RADIO GUIDE

This weeks additions on most of the European Playlists are for Bryan Adams' Run To You, the follow-up for Diana Ross', (the Daryl Hall penned) Swept Away, Al Jarreau's Let's Pretend (interesting to note that this album contains more dance-orientated stuff than ever), the Nile Rogers produced Like A Virgin from Madonna (bubbling under the European Singles chart at the moment), Cyndi Lauper's All Through The Night, making it the fourth single from the Portrait/Epic album She's So Unusual, after earlier European hits with Girls Just Want To Have Fun, She Bop and Time After Time; We Belong by Pat Benatar, this week new at 24 in the European Airplay Top 50; the third single from the successful Spandau Ballet album Parade, Highly Strung. Dutch band Fox The Fox have 2 hitsingles out at the moment; while Precious Little Diamond is now moving in (notably) Italy and France, Flirting And Showing is making chart impact in Germany; interesting to note that while Talk Talk's Such A Shame is now breaking in France, Germany is picking up on their first single It's My Life; good reports also (especially from Germany) for Toto's latest Stranger In Town. After 2.5 years of silence, Toto will release two albums at the same time, though through different companies. The studio album for CBS is Isolation (new at 29 this week), while Toto has composed, performed and produced the Dune Soundtrack for Polygram coming out in a couple of weeks.

THE FAMOUS 3 WORDS

The fact that Stevie Wonder merely called to say the famous 3 words gave him no. 1 positions in no less than 9 European Countries while hitting Top 5 in 3 others. And add to this that the same single is already for 12 weeks the best played single in Europe and you'll understand why we pay a special tribute to Motown this week. The Sound of Motown has been copied all over the world by so many artists of which recent examples include Collins' You Can't Hurry Love; Wham's last 2 hitsingles are perfect Motown replicas and the synth bass lines in Madonna's Like A Virgin are very reminiscent of the Holland-Dozier-Holland compositions I Can't Help Myself/The Same Old Song. Watch out for the new Stevie single called Love Lights In Flights and you will be not the first one to mistakenly call it Make Me Feel Like Paradise, cause that is exactly the line that is repeated so many times in the chorus. The other great Motown artist Lionel Richie, who in the States was able to produce 5 Top 10 hits from one album is still going steady in Europe with Penny Love (at the moment no. 27 in the European charts and charted in the UK, Holland, Ireland and Belgium). Motown band from the Sixties, The Temptations make a new entry in the European charts with their wonderfully swinging Treat Her Like A Lady at 65 this week. Biggest move this week for Tina Turner, due to a new entry in the UK and significant chart movement in other European countries, her Private Dancer moves up to no. 21 (from 71) this week. And moreover ... the album pushes the Woman In Red Soundtrack

from its no. 1 position! Other strong jumps for Jermaine & Pia whose single is (apart from the UK!) charted nearly everywhere in Europe and moves to 7 (from 20), McCartney up to 9, Billy Ocean to 11 and due to Italy and France The Bronski's go to 25 (from 40).

A MASS OF GOOD ALBUMS

And what a mass of good albums were pouring in our offices this week! To begin with the fantastic album of Alison Moyet (new at 51); an album that should be able to both please the fans of soul as well as those loving a swinging synth sound; and ofcourse Wham!'s Make It Big (their Wake Me Up is now no. 1 in the US this week, 5 months after it hit the no. 1 mark in the UK) new at 17 this week, Pat Benatar's Tropicana (new at 71), a great album of which we especially would like to recommend Painted Desert and Love In The Ice age as favourite tracks suitable for sophisticated pop formats; Bryan Adam's Reckless; the live album from Duran Duran called Arena, produced by Nile Rodgers and containing their latest studio version of The Wild Boys; Shakin' Stevens' Greatest Hits album on Epic containing his new single Teardrops, already picking up a lot of airplay in the UK; the live album from Talking Heads - Slippery People; Eurythmics 1984 (from the forthcoming movie 1984, based on Orwell's novel); ex Tube singer Fee Waybill releases a solo album produced by Chicago producer David Foster and upcoming are the new albums for Ray Parker Jr. (Chartbusters), Madonna - Like A Virgin and Bob Dylan (Real Life, produced by Glyn Johns).

