BRT - Brussel - Tom Huybrechts- f.v. producer

Record of the week: **Phil Collins**- Against All Odds.
 Album of the week: **Lou Reed**- Live In Italy.

RADIO CITE - Brussel - Marc Moulin- producer

Single of the weekend: **Jermaine Jackson**- Sweetest Sweetest.
 Album of the week: **The Nylons**- Seamless (especially Take Me To Your Heart and Samba Samba are very special).
 Sure hit: **Echo & The Bunnymen**- Silver.
 ... I was surprised by the 12" of **Marcel King**- Reach For Love. One I wouldn't bet for a hit though (and I'm the only one here who enjoys it), is **Australian Crawl**- Wreckless. It looks a bit like **Imagination**- in the early days. The beat seems too slow in the beginning, but when get used to it, it becomes a gimmick...

ROCK THIS TOWN - Magazine - Alex Vital- editor

Album of the week: **Missing Persons**- Rhyme & Reasons.

ANOTHER NEWS-CORNER

Finally - **BELOUIS SOME**, a very recent EMI signing, have just completed a very successful tour with **NIK KERSHAW**. As we heard, fanmail has already been coming in thick and very fast, specially for their frontman **NEVILLE SOME**. Their debut single entitled **Target Practice**, will be released in the UK 21st of May. Their album, still in the can, will be released earlier in the summer ★ **ICEHOUSE** releases a new album on May 18th, entitled **Sidewalk** ★ Did you know that... **ANDY WARHOL** directed the video for the track **Hello Again** by **THE CARS** ★ **NILE RODGERS** is producing at least 3 tracks on **BRYAN FERRY**'s new album ★ **JERRY KRAMER**, the producer of **MICHAEL JACKSON**'s video **Thriller**, is currently busy recording a video of **VAN HALEN**'s tour in America ★ **UNDER TWO FLAGS** released their latest single **Masks/Early Sunday Morning** ★ The **ETERNAL TRIANGLE** released their forthcoming album entitled **Touch And Go**, produced by **NICK GRIFFITHS**, due to be released early May ★ **FRANK SINATRA**'s new album will be produced by **QUINCY JONES**, and will feature **LIONEL HAMPTON** & **GEORGE BENSON!** ★ **ROD STEWART** not only had help from **JEFF BECK** playing on his album **Camouflage**, but **JEFF** will also be going on tour with the **MCD** ★ **RICHIE FURAY** is back with **POCO**, after a long absence, **POCO** has a new album out entitled **Inamorata** ★ **NEW YORK DRAGON**, Australian supergroup who dominated the charts **Down Under** throughout the 70's, was re-formed last year. Their first new single **Rain** has already topped the charts in Australia and Europe. Their ip will soon be released worldwide ★ Something important to follow: **DAVID LEE ROTH** made a remarkable statement, as he regrets that there are so very few female rock- musicians. He doesn't blame it on their ability to play, but on their parents who obviously aren't very charmed by the thought of their daughters becoming rock guitarists. But we all know "Girls Just Want To Have Fun" "Time After Time". Thanx Dave!! ★ Bye Bye from **JUMPing Amsterdam** ★ **ALEXANDRA** ★ ★

TURNTABLE HITS

Berlin - Love Life- Mercury
Terry Nunn's boys are the perfect example that sound and lyrics can be very visual even without seeing it eye to eye (Pictures Of You). She switches from being the little innocent girl-to femme fatale-to being a street punk and all that just the way she's singing the strong sexual influenced songs. For those who Runaway with the band, FALL in love with Berlin, you'll need No More Words.

Bon Jovi - Bon Jovi- Mercury
For all those who're into firm hardrock. Bon Jovi's album is the perfect catch. Waiting for only one outstanding track is a waste of time, for all their songs are equally good. Love Lies is a Shot Through The Heart. Everyone will Runaway with their prove that hardrock can be melodic! Get Ready with Burning For Love, for Bon Jovi & his guys are not yet ready with you!

Joe Jackson - Body And Soul- A&M
It's always a surprise with what Joe will come up this time. After the less succesful soundtrack for the movie Mike's Murder Joe continues in nearly the same sound as the magnificent Night And Day. The cover shows a big admiration for Sonny Rollins, and the music is indeed more jazz influenced than ever. Not Here, Not Now, Happy Endings and Cha Cha Loco are all perfect airplay tracks.

