MAJOR EXPANSION FOR EUROTIPSHEET!

MORE NEWS... MORE FEATURES... MORE TIPS... MORE PAGES!

MORE PAGES

Over the next two months ^ware going to introduce a number of new features for Eurotipsheet. Therefore the magazine is being extended. The Basic Report used to have 12 pages, we are now extending this to a minimum of 16 giving you more news!

EXTRA ALBUM TIPPAGE

From this week onwards you will find an extra **Album Tippage** in Eurotipsheet opposite the European Top 100. Our magazine already had very strong contacts with the DJ's/Producers of the most important European singles- programs but lately more and more album orientated DJ's are using our information. To further help these experts with their programming we will be putting more emphasis on albums in the future and also show the three most played albums on European radio as well as The Album Route, our LP recommendation list. This means that page 3 is now totally devoted to singles. We are happy to introduce this week on this page our **Maxi Route** recommending 12-inch releases which are most suitable for programming.

COMPACT DISC

More and more European radio stations are broadcasting regular Compact Disc programs or are playing more CD's during their normal programs. On May 13 we will start our first of a monthly CD section aimed at our DJ's/Producers and giving news about professional hardware; most recommended CD's and New Releases. We would like to hear as much as possible from all of you out there, who already have CD programs.

SPOTLIGHTS ON ARTISTS

We will also use our extended space for spotlights on interesting artists, which gives you more background to use in your presentations. We will also be putting more emphasis on local acts, meaning national product that has crossover potential.

VIDEONEWS

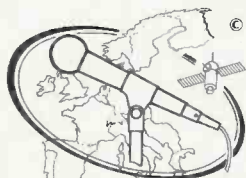

You will have noticed that we are extending our videonews corner which is printed bi-weekly. We hope this will help the TV producers selecting the best videos for their programs. The whole clip business is still in turmoil with various countries debating rights and payment for television use. We will keep a close watch on this situation and also introduce new videos.

EURO DANCE REPORT

In a few months we will be starting our bi-weekly European Dance Report which will include charts from various countries, new releases and tips from the most important European clubs. This section will be totally devoted to danceable product.

THE INDEPENDANTS!

Upon request from many progressive European deejays we will soon be starting a section on independant product and give more information on progressive new releases from smaller labels. We invite you, our correspondents, to actively get involved in this section and keep us very strongly informed about your personal favourites from these independants.

Singles Guide

This week we are introducing the first part of various major changes for Eurotipsheet. You can read all about it on the opposite page, but for those of you checking the recommendation lists on this Tip Page you may already have spotted the difference. We are presenting our first of a weekly **MAXI ROUTE** containing the most recommended 12 inch records as selected by the editorial team of Eurotipsheet. You can now find our Albums Route on the Albums Tip Page which you will find every week opposite the European Album Top 100. You will also notice that Eurotipsheet is growing "fatter", more pages of news, tips and specials. Our mailing list has increased drastically with the addition of many album-orientated deejays and producers. But now let's see what "singles" music has in store for us this week!; first of all no doubt European Radio will react very strongly on the solo single of Freddie Mercury - *I Was Born To Love You*, not quite a very 'new' sound but very commercial indeed. Our second obvious

choice for category Record Of The Week goes to Rick Springfield who sounds very alive and young in the synthi-based popsingle from his latest album *Tao*.

What Springsteen couldn't really accomplish with *Cover Me* (though according to us still one of the best tracks of his album) will probably happen with his latest *I'm On Fire*. Supported by an effective videoclip this one will do very well on European Rockradio. Billy Ocean shares his most intimate feelings with us on the title track of his successful album *Suddenly*; Howard Jones continues his success with the commercial and cheerful *Look Mama* while Phyllis Nelson comes very close to us with the absolutely wonderful ballad *Move Closer*

41 HUMPE HUMPE !

One of the most refreshing Euro talents of the last few months is Humpe Humpe, two sisters from Berlin, Germany who had a hit together with DOF in 1983 with the European smash *Codo* and who we already spotted in our Germany Special March 11th. Their single *3 Of Us* is about to be released in Europe through WEA and should get your utmost attention: a superb new wave production with a very infectious chorus! (Listen also to the albumtrack *Yama-Ha* which may be good for Japanese trade too?!). The USA For Africa

project is exploding everywhere with dramatic European consumer demand; the clip is Europe's most programmed video, the single moves as expected to number 1 (from 4 in its third week!) and is also Euro-Airplay Smash. Further to that the album is just out and will be a top selling item very soon (see also page 13).