ABOUT THE CHARTS.....

THE EUROPEAN TOP 100 (SINGLES/ALBUMS):
 In many European countries one chart is recognised by the
 music industry as the "OFFICIAL" hit parade and is therefore
 used for the compilation of the EUROPEAN TOP100. However
 there are other countries where various charts are in existence
 and often equally important. For these countries we have
 compiled a number of these charts into one representing the
 sales in that market.

Each chart position for every country then receives, relevant to
 that position, an equal points rating which is in turn multiplied
 by a factor determined through the latest known sales
 percentage of total singles (or album) sales which that country
 holds in relation to the rest of Europe. There are different
 percentages for singles and albums. These figures are kindly
 provided on a regular basis by the industry-organisations such
 as IFPI-BPI-Gallup-Deutsche Phonoverband etc. For the
 EUROPEAN TOP 100 SINGLES 25 charts are used from 16
 countries, for the EUROPEAN TOP 100 ALBUMS 20 charts
 are used from 15 countries. Since the sales percentages of a
 few countries are too small to get their hits into the
 EUROPEAN TOP 100 (provided these records are not charted
 in any other territory), we are also printing a TOP 3 IN EUROPE
 list each week.

THE EUROPEAN AIRPLAY TOP 50 is compiled through all our
 correspondents tips received this week. (*)Records of the week
 receive extra points. The airplay lists of the airplay report
 organizations within some of the European countries are also
 used in the calculations, as well as playlists of major radio
 stations. (**)Please note that not all received tips appear in
 Eurotipsheet but they are all used for the calculation of the
 Airplay Top 50.

THE EUROCLIPS LIST shows the music-videos most aired on
 television throughout Europe in the week prior to publication. It
 includes video-tv programs and other tv shows partly using
 video's from 14 European countries.
 For more detailed information on any of the chart-systems

THE SOUND OF MOTOWN

by Sharon Davis

The Motown Record Corporation as we know it today was born from an ambition as long as 1957, but it took at least another two years to get the record company under way. The idea came from a young ambitious black man, Berry Gordy Jr. who wanted to discover a type of music that would make an impression on the world. Little did he know that his day dreaming would one day become reality and that he would not only introduce a distinctive, multi-million selling musical trend, but also several international artists as well. Names come to mind immediately of Diana Ross, Stevie Wonder, Marvin Gaye, Lionel Richie, Smokey Robinson, The Supremes, The Jackson 5, The Four Tops, The Commodores - and these are just a handful!

Tamla Motown was the first black owned and run record company, housed on the rough side of Detroit, Michigan, where *The Sound of Motown* was born. Running the company with Berry Gordy Jr., was William 'Smokey' Robinson and a small tight-knit staff. Today Motown is the world's largest independent record company, with the nerve centre based in Los Angeles, and Gordy is still at the helm as Chairman with Jay Lasker as President. It is also the only company to have its International Vice-President based in Europe. Peter Prince is Motown's International Vice-President and Managing Director of Jobete Music (UK), David Giffen - International Business Affairs, Roger Upright - International Manager and Ivan Chandler - Jobete General Manager. They are based in Rathbone Place, London. Again, the office is tightly run with a small and energetic staff, based on Berry Gordy's concept of a family business that has stood him in good stead over the years.

In 1959 Motown's first official single was released on the Tamla label *Barrett Strong's* 'Money (That's What I Want)'. The Motown label was opened in 1961 with *The Satintones'* 'My Beloved'. Later in this year *The Marvelettes* gave Berry Gordy his first American number one single 'Please Mr. Postman'. With success Berry signed more artists, mostly Detroiters, and added to his roster of labels by acquiring Anna, Tri Phi, Harvey, Golden World, amongst others, and opening further in-house labels like Gordy, Soul and VIP.