PROMO VIDEOS VERY EFFECTIVE IN EUROPE

The explosion of promo videos as seen during the last two years, is more and more becoming a very important promotion tool for the record companies in Europe. Each month there are new television programs added which are either totally dedicated to videos or at least using them in parts of their show. There is a string of national television shows all over Europe using videos and also an enormous amount of regional tv-shows totally committed to these videos. In fact there are new programs added each month and it is hard for any promotion director to keep track of his possibilities for exposure. For many television companies it is an easy way to obtain relatively cheap programs with a good quality. During the next few months, payment for the use of those clips by the television companies will certainly be one of the main topics in the international trade as costs for producing them are getting more and more expensive. Although Record Companies are very glad with promotion possibilities, they feel that it is only right that some form of payment is made by the tv-broadcasting companies and in various countries in Europe there are talks going on between the various organizations as to the amount to be paid.

PRACTICALLY BANNED

In Germany there is already an agreement which was made last February after a period of two months when videos were practically banned from TV. In England there is some nominal fee television companies pay as a sort of "needle time compensation" for general use of videos, but England is the country with the least possibilities for promo videos because of regulations mainly to do with the Musician Union. There are still some shows in the UK that use them of which the leader is of course **Top Of The Pops**, produced by Michael Hurl, which program generally features two or three videos, and is totally based on the UK charts. The BBC also has the **Saturday Picture Show**, which is on Saturday mornings and is produced by Tony Harrison (from BBC Manchester). The program has replaced **BBC-1 Superstore**. They use a limited number of UK originated as well as foreign videos. The **Tube**, produced by Malcolm Gerrie, has just finished as is **Get Set**, both programs featured videos. And for the more Rock orientated audience, the **Old Grey Whistle Test** has just finished for the summer. There are some other possibilities, which include the two breakfast shows: **Breakfast TV** on BBC and **TVAM** on ITV, both will use a limited number of videos, mostly 1 per morning and will show parts of videos during their popslots, for example the **Top 10**. ITV further has a Saturday morning program called **Number 73**, but they only can use three clips in the whole series of programs. BBC-2 has a Friday night program called **Eight Days A Week**, which, although it is mainly a chat program, will show videos. Channel 4 has a program called **Earsay**, broadcasting early nights and they sometimes use videos although they prefer to have live bands. The major star of the show mostly performs two songs live. And then there are the so-called

fillerslots on ITV, where between Mondays and Fridays, they sometimes put clips in between daytime programs, but the problem here is that you never know when it will be used. All in all, the UK is not a paradise for promotion directors looking for exposure on their videos. In Germany the picture is slightly better. The main program for videos nowadays is "officially" a regional program called **Formel Eins**, but since the program is actually showing in every region in the German Republic, although on different weekdays per region, it in fact reaches the whole country. The program uses many videos and is produced by Andreas Tiesmeyer for Bavaria Films. Selections are mainly based on the German charts, but they also highlight the US - UK and Italian Hitparades. Since the introduction of this program, the rotation of hits on the German charts has speeded up considerably. National German TV ZDF has an extremely popular program called **Ronnies Popshow**, under supervision of Dr. Klaus Weising, with a real monkey presenting videos. However, it is not a regular program, although it is alternated with **Tommies Popshow**, presented by famous moderator Thomas Gottschalk. ZDF further has programs that sometimes use videos such as Holm Dressler's **Na So Was** and **Flashlight**. And there is **Radio Bremens Musikladen** produced by well-known Mike Leckebush. This show, however, mainly has artists in the studio, but will sometimes feature an important video. In the West of Germany there is the famous **Bananas Show**, produced by Rolf Spinnrads. Although this show never buys videos from companies, Rolf practically produces a special video for each artist that appears in the show. Every act gets a different set and the program is very influential for the German Music Industry.