62 TOUT SIMPLEMENT

France is reacting very strongly at the moment on a single by a female singer called Bibi with a track entitled *Tout Simplement*, which reminds us very strongly of a former French hit by artist Joe Dassin (the Continental hit *L'Ete Indien*). Due to that same France fast movers in this weeks Airplay Top 50 are Commodores and Ashford & Simpson's *Solid* (while in the UK a follow up has just been released called *Babies*) and to prove that France is not one of the fastest markets in Europe Wham's *Everything She Wants* re-enters the European Top 100 singles at 51 this week. Dire Straits will be doing an extensive "CD" worldtour this year and as a warm-up their latest single *So Far Away* (where Mark Knopfler sounds like Mink DeVille...) is just out on the market and already moves in its second week from 36 to 13.

spotlight on

In our Spotlight we'll feature important radio or television personalities and their stations. One by one this will become a book of the top media people in Europe.

WILLIE & THE WHO !?? ...

More and more artists from the Sixties are gathering together to pay tribute to the music that inspired them the most when they were growing up. Think about The Honeydrippers; vocalist Robert Plant together with a.o. Jeff Beck, Nile Rodgers and legendary Atlantic producer Ahmet Ertegun giving a new twist to r&r and r&b standards like Sea Of Love and Rockin' At Midnight. Or think about the soundtrack to the movie Porky's Revenge, George Harrison, Dave Edmunds, Jeff Beck, Robert Plant, Phil Collins etc. performing r&r standards like Highschool Nights and Love Me Tender.

But a new and exciting superstar group is on its way. The end of this month sees the release of the Willie And The Poor Boys superstar project of which all the proceeds will go to the A.R.M.S. (Action Research into Multiple Sclerosis). Set up by Rolling Stones bassist Bill Wyman, Willie And The Poor Boys has been set up as a permanent structure with five core members plus a wealth of superstars making guest appearances. The permanent members of the group are Wyman, Charlie Watts, Andy Fairweather Low, Geraint Watkins and Mickey Gee. Guests on the album include (a.o.) Jimmy Page, Paul Rodgers, Kenney Jones and Chris Rea.

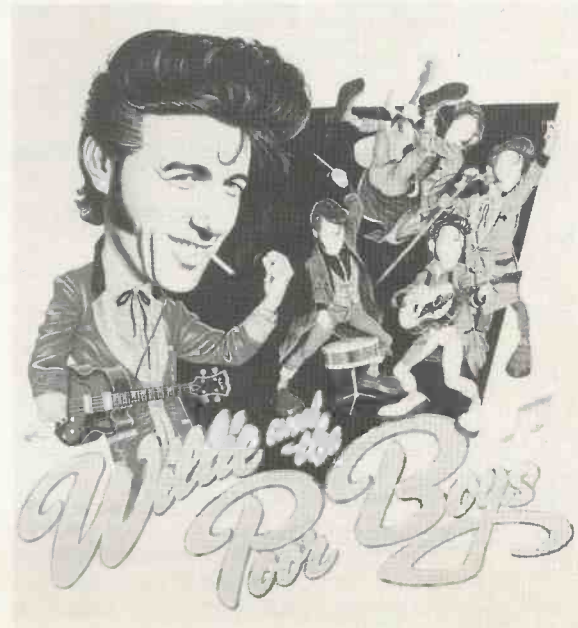

"We had three goals in mind when we put together the Willie and the Poor Boys project" explains Bill Wyman who also produced the album. "We want to raise money for A.R.M.S., of course, and to keep the public aware that money is always needed for M.S. research. We also want to make a new generation aware of some of the music that inspired all of us when we were growing up. This music has its origins in the 1940's and 50's. It is a combination of blues, swing, boogie and early rock styles. As a side benefit, this project will provide exposure and employment for a number of excellent musicians who are not so well known as they should be".

When Ronnie Lane became afflicted with M.S., it focused the attention of

his musical friends who put together a benefit concert in London in 1983. It brought together the reunion of Eric Clapton, Jimmy Page and Jeff Beck and was so successful, that it was expanded to include a series of U.S. concerts. Although most of the musicians involved had permanent commitments elsewhere, a number of them expressed interest in continuing A.R.M.S. benefit projects which eventually led to the formation of Willie and the Poor Boys.