MOTORTOWN REVUES

By the early 1960's, therefore, acts like *Martha & The Vandellas*, *The Temptations*, *The Miracles*, *The Vevelettes*, *The Contours*, *Jimmy Ruffin*, *Shorty Long, Jr.* *Walker* and *The All Stars*, *Mary Wells* and *The Supremes* were releasing one hit record after another on a variety of labels, and were performing on the Motortown Revues to standing room only

audiences. Motown product was filtering through to Europe on a selection of record labels, until March 1965 when the Tamla Motown label was opened in England with 'Stop! In The Name Of Love' by *The Supremes*. A year earlier the trio made music history by simultaneously securing the number one spot in America and England with 'Baby Love' on Stateside label. This was the start of a career that turned the group (Diana Ross, Mary Wilson and Florence Ballard) into the world's most successful female act ever! The distinctive Tamla Motown label boasted a flow of hit product until the early Seventies when the *blue Motown logo* was introduced for all territories outside America. During the mid and late Sixties a host of new top selling acts carried *The Sound Of Young America - The Four Tops, The Spinners, Stevie Wonder, Marvin Gaye, The Isley Brothers, Brenda Holloway, The Elgins, Edwin Starr and David Ruffin*. By early 1970 most of them were international names and in constant demand the world over.

TRENDSETTING

Just as Motown appeared it couldn't top its success, it went a step further and introduced to the world *The Jackson 5*, a solo *Diana Ross*, *The 'new' Supremes* and a revitalised *Marvin Gaye* and *Stevie Wonder*. The secret behind much of Motown's continued success is the ability to produce music that has an international appeal. The music has set, not followed, trends; wherever Motown leads, others follow. "We do not make records with the European market in mind" explains Jay Lasker, Motown's President. "If we did we would be making records for something we knew nothing about. We do, however, try to make the best, commercial records possible, and hope that the success in the States will rub off in Europe. Some are hits, some aren't because the markets vary so much from America. Of course in England the language

and successful association

barrier is less of a problem and we do look to this market as the entry to Europe. Our A&R people don't say this record is going to be a smash in Germany, for example, but to some extent they know a British record, and sometimes can predict hits in that territory. Also, on occasion a Motown record is a hit in England and Europe but not in The States. Gary Byrd's 'The Crown' was a tremendous hit everywhere except America, and the Michael Jackson track 'One Day In Your Life' was a number one UK record. Yet in America the radio DJs said they couldn't play it because it sounded too dated".

Such is the significance of Motown's universal acceptance that the International Division was introduced. This made the working relationship between Motown and its licensees that much easier and accessible. RCA is the licensee, for all Europe except Italy, and CBS Songs have sub-licensed the publishing from Jobete for all of Europe. Peter Prince, vice-president for six years now, explained the importance of his division. "Motown believes in a very strong international attitude and having this division in Europe shows how important the overseas market is. Motown is still the biggest independent in America, and in addition to being our springboard to the world, the British charts are equally important to international territories as a launching pad for breaking our records. For the past years, since this division was opened the policy has worked well for

Motown and we have a unique operation that is of benefit to our licensees and of course to Motown itself."

THE PERSONAL TOUCH

Due to the vast area his division has to cover, Peter Prince spends so much of his time visiting the licensees, preferring the personal touch to phone and telex use. He says "The image of Motown has always been one of a personalised company which stems from Berry Gordy himself, so it helps not only to keep those personal relationships with our licensees, but also to make them aware that, although Motown is basically an American company, the direction of its product is international. We consider we have a strong representation in each territory, and as foreign markets vary so much, it is important to know the markets well. And this is very much a key-factor in our success".

With Motown being US based it's not always viable for artists to be on hand to personally promote repertoire. However, this is not too much of a handicap for with most releases a promotional video is prepared, and where possible promotion tours are arranged, particularly with new signings. Also, artists are readily available on the telephone for radio and press interviews. "We aggressively support and promote our artists" stresses Prince. We fully realise how important videos are in the international market especially with the

restrictions of the artist' availability. These videos are prepared for all types of promotion and, of course, are available to all our licensees. This area is perhaps one of the reasons why so many acts have stayed with the label over the years. Some may leave, but they always seem to retain the Motown identity. And some even come back!". As if to back up this statement three of Motown's stalwart acts returned last year - *The Four Tops*, *The Temptations* (who together toured America as a block-busting double act) and *Junior Walker* - and their previous successes are already being repeated. "Their return to Motown is greatly welcomed by us and our licensees" added Peter Prince.