HOLLAND

In Holland, Radio Veronica uses videos already for a number of years in its most popular videoshow **Countdown**, to which producer Rob de Boer has now added a program called **Video's Op Verzoek** (Videos On Request), which is filled by those music videos requested the most by the audience. AVRO's Jessy Winkelman presents many videos during the weekly **Toppop** show based on the national charts from Buma/Stemra. While the TROS TV channel has its own tv show **Tros Pop Video** produced by Adriaan Jassies. Last but not least, VARA has the show **Je Ziet Maar** (you'll See), produced by independant producer Harry de Winter. Videos certainly play an important role in the Dutch music industry. In France, there are video shows on the different channels of which **Platine 45** is the most regular program on Antenne 2 and produced by Catharine Puech. There are various videoshows on TV 1 under the general umbrella of **Branches Musiques** headed by Marie France Briere. A Friday night show which has recieved a lot of international attention lately is Jean Bernard Hebey's **22 Voilà Le Rock** (or **Coupe Double**) program, which is totally based on videos. Jean Bernard will feature different videos but has also has specials on certain artists such as his recent Genesis special which included clips from the group as well as the solo artists Peter Gabriel, Phil Collins and Mike Rutherford. Another show is **Clip Jockey**. French cable will also be developed quickly now that the French government has finally taken a stand in this controversial issue and will allow cable operators to start cabling. This may also open possibilities for foreign programming. In Belgium, the most important video show is a daily show, called **Image**, in from RTBF and produced by Michel Perin, which shows 30 minutes videos daily. For the Flemish part there is the popular show from Tom Huybrechts **Pop Elektron** which uses some video clips. There are a few less important shows using videos as well while parts of the Belgium audience is watching Dutch or French tv or the RTL cable. In Italy, there are many many tv shows using videos of which there are only a few really important, because of the weak impact a lot of programs have. But both RAI and Canale 5 each have strong video shows. RAI uses videos in its weekly popprogram **Discoring** produced by Antonella Caprino as well as on **Mr. Fantasy** which is on Channel 1. There are also videos used on **Stereo Due** and **Orecchicchio** which is a Saturday afternoon show. Both these programs are on Channel 2. On the commercial station Canale 5 there is the famous **Popcorn** program (producer Mario Rasini) using videos. Although videos are broadly used in Italy, the Italian audience still has a great love for personal appearances of

ABOUT THE CHARTS....
THE EUROPEAN TOP 100 (SINGLES/ALBUMS):
In many European countries one chart is recognised by the
music industry as the "OFFICIAL" hit parade and is therefore
used for the compilation of the EUROPEAN TOP100. However
there are other countries where various charts are in existence
and often equally important. For these countries we have
compiled a number of these charts into one representing the
sales in that market.
Each chart position for every country then receives, relevant to
that position, an equal points rating which is in turn multiplied
by a factor determined through the latest known sales
percentage of total singles (or album) sales which that country
holds in relation to the rest of Europe. There are different
percentages for singles and albums. These figures are kindly
provided on a regular basis by the industry-organisations such
as IFPI-BPI-Gallup-Deutsche Phonoverband etc. A European
Chart-Committee, with experts from a number of these
industry-organisations will overlook the calculation system and
will decide on improvements, changes and updates.
For the EUROPEAN TOP 100 SINGLES 25 charts are used
from 16 countries, for the EUROPEAN TOP 100 ALBUMS 20
charts are used from 15 countries.
Since the sales percentages of a few countries are too small to
get their hits into the EUROPEAN TOP 100 (provided these
records are not charted in any other territory), we are also
printing a TOP 3 IN EUROPE list each week.
The EUROPEAN AIRPLAY TOP 60 is compiled through all our
correspondents tips received this week. (*)Records of the week
receive extra points. The airplay lists of the airplay report
organisations within some of the European countries are also
used in the calculations, as well as playlists of major radio
stations. (**)Please note that not all received tips appear in
Eurotipsheet but they are all used for the calculation of the
Airplay Top 60.
THE EUROCLIPS LIST shows the music-videos most aired on
television throughout Europe in the week prior to publication. It
includes video-t.v.programs and other t.v.shows partly using
video's from 14 European countries.

artists and therefore the big festivals which are
sometimes broadcasted on Eurovision still
attracts the highest ratings such as the
Festival of Venezia, San Remo and Bari. In
Spain there are some smaller shows with
videos but the major show **Tocata** also uses
them and is produced by Mauricio Romero for
RTVE. While in Portugal the pop program
Estamos Nessa produced by Jaime
Fernandes has already finished for this season
and used some videos. In Greece there is the
weekly video show **Musicorama** produced by
George Goupis which has no stops this year
and will continue airing videos every friday
evening.

