You do not need the slightest background in radio or science. Whether you are interested in Radio & Electronics because you want an interesting hobby, a well paying business or a job with a future, you will find the "Edu-Kit" a worth-while investment. Many thousands of individuals of all

ages and backgrounds have successfully used the "Edu-Kit" in more than 79 countries of the world. The "Edu-Kit" has been carefully designed, step by step, so that you cannot make a mistake. The "Edu-Kit" allows you to teach yourself at your own rate. No instructor is necessary.

### PROGRESSIVE TEACHING METHOD

The Progressive Radio "Edu-Kit" is the foremost educational radio kit in the world, and is universally accepted as the standard in the field of electronics training. The "Edu-Kit" uses the modern educational principle of "Learn by Doing." Therefore you construct, learn schematics, study theory, practice trouble shooting—all in a closely integrated program designed to provide an easily-learned, thorough and interesting background in radio.

You begin by examining the various radio parts of the "Edu-Kit." You then learn the function, theory and wiring of these parts. Then you build a simple radio. With this first set you will enjoy listening to regular broadcast stations, learn theory, practice testing and trouble-shooting. Then you build a more advanced radio, learn more advanced theory and techniques. Gradually, in a progressive manner, and at your own rate, you will find yourself constructing more advanced multi-tube radio circuits, and doing work like a professional Radio Technician.

Included in the "Edu-Kit" course are Receiver, Transmitter, Code Oscillator, Signal Tracer, Square Wave Generator and Signal Injector Circuits. These are not unprofessional "breadboard" experiments, but genuine radio circuits, constructed by means of professional wiring and soldering on metal chassis, plus the new method of radio construction known as "Printed Circuitry." These circuits operate on your regular AC or DC house current.

### THE "EDU-KIT" IS COMPLETE

You will receive all parts and instructions necessary to build twenty different radio and electronics circuits, each guaranteed to operate. Our Kits contain tubes, tube sockets, variable, electrolytic, mica, ceramic and paper dielectric condensers, resistors, tie strips, hardware, tubing, punched metal chassis, Instruction Manuals, hook-up wire, solder, selenium rectifiers, coils, volume controls and switches, etc.

In addition, you receive Printed Circuit materials, including Printed Circuit chassis, special tube sockets, hardware and instructions. You also receive a useful set of tools, a professional electric soldering iron, and a self-powered Dynamic Radio and Electronics Tester. The "Edu-Kit" also includes Code instructions and the Progressive Code Oscillator, in addition to F.C.C. Radio Amateur License training. You will also receive lessons for servicing with the Progressive Signal Tracer and the Progressive Signal Injector, a High Fidelity Guide and a Quiz Book. You receive Membership in Radio-TV Club, Free Consultation Service, Certificate of Merit and Discount Privileges. You receive all parts, tools, instructions, etc. Everything is yours to keep.

Progressive "Edu-Kits" Inc., 1186 Broadway, Dept. S48NN, Hewlett, N. Y. 11557

### UNCONDITIONAL MONEY-BACK GUARANTEE

Please rush my Progressive Radio "Edu-Kit" to me, as indicated below:

Check one box to indicate choice of model

- Regular model \$26.95.
- Deluxe model \$31.95 (same as regular model, except with superior parts and tools plus Radio & TV Parts Jackpot worth \$15.)

Check one box to indicate manner of payment

- I enclose full payment. Ship "Edu-Kit" post paid.
- Ship "Edu-Kit" C.O.D. I will pay postage.
- Send me FREE additional information describing "Edu-Kit."

Address .....

### PROGRESSIVE "EDU-KITS" INC.

1186 Broadway, Dept. S48NN, Hewlett, N. Y. 11557

### FREE EXTRAS

#### • SET OF TOOLS

- SOLDERING IRON
- ELECTRONICS TESTER
- PLIERS-CUTTERS
- VALUABLE DISCOUNT CARD
- CERTIFICATE OF MERIT
- TESTER INSTRUCTION MANUAL
- HIGH FIDELITY GUIDE • QUIZZES
- TELEVISION BOOK • RADIO TROUBLE-SHOOTING BOOK
- MEMBERSHIP IN RADIO-TV CLUB: CONSULTATION SERVICE • FCC AMATEUR LICENSE TRAINING • PRINTED CIRCUITRY

### SERVICING LESSONS

You will learn trouble-shooting and servicing in a progressive manner. You will practice repairs on the sets that you construct. You will learn symptoms and causes of trouble in home, portable and car radios. You will learn how to use the professional Signal Tracer, the unique Signal Injector and the dynamic Radio & Electronics Tester. While you are learning in this practical way, you will be able to do many a repair job for your friends and neighbors, and charge fees which will far exceed the price of the "Edu-Kit." Our Consultation Service will help you with any technical problems you may have.

### FROM OUR MAIL BAG

J. Stataitis, of 25 Poplar Pl., Waterbury, Conn., writes: "I have repaired several sets for my friends, and made money. The "Edu-Kit" paid for itself. I was ready to spend \$240 for a course, but I found your ad and sent for your Kit."

Ben Valerio, P. O. Box 21, Magna, Utah: "The Edu-Kits are wonderful. Here I am sending you the questions and also the answers for them. I have been in Radio for the last seven years, but like to work with Radio Kits, and like to build Radio Testing Equipment. I employed every minute I worked with the different kits; the Signal Tracer works fine. Also like to let you know that I feel proud of becoming a member of your Radio-TV Club."

Robert L. Shuff, 1534 Monroe Ave., Huntington, W. Va.: "Thought I would drop you a few lines to say that I received my Edu-Kit, and was really amazed that such a bargain can be had at such a low price. I have already started repairing radios and phonographs. My friends were really surprised to see me get into the swing of it so quickly. The Trouble-shooting Tester that comes with the Kit is really swell, and finds the trouble, if there is any to be found."

### PRINTED CIRCUITRY

At no increase in price, the "Edu-Kit" now includes Printed Circuitry. You build a Printed Circuit Signal Injector, a unique servicing instrument that can detect many Radio and TV troubles. This revolutionary new technique of radio construction is now becoming popular in commercial radio and TV sets.

A Printed Circuit is a special insulated chassis on which has been deposited a conducting material which takes the place of wiring. The various parts are merely plugged in and soldered to terminals.

Printed Circuitry is the basis of modern Automation Electronics. A knowledge of this subject is a necessity today for anyone interested in Electronics.