However, Motown has never been content to sit back and glory in past achievements and established acts. Over the last two years for example *Finis Henderson*, *Gene Van Buren*, *Bobby King*, *Michael Lovesmith* and *Monalisa Young* have carved a niche in the music business, thanks to Motown's strong promotion and belief in signing exceptional talent, both black and white. Jay Lasker:

"People are under the wrong impression when they think it would be hard to find a white artist who has sold as many albums as *Lionel Richie*, or Michael Jackson. Lionel's 'Can't Slow Down' album is Motown's biggest selling record in the company's history. Colour does not mean anything; it's the product that counts".

25TH ANNIVERSARY

Last year Motown celebrated its 25th Anniversary, a feat very few companies achieve, let alone celebrate. Special product was prepared and released worldwide, but the highlight of the year was the television spectacular featuring a large proportion of Motown's past and present acts. Diana Ross, Michael Jackson, Marvin Gaye and The Jacksons returned to pay tribute to Berry Gordy, alongside signed acts on a two hour spectacular which has only been screened in the States so far. Peter Prince is confident that in the near future the show will be available for the rest of the world. No other record company has warranted a two hour programme on national television and this fact alone surely proves the significance of a company that started with six hundred dollars in the bank and the determination and dedication of Berry Gordy. Also during 1982 Lionel Richie left the Commodores to pursue a solo career, and not even he could have imagined the success he would enjoy. In less than two years, he has released several multi-million singles - 'Truly', 'All Night Long (All Night)', 'Hello', 'Penny Lover' - collected more industry awards than most other artists, and all due to two albums.

both of which could be retitled 'greatest hits' packages. Following a standing room only tour of America and being asked to close the 1984 Olympic Games in Los Angeles, Richie has returned to the studios to cut this third album. Plans are in the pipeline for him to tour Europe next June, while the Commodores next album will be ready in February. With the departure of member *Thomas McLary*, ex-Heatwave vocalist J.D. Nicholas joins *The Commodores*. Thomas is currently recording a solo album under an exclusive contract with Motown and this is due for release early next year. With a single called 'All Night Long' (but a different song) the world was, in 1983, introduced to Rick James' backing quartet, *The Mary Jane Girls*. Their first single 'Candy Man' put them on the map, but it was their second release that turned them into an international name. Their second album, again produced by James, will be released next month.

BEST MALE VOCALIST

This year further exciting names were added to Motown's roster. The beautiful *Phyllis St. James*, born and raised in Oakland California, who gained musical experience singing with the Hawkins Family and Andre Crouch. Her 'Ain't Turning Back' album has already been critically acclaimed and so far has spawned the hit single 'Candlelight Afternoon'. Joining her is the multi-talented *Sam Harris*. He hails from Oklahoma. In 1979 Harris enrolled at Los Angeles' ULCA to study the theatre and musical comedy. He went on to audition for the American TV talent show 'Star Search' and won the entire series as Best Male Vocalist. Again, his debut album 'Sam Harris' is Top 40 in USA although his talent cannot be confined to a particular market, his first single 'Sugar Don't Bite' is in US charts also. And ex-leader of Vanity 6, *Vanity*, born in Niagara Falls, Canada, has just issued her first solo album for Motown. Titled 'Wild Animal' this extraordinary writer/producer/singer has brought a whole new sound with her which is easily comparable to the early work of Rick James, with an Eighties feel. Apart from her recorded work *Vanity* also plays the lead part in the Berry Gordy movie 'The Last Dragon' (a musical martial arts story), which will be released in America during March. She tours Europe starting 11th of November. The soundtrack album is due early next year and features *Vanity* of course, plus *Charlene* and *DeBarge* who will have new product available next year. "DeBarge," says Jay Lasker "have already earned two gold records in the States and we still haven't released their best work. They are tremendously successful here, and we want to make them a big act in Europe also".