This unique project will be supported by a thirty-minute video and the first single taken from the album will be Baby Please Don't Go and released on the Mercury/Phonogram label.

Other tracks on the album include You Never Can Tell, Slippin' And Slidin' and These Arms Of Mine.

TURNTABLE TIPS

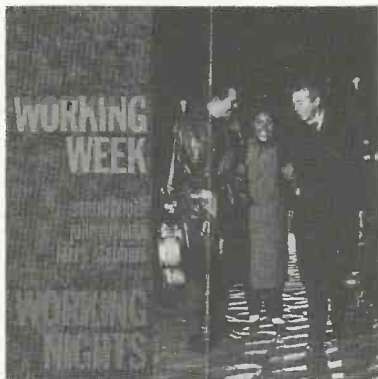

Chris Isaak - Silvertone- Warner
 Until now nearly none of our correspondents have mentioned this remarkable debut album by the American born Chris Isaak. His music leans on rockabilly and c&w, but contains enough personal touch that these influences are never annoying. Try tunes like 'Dancin'', 'Back On Your Side' and 'The Lonely Ones'.

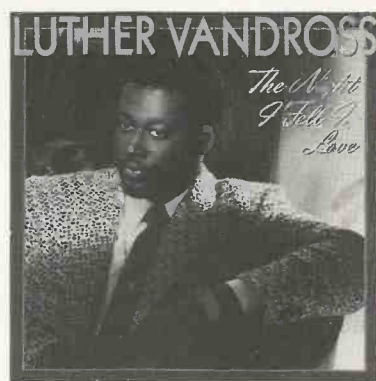

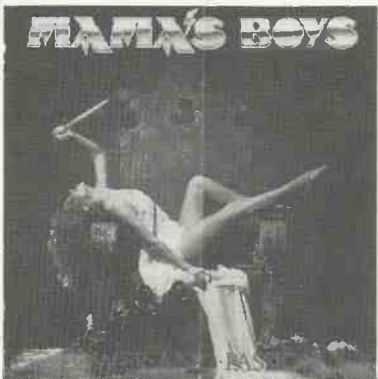

Horizon - Master of the Game- CBS
 New heavy talent on the horizon of rock. Finally their debut album is out, set to break the band's promising name. This is no mindless head banging stuff but more sophisticated hard rock with melodic lines. Once again this proves the Dutch can rock hard.

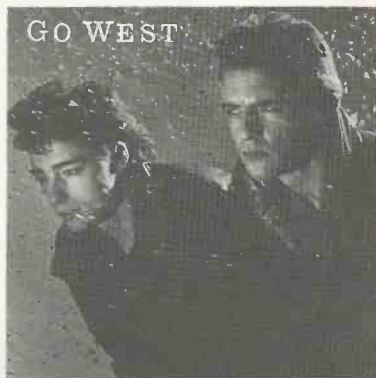

Working Week - Working Nights- Virgin
 A collection of warm and soulful jazz tunes from a band that first debuted with the Bossanova-tinged *Venceremos*. The climate seems to be mature for cool and jazzy pop. Check out tunes like 'Inner City Blues' and 'Thought I'd Never See You Again'. An extra 12" single is included.

Mama's Boys - Power and Passion- Jive
 Their second album and the best so far. Three brothers hailing from Ireland. Heavy Celtic rock mixed with Irish folk influences. Guitar upfront - no technical studio tricks. Produced by Chris Tsangarides. You should check out 'Hard'n Loud', or even better, get this album - your mama will love it!

Luther Vandross - The Night I Fell In Love- Epic
 American lady killer Vandross delivers another fine set of funky up tempo tunes with sweet and sultry ballads. The single 'Til My Baby Comes Home' deserves to be a hit all over, while tracks like 'Wait For Love' and 'If Only For One Night' are well suited for nighttime play.

Go West - Go West- Chrysalis
 This new young two-piece band could be the English answer to Hall & Oats. An album full of good hooks and strong melodies coupled with exciting and sophisticated arrangements. Already on its way as one of Europe's best played albums with tracks like 'Call Me', 'Don't Look Down' and 'S.O.S.'.