LOOKING VERY GRIM

In the Northern European countries the picture
for this summer is looking very grim indeed as
most programs are off the air. In Sweden the
Videobeat Show with 30 minutes of music
videos has finished. It was the only
Scandinavian show totally committed to
videos. In Denmark **Eldorado**, which is
produced by Jorgen Mylius and Peter Herforth
is comparable to Top Of The Pops and is
showing a top 10 videolist, but also this
program has now finished for the summer. As
are most programs in Scandinavia. Practically
all other programs either use a very selected
number of videos or none at all. Such as the
Swedish **Nojesmaskinen** produced by
Lennart Andersen and **Mandagsborsen**
produced by Leif Gothlund, both shows which
are finished for the summer as well as the
Casino (producer Heikki Karma) in Finland.
The Norwegian program **Zikk Zakk** (producer
Odd Arvid Stroemstad) uses videos from time
to time and will be off the air very soon.
In Ireland, RTE-2 has just made an agreement
with Green Apple productions to obtain 16
three hours music video shows, which will be
called **MT-USA**, a format which resembles the
MTV channel in the USA. The show will start
regularly in October. There is a strong
upsearch in cable networks using videos of
which Skychannel's **Music Box** is now quickly
extending the time given to music videos.
Skychannel just this weekend received
permission to broadcast in Holland and has
already added Amsterdam as a very important
new area to it's already existing audiences in
England, Norway, Finland, Switzerland, West
Germany and Austria. Early next year they plan
to have a 24 hours a day TV music channel.
RTL Luxembourg has a number of video
programs, basically aimed at the Belgium,
Northern France and the German markets. The
cable program in Belgium has long been
established and is showing videos all day long
and RTL has also started cable broadcasting
in Germany (eg Ludwigshafen). The programs
are called **CLIP-Connection** with blocks of
programs in French, English and German and
RTL-Plus aimed at the German market. There
are many more cable operators looking into
music videos and this market will be
expanding drastically over the next few years.
Most of the above programs are used for the
calculations of the **EUROCLIPS** list as
appearing weekly in **EUROTIPSHEET** and is a
rotation list of videos as used by the most
important programs all over Europe. We are
planning to keep a close watch on the
development of these programs and we ask
the international record companies to send
regular information on new music videos to be
put into production or which are just finished.

MEDIA TALK

First of all our compliments to RTL for a
smooth organised Eurovision Gala under
supervision of Hubert Terheggen and also to
the **Herrey's** from Sweden. There comes
some exciting news from our German
correspondent **Mal Sondock** dj/producer for
NDR in Hamburg and Radio Bremen. From the
1st of November he will start a completely new

thing, so tells Mal rather excited. It will take
place in Phantasialand, Europe's biggest
Themepark (like Disneyland) and will be called
Mal Sondock's Videohitparade. Every show
will take 20 minutes, for 25 times a day. Daily!
The first computer programmed light show in
the world with every song having his own
program written or composed. The inventor of
all this is a certain guy called **Peter Stenz** and
Mal is expecting to draw over 1 million people
this year. You made us curious Mal!
In addition to our news on **Clem Dalton**, the
Swiss correspondent for Radio 24, we can be
more specific on the way he uses Eurotipsheet
in his programs. Every wednesday night the
top 3 of our European Top 100 Singles/
Albums will be presented and the next night on
thursday, the listeners will get a report on the
European Airplay Top 60. On both items
jingles will be made. We're looking forward to
hear them!
Both the **Tony Blackburn** show as well as it's
producer are very popular on BBC Radio
London, but it should still not give us a reason,
to call producer **Guy Hornsby** Tony in his
spotlight. Will he now be producing the **Guy
Blackburn** show? Very good news for the
French Privately owned Radio Stations, now
that President **Mitterand** and his government
have decided to allow commercial advertising,
so far forbidden, on the private radio network.
It was unbelievable up till now how some of
these stations were managing financially.
Rafael Revert Head of Spanish SER chain of
80 radiostations will coordinate the
broadcasting of FM programs from the first
Spanish Record Industry Fair the **Iberdisco 84**
between May 11th and 15th.
Hot news for all European Jocks is the release
of the **Motown Michael Jackson** album
Farewell My Summer Love with previously
unreleased material. With the upcoming
Jackson 5 worldtour there is enough to talk
about, as there is for the hopefully soon
confirmed **Stevie Wonder** European Tour.
Very good use of Eurotipsheet reports Italian
Program Director **Fabio Santini** on his FM
programs in Milano, although with Fabio's
lovely Italian accent it sounded more like
"Euroshitsheet"?!
More news comes from the so-called **Pirate
Stations** with the launch of a new Station on a
ship in the Northsea (Near Radio Caroline)
called **Laser Radio** with **Crispan St.John** on
the helm. We believe they lost their first
Helium balloon and are trying to fix it currently.
Hi there Norway! **Einar Hultberg** from NRK
radio in Oslo will be travelling around the
summer cities of Norway starting first of July
with **Richard Isdell** (d.j. at the popular disco
Pinguin and also working for record company
Sonet). They will be called **The Professionals**
and it's a kind of summer cabaret with 4
mannequins, two breakdancers, singer **Hilde
Heitberg** plus a crazy comedian called
Herodes Falck. The whole thing will be
sponsored by cloth firm **Pocoloco**. The whole
summer...?? As long as you don't forget to give
us your weekly tips **Einar!**