COMPILATION ALBUMS

Compilation albums have always formed a major part in Motown's catalogue and more importantly they are big sellers. Again, how many other record companies could produce these albums with such regularity and with such success? With the advent of TV promoted albums Motown was a forerunner and hasn't looked back. The first was *Diana Ross* and *The Supremes*' '20 Golden Greats' and the latest is *Stevie Wonder*'s 'Love Songs', following *Telstar*'s exceptional ability in cornering this market for Motown in UK with similar releases from *Michael Jackson* and *Marvin Gaye*. *Wonder*'s compilation, due this month, is initially available in the UK. Containing tracks like 'We Can Work It Out', 'My Cherie Amour' and 'I Was Made To Love Her' it follows his soundtrack album 'Woman In Red'. Despite reservations from the media regarding the viability of this soundtrack it did produce *Wonder*'s very first UK solo number one 'I Just Called To Say I Love You' with the album nearing the million sales mark. With his extensive touring programme now behind him, *Stevie* is back in the studios putting the finishing touches on his next work 'Circle In The Square' due early next year. *Peter Prince* was first associated with Motown in 1963 when he was handling their promotion

while at EMI. The product was then released on the Stateside label. He's confident the future will see Motown progressing even further in the breaking of new artists, the continued avid support of established acts and the total dedication in promoting Motown the world over. "We are constantly trying to improve our success rate, not only for ourselves, but also to give our licensees the kind of success they envisage when they sign to Motown. To do that we have the strength of product, but we have also got to go out and give those markets what they want and provide them with the back up they need. I would say our approach from London is the right one, and over the past years, we have reaped some worthwhile rewards. For the first quarter of 1985 we will have new albums from *DeBarge*, *Smokey Robinson*, *The Four Tops*, *Rick James*, *Dennis Edwards* and of course, *Stevie Wonder*, *Lionel Richie* and the *Commodores*. The *Temptations* who are currently enjoying a long overdue hit with 'Treat Her Like A Lady' will have their new album out, and we are hoping they will visit Europe next year but since rejoining Motown they've had a fairly exhaustive schedule to work. In 1984 Motown still possesses the same excitement that it had when I first began my association with the label back in 1963 and I don't think there are too many people who can say the same about another record company".

LONDON CALLING

by Howard Marks

New singles up and coming at the moment, are from such names as *Human League, Cliff Richard, The Alarm, Ray Parker Jr., Tina Turner, Helen Terry, Culture Club, Imagination*, and *Paul McCartney* releases a single obviously aimed at the Christmas Market, with an outfit who call themselves *The Frog Chorus*, very strange indeed...

Radio London jock *Tony Blackburn* will be taking a vacation for a couple of weeks and Radio One jock *Andy Peebles* will be sitting in for him. *Peebles* is also a soul music expert, so *Tony Blackburn* fans will not be too disappointed. I have been listening to a new pirate station recently called *Solar Radio*, a very strong signal, and lots of soul music being played. Strangely enough, there seems to be an abundance of Greek and Turkish pirate radio stations springing up in London at the moment, very annoying if you're trying to locate a genuine commercial radio station. While on the subject of radio, congratulations to Radio One producer, *Tony Wilson* and wife *Maggie*. They are the proud parents of a new born baby girl.

Wham!'s London party recently to launch their new album was packed with all the right people, to ensure that a good night was had by all. One guest was a person who hasn't been seen for a long time, that person was *David Cassidy*, and apparently looking as youthful as ever, could this mean that we'll see the *David Cassidy* revival?

Al Jarreau releases his new album *High Crime*, and single *Let's Pretend*, and also comes to London for a week of radio and television promotion. He has also sold out the *Wembley Arena* for a concert. Nice going for a much respected artist such as *Al*, even though he has never had a major hit single in the U.K.

Gary Numan back in the charts with his current single entitled *Berserker*, and releases his new album of the same name this month. It springs to mind that *Gary*, who owns several planes is touring the U.K. during November and December, because of his record of crash landings, one can only hope that he will not be flying himself from venue to venue on the tour.

Howard (what a great name) *Hewett* of *Shalamar*, has put the band back together with two new members, and releases a new single through *MCA Records* entitled *Amnesia*. *Howard* (another great name) *Jones*, has added more dates to his tour. *Chas N' Dave*, the Cockney duo will be playing their usual London shows this Christmas, and poor old *Blancmange* have had to cancel their Christmas dates, and re-schedule dates for the new year.

My favourite single at the moment is from a little known reggae artist, called *Smiley Culture*. The single is called *Police Officer*, it's wonderful, and should be a huge hit in the U.K. *Rick Wakeman*, releases his first ever single this week, entitled *Glory Boys*. *Trevor Walters* who has had some success recently by beating *Lionel Richie* in the charts with his cover version of the *Richie* song *Stuck On You* has signed a deal with *Polydor Records*.

Finally, a nice idea for Christmas. A new band called *Inspiration*, are releasing their debut single via *Phonogram*. The single is called *You Don't Know How Lucky You Are*, the band are donating all the royalties to a very special charity which the UK Music Industry supports throughout the year, known as the *Nordoff-Robbins Music Therapy Centre*. The whole idea is for all of the leading independent radio promotion men and ladies to help promote the record collectively.

STRANGE CHEMISTRY

Alison Moyet - Alf- CBS

From her earlier single releases Love Resurrection and All Cried Out, it was evident that Jolley & Swain's synthy pop sound matched very well with Alf's bluesy vocals. Except for the track *For You Only*, there are no weakspots on this album. The absolute highlight should be *Where Hides Sleep* based around an irresistible repetitive theme making it very suitable for nighttime play. Further recommended tracks include the synthy funk songs *Twisting The Knife* and *Invisible*.

Deep Purple - Perfect Strangers- Polydor

What has been speculated so long is finally a fact. The reunion of Deep Purple, in their original lineup consisting of Ritchie Blackmore, Ian Gillan, Roger Glover, Jon Lord and Ian Paice and just like their classic records, DP In Rock, Fireball and Machine Head, this is another record that everyone who likes hardrock should have in his possession. The energy and power are still intact in view of tracks like *Perfect Strangers*, *Knocking At Your Back Door* and *Nobody's Home*.

Wham! - Make It Big - Epic

Wham's career (so full of explanation marks) started off big with Young Guns, a funky and decided rap telling us to Go For It! Well, that's exactly what whole of Europe did, and this strong 'greatest hits' album will again have no trouble making it in the charts. Most of the tracks have a Sixties feel and although the lyrics are sometimes of a charming simplicity all is done in the best possible taste. Best tracks: *Credit Card Baby*, *Like A Baby* and *If You Were There*.

MILANO CALLING

by Fabio Santino/Claudio Buja/Lidia Bonguardo

Lucio Dalla has the most selling Italian album this month with his self-penned *Viaggi Organizzati*, which is distributed on RCA. Famous d.j. **Renzo Arbore** presents a series of television shows around the Sixty years' anniversary of RAI Radio in Italy and talks with all celebrities which RAI discovered as well as on the radio history. These are 5 shows on the first channel every Tuesday. **Claudio Cecchetto's** very artful and popular videowhow *Deejay Television*, which already has great ratings on its Saturday night spot, is now broadcasting daily and makes a strong impact for the Italian record industry. **Gianni Ravera**, organizer of the St. Remo festival has officially announced the dates for this year which will be January 31 till February 2nd. The line-up will be confirmed later. For the first time, all Italian record companies agreed on a act for the broadcasting on videos and are asking a nominal fee to be paid for each showing.

Celebrity **Vasco Rossi** just taped the story of his life to be broadcast in eight chapters on Radio Deejay. This is a unique program since Vasco rarely ever gives interviews. **Sandy Marton** started his tour through Italy and is adding dates in Switzerland and Germany. His single is still riding high in the European charts. New group **Novecento**, which scored big with their first single, are in the studio preparing their debut album. Good news for the Italian headbangers with tours this month by The Scorpions, Iron Maiden, Motley Crue, Joan Jett and Meat Loaf.

NEWS CORNER

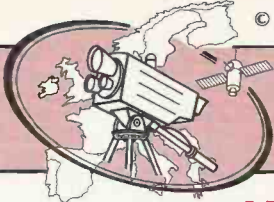

Hi again. As already announced, ERIC GOULDEN (former WRECKLESS ERIC) is back with a new band, CAPTAINS OF INDUSTRY. On bass NORMAN WATTRAY, keyboards MIKE GALLAGHER, both ex-Blockheads, drums DICK ADLAND, guitar ERIC himself. Currently they are just finished recording their debut album in a studio in Chinatown. Just released though is their first single: *Life Line/A Girl In A Million*. As the Captains are gigging as well, try not to miss them ★
JAN AKKERMAN has a new album on the market entitled *From The Basement*. Jan and his group will be on a Dutch tour, also a tour through Germany has been planned in the near future ★ Remember FREEZE? Remember I.O.U.? Then surely you'll know who JOHN ROCCA is. Well, his follow-up single has just been released, entitled *Once Upon A Time* ★ Then let's talk about gigs. QUEENSRYCHE. The surprise of the evening, playing with perfection and enthusiasm. With an absolutely mindblazing drummer. GEOFF TATE is a talent to be watched closely. Their songs and lyrics make it clear, that we are not talking about airheads here - but great musicians able to fulfil more than the sound produced on their album. One could say, they're better live than on vinyl. Queensryche is heading for a leading position. Currently their debut album *The Warning* gets a lot of attention. Big plans ahead of them are the tour with KISS in The States and Canada. Beginning of next year there will be a 1 hour live video, recorded mainly in Japan. Plans to return to Europe are made for February ★ As BON JOVI jumped on stage, it was clear that here we saw a new superstar band, working their way through their entire debut album. With an absolutely outstanding voice, JON BON JOVI is the discovery of the year and as highlighte the beautifully sung single *Runaway*. 3 Encores for a support band, ain't bad isn't it? ★
MOTORHEAD, London Hammersmith Odeon. This was the last gig of a 16 date UK tour, and it was sold out. Along their whole tour Motorhead was supported by PERSIAN RISK (The former band of M.H. guitarist PHIL CAMPBELL). The wait was for LEMMY and his boys. As known, one of their 2 guitarists WURZEL, has been taken ill and was rushed to hospital, suffering from kidney stones just after playing a few gigs on this tour. Luckily Wurzel was released the day the Odeon gig was on. Lights out - Motorhead stormed on stage. Immediately the kids fists were rising as Motorhead crashed through their set.
The first three quarters they played material from their live album, *No Sleep Till Hammersmith*. Although it was LOUD, the sound was perfect, so was the atmosphere. Wurzel, still weak, was waiting backstage - only

HERE SHE IS AGAIN

to be pushed on to the stage in a wheelchair, pounding away the last few
songs. The new ones - amongst which were Motorhead, Bomber - the
stage was covered in smoke as the big steel Bomber came in action. A
very impressive sight! The kids wouldn't let the band leave the stage -
only after 2 long encores. As Motorhead finally left the stage, a wall of
sounds was produced of roaring plain motors as the bomber was
slowly hovering over the stage, then smoke and blasting sirens - The
End. Whether you like them or not, one thing you can't deny their
impressive show and their contact with the audience. At their gig
Motorhead was presented silver for their album No Remorse! They are
now starting a US tour until around Christmas, as a four piece band again ★
BON JOVI and QUEENSRÛCHE are THE discoveries of the year.
Seldom have I seen two bands with frontmen good as theirs. With a little
help from the European sight they are bound to break big. That's it for
now...Luv Alexandra ★ ★
